**PROXY STATEMENT**

**For the Annual Meeting of Stockholders**

**To Be Held on October 18, 2007**

**September 17, 2007**

Proxies in the form enclosed with this Proxy Statement are solicited by the Board of Directors of Citrix Systems, Inc., a Delaware corporation (the Company), for use at the Annual Meeting of Stockholders to be held on October 18, 2007, at 2:00 p.m. EST, at the Company's offices at 1801 NW 49th Street, Fort Lauderdale, Florida 33309, or at any adjournments or postponements thereof (the Annual Meeting). An Annual Report to Stockholders, containing financial statements for the year ended December 31, 2006, is being mailed together with this Proxy Statement to all stockholders entitled to vote at the Annual Meeting. This Proxy Statement and the form of proxy were first mailed to stockholders on or about September 17, 2007.

The purposes of the Annual Meeting are to elect three Class III directors for three-year terms, approve an amendment to the Company's 2005 Equity Incentive Plan, and consider and vote upon, if properly presented at the meeting, a stockholder proposal. Only stockholders of record at the close of business on August 30, 2007 (the Record Date) will be entitled to receive notice of and to vote at the Annual Meeting. As of that date, 179,755,470 shares of common stock, \$.001 par value per share, of the Company (the Common Stock) were issued and outstanding. The holders of Common Stock are entitled to one vote per share on any proposal presented at the Annual Meeting. You may vote in one of the following three ways whether or not you plan to attend the Annual Meeting: (1) by completing, signing and dating the accompanying proxy card and returning it in the postage-prepaid envelope enclosed for that purpose; (2) by completing your proxy using the toll-free telephone number listed on the proxy card; or (3) by completing your proxy on the Internet at the address listed on the proxy card. If you attend the Annual Meeting, you may vote in person even if you have previously returned your proxy card or voted by phone or on the Internet. Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by: (a) filing with the Secretary of the Company, before the taking of the vote at the Annual Meeting, a written notice of revocation bearing a later date than the proxy; (b) duly completing a later-dated proxy relating to the same shares and delivering it to the Secretary of the Company before the taking of the vote at the Annual Meeting; or (c) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). Any written notice of revocation or subsequent proxy should be sent so as to be delivered to Citrix Systems, Inc., 851 West Cypress Creek Road, Fort Lauderdale, Florida 33309, Attention: Secretary, before the taking of the vote at the Annual Meeting.

The representation in person or by proxy of at least a majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting is necessary to constitute a quorum for the transaction of business. Votes withheld from any nominee, abstentions and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum for the Annual Meeting. A non-vote occurs when a nominee holding shares for a beneficial owner votes on one proposal but does not vote on another proposal because, with respect to such other proposal, the nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

For Proposal 1, the election of Class III directors, the nominees receiving the highest number of affirmative votes of the shares present or represented and entitled to vote at the Annual Meeting shall be elected as directors, however, a director who receives: (i) a greater number of votes withheld from his or her election than votes for such election; and (ii) votes withheld from his or her election that constitute thirty-five percent (35%) or more of the outstanding shares of the Company's Common Stock is required to submit his resignation to the Board of Directors. For each of Proposal 2, the approval of an amendment the Company's 2005 Equity Incentive

Plan, and Proposal 3, the stockholder proposal, an affirmative vote of a majority of the shares present, in person or represented by proxy, and voting on each such matter is required for approval. An automated system administered by the Company's transfer agent tabulates the votes. The vote on each matter submitted to stockholders is tabulated separately. Abstentions are included in the number of shares present or represented and voting on each matter. Broker non-votes are not considered voted for the particular matter and have the effect of reducing the number of affirmative votes required to achieve a majority for such matter by reducing the total number of shares from which the majority is calculated.

The persons named as attorneys-in-fact in the proxies, Mark B. Templeton and David J. Henshall, were selected by the Board of Directors and are officers of the Company. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted by such persons at the Annual Meeting. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specifications. If no such specifications are indicated, such proxies will be voted FOR election of the director nominees, FOR approval of the amendment to the Company's 2005 Equity Incentive Plan, and AGAINST the stockholder proposal.

Aside from the election of directors, approval of the amendment to the Company's 2005 Equity Incentive Plan, and the stockholder proposal (if properly presented), the Board of Directors knows of no other matters to be presented at the Annual Meeting. If any other matter should be presented at the Annual Meeting upon which a vote properly may be taken, shares represented by all proxies received by the Board of Directors will be voted with respect thereto in accordance with the judgment of the persons named as attorneys-in-fact in the proxies.

## CORPORATE GOVERNANCE

### Independence of Members of the Board of Directors

The Board of Directors has determined that each of the Company's non-employee directors (Messrs. Bogan, Demo, Dow, Hirji, Morin and Sullivan) is independent within the meaning of the director independence standards of The Nasdaq Stock Market LLC. ( Nasdaq ) and the Securities and Exchange Commission ( SEC ), including Rule 10A-3(b)(1) under the Securities Exchange Act of 1934, as amended (the Exchange Act ). Furthermore, the Board of Directors has determined that each member of each of the committees of the Board of Directors is independent within the meaning of Nasdaq's and the SEC's director independence standards. In making this determination, the Board of Directors solicited information from each of the Company's directors regarding whether such director, or any member of his immediate family, had a direct or indirect material interest in any transactions involving the Company, was involved in a debt relationship with the Company or received personal benefits outside the scope of such person's normal compensation. The Board of Directors considered the responses of the Company's directors, and independently considered the commercial agreements, acquisitions and other material transactions entered into by the Company during 2006, and determined that none of the Company's directors had a material interest in such transactions.

### Executive Sessions of Independent Directors

Executive sessions of the independent directors are held four times a year following regularly scheduled in-person meetings of the Board of Directors. Executive sessions do not include the employee director of the Company, and the Chairperson of the Board of Directors is responsible for chairing the executive sessions.

### Policies Governing Director Nominations

#### *Director Qualifications*

The Nominating and Corporate Governance Committee of the Board of Directors is responsible for reviewing with the Board of Directors from time to time the appropriate qualities, skills and characteristics desired of members of the Board of Directors in the context of the needs of the business and current make-up of the Board of Directors. This assessment includes consideration of the following minimum qualifications that the Nominating and Corporate Governance Committee believes must be met by all directors:

directors must be of the highest ethical character and share the values of the Company as reflected in the Company's Code of Business Conduct;

directors must have reputations, both personal and professional, consistent with the image and reputation of the Company;

directors must have the ability to exercise sound business judgment;

directors must have substantial business or professional experience and be able to offer meaningful advice and guidance to the Company's management based on that experience; and

directors must have received a bachelor's degree from a qualified institution.

The Nominating and Corporate Governance Committee also considers numerous other qualities, skills and characteristics when evaluating director nominees, such as:

an understanding of and experience in software, hardware or services, technology, accounting, governance, finance and/or marketing;

Edgar Filing: CITRIX SYSTEMS INC - Form DEF 14A

leadership experience with public companies or other major complex organizations; and

experience on another public company board unless a Director otherwise qualifies as an audit committee financial expert under the rules of the SEC.

*Process for Identifying and Evaluating Director Nominees*

The Board of Directors is responsible for selecting its own members. The Board of Directors delegates the selection and nomination process to the Nominating and Corporate Governance Committee, with the expectation that other members of the Board of Directors, and of management, will be requested to take part in the process as appropriate.

Generally, the Nominating and Corporate Governance Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisors, through the recommendations submitted by stockholders or through such other methods as the Nominating and Corporate Governance Committee deems to be helpful to identify candidates. Once candidates have been identified, the Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee may gather information about the candidates through interviews, detailed questionnaires, comprehensive background checks or any other means that the Nominating and Corporate Governance Committee deems to be helpful in the evaluation process. The Nominating and Corporate Governance Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board of Directors. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board of Directors' approval as director nominees for election to the Board of Directors. The Nominating and Corporate Governance Committee also recommends candidates to the Board of Directors for appointment to the committees of the Board of Directors.

a written statement from the stockholder making the recommendation stating why such recommended candidate meets the Company's criteria and would be able to fulfill the duties of a director.

Nominations must be sent to the attention of the Secretary of the Company by one of the two methods listed below:

By U.S. mail (including courier or expedited delivery service) to:

Attn: Secretary of Citrix Systems, Inc.

By facsimile to: (954) 267-2862

a candidate must undergo a comprehensive private investigation background check by a qualified company of the Company's choosing; and

a candidate must complete a detailed questionnaire regarding his or her experience, background and independence.

### Report of the Audit Committee of the Board of Directors

This report is submitted by the Audit Committee of the Board of Directors. The Audit Committee currently consists of Messrs. Demo, Hirji and Morin (Chair). Mr. Hirji joined the Audit Committee in May 2006, replacing Stephen M. Dow. Messrs. Demo and Morin served on the Audit Committee throughout 2006. Each of Messrs. Demo, Hirji and Morin qualifies as an audit committee financial expert under the rules of the SEC. The Board of Directors has determined that each member of the Audit Committee meets the independence requirements promulgated by Nasdaq and the SEC, including Rule 10A-3(b)(1) under the Exchange Act. In February 2007, the Audit Committee met and reviewed the adequacy of its charter. In accordance with the Sarbanes-Oxley Act, the Audit Committee has ultimate authority and responsibility to select, compensate, evaluate and, when appropriate, replace the Company's independent registered public accountants. The Audit Committee has the authority to engage its own outside advisors, including experts in particular areas of accounting, as it determines appropriate, apart from counsel or advisors hired by management.

During the year ended December 31, 2006, the Company's independent registered public accountants were Ernst & Young LLP (Ernst & Young). Ernst & Young was responsible for performing an independent audit of the consolidated financial statements, and an independent audit of the effectiveness of the Company's internal control over financial reporting, as well as attesting to management's assessment of the effectiveness of the Company's internal control over financial reporting, each in accordance with the standards of the Public Company Accounting Oversight Board (PCAOB). Ernst & Young also performed audit-related services, tax services and other permissible non-audit services for the Company during 2006, as described more fully below. PricewaterhouseCoopers LLP (PwC) served as the Company's outsourced internal audit provider during 2006.

The Audit Committee oversees the accounting and financial reporting processes of the Company and the audits of the consolidated financial statements of the Company on behalf of the Board of Directors. Management has the primary responsibility for the consolidated financial statements and the reporting process, including the Company's systems of internal controls. In fulfilling its oversight responsibilities, the Audit Committee reviewed with management the audited consolidated financial statements in the Company's Annual Report on Form 10-K, and discussed with management the quality, not just the acceptability, of the accounting principles, the reasonableness of significant estimates and judgments, critical accounting policies and accounting estimates resulting from the application of these policies, and the substance and clarity of disclosures in the financial statements, and reviewed the Company's disclosure control process and internal control over financial reporting. The Audit Committee reviewed with Ernst & Young, who are responsible for expressing an opinion on the fairness of the Company's consolidated financial statements in conformity with accounting principles generally acceptable in the United States, Ernst & Young's judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as independent registered public accountants are required to discuss with the Audit Committee under auditing standards of the PCAOB. In addition, the Audit Committee has reviewed the services provided by Ernst & Young and discussed with the independent registered public accountants their independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board, and considered the compatibility of non-audit services with the registered public accountants' independence.

