The Nominating and Corporate Governance Committee was established to assist the Board in identifying qualified individuals to become directors of the Company, recommend to the Board qualified director nominees for election by the stockholders or to fill vacancies on the Board, recommend to the Board membership on Board committees, recommend to the Board proposed Corporate Governance Guidelines and report annually to the Board on the status of the CEO succession plan. The Nominating and Corporate Governance Committee operates under a written charter. The Company has made a copy of its Nominating and Corporate Governance Committee Charter available in the Investors section of the Company's website at <http://www.matrixservice.com>. The Nominating and Corporate Governance Committee has the authority under its charter to retain a professional search firm to identify candidates. The Nominating and Corporate Governance Committee held four meetings during fiscal 2007.

Director Nomination Process

The Nominating and Corporate Governance Committee will consider director candidates submitted to it by other directors, employees and stockholders. In evaluating such nominations, the Nominating and Corporate Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board of Directors and to address the director qualifications discussed below.

The Nominating and Corporate Governance Committee regularly assesses the appropriate size of the Board of Directors and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated or otherwise arise, the Committee considers various potential candidates for director. Candidates may come to the attention of the Committee through current directors, senior management, professional search firms, stockholders or other persons.

Once a prospective nominee has been identified, the Committee makes an initial determination as to whether to conduct a full evaluation of the candidate. The initial determination involves an evaluation of the candidate against the qualifications set forth in the Corporate Governance Guidelines, which require broad experience, wisdom, integrity, the ability to make independent analytical inquiries, an understanding of the Company's business environment and a willingness to devote adequate time to Board duties, including service on no more than four other public company boards. The Committee also assesses the candidate's qualifications as an independent director under the Nasdaq's current director independence standards and the Company's director independence guidelines. If the Committee determines that additional consideration is warranted, it may request a professional search firm to gather additional information about the candidate. The Committee designates, after consultation with the CEO, which candidates are to be interviewed. After completing its evaluation, the Committee makes a recommendation to the full Board of Directors as to the persons who should be nominated by the Board and the Board determines the nominees after considering the recommendation of the Committee.

Holders of Common Stock wishing to recommend a person for consideration as a nominee for election to the Board can do so in accordance with the Company's Bylaws by giving timely written notice to the Secretary of the Company at 10701 East Ute Street, Tulsa, Oklahoma 74116. The written notice should give each such nominee's name, address, appropriate biographical information, a description of all arrangements or understandings between the stockholder and each such nominee and any other person or persons (naming such person or persons), relating to such nominee's service on the Board of Directors, if elected, as well as any other information that would be required in a proxy statement. Any such recommendation should be accompanied by a written statement from the person recommended, giving his or her consent to be named as a nominee and, if nominated and elected, to serve as a director. The written notice must be delivered to the Secretary of the Company not later than 80 days prior to the date of any annual or special meeting; provided, however, that in the event that the date of such annual or special meeting is not publicly announced by the Company more than 90 days prior to the meeting, notice

Table of Contents

by the stockholder must be delivered to the Secretary of the Company not later than the close of business on the tenth day following the day on which public announcement of the date of such meeting is communicated to the stockholders. The written notice to the Secretary of the Company must also set forth the name and address of the stockholder who intends to make the nomination and a representation that the stockholder is a holder of record of stock of the Company entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice.

Communications with the Board of Directors

The Board of Directors provides a process by which stockholders and other interested parties may communicate with the Board or any of the directors. Stockholders and other interested parties may send written communications to the Board of Directors or any of the directors at the following address: Board of Directors of Matrix Service Company c/o Matrix Service Company, 10701 East Ute Street, Tulsa, Oklahoma 74116-1517. Stockholders and other interested parties may also use the Company's online submission form at the FAQ section of the Investors section of the Company's website at <http://www.matrixservice.com> to contact the Board or any of the directors. All communications will be compiled by the Company's Corporate Secretary and submitted to the Board or the individual director on a periodic basis.

Equity Ownership Guidelines for Directors

Each director is strongly encouraged to have a significant investment in the Company evidenced by the ownership, from time to time, either directly or indirectly, of an approximate value of \$100,000 of Matrix Service Company Stock. For purposes of these guidelines, indirect ownership includes to the pre-tax in the money market value of stock options and phantom stock in the Director's deferred compensation plan. Directors shall have five years from the date of their initial election to the Board to meet this requirement.

Director Compensation

Management Directors receive no additional compensation for service on the Board of Directors or any committee thereof. Directors of the Company are reimbursed for out-of-pocket expenses incurred in attending the Board of Directors and committee meetings.

The elements of our non-employee Director compensation consist of cash and equity compensation. Our objective with Director compensation is to position ourselves to attract and retain individuals with relevant business and leadership background and experience by providing a competitive package of cash and equity compensation.

Total Compensation for the Company's non-employee Directors is determined in a manner similar to that for executives. The Compensation Committee, working with the Company's Vice President, Human Resources, engages third party compensation consultants to periodically review Director compensation and make recommendations. The Board's philosophy is to keep Director compensation simple and straightforward in nature. The Compensation Committee reviews benchmark data from outside consultants and makes recommendations to the Board of Directors for approval.

