INFORMATION CONCERNING SOLICITATION AND VOTING

Record Date and Share Ownership

Stockholders of record at the close of business on March 1, 2008 (the "Record Date") are entitled to notice of and to vote at the Annual Meeting. As of the Record Date, 45,086,950 shares of AsiaInfo's common stock ("Common Stock") were issued and outstanding and held of record by approximately 128 registered stockholders.

Voting, Solicitation and Revocability of Proxy

Registered stockholders can vote by mail, telephone or the Internet. Please note that voting via the Internet is a valid proxy voting method under the laws of the State of Delaware (our state of incorporation). Telephone voting can be accessed by calling the toll-free number (in the United States only) 1-866-580-9477. Internet voting can be accessed by logging on to the following Internet address: (<https://www.eproxy.com/asia>). Telephone and Internet voting information is provided on the proxy card. A control number located on the proxy card is designed to verify each stockholder's identity and allow stockholders to vote their shares and confirm that their voting instructions have been properly recorded. If your shares are held in the name of a bank or broker, follow the voting instructions on the form you receive from your bank or broker. The availability of telephone or Internet voting will depend on your bank or broker's voting process.

If you do not choose to vote by telephone or the Internet, you may still return your proxy card, properly signed, and the shares represented will be voted in accordance with your directions. You can specify your choices by marking the appropriate boxes on the proxy card. If your proxy card is signed and returned without specifying choices, the shares will be voted in favor of proposals 1, 2 and 3. If you vote by telephone or the Internet, it is not necessary to return your proxy card.

You may revoke your proxy at any time before it is voted at the Annual Meeting by casting a different vote by telephone or the Internet, by executing a later-voted proxy by mail, by voting by ballot at the Annual Meeting, or by providing written notice of the revocation to Deborah Lv, Legal Counsel of AsiaInfo, at the Company's principal executive offices.

Table of Contents

Your vote is important. Accordingly, regardless of whether you plan to attend the Annual Meeting, you are urged to vote by telephone, by the Internet, or by signing and returning the accompanying proxy card. If you do attend, you may vote by ballot at the Annual Meeting, thereby canceling any proxy previously given. However, attendance at the Annual Meeting will not revoke a proxy unless you actually vote in person at the meeting.

In the event that any matter not described in this Proxy Statement properly comes before the Annual Meeting, the proxy holders named in the accompanying proxy will vote the shares represented by the proxy in accordance with their best judgment. As of the date of this Proxy Statement, AsiaInfo is not aware of any other matter that might be presented at the Annual Meeting.

Each share of Common Stock outstanding on the Record Date is entitled to one vote. The required quorum for the transaction of business at the Annual Meeting is a majority of the votes eligible to be cast by holders of shares of Common Stock issued and outstanding on the Record Date, present in person or represented by proxy. Stockholders may withhold authority to vote for one or more of the nominees for director and may abstain on one or more of the other matters that may come before the Annual Meeting. The inspector of election appointed for the Annual Meeting will determine the existence of a quorum and will tabulate the votes cast at the Annual Meeting. Broker non-votes (shares held by a broker or nominee that does not have the authority, either express or discretionary, to vote on a particular matter) will not be counted in determining the number of votes cast with respect to a proposal. For purposes of determining the presence of a quorum, abstentions and broker non-votes will be counted by AsiaInfo as present at the Annual Meeting. Abstentions will also be counted by AsiaInfo in determining the total number of votes cast with respect to a proposal (other than the election of directors). If, however, a quorum shall not be present or represented, the stockholders present in person or represented by proxy shall have the power to adjourn the Annual Meeting from time to time, without notice other than announcement at the Annual Meeting until a quorum shall be present or represented. If a broker indicates on a proxy that such broker does not have discretionary authority to vote on a particular matter, under applicable Delaware law those shares will be counted as present for purposes of determining the presence of a quorum, but will not be counted as votes cast on the matter and will have no effect on the outcome of the vote on such matter.

The cost of soliciting proxies will be borne by AsiaInfo. Proxies may be solicited by certain of AsiaInfo's directors, officers and employees, without additional compensation, in person or by telephone, email or facsimile. In addition, AsiaInfo has retained Morrow & Co., Inc. to assist in such solicitation. The fee to be paid to such firm is not expected to exceed \$10,000 plus reasonable out-of-pocket costs and expenses. In addition, AsiaInfo may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation materials to such beneficial owners.

Director Independence

The Board consists of nine directors. The Board has determined that each of the directors, with the exceptions of James Ding, Anders Cheung and Steve Zhang, qualify as independent as defined by applicable NASDAQ and SEC rules. In making this determination, the Board has concluded that none of those members has a relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Executive Session

The independent directors of the Board meet in Executive Session (without the participation of executive officers or other non-independent directors) at least two times each year, after a regularly scheduled Board meeting, and at any other time requested by any independent director.

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

The Chairman of the Board, provided he or she is an independent director, is responsible for calling and presiding over Executive Sessions. To the extent that the Chairman of the Board is not an independent director, those responsibilities shall be carried out by the Chairman of the Nominating and Corporate Governance Committee.

James Ding and Steve Zhang attended the 2007 annual meeting of stockholders.

The Board has an audit committee, a compensation committee and a nominating and corporate governance committee. Each member of these committees is independent as defined by applicable NASDAQ and SEC rules.

Messrs. Mackenzie, Tian and Manning served as members of the Compensation Committee during 2007. Neither of these individuals was an officer or employee of AsiaInfo during 2007. Director Nomination

We have adopted Corporate Governance Guidelines that address the composition of the Board, criteria for Board membership and other Board governance matters. The Corporate Governance Guidelines set out our director nomination process.

The Governance Committee will review annually the results of the evaluation of the Board and its committees, and the needs of the Board for various skills, experience, expected contributions and other characteristics in determining the director candidates to be nominated at the annual meeting. The Governance Committee will evaluate candidates for directors proposed by directors, stockholders or management in light of the Committee's views of the current needs of the Board for certain skills, experience or other characteristics, the candidate's background, skills, experience, other characteristics and expected contributions and the qualification standards established from time to time by the Nominating and Corporate Governance Committee. If the Governance Committee believes that the Board requires additional candidates for nomination, the Committee may engage, as appropriate, a third-party search firm to assist in identifying qualified candidates. All nominees will submit a completed form of directors' and officers' questionnaire as part of the nominating process. The process may also include interviews and additional background and reference checks for non-incumbent nominees, at the discretion of the Governance Committee. In making the determinations regarding nominations of directors, the Governance Committee may take into account the benefits of diverse viewpoints as well as the benefits of a constructive working relationship among directors.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

General

The Board has selected the firm of Deloitte Touche Tohmatsu as AsiaInfo's independent registered public accounting firm to audit the consolidated financial statements and internal control over financial reporting of AsiaInfo for the fiscal year ending December 31, 2008, and recommends that stockholders vote for ratification of this appointment. Deloitte Touche Tohmatsu has audited AsiaInfo's financial statements since the Company's inception in 1993.

Stockholder ratification of the selection of Deloitte Touche Tohmatsu as AsiaInfo's independent registered public accounting firm is not required by AsiaInfo's Bylaws or otherwise. However, the Board is submitting the selection of Deloitte Touche Tohmatsu to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Board in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such change would be in the best interests of AsiaInfo and its stockholders. Representatives of Deloitte Touche Tohmatsu are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions.

The following discussion describes the fees billed by Deloitte Touch Tohmatsu for services rendered on behalf of the Company during 2006 and 2007. For additional information on the types of fees discussed below, and the Audit Committee's pre-approval procedures, please see the discussion below under the heading "Audit Committee Report".

Audit Fees

PROPOSAL NO. 3:

APPROVAL OF THE 2008 STOCK INCENTIVE PLAN

Background and Purpose of the 2008 Plan

We are asking our stockholders to approve our 2008 Stock Incentive Plan (the "2008 Plan"). The Board of Directors adopted the 2008 Plan on February 25, 2008, subject to its approval by our stockholders. The 2008 Plan is intended to better align the interests of participants in the 2008 Plan with all our stockholders and to promote our long-term growth and profitability by providing us with the tools to remain competitive in attracting and retaining employees, directors, officers and consultants. Under the 2008 Plan, we may grant participants restricted stock awards, performance stock awards, stock options, or other types of equity incentives.

In preparing the 2008 Plan, we have considered the impact of Financial Accounting Standard No. 123 (revised 2004), Share-Based Payment, or FAS 123(R). FAS 123(R) requires us to treat all equity awards as an expense, including stock options and restricted stock units. Prior to FAS 123(R) becoming effective in 2005, we accounted for the grant of stock options using the intrinsic value method, which typically resulted in our not recognizing any compensation expenses for stock options granted at or above the fair market value of our Common Stock on the date of grant. In view of the accounting changes required by FAS 123(R), since 2005, we have utilized restricted stock units and performance stock units as the primary types of equity incentives for our employees. The 2008 Plan will provide the Compensation Committee with broad discretion to award equity incentives in the form of stock options, restricted stock awards or units, performance stock awards or units, or any combination of the foregoing, as the Compensation Committee deems appropriate.

The number of shares of Common Stock available for issuance under the 2008 Plan is 2,000,000 shares, plus any shares that are available for grant under the Company's 2005 Stock Option Plan (the "Prior Plan") or would again become available for grant under the Prior Plan, in accordance with its terms. As of March 1, 2008, approximately 2,200 persons were eligible to participate in the 2008 Plan.

