Chunghwa Telecom Reports Operating Results for 1H 2008

Taipei, Taiwan, R.O.C. AUGUST 28, 2008 Chunghwa Telecom Co., Ltd (TAIEX: 2412, NYSE: CHT) (Chunghwa or the Company), today reported its consolidated operating results for the first six months of 2008. All figures were prepared in accordance with ROC GAAP.

(Comparisons, unless otherwise stated, are with the prior year period)

Financial Highlights for 1H08:

Total consolidated revenue increased by 5.4% to NT\$100.9 billion

Internet and data revenue grew by 1.8%; ADSL & FTTB revenue increased by 0.8%

Mobile revenue decreased by 1.2%; Mobile VAS revenue increased by 31.7%

Net income totaled NT\$23.2 billion, a decrease of 5.6%

Basic earnings per share (EPS) increased by 5.2% to NT\$2.43 Financial Highlights for 2Q08:

Total consolidated revenue decreased by 0.6% to NT\$50.0 billion

Internet and data revenue grew by 0.8%; ADSL & FTTB revenue decreased by 0.7%

Mobile revenue decreased by 2.7%; Mobile VAS revenue increased by 28.3%

Net income totaled NT\$12.5 billion, an increase of 0.1%

Basic earnings per share (EPS) increased by 12.0% to NT\$1.31

Revenues

Chunghwa s total consolidated revenue for the first half of 2008 increased by 5.4% year-on-year to NT\$100.9 billion, of which 28.5% was from fixed-line services, 35.9% was from mobile services, 24.6% was from Internet and data services, and the remaining 11.0% was from other revenues, including handset sales of Chunghwa and SENAO. Revenue growth for the full six month period in 1H 2008 was mainly due to the consolidation of the Senao subsidiary, as only 2.5 months of Senao s operational results were included in CHT s consolidated 1H 2007 financials. In addition, the Internet and data businesses were a positive contribution. At NT\$24.8 billion, Internet and data revenue in 1H 2008 was 1.8% higher than in 1H 2007. This was driven by the continued total broadband

subscriber base growth and broadband speed upgrades, and was partly offset by an ADSL tariff adjustment that took effect on April 1, 2008. Mobile revenue decreased by 1.2% in the first half of 2008 to NT\$36.3 billion. This was mainly due to the decrease in traffic and the tariff cuts imposed by the NCC. Fixed-line revenues decreased by 3.1% to NT\$28.7 billion in the first half of this year. Local revenues decreased by 2.3% year-on-year due to broadband, mobile and VoIP substitution. Mobile and VoIP substitution was largely responsible for a 5.6% domestic long distance revenue decrease. In addition, International long distance revenue declined 3.2% year-on-year primarily due to increased competition for calling card services posed by our competitors prepaid card service and the decrease in settlement income resulting from the appreciation of new Taiwan dollars.

For the second quarter of 2008, total consolidated revenue was NT\$50.0 billion, a 0.6% decrease from the same period last year. Of this, 28.7% was from fixed-line services, 36.3% was from mobile services and 24.5% was from Internet and data services, and over half of the remainder 10.5% were mainly attributed to the consolidation of revenue from SENAO.

Costs and expenses

For 1H 2008, total operating costs and expenses increased year-on-year by 4.9% to NT\$68.6 billion, due primarily to the operating costs and expenses from subsidiaries, especially SENAO. For the parent company, total operating costs and expenses decreased by NT\$0.42 billion, representing a year-over-year decrease of 0.7%. The decrease was primarily from decreased personnel and depreciation expenses.

For the second quarter of 2008, total operating costs and expenses decreased by 2.7%, mainly from declines in personnel expenses and depreciation, since the Company has not provided an early retirement program this year up to now and therefore incurred no related expenses.

Income tax

Income taxes for 1H 2008 were NT\$7.0 billion, an increase of 8.8% compared to NT\$6.4 billion for 1H 2007. This was mainly due to the higher effective tax rate for the 1H 2008 consolidated financials as compared to 1H 2007, resulting from a lower investment tax credits in 1H 2008.

EBITDA and net income

EBITDA for 1H 2008 increased 2.6% year-on-year to NT\$51.5 billion. Due to the 2Q 2007 acquisition of SENAO, which has a lower EBITDA margin than Chunghwa, the Company s EBITDA margin in 1H 2008 was 51.1%, down from 52.5% in 1H 2007. Net

income for 1H 2008 was NT\$23.2 billion, a decrease of 5.6%. The decrease in net income was due to the unrealized mark-to-market loss stemming from the foreign exchange derivative contract.

