SUNSTONE HOTEL INVESTORS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Organization and Description of Business

Sunstone Hotel Investors, Inc. (the Company) was incorporated in Maryland on June 28, 2004 in anticipation of an initial public offering of common stock, which was consummated on October 26, 2004. The Company, through its 100.0% controlling interest in Sunstone Hotel Partnership, LLC (the Operating Partnership), of which the Company is the sole managing member, and the subsidiaries of the Operating Partnership, including Sunstone Hotel TRS Lessee, Inc. (the TRS Lessee) and its subsidiaries, is currently engaged in owning, acquiring, asset managing, renovating and selling hotel properties. The Company operates as a real estate investment trust (REIT) for federal income tax purposes.

As a REIT, certain tax laws limit the amount of non-qualifying income the Company can earn, including income derived directly from the operation of hotels. As a result, the Company leases all of its hotel properties to its TRS Lessee, which in turn enters into long-term management agreements with third parties to manage the operations of the Company's hotels. As of June 30, 2007, the Company owned 46 hotels, and its third-party managers included Sunstone Hotel Properties, Inc., a division of Interstate Hotels & Resorts, Inc. (SHP), the manager of 27 of the Company's hotels; Marriott International, Inc. (Marriott), manager of 13 of the Company's hotels; and Hyatt Corporation (Hyatt), Fairmont Hotels & Resorts (Fairmont), Hilton Hotels Corporation (Hilton) and Starwood Hotels & Resorts Worldwide, Inc. (Starwood), collectively manager of six of the Company's properties. In addition to its leased hotels, the Company has a 38% equity interest in a joint venture that owns the Doubletree Times Square, located in New York City, New York.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements as of June 30, 2007 and December 31, 2006, and for the three and six months ended June 30, 2007 and June 30, 2006, include the accounts of the Company, the Operating Partnership and the TRS Lessee and their subsidiaries. All significant intercompany balances and transactions have been eliminated.

The accompanying interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and in conformity with the rules and regulations of the Securities and Exchange Commission. In the Company's opinion, the interim financial statements presented herein reflect all adjustments, consisting solely of normal and recurring adjustments, which are necessary to fairly present the interim financial statements. These financial statements should be read in conjunction with the financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006, filed with the Securities and Exchange Commission on February 8, 2007.

Application of New Accounting Standards

The Company has adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes—an interpretation of FASB Statement No. 109 (FIN 48), as of January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement 109, Accounting for Income Taxes, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on its evaluation, the Company has concluded that there are no significant uncertain tax positions requiring recognition in our financial statements. The Company's evaluation was performed for the tax years ended December 31, 2004, 2005 and 2006. These are the tax years which remain subject to examination by major tax jurisdictions as of June 30, 2007. The Company may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event the Company receives an assessment for interest and/or penalties, it will be classified in the financial statements as tax expense.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from those estimates.

Table of Contents**Reporting Periods**

The results the Company reports in its consolidated income statements are based on results reported to the Company by its hotel managers. These hotel managers use different reporting periods. Marriott uses a fiscal year ending on the Friday closest to December 31 and reports twelve weeks of operations for each of the first three quarters of the year and sixteen or seventeen weeks of operations for the fourth quarter of the year. The Company's other hotel managers report operations on a standard monthly calendar. The Company has elected to adopt quarterly close periods of March 31, June 30 and September 30, and an annual year end of December 31. As a result, the Company's 2007 results of operations for the Marriott managed hotels include results from December 30 through March 23 for the first quarter, March 24 through June 15 for the second quarter, June 16 through September 7 for the third quarter, and September 8 through December 28 for the fourth quarter. The Company's 2006 results of operations for the Marriott managed hotels include results from December 31 through March 24 for the first quarter, March 25 through June 16 for the second quarter, June 17 through September 8 for the third quarter, and September 9 through December 29 for the fourth quarter.

Accounts Receivable

Accounts receivable primarily represents receivables from hotel guests who occupy hotel rooms and utilize hotel services. Accounts receivable also includes receivables from customers who utilize the Company's laundry facilities in Salt Lake City, Utah, and Rochester, Minnesota. The Company maintains an allowance for doubtful accounts sufficient to cover potential credit losses. The Company's accounts receivable at June 30, 2007 and December 31, 2006 include an allowance for doubtful accounts of \$0.5 million and \$0.6 million, respectively.

Deferred Financing Costs

Interest expense related to the amortization of deferred financing costs was \$0.7 million and \$2.0 million for the three months ended June 30, 2007 and 2006, respectively, and \$1.0 million and \$3.0 million for the six months ended June 30, 2007 and 2006, respectively.

Earnings Per Share

The Company applies the two-class method as required by EITF No. 03-6, Participating Securities and the Two-Class Method under FASB Statement No. 128, Earnings per Share (EITF No. 03-6). EITF No. 03-6 requires the net income per share for each class of stock (common stock and convertible preferred stock) to be calculated assuming 100% of the Company's net income are distributed as dividends to each class of stock based on their contractual rights. To the extent the Company has undistributed earnings in any calendar quarter, the Company will follow the two-class method of computing earnings per share.

Basic income available to common stockholders per share is computed based on the weighted average number of shares of common stock outstanding during each period. Diluted income available to common stockholders per share of common stock is computed based on the weighted average number of shares of common stock outstanding during each period, plus convertible redeemable preferred stock and unvested restricted stock awards considered outstanding during the period, in accordance with SFAS No. 128, Earnings per Share.

The following table sets forth the computation of basic and diluted earnings per common share (in thousands, except per share data):

For the three and six months ended June 30, 2007, shares of the Company's Series C preferred stock are reflected in the above calculation on an as-converted basis as this presentation is more dilutive. For the three and six months ended June 30, 2006, shares of the Company's Series C preferred stock are not reflected in the above calculation as their effect would have been anti-dilutive.

This hotel's results of operations from the acquisition date of January 4, 2007 through Marriott's second quarter ended June 15, 2007, have been included in the Company's income statements.

In March 2007, the Company purchased the 402-room Marriott Long Wharf located in Boston, Massachusetts for \$228.5 million and retained Marriott as manager. This hotel's results of operations from the acquisition date of March 23, 2007 through Marriott's second quarter ended June 15, 2007, have been included in the Company's income statements. The allocation of the purchase price is preliminary because the Company is in the process of obtaining a purchase price allocation from an independent third party. The Company has included depreciation expense based on this preliminary purchase price allocation.

In April 2007, the Company paid an additional \$0.8 million as part of a purchase price true-up for the Marriott Del Mar located in San Diego, California, originally purchased by the Company in January 2006.

In May 2007, the Company purchased the 464-room Marriott Boston Quincy Hotel located in Quincy, Massachusetts for a purchase price of \$117.0 million and retained Marriott as manager. This hotel's results of operations from the acquisition date of May 1, 2007 through Marriott's second quarter ended June 15, 2007, have been included in the Company's income statements. The allocation of the purchase price is preliminary because the Company is in the process of obtaining a purchase price allocation from an independent third party. The Company has included depreciation expense based on this preliminary purchase price allocation.

Acquired properties are included in the Company's results of operations from the date of acquisition. The following unaudited pro forma results of operations reflect the Company's results as if the acquisitions had occurred on the first day of the fiscal year presented. In the Company's opinion, all significant adjustments necessary to reflect the effects of the

4. Discontinued Operations

As part of a strategic plan to dispose of non-core hotel assets, the Company sold six hotel properties in 2007 for net proceeds of \$147.4 million and a net gain of \$56.0 million. The Company sold a total of 15 hotel properties in 2006. During the first six months of 2006, the Company sold one hotel for net proceeds of \$25.5 million and a net gain on sale of \$16.4 million. In addition, the Company received payment in full for its \$4.7 million note receivable generated from its 2004 sale of the San Marcos Resort & Conference Center in Chandler, Arizona. This note was previously written down to market value, resulting in a reserve of \$350,000, expensed during the fourth quarter of 2004. Upon full payment of this note in the first quarter of 2006, this reserve was reversed. Additionally, an expense of \$92,000 relating to the termination of the management agreement at the hotel was paid. These 21 hotel properties met the held for sale and discontinued operations criteria in accordance with Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment and Disposal of Long-Lived Assets*.