The Audit Committee discussed with Ernst & Young the overall scope and plan for their annual audit for 2006. The Audit Committee met separately with Ernst & Young in their capacity as the Company's independent registered public accountants for the Company, with and without management present, to discuss the results of their procedures (examinations and reviews), their evaluations of the Company's internal control over financial reporting, and the overall quality of the Company's financial reporting, as applicable.

In addition, the Audit Committee discussed with PwC the overall scope and plan for their internal audit activities for 2006. The Audit Committee meets with PwC in their capacity as the internal audit outsourcing provider for the Company to discuss the results of their procedures and their evaluations of the Company's internal control over financial reporting.

The Audit Committee has reviewed the audited consolidated financial statements of the Company at December 31, 2006 and 2005 and for each of the years in the three-year period ended December 31, 2006 and has discussed them with both management and Ernst & Young. In connection with the Company's Annual Report on Form 10-K for the year ended December 31, 2006, the Audit Committee discussed with management the results of the Company's certification process relating to the certification of financial statements under Sections 302 and 906 of the Sarbanes-Oxley Act. The Audit Committee has also discussed with Ernst & Young the matters required to be discussed by Statement on Auditing Standards No. 61, as amended by Statement on Auditing Standards Nos. 89 and 90 (Audit Adjustments and Communications with Audit Committees, respectively), as currently in effect. This discussion included, among other things, a review with management of the quality of the Company's accounting principles, the reasonableness of significant estimates and judgments, and the clarity of disclosure in the Company's financial statements, including the disclosures related to critical accounting policies and practices used by the Company. The Audit Committee has received the written disclosures regarding the auditors' independence required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as currently in effect, and has discussed with Ernst & Young, the firm's independence. Based on its review of the financial statements and these discussions, the Audit Committee concluded that it would be reasonable to recommend, and on that basis did recommend, to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

The Audit Committee also reviewed the Company's quarterly financial statements during 2006 and discussed them with both the management of the Company and Ernst & Young prior to including such interim financial statements in the Company's quarterly reports on Form 10-Q. In connection with the Company's quarterly reports on Form 10-Q for its first, second and third fiscal quarters of 2006, the Audit Committee discussed with management the results of the Company's certification process relating to the certification of financial statements under Sections 302 and 906 of the Sarbanes-Oxley Act.

During the course of the year ended December 31, 2006, management completed the documentation, testing and evaluation of the Company's system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act and related regulations.

The Audit Committee was kept apprised of the progress of the evaluation and provided oversight and advice to management during the process. In connection with this oversight, the Audit Committee received periodic updates provided by management and Ernst & Young at Audit Committee meetings held throughout the year. At the conclusion of the process, management provided the Audit Committee with and the Audit Committee reviewed a report on the effectiveness of the Company's internal control over financial reporting. The Audit Committee also reviewed the report of management contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 filed with the SEC, as well as Ernst & Young's Reports of Independent Registered Public Accounting Firm included in the Company's Annual Report on Form 10-K related to its audits of (i) the consolidated financial statements and financial statement schedule, (ii) management's assessment of the effectiveness of internal control over financial reporting and (iii) the effectiveness of internal control over financial reporting. The Audit Committee continues to oversee the Company's efforts related to its internal control over financial reporting and management's preparations for the evaluation in the fiscal year ending December 31, 2007.

The Audit Committee monitors the activity and performance of Ernst & Young. All services provided by Ernst & Young have been pre-approved by the Audit Committee. The Audit Committee's evaluation of the performance of Ernst & Young included, among other things, the amount of fees paid to Ernst & Young for audit and permissible non-audit services in 2006. Information about Ernst & Young's fees for 2006 is discussed below in this Proxy Statement under Independent Registered Public Accountants.

In November 2006, the Audit Committee commenced a voluntary independent review of the Company's historical stock option grant practices and related accounting, which resulted in a restatement of the Company's

historical financial statements and reports thereon. During the course of the review, conducted over an approximately nine month period, the Audit Committee held more than ten meetings (one in fiscal 2006) and participated in numerous additional working sessions and informal telephonic and face-to-face meetings relating to the voluntary review of the Company's historical stock option granting practices.

No portion of this Audit Committee Report shall be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, through any general statement incorporating by reference in its entirety the Proxy Statement in which this report appears, except to the extent that the Company specifically incorporates this report or a portion of it by reference. In addition, this report shall not be deemed filed under either the Securities Act or the Exchange Act.

Respectfully submitted by the Audit Committee,

## EXECUTIVE AND DIRECTOR COMPENSATION

### Compensation Discussion and Analysis

#### *Overview and Philosophy*

We believe that the quality, skills and dedication of our executive officers are critical factors that contribute directly to our operating results, thereby enhancing value for our stockholders. As a result, our compensation programs are designed to achieve the following objectives:

to provide competitive compensation that attracts, motivates and retains the best talent and the highest caliber executives to serve and help us to achieve our strategic objectives; and

to align management's interest with our stockholders' interest by:

- linking a significant portion of the total potential cash compensation paid to our executives to our annual financial performance or to a division, region or segment of our business for which an executive has management responsibility by basing annual cash incentive compensation to corresponding financial targets; and
- utilizing appropriate performance goals and long-term incentives for our equity awards.

The compensation package we offer our employees directly reflects our values and the value we place on our employees. We consider our employees to be our primary asset, and believe our compensation packages should emphasize corporate growth, organizational and personal development, ownership and commitment to results. As a result, we view the total compensation package to be comprised of the following:

base salary;

cash incentives;

equity-based long-term incentives; and

benefits.

The Compensation Committee considered each of the above items in determining the compensation package for each executive officer, as further described below.

Our Board of Directors has delegated to the Compensation Committee the authority to determine and make recommendations for all forms of compensation to be granted to our executive officers in furtherance of our compensation objectives. All of the members of the Compensation Committee are independent under the standards established by the Nasdaq and the SEC. In assessing and determining our compensation programs, the Compensation Committee:

reviews and makes recommendations to management on company-wide compensation programs and practices;

approves the salary, bonus, equity and other compensation arrangements of senior executive officers reporting directly to our President and Chief Executive Officer;

recommends, subject to approval by the entire Board of Directors, the salary, bonus, equity and other compensation arrangements of our President and Chief Executive Officer;

appoints, retains, terminates and oversees the work of any independent experts and consultants and reviews and approves the fees and retention terms thereof;

recommends, subject to approval by the entire Board of Directors, any stock-based plans and any material amendments thereto;

evaluates our compensation philosophy and reviews actual compensation for consistency with our compensation philosophy; and

reviews and recommends for inclusion in our annual proxy statement the Compensation Discussion and Analysis.

***Compensation Evaluation Processes and Criteria***

*Evaluation Process*

The compensation packages for our executive officers are reviewed by the Compensation Committee and include an analysis of all elements of compensation separately and in the aggregate. In establishing compensation levels for each executive officer, the Compensation Committee has the authority to engage the services of outside experts to assist it. In addition, our legal, finance, human resources and sales operations departments support the Compensation Committee in its work and act in accordance with the direction given to them to fulfill various functions in administering our compensation programs.

From January 2006 through March 2006, the Compensation Committee held multiple meetings with management, the human resources department and representatives of Aon Consulting/Radford, an independent compensation consultant, which we refer to as Radford, to review our compensation philosophy, the use of restricted stock and restricted stock units as a form of equity compensation, the results of Radford's analyses and the merit salary, bonus and equity compensation recommendations proposed by our President and Chief Executive Officer. In April 2006, the Compensation Committee reviewed the draft incentive bonus plan that had been compiled by management and reviewed for consistency with our operating plan by our finance department. On April 18, 2006, the Compensation Committee approved the 2006 Executive Bonus Plan, or the Bonus Plan, and, in a session from which management was excluded, the compensation package for our President and Chief Executive Officer.

*Evaluation Criteria*

In determining the amount and mix of compensation elements, the Compensation Committee relies upon its judgment about the performance of each individual executive officer. In setting final compensation levels for our executive officers in 2006, the Compensation Committee considered many factors, including, but not limited to:

the scope and strategic impact of the executive officer's responsibilities;

our past business and segment performance and future expectations;

our long-term goals and strategies;

the performance and experience of each individual;

past salary levels of each individual and of our executives as a group;

relative levels of pay among the officers;

the amount of base salary in the context of the executive officer's total compensation and other benefits;

for each executive officer, other than our President and Chief Executive Officer, the evaluations and recommendations of our President and Chief Executive Officer; and

## Edgar Filing: CITRIX SYSTEMS INC - Form DEF 14A

the competitiveness of the compensation packages relative to the selected benchmarks as highlighted by the independent compensation consultant's analysis.

### ***Role of the Independent Compensation Consultant***

During 2006, the Compensation Committee retained the services of Radford. Radford reported directly to the Compensation Committee for purposes of advising it on compensation matters. The Compensation

Committee provided Radford with preliminary instructions regarding the goals of our compensation program and the parameters of the competitive review of executive total direct compensation packages to be conducted by Radford. In particular, Radford was instructed to test whether the compensation packages of our executive officers were competitive with the market and reasonable given our performance relative to our peers as measured by revenue growth, operating profit improvement, net income improvement, diluted earnings per share and total stockholder return. Radford was further instructed to benchmark all components of compensation, including base salary, total targeted compensation (base salary plus targeted cash incentive compensation), total actual cash compensation and equity-based long-term incentive awards. For purposes of analyzing our performance against that of our peer companies, Radford was instructed to organize its analysis around our business units and general corporate executive positions. Finally, the Compensation Committee instructed Radford to review our internal compensation model and guidelines and compare them to our peer companies and actual compensation practices. Once Radford completed its preliminary analysis of executive compensation, it presented its report to the Compensation Committee, which reviewed the analysis and provided Radford with feedback and further direction for follow-up analyses. Throughout the first fiscal quarter of 2006, Radford attended meetings of the Compensation Committee, both with and without members of management present, and interacted with members of our human resources department with respect to its assessment of the compensation packages for our executive officers.

The Compensation Committee annually conducts a competitive analysis of the compensation paid to our executive officers and reviews the compensation practices among our peer group and of the software industry overall. As in prior years, the analysis for fiscal 2006 measured our compensation targets and actual results against information from several sources: independent, commercially available surveys on executive compensation within the software industry, tailored to reflect our relative market capitalization and revenue, which were generated by the 2005 Read Executive Survey, 2005 Radford Executive Survey Special GM, 2005 Radford Sales Survey - Software Company, 2005 Buck Consultants High-Tech Industry Report, Towers Perrin Executive Compensation Resources, the Australian Information Industry Association Salary Survey, and an internal benchmark using commercially available survey data and information from publicly filed reports from a group of 17 peer technology companies specifically identified by us in consultation with the Compensation Committee. This comparison group was limited to technology companies that are our competitors or those that are close comparisons in terms of sales, industry and/or market capitalization and may therefore compete with us for executive talent. The companies in the peer group included: Autodesk, Inc., BEA Systems, Inc., BMC Software, Inc., Business Objects S.A., Cadence Design Systems, Inc., Cognos, Inc., Compuware Corporation, Fair Isaac Corporation, Hyperion Solutions Corporation, McAfee, Inc., Mercury Interactive Corporation, Novell, Inc., Parametric Technology Corporation, Siebel Systems, Inc., Sybase, Inc., Synopsys, Inc. and VeriSign, Inc.