Capex

Capital expenditures totaled NT\$11.3 billion for 1H 2008, of which 73.6% was for wire line equipment (including fixed-line and Internet and data), 12.7% was for wireless equipment, and the remainder was for other expenditures. Total capital expenditures increased due to a NT\$1.2 billion purchase of state-owned land in 1Q 2008, where one of Chunghwa s outlets is located.

Cash Flow

Net cash flow from operations increased by 27% to NT\$41.5 billion, as compared to NT\$32.7 billion in 1H 2007. This was primarily due to a decrease in other financial assets, an increase in accounts payable and taxes payable. As of June 30, 2008, the Company s cash and cash equivalents totaled NT\$95.3 billion, an increase of 15.8% year-on-year despite the capital reduction cash payment of NT\$9.6 billion in January this year.

Businesses Performance Highlights:

Internet and Data Services

Total HiNet subscribers increased to 4.1 million as of June 30, 2008. HiNet broadband subscribers including HiNet ADSL and HiNet FTTx increased by 23,000 to 3.5 million quarter-on-quarter.

ADSL subscribers decreased by 126,000 to 3.5 million quarter-on-quarter. This decline was offset by strong growth in FTTB subscriptions, with 148,000 net additions to around 0.8 million over the course of the second quarter of 2008, bringing the total number of broadband subscribers to 4.3 million on June 30, 2008, a 3.4% increase compared to the same period of last year. By the end of June 2008, the number of ADSL and FTTx subscriptions with a service speed of greater than 8 Mbps reached 1.38 million, representing 32.1% of total broadband subscribers.

At the end of June 2008, Chunghwa had 508,000 MOD subscribers, with 73,000 new subscriptions added during the second quarter. **Mobile Services**

As of June 30, 2008, Chunghwa had 8.8 million mobile subscribers, slightly up quarter-on-quarter by 0.63% compared to 8.7 million on March 31, 2008.

Chunghwa remained the leading mobile operator in Taiwan. According to statistics published by the NCC, at the end of June 2008, the Company s total subscriber market share (including 2G, 3G and PHS) was 35.6%, while its revenue share was 33.6%.

Chunghwa had 306,000 net additions to its 3G subscriber base during the second quarter, recording a 11.8% rise in the total number of 3G subscribers to 2.9 million on June 30, 2008.

Mobile VAS revenue for 1H 2008 was NT\$3.4 billion, a 31.7% year-on-year increase, with SMS revenue up 24.9% and mobile Internet revenue up 58.2%.

Fixed-line Services

At the end of June 2008, the Company maintained its leading fixed-line market position, with fixed-line subscribers totaling 12.9 million. **2008 Olympic Games on New Media**

The Company broadcasted the 2008 Olympic Games across its MOD, emome and hiChannel platforms in August. According to its internal statistics, during the Olympic Games, from August 8 until August 24, the highest number of view household for MOD was up to 1.6 times compared to before the game.

HiChannel visitors were 3.3 times and the page views amounted to 11.3 times compared to before the Games.

Number of video clips viewed, page views and traffic over our mobile portal emome were 15.8, 10 and 10 times respectively, as compared to the period before the Games.

Financial Statements

Financial statements and additional operational data can be found on the Company s website at www.cht.com.tw/ir/filedownload.

Note Concerning Forward-looking Statements

Except for statements in respect of historical matters, the statements made in this press release contain forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual performance, financial condition or results of operations of Chunghwa to be materially different from what may be implied by such forward-looking statements. Investors are cautioned that actual events and results could differ materially from those statements as a

result of a number of factors including, among other things: extensive regulation of telecom industry; the intensely competitive telecom industry; our relationship with our labor union; general economic and political conditions, including those related to the telecom industry; possible disruptions in commercial activities caused by natural and human induced events and disasters, including terrorist activity, armed conflict and highly contagious diseases, such as SARS; and those risks identified in the section entitled Risk Factors in Chunghwa's annual reports on Form F-20 filed with the SEC.

The forward-looking statements in this press release reflect the current belief of Chunghwa as of the date of this press release and we undertake no obligation to update these forward-looking statements for events or circumstances that occur subsequent to such date.

SPECIAL NOTE REGARDING NON-GAAP FINANCIAL MEASURES

A body of generally accepted accounting principles is commonly referred to as GAAP . A non-GAAP financial measure is generally defined by the SEC as one that purports to measure historical or future financial performance, financial position or cash flows but excludes or includes amounts that would not be so adjusted in the most comparable U.S. GAAP measure. We disclose in this report certain non-GAAP financial measures, including EBITDA. EBITDA for any period is defined as consolidated net income (loss) excluding (i) depreciation and amortization, (ii) total net comprehensive financing cost (which is comprised of net interest expense, exchange gain or loss, monetary position gain or loss and other financing costs and derivative transactions), (iii) other expenses, net, (iv) income tax, (v) cumulative effect of change in accounting principle, net of tax and (vi) (income) loss from discontinued operations.

