Case Delivers Equipment to Support

Earthquake Relief Effort in Central China

SHANGHAI, China (May 19, 2008) In response to the devastating earthquake that hit Sichuan Province in central China on May 12, Case Construction Equipment donated a Case 695 four-wheel drive loader/backhoe and hydraulic hammer to assist the emergency services teams with the relief efforts. In addition, Case dispatched two skilled loader/backhoe operators from the company's headquarters in Shanghai to assist and train members of the Chinese Army-Air Force to help speed recovery efforts.

We would like to express our heartfelt sympathy to the people who suffered from the earthquake in Sichuan and its surrounding areas, said Howard Dale, managing director, Case Construction Machinery (Shanghai) Company Ltd. This tragic event has affected many thousands of people. All of us at Case hope that our support can bring assistance to some of the people who may still be trapped in the rubble, as well as to the survivors.

The Case 695 loader/backhoe, hydraulic hammer, lifting gear, tools and supporting parts combined are valued at approximately RMB 1.2 million.