A copy of the 2008 Plan, as proposed, is attached to this Proxy Statement as Appendix II and is incorporated herein by reference. The following description of the 2008 Plan is a summary and does not purport to be a complete description. See Appendix II for more detailed information.

Summary of the 2008 Plan

The 2008 Plan provides a means whereby employees, directors, officers, consultants, agents, advisors and independent contractors of the Company may be granted restricted stock awards, performance stock awards, stock options, or other types of equity incentives. Subject to adjustment required in the event of any recapitalization of the Company, the numbers of shares available for issuance under the 2008 Plan as proposed will be as described above. Shares subject to awards granted under the 2008 Plan that have lapsed or terminated may again become subject to awards granted under the 2008 Plan.

The Company's Compensation Committee is the plan administrator of the 2008 Plan, and will have discretion over whether and to whom awards will be granted. Subject to the terms of the 2008 Plan and certain limitations on the exercise of its discretions required by Section 162(m) of the Internal Revenue Code (the "Code"), the plan administrator will determine the terms and conditions of awards granted under the 2008 Plan, including the vesting of restricted stock awards and the exercise price of any options granted under the 2008 Plan.

The 2008 Plan provides that the plan administrator must establish an exercise price for incentive stock options, or ISOs, that is not less than the fair market value per share at the date of grant. Each ISO must expire within ten years of the date of grant. However, if ISOs are granted to persons owning more than 10% of the voting stock of the Company, the 2008 Plan and the tax laws pertaining to ISOs provide that the exercise price may not be less than 110% of the fair market value per share at the date of grant. On March 1, 2008, the average of the high and

Table of Contents

low sale prices of the Common Stock was \$11.16 per share, as reported by the Nasdaq Global Market. The option exercise price may be paid in cash or by check, by tendering shares of Common Stock that the optionee has owned for at least six months, by a broker-assisted cashless exercise, by any combination of the foregoing, or with such other consideration as the plan administrator may permit. Unless otherwise established by the plan administrator, the term of each option is ten years from the date of grant, except that if ISOs are granted to persons owning more than 10% of the Company's voting stock, the term may not exceed five years.

The plan administrator is authorized to make restricted stock awards on such terms and conditions and subject to such restrictions (whether based on performance standards, periods of service or otherwise), as the plan administrator may determine. Restrictions may include repurchase or forfeiture rights in favor of the Company.

No restricted stock award or option may be transferred by the participant other than by will or the laws of descent or distribution, except for certain transfers that may be permitted by the plan administrator. Unless otherwise established by the plan administrator, an optionee whose relationship with the Company or any related corporation ceases for any reason (other than termination for cause, retirement, death or disability, as such terms are defined in the 2008 Plan) may exercise the option, to the extent vested on the date of termination, in the three-month period following such cessation (unless such options terminate or expire sooner by their terms). In the event the optionee is terminated for cause, the options terminate upon the first notification to the optionee of such termination. In the event the optionee retires, dies or becomes permanently and totally disabled, options vested as of the date of retirement, death or disability may be exercised prior to the earlier of the option's specified expiration date and one year from the date of the optionee's retirement, death or disability.

In the event of a Corporate Transaction (as defined in the 2008 Plan), the plan administrator will determine whether provisions will be made in connection with the Corporate Transaction for the assumption of awards under the 2008 Plan or substitution of appropriate new awards covering the stock of the successor corporation or an affiliate of the successor corporation. If the plan administrator determines that no such assumption or substitution will be made, each outstanding restricted stock award and each outstanding option under the 2008 Plan will automatically accelerate so that it will become 100% vested immediately before the Corporate Transaction.

The 2008 Plan does not have a fixed expiration date. No ISOs may be granted under the 2008 Plan, however, more than ten years after the later of (i) the 2008 Plan's adoption by the Board and (ii) the adoption by the Board of any amendment to the 2008 Plan that constitutes the adoption of a new plan for purposes of Section 422 of the Code.

Federal Income Tax Consequences

The material U.S. federal income tax consequences to the Company and to any person granted a stock award or an option under the 2008 Plan who is subject to taxation in the United States under existing applicable provisions of the Code and underlying Treasury Regulations are substantially as follows. The following summary does not address state, local or foreign tax consequences, or other tax consequences based on particular circumstances, and it is based on present law and regulations as in effect as of the date hereof.

Nonqualified Stock Options (NSOs). No income will be recognized by an optionee upon the grant of an NSO. Upon the exercise of an NSO, the optionee will recognize taxable ordinary income in an amount equal to the excess of the fair market value at the time of exercise of the shares acquired over the exercise price. Upon a later sale of those shares, the optionee will have capital gain or loss equal to the difference between the amount realized on such sale and the tax basis of the shares sold. Furthermore, this capital gain or loss will be long-term capital gain or loss if the shares are held for more than one year before they are sold. If payment of the option price is made entirely in cash, the tax basis of the shares will be equal to their fair market value on the exercise date (but not less than the exercise price), and the shares' holding period will begin on the

day after the exercise date.

Table of Contents

If the optionee uses already-owned shares to pay the exercise price of an NSO in whole or in part, the transaction will not be considered to be a taxable disposition of the already-owned shares. The optionee's tax basis and holding period of the already-owned shares will be carried over to the equivalent number of shares received upon exercise. The tax basis of the additional shares received upon exercise will be the fair market value of the shares on the exercise date (but not less than the amount of cash, if any, used in payment), and the holding period for such additional shares will begin on the day after the exercise date.

Incentive Stock Options (ISOs). No income will be recognized by an optionee upon the grant of an ISO. The rules for the tax treatment of an NSO also apply to an ISO that is exercised more than three months after the optionee's termination of employment (or more than 12 months thereafter in the case of disability, as defined in the 2008 Plan). Upon the exercise of an ISO during employment or within three months after the optionee's termination of employment (12 months in the case of permanent and total disability), for regular tax purposes the optionee will recognize no ordinary income at the time of exercise (although the optionee will have income for alternative minimum income tax purposes at that time equal to the excess of the fair market value of the shares over the exercise price). If the acquired shares are sold or exchanged after the later of (i) one year from the date of exercise of the option and (ii) two years from the date of grant of the option, the difference between the amount realized by the optionee on that sale or exchange and the option exercise price will be taxed to the optionee as long-term capital gain or loss. If the shares are disposed of in an arms-length sale before such holding period requirements are satisfied, then the optionee will recognize taxable ordinary income in the year of disposition in an amount equal to the excess of the fair market value of the shares received on the exercise date over the exercise price (or, if less, the excess of the amount realized on the sale of the shares over the exercise price), and the optionee will have short-term or long-term capital gain or loss, as the case may be, in an amount equal to the difference between (i) the amount realized by the optionee upon the disposition of the shares and (ii) the exercise price paid by the optionee increased by the amount of ordinary income, if any, so recognized by the optionee.

Company Deduction. In all the foregoing cases, the Company will be entitled to a deduction at the same time and in the same amount as the participant recognizes ordinary income, subject to certain limitations. Among these limitations is Section 162(m) of the Code. Certain performance-based compensation is not subject to the Section 162(m) limitation on deductibility. Stock options and restricted stock awards can qualify for this performance-based exception if they meet the requirements set forth in Section 162(m) and Treasury Regulations promulgated thereunder. The 2008 Plan has been drafted to allow compliance with those performance-based criteria.

New Plan Benefits

No award will be granted under the 2008 Plan prior to its approval by our stockholders. Awards under the 2008 Plan will be granted under the discretion of the Compensation Committee, and accordingly, are not yet determinable. In addition, benefits under the 2008 Plan, including performance awards, will depend on a number of factors, including the fair market value of our Common Stock on future dates, actual performance measured against performance goals and decisions made by the participants. Consequently, it is not possible to determine the benefits that might be received by participants under the 2008 Plan.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This section discusses the principles underlying our executive compensation policies and decisions and the most important factors relevant to an analysis of those policies and decisions. It provides qualitative information regarding the manner and context in which compensation is awarded to and earned by our executive officers and places in perspective the detailed information presented in the tables below under the heading Compensation Paid to Executive Officers. The tables that you find in this Proxy Statement contain specific information about the compensation earned or paid in 2007 to the following individuals, whom we also refer to as our named executive officers:

Steve Zhang, President and Chief Executive Officer

Eileen Chu, Vice President and Chief Financial Officer

Yinhu Zhang, Vice President and General Manager of Human Resources and Administration

Jian Qi, President and Chief Executive Officer - Lenovo-AsiaInfo Division

Feng Liu, Vice President and General Manager of Research and Development - AsiaInfo Technologies Division

Overview of Compensation Program

The Compensation Committee of our Board (the Compensation Committee) has responsibility for establishing, implementing and continually monitoring adherence with our compensation philosophy and objectives. The Compensation Committee is responsible for ensuring that the total compensation paid to our executive officers is fair, reasonable and competitive. Our compensation decisions with respect to executive officer salaries, annual incentives and long-term incentive opportunities are influenced by (a) the officer's level of responsibility and function within our Company; (b) the overall financial performance of our Company and, in some cases, the officer's business unit; and (c) our assessment of the competitive marketplace, including other peer companies.

Compensation Philosophy and Objectives

All of our compensation programs, including our executive compensation programs, are designed to attract and retain key employees in the highly competitive information technology software and services marketplace in China. Our executive compensation programs are also designed to motivate our executives to achieve and reward them for superior performance in attaining corporate and individual objectives that create stockholder value. Different programs, including both cash and stock-based compensation, are geared toward short and long-term performance, respectively, with the goal of aligning employee interests with stockholder interests and increasing stockholder value over the long term. Executive compensation programs impact all employees by setting general levels of compensation and creating an environment of goals, reward and expectations. Finally, we endeavor to ensure that our compensation programs are viewed as fundamentally fair to our stockholders.