The benchmarks were used as one of several factors to evaluate appropriate compensation ranges for base salary, cash incentive compensation and equity-based long-term incentives. In 2006, the data from the benchmarks generally suggested that, in the aggregate with respect to cash compensation, the compensation paid to our executive officers, other than our President and Chief Executive Officer, compared reasonably to the base salary and cash incentives paid to the executives whose companies were included in the benchmarks, as such base salary and cash incentives were generally between the median and the 75<sup>th</sup> percentile of the benchmarks. On the other hand, the data from the benchmarks generally suggested that the base salary and cash incentives paid to our President and Chief Executive Officer were below the market median salary for chief executive officers whose companies were included in the selected benchmarks. In 2006, the data from the benchmarks generally suggested that, in the aggregate with respect to equity-based long-term incentive grants, the grants to our executive officers, including our President and Chief Executive Officer, compared reasonably to the grants paid to the executives whose companies were included in the benchmarks, as such equity-based long-term incentive grants were generally between the median and the 75<sup>th</sup> percentile of the benchmarks.

The Compensation Committee anticipates that it will continue to conduct similar annual reviews of our executive compensation practices and that it will use the services of independent outside consultants for similar services in the future.

---

## *Components of Compensation*

### *Base Salary*

Salary levels for each of our executive officers are based on internally-developed ranges, the midpoints of which are generally targeted at the 50<sup>th</sup> percentile of salaries that the Compensation Committee believes are paid to executive officers with comparable responsibilities at the benchmarked companies and within the overall software and high technology industry. Each year the Compensation Committee reviews variances between the salary levels for each executive officer and those of the companies included in the selected benchmarks and determines, in its discretion, individual salary adjustments after considering the factors described above, although no relative weights or rankings are assigned to these factors. In setting the base salary for our senior executive officers, other than our President and Chief Executive Officer, the Compensation Committee also considers the recommendations of our President and Chief Executive Officer in addition to the factors described above.

### *Cash Incentives*

Cash incentives are based on internally-developed guidelines which are generally targeted at the 50<sup>th</sup> percentile of similar cash incentives provided to officers in similar positions at companies included in the selected benchmarks. To provide cash incentive compensation for fiscal 2006, the Compensation Committee adopted the Bonus Plan for the benefit of: our President and Chief Executive Officer; our Senior Vice President and Chief Financial Officer; our Senior Vice President, Worldwide Sales and Services; our General Counsel and Senior Vice President, Human Resources; our Vice President, EMEA Sales and General Manager; and the other participants approved for participation by the Compensation Committee. In addition, effective September 1, 2006, the Compensation Committee approved for participation in the Bonus Plan our Corporate Vice President, Worldwide Marketing; prior to his promotion (which was effective as of September 2006), our Corporate Vice President, Worldwide Marketing participated in our Application Networking Group Bonus Plan in accordance with his prior position.

Although the Bonus Plan is administered by the Compensation Committee, certain duties concerning executive officers (other than our President and Chief Executive Officer), including quarterly calculations of relevant financial results, are delegated to management. The Compensation Committee and/or our Board of Directors retain the right to amend, alter or terminate the Bonus Plan at any time. In 2006, the Compensation Committee amended the Bonus Plan to account for the completion of significant acquisitions completed during that period. Participants in the Bonus Plan, other than those specifically described below, received cash incentive bonuses for fiscal 2006 based upon the achievement of specific financial goals, which included targets based on reported revenue, product revenue and corporate operating income.

Each executive's bonus was based on the achievement of financial targets set forth in the Bonus Plan by the Compensation Committee. The Bonus Plan weighted these financial components as follows: 40% for achieving reported revenue targets; 30% for achieving product revenue targets; and 30% for achieving corporate operating income targets. The bonus for our Vice President EMEA Sales and General Manager was tied to the achievement of geographic segment financial targets and individual goals: 70% for achievement of financial targets and 30% for achievement of individual goals. The financial component of the bonus for our Vice President EMEA Sales and General Manager was determined by weighting the financial components as follows: 40% for achieving EMEA total bookings targets; 30% for achieving EMEA product bookings targets; and 30% for achieving corporate operating income. The individual performance component of the bonus for our Vice President EMEA Sales and General Manager was based upon achievement of individually goals for sales forecasting accuracy and the management of expenses, inventory and distributor incentive programs, as set and assessed by our Senior Vice President, Worldwide Sales and Services.

The Bonus Plan also provided for a premium or penalty, to be applied in the event of over or under achievement of the weighted factors, as the case may be. Other than for the Vice President, EMEA, the Bonus

Plan also contained minimum performance requirement that must be met before any award may be earned, including achievement by the Company of 80% of each financial target and 90% of annual earnings per share target. In such event, the Vice President, EMEA would not receive the portion of his bonus based on the corporate operating income target but would still be eligible to receive amounts in respect of the other financial and individual goals. The target bonuses for executives under the Bonus Plan ranged from 100% of base salary for our President and Chief Executive Officer, to 75% of base salary for our Vice President, EMEA Sales and General Manager, to 55% of base salary for certain other executives participating in the Bonus Plan.

The table below sets forth the relative weightings for the components of each executive's target bonus and the range of target bonuses as a percentage of base salary.

The Compensation Committee adopted the Bonus Plan and determined target bonuses for 2006 in the first quarter of 2006. The financial targets that underlie the Bonus Plan were based on our operating plan for 2006 as approved by our Board of Directors. In the first quarter of 2007, our Senior Vice President, Chief Financial Officer reviewed and approved the calculations of financial target attainment levels and the 2006 bonus amounts payable to executive officers that were generated by members of our legal, finance, human resources and sales operations departments in accordance with the Bonus Plan. These financial target attainment levels and bonus calculations were presented to the Compensation Committee for its review and approval at a meeting held on February 6, 2007.

The Compensation Committee determined that the reported revenue target of \$1.1 billion was 102% attained, the reported product revenue target of \$502 million was 97% attained and the adjusted operating income target of \$278 million was 110% attained. In addition, the Compensation Committee determined that the EMEA

total bookings target of \$434 million was 99% attained, the EMEA product bookings target of \$283 million was 97% attained and our Vice President, EMEA Sales and General Manger 99.55% attained his individual performance goals. Finally, the Compensation Committee determined that the financial targets set forth in the Application Networking Group Bonus Plan were 123% attained in the aggregate and, as a result, our Corporate Vice President, Worldwide Marketing was entitled to receive 118% of his target bonus based on eight months participation in the Application Networking Group Bonus Plan prior to his becoming an executive officer and four months participation in the Bonus Plan after his promotion in September 2006. Based on these attainment levels, the Compensation Committee approved the following bonuses under the Bonus Plan:

<b>Named Executive Officer</b>	<b>Bonus Amount</b>
President and Chief Executive Officer	\$ 727,620
Senior Vice President and Chief Financial Officer	\$ 233,445
General Counsel and Senior Vice President, Human Resources	\$ 217,738
Senior Vice President, Worldwide Sales and Services	\$ 399,436
Corporate Vice President, Worldwide Marketing	\$ 95,503
Vice President, EMEA Sales and General Manager	\$ 276,163

These bonuses were paid to each executive officer in the first quarter of 2007, except for the bonuses paid to our Senior Vice President, Worldwide Sales and Services and Vice President, EMEA Sales and General Manager, each of whom received his bonus in four quarterly installments, with the first three installments being equal to 25% of his target bonus and the fourth installment being equal to 25% of his target bonus plus an additional amount for overachievement of the reported revenue and operating income targets and less any penalty for underachievement of the reported product revenue EMEA product bookings and EMEA total bookings targets (as applicable).

In addition to the bonuses awarded under the Bonus Plan (and the Application Networking Group Plan, in the case of our Corporate Vice President, Worldwide Marketing), we awarded a bonus of \$75,000 to our Corporate Vice President, Worldwide Marketing in connection with his promotion, which was effective on September 1, 2006, and a bonus of \$75,000 to our Senior Vice President, Worldwide Sales and Services in recognition of his performance and his importance to our future strategic success.

#### *Equity-Based Long-Term Incentives*

The purpose of our equity-based long-term incentives is to attract and retain talented employees, further align employee and stockholder interests, and continue to closely link employee compensation with company performance. Our equity-based long-term incentive program provides an essential component of the total compensation package offered to employees, reflecting the importance that we place on motivating and rewarding superior results with long-term and performance-based incentives.

In 2006, we began making grants to senior executive officers of both stock options and restricted stock units pursuant to our 2005 Equity Incentive Plan, or the 2005 Plan. Grants in 2006 were awarded on a semi-annual basis following our quarterly earnings releases in April and July. We believe that these combined grants of stock options and restricted stock units provide a better balance for executives and provide more effective incentives for our superior performers to remain with us and continue that performance. In deciding to move towards a mix of stock options and restricted stock units, the Compensation Committee considered our stock option burn rate, overhang, the accounting treatment of stock options versus restricted stock units under FAS 123R, the tax treatment of stock options versus restricted stock units and the competitive practices of our peer companies. Based on its review, the Compensation Committee determined that the use of restricted stock units could reduce our burn rate and overhang, lessen the effects of stockholder dilution and provides the Compensation Committee with additional flexibility in the elements and mix of our executive officers' compensation packages. In addition,

the Compensation Committee reviewed the competitive practices of our peer companies and concluded that those peer companies were moving towards grants of restricted stock units, restricted stock and other similar awards.

The Compensation Committee also discussed the appropriate mix of stock options and restricted stock units. After considering the factors discussed above, the Compensation Committee decided to grant equity-based award packages for which 70% of the value was comprised of stock options and 30% of the value was comprised of restricted stock units. Because restricted stock units are full value awards, the number of restricted stock units that need to be granted to reach the 30% value threshold is less than the number of options that would be required to reach the same value level. As a result, the use of restricted stock units will further our goals of reducing dilution, burn rate and overhang by reducing the number of shares of Common Stock subject to equity-based awards.

When establishing stock option grant levels for our executive officers, the Compensation Committee considers the existing levels of stock and options ownership among the executive officers relative to each other and to our employees as a whole, previous grants of stock options to the executive officers, our stock option overhang and targeted stock-option burn rates and vesting schedules of previously granted options as well as the factors described above. In addition, the Compensation Committee reviews the stock option grant levels of executive officers in our peer group. Options granted in fiscal 2006 pursuant to the 2005 Plan to our executives were granted at an exercise price per share equal to the market value of our Common Stock on the date of each grant (determined by reference to the closing price per share of our Common Stock on such date). Our executive officers receive annual option awards in two grants, which are pre-timed to follow our quarterly earnings releases. The first award is made on the last business day in April and the second is made on the last business day of July. The exercise price for options granted to our executives is equal to the fair market value of our Common Stock on the date of grant.