The following sets forth the discontinued operations for the three and six months ended June 30, 2007 and 2006, related to hotel properties that have been sold (in thousands):

In December 2006, the Company entered into a joint venture agreement with Whitehall Street Global Real Estate Limited Partnership 2005 and Highgate Holdings to acquire the 460-room Doubletree Guest Suites Hotel in New York City, New York. The \$68.5 million initial investment was funded entirely from cash on hand and was comprised of two parts: (i) a \$28.5 million mezzanine loan, which bore an interest rate of 8.5% on a face value of \$30.0 million and (ii) a \$40.0 million equity investment representing a 38% ownership interest in the joint venture. In April 2007, the Company sold the \$28.5 million mezzanine loan for net proceeds of \$29.0 million. Annual dividends on the equity investment are senior to the returns on equity to both Whitehall and Highgate and begin at 8.0% and grow to 9.25% over a nine-year period. In addition, the equity is entitled to receive a pro-rata share of any excess equity distributions of the joint venture. At June 30, 2007 and December 31, 2006, the Company's investment amounted to \$37.7 million and \$68.7 million, respectively. The Company's equity in the unconsolidated joint venture amounted to losses of \$0.1 million and \$1.5 million, respectively, for the three and six months ended June 30, 2007.

The Company was not in default on any of its loan covenants at either June 30, 2007 or December 31, 2006.

During the first quarter of 2007, the Company drew down \$138.0 million of its \$200.0 million credit facility (the "credit facility") in connection with the acquisitions of the LAX Renaissance, Los Angeles, California and the Marriott Long Wharf, Boston, Massachusetts, as well as other working capital requirements. During the second quarter of 2007, the Company drew down an additional \$27.0 million of the credit facility in connection with the acquisition of the Marriott Boston Quincy, as well as other working capital requirements. The Company repaid \$24.0 million of the credit facility in April 2007, and repaid the remaining balance in June 2007. As of June 30, 2007, the Company had no outstanding indebtedness under its credit facility, and had \$11.5 million in outstanding irrevocable letters of credit backed by the credit facility, leaving, as of

that date, \$188.5 million available under the credit facility.

Table of Contents

In March 2007, the Company obtained a \$176.0 million mortgage loan with a maturity date of March 2017 and a fixed interest rate of 5.58% in connection with the acquisition of the Marriott Long Wharf, Boston, Massachusetts.

In April 2007, the Company amended one of its mortgage loans to eliminate amortization and to provide for partial collateral releases, provided the Company continues to meet certain loan covenants, from May 2007 until the maturity date of May 2011, at which time the outstanding loan balance of \$248.2 million will be due and payable.

In May 2007, the Company amended its credit facility. The interest rate on the amended credit facility continues to be based on grid pricing, with the interest rate spread changing based on the Company's overall leverage ratio. The pricing grid sets forth in four tiers the applicable interest rate spread at leverage ratios for the Company as follows: up to and including 50%, greater than 50% and less than or equal to 55%, greater than 55% and less than or equal to 60%, and greater than 60%. The applicable interest rate spreads for each of the various leverage ratios contained in the amended credit facility are 25 to 35 basis points lower than those contained in the prior credit facility. In addition, the Company extended the initial maturity date on the credit facility from 2010 to 2011.

In June 2007, the Operating Partnership issued an aggregate \$250.0 million of exchangeable senior notes with a maturity date of July 2027 and an interest rate of 4.60%. Interest on the notes is payable semi-annually in arrears on January 15 and July 15 of each year, beginning January 15, 2008. The notes, subject to specified events and other conditions, are exchangeable into, at the Company's option, cash, the Company's common stock, or a combination of cash and the Company's common stock. The initial exchange rate for each \$1,000 principal amount of notes is 28.9855 shares of the Company's common stock, representing an exchange price of approximately \$34.50 per common share. The initial exchange rate is subject to adjustment under certain circumstances. The Operating Partnership does not have the right to redeem the notes, except to preserve the Company's REIT status, before January 20, 2013, and may redeem the notes, in whole or in part, thereafter at a redemption price equal to 100% of the principal amount of the notes to be redeemed, plus any accrued and unpaid interest. Upon specified change in control events as well as specified dates, holders of the notes may require the Operating Partnership to repurchase their notes, in whole or in part, for cash equal to 100% of the principal amount of the notes to be repurchased, plus any accrued and unpaid interest. The notes are the senior unsecured obligations of the Operating Partnership. The Company and all of its subsidiaries that are guarantors under the Company's credit facility have guaranteed the Operating Partnership's obligations under the notes. The notes do not qualify as a derivative or an equity instrument.

In June 2007, the Company repaid a \$175.0 million mortgage loan with a maturity date of December 2014. In connection with the repayment, the Company incurred prepayment penalties of \$0.4 million.

Total interest incurred and expensed on the notes payable is as follows (in thousands):

9. Series C Cumulative Convertible Redeemable Preferred Stock

In July 2005, the Company sold 4,102,564 shares of Series C Cumulative Convertible Redeemable Preferred Stock (Series C preferred stock) with a liquidation preference of \$24.375 per share to Security Capital Preferred Growth, Incorporated, an investment vehicle advised by Security

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

Capital Research & Management Incorporated, for gross proceeds of \$99.0 million, or \$24.13 per share, which included a 1% discount to the conversion price/liquidation preference. Other costs of the offering totaled \$130,000. Net proceeds of \$99.0 million were contributed to the Operating Partnership in exchange for preferred membership units with economic terms substantially identical to the Series C preferred stock. The net proceeds were used to partially finance the Company's acquisition of six Renaissance hotels. The Series C preferred stock pays a base dividend of \$0.393 per share per quarter. The Series C preferred stock is convertible into shares of the Company's common

stock on a one-for-one basis, subject to customary antidilution provisions, including stock splits, stock dividends, non-cash distributions and above-market issuer self-tender or exchange offers. On or after July 8, 2010, the Series C preferred stock will be redeemable at the Company's option, in whole or in part, at any time or from time to time, for cash at a redemption price of \$24.375 per share, plus accrued and unpaid dividends up to and including the redemption date. The holders of the Series C preferred stock have the right to require the Company to redeem the Series C preferred stock in the event of any of the following: (1) a change in control of the Company, if certain conditions are not met; (2) a REIT termination event; or (3) a termination of the Company's listing on either the New York Stock Exchange or NASDAQ. In general, holders of Series C preferred stock vote on an as-converted basis as a single class with holders of the Company's common stock. If the Company is in violation of certain financial ratios for four consecutive quarters, the holders have the right to elect one director to serve on the Company's board of directors. In addition, if the Company is in arrears on dividends on the Series C preferred stock for four or more quarters, the holders have the right to elect additional directors to serve on the Company's board of directors. Subject to a limited exception, holders of Series C preferred stock cannot elect more than an aggregate of two directors. The holders are eligible to receive a participating dividend should the Company's dividend on its common stock increase beyond \$0.339 per share per quarter. The Series C preferred stock has no maturity date and, except as set forth above, the Company is not required to redeem the Series C preferred stock at any time.