Compensation Programs and Process

Elements of compensation for our named executive officers include base salary, non-equity incentive plan compensation, long-term equity incentive rewards, health, disability and life insurance and certain other perquisites. We use salary as the base amount necessary to match our competitors for executive talent. We utilize cash incentive payments to reward performance achievements over the course of a one-year horizon and we use equity incentive awards to reward long-term performance, with excellent corporate performance and extended tenure producing potentially significant value for our named executive officers. We believe that this combination of programs provides an appropriate mix of fixed and variable pay, balances short-term operational performance with long-term stockholder value, and encourages executive recruitment and retention.

Table of Contents

The Compensation Committee is responsible for establishing, implementing and monitoring the compensation of our named executive officers. The Compensation Committee meets outside the presence of all executive officers, including the named executive officers, to consider appropriate compensation for our Chief Executive Officer, or CEO. The Compensation Committee conducts its analysis with input from our Human Resources department, or HR, which receives comparative salary data generated from participation in annual benchmarking compensation surveys, or the Salary Surveys, administered by Mercer Human Resource Consulting LLC (Mercer) and Taihe Business Management Consulting Co. Ltd. (Taihe) (each of which are independent consulting firms).

When making compensation decisions, the Compensation Committee analyzes the dollar amount of each component of the executive officer's compensation, including current cash compensation (base salary and non-equity plan incentive compensation), long-term equity incentive program compensation, and any other compensation. In its most recent review, the Compensation Committee determined that annual compensation amounts for our CEO and the other named executives remained consistent with the Compensation Committee's expectations. It has also been decided that the compensation mix for our executives will be reviewed periodically and adjusted on a going-forward basis.

Steve Zhang, our CEO, is responsible for conducting an annual review of each other named executive officer's performance and recommending the appropriate base salary and other forms of compensation for such officer to the Compensation Committee. Mr. Zhang receives base salary recommendations from our HR department based on the Salary Surveys described above. In addition, Mr. Zhang recommends annual performance milestones for each other named executive officer for the purpose of determining annual non-equity incentive compensation. Finally, Mr. Zhang recommends to the Compensation Committee the number of equity awards to be granted to each other named executive officer as long-term equity compensation.

Mr. Zhang's base salary is set by our Compensation Committee, which analyzes the Salary Surveys to ensure that his pay is competitive. Our Compensation Committee also determines Mr. Zhang's equity and non-equity incentive compensation based on corporate performance milestones which are set by the Compensation Committee. Finally, the Compensation Committee grants long-term equity awards to Mr. Zhang and considers Mr. Zhang's recommendations for long term equity awards to other named executive officers.

Except as set forth below, our Compensation Committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid out compensation, or between cash and non-cash compensation. However, our philosophy is to pay our executive officers competitive levels of compensation that best reflect their individual responsibilities and contributions to our Company. In general, we typically make a greater percentage of an employee's compensation performance-based as he or she becomes more senior. We attempt to keep cash compensation to the minimum competitive level while providing the opportunity to be well rewarded through equity if the Company performs well over time.

We choose to pay each element of compensation in order to attract and retain necessary talent, reward annual performance (on an individual, business unit and enterprise-wide basis) and provide incentives for achieving long-term strategic goals as well as short-term objectives. The amount of each element of compensation is determined by our Compensation Committee in consultation with our CEO with respect to the other named executive officers, and, with respect to the CEO, by our Compensation Committee. Compensation decisions for all named executive officers take into account the following factors:

Performance against corporate and individual objectives for the previous year;

Value of skills and capabilities to support our long-term performance;

Performance of general management responsibilities; and

Contribution as a member of our executive management team.

Table of Contents*Base Salary*

Base salary levels for our named executive officers are intended to compensate executives competitively within the information technology marketplace in China. Base salary rewards core competence in an executive role relative to an officer's skills, experience and contributions to our Company. Base salaries are determined on an individual basis by evaluating each executive officer's scope of responsibility, past performance, and data on prevailing compensation levels in an appropriate market comparison group. Each year our Human Resources department participates in two salary surveys, which collect compensation data, including base salary statistics, from peer companies in the IT, software and telecommunications industries. The survey conducted by Taihe covers Chinese companies in the IT industry (including, for example, Lenovo, Yahoo China, Digital China, Sohu, Sina, Tom Online, UT Starcom, Datang Mobile, ZTE Corporation and TCL), while the participants in the Mercer survey are primarily foreign-owned (and include, for example, BEA, Cisco Systems, EMC Beijing, HP Beijing, IBM Beijing, Motorola Beijing, NCR Beijing and Microsoft Beijing). We generally receive results from the Salary Surveys during the second quarter of each year and begin to analyze base salary adjustments at that time. Assuming that a named executive officer has achieved satisfactory individual performance, our general approach is to compensate named executive officers at or near (a) the 50th percentile of salaries of executives with similar roles at comparable companies that participate in the Mercer Salary Survey, and (b) the 80th or 90th percentile of salaries of executives with similar roles at comparable companies that participate in the Taihe Salary Survey. We use a lower percentile benchmark when analyzing the Mercer Salary Survey because the base salaries paid to executives at foreign-owned companies are substantially higher than those paid to their counterparts at Chinese-owned companies. We believe that these percentile benchmarks for base salaries, in combination with the other elements of compensation discussed below, provide the minimum cash compensation level that would allow us to attract and retain talented officers. We believe that, given the industry in which we operate and the corporate culture that we have created, base compensation at this level is sufficient to retain our existing named executive officers and to hire new executive officers when and as required.

After considering job performance and marketplace competitiveness, the base salaries of most of our named executive officers for 2007 were unchanged from those in effect at the end of fiscal year 2006. The salary levels fixed in 2007 for our named executive officers are reflected in the Summary Compensation Table below. We believe that the base salary paid to our named executive officers during 2007 achieves our objectives, compares favorably to our peer group and is within our target of providing a base salary at the market median (with respect to international competitors) and at the higher range of the market with respect to our Chinese competitors.

Non-Equity Plan Incentive Compensation

In 2007 we adopted various non-equity incentive compensation plans, also referred to as the ICPs, which are designed to reward our named executive officers with an opportunity to earn annual cash bonuses based on both the Company's achievement of certain pre-established performance goals as well as the performance of the individual named executive officer's functional business unit or department, as the case may be. We anticipate that we will establish such ICPs on an annual basis for the succeeding year. The goals for our Company-wide and individual measures are established so that target attainment is not assured under any ICP. The attainment of payment for performance at target or above requires significant effort on the part of our executives. Details on how payments were calculated under these plans in 2007 for our named executive officers are set forth below. While we do not target annual bonus opportunities at any particular percentage of total compensation, we target bonuses for most of our named executive officers at 25% of base salary.

The Compensation Committee determined, with input from our HR department, to base our CEO's incentive compensation on our Company's achievement of Board-established targets for net revenue and operating profits. These financial goals were set by our Board in January, 2007. The Compensation Committee believes that net revenues are an appropriate measure of our Company's overall growth while operating profit is a valid indicator of cost-effectiveness. Both of these elements are weighted equally in determining Mr. Zhang's incentive compensation for 2007. We first determine our Company's percentage achievement for each financial target and

Table of Contents

then multiply the aggregate achievement percentage by Mr. Zhang's target incentive compensation, which, for 2007, is equal to 25% of his base salary. No incentive compensation is payable to Mr. Zhang if the aggregate achievement percentage for these two performance goals falls below 75%.

Our named executive officers, other than our CEO, received non-equity plan incentive compensation awards pursuant to the following ICPs, each of which was established in January of 2007:

The 2007 Employee Incentive Plan of AsiaInfo's Functional Departments, or the 2007 EIP, governs non-equity incentive compensation for our Chief Financial Officer (Eileen Chu) and our Vice President and General Manager of HR & Administration (Yinhu Zhang). Awards under the 2007 EIP are payable based on the following equally-weighted factors: (i) the Company's achievement of targets for net income (30%) and operating profits (20%), which goals were set by our Board in January 2007, and (ii) the applicable functional department's satisfaction of certain performance measures which were established by our CEO in early 2007. These non-financial objectives may change from year to year as our business and departmental priorities evolve. Our CEO determined all incentive compensation payable under the 2007 EIP to Ms. Chu and Mr. Yinhu Zhang. In order to determine incentive compensation payable under the 2007 EIP, the target realization bonus for all employees of an individual functional department, which equals 25% of such employees' aggregate base salaries, is multiplied by that department's aggregate achievement percentage of all of its goals. No incentive compensation is payable to any member of a functional department if the department's overall achievement percentage is below 75%. Achievement percentages are calculated based on the overall achievement of our Company's net income and operating profit targets, as well as the achievement of comparable targets within the employee's department. The bonus pool allocable to a department is then further allocated among individual employees by the head of each department, and our CEO determines the amount allocable to each individual department head.