The grants of restricted stock unit awards are based upon the same factors used to evaluate stock options grants. Vesting of restricted stock units is time-based and the number of restricted stock units underlying the award is performance-based. In 2006, the performance criteria and attainment levels for grants of restricted stock units were based upon successful achievement of the adjusted corporate operating income target of \$278 million. The number of restricted stock units underlying an award is determined one year after the date of the award based on the achievement of specific performance objectives. If the performance goals are less than 90% attained, then no restricted stock units will be issued pursuant to the authorized award. For performance at and above 90%, the number of restricted stock units issued is based on a graduated slope, with the maximum number of restricted stock units issuable pursuant to the award capped at 125% of the base number of restricted stock units set forth in the award agreement. In February 2007, the Compensation Committee determined that the adjusted corporate operating income target was 110% attained and granted the number of restricted stock units set forth in the following table:

Executive	Percent Attainment	Number of Restricted Stock Units
Mark Templeton	110%	22,000
David Henshall	110	13,750
David Friedman	110	4,400
John Burris	110	11,000

The restricted stock units (if awarded) vest over three years, with one-third of the units vesting on the first, second and third anniversaries of the date of the award agreement. No vesting of the restricted stock units occurs until the performance criteria have been met and the number of restricted stock units underlying the award is determined. Once vested, each restricted stock unit represents the right to receive one share of Common Stock.

In addition, in October 2006, our Vice President, EMEA Sales and General Manager received a retention grant of 15,000 restricted stock units. We granted these units in recognition of Mr. Sjöström's importance to our future strategic success as a result of the continuing growth and increased complexity of our EMEA division, as

well as in recognition of Mr. Sjöström's performance during the year. These units vest over three years, with one-third vesting on each anniversary of the date of grant.

On November 30, 2006, the Audit Committee commenced a voluntary, independent review of our historical stock option grant practices and related accounting. As a result of our voluntary review of our historical stock option grant practices, we postponed our annual option awards to our executive officers and the grant of restricted stock units in 2007 until the completion of our voluntary review. For more information regarding the voluntary review of our historical stock option grant practices and related accounting, see the Explanatory Note and Note 2 to the financial statements filed with our Annual Report on Form 10-K for the year ended December 31, 2006.

On May 31, 2007, the Compensation Committee adopted the Citrix Systems, Inc. Equity Awards Policy, or the Awards Policy. The Awards Policy enhances our controls with respect to grants of equity awards by establishing procedures for approving and predetermining the dates on which awards will be made. Pursuant to the Awards Policy, our annual option awards for 2007 will be granted on the first business day of the month following the date on which we filed our Annual Report on Form 10-K for the fiscal year ended December 31, 2006 and otherwise became current in our SEC reporting obligations. Under the Awards Policy, subsequent annual grants will be made in two installments, with 50% being granted on the last business day in April and 50% being granted on the last business day in July, unless a different date is set by our Board of Directors or the Compensation Committee. The Awards Policy also establishes fixed grant dates for new hire and performance grants. A grantee's eligibility to receive an award as of a particular, fixed grant date is subject to the time of the month in which the grantee's employment begins or promotion is effective or, if later, the date on which all documentation necessary for the approval of the grant is obtained. A copy of our Awards Policy is available at the Corporate Governance section of our website at <http://www.citrix.com/site/aboutCitrix/governance/>.

#### *Benefits*

Our executive officers participate in our broad based employee benefits plans on the same terms as eligible, non-executive employees, subject to any legal limits on the amounts that may be contributed or paid by executive officers under these plans. We offer a stock purchase plan, under which our employees may purchase Common Stock at a 15% discount from the fair market value of our Common Stock on the last business day of the purchase period (determined by reference to the closing price of our Common Stock on such date), and a 401(k) plan, which allows our employees to invest in a wide array of funds on a pre-tax basis. We also maintain insurance and other benefit plans for our employees. Our executive officers receive higher life, accidental death and dismemberment and disability insurance benefits than other employees, which reflects industry standards and their relative base salary levels. Our executive officers also receive reimbursement for annual health physicals. We do not currently offer any non-qualified deferred compensation plans or supplemental retirement plan to our executives. For more information, please refer to the Summary Compensation Table below.

We limit the perquisites that are made available to our executives. Our executives are entitled to few benefits that are not otherwise available to all employees. In this regard it should be noted that we do not provide pension arrangements or similar benefits to our executives or employees, other than a 401(k) program, in which all of our employees, including our executive officers, may participate.

## Discussion of Summary Compensation and Grants of Plan-Based Awards Tables

Our executive compensation policies and practices, pursuant to which the compensation set forth in the Summary Compensation Table and the Grants of Plan-Based Awards Table was paid or awarded, are described above under Compensation Discussion and Analysis. A description of the application of those policies and practices to each of the Named Executive Officers for the year ended December 31, 2006 is set forth below.

### *President and Chief Executive Officer Compensation*

As President and Chief Executive Officer, Mark B. Templeton is responsible for overseeing all of our corporate functions, product groups and divisions and directing the Company to ensure the attainment of revenue and profit goals. Working in concert with our Board of Directors, our President and Chief Executive Officer formulates current and long-term company plans and objectives, and represents the Company in relations with our customers and the business and non-business communities. Based on a recommendation of the Compensation Committee, our Board of Directors determines compensation for our President and Chief Executive Officer using the same factors it uses for other executives, placing relatively less emphasis on base salary, and instead, creating greater performance based opportunities through equity-based long-term and cash incentive compensation. In assessing the compensation paid to our President and Chief Executive Officer, the Compensation Committee relies on both information from selected benchmarks and its judgment with respect to the factors described above.

In addition, the Compensation Committee uses a formal evaluation process, which includes meetings held in executive session, to help assess the performance of our President and Chief Executive Officer. This process consists of: an annual self-evaluation by our President and Chief Executive Officer, which is submitted to the Chairman of the Compensation Committee and the Chairman of the Nominating and Corporate Governance Committee after the conclusion of each fiscal year; annual evaluations conducted by each member of our Board of Directors; and annual reviews of our President and Chief Executive Officer submitted by each senior executive officer who reports directly to him, in each case measured against the personal performance objectives and targets established at the beginning of the year by our President and Chief Executive Officer and the Compensation Committee. Following an assessment of our President and Chief Executive Officer's performance, the Compensation Committee reviews the total compensation package for our President and Chief Executive Officer, including base salary, cash incentive compensation and equity-based compensation, as described below. Our Board of Directors actively participates in the process of assessing our President and Chief Executive Officer's performance and in setting his compensation based on those assessments.

Mr. Templeton's total compensation for fiscal 2006 was \$2,620,390, which made him our most highly compensated executive officer for the year ended December 31, 2006. Mr. Templeton's compensation is greater than the compensation of our other executive officers as a result of the extensive scope of his responsibilities, the current market for executive talent, particularly chief executive officers, and the results of our benchmarking analysis. In addition, the amount of cash incentive compensation that Mr. Templeton has the opportunity to earn under the Bonus Plan is greater than for our other Named Executive Officers because we believe that it is important for a substantial portion of the principal executive officer's total compensation to depend on our overall financial performance in order to better align the interests of management and of our stockholders.

*Base Salary.* Fiscal year 2006 was a year of continued progress and accomplishments across a number of areas important to strengthening the foundation for our future growth and long-term success. Under Mr. Templeton's leadership, net income and earnings per share increased in fiscal 2006 as compared to fiscal 2005 and we improved our results of operations. Effective April 1, 2006, Mr. Templeton's annual base salary was increased from \$500,000 to \$600,000. As a result, in 2006, Mr. Templeton received salary compensation of \$575,000. The increase in Mr. Templeton's annual base salary was based on the Compensation Committee's consideration of the factors described above. Additionally, the decision to increase Mr. Templeton's base salary was based on the Compensation Committee's assessment that Mr. Templeton's 2005 salary was below the

market median salary for chief executive officers whose companies were included in the selected benchmarks and that it would be appropriate to more closely align Mr. Templeton's salary with the 50<sup>th</sup> percentile of such benchmarks.

*Cash Incentive.* For fiscal 2006, Mr. Templeton was awarded cash compensation of \$727,620 in accordance with the Bonus Plan, an increase from his 2005 bonus of \$597,550. Mr. Templeton's 2006 bonus was determined and awarded in accordance with the criteria outlined in the Bonus Plan, which calculates the actual bonus paid by adjusting the target bonus up or down based on the achievement of certain financial targets. ### Potential Payments upon Termination or Change in Control

Our executives are at will employees. We have entered into change in control agreements with certain of our executive officers including, our President and Chief Executive Officer and our Senior Vice President and Chief Financial Officer, Senior Vice President, Worldwide Sales and Services and Senior Vice President, Human Resources and General Counsel, or our Senior Executives. These agreements continue in full force until the earlier of (a) the date we terminate the employment of the executive for cause or the failure by the executive to perform his full-time duties by reason of his death or disability, (b) the resignation or termination of the executive's employment for any reason prior to a change in control, (c) the termination of the executive's employment with us after a change in control for any reason other than the occurrence of a terminating event, or (d) the date which is 18 months after a change in control if the executive is still employed by us.

These agreements are intended to provide for continuity of management in the event of a change in control. These agreements provide for certain benefits in the event that the executive's employment is terminated following a change in control of our company, including severance payments, benefit continuation and acceleration of vesting on outstanding stock-based awards.

In the event Mr. Templeton is terminated without cause or if Mr. Templeton resigns his position for any reason in the twelve-month period following a change in control, he is entitled to receive a lump sum payment equal to two times his annual base salary plus his target bonus, both determined as of the date his employment is terminated or, if higher, as of immediately prior to the change in control. Additionally, Mr. Templeton will receive certain benefits, including health, dental and life insurance, for two years following the date of termination.

In the event that, during the twelve-month period following a change in control, any of our Senior Executives are terminated, other than for cause, or any of our Senior Executives terminates his employment for good reason, such Senior Executive is entitled to receive a lump sum payment equal to one times his annual base salary plus his target bonus, both determined as of the date such Senior Executive's employment is terminated or, if higher, as of immediately prior to the change in control. Additionally, our Senior Executives will receive certain benefits, including health, dental and life insurance, for 18 months following the date of termination.

Under the change in control agreements, a change in control would include any of the following events:

any person, as defined in the Securities Exchange of 1934, as amended, acquires 30% or more of our voting securities;

the consummation of a consolidation, merger or consolidation or sale or other disposition of all or substantially all of our assets in which our stockholders would beneficially own less than 50% of our voting securities after such transaction;

a majority of our current directors are replaced; and

our stockholders approve a plan or proposal for our liquidation or dissolution.

