**ChipMOS REPORTS THIRD QUARTER 2007 RESULTS**

3Q07 Revenue Increases 11.8% Compared to 3Q06

Jan. to Sept. Capex at US\$150 Million in 2007 Compared to US\$365 Million in 2006 Period

**Hsinchu, Taiwan, November 13, 2007** ChipMOS TECHNOLOGIES (Bermuda) LTD. ( ChipMOS or the Company ) (NASDAQ: IMOS) today reported unaudited consolidated financial results for the third quarter ended September 30, 2007. All U.S. dollar figures in this release are based on the exchange rate of NT\$32.62 against US\$1.00 as of September 28, 2007.

Net revenue for the third quarter of 2007 was NT\$5,939.4 million or US\$182.1 million, an increase of 11.8% from NT\$5,312.5 million or US\$162.8 million for the same period in 2006 and an increase of 1.8% from NT\$5,833.5 million or US\$178.8 million in the second quarter of 2007. Under US GAAP, the gross margin for the third quarter of 2007 was 24.2%, compared to 28.2% for the same period of 2006 and 27.6% for the second quarter of 2007.

Net income on a US GAAP basis for the third quarter of 2007 was NT\$1,268.8 million or US\$38.9 million, and NT\$15.24 or US\$0.47 per basic common share, compared to NT\$135.4 million or US\$4.2 million, and NT\$1.63 or US\$0.05 per basic common share, for the second quarter of 2007. Net income under US GAAP includes non-cash gains for changes in the fair value of the embedded derivative liabilities of NT\$759.6 million or US\$23.3 million and amortization of discount on convertible notes of NT\$91.1 million or US\$2.8 million for the third quarter of 2007 and non-cash charges for changes in the fair value of the embedded derivative liabilities of NT\$145.4 million or US\$4.5 million and amortization of discount on convertible notes of NT\$91.1 million or US\$2.8 million for the second quarter of 2007. Excluding the above special items regarding the convertible notes, non-GAAP adjusted net income for the third quarter of 2007 was NT\$600.3 million or US\$18.4 million, and NT\$7.21 or US\$0.22 per basic common share, compared to non-GAAP adjusted net income of NT\$371.9 million or US\$11.5 million, and NT\$4.49 or US\$0.14 per basic common share in the second quarter of 2007.

The unaudited consolidated financial results of ChipMOS for the third quarter ended September 30, 2007 included the financial results of ChipMOS TECHNOLOGIES INC., ChipMOS Japan Inc., ChipMOS U.S.A., Inc., ChipMOS TECHNOLOGIES (H.K.) Limited, MODERN MIND TECHNOLOGY LIMITED and its wholly-owned subsidiary ChipMOS TECHNOLOGIES (Shanghai) LTD., and ThaiLin Semiconductor Corp.

S.J. Cheng, Chairman and Chief Executive Officer of ChipMOS, said, Revenue in the third quarter was within our prior guidance, with growth over the prior quarter and the third quarter of 2006. Revenue derived from flash increased by approximately 26.2% in the third quarter of 2007 from the second quarter of 2007, as we ramped up business with a strategic NOR flash customer combined with other new business from Taiwan and oversea customers. Our growth was even more impressive given the fact that new business more than offset the decline to zero of a Korean customer that had decided to stop all further outsourcing to Taiwan-based companies. The freed up capacity has been taken-up gradually by our Taiwan DRAM customers.

S.K. Chen, Chief Financial Officer of ChipMOS, said, Our CapEx this quarter was US\$39.6 million, which was down from US\$51.4 million in the second quarter. We intend to keep conservative control of our capital expenditures going forward to generate more free cash flow from our operation, and we intend to use the cash to reduce our debt.

LCD Driver	9%	12%

**Fourth Quarter 2007 Outlook**

Mr. Cheng continued, We currently expect that Q4 will be stronger than Q3, led by growth in our flash revenue, DDR II assembly, and mixed-signal testing for LCD peripheral chips. We currently expect the DRAM backend environment to remain healthy due to conservative capacity investment in the market combined with a growing DRAM backend manufacturing market. We also expect our growing DRAM business with a US-based customer will help our revenue growth and further diversify our DRAM customer base. However, as DRAM end market pricing remains weak, we expect to face price pressure in Q4. Our flash revenue is expected to grow quarter-over-quarter because of the scheduled capacity ramp till end of Q4 with our major NOR flash customer and the new NAND flash assembly business. We currently expect our flash business will be the major contributor to our revenue growth in the second half of 2007 and the full year of 2008. Finally, while we currently expect the driver IC business to remain flat in Q4 compared to Q3, we currently expect demand from the TV segment will maintain strength through 2008.

Based on current customer forecasts and market conditions, ChipMOS currently expects that revenue for the fourth quarter of 2007 will be in the range of approximately US\$191 million to US\$198 million, which would represent approximately 5% to 9% sequential growth compared to the third quarter of 2007. The Company currently expects US GAAP gross margin on a consolidated basis for the fourth quarter of 2007 to be in the range of approximately 23% to 27%, which approximately at the same level as in the third quarter of 2007. Management will focus our best effort to increase utilization level, enhance equipment efficiency and execute cost-saving program to compensate the impact of price erosion from DRAM business.

**ChipMOS TECHNOLOGIES (Bermuda) LTD.****RECONCILIATION OF US GAAP NET INCOME TO NON-GAAP NET INCOME (UNAUDITED)****For the Three Months Ended Sep. 30 and Jun. 30, 2007****Figures in Million of U.S. dollars (USD)<sup>(1)</sup>****Except for Per Share Amounts****Use of Non-GAAP Financial Information**

To supplement our consolidated income statement (unaudited) for the three months ended Sep. 30, 2007 on a US GAAP basis, the Company uses a non-GAAP measure of net income, which is US GAAP net income adjusted to exclude two non-cash items referred to as special items. The two non-cash items excluded are changes in the fair value of the embedded derivative liabilities and amortization of discount on convertible notes. These items are considered by the management to be outside of the Company's core operating results. For example, changes in the fair value of the embedded derivative liabilities relate heavily to the Company's stock price, interest rate and volatility, all of which are difficult to predict and outside of the control of the Company and its management.

For these reasons, management uses non-GAAP adjusted measures of net income and non-GAAP net income per share to evaluate the performance of our core businesses, to estimate future core performance and to compensate employees. In addition, this information facilitates our management's internal comparisons to our historical operating results as well as to the operating results of our competitors.

The Company's management finds these supplemental non-GAAP measures to be useful, and we believe these non-GAAP measures are useful to investors in enabling them to perform additional analyses of past, present and future operating performance and as a supplemental means to evaluate our core operating results. However, readers are reminded that non-GAAP numbers are merely a supplement to, and not a replacement for, US GAAP financial measures. They should be read in conjunction with the US GAAP financial measures. It should be noted as well that our non-GAAP information may be different from the non-GAAP information provided by other companies.

- (2) The Company's management believes excluding non-cash special item for the changes in the fair value of the embedded derivative liabilities from its non-GAAP financial measure of net income is useful for itself and investors as such gain (expense) does not have any impact on cash available to the Company.
- (3) The Company's management believes excluding non-cash amortization expense of discount on convertible notes from its non-GAAP financial measure of net income is useful for itself and investors as such expense does not have any impact on cash available to the Company.
- (4) Non-GAAP diluted net income per share for the three months ended Sep. 30, 2007 is US\$0.16, same as that under US GAAP since US GAAP adjusted diluted net income has excluded the two non-cash special items for non-GAAP reconciliation.