Director compensation review is conducted on a bi-annual basis. This review was most recently completed in July 2006. Compensation was adjusted in July 2006, as outlined below. Director compensation will be reviewed again in July/August 2008.

In April 2006, the Compensation Committee engaged third party compensation consultant, Villareal & Associates, to conduct a market study. Villareal & Associates obtained benchmark data using published compensation surveys and proxy analysis of selected benchmark companies similar in size, location and industry to the Company.

Based on the consultant's findings and recommendations, the Compensation committee determined that total compensation for Directors should be approximately \$100,000 with 50% in cash and 50% in performance-based equity. The objective is to provide a long-term component to total compensation that aligns the interests of Board members with those of Company stockholders through stock ownership.

Table of Contents

At the July 2006 Compensation Committee meeting, adjustments were made to the annual retainer, Committee Chair and Chairman fees, bringing cash compensation for each Director to approximately \$50,000 (or 50% of total compensation). Cash compensation may be taken in the form of cash payments or may be deferred with interest. The remaining 50% of Director compensation (\$50,000 of value) is issued in the form of Restricted Stock, which ties Director's compensation directly to the Company's performance. A similar approach to that for executive equity was used except the financial measure for Directors is Net Income, as opposed to Operating Income for executive officers and management. Performance measures are defined as Matrix Service Company Consolidated Net Income for a 3-year period beginning with fiscal 2007. Restrictions will lapse at the end of the three-year period, based on performance and have Threshold, Target and Maximum levels of achievement. In the event performance goals are not achieved, the stock is forfeited.

The basis for the October 2007 Restricted Stock awards to non-employee Directors is detailed below:

Annual equity value of approximately \$50,000 (represents 50% of total compensation)

Actual number of shares determined by dividing annual value by stock price on grant date.

100% of the equity component of Board compensation is performance-based: Performance is defined as Matrix Service Company's Consolidated Net Income for a 3-year period beginning with fiscal 2007. Actual performance in fiscal 2006 was used as a baseline, and combined with annual expected growth rates.

The grant has Threshold, Target and Maximum levels of achievement. At Threshold, 50% of the award is earned; at Target 75% of the award is earned; and at Maximum 100% of the equity award is earned.

Performance for the 3-year period is measured at the end of the period.

If Threshold performance objectives are not met, the shares are forfeited.

The interest rate is 8.5% for calendar 2007.

Prior to 2007, the Board's Deferred Fee Plan allowed them to defer the cash portion of their compensation with interest or in the form of Phantom Stock. In October 2006, the Plan was amended and the Phantom Stock option was eliminated. Also, prior to October 2006, the Directors were issued annual grants of options for 5,000 shares. The last grant was October 2005. All equity grants, to Company executive officers and Directors, were changed from Stock Options to Restricted Stock in October 2006.

Replacement of Former Independent Auditors

At a meeting held on January 3, 2006, the Audit Committee of the Board of Directors of the Company, approved the engagement of Deloitte & Touche LLP as its independent registered public accounting firm for the fiscal year ending May 31, 2006 to replace the firm of Ernst & Young LLP, which was dismissed as the independent registered public accounting firm of the Company, each effective January 6, 2006.

The reports of Ernst & Young LLP on the Company's financial statements for the fiscal years ended May 31, 2004 and May 31, 2005 did not contain an adverse opinion or a disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles.

In connection with the audits of the Company's financial statements for each of the two fiscal years ended May 31, 2005, and in the subsequent interim period preceding their dismissal, there were no disagreements with Ernst & Young LLP on any matters of accounting principles or practices, financial statement disclosure or auditing scope and procedures which, if not resolved to the satisfaction of Ernst & Young LLP would have caused Ernst & Young LLP to make reference to the matter in their report.

During the fiscal years ended May 31, 2004 and May 31, 2005, and the subsequent interim period preceding their dismissal, there were no reportable events as defined by Item 304(a)(1)(v) of Regulation S-K, except that Ernst & Young LLP noted that Management's Report on Internal Control Over Financial Reporting included in the Company's Annual Report on Form 10-K for the fiscal year ended May 31, 2005 identified the following deficiencies which together constituted a material weakness related to revenue recognition at the Company's Eastern Business Unit:

Change orders were inappropriately or inaccurately included in or, in certain instances, excluded from reports utilized in the Company's percentage of completion computations.

Job forecasts were inadequately prepared and supported or inadequately reviewed by appropriate members of project management and financial accounting.

Preparation of invoices for a material contract lacked appropriate reconciliations to information recorded in the Company's financial accounting system.

The material weakness described above affected the Company's revenue, accounts receivable, cost and estimated earnings in excess of billings on uncompleted contracts and billings on uncompleted contracts in excess of costs and estimated earnings financial statement accounts. As a result, management concluded that the Company's internal control over financial reporting as of May 31, 2005 was ineffective. Ernst & Young LLP's opinion indicated that management's assessment was fairly stated in all material respects and that because of the effect of the material weakness, Matrix Service did not maintain effective internal control over financial reporting as of May 31, 2005. This material weakness was remediated during fiscal 2006.