The 2007 AsiaInfo Performance Incentive Plan (Non-Sales), or the 2007 PIP, establishes the incentive pay components for one of our named executive officers, Liu Feng. Under the 2007 PIP, various business unit and functional heads are awarded incentive cash compensation based upon (i) a 20% weighting accorded to the Company's achievement of certain net income and marginal profit targets, which goals were set by our Board in January 2007 and (ii) an 80% weighting accorded to the achievement of certain performance goals, which are, in the case of the Research and Development (R&D) Department, largely measured by contribution to various business units. The contribution of the R&D Department to the four customer-focused business units within our AsiaInfo Technologies division (China Mobile, China Unicom, China Telecom and China Netcom) is, in turn measured by considering the achievement of performance goals by those units in combination with the percentage of R&D cost allocable to those business units. Because our R&D Department plays such a critical role in supporting these units, we believe that it is appropriate, in large part, to align incentive compensation for the R&D Department by looking at a combination of the success of each business unit that it contributes to and the amount of resources it devotes to that business unit. A bonus pool for the R&D Department is established by multiplying the overall achievement percentage of the department by a target incentive pool equal to 25% of all R&D employees' base salaries, in the aggregate. No bonuses are payable if the R&D department's achievement percentage is less than 75%. The resulting bonus pool allocable to the R&D Department is distributed to individual employees by the head of R&D, Mr. Feng. Our CEO determines the incentive compensation payable to Mr. Feng.

The 2007 Lenovo Security Appraisal and Incentive Plan, or the 2007 Lenovo Security Plan, governs the incentive awards payable to certain executives, including Jian Qi, the President and Chief Executive Officer of our Lenovo-AsiaInfo division. Under the 2007 Lenovo Security Plan, Mr. Qi received incentive payments based on three performance tests for the division, including net revenue, contribution profit of our Lenovo-AsiaInfo division, and days sales outstanding, with each target set by our Board in January 2007. While most of our other named executive officers have duties and responsibilities relating to all of AsiaInfo's operations, Mr. Qi's efforts are focused on our Lenovo-AsiaInfo division, and therefore we believe it is appropriate to base his bonus opportunities on

Table of Contents

performance goals relating to the results of that division. Mr. Qi's target incentive compensation is approximately 43% of his base salary, and his bonus is derived by multiplying that target incentive figure by the overall achievement percentage for the Lenovo-AsiaInfo division for the three performance targets described above. Mr. Qi's target incentive compensation reflects our policy of making incentive compensation a higher proportion of the total compensation package with respect to employees who head business divisions, as compared to employees who head functional departments.

All of our employees, including the named executive officers, are eligible to participate in the 2007 Profit Sharing Plan, or the 2007 PSP. The 2007 PSP is designed to allow non-sales employees to share in the profits generated by the business units within the telecommunications division, as well as our training center, AsiaInfo Academy. To the extent that each of these units achieves its annual net income target, the excess difference between the actual marginal profit and the target profit of that business unit is divided between AsiaInfo Technologies and the business unit on a 70/30 basis. Upon approval of the Compensation Committee, ten percent of each business unit's profit allocation is awarded to our CEO. The remainder of each business unit's profit allocation is divided between that business unit (75%) for further distribution among its employees and AsiaInfo (25%) for separate, company-wide distribution by our CEO.

Long-Term Equity Incentive Program

We believe that long-term performance is achieved through an ownership culture that encourages such performance by our executive officers through the use of stock and stock-based awards. Our equity compensation plans have been established and implemented to provide certain of our employees, including our named executive officers, with incentives to help align those employees' interests with those of our stockholders. The Compensation Committee believes that this use of equity awards offers the best approach to achieving our compensation goals. We have not adopted stock ownership guidelines and our equity compensation plans have historically provided the principal method for our executive officers to acquire equity interests in our Company.

Before 2005, we generally provided long-term equity incentives to our named executive officers, and to other employees, through the grant of stock options under our stock option plans. Stock options were generally granted at an exercise price equal to 100% of the fair market value of our Common Stock on the date of grant, with a ten-year term and generally subject to a four-year vesting period. Stock options were generally granted to our named executive officers upon their acceptance of employment with AsiaInfo. In addition, the Compensation Committee generally granted stock options to our named executive officers at the beginning of each fiscal year, based on long term strategic and performance objectives and each executive officer's anticipated contributions to AsiaInfo's future performance. When determining the number of stock options to be awarded to an executive officer, the Compensation Committee considered the executive officer's current contribution to AsiaInfo's performance; the executive officer's anticipated contribution in meeting AsiaInfo's long-term strategic performance goals, and comparisons to formal and informal surveys of executive stock option grants made by similarly-situated information technology companies in China. Effective on October 24, 2005, the Compensation Committee approved the acceleration of vesting of approximately 2.2 million unvested stock options previously awarded to employees under AsiaInfo's 2000 Stock Option Plan and 2002 Stock Option Plan. The primary purpose of the accelerated vesting was to enable the Company to avoid recognizing future compensation expense associated with the adoption of FASB Statement No. 123R, Share-Based Payment, (SFAS 123R) in 2006.

At AsiaInfo's Annual Meeting of stockholders on April 21, 2005, the AsiaInfo Holdings, Inc. 2005 Stock Incentive Plan, or the 2005 Incentive Plan, was approved and ratified. The purpose of the 2005 Incentive Plan, which is administered by the Compensation Committee, is to enhance long-term stockholder value by offering opportunities to employees, directors, officers, consultants, agents, advisors and independent contractors of our Company and subsidiaries to participate in our Company's growth and success, and to encourage them to remain in the service of our Company and our subsidiaries and to acquire and maintain stock ownership in our Company. Pursuant to the 2005 Incentive Plan, the Compensation Committee, as the plan administrator, has discretion over whether and to whom to grant awards. In 2005, we began to implement a policy of granting restricted stock units, instead of stock options, to our directors, officers and employees.

Table of Contents

On November 20, 2006, the Compensation Committee approved grants of performance-based restricted stock units, or PSUs, to key employees, managers and executive officers under the Incentive Plan. PSUs vest based on, and are allocated among, five different performance goals, and are, in some cases, also subject to certain holding periods. For a description of the vesting criteria of the PSUs, please see the discussion below accompanying the Grant of Plan-Based Awards Table.

The purpose of PSUs is to create a direct and transparent link between compensation and management achievement of specific business performance targets. PSUs also serve to align the interests of our executives with those of our stockholders. Finally, the vesting of PSUs based on continued employment is designed to facilitate retention.

The value of the PSUs granted to our named executive officers during 2007 is reflected in the Summary Compensation Table below, and further information about these grants is reflected in the 2006 Grants of Plan-Based Awards table below. Parts of the PSUs granted to named executive officers during 2007 have vested following the achievement of some business performance targets during 2007.

Pension Plan

For the benefit of our small number of employees who are citizens or lawful permanent residents of the United States, AsiaInfo has adopted a Simplified Employee Pension Plan, or the Pension Plan. The Pension Plan covers employees who have worked at AsiaInfo for at least six months. We make monthly contributions under the Pension Plan in an amount equal to 5% of each covered employee's monthly salary. The contributions are tax deductible by AsiaInfo and are not taxable to the employees. Withdrawals are taxable as ordinary income, and withdrawals before age 59 1/2 may be subject to tax penalties.

In 2007, our Company contributed approximately \$15,468.60 to the accounts of all employees covered by the Pension Plan. With respect to the named executive officers, we contributed approximately \$8,168.67 on behalf of Steve Zhang.

Other Compensation

AsiaInfo's named executive officers are also eligible to participate in benefits programs generally available to other employees, such as medical, dental, vision, group life, disability, and accidental death and dismemberment insurance. Other benefits provided to certain executive officers during 2007 include housing allowances, educational allowances for children, and home-visit allowances.

As part of our compensation program, AsiaInfo has entered into agreements with, Steve Zhang, Eileen Chu and Jian Qi pursuant to which they may be entitled to receive severance benefits upon the occurrence of certain enumerated events following a change in control. The events that trigger payment are generally those related to termination of employment without cause or detrimental changes to the executive's terms and conditions of employment. See Potential Payment Upon Termination or Change in Control below for a more detailed description. AsiaInfo believes that this structure will help (i) assure the executive's full attention and dedication to the Company, free from distractions caused by personal uncertainties and risks related to a pending or threatened change in control; (ii) assure the executive's objectivity in fulfilling the interests of stockholders; (iii) assure the executives of fair treatment in case of involuntary termination following a change in control; and (iv) maintain our ability to attract and retain key talent during uncertain times.

Tax and Accounting Implications

Policy Regarding Section 162(m) of the Internal Revenue Code

Section 162(m) of the Internal Revenue Code (the Code) generally disallows a tax deduction to public companies for compensation in excess of \$1 million paid to a company s chief executive officer, chief financial

Table of Contents

officer or any of the three most highly compensated executive officers. Certain performance-based compensation, however, is exempt from the deduction limit. The Compensation Committee has considered the potential impact of Section 162(m) of the Code on the compensation paid to AsiaInfo's executive officers. It is the Compensation Committee's intention that, so long as it is consistent with its overall compensation objectives and philosophy, executive compensation will be deductible for federal income tax purposes. Awards issued under AsiaInfo's stock incentive plans (including stock options, restricted stock units and performance stock units) have been structured so that any taxable compensation derived pursuant to the exercise of options granted under such plans should not be subject to these deductibility limitations.

Accounting for Stock-Based Compensation

Beginning on January 1, 2006, AsiaInfo began accounting for stock-based payments, including pursuant to its Incentive Plan, in accordance with the requirements of FAS 123(R), which requires us to estimate and record an expense over the service period of the award.

