SURREY BANCORP

(Exact Name of Registrant as Specified in Its Charter)

NORTH CAROLINA
(State or Other Jurisdiction of

59-3772016
(IRS Employer

incorporation or organization)

Identification No.)

145 North Renfro Street (P.O. Box 1227); Mount Airy, NC 27030

(Address of Principal Executive Office)

(336) 783-3900

(Issuer's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

NONE

Securities registered pursuant to Section 12(g) of the Act:

COMMON STOCK, NO PAR VALUE

(Title of Class)

Edgar Filing: SURREY BANCORP - Form 10-K

Check whether the issuer is not required to file reports pursuant to Section 13 or 15(d) of the Exchange Act.

..

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the past 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Check if no disclosure of delinquent filers in response to Item 405 of Regulation S-K is contained in this form, and no disclosure will be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

x

Indicate by checkmark whether the registrant is a larger accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated and large accelerated filer in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act)

Yes No

The aggregate market value of the voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold, or the average bid and asked price of such common equity, as of the last business day of the registrant's most recently completed second quarter was \$31.1 million.

3,166,174 shares of the Issuer's common stock were issued and outstanding as of March 14, 2008.

DOCUMENTS INCORPORATED BY REFERENCE

The annual report to security holders for fiscal year ended December 31, 2007, is incorporated by reference into Form 10-K Part II, Items 6, 7 and 8, and Part IV, Item 15. The issuer's Proxy Statement dated March 31, 2008, is incorporated by reference into Form 10-K Part III, Items 10, 11, 12, 13 and 14.

PART I**ITEM 1. BUSINESS****General**

Surrey Bancorp (the Company) began operations on May 1, 2003 and was created for the purpose of acquiring all the outstanding shares of common stock of Surrey Bank & Trust. The Company is subject to regulation by the Federal Reserve.

Surrey Bank & Trust (the Bank) was incorporated on July 15, 1996 as a North Carolina banking corporation and opened for business on July 22, 1996. As such, the Bank operates under the laws of the State of North Carolina. As a state chartered, nonmember bank, the Bank is subject to regulation, supervision and regular examination by the North Carolina Banking Commission (the Commission) through the North Carolina Commissioner of Banks (the Commissioner) and its applicable federal regulator is the Federal Deposit Insurance Corporation (the FDIC). The North Carolina Banking Commission and the FDIC have the power to enforce compliance with applicable banking statutes and regulations.

The principal business of the Company is to provide comprehensive individual and corporate financial services through its main and branch offices in Mount Airy, North Carolina and branch offices in Stuart, Virginia and Pilot Mountain, North Carolina. These services include demand and time deposits as well as commercial, installment, mortgage and other consumer lending services, insurance and investment services.

Competitive Conditions

The principal areas and methods of competition in the banking industry are the services that are offered, the pricing of those services, the convenience and availability of the services and the degree of expertise and personal manner with which those services are offered. The Company encounters strong competition from other commercial banks, including the largest North Carolina banks, operating in Mount Airy, North Carolina, and the surrounding area. In the conduct of certain aspects of its business, the Bank also competes with credit unions, insurance companies, money market mutual funds, and other non-bank financial institutions, some of which are not subject to the same degree of regulation as the Company. Many of these competitors have substantially greater resources and lending abilities than the Company and offer certain services, such as investment banking, trust, interstate and international banking services, that the Company does not provide.

Material Customers

Deposits are derived from a broad base of customers in the Company's trade area. No material portion of deposits have been obtained from a single person or a few persons (including Federal, State, and local governments and agencies thereunder), the loss of which would have a materially adverse effect on the business of the Company.

The majority of loans and commitments to extend credit have been granted to customers in the Company's market area. The majority of such customers are depositors. The Company generally does not extend credit to any single borrower or group of related borrowers in excess of approximately \$3,400,000. Although the Company has a reasonably diversified portfolio, it has loan concentrations relating to customers who are in the following industries: highway construction, trucking, auto dealers, real estate leasing and development, medical offices, furniture manufacturing, contractors, and bridge construction. Total loans and loan commitments to these industry groups at December 31, 2007 and 2006 are summarized in the table below:

| Industry | Loans and Commitments | |
|--|-----------------------|---------------|
| | 2007 | 2006 |
| Real Estate | \$ 13,836,000 | \$ 12,506,000 |
| Heavy and Civil Engineering Construction | 8,782,000 | 8,626,000 |
| Fabricated Metal Products Manufacturing | 7,551,000 | 6,516,000 |
| Repair and Maintenance Industries | 6,192,000 | 3,834,000 |
| Construction of Buildings | 6,089,000 | 5,862,000 |
| Truck Transportation | 6,040,000 | 5,549,000 |
| Educational Services | 5,178,000 | 5,140,000 |

| | | |
|---|-----------|-----------|
| Wood Product Manufacturing | 4,939,000 | 2,219,000 |
| Motion Picture and Sound Recording Industries | 3,956,000 | 6,972,000 |
| Motor Vehicle and Parts Dealers | 3,859,000 | 4,524,000 |
| Crop Production | 3,263,000 | 6,746,000 |
| Food Service and Drinking Places | 2,909,000 | 2,545,000 |
| Furniture and Related Product Manufacturing | 2,770,000 | 2,883,000 |
| Religious, Civic and Similar Organizations | 2,701,000 | 3,039,000 |
| Animal Production | 2,600,000 | 5,616,000 |
| Building Materials and Garden Equipment Dealers | 2,186,000 | 2,758,000 |
| Specialty Trade Contractors | 2,050,000 | - |

Rights

No patents, trademarks, licenses, franchises or concessions held are of material significance to the Company.

New Services

No new services were added to the Company's operations in 2007.

Supervision and Regulation

Banking is a complex, highly regulated industry. The primary goals of banking regulations are to maintain a safe and sound banking system and to facilitate the conduct of sound monetary policy. In furtherance of these goals, Congress and the North Carolina General Assembly have created largely autonomous regulatory agencies and enacted numerous laws that govern banks, their holding companies and the banking industry. The descriptions of and references to the statutes and regulations below are brief summaries and do not purport to be complete. The descriptions are qualified in their entirety by reference to the specific statutes and regulations discussed.

As a North Carolina bank, Surrey Bank & Trust is subject to regulation, supervision and regular examination by the North Carolina Banking Commission (the Commission) through the North Carolina Commissioner of Banks (the Commissioner) and its applicable federal regulator is the Federal Deposit Insurance Corporation (FDIC). The North Carolina Banking Commission and the FDIC have the power to enforce compliance with applicable banking statutes and regulations.

Federal Regulation

As a bank holding company, Surrey Bancorp is subject to regulation, supervision and regular examinations by the Federal Reserve. The Bank Holding Company Act provides that a bank holding company must obtain the prior approval of the Federal Reserve for the acquisition of more than five percent of the voting stock or substantially all the assets of any bank or bank holding company. In addition, the Bank Holding Company Act restricts the extension of credit to any bank holding company by its subsidiary bank. The Bank Holding Company Act also provides that, with certain exceptions, a bank holding company may not engage in any activities other than those of banking or managing or controlling banks and other authorized subsidiaries or own or control more than five percent of the voting shares of any company that is not a bank. The Federal Reserve has deemed limited activities to be closely related to banking and therefore permissible for a bank holding company.

As a North Carolina bank, Surrey Bank & Trust is subject to regulation, supervision and regular examination by the FDIC. The FDIC is required to conduct regular on-site examinations of the operations of the Bank and enforces federal laws that set specific requirements for bank capital, the payment of dividends, loans to officers and directors, and types and amounts of loans and investments made by commercial banks. Among other things, the FDIC must approve the establishment of branch offices, conversions, mergers, assumption of deposit liabilities between insured banks and uninsured banks or institutions, and the acquisition or establishment of certain subsidiary corporations. The FDIC can also prevent capital or surplus diminution in transactions where the deposit accounts of the resulting, continuing or assumed bank are insured by the FDIC.

Transactions with Affiliates. A bank may not engage in specified transactions (including, for example, loans) with its affiliates unless the terms and conditions of those transactions are substantially the same or at least as favorable to the bank as those prevailing at the time for comparable transactions with or involving other nonaffiliated entities. In the absence of comparable transactions, any transaction between a bank and its affiliates must be on terms and under

circumstances, including credit standards, which in good faith would be offered or would apply to nonaffiliated companies. In addition, transactions referred to as covered transactions between a bank and its affiliates may not exceed 10% of the bank's capital and surplus per affiliate and an aggregate of 20% of its capital and surplus for covered transactions with all affiliates. Certain transactions with affiliates, such as loans, also must be secured by collateral of specific types and amounts. The Bank also is prohibited from purchasing low quality assets from an affiliate. Every company under common control with the Bank is deemed to be an affiliate of the Bank.