The initial carrying value of the Series C preferred stock was recorded at its sales price less costs to issue on the date of issuance. This carrying value is periodically adjusted so that the carrying value will equal the redemption value on the redemption date, which is the earliest date available for the Company to redeem the Series C preferred stock. The carrying value will also be periodically adjusted for any accrued and unpaid dividends, if any. At June 30, 2007 and December 31, 2006, the Series C preferred stock carrying value consisted of the following (in thousands):

	June 30, 2007 (Unaudited)	December 31, 2006
Initial fair value, sales price of \$99.0 million	\$ 99,000	\$ 99,000

10. Stockholders' Equity**Series A Cumulative Redeemable Preferred Stock**

In March 2005, the Company sold an aggregate of 4,850,000 shares of 8.0% Series A and B Cumulative Redeemable Preferred Stock (Series A preferred stock and Series B preferred stock, respectively) with a liquidation preference of \$25.00 per share for gross proceeds of \$121.3 million. Underwriting and other costs of the offering totaled \$3.8 million. Net proceeds of \$117.5 million were contributed to the Operating Partnership in exchange for preferred membership units with economic terms substantially identical to the Series A and B preferred stock. Subsequent to this offering, the shares of Series B preferred stock were exchanged for an equivalent number of shares of Series A preferred stock. The net proceeds were used to reduce borrowings under the Company's credit facility and for acquisitions. On or after March 17, 2010, the Series A preferred stock will be redeemable at the Company's option, in whole or in part, at any time or from time to time, for cash at a redemption price of \$25.00 per share, plus accrued and unpaid dividends up to and including the redemption date. Holders of Series A preferred stock generally have no voting rights. However, if the Company is in arrears on dividends on the Series A preferred stock for six or more quarterly periods, whether or not consecutive, holders of the Series A preferred stock will be entitled to vote at its next annual meeting and each subsequent annual meeting of stockholders for the election of two additional directors to serve on the Company's board of directors until all unpaid dividends and the dividend for the then-current period with respect to the Series A preferred stock have been paid or declared and a sum sufficient for the payment thereof set aside for payment. The Series A preferred stock has no maturity date and the Company is not required to redeem the Series A preferred stock at any time.

In April 2006, the Company sold an additional 2,200,000 shares of Series A preferred stock with a liquidation preference of \$25.00 per share for gross proceeds of \$55.0 million. The proceeds to the Company, net of offering costs, were \$54.2 million, and were used together with proceeds of certain debt refinancings to repay the Company's term loan facility.

Table of Contents

Common Stock

In February 2006, the Company completed a follow-on offering of 5,500,000 shares of common stock at a price per share of \$28.80 (before underwriting discounts and offering costs), generating gross proceeds of \$158.4 million. The proceeds to the Company, net of offering costs, were \$158.1 million and were used to fund a portion of the acquisition price of the Hilton Times Square and for general corporate purposes.

In July 2006, the Company entered into a forward sale agreement (the "Forward Sale Agreement") with an affiliate of Citigroup Global Markets Inc. as the forward counterparty, relating to 4,000,000 shares of the Company's common stock. In connection with the execution of the Forward Sale Agreement and at the Company's request, Citigroup Global Markets Inc., as agent for the forward counterparty, borrowed and sold in a public offering 4,000,000 shares of common stock. In April 2007, the Company settled the Forward Sale Agreement for net proceeds of \$110.0 million, including \$0.4 million in related expenses paid in 2006. The Forward Sale Agreement was accounted for as an equity instrument and did not qualify as a derivative liability.

In June 2007, the Company's board of directors authorized the Company to repurchase up to \$100.0 million of the Company's common stock prior to December 31, 2007. As of June 30, 2007, the Company has repurchased 2,604,769 shares of its common stock at a cost of \$73.1 million.

11. Long-Term Incentive Plan

Restricted shares and restricted share units granted pursuant to the Company's Long-Term Incentive Plan generally vest over periods from three to five years from the date of grant. The value of shares granted has been calculated based on the share price on the date of grant and is being amortized as compensation expense in accordance with the Company's policy on a straight-line basis over the vesting periods for the entire award. For the three months ended June 30, 2007 and 2006, the Company's expense related to these restricted shares and restricted share units was \$2.7 million and \$1.4 million, respectively. For the six months ended June 30, 2007 and 2006, the Company's expense related to these restricted shares and restricted share units was \$4.5 million and \$2.5 million, respectively.

12. Commitments and Contingencies

Management Agreements

Management agreements with the Company's third-party hotel managers require the Company to pay between 1% and 3.5% of total revenue of the managed hotels to the third-party managers each month as a basic management fee. Total basic management fees incurred by the Company during the three months ended June 30, 2007 and 2006 were \$7.2 million and \$6.3 million, respectively. Total basic management fees included in property general and administrative expense were \$7.0 million and \$5.8 million, respectively, for the three months ended June 30, 2007 and 2006. Discontinued operations included \$0.2 million and \$0.5 million, respectively, of basic management fees for the three months ended June 30, 2007 and 2006. For the six months ended June 30, 2007 and 2006, total basic management fees incurred by the Company were \$13.3 million and \$11.8 million, respectively. Total basic management fees included in property general and administrative expense were \$13.0 million and \$10.8 million, respectively for the six months ended June 30, 2007 and 2006. Discontinued operations included \$0.3 million and \$1.0 million of basic management fees for the six months ended June 30, 2007 and 2006, respectively.

Provided certain operating thresholds are met, the Company may also be required to pay certain of its third-party managers an additional incentive management fee. Total incentive management fees incurred by the Company were \$1.5 million and \$1.3 million, respectively, for the three months ended June 30, 2007 and 2006, and \$2.3 million and \$2.5 million, respectively for the six months ended June 30, 2007 and 2006, all of which were included in property general and administrative expense.

Franchise Agreements

Total franchise costs incurred by the Company during the three months ended June 30, 2007 and 2006 totaled \$10.4 million and \$9.7 million, respectively. Of the total franchise costs, franchise royalties totaled \$4.0 million and \$4.4 million, for the three months ended June 30, 2007 and 2006, respectively. The remaining franchise costs included advertising, reservation and priority club assessments. Franchise costs included in discontinued operations totaled \$0.7 and \$2.1 million for the three months ended June 30, 2007 and 2006, respectively. For the six months ended June 30, 2007 and 2006, total franchise costs incurred by the Company totaled \$18.9 million and \$17.1 million, respectively. Of the total franchise costs, franchise royalties totaled \$7.7 million and \$8.2 million, respectively. Franchise costs included in discontinued operations totaled \$1.4 million and \$3.8 million, respectively for the six months ended June 30, 2007 and 2006.

Table of Contents

Renovation and Construction Commitments

Rent expense incurred pursuant to the lease on the corporate offices totaled \$116,000 for both the three months ended June 30, 2007 and 2006 and totaled \$231,000 for both the six months ended June 30, 2007 and 2006, and is included in corporate overhead in the accompanying statements of income.

Other

The Company has provided unsecured environmental indemnities to certain lenders. The Company has performed due diligence on the potential environmental risks, including obtaining an independent environmental review from outside environmental consultants. These indemnities obligate the Company to reimburse the indemnified parties for damages related to certain environmental matters. There is no term or damage limitation on these indemnities; however, if an environmental matter arises, the Company could have recourse against other previous owners.

At June 30, 2007, the Company had \$11.5 million of outstanding irrevocable letters of credit to guaranty the Company's financial obligations related to workers' compensation insurance programs and certain notes payable. The beneficiary may draw upon these letters of credit in the event of a contractual default by the Company relating to each respective obligation. No draws have been made through June 30, 2007.

13. Transactions With Affiliates

Other Reimbursements

From time to time, the Company pays for certain expenses such as payroll, insurance and other costs on behalf of certain affiliates. The affiliates generally reimburse such amounts on a monthly basis. At June 30, 2007 and December 31, 2006, amounts owed to the Company by its affiliates amounted to \$1.3 million and \$1.4 million, respectively, and are included in due from affiliates.