In managing our business we rely on EBITDA as a means of assessing our operating performance. We believe that EBITDA can be useful to facilitate comparisons of operating performance between periods and with other companies because it excludes the effect of (i) depreciation and amortization, which represents a non-cash charge to earnings, (ii) certain financing costs, which are significantly affected by external factors, including interest rates, foreign currency exchange rates and inflation rates, which have little or no bearing on our operating performance, (iii) income tax and tax on assets and statutory employee profit sharing, which is similar to a tax on income and (iv) other expenses or income not related to the operation of the business. EBITDA is also a useful basis of comparing our results with those of other companies because it presents operating results on a basis unaffected by capital structure and taxes.

EBITDA is not a measure of financial performance under U.S. GAAP or ROC GAAP. EBITDA should not be considered as an alternate measure of net income or operating income, as determined on a consolidated basis using amounts derived from statements of operations prepared in accordance with ROC GAAP, as an indicator of operating performance or as cash flows from operating activity or as a measure of liquidity. EBITDA has material limitations that impair its value as a measure of a company s overall profitability since it does not address certain ongoing costs of our business that could significantly affect profitability such as financial expenses and income taxes, depreciation, pension plan reserves or capital expenditures and associated charges. The EBITDA presented herein relates to ROC GAAP, which we use to prepare our consolidated financial statements.

About Chunghwa Telecom

Chunghwa Telecom (TAIEX 2412, NYSE: CHT) is the leading telecom service provider in Taiwan. Chunghwa Telecom provides fixed-line, mobile and Internet and data services to residential and business customers in Taiwan.

Financial Statements for the

Six Months Ended June 30, 2008 and 2007 and

Independent Auditors Report

INDEPENDENT AUDITORS REPORT

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have audited the accompanying balance sheets of Chunghwa Telecom Co., Ltd. as of June 30, 2008 and 2007, and the related statements of income, changes in stockholders—equity and cash flows for the six months then ended. These financial statements are the responsibility of the Company—s management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of Taiwan International Standard Electronics Co., Ltd. and Equity-accounted investee of SENAO of Senao Networks, Inc. The aggregate carrying values of those equity method investees were NT\$655,093 thousand and NT\$614,285 thousand as of June 30, 2008 and 2007 and the equity in their earnings (loss) were NT\$69,502 thousand and NT\$(16,641) thousand, respectively, for the six months then ended. The financial statements of Taiwan International Standard Electronics Co., Ltd. and equity-accounted investee of SENAO of Senao Networks, Inc. as of and for the six months ended June 30, 2008 and 2007, were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for these equity method investees, is based solely on the reports of the other auditors.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits and the financial reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the financial statements referred to first paragraph present fairly, in all material respects, the financial position of the Company as of June 30, 2008 and 2007, and the results of their operations and cash flows for the six months then ended in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As stated in Note 3 to the financial statements, on January 1, 2008, the Company adopted Interpretation 96-052 issued by the Accounting and Research Development Foundation of the Republic of China that requires companies to record bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings.

We have also audited the consolidated financial statements of the Company and its subsidiaries as of the six months ended June 30, 2008 and 2007, and have expressed an modified unqualified opinion on those consolidated financial statements.

August 15, 2008

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors report and financial statements shall prevail.

(Concluded)

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2008 AND 2007

(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL

Chunghwa Telecom Co., Ltd. (Chunghwa) was incorporated on July 1, 1996 in the Republic of China (ROC) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications (MOTC). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications (DGT). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

As a telecommunications service provider of fixed-line and cellular telephone services, Chunghwa was announced as a market dominator by the MOTC; therefore Chunghwa is subject to the applicable telecommunications regulations for market dominators of the ROC.