Table of Contents**Grants of Plan-Based Awards Table**

The Compensation Committee approved PSU grants under our Incentive Plan to certain of our named executive officers in 2007. Set forth below is information regarding Incentive Plan-based awards granted during 2007:

Name	Grant Date	Estimated Future Payouts Under Equity Incentive Plan Awards		
		Threshold (#) ⁽¹⁾	Target (#) ⁽¹⁾	Maximum (#)
Steve Zhang	11/20/2006			300,000
Eileen Chu	11/23/2006			53,000
Yinhu Zhang	11/20/2006			48,000
Jian Qi	11/20/2006			50,000
Feng Liu	11/20/2006			60,000

⁽¹⁾ There are no target or threshold PSU grants. As described below, the vesting of different numbers of PSU shares is associated with different performance goals. If a performance goal is met, there is full vesting of the PSU shares associated with the grant. If a performance goal is not met, then the PSU shares allocable to that performance goal lapse entirely. In other words, the PSU shares associated with each performance goal either vest fully or not at all. Varying numbers of PSU shares will vest if some of the performance goals are met and some are not.

Each PSU granted is accompanied by a stock award agreement which specifies the number of shares granted and the milestones for vesting of the PSUs. A complete copy of our standard PSU award agreement is filed as an exhibit to our Current Report on Form 8-K dated November 28, 2006. For the complete terms of the PSU awards, please refer to that filing.

PSUs do not vest unless the named executive officer is an employee on the vesting date. Different percentages of the PSUs granted to named executive officers vest based upon the attainment of five different performance goals and, in some cases, the passage of time. The five different performance goals, and the relative weighting applicable to each goal, are as follows:

30% of the PSU grant vests based on our level of Annual EBIT and Annual Net Revenue Growth during each of three-12-month period commencing on July 1, 2006, July 1, 2007 and July 1, 2008. Annual EBIT is defined as our earnings before interest and taxes, and Annual Net Revenue Growth is the percentage increase in our net revenue (meaning our revenue net of hardware costs), for each 12-month period against the immediately preceding 12-month period.

22.5% of the PSU grant vests if the average closing price per share of our Common Stock during any continuous thirty-day period occurring between July 1, 2006 and June 30, 2009 reaches certain thresholds.

22.5% of each PSU grant vests based on our New Business Revenue Percentage during the period commencing on July 1, 2006 and ending on June 30, 2009. New Business Revenue Percentage means, for such period, our net revenue attributable to (i) new business models in the PRC telecommunications market, and (ii) sales of products or services to customers outside of the telecommunications market or outside of the PRC, expressed as a percentage of our total net revenue attributable to our AsiaInfo Technologies division.

12.5% of each PSU grant vests based on the average closing price per share of our Common Stock during any continuous fifty-day period occurring between July 1, 2006 and June 30, 2010. If the average closing price equals or exceeds \$12.00 per share for such period, all of the PSUs allocated to this performance goal shall vest, but the earliest possible vesting date is March 31, 2009.

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

12.5% of each PSU grant vests based on Annual EBIT as measured for each of three 12-month periods commencing on July 1, 2006, July 1, 2007 and July 1, 2008. All of the PSUs allocated to this performance goal shall vest on the last date of the first such 12-month period (if any) when Annual EBIT equals or exceeds \$12,000,000.

As of the date of this proxy statement, some PSUs granted during 2006 have vested. Please see the discussion below accompanying the Outstanding Equity Awards at Fiscal Year-End Table .

Table of Contents**Outstanding Equity Awards at Fiscal Year-End Table**

The following table sets forth certain information with respect to the named executive officers regarding options, restricted stock and equity incentive plan awards for each named executive officer outstanding as of December 31, 2007.

As discussed above, beginning in 2005, we began issuing restricted stock units, instead of stock options, to our directors, officers and employees. These restricted stock units, which are set forth in the column **Number of Shares or Units of Stock That Have Not Vested**, are subject to time-based vesting requirements which are further detailed in footnote 2 to the table. In 2006, instead of granting restricted stock awards that vest over time, our Compensation Committee approved grants of PSUs which vest depending on the attainment of certain performance goals as well as, in certain cases, minimum time periods. These PSU grants are set forth in the column entitled **Equity Incentive Plan Awards: Number of Unearned Shares, Units or Other Rights That Have Not Vested**. The vesting criteria for these PSUs are summarized in footnote 4 below and discussed in detail under **Grants of Plan-Based Awards Table** above.

- (4) Each PSU grant vests in varying percentages allocated among five different performance goals. See the discussion accompanying Grants of Plan-Based Awards table for more information on the vesting of these PSUs.

Feng Liu	19,500	69,000	15,500	145,460

- (1) Reflects shares received pursuant restricted stock units granted under AsiaInfo Holdings, Inc.'s 2005 Stock Incentive Plan.

On October 24, 2005, the Compensation Committee of the Board approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of the Board under AsiaInfo's 2000 Stock Option Plan and 2002 Stock Option Plan. Options held by members of the Compensation Committee were excluded from the acceleration. The effective date of the acceleration was October 25, 2005.

As a condition of the acceleration, and to avoid any unintended personal benefits, AsiaInfo also imposed a holding period on shares underlying the accelerated options that requires all optionees to refrain from selling any shares acquired upon the exercise of the options until the date on which such shares would have vested under the options' original vesting terms.

Potential Payments Upon Termination or Change of Control

On April 1, 2004, we entered into change-of-control severance agreements with Steve Zhang and Jian Qi and on January 1, 2007, we entered into a change-of-control severance agreement with Eileen Chu. Each of these agreements provides, among other things, that the named executive

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

officer shall be entitled to various benefits upon the occurrence of a covered termination (as defined therein) within one year of a change of control (as defined therein), including salary and a proportionate bonus through the date of termination, payment of an additional one year of base salary and bonus, immediate vesting of 50% of any outstanding unvested stock options held by the named executive officer, the right to exercise all vested options for a period of 18 months

Table of Contents

following termination, and provision of medical benefits and housing allowance for one year and six months, respectively, following termination. In the event of a change of control which does not result in termination of employment and in which the officer's stock options are neither assumed nor replaced, the named executive officer is entitled to immediate vesting of 50% of any outstanding unvested options. If a triggering event had occurred on December 31, 2007, Mr. Zhang, Ms. Chu and Mr. Qi would have been entitled to receive cash payments of approximately \$218,900, \$127,400 and \$113,700, respectively.

AsiaInfo has a long-standing severance policy for departing members of AsiaInfo's senior management. In the event that AsiaInfo terminates an employee at the vice president level or above without cause, the employee will receive severance pay equal to one month's base salary for each year he or she has been employed by AsiaInfo, or six month's base salary, whichever is greater.

Periodically, the Compensation Committee analyzes and assesses all of the termination and change-in-control arrangements to determine whether they are necessary and appropriate under AsiaInfo's current circumstances and given the circumstances of each individual named executive officers.

Pension Benefits

None of our named executive officers participate in or have account balances in qualified or non-qualified defined benefit plans sponsored by us.

Nonqualified Deferred Compensation

None of our named executive officers participate in or have account balances in non-qualified defined contribution plans or other deferred compensation plans maintained by us.

DIRECTOR COMPENSATION

AsiaInfo uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on the Board. In setting director compensation, the Company considers the significant amount of time that Directors expend in fulfilling their duties to the Company as well as the skill level required by the Company of its Board members.

In 2007, each non-executive director was paid an annual retainer of \$15,000 and an additional fee of \$1,000 for each Board meeting attended in person or by teleconference. The chairman of the Audit Committee was paid an additional annual fee of \$5,000 and each member of the Audit Committee was paid a fee of \$1,000 for each Audit Committee meeting attended in person or by teleconference. In addition to these fees, the Company reimburses directors and committee members for reasonable and actual out-of-pocket travel expenses incurred when attending Board or committee meetings. Members of the Board who are also executives of the Company did not receive any compensation for their services as directors.

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

Prior to 2005, AsiaInfo granted stock options to all of its non-executive directors (except for Tom Manning and Anders Cheung, both of whom received restricted stock units as described below), beginning with an initial grant of 20,000 options to each non-executive director, vesting over four years on an annual schedule of 25% per year. During the last two years of the vesting schedule, the options vested on a quarterly basis. In the past, the Company typically granted new options to its non-executive directors as their options vested, so that each non-executive director would always maintain 20,000 unvested options. On October 24, 2005, the Compensation Committee approved the acceleration of vesting of approximately 2.1 million unvested stock options previously awarded to employees, officers and members of the Board under AsiaInfo's 2000 Stock Option Plan and 2002

Table of Contents

Stock Option Plan. Options held by members of the Compensation Committee were excluded from the acceleration. The primary purpose of the accelerated vesting was to enable the Company to avoid recognizing future compensation expense associated with the accelerated stock options upon the planned adoption of FAS 123(R) in 2006.

Beginning in 2005, AsiaInfo began to implement a policy of granting restricted stock units, instead of stock options, to all of its non-executive directors pursuant to the AsiaInfo 2005 Stock Incentive Plan. These awards began with an initial grant of 5,000 stock units to each non-executive director, vesting over four years on an annual schedule of 25% per year. AsiaInfo has granted, and may grant, new restricted stock units to the non-executive directors as their restricted stock vests in each year, so that each non-executive director will always maintain 5,000 unvested stock units.

AUDIT COMMITTEE REPORT

The Audit Committee reviews the Company's financial reporting process on behalf of the Board and is responsible for the retention of the Company's independent registered public accounting firm. Management has the primary responsibility for the financial statements and the reporting process and for maintaining effective internal control over financial reporting. The Company's independent registered public accounting firm is responsible for expressing an opinion on (1) the conformity of our consolidated financial statements to accounting principles generally accepted in the United States of America, and (2) the effectiveness of our internal control over financial reporting. The Audit Committee currently consists of Messrs. Yungang Lu (Chair), Tao Long and Davin A. Mackenzie, all independent directors, as defined in the listing standards for the NASDAQ Stock Market and applicable SEC rules.