Transactions With Others

The Company purchases telecommunications equipment from Gemini Telemanagement Systems, or GTS, a telecommunications equipment provider based in Redwood City, California. The Company's Executive Chairman of the Board of Directors, Robert A. Alter, is a 5.2% stockholder in GTS, and his brother, Richard Alter, is the majority stockholder in GTS. The Company paid GTS \$121,000 and \$235,000, respectively, for the three and six months ended June 30, 2007, and \$87,000 and \$128,000, respectively, for the three and six months ended June 30, 2006.

14. Subsequent Events

In August 2007, the Company repaid a \$13.1 million mortgage loan with a maturity date of September 2007.

REIT structure. For us to qualify as a REIT, our income cannot be derived from our operation of hotels. Therefore, consistent with the provisions of the Internal Revenue Code of 1986, as amended, and the rules and regulations thereunder (the Code), our Operating Partnership and its subsidiaries lease our hotel properties to our TRS Lessee, which in turn contracts with third-party operators to manage our hotels. All of our third-party managers qualify as eligible independent contractors, which under the Code means they are actively engaged in the trade or business of operating qualified lodging facilities for any person unrelated to us and the TRS Lessee. The Operating Partnership and the TRS Lessee are consolidated into our financial statements for accounting purposes. Since we control both the Operating Partnership and our TRS Lessee, revenues generated by our underlying portfolio of hotels remain our principal source of operating income on a consolidated basis. The earnings of the TRS Lessee are subject to taxation like other C corporations, which may reduce our operating results, funds from operations and the cash otherwise available for distribution to our stockholders.

Factors Affecting Our Results of Operations

Acquisitions. In January 2007, we acquired the 499-room LAX Renaissance hotel located in Los Angeles, California for approximately \$65.2 million and retained Marriott as manager. The acquisition was initially funded through a draw on our credit facility, which we ultimately repaid with a portion of the proceeds we received in June 2007 from the sale of six hotel properties.

In March 2007, we acquired the 402-room Marriott Long Wharf hotel located in Boston, Massachusetts for approximately \$228.5 million and retained Marriott as manager. In connection with this acquisition we obtained a \$176.0 million mortgage loan with a maturity date of March 2017 and a fixed interest rate of 5.58%. The balance of the purchase price was funded with a draw on our credit facility, which we ultimately repaid with a portion of the proceeds we received in June 2007 from the sale of six hotel properties.

In May 2007, we acquired the 464-room Marriott Boston Quincy hotel located in Quincy, Massachusetts for approximately \$117.0 million and retained Marriott as manager. The acquisition was funded primarily through the settlement of our Forward Sale Agreement, with the balance funded with a draw on our credit facility which we ultimately repaid with a portion of the proceeds we received in June 2007 from the sale of six hotel properties.

The following table sets forth the hotels that we have acquired or developed since January 1, 2006:

Investment in unconsolidated joint venture. In December 2006, we entered into a joint venture agreement with Whitehall Street Global Real Estate Limited Partnership 2005 and Highgate Holdings to acquire the 460-room Doubletree Guest Suites Hotel located in New York City, New York. Our total initial investment in the joint venture was approximately \$68.5 million. Our total initial investment was funded entirely from cash on hand and was comprised of two parts: (i) a \$28.5 million mezzanine loan, which bore an interest rate of 8.5% on a face value of \$30.0 million and (ii) a \$40.0 million equity investment representing a 38% ownership interest in the joint venture. In April 2007, we sold the \$28.5 million mezzanine loan for net proceeds of \$29.0 million. The total debt of the joint venture is \$300.0 million, including the \$30.0 million mezzanine loan.

Renovations. During the second quarter of 2007, we invested \$38.7 million in renovations of our existing portfolio of hotels, of which \$18.8 million was invested in six major repositioning projects at the following properties: Renaissance Orlando, Renaissance Baltimore, Renaissance Long Beach, Hyatt Regency Century Plaza, Hilton Times Square and Embassy Suites La Jolla. The combined capital investments in these projects were in line with budget and all major phases of each of these six projects are now substantially complete. We generally expect newly renovated properties to drive above-market improvements in RevPAR.

During the second quarter of 2007, we completed our scope and budget for guestroom renovations of the newly acquired Marriott Boston Long Wharf Hotel. The Long Wharf project will include the renovation of all guestrooms and guestroom corridors, an expansion of the concierge lounge and the addition of nine new guest rooms. The project, which is budgeted to cost approximately \$14 million, is scheduled to commence during the fourth quarter of 2007 and is expected to be completed during the first quarter of 2008. At this time, we have no other major renovation projects planned or underway which would be expected to cause meaningful displacement in 2007. We are currently reviewing our 2008 capital investment plan. Considering the magnitude of the two-year, approximately \$270 million renovation program completed in 2007, it is expected that few new projects will be initiated in 2008 that would cause meaningful disruption.

Indebtedness. During the first quarter of 2007, we drew down \$138.0 million of our \$200.0 million credit facility to fund our purchases of the Renaissance LAX and the Marriott Long Wharf, as well as to fund other working capital requirements. During the second quarter of 2007, we drew down an additional \$27.0 million of the credit facility to fund our purchase of the Marriott Boston Quincy, as well as to fund other working capital requirements. We repaid \$24.0 million of the credit facility in April 2007, and repaid the remaining balance in June 2007, using proceeds we received from the sale of six hotel properties. As of June 30, 2007, we had no outstanding indebtedness under our credit facility, and had \$11.5 million outstanding irrevocable letters of credit backed by the credit facility, leaving, as of that date, \$188.5 million available under the credit facility.

In March 2007, we obtained a \$176.0 million mortgage loan with a maturity date of March 2017 and a fixed interest rate of 5.58% in connection with the acquisition of the Marriott Long Wharf. In addition, in April 2007, we amended one of our mortgage loans to eliminate amortization and to provide for partial collateral releases, provided we continue to meet certain loan covenants, from May 2007 until the maturity date of May 2011, at which time the outstanding loan balance of \$248.2 million will be due and payable. We also repaid a \$175.0 million mortgage loan in June 2007, which had a maturity date of December 2014. In connection with this repayment, we incurred prepayment penalties of \$0.4 million.

In June 2007, the Operating Partnership issued an aggregate \$250.0 million of exchangeable senior notes with a maturity date of July 2027 and an interest rate of 4.60%. Interest on the notes is payable semi-annually in arrears on January 15 and July 15 of each year, beginning January 15, 2008. The notes, subject to specified events and other conditions, are exchangeable into, at our option, cash, our common stock, or a combination of cash and our common stock. The initial exchange rate for each \$1,000 principal amount of notes is 28.9855 shares of our common stock, representing an exchange price of approximately \$34.50 per common share. The initial exchange rate is subject to adjustment under certain circumstances. The Operating Partnership does not have the right to redeem the notes, except to preserve our REIT status,

Table of Contents

before January 20, 2013, and may redeem the notes, in whole or in part, thereafter at a redemption price equal to 100% of the principal amount of the notes to be redeemed, plus any accrued and unpaid interest. Upon specified change of control events as well as specified dates, holders of the notes may require the Operating Partnership to repurchase their notes, in whole or in part, for cash equal to 100% of the principal amount of the notes to be repurchased, plus any accrued and unpaid interest. The notes are the senior unsecured obligations of the Operating Partnership. We and all of our subsidiaries that are guarantors under our credit facility have guaranteed the Operating Partnership's obligations under the notes.