During the Company's fiscal years ended May 31, 2004 and May 31, 2005, and the subsequent interim period preceding Ernst & Young LLP's dismissal, the Company did not consult with Deloitte & Touche LLP with respect to the application of accounting principles to a specified transaction, either contemplated or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, or any other matters or reportable events described in Items 304(a)(2)(i) and (ii) of Regulation S-K.

Fees billed for audit-related services were for assistance with routine SEC correspondence and accounting research tools. Fees billed for tax services were for tax consulting services approved by the Audit Committee.

The Company has also made the Audit Committee's pre-approval policies, which are included in the Audit Committee Charter, available in the Investors' section of the Company's website at <http://www.matrixservice.com>.

PROPOSAL NUMBER 2:**Ratification of Selection of Independent Registered Public Accounting Firm**

Pursuant to the Sarbanes-Oxley Act of 2002, the Audit Committee of the Board of Directors of the Company has been charged with the exclusive power and authority to engage or terminate the independent registered public accounting firm. The Audit Committee of the Board of Directors has engaged the firm of Deloitte & Touche LLP as the Company's independent registered public accounting firm for the fiscal year ending May 31, 2008. Deloitte & Touche LLP has served as independent auditors for the Company since January 2006.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy and Objectives

Matrix Service Company is focused on building and maintaining a sustainable business model that consistently delivers superior returns to our stockholders. To be successful, we must attract, retain and motivate key talent to provide the needed leadership capabilities to execute our business strategy. Our compensation philosophy and approach is designed to support these overarching objectives.

Our executive compensation program is administered by the Compensation Committee of the Board of Directors. The role of the Committee is to provide oversight and direction to ensure the establishment of executive compensation programs that are competitive in nature, enable us to attract top talent, and align the interests of our executive officers with that of our stockholders.

The basic compensation philosophy of the Company and Compensation Committee is to provide the opportunity for outstanding compensation awards when superior performance is demonstrated. This pay-for-performance philosophy is reflected in each aspect of the compensation package for executive officers and management team members. All components of compensation for executive officers and key management are reviewed periodically to ensure consistency with the company's compensation philosophy and competitive market practices. The Committee uses the following basic principles in the design and administration of our executive compensation program:

Competitiveness Our compensation programs are designed to ensure the Company can attract, motivate and retain the talent needed to lead and grow the business. Targets for base salary, short-term and long-term compensation are generally based on median (50th percentile) market levels.

Support Business Objectives, Strategy and Values Ultimately our compensation program is designed to drive the achievement of annual business objectives, support the creation of long-term value for stockholders, and promote and encourage behavior consistent with Company core values and guiding principles.

Pay for Performance While we establish Target levels of performance at median or 50th percentile market levels, our plans provide the opportunity for significantly greater rewards for outstanding performance. At the same time, performance that does not meet expectations is not rewarded.

Individual Performance In addition to objective Company, Business Unit and Operating Unit financial measures, our programs emphasize individual performance and the achievement of personal objectives.

Integrated Approach We look at compensation in total and strive to achieve an appropriate balance of immediate, short-term and long-term compensation components, with the ultimate goal of aligning executive compensation with long-term stockholder value. The Compensation Committee is supported by the Company's Vice President, Human Resources (VPHR), and other executive officers as needed or requested, in the design, review and administration of executive compensation programs. The Compensation Committee engages a third party compensation consulting firm, Villareal & Associates, to evaluate Board and executive officer compensation, benchmark Company practices against other companies, and provide associated recommendations. Senior management also uses Villareal & Associates for other compensation and human resources consulting projects. The CEO incorporates the third party consultant's findings and provides recommendations to the Compensation Committee regarding executive compensation for review, discussion and approval. Management performance and compensation recommendations are reviewed and approved in Executive Session, without management present. The Compensation Committee establishes CEO compensation. The Compensation Committee reviews performance of the CEO and establishes appropriate compensation in executive session without management present.

Table of Contents

The Compensation Committee typically reviews base salary for executive officer compensation at its regularly-scheduled July/August meeting. At this meeting, the Compensation Committee also reviews and approves incentive payments for the previous fiscal year and establishes incentive targets for the coming fiscal year, under the short-term incentive plan Long-term incentive awards are approved by the Compensation Committee at a meeting immediately following the annual stockholders meeting each October. The Compensation Committee may also approve base pay, short-term incentive and long-term incentive (equity) grants for executive officers during the year as the result of internal promotions or for new hires.

Key Elements of Executive Compensation

The primary elements of our executive compensation program include:

Base Pay;

Annual/Short-Term Incentive Compensation;

Long-Term Incentive Compensation (Equity);

Perquisites and Other Benefits; and

Change of Control Agreements

Base Pay

Base pay is the foundation of our executive compensation package. Base pay is based on the executive officer's responsibilities, role in the organization, level and type of work experience, and individual job performance. Our practice in establishing executive base pay, and that for other employees and managers, is to determine the market median or 50th percentile among comparable companies. This data is obtained through our third party compensation consultant. We engage a compensation consultant to review and benchmark competitive market pay data on no less than a bi-annual basis.