Loans to Insiders. Federal law also constrains the types and amounts of loans that the Bank may make to its executive officers, directors and principal shareholders. Among other things, these loans are limited in amount, must be approved by the Bank's board of directors in advance, and must be on terms and conditions as favorable to the Bank as those available to an unrelated person.

Regulation of Lending Activities. Loans made by the Bank are also subject to numerous federal and state laws and regulations, including the Truth-In-Lending Act, Federal Consumer Credit Protection Act, the Equal Credit Opportunity Act, the Real Estate Settlement Procedures Act and adjustable rate mortgage disclosure requirements. Remedies to the borrower or consumer and penalties to the Bank are provided if the Bank fails to comply with these laws and regulations. The scope and requirements of these laws and regulations have expanded significantly in recent years.

Branch Banking. All banks located in North Carolina are authorized to branch statewide. Accordingly, a bank located anywhere in North Carolina has the ability, subject to regulatory approval, to establish branch facilities near any of our facilities and within our market area. If other banks were to establish branch facilities near our facilities, it is uncertain whether these branch facilities would have a material adverse effect on our business. Federal law provides for nationwide interstate banking and branching, subject to certain aging and deposit concentration limits that may be imposed under applicable state laws. Applicable North Carolina statutes permit regulatory authorities to approve de novo branching in North Carolina by institutions located in states that would permit North Carolina institutions to branch on a de novo basis into those states. Federal regulations prohibit an out-of-state bank from using interstate branching authority primarily for the purpose of deposit production. These regulations include guidelines to insure that interstate branches operated by an out-of-state bank in a host state are reasonably helping to meet the credit needs of the host state communities served by the out-of-state bank.

Reserve Requirements. Pursuant to regulations of the Federal Reserve, the Bank must maintain average daily reserves against its transaction accounts. During 2007, no reserves were required to be maintained on the first \$8.5 million of transaction accounts, but reserves equal to 3.0% were required to be maintained on the aggregate balances of those accounts between \$8.5 million and \$45.8 million, and additional reserves were required to be maintained on aggregate balances in excess of \$45.8 million in an amount equal to 10.0% of the excess. These percentages are subject to annual adjustment by the Federal Reserve, which has advised that for 2008, no reserves will be required to be maintained on the first \$9.3 million of transaction accounts, but reserves equal to 3.0% must be maintained on the aggregate balances of those accounts between \$9.3 million and \$43.9 million, and additional reserves are required on aggregate balances in excess of \$43.9 million in an amount equal to 10.0% of the excess. Because required reserves must be maintained in the form of vault cash or in a non-interest-bearing account at a Federal Reserve Bank, the effect of the reserve requirement is to reduce the amount of the institution's interest-earning assets. As of December 31, 2007, the Bank met its reserve requirements.

Community Reinvestment. Under the Community Reinvestment Act (CRA), as implemented by regulations of the federal bank regulatory agencies, an insured bank has a continuing and affirmative obligation, consistent with its safe and sound operation, to help meet the credit needs of its entire community, including low and moderate income neighborhoods. The CRA does not establish specific lending requirements or programs for banks, nor does it limit a bank's discretion to develop the types of products and services that it believes are best suited to its particular community, consistent with the CRA. The CRA requires the federal bank regulatory agencies, in connection with their examination of insured banks, to assess the banks' records of meeting the credit needs of their communities, using the ratings of outstanding, satisfactory, needs to improve, or substantial noncompliance, and to take that record into account in its evaluation of certain applications by those banks. All banks are required to make public disclosure of their CRA performance ratings. The Bank received a satisfactory rating in its most recent CRA examination.