The Audit Committee has reviewed and discussed the audited financial statements for the fiscal year ended December 31, 2007 and the effectiveness of internal control over financial reporting as of December 31, 2007 with our management, has discussed with our independent registered public accounting firm on the matters required to be discussed by Statement on Auditing Standards No. 114, (The Auditor's Communication with Those Charged with Governance), has received the written disclosures required by Independence Standards Board No. 1 (Independence Discussions with Audit Committees), and has discussed with our independent registered public accounting firm its independence. The Audit Committee has also considered whether the provision of non-audit services by our independent registered public accounting firm is compatible with maintaining its independence. The Board adopted a written charter of the Audit Committee in November 1999. The Board adopted amendments to the charter in March 2003 and in January 2004.

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

established a policy to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm.

Prior to the engagement of an independent registered public accounting firm for the next year's audit, management submits an aggregate of services expected to be rendered by the independent registered public accounting firm during that year to the Audit Committee for approval, along with the anticipated fees for those services. Management's report to the Audit Committee categorizes all anticipated fees into one of the following four classifications:

Audit services include fees for audit work performed on the Company's (1) consolidated financial statements and (2) internal control over financial reporting, as well as work that generally only the

Table of Contents

independent registered public accounting firm can reasonably be expected to provide, including review of quarterly condensed consolidated financial information, comfort letters, statutory audits, and other attestation services.

Audit-related services include fees for assurance and related services that are traditionally performed by the independent registered public accounting firm, including due diligence related to mergers and acquisitions and special procedures required to meet certain regulatory requirements. The Company has not incurred such costs for the past 2 fiscal years.

Tax services include fees for all services permitted to be performed by the independent registered public accounting firm's tax personnel except those services specifically related to the audits of the financial statements and internal control over financial reporting or are prohibited under the rules of the SEC and the Public Company Accounting Oversight Board. Tax service fees include fees in the areas of corporate tax compliance, tax planning, and tax advice.

Other Fees include fees associated with services not captured in the other categories. The Company generally does not request such services from the independent registered public accounting firm.

Prior to engagement, the Audit Committee must pre-approve these services. The fees are budgeted and the Audit Committee requires the independent registered public accounting firm and management to report actual fees versus the budget periodically throughout the year. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval. In those instances, the Audit Committee requires specific pre-approval before engaging the independent registered public accounting firm.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

In 2007, the Audit Committee pre-approved all services provided by our independent registered public accounting firm.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements for the fiscal year ended December 31, 2007 be included in the Company's Annual Report on Form 10-K.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

We have established procedures for identifying related parties and related party transactions, and for ensuring that any changes in the status of related parties are brought to the attention of relevant departments within our Company in a timely manner. For transactions with related parties in the ordinary course of business, such as customer sales, supply purchases, subcontracting or consulting services, we apply the same review and approval process as we would in the context of other commercial agreements. All such transactions with related parties are summarized and provided to the legal department for disclosure purposes. For transactions with related parties outside the ordinary course of business, such as significant capital expenditure, capital raising activities and mergers and acquisitions, the transactions must be approved by the Chief Executive Officer or Chief Financial Officer, and in most cases the Audit Committee of the Board of Directors.

Table of Contents**Transactions with Lenovo Group Limited and its Affiliates**

As previously reported in our Form 8-K filed on October 25, 2004, we closed our acquisition of the non-telecommunications related information technology services business of Lenovo Group Limited (Lenovo) on October 19, 2004. As part of the consideration for the assets we acquired from Lenovo, our subsidiary, Bonson Information Technology Limited (Bonson) entered into a forward contract with a subsidiary of Lenovo under which Bonson was obligated to deliver shares of our Common Stock having a market value of approximately \$27.1 million on the settlement date. The settlement date was required to occur, at our discretion, at any time during the twelve-month period following the closing. The forward contract limited Bonson's obligation to deliver no more than 4,498,130 shares of our Common Stock, and provided that if the market value of 4,498,130 shares was less than \$27.1 million on the settlement date, Bonson would have the option of paying cash or delivering additional shares of our Common Stock in order to cover the difference. On July 1, 2005, we settled the forward contract by delivering from treasury stock 4,498,130 shares of our Common Stock, with a fair value of approximately \$25,189,000 and a cost of \$23,255,000 and paying cash in the amount of \$2,024,000 to Lenovo. Lenovo owned approximately 4,044,827 of our outstanding Common Stock, as of December 31, 2007.

Agreements regarding ownership structure of the systems integration business involving state secrets

In connection with the closing of our acquisition of Lenovo's IT services business, we and Lenovo entered into a supplement to the acquisition agreement as of October 1, 2004, which sets forth certain supplemental understandings and agreements regarding the structure of the acquisition and other terms and conditions. Among other things, the supplement sets forth the structure of the acquisition of the part of Lenovo's IT services business that constitutes systems integration involving state secrets under relevant PRC law. Under the supplement, the parties agreed that Legend Holdings Limited (Legend Holdings), the parent of Lenovo Group, would establish a subsidiary in China, Lenovo Security Technologies (Beijing) Inc. (Lenovo Security). At the time Lenovo Security was established, Legend Holdings owned 51% of the equity interest in Lenovo Security, and two PRC citizens, Mr. Bing Yu, a former member of our Board, and Ms. Zheng Wang, one of our employees, held the remaining equity interest. The purpose of Lenovo Security is to obtain the necessary licenses and qualifications for the systems integration businesses involving state secrets, after which Lenovo Security will be transferred to us (unless it has been transferred earlier, under certain circumstances). Through our wholly-owned subsidiary, Lenovo-AsiaInfo Technologies, Inc. (Lenovo-AsiaInfo) we have entered into a series of contractual arrangements with Lenovo Security and its shareholders under which we enjoy effective control of Lenovo Security and economic benefits substantially similar to equity ownership of Lenovo Security.

The supplement to the acquisition agreement also provides that during the transition period from the date of closing the acquisition to the earlier of (1) the date when Lenovo Security has received the Information System Integration Qualification from the MII (which is a prerequisite for the operation of the systems integration businesses involving state secrets) and (2) the date when Lenovo-AsiaInfo acquires all of Legend Holdings equity interest in Lenovo Security pursuant to the terms of the equity transfer arrangement agreements described below, we will operate the system integration businesses involving state secrets through Lenovo Computer System and Technology Services Co., Limited. (Lenovo Computer). Lenovo Computer is owned by two subsidiaries of Lenovo: Lenovo Manufacturing Limited, or Lenovo Manufacturing, and Lenovo Beijing Limited, or Lenovo Beijing. We have entered into similar contractual arrangements with Lenovo Computer, Lenovo Manufacturing and Lenovo Beijing to operate and control Lenovo Computer during this transitional period, and to receive economic benefits substantially similar to equity ownership in Lenovo Computer.

As previously reported in our Form 8-K filed on January 4, 2006, Mr. Bing Yu resigned as an officer and director of AsiaInfo and its subsidiaries as of January 3, 2006. Prior to his resignation, Mr. Yu was the registered holder of 25% of the equity interest in Lenovo Security. In connection with his resignation, Mr. Yu entered into a Frame Contract dated January 3, 2006 with Mr. James Ding, our Board Chairman and former Chief Executive Officer. The Frame Contract sets forth a legal structure whereby Mr. Yu transferred his equity interest in Lenovo Security to Mr. Ding pursuant to an Equity Interest Transfer Agreement. Mr. Yu had originally borrowed RMB 6,000,000

Table of Contents

from Lenovo-AsiaInfo for the purpose of establishing Lenovo Security. This loan obligation was also transferred to Mr. Ding in accordance with the Frame Contract. Mr. Ding entered into a series of agreements with Lenovo-AsiaInfo on January 3, 2006, including the Loan Agreement, Power of Attorney, Exclusive Option Agreement and Share Pledge Agreements, all of which were required to effect the replacement of Mr. Yu as an equity owner of Lenovo Security. For detailed information regarding these agreements, please see descriptions of each agreement under the heading "Agreements regarding Lenovo Security" below.

The structure of our contractual arrangements with Lenovo Security and Lenovo Computer was developed in order to comply with the current prohibition under PRC laws and regulations on foreign persons or foreign-invested enterprises from engaging in systems integration businesses involving state secrets, and to comply with certain licensing requirements with respect to such businesses.

For a further description of those laws and regulations, please see the discussion in our annual report on Form 10-K for fiscal year ended December 31, 2007 (the "2007 Form 10-K") in Item 1. Business, under the heading "Governmental Regulation".

For a discussion of certain risks related to those regulations and our contractual arrangements with Lenovo, please see the discussion in our 2007 Form 10-K in Item 1A, "Risk Factors".

The following chart provides an outline of the current structure described above:

The determination of 10% ownership shall be made in accordance with Section 422 of the Code.

8.3 Eligible Employees. Individuals who are not employees of the Company or one of its parent corporations or subsidiary corporations may not be granted Incentive Stock Options. For purposes of this Section 8.3, parent corporation and subsidiary corporation shall have the meanings attributed to those terms for purposes of Section 422 of the Code.

8.4 Term. The term of an Incentive Stock Option shall not exceed 10 years.

8.5 Exercisability. To qualify for Incentive Stock Option tax treatment, an Option designated as an Incentive Stock Option must be exercised within three months after termination of employment for reasons other than death, except that, in the case of termination of employment due to Disability, such Option must be exercised within one year after such termination. Disability shall be deemed to have occurred on the first day after the Company has furnished its opinion of Disability to the Plan Administrator. Employment shall not be deemed to continue beyond the first 90 days of a leave of absence unless the Participant's reemployment rights are guaranteed by statute or contract.