The Company utilizes a market-based job evaluation system to establish and ensure equitable, competitive pay levels throughout the organization. Salary grades and ranges are established by evaluating positions based on the external market data and internal equity. Each executive officer, as well as other managers and administrative employees, is assigned to a salary grade. Broad ranges of salary are associated with each grade. The position within the salary grade/pay range for each executive officer is determined based on their respective level of experience, skill and demonstrated performance.

Base pay and salary grade also play a role in determining other short- and long-term incentive compensation awards. Short-term incentive awards are reflected as a percentage of base salary and long-term incentives are based on an executive officer's salary grade.

Mr. Michael J. Bradley became President and Chief Executive Officer of the Company effective November 6, 2006. In connection with his employment, Mr. Bradley received base pay of \$277,083 in fiscal 2007, which represented Mr. Bradley's annual salary of \$475,000 prorated from his date of hire on November 6, 2007. The Company also provided Mr. Bradley with a car allowance that was prorated from his date of hire, and which totaled \$11,710 in fiscal 2007.

In addition to his base salary, Mr. Bradley received an initial hiring bonus of \$150,000 and a grant of restricted stock. In the event Mr. Bradley voluntarily resigns prior to the completion of 12 months of consecutive service, pro-rata repayment of the cash bonus will be required. The restricted stock grant consisted of 40,430 shares for which restrictions lapse on November 6, 2007, and 43,800 shares for which restrictions lapse in equal annual installments over the four subsequent years beginning on November 6, 2008. He also received 44,400 restricted shares for which restrictions lapse if established Operating Income Targets are achieved and 44,400 restricted shares which for which restrictions lapse in equal installments over five years. Regarding the grant tied to three-year Operating Income, Bradley will receive 60% of the award at the end of three

between \$64.3 million and \$66.9 million, and 100% if the cumulative three year operating income exceeds \$66.9 million. The grant date fair value of the restricted stock was \$2,567,765. The Company also paid certain relocation costs associated with Mr. Bradley's move to our corporate headquarters in Tulsa, Oklahoma. The relocation expenses paid in fiscal 2007 by the Company for Mr. Bradley's move are \$152,331. The hiring bonus, restricted stock grant and relocation benefit were structured in order to create an executive compensation package that enabled us to successfully hire a high caliber CEO, is competitive in the marketplace, and sufficient to induce Mr. Bradley to accept the position in light of the compensation package provided by his previous employer.

Base pay compensation for Mr. George L. Austin, Mr. James P. Ryan, Mr. John S. Newmeister and Mr. Bradley J. Rinehart is administered in line with our established compensation philosophy discussed above.

Annual/Short-Term Incentive Compensation

Our annual/short-term incentive compensation plan is designed to offer the opportunity for substantial incentive awards for delivering outstanding performance. Rewards under the Company's short-term incentive compensation plans are based on overall Company, Business Unit and Operating Unit performance, as compared to pre-established objectives that are tied to enhancement of stockholder value. Our short-term incentive compensation objectives are designed to:

Support and drive performance toward achieving the company's strategic objectives;

Emphasize overall Company, Business Unit, Operating Unit and individual performance in the structuring of reward opportunities;

Motivate and reward superior performance; and

Provide incentive compensation opportunities that are competitive in the industry.

For Fiscal Year 2007, our annual/short-term incentive targets were established as follows:

For fiscal 2007, a consolidated annual operating income goal (Target) was recommended by the CEO and approved by the Compensation Committee at the July 2006 meeting.

For the purpose of goals and incentive awards, all income measures were defined as Pre-Tax, Pre-Interest, Post-Incentive Income (Pre-Tax Income). Income measures for the CEO and CFO are post-incentive for operations and pre-executive incentive compensation (executive defined in this sentence as the CEO and CFO).

Corresponding Targets for Pre-Tax Income were established for each Operating Company, Business Unit and Organizational Unit based on business plans, which were designed to drive growth and/or improved profitability.

Once all Targets are established for consolidated Company, Business Unit and Operating Unit, Threshold and Maximum levels of performance are defined. Threshold is defined as 80% of Target and Maximum is defined as 120% of Target. No incentives are paid for performance below the Threshold level.

CEO, CFO and corporate executive management and staff incentives were tied to consolidated Company performance.

Edgar Filing: MATRIX SERVICE CO - Form DEF 14A

Incentives for other executive officers, managers and operating division personnel were tied to both their respective Business/Operating Unit and the consolidated Company.

Actual performance in relation to established measures was presented to the Compensation Committee at the August 2007 meeting and was approved. Incentives for fiscal 2007 performance were paid on August 14, 2007.

Table of Contents

Discretionary awards outside of the plan may be recommended by the CEO and approved by the Compensation Committee in the event there are special circumstances or achievements that need to be recognized.