In addition, upon a change in control, all stock options and other equity-based awards granted to each of Mr. Templeton and our Senior Executives will immediately accelerate and become fully exercisable as of the effective date of the change-in-control. For each award for which the number of restricted stock units has not yet been determined, the performance criteria set forth in the award agreement will be deemed to be 100% attained, and that executive will be issued the base number of restricted stock units set forth in his award agreement. All restrictions on outstanding restricted stock units awarded to such executive officer will then lapse and each unit will be settled in Common Stock. The primary purpose of our equity-based long-term incentives is to align the interests of management and stockholders and to provide our executives with strong incentives to increase shareholder value over time. Change in control transactions typically represent events where our stockholders are

realizing the value of their equity interests in our company. We believe it is appropriate for executives to share in this realization of stockholder value, particularly where their employment is terminated in connection with the change in control transaction.

Each of Mr. Templeton and our Senior Executives are also subject to the terms of a Non-Solicitation, Non-Compete and Confidentiality and Employee Non-Disclosure Agreement with us and the terms of these agreements survive the termination of the executive after a change in control for a period of one year.

In the event that any payments made in connection with a change in control would be subjected to the excise tax impose by Section 4999 of the Internal Revenue Code, Mr. Templeton and our Senior Executives are entitled to a gross-up payment that, on an after-tax basis, is equal to the taxes imposed on the severance payments under the change-in-control agreements in the event any payment or benefit to the executive is considered an excess parachute payment and subject to an excise tax under the Internal Revenue Code.

Under the individual change in control agreements with Mr. Templeton and our Senior Executives, each executive officer would be entitled to receive the following estimated payments and benefits. These disclosed amounts are estimates only and do not necessarily reflect the actual amounts that would be paid to the executive officers, which would only be known at the time that they become eligible for payment and would only be payable if a change in control were to occur. The table reflects the amount that could be payable under the various arrangements, including a gross-up for certain taxes in the event that any payments made in connection with a change in control would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code, assuming that the change in control occurred at December 31, 2006 and the price per share of our Common Stock as of the change of control was \$27.05.

(1) Based on the dollar amount recognized for financial statement reporting purposes with respect to the year ended December 31, 2006 in accordance with SFAS 123R, excluding the impact of forfeitures, and using the modified prospective transition method for reporting awards granted prior to 2006. The assumptions we used for calculating the grant date fair value are set forth in Notes 3 and 7 to our consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

- (2) Consists solely of restricted stock units, or RSUs. As of December 31, 2006, each of our non-employee directors held 3,333 RSUs, except for Asiff Hirji, who did not hold any stock awards as of December 31, 2006.
- (3) As of December 31, 2006, the aggregate number of shares of our common stock subject to outstanding option awards held by our non-employee directors was as follows: Thomas F. Bogan, 80,000 shares; Murray J. Demo, 70,000 shares; Stephen M. Dow, 340,155 shares; Asiff Hirji, 60,000 shares; Gary E. Morin, 50,000 shares; and Godfrey R. Sullivan, 70,000 shares.

Our employee-directors do not receive cash compensation for their service as members of our Board of Directors. Beginning in 2006, non-employee members of our Board of Directors received annual retainer fees, which were paid in cash in semi-annual installments. Each non-employee director received a retainer of \$40,000 for his participation as a director. Directors who were members of the Audit Committee (but not the Chairperson of such committee) received an additional \$7,500 and directors who were members of the Compensation Committee (but not the Chairperson of such committee) received an additional \$3,750. The Chairperson of our Board of Directors and the Chairperson of the Audit Committee each received \$15,000 and the Chairperson of each other committee of our Board of Directors, other than the Finance Committee, received \$7,500. Because the Chairperson of the Finance Committee in 2006 was also the Chairperson of the Audit Committee, he received no additional retainer for his position on the Finance Committee. Non-employee directors are reimbursed for their reasonable out-of-pocket expenses incurred in attending meetings of our Board of Directors or any of its committees that are conducted in person.

Non-employee directors have historically been eligible for participation in certain of our equity incentive plans. Since May 5, 2005, equity awards to non-employee directors have been made under the 2005 Plan.

Beginning in 2006, each non-employee director was eligible to receive an option to purchase 10,000 shares of Common Stock and 3,333 restricted stock units. These grants were made on the first business day of the month following our annual meeting of stockholders and vest in equal monthly installments over a one-year period. New non-employee directors are entitled to receive an option to purchase up to 60,000 shares of Common Stock upon their election to our Board of Directors, which vests in accordance with our standard 3-year vesting schedule. New non-employee directors may not receive the annual grant of options and restricted stock units in the same calendar year in which they receive their initial grant.

To further align the interests of members of our Board of Directors with our stockholders, the Nominating and Corporate Governance Committee has adopted stock ownership guidelines for our directors. Pursuant to these guidelines, each director is expected to hold at least 3,000 shares of Common Stock for so long as he is a director or, in the case of certain shares acquired upon the exercise of a stock option, for nine months after termination of his service on our Board of Directors. In addition, if a director exercises a stock option, in accordance with the guidelines it is expected that such director would, from such option exercise, maintain ownership of at least a number of shares equal to twenty percent (20%) of the net value of the shares acquired (after deducting the exercise price and taxes). Directors are expected to meet the standards set forth in the guidelines within three years after the date of their election to our Board of Directors.

### **Equity Compensation Plans**

As of December 31, 2006, we had two equity compensation plans under which we were granting stock options and shares of non-vested stock. We are currently granting stock-based awards from our 2005 Plan and 2005 ESPP. Both the 2005 Plan and the 2005 ESPP are administered by the Compensation Committee of our Board of Directors.

The 2005 Plan was originally adopted by our Board of Directors on March 24, 2005 and approved by our stockholders on May 5, 2005. Under the terms of the 2005 Plan, we are authorized to issue stock options,

restricted stock, restricted stock units, stock appreciation rights, performance units and to make stock awards to our non-employee directors, as well as to our employees and consultants. The 2005 Plan was amended in May 2006 to provide for the issuance of a maximum of 15,500,000 (adjusted for stock splits) shares of Common Stock, 1,000,000 of which may be issued pursuant to awards of restricted stock, restricted stock unit, performance units and stock awards. The shares reserved under the 2005 Plan are available for awards to all participants in the 2005 Plan, including non-employee directors. Typically, under the 2005 Plan we grant five year options that vest over three years at a rate of 33.3% of the shares underlying the option one year from date of grant and at a rate of 2.78% monthly thereafter.

#### **Plans Assumed In 2006 Acquisitions**

In connection with our acquisitions of Reflectent Software, Inc. in April 2006 and Orbital Data Corporation in August 2006, we assumed the Reflectent Stock Plan, Reflectent RSU Plan, Orbital Incentive Plan and Orbital RSU Plan, each of which were previously adopted and approved by the respective boards of directors and stockholders of Reflectent and Orbital Data. Under the terms of the Reflectent Stock Plan, Reflectent was authorized to grant incentive and non-qualified stock options and to make restricted stock awards to its employees, directors, officers and consultants. The Reflectent Stock Plan provided for the issuance of a maximum of 2,100,000 (as adjusted for stock splits) shares of Reflectent common stock. Incentive and non-qualified stock options issued under this plan generally vest on our standard three-year vesting schedule, and expire five or ten years from the original grant date depending on the applicable option agreement. All options are exercisable upon vesting and all restrictions on restricted stock awards lapse upon vesting. Under the terms of the Reflectent RSU Plan, Reflectent was authorized to grant restricted stock units to its employees, directors, officers and consultants of Reflectent. The Reflectent RSU Plan provided for the issuance of a maximum of 3,468 (as adjusted for stock splits) restricted stock units. The unvested stock units generally vested over three years, at a rate of 33.3% per year. All restrictions on the restricted stock units lapse upon vesting.

Under the terms of the Orbital Incentive Plan, Orbital Data was authorized to grant incentive and non-qualified stock options and to make restricted stock awards to its employees, directors, officers and consultants. The Orbital Incentive Plan provided for the issuance of a maximum of 19,680,000 (as adjusted for stock splits) shares of Orbital Data common stock. Incentive and non-qualified stock options issued under this plan generally vest on our standard three-year vesting schedule, and expire five or ten years from the original grant date depending on the applicable option agreement. All options are exercisable upon vesting and all restrictions on restricted stock awards lapse upon vesting. Under the terms of the Orbital RSU Plan, Orbital Data was authorized to grant restricted stock units to its employees, directors, officers and consultants of Orbital Data. The Orbital RSU Plan provided for the issuance of a maximum of 5,652,500 (as adjusted for stock splits) restricted stock units. The unvested stock units generally vested over two years, at a rate of 50% per year. All restrictions on the restricted stock units lapse upon vesting.

Our Board of Directors has resolved to make no further awards under the Reflectent Stock Plan, the Reflectent RSU Plan, the Orbital Incentive Plan or the Orbital RSU Plan.

**PROPOSAL 2**

**APPROVAL OF THE AMENDMENT TO THE 2005 EQUITY INCENTIVE PLAN**

The Board of Directors approved the adoption of the Company's 2005 Equity Incentive Plan (the "2005 Plan") in March 2005 and the Company's stockholders approved the 2005 Plan at the Annual Meeting of Stockholders in May 2005 with 10,100,000 shares of Common Stock authorized for issuance under the 2005 Plan, of which 500,000 shares may be granted in the form of restricted stock, restricted stock units, performance units or stock grants. The 2005 Plan was then amended by the Board of Directors on February 14, 2006 and by the stockholders on May 18, 2006 with an additional 5,400,000 shares of Common Stock authorized for issuance under the 2005 Plan for a total authorized amount of 15,500,000 shares of Common Stock of which 1,000,000 shares may be granted in the form of restricted stock, restricted stock units, performance units or stock grants. On February 7, 2007, subject to stockholder approval, the Board of Directors approved a second amendment to the 2005 Plan (the "Plan Amendment") to (i) increase the aggregate number of shares of Common Stock authorized for issuance under the 2005 Plan by an additional 5,400,000 shares and (ii) increase the aggregate number of shares of Common Stock issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by an additional 1,000,000 shares of Common Stock. The Company is requesting that the stockholders vote to approve the Plan Amendment to increase the number of shares reserved for issuance under the 2005 Plan by 5,400,000 shares and to increase the number of shares issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by 1,000,000 shares.

Currently, there are 15,500,000 shares of Common Stock reserved for issuance under the 2005 Plan. As of the Record Date, an aggregate of 7,607,681 shares of Common Stock remained available for future grants under the 2005 Plan. The Board of Directors believes it important to the Company's continued success that the Company have an adequate reserve of shares available for issuance under the 2005 Plan for use in attracting, motivating and retaining qualified employees, officers, consultants and directors. The Plan Amendment does not modify, alter or revise any other term or provision of the 2005 Plan as approved by the Company's stockholders in May 2005 and May 2006.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE *FOR* THE AMENDMENT  
TO THE CITRIX SYSTEMS, INC. 2005 EQUITY INCENTIVE PLAN.**

**Purpose of the 2005 Plan and Plan Amendment**

The 2005 Plan allows the Company, under the direction of the Compensation Committee, to make broad-based grants of stock options, restricted stock, restricted stock units, stock awards, performance units and stock appreciation rights, any of which may or may not require the satisfaction of performance objectives, to employees and to non-employee directors through March 24, 2015. The purpose of these stock awards is to attract and retain talented employees, further align employee and stockholder interests, continue to closely link employee compensation with Company performance, and maintain a culture of ownership. The 2005 Plan provides an essential component of the total compensation package offered to employees, reflecting the importance that the Company places on motivating and rewarding superior results with long-term, performance-based incentives. The Plan Amendment will allow the Company to continue to provide performance based incentives to its eligible employees and non-employee directors.