8.6 Taxation of Incentive Stock Options. In order to obtain certain tax benefits afforded to Incentive Stock Options under Section 422 of the Code, the Participant must hold the shares issued upon the exercise of an Incentive Stock Option for two years after the Grant Date of the Incentive Stock Option and one year from the date of exercise. A Participant may be subject to the alternative minimum tax at the time of exercise of an Incentive Stock Option. The Plan Administrator may require a Participant to give the Company prompt notice of any disposition of shares acquired by the exercise of an Incentive Stock Option prior to the expiration of such holding periods.

8.7 Promissory Notes. The amount of any promissory note delivered pursuant to Section 13 in connection with an Incentive Stock Option shall bear interest at a rate specified by the Plan Administrator but in no case less than the rate required to avoid imputation of interest (taking into account any exceptions to the imputed interest rules) for federal income tax purposes.

9. Restricted Stock Awards.

9.1 Grant of Stock Awards. The Plan Administrator is authorized to make Awards of Common Stock or Awards denominated in units of Common Stock on such terms and conditions and subject to such restrictions (which may be based on continuous service with the Company or the achievement of performance goals related to profits or loss, revenue or profit growth or loss reduction, profit or loss related return ratios, other balance sheet or income statement targets or ratios, market share, project completion, operational or productivity efficiency gains, cash flow, share price appreciation or total stockholder return, where such goals may be stated

in absolute terms or relative to comparison companies), as the Plan Administrator shall determine, in its sole discretion, which terms, conditions and restrictions shall be set forth in the instrument evidencing the Award. To the extent an Award subject to performance goals is intended to be exempt under Section 162(m) of the Code, unless otherwise permitted in compliance with Section 162(m) of the Code, the Plan Administrator shall establish the performance goals (and any applicable performance award formula) applicable to the Award no later than the earlier of (a) the date ninety (90) days after the commencement of the applicable performance period or (b) the date on which is twenty five percent (25%) of the performance period has elapsed, and, in any event, at a time when the outcome of the performance goals remains substantially uncertain. The terms, conditions and restrictions that the Plan Administrator shall have the power to determine shall include, without limitation, the manner in which shares subject to Restricted Stock Awards are held during the periods they are subject to restrictions and the circumstances under which forfeiture of the Restricted Stock Award shall occur by reason of termination of the Participant's employment or service relationship.

9.2 Issuance of Shares. Upon the satisfaction of any terms, conditions and restrictions prescribed in respect to a Restricted Stock Award, or upon the Participant's release from any terms, conditions and restrictions of a Restricted Stock Award, as determined by the Plan Administrator, the Company shall release, as soon as practicable, to the Participant or, in the case of the Participant's death, to the personal representative of the Participant's estate or as the appropriate court directs, the appropriate number of shares of Common Stock.

9.3 Waiver of Restrictions. Notwithstanding any other provisions of the Plan, the Plan Administrator may, in its sole discretion, waive the forfeiture period and any other terms, conditions or restrictions on any Restricted Stock Award under such circumstances and subject to such terms and conditions as the Plan Administrator shall deem appropriate; *provided, however*, that the Plan Administrator may not adjust performance goals for any Restricted Stock Award intended to be exempt under Section 162(m) of the Code for the year in which the Restricted Stock Award is settled in such a manner as would increase the amount otherwise payable to a Participant.

10. Assignability.

No Awards granted under the Plan or any interest therein may be assigned, pledged or transferred by the Participant other than by will or by the applicable laws of descent and distribution, and, during the Participant's lifetime, such Award may be exercised only by the Participant or a permitted assignee or transferee of the Participant (as provided below). Notwithstanding the foregoing, and to the extent permitted by Section 422 of the Code, the Plan Administrator, in its sole discretion, may permit such assignment, transfer and exercisability and may permit a Participant to designate a beneficiary who may exercise the Award or receive payment under the Award after the Participant's death; *provided, however*, that any Award so assigned or transferred shall be subject to all the same terms and conditions contained in the instrument evidencing the Award.

11. Adjustments.

11.1 Adjustment of Shares. In the event that, at any time or from time to time, a stock dividend, stock split, spin-off, combination or exchange of shares, recapitalization, merger, consolidation, distribution to stockholders other than a normal cash dividend, or other change in the Company's corporate or capital structure results in (a) the outstanding shares, or any securities exchanged therefor or received in their place, being exchanged for a different number or class of securities of the Company or of any other corporation or (b) new, different or additional securities of the Company or of any other corporation being received by the holders of shares of Common Stock of the Company, then the Plan Administrator shall make proportional adjustments in (i) the maximum number and kind of securities subject to the Plan as set forth in Sections 4.1; (ii) the maximum number and kind of securities that may be made subject to Awards to any individual as set forth in Section 4.2; and (iii) the number and kind of securities that are subject to any outstanding Award and the per share price of such securities, without any change in the aggregate price to be paid therefor. The determination by the Plan Administrator as to the terms of any of the foregoing adjustments shall be conclusive and binding.

APP11-7

Table of Contents**11.2 Corporate Transaction.**

(a) **Options.** Except as otherwise provided in the instrument that evidences the Option, in the event of a Corporate Transaction, the Plan Administrator shall determine whether provision will be made in connection with the Corporate Transaction for an appropriate assumption of the Options theretofore granted under the Plan (which assumption may be effected by means of a payment to each Participant (by the Company or any other person or entity involved in the Corporate Transaction), in exchange for the cancellation of the Options held by such Participant, of the difference between the then Fair Market Value of the aggregate number of shares of Common Stock then subject to such Options and the aggregate exercise price that would have to be paid to acquire such shares) or for substitution of appropriate new options covering stock of a successor corporation to the Company or stock of an affiliate of such successor corporation. If the Plan Administrator determines that such an assumption or substitution will be made, the Plan Administrator shall give notice of such determination to the Participants, and the provisions of such assumption or substitution, and any adjustments made (i) to the number and kind of shares subject to the outstanding Options (or to the options in substitution therefor), (ii) to the exercise prices, and/or (iii) to the terms and conditions of the stock options, shall be binding on the Participants. Any such determination shall be made in the sole discretion of the Plan Administrator and shall be final, conclusive and binding on all Participants. If the Plan Administrator, in its sole discretion, determines that no such assumption or substitution will be made, the Plan Administrator shall give notice of such determination to the Participants, and each Option that is at the time outstanding shall automatically accelerate so that each such Option shall, immediately prior to the specified effective date for the Corporate Transaction, become 100% vested and exercisable. All such Options shall terminate and cease to remain outstanding immediately following the consummation of the Corporate Transaction, except to the extent assumed by the successor corporation or an affiliate thereof.

(b) **Restricted Stock Awards.** Except as otherwise provided in the instrument that evidences the Award, in the event of a Corporate Transaction, the vesting of shares subject to Restricted Stock Awards shall accelerate, and the forfeiture provisions to which such shares are subject shall lapse, if and to the same extent that the vesting of outstanding Options accelerates in connection with the Corporate Transaction. If unvested Options are to be assumed, continued or substituted by a successor corporation without acceleration upon the occurrence of a Corporate Transaction, the forfeiture provisions to which such Restricted Stock Awards are subject will continue with respect to shares of the successor corporation that may be issued in exchange for such shares subject to Restricted Stock Awards.

11.3 Further Adjustment of Awards. Subject to Section 11.2, the Plan Administrator shall have the discretion, exercisable at any time before a sale, merger, consolidation, reorganization, liquidation or change in control of the Company, as defined by the Plan Administrator, to take such further action as it determines to be necessary or advisable, and fair and equitable to Participants, with respect to Awards. Such authorized action may include (but shall not be limited to) establishing, amending or waiving the type, terms, conditions or duration of, or restrictions on, Awards so as to provide for earlier, later, extended or additional time for exercise and other modifications, and the Plan Administrator may take such actions with respect to all Participants, to certain categories of Participants or only to individual Participants. The Plan Administrator may take such action before or after granting Awards to which the action relates and before or after any public announcement with respect to such sale, merger, consolidation, reorganization, liquidation or change in control that is the reason for such action.

11.4 Limitations. The grant of Awards will in no way affect the Company's right to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

11.5 Fractional Shares. In the event of any adjustment in the number of shares covered by any Award, each such Award shall cover only the number of full shares resulting from such adjustment.

12. Withholding.

The Company may require the Participant to pay to the Company the amount of any taxes or social insurance contributions that the Company is required to withhold with respect to the grant, vesting or exercise of any Award. Subject to the Plan and applicable law, the Plan Administrator may, in its sole discretion, permit the Participant to satisfy withholding obligations, in whole or in part, (a) by paying cash, (b) by electing to have the Company withhold shares of Common Stock (up to the minimum required federal withholding rate), or (c) by transferring shares of Common Stock to the Company (already owned by the Participant for the period necessary to avoid a charge to the Company's earnings for financial reporting purposes), in such amounts as are equivalent to the Fair Market Value of the withholding obligation. The Company shall have the right to withhold from any shares of Common Stock issuable pursuant to an Award or from any cash amounts otherwise due or to become due from the Company to the Participant an amount equal to such taxes or social insurance contributions. The Company may also deduct from any Award any other amounts due from the Participant to the Company or a Subsidiary.