Performance measures established shortly after the beginning of the Fiscal Year do not include the impact of an acquisition, positive or negative, completed within the Fiscal Year. However, it is anticipated that the Compensation Committee will evaluate any acquisitions which may be completed on a case-by-case basis to determine their impact on the plan and adjust performance measures appropriately.

In Fiscal Year 2007, the incentive compensation payable to Mr. Bradley and Mr. Austin was based solely on attainment of a Pre-Tax Income goal. Pre-Tax Income for fiscal 2007 exceeded the level of \$26.4 million established for the maximum performance payout of 100% of base salary to Mr. Bradley and 60% of base salary to Mr. Austin.

Incentive compensation payable to Mr. Newmeister was also based on the attainment of a consolidated Company Pre-Tax Income goal. As noted above, Pre-Tax Income for fiscal 2007 exceeded the level of \$26.4 million established for the maximum performance payout of 52.5% of base salary to Mr. Newmeister.

Incentive compensation payable to Mr. Ryan and Mr. Rinehart was based on the attainment of Pre-Tax Income goals for their respective business units and the consolidated Company. As noted above, the consolidated Company achieved maximum performance payout. However, the business unit component of Mr. Ryan and Mr. Rinehart's incentive compensation was adversely impacted by the 4th Quarter pre-tax charge of \$10.9 million for cost overruns on a liquefied natural gas (LNG) construction project in the Gulf Coast region, resulting in no plan calculated incentive payments for the respective business unit performance. The cost overruns on the LNG project were attributable to a difficult post-Katrina labor environment, unforeseen productivity challenges and complexity of design leading to material and equipment cost increases. With the exception of the referenced cost overruns on this project, both Mr. Ryan's and Mr. Rinehart's respective business units produced record level earnings in fiscal 2007. Given the exceptional performance in all other aspects of the business, the CEO recommended a discretionary incentive award to Mr. Ryan and Mr. Rinehart in an amount equal to the Target performance level (35% of base salary) for the respective business unit component of the total incentive. The Compensation Committee approved the discretionary awards for Mr. Ryan and Mr. Rinehart as recommended.

While the base calculation of incentives is tied to objective measures of financial performance, the plan calculated incentive awards for Mr. Ryan, Mr. Newmeister and Mr. Rinehart may be adjusted upward or downward based on individual performance by each executive's manager. The CEO presents any recommended adjustments to executive officer incentive payments to the Compensation Committee for approval. In addition, the Compensation Committee has the authority to make discretionary awards of up to 25% of salary to the CEO and CFO outside the guidelines of the plan.

The Annual/Short-Term Incentive Compensation Plan is reviewed and evaluated periodically to ensure that it meets its objectives and may be modified, discontinued or replaced based on the changing objectives and requirements of the Company.

For Fiscal Year 2008, our annual/short-term incentive compensation will be based on safety performance, financial performance, and other performance criteria such as growth strategy execution, operating excellence strategy execution and human resource strategy execution. CEO, CFO and corporate executive management and staff incentives are tied to consolidated Company performance. Incentives for other executive officers, managers and operating division personnel are tied to the performance of both their respective Business/Operating Unit and the consolidated Company. The percentage of each employee's annual/short-term incentive assigned to each performance element is dependent on the employee's position and responsibilities. Information on the annual/short-term incentive targets established for each element follows:

Safety Performance Safety performance which is measured by Total Recordable Incident Rate (TRIR). The TRIR incentive targets for fiscal 2008 are 1.25 for Threshold payout, 1.00 for Target payout and 0.75 for maximum payout.

Table of Contents

Financial Performance Financial performance is measured by Pre-Tax, Pre-Interest, Post-Incentive Income (Pre-Tax Income). The Consolidated Pre-Tax Income incentive targets for fiscal 2008 are \$43.2 million for Threshold payout, \$48.6 million for Target payout and \$54.0 million for maximum payout. Corresponding Targets for Pre-Tax Income were established for each Operating Company, Business Unit and Organizational Unit based on business plans, which were designed to drive growth and/or improved profitability.

Other Performance Criteria The annual/short-term incentive will also be based on targets to be established in the areas of growth strategy execution, operating excellence strategy execution and human resource strategy execution.

Long-Term Incentive Compensation (Equity)

The purpose for providing long-term incentive compensation to executive officers is to tie executive rewards directly to the enhancement of long-term stockholder value. Offering the opportunity for executive officers (and other managers) to earn an ownership position in the Company enables us to remain competitive and attract, retain and motivate top executive and management talent. We believe equity ownership helps to create and maintain a long-term perspective among executive officers and provides a direct link to the long-term growth and profitability of the Company.

On October 23, 2006, the Company amended and restated its 2004 Stock Incentive Plan to permit the grant of Restricted Stock, Restricted Stock Units, Stock Appreciation Rights, and Performance Shares, in addition to Stock Options which were previously authorized. In October 2006, the Company changed the form of equity grants awarded to executive officers and key management personnel from Stock Options to Restricted Stock.