Operating Performance Indicators. The following performance indicators are commonly used in the hotel industry:

occupancy;

average daily rate, or ADR;

revenue per available room, or RevPAR, which is the product of occupancy and ADR, but does not include food and beverage revenue, or other operating revenue;

comparable RevPAR growth, which we define as the change in RevPAR generated by hotels we owned as of the end of the reporting period, but excluding those hotels that were undergoing significant renovations during the most recent reporting period and whose RevPAR growth was significantly affected by such renovations. Comparable RevPAR growth includes prior ownership activity for those periods in which we did not own the hotels. We refer to this subset of our hotels used to calculate comparable RevPAR growth as our *Comparable Portfolio* ;

operating margin, which is the product of total operating income divided by total revenues; and

operating leverage, which is the product of incremental operating income divided by incremental revenues.

Revenues. Substantially all of our revenues are derived from the operation of our hotels. Specifically, our revenues consist of the following:

Room revenue, which is the product of the number of rooms sold and the ADR;

Food and beverage revenue, which is comprised of revenues realized in the hotel food and beverage outlets as well as banquet and catering events; and

Other operating revenue, which includes ancillary hotel revenue such as performance guaranties and other items primarily driven by occupancy such as telephone, transportation, parking, spa, entertainment and other guest services. Additionally, this category includes operating revenue from our two commercial laundry facilities located in Rochester, Minnesota and Salt Lake City, Utah and our electronic purchasing platform, Buy Efficient, L.L.C.

Expenses. Our expenses consist of the following:

Room expense, which is primarily driven by occupancy and, therefore, has a significant correlation with room revenue;

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

Food and beverage expense, which is primarily driven by food and beverage sales and banquet and catering bookings and, therefore, has a significant correlation with food and beverage revenue;

Other operating expense, which includes the corresponding expense of other operating revenue, advertising and promotion, repairs and maintenance, utilities, and franchise fees;

Property general and administrative expense, which includes our property-level general and administrative expenses, such as payroll and related costs, professional fees, travel expenses and management fees;

Property tax, ground lease and insurance expense, which includes the expenses associated with property tax, ground lease and insurance payments, each of which is primarily a fixed expense;

Corporate overhead expense, which includes our corporate-level expenses such as payroll and related costs, amortization of deferred stock compensation, professional fees, travel expenses and office rent; and

Depreciation and amortization expense, which includes depreciation on our hotel buildings, improvements, furniture, fixtures and equipment.

Table of Contents

Other Revenue and Expense. Other revenue and expense consists of the following:

Equity in losses of joint venture, which includes our portion of losses from our joint venture;

Interest and other income, which includes interest we have earned on our restricted and unrestricted cash accounts; and

Interest expense, which includes interest expense incurred on our outstanding debt.

Most categories of variable operating expenses, such as utilities and certain labor costs such as housekeeping, fluctuate with changes in occupancy. Increases in RevPAR attributable to improvements in occupancy are accompanied by increases in corresponding categories of variable operating costs and expenses. Increases in RevPAR attributable to improvements in ADR typically result in more limited increases in operating costs and expenses, primarily credit card commissions, management fees and franchise fees. Thus, changes in ADR generally have a more significant effect on our operating margins than changes in occupancy.

We continually work with our operators to improve our operating leverage, which generally refers to our ability to retain incremental revenue as profit by minimizing operating expenses. There are, however, limits to how much our operators can accomplish in this regard without affecting the competitiveness of our hotels and our guests' experiences at our hotels. Furthermore, our hotels operate with significant fixed costs, such as general and administrative expense, insurance, property taxes, and other expenses associated with owning hotels that our operators cannot necessarily control. For example, we have experienced increases in hourly wages, employee benefits (especially health insurance), and utility costs, which negatively affected our operating margin. Our historical performance may not be indicative of future results, and our future results may be worse than our historical performance.

Operating Results

The following tables present our unaudited operating results for our total portfolio for the three and six months ended June 30, 2007 and 2006, including the amount and percentage change in the results between the periods. Our total portfolio represents the results of operations included in the consolidated income statements, and includes 46 hotels (15,971 rooms) as of June 30, 2007 and 43 hotels (14,606 rooms) as of June 30, 2006. The results of operations for six hotels that were sold in 2007 and fifteen hotels that were sold in 2006 are included in discontinued operations for the three and six months ended June 30, 2006.

2007 Compared to 2006

Revenues. Total revenue for the three months ended June 30, 2007 was \$271.4 million as compared to \$221.6 million for the same time period in 2006. Total revenue for the three months ended June 30, 2007 included room revenue of \$177.1 million, food and beverage revenue of \$74.5 million, and other revenue of \$19.8 million. Total revenue for the three months ended June 30, 2006 included room revenue of \$144.0 million, food and beverage revenue of \$59.7 million, and other revenue of \$17.9 million.

Total revenue for the six months ended June 30, 2007 was \$502.5 million as compared to \$411.0 million for the same time period in 2006. Total revenue for the six months ended June 30, 2007 included room revenue of \$325.9 million, food and beverage revenue of \$139.5 million, and other revenue of \$37.0 million. Total revenue for the six months ended June 30, 2006 included room revenue of \$261.5 million, food and beverage revenue of \$115.0 million, and other revenue of \$34.5 million.

Included in the following tables are comparisons of the key operating metrics for our hotel portfolio for the three and six months ended June 30, 2007 and 2006. The comparisons do not include the results of operations for the six hotels sold in 2007 and the fifteen hotels sold during 2006. Since seven of our hotels owned as of June 30, 2007 were acquired during 2006 and 2007, the key operating metrics for the total hotel portfolio and the comparable hotel portfolio reflect the results of operations of those seven hotels under previous ownership for either a portion of or the entire three and six months ended June 30, 2007 and 2006.

For the three months ended June 30, 2007, RevPAR for our pro forma total portfolio increased 7.5% to \$126.73 from the same time period in 2006. Occupancy increased 2.7 percentage points to 79.2%, while ADR increased 3.9% to \$160.01. For our pro forma comparable hotel portfolio, RevPAR increased 9.2% to \$125.77 from the same time period in 2006. Occupancy increased 3.6 percentage points to 79.8%, while ADR increased 4.2% to \$157.61.

For the six months ended June 30, 2007, RevPAR for our pro forma total portfolio increased 8.0% to \$119.61 from the same time period in 2006. Occupancy increased 2.7 percentage points to 76.4%, while ADR increased 4.2% to \$156.56. For our pro forma comparable hotel portfolio, RevPAR increased 10.4% to \$119.00 from the same time period in 2006. Occupancy increased 3.9 percentage points to 77.2%, while ADR increased 4.8% to \$154.15.

The increases in our RevPAR for both the three and six months ended June 30, 2007 compared to the same time periods in 2006 were significantly affected by increases in RevPAR at several of our recently renovated hotels, Hyatt Regency Century Plaza, Fairmont Newport Beach, and Renaissance Washington D.C.

Room revenue. Room revenue increased \$33.0 million, or 22.9%, for the three months ended June 30, 2007 as compared to the three months ended June 30, 2006. The increase was primarily due to room revenue generated from newly acquired hotels. We acquired five hotels either during or subsequent to our second quarter 2006: Embassy Suites La Jolla, W Hotel San Diego, LAX Renaissance, Marriott Long Wharf, and Marriott Boston Quincy (which we refer to as the five hotels). The five hotels contributed \$20.9 million to room revenue during our second quarter 2007. In addition, growth in the hotels we acquired prior to March 31, 2006 (which we refer to as our second quarter existing portfolio) contributed \$12.1 million to room revenue during our second quarter 2007 due to increases in both occupancy (\$4.4 million) and ADR (\$7.7 million).