Effective August 12, 2005, the MOTC had completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the SFC) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE) on October 27, 2000. Certain of Chunghwa s common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa s common shares had also been sold in an international offering of securities in the form of American Depository Shares (ADS) in July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE). The MOTC sold 289,431 thousand common shares of Chunghwa by auction in the ROC on August 9, 2005 and 1,350,682 thousand common shares of Chunghwa on August 10, 2005 in an international offering. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

The numbers of employees as of June 30, 2008 and 2007 are 24,519 and 24,097, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements were prepared in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law, Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the ROC (ROC GAAP). The preparation of financial statements requires management to make reasonable estimates and assumptions on allowances for doubtful accounts, valuation allowances on inventories, depreciation of property, plant and equipment, impairment of assets, bonuses paid to employees, remuneration to board of directors and supervisors, pension plans and income tax which are inherently uncertain. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets expected to be converted to cash, sold or consumed within one year from balance sheet date. Current liabilities are obligations expected to be settled within one year from balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

Cash Equivalents

Cash equivalents are commercial paper and bond with resale agreements purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

Financial Assets and Liabilities at Fair Value Through Profit or Loss

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss (FVTPL) include financial assets or financial liabilities held for trading and those designated as at FVTPL on initial recognition. The Company recognizes a financial asset or a financial liability when the Company becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when the Company losts control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized as expenses as incurred. Financial assets or financial liabilities at FVTPL are remeasured at fair value, subsequently with changes in fair value recognized in earnings. Cash dividends received subsequently (including those received in the period of investment) are recognized as income. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in earnings. A regular way purchases or sales of financial assets is accounted for using trade date accounting.

Derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading. When the fair value is positive, the derivative is recognized as a financial asset, when the fair value is negative, the derivative is recognized as a financial liability.

Available-for-sale Financial Assets

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of stockholders—equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

The recognition and derecognition of available-for-sale financial assets are similar to those of financial assets at FVTPL.

Fair values are determined as follows: Listed stocks at closing prices at the balance sheet date; open-end mutual funds at net asset values at the balance sheet date; bonds quoted at prices provided by the Taiwan GreTai Securities Market; and financial assets and financial liabilities without quoted prices in an active market at values determined using valuation techniques.

Cash dividends are recognized in earnings on the ex-dividend date, except for the dividends declared before acquisition are treated as a reduction of investment cost. Stock dividends are recorded as an increase in the number of shares and do not affect investment income. The total number of shares subsequent to the increase of stock dividends is used for recalculate cost per share.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent to the decrease and recorded as an adjustment to stockholders—equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Held-to-maturity Financial Assets

Held-to-maturity financial assets are carried at amortized cost using the effective interest method. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables

Revenues are recognized when revenues are realized or realizable and earned. Related costs are expensed as incurred.

Sales prices are determined using fair value taking into account related sales discounts and quantity discounts agreed to by the Company and its customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) fixed-monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

An allowance for doubtful receivables is provided based on a review of the collectibility of accounts receivable. The Company determines the amount of allowance for doubtful receivables by examining the aging analysis of outstanding accounts receivable.

Inventories

Inventories are stated at the lower of cost (weighted-average cost) or market value (replacement cost or net realizable value).

Investments Accounted for Using Equity Method

Investments in companies where in the Company exercises significant influence over the operating and financial policy decisions are accounted for by the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments.

Gains or losses on sales from the Company to equity method investees wherein the Company does not have substantial control over these equity investees are deferred in proportion to the Company s ownership percentage in the investees until such gains or losses are realized through transactions with third parties. Gains or losses on sales from the Company to equity method investees are eliminated if the Company has substantial control over these equity investees. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company s ownership percentages in the investees until they are realized through transactions with third parties.

Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards, the cost of an investment shall be analyzed and the difference between the cost of investment and the fair value of identifiable net assets acquired, representing goodwill, shall not be amortize and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of noncurrent assets except (a) financial assets other than investments accounted for using equity method, (b) assets to be disposed of by sale (c) deferred tax assets, and (d) prepaid assets relating to pension or other postretirement benefit plans. If any excess remains after reducing the aforementioned items, the remaining excess shall be recognized as an extraordinary gain.

When the Company subscribes for additional investees shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company share of the investee s equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to additional paid-in capital the extent available, with the balance charged to retained earnings.

Financial Assets Carried at Cost

Investments in equity instruments that do not have a quoted price in an active market and whose fair values that cannot be reliably measured are measured at their original cost, such as non-publicly traded stocks. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Property, Plant and Equipment

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation and accumulated impairment loss. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed currently.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized.

An impairment loss on a revalued asset is charged to unrealized revaluation increment under equity to the extent available, with the balance recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment could be reversed and recognized as a gain, with the remaining credited to unrealized revaluation increment.

Depreciation expense is computed using the straight-line method over the following estimated service lives: land improvements 10 to 30 years; buildings 10 to 60 years; computer equipment 6 to 10 years; telecommunications equipment 6 to 15 years; transportation equipment 5 to 10 years; and miscellaneous equipment 3 to 12 years.