The Compensation Committee believes that Restricted Stock is the most appropriate form of equity compensation to achieve our stated objectives, as it is a full value award that strongly and directly links management and stockholder interests. As a full value award, Restricted Stock is less dilutive to stockholders, as the Company is able to issue fewer shares in order to attain the desired level of equity compensation to our executive officers and managers. Restricted Stock awards are granted on an annual basis and contain both a performance- and time-based element. Performance-based shares link the equity reward to the Company's strategic objectives and stockholder value. Time-based shares promote executive officer/management retention. Specific, individual grants vary by level/role in the organization. The amount of each award corresponds to the respective salary grade for each executive officer and manager.

The objective is to provide a long-term component to overall compensation that aligns the interests of executives with those of stockholders through stock ownership. For our long-term incentive compensation plan, the measure we use is Consolidated Operating Income which is designed to promote teamwork and align management toward a common, strategic goal.

The basis for the October 2006 Restricted Stock awards to executive officers is detailed below:

Each award includes both Performance- and Time-Based Elements

50% of the total grant is Performance-Based: Performance is defined as Matrix Service Company Consolidated Operating Income for a 3-year period beginning in fiscal 2007. Actual performance in fiscal 2006 was used as baseline, combined with annual expected growth rates.

The Performance-Based Grant has Threshold, Target and Maximum levels of achievement. At Threshold, 60% of the award is earned; at Target 80% of the award is earned; and at Maximum 100% of the equity award is earned.

Performance for the 3-year period is measured at the end of the period.

If threshold performance objectives are not met, all of the performance-based restricted shares are forfeited.

Table of Contents

50% of the total grant is Time-Based: Restrictions lapse at the rate of 20% per year over five years.

Long-term equity awards are granted on an annual basis each October at the Board meeting immediately following the Company's annual stockholders meeting.

Equity compensation is reviewed and evaluated periodically to ensure that it meets its objectives and may be modified, discontinued or replaced based on the changing objectives and requirements of the Company.

Perquisites and Other Benefits

Our executive officers do not receive a large number of perquisites or supplemental benefits. In general, our executive officers are eligible to participate in the same health and welfare plans as all eligible employees. However, to remain competitive in our benefit offerings, there are a few additional benefits for executive officers which are outlined below:

Retirement Benefits The Company sponsors a 401(k) Savings Plan which allows executive officers, and other employees, to contribute up to the lesser of 25% of their salary or the annual IRS maximum. Through December 31, 2006, the Company provided a matching contribution of 50% of first 6% of employee contributions. Beginning January 1, 2007, the Company implemented a Safe Harbor Matching contribution, which is 100% of the first 3% and 50% of the next 2% of employee contributions. Executive officers participate and receive benefits under the plan in the same manner as all other eligible participants. The Company does not sponsor or maintain any other pension, deferred compensation plans or other supplemental retirement plans for executive officers.

Life Insurance In addition to the group term life policy offered to all eligible employees, the Company provides additional life insurance to its executive officers, at no cost to the officer.

CEO The Company provides a \$500,000 term life insurance policy for the CEO.

Executive Officers and Managers The Company provides an additional Corporate Term Life Insurance Policy for all executive officers and select managers at the levels outlined below:

CEO and CFO	\$600,000
Other Executive Officers	\$400,000
Select Managers	\$200,000

In addition to the company-provided life insurance policies described above, all executive officers, along with other eligible employees and managers, have the option to purchase supplemental life insurance for themselves, their spouses and dependents.

Country Club Membership The Company reimburses the CEO and CFO for the initiation fee and monthly dues associated with a country club membership. While the country club may be used for business purposes, the Compensation Committee believes that this benefit is generally considered a perquisite of these positions, and is maintained in order to attract and retain highly qualified executives for these positions.

Auto Allowance It is the policy of the Company to provide company vehicles or vehicle allowances to corporate officers, management personnel, and to other personnel with a defined business need. The assignment of a company-provided vehicle or vehicle allowance is determined by (1) the level of the position, (2) the nature of the position and (3) business necessity. A vehicle allowance is provided to executive officers as a perquisite. The amount of the vehicle allowance varies by position. The vehicle allowance is paid as part of regular payroll and is taxable income.

Change of Control/Severance Agreements – Four Key Officers

The Company has entered into Change of Control/Severance Agreements with four executive officers, including the CEO, CFO and two Operating Company Presidents, Mr. James P. Ryan and Mr. James A. Bogan. These agreements are designed to promote stability, continuity and focus for key members of leadership during periods of uncertainty that may be created by change of control situations. Additionally, the use of such agreements is a competitive practice that enhances the Company's ability to attract and retain leadership talent.

Under these four agreements, payment of benefits may occur under two circumstances:

If the Company experiences a Change of Control and the Executive suffers an Adverse Event or is terminated from the Company without cause, either on the date of the Change of Control or within 24 months following Change of Control date; or

The Executive is terminated from employment at any time for reasons other than Cause.