Room revenue increased \$64.4 million, or 24.6%, for the six months ended June 30, 2007 as compared to the six months ended June 30, 2006. The increase was primarily due to room revenue generated from newly acquired hotels. We acquired seven hotels either during or subsequent to our first quarter 2006: Del Mar Marriott, Hilton Times Square, Embassy Suites La Jolla, W Hotel San Diego, LAX Renaissance, Marriott Long Wharf, and Marriott Boston Quincy (which we refer to as the seven hotels). The seven hotels contributed \$41.5 million to room revenue during the first six months of 2007. In addition, growth in the hotels we acquired prior to December 31, 2005 (which we refer to as our 2007 existing portfolio) contributed \$22.9 million to room revenue during the first six months of 2007 due to increases in both occupancy (\$9.9 million) and ADR (\$13.0 million).

Food and beverage revenue. Food and beverage revenue increased \$14.8 million, or 24.8%, for the three months ended June 30, 2007 as compared to the three months ended June 30, 2006. The five hotels contributed \$7.3 million of food and beverage revenue during our second quarter 2007. Food and beverage revenue generated from our second quarter existing portfolio increased \$7.5 million during our second quarter 2007 as compared to the same time period in 2006 due to higher occupancy levels at the hotels, as well as to the fact that several restaurants were under renovation in 2006 and were either closed or operating at a limited capacity.

Food and beverage revenue increased \$24.6 million, or 21.4%, for the six months ended June 30, 2007 as compared to the six months ended June 30, 2006. The seven hotels contributed \$12.1 million of food and beverage revenue during the first six months of 2007. Food and beverage revenue generated from our 2007 existing portfolio increased \$12.5 million during the first six months of 2007 as compared to the same time period in 2006 primarily due to the same reasons noted above in the discussion regarding the second quarter.

Other operating revenue. Other operating revenue increased \$2.0 million, or 11.2%, for the three months ended June 30, 2007 as compared to the three months ended June 30, 2006. The five hotels contributed \$2.0 million to other operating revenue during our second quarter 2007. Growth in other operating revenue generated from our second quarter existing portfolio was nominal during our second quarter 2007 as compared to the same time period in 2006.

Other operating revenue increased \$2.5 million, or 7.4%, for the six months ended June 30, 2007 as compared to the six months ended June 30, 2006. The seven hotels contributed \$3.2 million to other operating revenue during the first six

Table of Contents

months of 2007. Other operating revenue generated from our 2007 existing portfolio decreased \$0.7 million during the first six months of 2007 as compared to the same time period in 2006.

A substantial portion of our other operating revenue in both the three and six months ended June 30, 2007 and 2006 resulted from a performance guaranty provided by the manager of the Hyatt Regency Century Plaza. We used a total of \$1.1 million and \$2.0 million, respectively, of the \$27.0 million performance guaranty during the three and six months ended June 30, 2007. During the three and six months ended June 30, 2006, we used a total of \$2.9 million and \$4.9 million, respectively. We have used a total of \$26.3 million cumulatively. We expect to fully utilize the remaining amount of this guaranty in the third quarter 2007.

Hotel operating expenses. Hotel operating expenses, which are comprised of room, food and beverage, advertising and promotion, repairs and maintenance, utilities, and other hotel operating expenses, increased \$28.7 million, or 22.1%, during the three months ended June 30, 2007 as compared to the three months ended June 30, 2006. The five hotels contributed \$17.0 million to hotel operating expense during our second quarter 2007. In addition, hotel operating expenses in our second quarter existing portfolio increased \$11.7 million during our second quarter 2007 as compared to the same time period in 2006. These higher costs in our second quarter existing portfolio for the three months ended June 30, 2007 were primarily a result of increases in room expense, food and beverage expenses and franchise costs due to increases in occupancy and related revenue, combined with an increase in property taxes due to higher tax rates.

Hotel operating expenses increased \$55.3 million, or 22.5%, during the six months ended June 30, 2007 as compared to the six months ended June 30, 2006. The seven hotels contributed \$33.5 million to hotel operating expense during the first six months of 2007. In addition, hotel operating expenses in our 2007 existing portfolio increased \$21.8 million during the first six months of 2007 as compared to the same time period in 2006. These higher costs in our 2007 existing portfolio for the six months ended June 30, 2007 were primarily due to the same reasons noted above in the discussion regarding the second quarter.

Property general and administrative expense. Property general and administrative expense increased \$5.1 million, or 20.2%, during the three months ended June 30, 2007 as compared to the three months ended June 30, 2006. The five hotels contributed \$3.8 million in property general and administrative expense during our second quarter 2007. Property general and administrative expenses in our second quarter existing portfolio increased \$1.3 million during our second quarter 2007 as compared to the same time period in 2006 primarily due to wage increases and as the result of certain concessions given to guests who experienced disruptions during our renovations, as well as to other hotel specific expenses, such as increased credit card commissions and management fees, associated with the overall increase in revenue.

Property general and administrative expense increased \$9.1 million, or 19.1%, during the six months ended June 30, 2007 as compared to the six months ended June 30, 2006. The seven hotels contributed \$6.6 million in property general and administrative expense during the first six months of 2007. Property general and administrative expenses in our 2007 existing portfolio increased \$2.5 million during the first six months of 2007 as compared to the same time period in 2006 primarily due to the same reasons noted above in the discussion regarding the second quarter.

Corporate overhead expense. Corporate overhead expense increased \$5.0 million, or 110.5%, during the three months ended June 30, 2007 as compared to the three months ended June 30, 2006, primarily due to severance costs related to the departure of our former president and former executive vice president and chief investment officer, and to costs related to the chief executive officer succession and the senior management team transition, as well as to additional increases in payroll and related expenses, including deferred stock compensation expense.

Corporate overhead expense increased \$6.4 million, or 62.0%, during the six months ended June 30, 2007 as compared to the six months ended June 30, 2006, primarily due to the same reasons noted above in the discussion regarding the second quarter.

Depreciation and amortization expense. Depreciation and amortization expense increased \$6.5 million, or 28.7%, during the three months ended June 30, 2007 as compared to the three months ended June 30, 2006. The five hotels contributed \$4.3 million in depreciation and amortization expense during our second quarter 2007. Our second quarter existing portfolio contributed an additional \$2.2 million in depreciation and amortization expense during the three months ended June 30, 2007.

Depreciation and amortization expense increased \$13.1 million, or 30.7%, during the six months ended June 30, 2007 as compared to the six months ended June 30, 2006. The seven hotels contributed \$8.0 million in depreciation and amortization expense during the first six months of 2007. Our 2007 existing portfolio contributed an additional \$5.1 million in depreciation and amortization expense during the six months ended June 30, 2007.

Table of Contents

Interest expense. Interest expense increased \$5.1 million, or 23.5%, during the three months ended June 30, 2007 as compared to the same time period during 2006. As a result of new loans principally obtained to finance our acquisitions, interest expense includes an additional \$8.6 million in interest incurred during the three months ended June 30, 2007 as compared to the same time period in 2006. In addition, interest expense includes \$0.4 million in prepayment penalties incurred during the second quarter of 2007 as we prepaid one of our mortgage loans in advance of its maturity date. Partially offsetting these increases, interest expense was reduced in the second quarter of 2007 as compared to the second quarter of 2006 due to a \$2.6 million loss on early extinguishment of debt incurred in 2006 related to the cost associated with the defeasance of debt. In addition, amortization of deferred financing fees decreased \$1.3 million during the three months ended June 30, 2007 as compared to the same time period in 2006.

Interest expense increased \$2.2 million, or 4.6%, during the six months ended June 30, 2007 as compared to the same time period during 2006. As a result of new loans obtained to finance our acquisitions, interest expense includes an additional \$13.5 million in interest incurred during the six months ended June 30, 2007 as compared to the same time period in 2006. In addition, interest expense includes \$0.4 million in prepayment penalties incurred during the first six months of 2007 as a result of the repayment of one of our mortgage loans before its maturity date. Partially offsetting these increases, interest expense was reduced in the first six months of 2007 as compared to the same time period in 2006 due to a \$10.0 million loss on early extinguishment of debt incurred in 2006 related to the cost associated with the defeasance of debt. In addition, amortization of deferred financing fees decreased \$1.7 million during the first six months ended June 30, 2007 as compared to the same time period in 2006.