13. Loans, Installment Payments and Loan Guarantees.

Subject to compliance with applicable law, to assist a Participant in acquiring shares of Common Stock pursuant to an Award granted under the Plan, the Plan Administrator, in its sole discretion, may authorize, either at the Grant Date or at any time before the acquisition of Common Stock pursuant to the Award, (a) the extension of a full-recourse loan to the Participant by the Company, (b) the payment by the Participant of the purchase price, if any, of the Common Stock in installments, or (c) the guarantee by the Company of a full-recourse loan obtained by the Participant from a third party. Subject to the foregoing, the terms of any loans, installment payments or loan guarantees, including the interest rate and terms of repayment, will be subject to the Plan Administrator's discretion. The maximum credit available is the purchase price, if any, of the Common Stock acquired, plus the maximum federal and state income and employment tax liability that may be incurred in connection with the acquisition.

14. Repurchase Rights; Escrow.

14.1 Repurchase Rights. The Plan Administrator shall have the discretion to authorize the issuance of unvested shares of Common Stock pursuant to the exercise of an Option. In the event of termination of the Participant's employment or services, all shares of Common Stock issued upon exercise of an Option which are unvested at the time of cessation of employment or services shall be subject to repurchase at the exercise price paid for such shares. The terms and conditions upon which such repurchase right shall be exercisable (including the period and procedure for exercise) shall be established by the Plan Administrator and set forth in the agreement evidencing such right.

All of the Company's outstanding repurchase rights under this Section 14.1 are assignable by the Company at any time and shall remain in full force and effect in the event of a Corporate Transaction; provided that if the vesting of Options is accelerated pursuant to Section 11.2, the repurchase rights under this Section 14.1 shall terminate and all shares subject to such terminated rights shall immediately vest in full.

The Plan Administrator shall have the discretionary authority, exercisable either before or after the Participant's cessation of employment or services, to cancel the Company's outstanding repurchase rights with respect to one or more shares purchased or purchasable by the Participant under an Option and thereby accelerate the vesting of such shares in whole or in part at any time.

14.2 **Escrow.** To ensure that shares of Common Stock acquired pursuant to an Award that are subject to any repurchase or forfeiture right and/or security for any promissory note will be available for repurchase or forfeiture, the Plan Administrator may require the Participant to deposit the certificate or certificates evidencing such shares with an agent designated by the Plan Administrator under the terms and conditions of escrow and security agreements approved by the Plan Administrator. If the Plan Administrator does not require such deposit

APP II-9

as a condition of exercise of an Option or grant of a Stock Award, the Plan Administrator reserves the right at any time to require the Participant to so deposit the certificate or certificates in escrow. The Company shall bear the expenses of the escrow. The Company, at its discretion, may in lieu of issuing a stock certificate for such shares, make a book entry credit in the Company's stock ledger to evidence the issuance of such shares. As soon as practicable after the expiration of any repurchase or forfeiture rights, and after full repayment of any promissory note secured by the shares in escrow, the agent shall deliver to the Participant the shares no longer subject to such restrictions and no longer security for any promissory note.

In the event shares held in escrow are subject to the Company's exercise of a repurchase or forfeiture right, the notices required to be given to the Participant shall be given to the agent and any payment required to be given to the Participant shall be given to the agent. Within 30 days after payment by the Company, the agent shall deliver the shares which the Company has purchased to the Company and shall deliver the payment received from the Company to the Participant.

In the event of any stock dividend, stock split or consolidation of shares or any like capital adjustment of any of the outstanding securities of the Company, any and all new, substituted or additional securities or other property to which the Participant is entitled by reason of ownership of shares acquired upon exercise of an Option or grant of a Stock Award shall be subject to any repurchase or forfeiture rights, and/or security for any promissory note with the same force and effect as the shares subject to such repurchase or forfeiture rights and/or security interest immediately before such event.

15. Amendment and Termination of Plan.

15.1 Amendment of Plan. The Plan may be amended only by the Board in such respects as it shall deem advisable; however, to the extent required for compliance with Section 422 of the Code or any applicable law or regulation, stockholder approval will be required for any amendment that will (a) increase the total number of shares available for issuance under the Plan, (b) modify the class of persons eligible to receive Options, or (c) otherwise require stockholder approval under any applicable law or regulation.

15.2 Termination of Plan. The Board may suspend or terminate the Plan at any time. The Plan will have no fixed expiration date; *provided, however,* that no Incentive Stock Options may be granted more than 10 years after the later of (a) the Plan's adoption by the Board and (b) the adoption by the Board of any amendment to the Plan that constitutes the adoption of a new plan for purposes of Section 422 of the Code.

15.3 Consent of Participant. The amendment or termination of the Plan shall not, without the consent of the Participant, impair or diminish any rights or obligations under any Award theretofore granted under the Plan.

Any change or adjustment to an outstanding Incentive Stock Option shall not, without the consent of the Participant, be made in a manner so as to constitute a modification that would cause such Incentive Stock Option to fail to continue to qualify as an Incentive Stock Option.

16. General.

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

16.1 Evidence of Awards. Awards granted under the Plan shall be evidenced by a written agreement that shall contain such terms, conditions, limitations and restrictions as the Plan Administrator shall deem advisable and that are not inconsistent with the Plan.

16.2 Continued Employment or Services; Rights in Awards. None of the Plan, participation in the Plan or any action of the Plan Administrator taken under the Plan shall be construed as giving any person any right to be retained in the employ of the Company or limit the Company's right to terminate the employment or services of any person.

16.3 Registration. The Company shall be under no obligation to any Participant to register for offering or resale or to qualify for exemption under the Securities Act, or to register or qualify under state securities laws, any shares of Common Stock, security or interest in a security paid or issued under, or created by, the Plan, or to continue in effect any such registrations or qualifications if made.

The Company may issue certificates for shares with such legends and subject to such restrictions on transfer and stop-transfer instructions as counsel for the Company deems necessary or desirable for compliance by the Company with federal and state securities laws.

Inability of the Company to obtain, from any regulatory body having jurisdiction, the authority deemed by the Company's counsel to be necessary for the lawful issuance and sale of any shares hereunder or the unavailability of an exemption from registration for the issuance and sale of any shares hereunder shall relieve the Company of any liability in respect of the nonissuance or sale of such shares as to which such requisite authority shall not have been obtained.

As a condition to the exercise of an Award, the Company may require the Participant to represent and warrant at the time of any such exercise or receipt that such shares are being purchased or received only for the Participant's own account and without any present intention to sell or distribute such shares if, in the opinion of counsel for the Company, such a representation is required by any relevant provision of the aforementioned laws. At the option of the Company, a stop-transfer order against any such shares may be placed on the official stock books and records of the Company, and a legend indicating that such shares may not be pledged, sold or otherwise transferred, unless an opinion of counsel is provided (concurred in by counsel for the Company) stating that such transfer is not in violation of any applicable law or regulation, may be stamped on stock certificates to ensure exemption from registration. The Plan Administrator may also require such other action or agreement by the Participant as may from time to time be necessary to comply with the federal and state securities laws.

16.4 No Rights As A Stockholder. No Option or Stock Award denominated in units shall entitle the Participant to any dividend, voting or other right of a stockholder unless and until the date of issuance under the Plan of the shares that are the subject of such Award, free of all applicable restrictions.

16.5 Compliance With Laws And Regulations. No Shares of Common Stock shall be issued pursuant to an Award unless such issuance complies with all applicable laws and regulations. Notwithstanding anything in the Plan to the contrary, the Board, in its sole discretion, may bifurcate the Plan so as to restrict, limit or condition the use of any provision of the Plan to Participants who are officers or directors subject to Section 16 of the Exchange Act without so restricting, limiting or conditioning the Plan with respect to other Participants.

Additionally, in interpreting and applying the provisions of the Plan, any Option granted as an Incentive Stock Option pursuant to the Plan shall, to the extent permitted by law, be construed as an incentive stock option within the meaning of Section 422 of the Code.

16.6 No Trust Or Fund. The Plan is intended to constitute an unfunded plan. Nothing contained herein shall require the Company to segregate any monies or other property, or shares of Common Stock, or to create any trusts, or to make any special deposits for any immediate or deferred amounts payable to any Participant, and no Participant shall have any rights that are greater than those of a general unsecured creditor of the Company.

16.7 Severability. If any provision of the Plan or any Option is determined to be invalid, illegal or unenforceable in any jurisdiction, or as to any person, or would disqualify the Plan or any Option under any law deemed applicable by the Plan Administrator, such provision shall be

Edgar Filing: ASIAINFO HOLDINGS INC - Form DEF 14A

construed or deemed amended to conform to applicable laws, or, if it cannot be so construed or deemed amended without, in the Plan Administrator's determination, materially altering the intent of the Plan or the Option, such provision shall be stricken as to such jurisdiction, person or Option, and the remainder of the Plan and any such Option shall remain in full force and effect.

16.8 Participants In Foreign Countries. The Plan Administrator shall have the authority to adopt such modifications, procedures and subplans as may be necessary or desirable, after consideration of the provisions of the laws of the PRC or other foreign countries in which the Company or its Subsidiaries may operate, to ensure the viability of the benefits from Awards granted to Participants employed in such countries and to meet the objectives of the Plan.

16.9 Choice Of Law. The Plan and all determinations made and actions taken pursuant hereto, to the extent not otherwise governed by the federal laws of the United States, shall be governed by the laws of the State of Delaware without giving effect to principles of conflicts of laws.

17. Effective Date.

The Plan's effective date is the date on which it is adopted by the Board, so long as it is approved by the Company's stockholders at any time within 12 months of such adoption.