Governmental Monetary Policies. The commercial banking business is affected not only by general economic conditions but also by the monetary policies of the Federal Reserve, a federal banking regulatory agency that regulates the money supply in order to mitigate recessionary and inflationary pressures. Among the techniques used

to implement these objectives are open market transactions in United States government securities, changes in the rate paid by banks on bank borrowings, and changes in reserve requirements against bank deposits. These techniques are used in varying combinations to influence overall growth and distribution of bank loans, investments, and deposits, and their use may also affect interest rates charged on loans or paid for deposits. The monetary policies of the Federal Reserve have had a significant effect on the operating results of commercial banks in the past and are expected to continue to do so in the future. In view of changing conditions in the national economy and money markets, as well as the effect of actions by monetary and fiscal authorities, no prediction can be made as to possible future changes in interest rates, deposit levels, loan demand or the business and earnings of the Bank.

Dividends. Under federal banking law, no cash dividend may be paid if a bank is undercapitalized or insolvent or if payment of the cash dividend would render the bank undercapitalized or insolvent, and no cash dividend may be paid by the bank if it is in default of any deposit insurance assessment due to the FDIC.

Deposit Insurance Assessments. The Bank's deposits are insured up to \$100,000 per insured non-IRA account and up to \$250,000 per IRA account by the Deposit Insurance Fund of the Federal Deposit Insurance Corporation. The bank is required to pay deposit insurance assessments set by the FDIC. The FDIC determines the Bank's deposit insurance assessment rates on the basis of four risk categories. The Bank's assessment will range from 0.02 to 0.04% at the lowest assessment category up to a maximum assessment of 0.40% of the Bank's average deposit base, with the exact assessment determined by the Bank's assets, its capital and the FDIC's supervisory opinion of its operations. The insurance assessment rate may change periodically and was significantly increased for all depository institutions during 2007. Increases in the assessment rate may have an adverse effect on the Bank's operating results. The FDIC has the authority to terminate deposit insurance.

Changes in Management. Any depository institution that has been chartered less than two years, is not in compliance with the minimum capital requirements of its primary federal banking regulator (currently the FDIC), or is otherwise in a troubled condition must notify its primary federal banking regulator of the proposed addition of any person to the board of directors or the employment of any person as a senior executive officer of the institution at least 30 days before such addition or employment becomes effective. During this 30-day period, the applicable federal banking regulatory agency may disapprove of the addition of such director or employment of such officer. The Bank is not subject to any such requirements.

Enforcement Authority. The federal banking laws also contain civil and criminal penalties available for use by the appropriate regulatory agency against certain institution-affiliated parties primarily including management, employees and agents of a financial institution, as well as independent contractors such as attorneys and accountants and others who participate in the conduct of the financial institution's affairs and who caused or are likely to cause more than minimum financial loss to or a significant adverse affect on the institution, who knowingly or recklessly violate a law or regulation, breach a fiduciary duty or engage in unsafe or unsound practices. These practices can include the failure of an institution to timely file required reports or the submission of inaccurate reports. These laws authorize the appropriate banking agency to issue cease and desist orders that may, among other things, require affirmative action to correct any harm resulting from a violation or practice, including restitution, reimbursement, indemnification or guarantees against loss. A financial institution may also be ordered to restrict its growth, dispose of certain assets or take other action as determined by the primary federal banking agency to be appropriate.

Capital Adequacy. The Bank is subject to capital requirements and limits on activities established by the FDIC. Under the capital regulations, the Bank generally is required to maintain Tier 1 risk-based capital, as such term is defined therein, of 4% and total risk-based capital, as such term is defined therein, of 8%. In addition, the Bank is required to provide a minimum leverage ratio of Tier 1 capital to adjusted average quarterly assets (leverage ratio) equal to 3%, plus an additional cushion of 1% to 2% if the Bank has less than the highest regulatory rating. The Bank is not permitted to engage in any activity not permitted for a national bank unless (i) it is in compliance with its capital requirements and (ii) the FDIC determines that the activity would not pose a risk to the deposit insurance fund. With certain exceptions, the Bank also is not permitted to acquire equity investments of a type, or in an amount, not permitted for a national bank.