Our total notes payable, including the current portion, was \$1,747.8 million on June 30, 2007 and \$1,503.8 million on June 30, 2006, with a weighted average interest rate per annum of approximately 5.6% on June 30, 2007 and 5.5% on June 30, 2006. On June 30, 2007, the interest rates for all of our outstanding notes payable were fixed.

Income from discontinued operations. Income from discontinued operations was \$56.9 million and \$57.9 million, respectively, during the three and six months ended June 30, 2007 as compared to \$4.1 million and \$22.2 million, respectively, for the three and six months ended June 30, 2006. As described under Factors Affecting Our Results of Operations Dispositions, six hotels were sold during 2007, and 15 hotels were sold during 2006. Consistent with Statement of Financial Accounting Standards No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, we have classified the gains on sale as discontinued operations and reclassified the results of operations for these 21 hotels as discontinued operations.

Liquidity and Capital Resources

Historical. During the periods presented, our sources of cash included our operating activities, working capital, proceeds from notes payable including our Operating Partnership's debt securities, our credit facility, sales of hotel properties, and proceeds from our public and private offerings of common and preferred stock. Our primary uses for cash were for acquisitions of hotels, capital expenditures for hotels, operating expenses, repayment of notes payable, repurchases of our common stock, and dividends on our common and preferred stock.

Operating activities. Net cash provided by operating activities was \$96.6 million for the six months ended June 30, 2007 compared to \$81.1 million for the six months ended June 30, 2006. This increase was primarily due to decreases in our restricted cash accounts as we received previously restricted cash held by a lender in conjunction with our early pay-off of a mortgage loan, combined with increased profitability in our total hotel portfolio during the six months ended June 30, 2007.

Investing activities. Our cash used in investing activities fluctuates primarily based on acquisitions, sales and renovation of hotels. Net cash used in investing activities was \$304.9 million for the six months ended June 30, 2007 compared to \$482.5 million for the six months ended June 30, 2006. During the six months ended June 30, 2007, we acquired three hotels for \$410.7 million, including an \$8.4 million deposit paid at the end of 2006, and paid an additional \$0.8 million for a hotel acquired in 2006, for a total cash outlay of \$403.1 million. In addition, we paid cash of \$75.7 million for renovations to our hotels, increased the balance in our restricted cash replacement reserve accounts by \$3.5 million, received net proceeds of \$147.9 million from the sale of six hotels and \$29.0 million from the sale of a note receivable, and received \$0.5 million from our unconsolidated joint venture. During the same time period in 2006, we acquired four hotels for \$521.8 million, which included the assumption of \$81.0 million in debt and a \$6.5 million deposit paid at the end of 2005, and acquired an office building and land adjacent to one of our hotels for \$4.4 million, for a total cash outlay of \$438.7 million. In addition, in the first six months of 2006, we paid cash of \$66.2 million for renovations to our hotels, increased the balance in our restricted cash replacement reserve accounts by \$3.4 million, and received net proceeds of \$25.8 million from the sale of one hotel combined with the collection of additional proceeds from a hotel we sold in 2004.

Financing activities. Net cash provided by financing activities was \$230.5 million for the six months ended June 30, 2007 compared to \$399.5 million for the six months ended June 30, 2006. Net cash provided by financing activities for the six months ended June 30, 2007 consisted primarily of proceeds from the issuance of notes payable of \$426.0 million, including our Operating Partnership's debt securities, and net proceeds from the settlement of our forward sale agreement of \$110.4 million, partially offset by \$73.1 million used to repurchase shares of our common stock, \$178.0 million of principal payments on notes payable, \$47.8 million of dividends paid to our stockholders, and \$7.0 million in deferred financing costs. Net cash provided by financing activities for the six months ended June 30, 2006 consisted primarily of proceeds from notes payable of \$443.5 million and net proceeds from our preferred and common stock offerings of \$54.3 million and \$158.1 million, respectively, partially offset by \$201.9 million of principal payments on notes payable and \$10.0 million related to the cost associated with the defeasance of debt we refinanced, \$41.4 million of dividends paid to our stockholders, and \$3.2 million in deferred financing costs.

Future. We expect our primary uses of cash to be for acquisitions of hotels, capital expenditures for hotels, operating expenses, repayment of principal on our notes payable, interest expense and dividends. We expect our primary sources of cash will continue to be our operating activities, working capital, notes payable, our credit facility, sales of hotel properties, and proceeds from public and private offerings of debt securities and common and preferred stock. Our ability to incur additional debt depends on a number of financial factors, including our leverage, the value of our unencumbered assets and borrowing restrictions imposed by lenders under our existing notes payable and our credit facility. Our ability to raise funds through the issuance of equity securities depends on, among other things, general market conditions for hotel companies and REITs and market perceptions about us. We will continue to analyze which source of capital is most advantageous to us at any particular point in time. However, the capital markets may not be available to us when needed on favorable terms or at all.

We believe that our capital structure, including the available balance of our \$200.0 million credit facility and cash flow from operations, will provide us with sufficient liquidity to meet our current operating expenses and other expenses directly associated with our business for the foreseeable future, and in any event for at least the next twelve months. As of June 30, 2007, our credit facility had no amount outstanding, and had \$11.5 million backing outstanding irrevocable letters of credit, leaving \$188.5 million available under the credit facility. We are subject to compliance with applicable credit ratios under the credit facility. In March 2007, we obtained a \$176.0 million mortgage loan with a maturity date of March 2017 and a fixed interest rate of 5.58% in connection with the acquisition of the Marriott Long Wharf. In April 2007, we amended one of our mortgage loans to provide for partial collateral releases and to eliminate amortization from May 2007 until the maturity date of May 2011, at which time the outstanding loan balance of \$248.2 million will be due and payable. In May 2007, we amended the credit facility. The interest rate on the amended credit facility continues to be based on grid pricing, with the

Table of Contents

interest rate spread changing based on the Company's overall leverage ratio. The pricing grid sets forth in four tiers the applicable interest rate spread at leverage ratios for the Company as follows: up to and including 50%, greater than 50% and less than or equal to 55%, greater than 55% and less than or equal to 60%, and greater than 60%. The interest rate spreads for each of the various leverage ratios contained in the amended credit facility are 25 to 35 basis points lower than those contained in the prior credit facility. In addition, we extended the initial maturity date on the credit facility from 2010 to 2011. In June 2007, we repaid a \$175.0 million mortgage loan with a maturity date of December 2014, incurring \$0.4 million in prepayment penalties. Also in June 2007, the Operating Partnership issued an aggregate \$250.0 million of exchangeable senior notes with a maturity date of July 2027 and an interest rate of 4.60%. Interest on the notes is payable semi-annually in arrears on January 15 and July 15 of each year, beginning January 15, 2008. The notes, subject to specified events and other conditions, are exchangeable into, at our option, cash, shares of our common stock, or a combination of cash and shares of our common stock. The initial exchange rate for each \$1,000 principal amount of notes is 28.9855 shares of our common stock, representing an exchange price of approximately \$34.50 per common share. The initial exchange rate is subject to adjustment under certain circumstances. The Operating Partnership does not have the right to redeem the notes, except to preserve our REIT status, before January 20, 2013, and may redeem the notes, in whole or in part, thereafter at a redemption price equal to 100% of the principal amount of the notes to be redeemed, plus any accrued and unpaid interest. Upon specified change in control events as well as specified dates, holders of the notes may require the Operating Partnership to repurchase their notes, in whole or in part, for cash equal to 100% of the principal amount of the notes to be repurchased, plus any accrued and unpaid interest. The notes are the senior unsecured obligations of the Operating Partnership. We and all of our subsidiaries that are guarantors under our credit facility have guaranteed the Operating Partnership's obligations under the notes.