Change of Control means (i) a change in ownership of the Company of greater than fifty percent (50%) of the outstanding voting stock of the Company within a six (6) month period; (ii) a change in the effective control of the Company as determined by a change of greater than thirty-five percent (35%) of the outstanding voting stock of the Company by a person or persons acting as a group within a twelve (12) month period; or (iii) a change in the ownership of a substantial portion of the assets of the Company as these terms are defined under Code § 409A(a)(2)(A)(v) and Treasury Regulations § 1.409A-3(g)(5) or other then existing and applicable Treasury Regulations promulgated under Code § 409A that define the terms change of control for deferred compensation arrangements.

Cause means, with reference to a Severance Event, that the Executive has been severed from employment with the Company because of Executive's theft of Company property, embezzlement or dishonesty that results in harm to the Company; continued gross or willful neglect of his job responsibilities after receiving written warnings regarding such neglect from the Company; conviction of a felony or pleading *nolo contendere* to a felony charged under state or federal law; or willful violation of Company policy. A determination by the Company Board of Directors that an event constituting Cause under this Agreement has occurred is binding upon the Company and the Executive.

In the event payment of benefits is triggered under these agreements, the executive officer will be paid an amount equal to one year's annual base salary plus the average of annual bonus compensation paid to the executive in the three calendar years prior to the date of the event triggering payment. In addition, all stock options and other forms of equity compensation shall immediately vest and all restrictions on such benefits shall lapse. All benefits paid under these agreements are conditional upon the executive executing a waiver and release of claims and confidentiality agreement in a form satisfactory to the Company. Failure to execute such an agreement shall constitute an absolute forfeiture of the severance benefit. In the event an executive officer is terminated for Cause, no benefits are payable under the agreement.

Benefits will be paid in the calendar year the event occurs and, generally, within 30 days of the date of the event. In no case shall the payment of the severance benefits be paid later than March 15 following the calendar year in which the event occurred.

Change of Control Agreements – Other Executive Officers and Managers

The Company has also entered into Change of Control Agreements with other executive officers and key members of management. These agreements are designed to promote stability, continuity and focus for key managers during periods of uncertainty that may be created by potential change of control situations. Our goal is to offer some security and protection when asking officers and managers to remain engaged through difficult times. The Change of Control Agreements are provided to the other Company executive officers not named above and select management personnel. In contrast to the Change of Control/Severance Agreements, there is no general severance benefit in these agreements which is payable in the absence of a Change of Control.

Table of Contents

Under these agreements, payment of benefits occurs in the event of a Change of Control and the executive officer/manager has suffered an Adverse Event or been terminated from employment for reason other than Cause, either on the date of the Change of Control or within 6 months of the Change of Control date. The terms Change of Control and Cause are defined in the same manner as described above with respect to Change of Control/Severance Agreements.

In the event payment of benefits is triggered under these agreements, the executive officer/manager will be paid an amount equal to one year's annual compensation, excluding bonuses. In addition, all stock options and other forms of equity benefits shall immediately vest and all restrictions on such benefits shall lapse. All benefits paid under these agreements are conditional upon the executive executing a waiver and release of claims and confidentiality agreement in a form satisfactory to the Company. Failure to execute such an agreement shall constitute an absolute forfeiture of the severance benefit. In the event an executive is terminated for cause, all benefits and payments under the agreement are forfeited.

Benefits will be paid in the calendar year the event occurs and, generally, within 30 days of the date of the event. In no case shall the payment of the severance benefits be paid later than March 15 following the calendar year in which the event occurred.

Equity Ownership Guidelines

The Board of Directors believes that Matrix Service executive officers should demonstrate their commitment to and belief in the Company's long-term profitability. Accordingly, each officer is expected to maintain a significant investment in the Company through the ownership of Company stock. Direct stock ownership more closely aligns our executive officers' interests and actions with the interests of the Company's shareholders.

At the August 2, 2007 Board meeting, the following Equity Ownership Guidelines were implemented.

Guidelines:

Participants All Company Officers

Amount of Ownership Defined as a multiple of the individual's base salary. These multiples represent the minimum amount an officer should seek to acquire and maintain.

President/CEO 2 times base salary
CFO/Vice Presidents 1 times base salary

Timing: Officers will have five years from the date these Guidelines were implemented to acquire the ownership levels defined herein. Thereafter, they are expected to retain this level of ownership during their tenure as an officer with the Company.

Eligible Forms of Equity:

(1) Direct ownership of Company stock (shares owned outright, regardless of how acquired e.g. restrictions lapse on restricted shares, options exercised held, etc.) An officer will be deemed to have satisfied the ownership guideline if the fair market value of the stock owned at any point in time equals the multiplier defined above;

(2) Vested/exercisable options. An officer will be deemed to have satisfied the ownership guideline if either (1) the aggregate price paid by the officer for shares held equals or exceeds the applicable multiple of base salary or (2) at any time the fair market value of the stock owned equals such amount.

In no case will unvested options or restricted shares with remaining restrictions count toward equity ownership.

Potential Payments Upon Termination or Change of Control

The Company has entered into Change of Control/Severance Agreements with Mr. Bradley, Mr. Austin and Mr. Ryan. These agreements are designed to promote stability, continuity and focus for key members of leadership during periods of uncertainty that may be created by change of control situations. Additionally, the use of such agreements is a competitive practice that enhances the Company's ability to attract and retain leadership talent.