Prompt Corrective Action. Banks are subject to restrictions on their activities depending on their level of capital. Federal prompt corrective action regulations divide banks into five different categories, depending on their level of capital. Under these regulations, a bank is deemed to be well capitalized if it has a total risk-based capital ratio of 10% or more, a core capital ratio of six percent or more and a leverage ratio of five percent or more, and if the bank is not subject to an order or capital directive to meet and maintain a certain capital level. Under these regulations, a

bank is deemed to be adequately capitalized if it has a total risk-based capital ratio of eight percent or more, a core capital ratio of four percent or more and a leverage ratio of four percent or more (unless it receives the highest composite rating at its most recent examination and is not experiencing or anticipating significant growth, in which instance it must maintain a leverage ratio of three percent or more). Under these regulations, a bank is deemed to be undercapitalized if it has a total risk-based capital ratio of less than eight percent, a core capital ratio of less than four percent or a leverage ratio of less than three percent. Under these regulations, a bank is deemed to be significantly undercapitalized if it has a risk-based capital ratio of less than six percent, a core capital ratio of less than three percent and a leverage ratio of less than three percent. Under such regulations, a bank is deemed to be critically undercapitalized if it has a leverage ratio of less than or equal to two percent. In addition, the applicable federal banking agency has the ability to downgrade a bank's classification (but not to critically undercapitalized) based on other considerations even if the bank meets the capital guidelines.

If a bank is classified as undercapitalized, the bank is required to submit a capital restoration plan to the FDIC and the FDIC may also take certain actions to correct the capital position of the bank. An undercapitalized bank is prohibited from increasing its assets, engaging in a new line of business, acquiring any interest in any company or insured depository institution, or opening or acquiring a new branch office, except under certain circumstances, including the acceptance by the FDIC of a capital restoration plan for the bank.

If a state bank is classified as significantly undercapitalized, the FDIC would be required to take one or more prompt corrective actions. These actions would include, among other things, requiring sales of new securities to bolster capital, changes in management, limits on interest rates paid, prohibitions on transactions with affiliates, termination of certain risky activities and restrictions on compensation paid to executive officers. If a bank is classified as critically undercapitalized, the bank must be placed into conservatorship or receivership within 90 days, unless the FDIC determines otherwise.

The capital classification of a bank affects the frequency of regulatory examinations of the bank and impacts the ability of the bank to engage in certain activities and affects the deposit insurance premiums paid by the bank. The FDIC is required to conduct a full-scope, on-site examination of every bank on a periodic basis.

Banks also may be restricted in their ability to accept brokered deposits, depending on their capital classification. Well capitalized banks are permitted to accept brokered deposits, but all banks that are not well capitalized are not permitted to accept such deposits. The FDIC may, on a case-by-case basis, permit banks that are adequately capitalized to accept brokered deposits if the FDIC determines that acceptance of such deposits would not constitute an unsafe or unsound banking practice with respect to the bank.

State Regulation

As a North Carolina-chartered bank, the Bank is also subject to extensive supervision and regulation by the Commissioner. The Commissioner enforces state laws that set specific requirements for bank capital, the payment of dividends, loans to officers and directors, record keeping, and types and amounts of loans and investments made by commercial banks. Among other things, the approval of the Commissioner is generally required before a North Carolina-chartered commercial bank may establish branch offices. North Carolina banking law requires that any merger, liquidation or sale of substantially all of the assets of the Bank must be approved by the Commissioner and the holders of two thirds of the Bank's outstanding common stock.

Change of control. North Carolina banking laws provide that no person may directly or indirectly purchase or acquire voting stock of the Bank that would result in the change in control of the Bank unless the Commissioner has approved the acquisition. A person will be deemed to have acquired control of the Bank if that person directly or indirectly (i) owns, controls or has power to vote 10% or more of the voting stock of the Bank, or (ii) otherwise possesses the power to direct or cause the direction of the management and policy of the Bank.

Loans. In its lending activities, the Bank is subject to North Carolina usury laws which generally limit or restrict the rates of interest, fees and charges and other terms and conditions in connection with various types of loans. North Carolina banking law also limits the amount that may be loaned to any one borrower.

Dividends. The ability of the Bank to pay dividends is restricted under applicable law and regulations. Under North Carolina banking law, dividends must be paid out of retained earnings and no cash dividends may be paid if payment of the dividend would cause the bank's surplus to be less than 50% of its paid-in capital.

Holding companies. North Carolina banking law requires that bank holding companies register with the Commissioner. The Commissioner must also approve any acquisition of control of a state-chartered bank by a bank holding company.

Future Legislation and Regulations

The Company cannot predict what new legislation might be enacted or what regulations might be adopted or amended, or if enacted, adopted or amended, their effect on its operations. Any change in applicable law or regulation, state or federal, may have a material adverse effect on its business.

