Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the General Dynamics Corporation Savings and Stock Investment Plan (Plan 5.0):

We have audited the accompanying statement of net assets available for benefits of the General Dynamics Corporation Savings and Stock Investment Plan (Plan 5.0) (the Plan) as of December 31, 2007, and the related statement of changes in net assets available for benefits for the year ended December 31, 2007. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007, and the changes in net assets available for benefits for the year ended December 31, 2007, in conformity with U.S. generally accepted accounting principles.

SAVINGS AND STOCK INVESTMENT PLAN (PLAN 5.0)

Notes to Financial Statements

December 31, 2007

(1) Plan Description

The following description of the General Dynamics Corporation Savings and Stock Investment Plan (Plan 5.0) (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined-contribution plan covering eligible salaried employees of General Dynamics Corporation (the Company or the Plan Sponsor). The Plan is one of four plans that comprise the General Dynamics Corporation Savings and Stock Investment Plan Master Trust (Master Trust). As part of the General Dynamics Corporation Savings and Stock Investment Plan restructuring effective January 1, 2007, the Company adopted two new defined contribution plans, this Plan and the General Dynamics Corporation Savings and Stock Investment Plan (Plan 4.5) (SSIP 4.5). In addition, the General Dynamics Corporation Savings and Stock Investment Plan was renamed the General Dynamics Corporation Savings and Stock Investment Plan (Plan 3.0) (SSIP 3.0), and the General Dynamics Corporation Savings and Stock Investment Plan for Hourly Employees was renamed the General Dynamics Corporation Savings and Stock Investment Plan for Represented Employees (Represented Plan) (Represented SSIP).

Participation in the Plan began on January 1, 2007, for certain participants. Company management determined which plan would be offered to each business unit or subset thereof and the affected participants' account balances in the SSIP 3.0 and the Represented SSIP were subsequently transferred to the corresponding new plan. On January 3, 2007, \$1,960,916,652 and \$138,214,597 were transferred to the Plan from the SSIP 3.0 and the Represented SSIP, respectively.

(b) Plan Administration

The Northern Trust Company (TNT) holds the Plan's assets as the Plan's trustee. Hewitt Associates, LLC (Hewitt) is the Plan's recordkeeper.

SAVINGS AND STOCK INVESTMENT PLAN (PLAN 5.0)

(c) Contributions

Contribution percentages range from 1 percent to 50 percent of eligible compensation on a pre-tax basis, up to the statutory limits defined by the Internal Revenue Code (IRC). Participants should refer to the Plan document for a more complete description of the allowable contribution percentages.

The Plan has an employer match rate of up to 100 percent of the first 4 percent of eligible compensation deferred and 50 percent of the next 2 percent of eligible compensation deferred. The Plan is intended to be a safe-harbor plan as defined in the IRC.

(d) Participant Accounts

Each participant directs his or her contributions to be invested in various funds. Changes to investment elections can be made according to rules set by General Dynamics Corporation (Plan Administrator). Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the vested balance of his or her account.

(e) Vesting

Participants are eligible to participate in the Plan upon hire. Participants' contributions, Company contributions on deferrals made subsequent to January 1, 2007, and earnings thereon vest immediately. Vesting in Company matching contributions made prior to January 1, 2007 varies by business unit, but does not exceed three years.

(f) Participant Loans

The Plan permits active participants and employed inactive participants to borrow the lesser of \$50,000 or 50 percent of the vested amount in their accounts (as limited by the Plan and the IRC). Participants are permitted to repay the loan by regular payroll deductions over a period of up to five years. Loans are issued at the prime rate of interest. The Plan also offers primary residence loans (up to 20 years), which are secured by the balance in the participants' account. Participant loans outstanding at December 31, 2007, bear interest at rates that range from 1.7 percent to 12.9 percent.

(g) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant (or designated beneficiary) may elect to (a) receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, (b) roll over the value of the participant's vested interest in his or her account into another qualified plan, (c) receive annual installment payments over a specified period or in specified amounts, or (d) receive a partial distribution of his or her total account balance. Participants may also receive hardship withdrawals under the provisions of the IRC in a lump-sum payment. Active participants are eligible to receive in-service, hardship, or age 59 1/2 withdrawals.

(h) Forfeited Accounts

During the year ended December 31, 2007, participants' forfeited nonvested accounts totaled \$554,265. These amounts were used to reduce employer contributions. The Plan's forfeiture balance at December 31, 2007 is \$6,465 and consists of employer contributions credited back to the Plan for non-vested participants who terminated employment with the Plan Sponsor. These amounts will be used to reduce employer contributions in January 2008.

(i) Administrative Expenses

The Master Trust generally pays the administrative expenses of the Plan. The Plan document provides that the Company may reimburse the Plan for administrative expenses. The Company did not reimburse any administrative expenses in 2007.

Company employees perform certain administrative functions that are not reimbursed by the Master Trust. The Plan document provides that the Company is entitled to reimbursement for certain costs incurred on behalf of the Plan. The Company did not seek reimbursement for these costs in 2007.