Under these four agreements, payment of benefits may occur under two circumstances:

If the Company experiences a Change of Control and the Executive suffers an Adverse Event or is terminated from the Company without cause, either on the date of the Change of Control or within 24 months following Change of Control date; or

The Executive is terminated from employment at any time for reasons other than Cause.

Change of Control means (i) a change in ownership of the Company of greater than fifty percent (50%) of the outstanding voting stock of the Company within a six (6) month period; (ii) a change in the effective control of the Company as determined by a change of greater than thirty-five percent (35%) of the outstanding voting stock of the Company by a person or persons acting as a group within a twelve (12) month period; or (iii) a change in the ownership of a substantial portion of the assets of the Company as these terms are defined under Code § 409A(a)(2)(A)(v) and Treasury Regulations § 1.409A-3(g)(5) or other then existing and applicable Treasury Regulations promulgated under Code § 409A that define the terms change of control for deferred compensation arrangements.

Cause means, with reference to a Severance Event, that the Executive has been severed from employment with the Company because of Executive's theft of Company property, embezzlement or dishonesty that results in harm to the Company; continued gross or willful neglect of his job responsibilities after receiving written warnings regarding such neglect from the Company; conviction of a felony or pleading *nolo contendere* to a felony charged under state or federal law; or willful violation of Company policy. A determination by the Company Board of Directors that an event constituting Cause under this Agreement has occurred is binding upon the Company and the Executive.

In the event payment of benefits is triggered under these agreements, the executive officer will be paid an amount equal to one year's annual base salary plus the average of annual bonus compensation paid to the executive in the three calendar years prior to the date of the event triggering payment. In addition, all stock options and other forms of equity compensation shall immediately vest and all restrictions on such benefits shall lapse. All benefits paid under these agreements are conditional upon the executive executing a waiver and release of claims and confidentiality agreement in a form satisfactory to the Company. Failure to execute such an agreement shall constitute an absolute forfeiture of the severance benefit. In the event an executive officer is terminated for Cause, no benefits are payable under the agreement.

The Company has also entered into Change of Control Agreements with Mr. Newmeister and Mr. Rinehart. These agreements are designed to promote stability, continuity and focus for key managers during periods of uncertainty that may be created by potential change of control situations. Our goal is to offer some security and protection when asking officers and managers to remain engaged through difficult times. The Change of Control Agreements are provided to the other Company executive officers not named above and select management personnel. In contrast to the Change of Control/Severance Agreements, there is no general severance benefit in these agreements which is payable in the absence of a Change of Control.

Under these agreements, payment of benefits occurs in the event of a Change of Control and the executive officer/manager has suffered an Adverse Event or been terminated from employment for reason other than Cause, either on the date of the Change of Control or within 6 months of the Change of Control date. The terms Change of Control and Cause are defined in the same manner as described above with respect to Change of Control/Severance Agreements.

In the event payment of benefits is triggered under these agreements, the executive officer/manager will be paid an amount equal to one year's annual compensation, excluding bonuses. In addition, all stock options and other forms of equity benefits shall immediately vest and all restrictions on such benefits shall lapse. All benefits paid under these agreements are conditional upon the executive executing a waiver and release of claims and confidentiality agreement in a form satisfactory to the Company. Failure to execute such an agreement shall constitute an absolute forfeiture of the severance benefit. In the event an executive is terminated for cause, all benefits and payments under the agreement are forfeited.

Benefits will be paid in the calendar year the event occurs and, generally, within 30 days of the date of the event. In no case shall the payment of the severance benefits be paid later than March 15 following the calendar year in which the event occurred.

The following table shows potential payments to our named executive officers, other than Mr. Hall, who retired on November 6, 2006, under existing contracts, agreements, plans or arrangements, whether written or unwritten for various scenarios involving a termination of each of such named executive officers, assuming a May 31, 2007 termination date and, where applicable, using the closing price of our common stock of \$25.55 on May 31, 2007. These amounts are estimates only. The actual amounts to be paid out can only be determined at the time of such executive officer's separation from us.

Except for certain terminations which entitle a named executive officer to severance payments under the agreements described above, and except for the acceleration of vesting of equity awards upon retirement, death or disability to which a named executive officer may be entitled under his respective stock option or restricted stock award agreements, there are no agreements, arrangements or plans that entitle the named executive officers to severance, perquisites or other enhanced benefits upon their termination of employment. Any agreement to provide such other payments or benefits to a terminating executive would be in the discretion of the Compensation Committee.

- (5) Mr. Newmeister and Mr. Rinehart do not have general severance provisions in their Change of Control Agreements. Under their agreements, they are eligible to receive a severance benefit only in the event of Change of Control occurs and an adverse action is taken against them. However, the Company may elect to provide severance pay to executive officers in situations other than a Change of Control event. The Company maintains the flexibility and discretion to provide severance pay to executive officers in the event of termination for reasons other than cause. To be eligible to receive payment of any severance benefits, executive officers are required to sign severance documents, including but not limited to, a waiver and release of all claims and a confidentiality agreement.