Environmental Laws

Compliance with Federal, State, or Local provisions regulating the discharge of materials into the environment has not had, nor is it expected to have in the future, a material effect upon the Bank's capital expenditures, earnings or competitive position.

Employees

All employees of the Company are compensated by the Company's subsidiary, the Bank. The Bank had nine (9) officers, fifty-eight (58) full-time employees (including the officers), and eleven (11) part-time employees as of December 31, 2007.

ITEM 1A. RISK FACTORS

Not Applicable as a Smaller Reporting Company .

ITEM 2. PROPERTIES

The Company's permanent headquarters is a two-story brick building, with approximately 8,500 square feet of space located at 145 North Renfro Street, Mount Airy, North Carolina, which is also the headquarters of the Bank. The building has drive-up facilities. The Bank's finance, operations, mortgage lending and insurance departments are housed in a one-story brick building with approximately 7,500 square feet of space located at 199 North Renfro Street in Mount Airy, North Carolina.

The Bank has two branch locations in Mount Airy, North Carolina. The 1280 West Pine Street branch is a two-story brick building with approximately 4,500 square feet of floor space. The branch also has drive up facilities and is leased under a five-year agreement, which extends through March of 2010. The 2050 Rockford Street branch is a one-story brick building with approximately 2,400 square feet of floor space with drive up facilities.

The Bank opened a branch office in Stuart, Virginia in December of 2000. The building is a modular unit with approximately 1,600 square feet of floor space located at 303 South Main Street in Stuart, Virginia. The branch also has drive up facilities. The land on which the modular branch resides is leased under a renewable one-year agreement that commenced in December of 2000. Effective December 2007, the land lease agreement changed to a month-to-month arrangement. In April 2008, the Bank is expected to move into new facilities in Stuart at 940 Woodland Drive. The newly constructed branch is a one-story brick building with approximately 2,800 square feet of floor space. The building has drive up facilities. The Bank intends to move the modular unit in Stuart to a lot at the main office in Mount Airy during 2008. The facility will be used for training and expansion purposes.

In August, 2005, the Bank moved to permanent facilities in Pilot Mountain at 653 South Key Street. The branch is a one-story brick building with approximately 2,800 square feet of floor space. The building has drive up facilities.

ITEM 3. LEGAL PROCEEDINGS

The Company is not party to, nor is any of its property the subject of, any material pending legal proceedings incidental to the business of the Company.

ITEM 4. SUBMISSION OF MATTER TO VOTE OF SECURITY HOLDERS

None

PART II**ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER****PURCHASE OF EQUITY SECURITIES**

The Company's common stock is traded in the over the counter market, and is listed in the National Daily Quotation Service Bulletin Board under the symbol SRYB.OB. The following table shows the high and low prices for each quarter of the fiscal years, and reflects inter-dealer prices, without retail mark-up, mark-down or commissions and may not represent actual transactions:

| | 2007 Price Per Share* | | 2006 Price Per Share* | |
|----------------|-----------------------|----------|-----------------------|----------|
| | High | Low | High | Low |
| First Quarter | \$ 14.50 | \$ 12.38 | \$ 14.00 | \$ 10.00 |
| Second Quarter | \$ 15.50 | \$ 13.00 | \$ 12.50 | \$ 10.55 |
| Third Quarter | \$ 15.50 | \$ 11.25 | \$ 11.50 | \$ 10.38 |
| Fourth Quarter | \$ 10.55 | \$ 13.92 | \$ 13.00 | \$ 11.00 |

* Adjusted for the effects of a 2 for 1 common stock split issued March 1, 2007.

The last sales price of the common stock on March 14, 2008 was \$10.50. The approximate number of holders of the Company's 3,162,764 shares of Common Stock as of December 31, 2007 is 1,600. There are 189,356 shares of the Company's Preferred Stock issued and outstanding as of December 31, 2007. The preferred stock is non cumulative and convertible into 2.0868 shares of common stock. The preferred stock carries a dividend rate of 4.5% and has a liquidation value of \$14.00 per share. The preferred stock was issued under a private placement in the second quarter of 2003.