As of June 30, 2007, all of our outstanding debt has fixed interest rates. Our credit facility has a variable interest rate that is tied to LIBOR. The majority of our mortgage debt is in the form of single asset loans rather than cross-collateralized multi-property pools. We believe this structure is appropriate for the operating characteristics of our business and provides flexibility for assets to be sold subject to the existing debt.

Contractual Obligations

The following table summarizes our payment obligations and commitments as of June 30, 2007 (in thousands):

Contractual obligations	Total	Payment due by period

Capital Expenditures and Reserve Funds

We believe we maintain each of our hotels in good repair and condition and in conformity with applicable franchise agreements, ground leases, laws and regulations. Our capital expenditures primarily relate to the ongoing maintenance of our hotels and are budgeted in the reserve accounts described in the following paragraph. We also incur capital expenditures following the acquisition of hotels for renovation and development. We spent \$75.7 million during the first six months of 2007 for renovations to our hotels. For 2007, our renovation budget includes \$30.4 million of contractual construction commitments. Our total capital expenditures for 2007 are expected to be approximately \$130.0 million to \$140.0 million, including the \$75.7 million spent in the first six months of 2007. All of these amounts are expected to be funded out of our operating cash flow and our cash and reserve accounts. If we acquire, renovate or develop additional hotels in the future, our capital expenditures will increase. Our capital expenditures also fluctuate from year to year, since we are not required to spend the entire amount in the reserve accounts each year.

With respect to our hotels that are operated under franchise agreements with major national hotel brands and for all of our hotels subject to a first mortgage lien, we are obligated to maintain a furniture, fixture and equipment, or FF&E, reserve account for future planned and emergency-related capital expenditures at these hotels. The amount funded into each of these reserve accounts is determined pursuant to the management, franchise and/or loan agreements for each of the respective hotels, ranging between 1.0% and 5.0% of the respective hotel's total annual revenue.

Table of Contents

As of June 30, 2007, \$40.2 million was available in restricted cash reserves for future capital expenditures at our hotels. According to the respective loan agreements, the reserve funds are to be held by the respective lenders in a restricted cash account.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements consist of our ownership interest in a joint venture. For further discussion of this joint venture and its effect on our financial condition, results of operations and cash flows, see Note 6 to the consolidated financial statements.

Seasonality

As is typical of the lodging industry, we experience some seasonality in our business as indicated in the table below. Revenue for certain of our hotels is generally affected by seasonal business patterns (e.g. the first quarter is strong in Orlando, the second quarter is strong for the Mid-Atlantic business hotels, and the fourth quarter is strong for New York City). Quarterly revenue also may be adversely affected by renovations and our managers' ability to generate business and by events beyond our control, such as extreme weather conditions, terrorist attacks or alerts, public health concerns, airline strikes, economic factors and other considerations affecting travel. Revenues for our comparable hotel portfolio by quarter during 2006 and 2007 were as follows (dollars in thousands):

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter
Revenues				
2006	\$ 188,229	\$ 212,488	\$ 205,527	\$ 231,149
2007	\$ 209,457	\$ 234,204		

Inflation

Inflation may affect our expenses by increasing costs including but not limited to, payroll, taxes, property and casualty insurance and utilities.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses and related disclosure of contingent assets and liabilities.

We evaluate our estimates on an ongoing basis. We base our estimates on historical experience, information that is currently available to us and on various other assumptions that we believe are reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect the most significant judgments and estimates used in the preparation of our consolidated financial statements.

Impairment of long-lived assets. We periodically review each property for possible impairment. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment recognized is measured by the amount by which the carrying amount of the assets exceeds the estimated fair value of the assets. In this analysis of fair value, we use discounted cash flow analysis to estimate the fair value of our properties taking into account each property's expected cash flow from operations, holding period and proceeds from the disposition of the property. The factors addressed in determining estimated proceeds from disposition include anticipated operating cash flow in the year of disposition, terminal capitalization rate and selling price per room. Our judgment is required in determining the discount rate applied to estimated cash flows, growth rate of the properties, the need for capital expenditures, as well as specific market and economic conditions. Additionally, the classification of these assets as held-for-sale (if applicable) requires the recording of these assets at their estimated fair value less estimated selling costs which can affect the amount of impairment recorded.

Edgar Filing: Sunstone Hotel Investors, Inc. - Form 10-Q

Depreciation and amortization expense. Depreciation expense is based on the estimated useful life of our assets. The life of the assets is based on a number of assumptions, including the cost and timing of capital expenditures to maintain and refurbish our hotels, as well as specific market and economic conditions. Hotel properties and other completed real estate investments are depreciated using the straight-line method over estimated useful lives ranging from five to 35 years for buildings and improvements and three to 12 years for furniture, fixtures and

Table of Contents

equipment. While management believes its estimates are reasonable, a change in the estimated lives could affect depreciation expense and net income or the gain or loss on the sale of any of our hotels. We have not changed the estimated useful lives of any of our assets during the periods discussed.

Accrual of self-insured obligations. We are self-insured up to certain amounts with respect to employee medical, employee dental, general liability insurance, personal injury claims, automobile liability and other coverages. We establish reserves for our estimates of the loss that we will ultimately incur on reported claims as well as estimates for claims that have been incurred but not yet reported. Our reserves, which are reflected in Due to SHP and other liabilities in our consolidated balance sheets, are based on actuarial valuations and our history of claims. Our actuaries incorporate historical loss experience and judgments about the present and expected levels of costs per claim. Trends in actual experience are an important factor in the determination of these estimates. We believe that our estimated reserves for such claims are adequate, however, actual experience in claim frequency and amount could materially differ from our estimates and adversely affect our results of operations, cash flow, liquidity and financial condition.

New Accounting Standards and Accounting Changes

We have adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes-an interpretation of FASB Statement No. 109 (FIN 48), as of January 1, 2007. FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement 109, Accounting for Income Taxes, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Based on our evaluation, we have concluded that there are no significant uncertain tax positions requiring recognition in our financial statements. Our evaluation was performed for the tax years ended December 31, 2004, 2005 and 2006. These are the tax years which remain subject to examination by major tax jurisdictions as of June 30, 2007. We may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event we receive an assessment for interest and/or penalties, it will be classified in the financial statements as tax expense.

In September 2006, the FASB issued Statement No. 157 (FAS 157), *Fair Value Measurements*. FAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. FAS 157 is effective for the first fiscal period beginning after November 15, 2007. We are currently evaluating the effect, if any, the adoption of FAS 157 will have on our financial condition, results of operations and cash flow.

In February 2007, the FASB issued Statement No. 159 (FAS 159), *The Fair Value Option for Financial Assets and Financial Liabilities*. FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunities to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. FAS 159 is effective as of the beginning of an entity's first fiscal year that begins after November, 15, 2007. We are currently evaluating the effect, if any, the adoption of FAS 159 will have on our financial condition, results of operations and cash flow.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

To the extent that we incur debt with variable interest rates, our future income, cash flows and fair values relevant to financial instruments are dependent upon prevailing market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates. As of June 30, 2007, none of our outstanding debt is subject to variable interest rates.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Based upon an evaluation of the effectiveness of disclosure controls and procedures, Sunstone Hotels Investors, Inc.'s Chief Executive Officer (CEO) and Chief Financial Officer (CFO) have concluded that as of the end of the period covered by this Quarterly Report on Form 10-Q our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the rules and forms of the Securities and Exchange Commission and is accumulated and communicated to management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.