Upon sale or disposal of property, plant and equipment, the related cost, accumulated depreciation, accumulated impairment losses and any unrealized revaluation increment are deducted from the corresponding accounts, and any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

Intangible Assets

Intangible assets mainly including 3G Concession, computer software and patents.

3G Concession is amortized upon the MOTC granted the license of using the straight-line method over the shorter of the legal useful life or estimated useful life. Computer software costs and patents are amortized using the straight-line method over the estimated useful lives of 3-20 years.

Effective January 1, 2007, the Company adopted the newly released Statements of Financial Accounting Standards No. 37, Intangible Assets. Expenditure on research shall be expensed as incurred. Development costs are capitalized when those costs meet relative criteria and are amortized using the straight-line method over estimated useful lives. Development costs do not meet relative criteria shall be expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, as if no impairment loss had been recognized.

Idle Assets

Idle assets are carried at the lower of recoverable amount or carrying amount.

Pension Costs

For employees under defined benefit pension plans, pension costs are recorded based on actuarial calculations. For employees under defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees individual pension accounts during their service periods.

Expense Recognition

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract bundled with the handsets.

Treasury Stock

Treasury stock is recorded at cost and shown as a reduction to stockholders equity. Upon cancellation of treasury stock, the treasury stock account is reduced and the common stocks as well as the capital surplus are reversed on a pro rata basis. If capital surplus is not sufficient for debiting purposes, the difference is charged to retained earnings.

Income Tax

The Company applies inter-period allocations for its income tax, whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years tax liabilities are added to or deducted from the current year s tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year of stockholders approval which is the year subsequent to the year the earnings are generated.

Foreign-currency Transactions

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign equity investees are translated into New Taiwan dollars at the following exchange rates. Assets and liabilities - spot rates at year-end; stockholders equity - historical rates, income and expenses - average rates during the year. The resulting translation adjustments are recorded as a separate component of stockholders equity.

Hedge Accounting

Hedged items are recognized as follows:

- a. The gain or loss from remeasuring the hedging instrument at fair value and the gain or loss on the hedged item attributable to the hedged risk are recognized in profit or loss.
- b. The gain or loss on the hedged item attributable to the hedged risk shall adjust the carrying amount of the hedged item and be currently recognized in earnings.

Reclassifications

Certain accounts in the financial statements as of and for the six months ended June 30, 2007 have been reclassified to conform to the presentation of the financial statements as of and for the six months ended June 30, 2008.

3. EFFECT OF CHANGES IN ACCOUNTING PRINCIPLE

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning January 1, 2008. These bonuses were previously recorded as appropriations from earnings. The adoption of this interpretation resulted in a decrease of NT\$562,776 thousand (including NT\$548,054 thousand recorded by Chunghwa and NT\$14,722 thousand recorded by its equity-accounted investees) in net income and a decrease in basic earnings per share (after income tax) of NT\$0.06 for the six months ended June 30, 2008.

	\$ 3,313,291	\$ 19,692

Chunghwa entered into investment management agreements with a well-known financial institutions (fund managers) to manage its investment portfolios in 2006. As of June 30, 2008, Chunghwa s investment portfolios managed by these fund managers aggregated to an original amount of US\$100,000 thousand. The investment portfolios included listed stocks, mutual funds and derivative instruments.

Chunghwa entered into forward exchange contracts and index future contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates and stock prices. However, derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading.

Outstanding forward exchange contracts on June 30, 2008 and 2007 were as follows:

			Contract
<u>June 30, 2008</u>	Currency	Maturity Period	Amount (in Thousands)

As of June 30, 2008 and 2007, the deposits paid for index future contracts were \$101,374 thousand and \$63,619 thousand, respectively.

In September 2007, Chunghwa entered into a 10-year, foreign currency derivative contract with Goldman Sachs Group Inc. (Goldman) and valuations are made biweekly starting from September 20, 2007 which are 260 valuation periods totally. Under the terms of the contract, if the NT dollar/US dollar exchange rate is less than NT\$31.50 per US\$ at any two consecutive bi-weekly valuation dates during the valuation period starting from October 4, 2007 to September 5, 2017, Chunghwa is required to make a cash payment to Goldman. The settlement amount is determined by the difference between the applicable exchange rates and the base amount of US\$4,000 thousand. Conversely, if the NT dollar/US dollar exchange rate is above NT\$31.50 per US dollar using the same valuation methodology, Goldman would have a settlement obligation to Chunghwa determined using a base amount of US\$2,000 thousand. Further, if the exchange rate is at or above NT\$32.70 per US dollar starting from December 12, 2007 at any time, the contract will be terminated at that time. In accordance with the terms of the contract, Chunghwa deposited US\$3,000 thousand with Goldman (included in other current assets) with annual yield rate of 8%. As of June 30, 2008, there are 240 remaining valuation periods.