Each holder of Common Stock is entitled to dividends paid by the Company when and if declared by the Board of Directors from funds legally available. The determination and declaration of dividends is within the discretion of the Board of Directors subject to legal conditions. As a bank holding company that does not, as an entity, currently engage in separate business activities of a material nature, our ability to pay cash dividends depends upon the cash dividends we receive from our subsidiary bank (Surrey Bank & Trust). Our only source of income is dividends paid by the Bank and interest income from excess funds invested in time deposits with the Bank. We must pay all of our operating expenses from funds we receive from the Bank. North Carolina banking requires that dividends from a bank be paid out of the Bank's retained earnings and prohibits the payment of cash dividends if payment of the dividend would cause the Bank's surplus to be less than 50% of its paid-in capital. Also, under federal banking law, no cash dividend may be paid if the Bank is undercapitalized or insolvent or if payment of the cash dividend would render the Bank undercapitalized or insolvent, and no cash dividend may be paid by the Bank if it is in default of any deposit insurance assessment due to the FDIC. Therefore, shareholders may receive dividends from us only to the extent that funds are available from the Bank. In addition, the Federal Reserve generally prohibits bank holding companies from paying dividends except out of operating earnings, and the prospective rate of earnings retention appears consistent with the bank holding company's capital needs, asset quality and overall financial condition. Subject to these restrictions, our Board of Directors will consider the payment of dividends when it is deemed prudent to do so.

On October 30, 2007, the Company declared a special cash dividend of \$0.15 per share on its common stock, payable January 2, 2008, to shareholders of record as of the close of business on December 10, 2007. This dividend was paid out of excess funds in the bank holding company and did not require a dividend payment to the Company from Surrey Bank & Trust.

ITEM 6. SELECTED FINANCIAL DATA

and

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Omitted, per general instruction E. The information required by Items 6 and 7 of Part II is incorporated by reference from the registrant's annual report to security holders for the fiscal year ended December 31, 2007 attached as Exhibit 15 to this Form 10-K.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The principal goals of our asset and liability management strategy are the maintenance of adequate liquidity and the management of interest rate risk. Liquidity is the ability to convert assets to cash to fund depositor's withdrawals or borrowers' loans without significant loss. Interest rate risk management balances the effects of interest rate changes on assets that earn interest or liabilities on which interest is paid, to protect the Bank from wide fluctuations in its net interest income which could result from interest rate changes.

We attempt to ensure that adequate funds are available at all times to meet the needs of our customers. On the asset side of the balance sheet, maturing investments, loan payments, maturing loans, federal funds sold, and unpledged investment securities are principal sources of liquidity. On the liability side of the balance sheet, liquidity sources include core deposits, the ability to increase large denomination certificates of deposit, federal fund lines from correspondent banks, borrowings from the FHLB and the Federal Reserve Bank, as well as the ability to generate funds through the issuance of long-term debt and equity.

Interest rate risk is the effect that changes in interest rates would have on interest income and interest expense as interest-sensitive assets and interest-sensitive liabilities either re-price or mature. We attempt to maintain the portfolios of interest-earning assets and interest-bearing liabilities with maturities or re-pricing opportunities at levels that will afford protection from substantial erosion of net interest margin, to the extent practical, from changes in interest rates.

We use a number of tools to manage our interest rate risk, including simulating net interest income under various scenarios, monitoring the present value change in equity under the same scenarios, and monitoring the difference or gap between rate sensitive assets and rate sensitive liabilities over various time periods.

Quantitative information about the Bank's interest rate risk is included in Management's Discussion and Analysis of Financial Condition and Results of Operation included in this Form 10-K for the year ended December 31, 2007.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Omitted, per general instruction E. The information required by Items 8 of Part II is incorporated by reference from the registrant's annual report to security holders for the fiscal year ended December 31, 2007 attached as Exhibit 15 to this Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 9A. CONTROLS AND PROCEDURES

As of the end of the period covered by this Annual Report on Form 10-K, an evaluation was performed under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective. We continue to evaluate our internal controls each year.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

The design of any system of controls is based in part upon certain assumptions about the likelihood of future events. There can be no assurance that any design will succeed in achieving its stated goal under every potential condition, regardless of how remote. In addition, the operation of any system of controls and procedures is dependent upon the employees responsible for executing it. While we have evaluated the operation of our disclosure controls and procedures and found them effective, there can be no assurance that they will succeed in every instance to achieve their objective.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE

and

ITEM 11. EXECUTIVE COMPENSATION

and

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED

STOCKHOLDER MATTERS