Approval of the amendment to the 2005 Plan is intended to enable the Company to achieve the following objectives:

1. **The continued ability to offer stock-based incentive compensation to substantially all of the Company's eligible employees and non-employee directors.** The Company intends to continue to use stock options and evaluate other equity-based compensation vehicles, such as restricted stock, restricted stock units and stock appreciation rights, as the Company's primary means of providing equity compensation to the Company's employees. The Company maintains a broad-based option plan. In fact, options and restricted stock units granted to the Company's five most highly compensated

executives accounted for just 0.16%, 0.24% and 0.23% of the Company's total outstanding shares for 2004, 2005 and 2006, respectively. In 2007, the Compensation Committee intends to continue to grant awards of restricted stock units to certain of the Company's senior executive officers and to the Company's non-employee directors. Grants of restricted stock units to executive officers will be subject to both performance-based and time-based vesting requirements, whereas grants of restricted stock units to directors will typically be subject to time-based vesting requirements only. In order to continue to offer stock options and other equity-based compensation vehicles, such as restricted stock, restricted stock units and stock appreciation rights to the Company's employees, the Company will need additional shares in the 2005 Plan and an increase in the cap on awards of full-value shares.

2. **The proactive reduction of the Company's total stock dilution.** For the past few years, the Company has actively reduced its dilution by the following actions: (1) reducing the number of options given to the Company's employees; and (2) reducing the life of options granted from 10 to 5 years. As a result, the Company's overhang has been reduced to 15.05% in 2006, from 19.07% in 2005 and 21.86% in 2004. Additionally, the Company's gross burn rate (including acquisitions) was reduced to 3.1% of the Company's total outstanding shares in 2006, from 3.28% in 2005 and 3.4% in 2004. Including forfeitures, the Company's net burn rate was 2.3%, 2.1% and 1.9% for the same periods. Excluding options assumed and granted to companies acquired in the 2006 Acquisitions, the Company's gross and net burn rates in 2006 were 2.9% and 2.0% respectively.
3. **Continuation of responsible compensation and governance best practices.** The 2005 Plan prohibits stock option re-pricing, as well as the use of discounted stock options and reload option grants without stockholder approval, and contains no evergreen features (which provide for automatic replenishment of authorized shares available under the plan). In the interest of good corporate governance, the Company has not conducted an exchange program for underwater stock options. Had the Company done so, this would have also significantly reduced its overhang.

The Company's total overhang has also been impacted by an active stock repurchase program, which was initiated in July 2000. During the seven-year period ending December 31, 2006, the Company has repurchased 59.5 million shares under this program. The Company believes that its stock repurchase program represents a valuable use of cash that has improved stockholder value. Overhang is calculated as total options outstanding divided by the total shares outstanding. Because overhang increases as total shares outstanding decrease, the effect of the Company's stock repurchase program has been to increase the Company's overhang by more than 25%. Specifically, if the Company had not repurchased 59.5 million shares under the program to date, overhang as of December 31, 2006 would have been 11.3% instead of 15.0%.

#### **Background on Stock Compensation at the Company**

The use of stock options has long been a vital component of the Company's overall compensation philosophy, which is premised on the principle that any long-term pay-for-performance incentive compensation should be closely aligned with stockholders' interests. Over the years, the Company believes that it has been very successful in achieving this objective through the use of fixed-price stock options for the majority of its employees. Fixed-price stock options align employees' interests directly with those of other stockholders, because an increase in stock price after the date of award is necessary for employees to realize any value, thus rewarding employees only upon improved stock price performance.

The Company believes that stock options, the core of the Company's long-term employee incentive and retention program, have been effective in enabling the Company to attract and retain the talent critical for an innovative and growth-focused company. The Company's compensation programs include base salary, cash incentive compensation tied to Company financial and personal goals as well as stock-based compensation. The Company has a long history of linking employee compensation to the Company's long-term stock performance. For more than ten years, the Company has been granting stock options to employees. As a result, under the

Company's current stock option program, all general full-time and part-time employees are eligible for stock option grants upon hire with the Company. Annual grants are made to a subset of all eligible employees in connection with a focused evaluation of strategic value and in cases of high-level performance. The Company believes that stock-based compensation should not be limited to senior management and that all employees should have a stake in the future of the Company. Over the last five years, a total of only 5.5% of all option grants were made to the Company's five most highly compensated executive officers. The Company believes that its focus on pay-for-performance, as well as broad-based employee participation as stockholders, have been key contributing factors in enabling the Company's growth. Please read the Compensation Discussion and Analysis included in this Proxy Statement for additional information on the Company's compensation programs.

The Company intends to continue to use stock options and evaluate other equity-based compensation vehicles, such as restricted stock, restricted stock units and stock appreciation rights, as the Company's primary means of providing equity compensation to the Company's employees and directors. In 2006, the Compensation Committee began granting awards of restricted stock units to certain of the Company's senior executive officers and the Company's non-employee directors, and it intends to continue granting restricted stock units in 2007. Grants of restricted stock units to executives will be subject to both performance-based and time-based vesting requirements, whereas restricted stock units granted to directors will generally be subject only to time-based vesting requirements. Please read the Compensation Discussion and Analysis included in this Proxy Statement for additional information on the Company's restricted stock practices.

The Company strongly believes that its equity compensation programs and emphasis on employee stock ownership have been integral to the Company's success in the past and will be important to the Company's ability to achieve consistent performance in the years ahead. The Company believes that consistent performance is achieved through the ability to attract, retain and motivate the employee talent critical to attaining long-term improved Company performance and stockholder returns. Therefore, the Company considers approval of the amendment to the 2005 Plan vital to the Company's future success.

#### **Summary of the 2005 Plan**

The following is a summary of certain major features of the 2005 Plan. This summary is subject to the specific provisions contained in the full text of the 2005 Plan set forth as Exhibit A to the Company's proxy statement mailed to its stockholders on April 1, 2005, the Amendment to 2005 Equity Incentive Plan set forth as Exhibit A to the Company's proxy statement mailed to its stockholders on April 14, 2006 and the Plan Amendment in Exhibit A hereto.

##### *Eligibility*

Only employees of the Company and its subsidiaries and affiliates, consultants and non-employee directors of the Company, are eligible to receive awards under the 2005 Plan. The Compensation Committee determines which employees and directors will participate in the 2005 Plan. As of the Record Date, there were approximately 4,218 employees and 6 non-employee directors who were eligible to participate in the 2005 Plan.

##### *Awards*

The 2005 Plan allows the Compensation Committee to grant stock options, stock appreciation rights, restricted stock, performance units, stock awards or restricted stock units, any or all of which may be made contingent upon the achievement of performance criteria. Subject to plan limits, the Compensation Committee has the discretionary authority to determine the size of an award. The addition of performance-based requirements will be considered in light of the Company's total compensation program and the significant level of pay-for-performance requirements already incorporated into its compensation practices. As of the Record Date, under the 2005 Plan, there were (i) 15,057,724 shares of Common Stock authorized but unissued, (ii) 7,222,162 shares of Common Stock issuable upon exercise of outstanding but unexercised options and (iii) 128,881 shares of non-vested stock issued.

*Shares Authorized for Restricted Stock, Restricted Stock Units, Performance Units or Stock Grants*

Currently, the 2005 Plan provides that the number of shares of Common Stock issued pursuant to restricted stock, restricted stock units, performance units or stock grants cannot exceed 1,000,000 shares of Common Stock (subject to certain provisions of the 2005 Plan). The Plan Amendment would increase the aggregate number of shares of Common Stock issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by 1,000,000 shares of Common Stock to a maximum of 2,000,000 shares of Common Stock.

*Vesting and Exercise of Stock Options*

The exercise price of stock options granted under the 2005 Plan may not be less than the market value of the Common Stock on the date of grant (fair market value is the closing price for the Common Stock as reported on the Nasdaq Global Select Market, or on any national securities exchange on which the Common Stock is then listed, for that date or, if no closing price is reported for that date, the closing price on the next preceding date for which a closing price was reported). The closing sales price of the Company's Common Stock on August 30, 2007 was \$36.06 per share. The option term may not be longer than ten years, however, the Company's recent practice has been to grant options with only a five-year term. The Compensation Committee determines at the time of grant when each stock option becomes exercisable, including the establishment of required performance vesting criteria, if any. The Company may require, prior to issuing Common Stock under the 2005 Plan, that the participant remit an amount in cash or Common Stock sufficient to satisfy tax withholding requirements.

*Vesting of Restricted Stock and Stock Unit Awards*

The Compensation Committee may make the grant, issuance, retention and/or vesting of restricted stock and stock unit awards contingent upon continued employment with the Company, the passage of time, or such performance criteria and the level of achievement versus such criteria as it deems appropriate. In 2006, the Compensation Committee began granting awards of restricted stock units to certain of its senior executive officers and non-employee directors, and it intends to continue granting restricted stock units to senior executive officers and non-employee directors in 2007. Grants of restricted stock units to executive officers will be subject to both performance-based and time-based vesting requirements, whereas restricted stock unit grants to directors will generally be subject only to time-based vesting requirements. Please read the Compensation Discussion and Analysis included in this Proxy Statement for additional information on the Company's restricted stock practices.

*Eligibility Under Section 162(m)*

Awards may, but need not, include performance criteria that satisfy Section 162(m) of the Tax Code. To the extent that awards are intended to qualify as performance-based compensation under Section 162(m), the performance criteria may include one of the following criteria, either individually, alternatively or in any combination, applied to either the Company as a whole or to a business unit or subsidiary, either individually, alternatively, or in any combination, and measured either annually or cumulatively over a period of years, on an absolute basis or relative to a pre-established target, to previous years' results or to a designated comparison group, in each case as specified by the Compensation Committee in the award. Among other things:

- |  |  |
|--|--|
| 1. Operating margin, gross margin or profit margin                       | 2. Performance relative to peers   |
| 3. EPS or pro forma EPS  | 4. Divisional or operating segment financial and operating performance   |
| 5. Revenue or bookings   | 6. Total return on shares of Common Stock relative to increase in appropriate stock index selected by Compensation Committee |
| 7. Expenses or operating expenses  | 8. Attainment of strategic and operational objectives  |
| 9. Customer satisfaction indicators                                      | 10. Cash flow  |
| 11. Net income, operating income or pre-tax income                       | 12. Stock price increase   |
| 13. Growth or growth rates with respect to any of the foregoing measures | 14. Any combination of the foregoing   |

To the extent that an award under the 2005 Plan is designated as a performance award, but is not intended to qualify as performance-based compensation under Section 162(m), the performance criteria can include the achievement of strategic objectives as determined by the Board of Directors. The maximum performance award payment to any one participant under the 2005 Plan for a performance period is 1,000,000 shares of Common Stock, or if the award is paid in cash, the fair market value of 1,000,000 shares of Common Stock on the date of grant.