Net losses arising from financial assets and liabilities at fair value through profit or loss for the six months ended June 30, 2008 and 2007 were \$2,104,697 thousand (including realized settlement gains of \$559,140 thousand and valuation losses of \$2,663,837 thousand; such valuation loss included a total of \$2,694,448 from foreign currency derivative contract with Goldman) and \$74,306 thousand (including realized settlement losses of \$77,018 thousand and valuation gain of \$2,712 thousand), respectively.

(Concluded)

Chunghwa invested Senao International Co., Ltd. (SENAO) in January 2007, for a purchase price of \$1,065,813 thousand. SENAO engages mainly in telecommunication facilities sales.

Chunghwa established 100% shares of Light Era Development Co., Ltd. (LED) by prepaying \$3,000,000 thousand in January 2008. LED completed its incorporation on February 12, 2008. LED engages mainly in development of property for rent and sale.

Chunghwa invested Chunghwa System Integration Co., Ltd. (CHSI) in December 2007, for a purchase price of \$838,506 thousand. CHSI engages mainly in providing communication and information aggregative services.

Chunghwa invested CHIEF Telecom Inc. in October 2007 and September 2006, for a purchase price of \$171,513 thousand and \$310,652 thousand, respectively. CHIEF engages mainly in internet communication and internet data center (IDC) service.

Chunghwa invested Chunghwa International Yellow Pages Co., Ltd. (CIYP) in December 2006, for a purchase price of \$150,000 thousand. CIYP finished registration in January 2007. CIYP engages mainly in yellow pages sales and advertisement services.

Chunghwa established Viettel-CHT Co., Ltd. with Viettel Co., Ltd. (Viettel-CHT) in Vietnam in April 2008, by investing US\$3,000 thousand cash. V-CHT engages mainly in IDC services.

Chunghwa invested Skysoft Co., Ltd. (SKYSOFT) in October 2007, for a purchase price of \$67,025 thousand. SKYSOFT engages mainly in providing of music on-line, software, electronic information and advertisement services.

Chunghwa invested Chunghwa Telecom Global, Inc. (CHTG) in December 2007, for a purchase price of \$70,429 thousand. CHTG engages mainly in international data and internet services and long distance wholesales.

Chunghwa invested KingWay Technology Co., Ltd. (KWT) in January 2008, for a purchasing price of \$71,770 thousand. KWT engages mainly in publishing books, data processing and software services.

Chunghwa invested ELTA Technology Co., Ltd. (ELTA) in April and October 2007, for a purchase price of \$27,455 thousand and \$16,768 thousand, respectively. ELTA engages mainly in professional on-line and mobile value-added content aggregative services. Chunghwa sold all shares of ELTA on July 23, 2008.

Chunghwa increased its ownership of Spring House Entertainment Inc. (SHE) from 30% to 56% in January 2008, for a purchase price of \$39,800 thousand, and SHE becomes a subsidiary of Chunghwa.

Chunghwa invested Donghwa Telecom Co., Ltd. (DHT) in December 2007 for a purchase price of \$11,430 thousand, DHT engages mainly in international telecommunications, IP fictitious internet and internet transfer services.

Chunghwa has established New Prospect Investments Holdings Ltd. (B.V.I.) (NPIH) and Prime Asia Investments Group Ltd. (B.V.I.) (PAIG) in March 2006. Both holding companies are operating as investment companies and Chunghwa has 100% ownership right in an amount of US\$1 in each holding company.

Chunghwa established Chunghwa Telecom Singapore Pte., Ltd. (CHS) 100% owned subsidiary in July 2008, for a purchase price of \$200,000 thousand, CHS engages mainly in data wholesale, IP Transit, IPLC, IP VPN, and voice wholesale services.

The carrying values of the equity investees and the equity in their earnings as of June 30, 2008 and 2007 are based on the audited financial statements.

All accounts of Chunghwa s subsidiaries were included in Chunghwa s consolidated financial statements.

Chunghwa invested in IBT II in January 2008, for a purchase price of 200,000 thousand. IBT II engages mainly in investment and completed its incorporation on February 13, 2008.