Administrative expenses may be specifically identified to the four plans that participate in the Master Trust or these expenses may be attributable to the Master Trust in general. Specifically identified fees of the Plan for 2007 were \$828,385, and are reflected as administrative expenses in the Statement of Changes in Net Assets Available for Benefits. General expenses (primarily investment management and trustee fees) of the Master Trust in 2007 were \$1,529,893. A portion of these expenses is allocated to the Plan using the percentage of the Plan's interest in the net assets of the Master Trust. For the year ended December 31, 2007, approximately \$465,000 of general expenses were allocated to the Plan and are included as a reduction of participation in the net income of the Master Trust.

(j) Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared under the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

The Plan's investments are stated primarily at fair value except for fully benefit-responsive investment contracts, which are adjusted from fair value to contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less funds used to pay Plan benefits. For all other investments, fair value is based on quoted market prices if they are available.

GENERAL DYNAMICS CORPORATION

SAVINGS AND STOCK INVESTMENT PLAN (PLAN 5.0)

Notes to Financial Statements

December 31, 2007

For securities with no quoted market price, many factors are considered in arriving at fair value. In general, corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Certificates of deposit are valued based on amortized cost or original cost plus accrued interest. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of investments are recorded on the trade date. Investment income consists of dividend income, interest income, and capital gains distributions. Dividends are recognized on the ex-dividend date, the date on which an individual must own the stock to receive the pending dividend. Net appreciation (depreciation) in the fair value of investments represents the net realized and unrealized changes in the market value of investments during the period.

(c) Payment of Benefits

Benefits are recorded when paid.

(d) Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Recent Accounting Pronouncements

In December 2005, the Financial Accounting Standards Board (FASB) issued the FASB Staff Position AAG INV-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans* (the FSP). The FSP defines a fully benefit-responsive investment contract and provides guidance with respect to the financial statement presentation and disclosure of fully benefit-responsive investment contracts in employer-sponsored defined-contribution pension plans. The financial statement presentation and disclosure provisions of this FSP are effective for financial statements for annual periods ending after December 15, 2006 and are required to be applied retroactively to all prior periods presented for comparative purposes. The Plan has adopted the provisions of the FSP at December 31, 2007.

As required by the FSP, investments in the accompanying Statement of Net Assets Available for Plan Benefits include fully benefit-responsive investment contracts recognized at fair value with a corresponding adjustment to reflect those investments at contract value.

(3) Tax Status

The Plan has applied for a favorable tax determination from the Internal Revenue Service (IRS) indicating that the Plan is a qualified profit-sharing plan under Section 401(a) of the IRC and is exempt from federal income tax under Section 501(a) of the IRC. Although the application for favorable tax determination is

GENERAL DYNAMICS CORPORATION

Notes to Financial Statements

still pending, the Plan Administrator and the Plan's tax counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

(4) Investments

The Plan's investments are held by the Master Trust, which was established for the investment of the Plan's assets and the assets of the SSIP 3.0, the SSIP 4.5, and the Represented SSIP (collectively, the Plans). Each of the Plans has an undivided interest in the Master Trust.

At December 31, 2007, the Plan's interest in the net assets of the Master Trust was approximately 31 percent. Net assets and net participation in the net income of the Master Trust are allocated to the Plans according to their percentage interest in the Master Trust.

TNT uses a portion of the Master Trust's investments to engage in securities lending. The securities on loan and related collateral are valued daily to ensure adequate collateralization levels in relation to the securities on loan. The loaned security is delivered to the borrower, and collateral is received by TNT either simultaneously or in advance of security delivery. The total market value of collateralized securities on loan from the Master Trust at December 31, 2007 was \$401,468,382. Net income generated for the Master Trust from securities lending activities for the year ended December 31, 2007 was \$1,043,307.

The following table presents the fair value of investments for the Master Trust as of December 31, 2007:

Five percent of the Master Trust's ending net assets was \$387,726,051 as of December 31, 2007.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. In the event the Plan is terminated, each participant will automatically become vested in his or her unvested Company contributions. Each participant will receive payments based on the specific dollar amounts and shares of the Company's common stock in his or her account.

(6) Derivative Financial Instruments

To reduce interest rate risk, the Master Trust has entered into U.S. Treasury and Agency Bond futures contracts. These futures contracts serve to match the price sensitivity and duration of the Master Trust assets with the duration of various benchmarks of the Master Trust. The futures contracts the Master Trust generally enters into are contracts to purchase U.S. Treasury or Agency Bonds, Notes, or Bills at a fixed price on a set date in the future, generally during the next three to six months. The Master Trust pays or receives cash daily for changes in market price of these instruments, with gains or losses reflected in investment income. Total mark-to-market gain was \$616,020 for the year ended December 31, 2007. The Master Trust had no derivative instruments designated as cash flow or fair value hedges during 2007.

(7) Party-in-Interest Transactions

The Plan may, at the discretion of the Plan's participants or via the Company match, invest through the Master Trust an unlimited amount of its assets in the Company's common stock. The Master Trust held 33,070,525 shares of the Company's common stock as of December 31, 2007. Dividends earned by the Master Trust on the Company's common stock were \$36,773,002 for the year ended December 31, 2007.