The Compensation Committee may appropriately adjust any evaluation of performance under the performance criteria to exclude any of the following events that occur during a performance period:

asset write-downs or impairment;

litigation or claim judgments or settlements;

the effect of changes in tax law, accounting principles or other such laws or provisions affecting reported results;

accruals for reorganization and restructuring programs;

any extraordinary non-recurring items including those described in Accounting Principles Board Opinion No. 30 and/or in management's discussion and analysis of financial condition and results of operations appearing in the Company's annual report to stockholders for the applicable year; and

any other extraordinary items adjusted from the Company's U.S. GAAP results in the Compensation Committee's discretion.

Notwithstanding satisfaction or completion of any performance criteria described above, to the extent specified at the time of grant of an award, the number of shares of Common Stock, stock options or other benefits granted, issued, retainable and/or vested under an award on account of satisfaction of performance criteria may be reduced by the Compensation Committee on the basis of such further considerations as the Compensation Committee, in its sole discretion, determines.

#### *Transferability*

Unless otherwise determined by the Compensation Committee, awards granted under the 2005 Plan are not transferable except by will or the laws of descent and distribution. The Compensation Committee will have sole discretion to permit the transfer of an award.

#### *Administration*

The Compensation Committee, which is made up entirely of independent directors, administers the 2005 Plan. The Compensation Committee determines who receives awards, determines the number of shares covered thereby, and, subject to the terms and limitations expressly set forth in the 2005 Plan, establishes the terms, conditions and other provisions of the grants. The Compensation Committee may interpret the 2005 Plan and establish, amend and rescind any rules relating to the 2005 Plan. The Compensation Committee may delegate to an executive officer or officers the authority to grant awards under the 2005 Plan to employees who are not officers, and to consultants or advisors, in accordance with such guidelines as the Compensation Committee shall set forth at any time or from time to time.

#### *Amendments*

The Board of Directors may at any time terminate the 2005 Plan or make such modifications of the 2005 Plan as it shall deem advisable; provided that the Board of Directors will not modify or amend the 2005 Plan without stockholder approval to the extent required by the Tax Code or the rules of Nasdaq or the SEC. In addition, the Board of Directors will not amend the provisions prohibiting re-pricing or reload grants without shareholder approval. Unless the Board otherwise expressly provides at the time of grant, no amendment of the 2005 Plan shall affect the terms of any award outstanding on the date of such amendment.

On February 7, 2007, the Board of Directors approved the Plan Amendment to increase (i) the aggregate number of shares the Company is authorized to issue under the 2005 Plan by 5.4 million shares and (ii) the aggregate number of shares of Common Stock issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by one million shares of Common Stock. The Company is now requesting that the stockholders vote to approve the Plan Amendment to increase the number of shares reserved for issuance under the 2005 Plan by 5.4 million shares and to increase the number of shares issuable pursuant to restricted stock, restricted stock units, performance units or stock grants by one million shares.

#### *Adjustments*

In the event of a stock dividend, recapitalization, stock split, combination of shares, extraordinary dividend of cash or assets, reorganization, or exchange of the Company's Common Stock or any similar event affecting the Company's Common Stock, the Compensation Committee shall adjust the number and kind of shares available for grant under the 2005 Plan, and subject to the various limitations set forth in the 2005 Plan, the number and kind of shares subject to outstanding awards under the 2005 Plan, and the exercise or settlement price of outstanding stock options and of other awards.

#### *Acquisitions*

Effective upon the consummation of an Acquisition (as defined below), the Compensation Committee or the board of directors of the surviving or acquiring entity, shall, as to outstanding awards (on the same basis or on different bases as the Compensation Committee shall specify), make appropriate provision for the continuation of such awards by the Company or the assumption of such awards by the surviving or acquiring entity and by substituting on an equitable basis for the shares then subject to such awards either (i) the consideration payable with respect to the outstanding shares of the Company's Common Stock in connection with the Acquisition (net of any exercise price of such awards), (ii) shares of stock of the surviving or acquiring entity or (iii) such other securities or other consideration as the Compensation Committee deems appropriate, the fair market value of which shall not materially differ from the fair market value of the shares of Common Stock subject to such awards immediately preceding the Acquisition. In the event such surviving or acquiring entity (if any) does not assume or substitute awards, such awards shall become exercisable in full prior to the consummation of the Acquisition at such time and on such conditions as the Compensation Committee determines, and if such awards are not exercised prior to the consummation of the Acquisition, they shall terminate at such time as determined by the Compensation Committee.

In addition to or in lieu of the foregoing, with respect to outstanding options, the Compensation Committee may, upon written notice to the affected optionees, provide that one or more options then outstanding must be exercised, in whole or in part, within a specified number of days of the date of such notice, at the end of which period such options shall terminate, or provide that one or more options then outstanding, in whole or in part, shall be terminated in exchange for a cash payment equal to the excess of the fair market value for the shares subject to such options over the exercise price thereof. Unless otherwise determined by the Compensation Committee, and assuming there is no acceleration of vesting as provided above, any repurchase rights or other rights of the Company that relate to an option or other award shall continue to apply to consideration, including cash, that has been substituted, assumed or amended for an option or other award. The Company may hold in escrow all or any portion of any such consideration in order to effectuate any continuing restrictions.

Notwithstanding anything to the contrary in the 2005 Plan, the Compensation Committee may provide that the vesting of any or all awards shall accelerate upon an Acquisition. In such case, such awards shall become exercisable in full prior to the consummation of the Acquisition at such time and on such conditions as the Compensation Committee determines, and if such awards are not exercised prior to the consummation of the Acquisition, they shall terminate at such time as determined by the Compensation Committee.

Notwithstanding anything to the contrary in the 2005 Plan, in the event of an involuntary termination of services for any reason other than death, disability or Cause (as defined in the 2005 Plan) within six months

following the consummation of an Acquisition, any awards assumed or substituted in an Acquisition which are subject to vesting conditions and/or a right of repurchase in favor of the Company or a successor entity, shall accelerate in full. All such accelerated awards shall be exercisable for a period of one year following termination, but in no event after expiration date of such award.

In the event of an Acquisition while a participant is a non-employee director, the vesting of any and all awards held by such participant shall become exercisable in full prior to the consummation of the Acquisition at such time and on such conditions as the Compensation Committee determines, and if such awards are not exercised prior to the consummation of the Acquisition, they shall terminate at such time as determined by the Compensation Committee.

Under the 2005 Plan, an Acquisition is defined as a (i) merger or consolidation of the Company into another person (*i.e.*, which merger or consolidation the Company does not survive), (ii) the sale, transfer, or other disposition of all or substantially all of the Company's assets to one or more other persons in a single transaction or series of related transactions (other than in a spin-off or similar transaction), unless, in the case of foregoing clauses (i) and (ii), securities possessing more than 50% of the total combined voting power of the survivor's or acquiror's outstanding securities (or the securities of any parent thereof) are held by a person or persons who held securities possessing more than 50% of the total combined voting power of the Company's outstanding securities immediately prior to that transaction, (iii) any person or group directly or indirectly acquires beneficial ownership of securities possessing more than 30% of the total combined voting power of the Company's outstanding securities pursuant to a tender or exchange offer made directly to the Company's stockholders that the Board does not recommend the stockholders accept, or (iv) any other acquisition of the business of the Company in which a majority of the Board votes in favor of a decision that an Acquisition has occurred.

#### *U.S. Tax Consequences*

Stock option grants under the 2005 Plan may be incentive stock options designed to qualify under Section 422 of the Tax Code or may be non-qualified stock options governed by Section 83 of the Tax Code. Generally, no federal income tax is payable by a participant upon the grant of a stock option and no deduction is taken by the Company. Under current tax laws, if a participant exercises a non-qualified stock option, he or she will have taxable income equal to the difference between the market price of the Common Stock on the exercise date and the stock option grant price. The Company will be entitled to a corresponding deduction on its income tax return. A participant will have no taxable income upon exercising an incentive stock option after the applicable holding periods have been satisfied (except that alternative minimum tax may apply), and the Company will receive no deduction when an incentive stock option is exercised. The treatment for a participant of a disposition of shares acquired through the exercise of an option depends on how long the shares were held and on whether the shares were acquired by exercising an incentive stock option or a non-qualified stock option. The Company may be entitled to a deduction in the case of a disposition of shares acquired under an incentive stock option before the applicable holding periods have been satisfied.

Restricted stock is also governed by Section 83 of the Tax Code. Generally, no taxes are due when the award is initially made, but the award becomes taxable when it is no longer subject to a substantial risk of forfeiture (*i.e.*, becomes vested or transferable). Income tax is paid on the value of the stock at ordinary income rates when the restrictions lapse, and then at capital gain rates when the shares are sold. Restricted stock units are not taxable until they are settled in stock. Income tax is paid on the value of the stock at ordinary income rates when the stock is issued to the participant.

As described above, awards granted under the 2005 Plan may qualify as performance-based compensation under Section 162(m) in order to preserve federal income tax deductions by the Company with respect to annual compensation required to be taken into account under Section 162(m) that is in excess of \$1,000,000 and paid to one of the Company's five most highly compensated executive officers. To so qualify, options and other awards must be granted under the 2005 Plan by a committee consisting solely of two or more outside directors (as

defined under Section 162 regulations) must be granted at fair market value and must satisfy the 2005 Plan's limit on the total number of shares that may be awarded to any one participant during any calendar year. In addition, for awards other than options to qualify, the grant, issuance, vesting or retention of the award must be contingent upon satisfying one or more of the performance criteria described above, as established and certified by a committee consisting solely of two or more outside directors.

For a discussion of the Company's executive compensation philosophy, see Compensation Discussion and Analysis included in this Proxy Statement.

The vesting of any portion of an option or other award that is accelerated in connection with a change in control of the Company may cause a portion of the payments with respect to such accelerated award to be treated as parachute payments as defined in the Tax Code. Any such parachute payments may be non-deductible to the Company, in whole or in part, and may subject the recipient to a non-deductible 20% federal tax on all or a portion of such payment (in addition to any other taxes ordinarily payable).

**THE AMENDMENT TO THE CITRIX SYSTEMS, INC.**

**PROPOSAL 3**

**STOCKHOLDER PROPOSAL ENTITLED:**

**DIRECTOR ELECTION MAJORITY VOTE STANDARD PROPOSAL**

The Company has received a stockholder proposal from The United Brotherhood of Carpenters Pension Fund ( United Brotherhood of Carpenters ), 101 Constitution Avenue, N.W., Washington, D.C. 20001. The United Brotherhood of Carpenters has requested that the Company include the following proposal and supporting statement in its proxy statement for the 2007 annual meeting of stockholders, and if properly presented this proposal will be voted on at the annual meeting. The United Brotherhood of Carpenters beneficially owns 2,800 shares of Common Stock. The stockholder proposal is quoted verbatim in italics below.