Chunghwa invested GMC in December 2007, for a purchase price of \$168,038 thousand for 16,796 thousand stocks. GMC engages mainly in computer software wholesale and circuit engineering and wire communication services. The National Communications Commission (NCC) informed Chunghwa with the Communication Letter (#0974102087) on April 1, 2008 that its investment in GMC has been overruled, and notified Chunghwa officially on May 5, 2008 that Chunghwa should dispose of all investment in GMC no later than June 30, 2008, otherwise, NCC will enforce a fine according to Telecommunication Act, and the fine may be imposed consecutively until the violation is rectified. Chunghwa has disposed 4,100 thousand stocks of GMC in April 2008. Chunghwa has filed an appeal to NCC on April 30, 2008 and requested NCC officially to suspend the enforcement on June 10, 2008. On July 3, 2008, NCC resolved that according to the administrative penal provisions, Chunghwa will not be subject to fine in a suitable time.

After evaluating the investment in RPTI, Chunghwa determined the investment in RPTI was impaired and recognized a impairment loss of \$22,000 thousand for the year ended December 31, 2007.

Chunghwa invested ETS in December 2007, for a purchase price of \$20,000 thousand. ETS mainly engaged in IP-Private Branch Exchange (IP PBX) and design of voice security module.

Chunghwa disposed all stocks of Siemens with carrying value \$5,250 thousand in March 2008, for a selling price of \$314,055 thousand and Chunghwa recognized a disposal gain of \$308,805 thousand.

The above investments that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at original cost.

14. OTHER NONCURRENT MONETARY ASSETS

	Jun	e 30
	2008	2007
Piping Fund	\$ 1,000,000	\$ 1,000,000
Fixed Line Fund		1,000,000
	\$ 1,000,000	\$ 2,000,000

As part of the government seffort to upgrade the existing telecommunications infrastructure, Chunghwa and other public utility companies were required by the ROC government to contribute a total of \$2,000,000 thousand to a Fixed-Line Fund managed by the Ministry of the Interior and a Piping Fund administered by the Taipei City Government. These funds were used to finance various telecommunications infrastructure projects. Upon completion of the construction projects, the parties using the infrastructure shall reimburse the money to the contributors. According to the communication letter (#0960004447) dated August 6, 2007, the Executive Yuan ratified that the Ministry of the Interior (the Interior) can dissolve the Fixed-Line Fund effective from January 1, 2008. In connection with the dissolution, the Interior disposed the assets liabilities related to the Fixed-Line Fund during the final accounting of the fiscal year 2007. Chunghwa received the full amount of its original contribution of \$1,000,000 thousand on January 11, 2008.

(Concluded)

Pursuant to the related regulations, Chunghwa revalued its land owned as of April 30, 2000 based on the publicly announced values on July 1, 1999. These revaluations which have been approved by the MOA resulted in increases in the carrying values of property, plant and equipment of \$5,986,074 thousand, liabilities for land value incremental tax of \$211,182 thousand, and stockholder s equity other adjustments of \$5,774,892 thousand.

The amendment to the Land Tax Act, relating to the article to permanently lower land value incremental tax, went effective from February 1, 2005. In accordance with the lowered tax rates, Chunghwa recomputed its land value incremental tax, and reclassified the reserve for land value incremental tax of \$116,196 thousand to stockholder s equity other adjustments. As of June 30, 2008, the unrealized revaluation increment was decreased to \$5,823,085 thousand by disposal revaluation assets.

Depreciation on property, plant and equipment for the six months ended June 30, 2008 and 2007 amounted to \$18,636,189 thousand and \$19,424,868 thousand, respectively. No interest expense was capitalized for the six months ended June 30, 2008 and 2007.

18. STOCKHOLDERS EQUITY

Under Chunghwa s Articles of Incorporation Chunghwa s authorized capital is \$120,000,000,020, which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,557,776,912 shares, and 2 preferred shares (at \$10 par value per share), which was approved by the board of directors to be issue on March 28, 2006, and the MOTC purchased 2 preferred shares at par value on April 4, 2006.

For the purpose of privatizing Chunghwa, the MOTC sold 1,109,750 thousand common shares of Chunghwa in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange on July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. Subsequently, the MOTC and Taiwan Mobile Co., Ltd. sold 505,389 thousand and 58,959 thousand common shares of Chunghwa, respectively, in the form of ADS totally amounting to 56,435 thousand units on September 29, 2006. The MOTC and Taiwan Mobile Co., Ltd. have sold 3,024,780 thousand common shares in the form of ADS amounting to 302,478 thousand units. As of June 30, 2008, the outstanding ADSs were 1,781,712 thousand units, which equaled approximately 178,171 thousand common shares and represented 18.64% of Chunghwa s total outstanding common shares.