The Company's management does not support the adoption of the resolution proposed below and asks stockholders to consider management's response, which follows the stockholder proposal.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE AGAINST THIS PROPOSAL.**

**Vote Required**

Approval of the stockholder proposal requires the affirmative vote of a majority of the shares of Common Stock present in person or represented by proxy and entitled to be voted on the proposal at the annual meeting.

**Stockholder Proposal**

*Director Election Majority Vote Standard Proposal*

*Resolved: That the shareholders of Citrix Systems, Inc. ( Company ) hereby request that the Board of Directors initiate the appropriate process to amend the Company's governance documents (certificate of incorporation or bylaws) to provide that director nominees shall be elected by the affirmative vote of the majority of votes cast at an annual meeting of shareholders, with a plurality vote standard retained for contested director elections, that is, when the number of director nominees exceeds the number of board seats.*

*Supporting Statement: In order to provide shareholders a meaningful role in director elections, our Company's director election vote standard should be changed to a majority vote standard. A majority vote standard would require that a nominee receive a majority of the votes cast in order to be elected. The standard is particularly well-suited for the vast majority of director elections in which only board nominated candidates are on the ballot. We believe that a majority vote standard in board elections would establish a challenging vote standard for board nominees and improve the performance of individual directors and entire boards. Our Company presently uses a plurality vote standard in all director elections. Under the plurality vote standard, a nominee for the board can be elected with as little as a single affirmative vote, even if a substantial majority of the votes cast are withheld from the nominee.*

*In response to strong shareholder support for a majority vote standard in director elections, an increasing number of companies, including Intel, Dell, Motorola, Texas Instruments, Wal-Mart, Safeway, Home Depot, Gannett, Marathon Oil, and Supervalu have adopted a majority vote standard in company by-laws. Additionally, these companies have adopted director resignation policies in their bylaws or corporate governance policies to address post-election issues related to the status of director nominees that fail to win election. Other companies have responded only partially to the call for change by simply adopting post-election director resignation policies that set procedures for addressing the status of director nominees that receive more withheld votes than for votes. At the time of the submission of this proposal, our Company and its board had not taken either action.*

*We believe the critical first step in establishing a meaningful majority vote policy is the adoption of a majority vote standard in Company governance documents. Our Company needs to join the growing list of companies that*

have taken this action. With a majority vote standard in place, the board can then consider action on developing post election procedures to address the status of directors that fail to win election. A combination of a majority vote standard and a post-election director resignation policy would establish a meaningful right for shareholders to elect directors, while reserving for the board an important post-election role in determining the continued status of an unelected director. We feel that this combination of the majority vote standard with a post-election policy represents a true majority vote standard.

#### **Management Statement in Opposition to Stockholder Proposal**

This proposal requests that the Company adopt a voting standard for director elections that differs from the plurality voting standard, the default standard under Delaware law. The plurality voting standard provides that the nominees who receive the most affirmative votes are elected to serve as directors of the Company. Most large public companies that are incorporated in Delaware and elsewhere use a plurality voting standard.

After careful consideration, the Board of Directors recommends a vote against this proposal because:

Citrix's current corporate governance practices already ensure that the Company's directors are highly qualified;

the Company has already implemented a policy that addresses the proponent's concerns;

the stockholder proposal creates uncertainty; and

the stockholder proposal is premature given the current state of director election practices under Delaware law.

#### *The Company's Current Process Elects Highly Qualified Directors*

The Company has a strong corporate governance process designed to identify and propose director nominees who will best serve the interests of the Company and its stockholders. The Board of Directors maintains a Nominating and Corporate Governance Committee that is composed entirely of independent directors, and all of the members of the Board of Directors, other than the President and Chief Executive Officer, are independent. The Nominating and Corporate Governance Committee applies a robust set of criteria in identifying director nominees and has established procedures to consider and evaluate persons recommended by stockholders. The Company's strong corporate governance has been recognized by the Institutional Shareholder Service, which has ranked Citrix ahead of 91% of software and service companies, as measured by the ISS Corporate Governance Quotient. The Company has also elected not to adopt measures, such as poison pills, that could affect the ability of its stockholders to elect members of the Board of Directors.

As a result of these practices, the Company has consistently elected, by a plurality, highly qualified directors from diverse business backgrounds, substantially all of whom have been independent within standards adopted by the Nasdaq Stock Market. In the past, every director nominee has received the affirmative vote of a strong majority of the shares voted through the plurality process.

#### *The Company has Implemented a Director Resignation Policy*

Like a number of other large public companies facing this issue, in order to address concerns relating to director candidates who do not receive a majority of the votes cast, the Company has adopted a director resignation policy. The Company's policy provides that, in an uncontested election, any director nominee who receives (i) a greater number of votes withheld from his or her election than votes for such election and (ii) votes withheld from his or her election that constitute thirty-five percent (35%) or more of the outstanding shares of the Company's Common Stock is required to submit his resignation to the Board of Directors. The

Company has announced this policy and a copy of this policy is posted on the Company's website at <http://www.citrix.com/English/aboutCitrix/governance>.

The Company believes that this policy is effective in giving stockholders a meaningful role in the election of directors and in removing a director opposed by stockholders. Under the Company's policy, a nominee and incumbent director who receives a greater number of withheld votes than for votes, and who receives withheld votes representing 35% of the outstanding shares of the Company's Common Stock, would tender his or her resignation and could be removed from the Board of Directors.

*The Proposal Causes Uncertainty*

In contrast to the Company's clear director resignation policy, the majority voting standard requested by the proposal causes uncertainty because it does not address the hold over issue. Under Delaware law, an incumbent director who is not re-elected holds over and continues to serve with the same voting rights and powers until his or her successor is elected and qualified. Therefore, even if the proposal were adopted, the Company could not force a director who failed to receive a majority vote to leave the Board of Directors until his or her successor is elected at a subsequent stockholder meeting.

Moreover, the proposal fails to address vacancies on the Board of Directors if a director is not elected because he fails to receive a majority of the votes cast. Delaware law and the Company's Bylaws permit the Board of Directors to elect a director to fill the vacancy or let the position remain vacant. Alternatively, another meeting of stockholders could be held for the sole purpose of filling the vacancy. In any case, the Board may be left with vacancies for an indefinite period of time, making it difficult to staff key committees and otherwise meet its obligation to oversee the business and affairs of the Company. This could cause additional uncertainty, disruption and expense for the Company.

*The Proposal is Premature*

Finally, the Company does not believe that stockholders should be asked to approve a proposal relating to an untested voting system without the benefit of a consensus in this area and a greater understanding of the full ramifications of its adoption. The Company is monitoring, and will continue to monitor developments on this topic, and will take appropriate action to maintain its commitment to sound governance practices. If a consensus emerges that majority voting for directors as implemented through amendments to the charter or bylaws is the best corporate governance practice in this area, the Company will revisit our director election procedures. The Company does not believe that its interests, or its stockholders' interests, would be best served by prematurely adopting such a change.

**FOR THE REASONS DESCRIBED ABOVE, THE BOARD RECOMMENDS A VOTE AGAINST THIS PROPOSAL.**

### INDEPENDENT REGISTERED PUBLIC ACCOUNTANTS

The Audit Committee of the Board of Directors has retained the firm of Ernst & Young, independent registered public accountants, to serve as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2007. Ernst & Young has served as the Company's independent registered public accounting firm since 1989.

The Audit Committee of the Board of Directors has implemented procedures under the Company's Audit Committee Pre-Approval Policy for Audit and Non-Audit Services (the "Pre-Approval Policy") to ensure that all audit and permitted non-audit services to be provided to the Company have been pre-approved by the Audit Committee. Specifically, the Audit Committee pre-approves the use of the Company's independent registered public accountant for specific audit and non-audit services, within approved monetary limits. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the Audit Committee before it may be provided by the Company's independent registered public accountant. Any pre-approved services exceeding the pre-approved monetary limits require specific approval by the Audit Committee. All of the audit-related, tax and all other services provided by Ernst & Young to the Company in 2006 and 2005 were approved by the Audit Committee by means of specific pre-approvals or pursuant to the procedures contained in the Pre-Approval Policy. All non-audit services provided in 2006 and 2005 were reviewed with the Audit Committee, which concluded that the provision of such services by Ernst & Young was compatible with the maintenance of that firm's independence in the conduct of its auditing functions. For additional information concerning the Audit Committee and its activities with Ernst & Young, see "The Board of Directors and its Committees" and "Report of the Audit Committee of the Board of Directors."

Representatives of Ernst & Young attended all in-person meetings of the Audit Committee in 2006. The Company expects that a representative of its independent registered public accountant will attend the Annual Meeting, and the representative will have an opportunity to make a statement if he or she so desires. The representative will also be available to respond to appropriate questions from stockholders.

**OTHER MATTERS**

The Board of Directors knows of no other matters to be brought before the Annual Meeting. If any other matters are properly brought before the Annual Meeting, the persons appointed in the accompanying proxy intend to vote the shares represented thereby in accordance with their best judgment on such matters, under applicable laws.

**STOCKHOLDER PROPOSALS**

Proposals of stockholders intended for inclusion in the Proxy Statement to be furnished to all stockholders entitled to vote at the 2008 Annual Meeting of Stockholders of the Company, pursuant to Rule 14a-8 promulgated under the Exchange Act by the SEC, must be received at the Company's principal executive offices not later than January 1, 2008. Under the Company's By-Laws, stockholders who wish to make a proposal at the 2008 Annual Meeting other than one that will be included in the Company's Proxy Statement must notify the Company between December 2, 2007 and January 1, 2008. If a stockholder who wishes to present a proposal fails to notify the Company by January 1, 2008 and such proposal is brought before the 2008 Annual Meeting, then under the SEC's proxy rules, the proxies solicited by management with respect to the 2008 Annual Meeting will confer discretionary voting authority with respect to the stockholder's proposal on the persons selected by management to vote the proxies. If a stockholder makes a timely notification, the proxies may still exercise discretionary voting authority under circumstances consistent with the SEC's proxy rules. In order to curtail controversy as to the date on which a proposal was received by the Company, it is suggested that proponents submit their proposals by Certified Mail, Return Receipt Requested, to Citrix Systems, Inc., 851 West Cypress Creek Road, Fort Lauderdale, FL 33309, Attention: Secretary.

**EXPENSES AND SOLICITATION**

The cost of solicitation of proxies will be borne by the Company and, in addition to soliciting stockholders by mail through its regular employees, the Company may request banks, brokers and other custodians, nominees and fiduciaries to solicit their customers who have stock of the Company registered in the names of a nominee and, if so, will reimburse such banks, brokers and other custodians, nominees and fiduciaries for their reasonable out-of-pocket costs. Solicitation by officers and employees of the Company may also be made of some stockholders in person or by mail, telephone, e-mail or telegraph following the original solicitation. The Company has retained The Altman Group, a proxy solicitation firm, to assist in the solicitation of proxies for a fee of approximately \$9,000, plus reimbursement of expenses.