The ADS holders generally have the same rights and obligations as other common stockholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights;
- b. Sell their ADSs, and
- c. Receive dividends declared and subscribe to the issuance of new shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in Chunghwa s Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when Chunghwa raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of Chunghwa or the nature of its business and any transfer of a substantial portion of Chunghwa s business or property.
- d. The holder of the preferred shares may not transfer the ownership. Chunghwa must redeem all outstanding preferred shares within three years from the date of their issuance.

Under the ROC Company Law, additional paid-in capital may only be utilized to offset deficits. For those companies having no deficits, additional paid-in capital arising from capital surplus can be used to increase capital stock and distribute to stockholders in proportion to their ownership at the ex-dividend date. Also, such amounts can only be declared as a stock dividend by Chunghwa at an amount calculated in accordance with the provisions of existing regulations.

In addition, before distributing a dividend or making any other distribution to stockholders, Chunghwa must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: (a) from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus; (b) no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration; and (c) cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than NT\$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Chunghwa operates in a capital-intensive and technology-intensive industry and requires capital expenditures to sustain its competitive position in high-growth market. Thus, Chunghwa s dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

For the six months ended June 30, 2008, the accrual amounts for bonuses to employees and remuneration to directors and supervisors were accrued based on past experiences and represented 3.37% and 0.2%, respectively, of net income after setting aside 10% legal reserve.

If the initial accrual amounts of the aforementioned bonus are significantly different from the amounts proposed by the board of directors, the difference is charged to the earnings of the year making the initial estimate. Otherwise, the difference between initial accrual amount and the amount resolute in the shareholders meeting is charged to the earnings of the following year as a result of change of accounting estimate.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of Chunghwa. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of Chunghwa, up to 50% of the reserve may, at the option of Chunghwa, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2007 and 2006 earnings of Chunghwa have been approved and resolved by the stockholders on June 19, 2008 and June 15, 2007 as follows:

		Appropriation and Distribution		Dividend Per Share	
	2007			2006	
Legal reserve	\$ 4,823,356	\$ 3,998,445	\$	\$	
Reversal of special reserve	3,304	1,461			
Cash dividends	40,716,130	34,610,885	4.26	3.58	
Stock dividends	955,778		0.10		
Employee bonus cash	1,303,605	1,256,619			
Employee bonus stock	434,535				
Remuneration to directors and supervisors	43,454	35,904			

On June 27, 2008, the board of directors of Chunghwa resolved to transfer capital surplus in the amount of \$19,115,554 thousand to common capital stock. Furthermore, they resolved to reduce the same amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and to refund the excess funds to shareholders. The proposal was resolved by the stockholders meeting which was held on August 14, 2008.

The stockholders meeting held on June 15, 2007 also resolved to transfer capital surplus in the amount of \$9,667,845 thousand to common capital stock.

The above proposals have had an effective registration with the Securities and Futures Bureau of Financial Supervisory Commission, Executive Yuan (SFC). The board of directors resolved the ex-dividend date of aforementioned proposals as August 1, 2007.

The stockholders, at the stockholders meeting held on June 15, 2007, resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of NT\$9,667,845 thousand to common capital stock. Chunghwa obtained the approval letter from Financial Supervisory Commission, Executive Yuan which stated the effective registration date of capital reduction is October 17, 2007. Chunghwa decided October 19, 2007 and December 29, 2007 as the record date and stock transfer date of capital reduction, respectively. Subsequently, common capital stock was reduced by NT\$9,667,845 thousand and a liability for the actual amount of cash to be distributed to stockholders of NT\$9,557,777 thousand was recorded. The difference between the reduction in common capital stock and the distribution amount represents treasury stock of NT\$110,068 thousand held by Chunghwa and concurrently cancelled.

Information on the appropriation of 2007 earnings, employee bonus and remuneration to board of directors and supervisors proposed by the board of directors and resolved by the stockholders is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on July 1, 1998, R.O.C. resident stockholders are allowed a tax credit for their proportionate share of the income tax paid by Chunghwa on earnings generated since January 1, 1998.

19. TREASURY STOCK (COMMON STOCK IN THOUSANDS OF SHARES)

	Six Months Ended
	June 30
	2008 2007
Balance, beginning of period	110,068
Increase	
Decrease	(110,068)

Balance, end of period

According to the Securities and Exchange Law of the ROC, total shares of treasury stock shall not exceed 10% of Chunghwa s stock issued. The total amount of the repurchased shares shall not be more than the total amount of retained earnings, capital surplus and realized additional paid-in capital. The shares repurchased by Chunghwa shall not be pledged in accordance with Securities and Exchange Law of the ROC. The holders of treasury stocks are not entitled to vote in stockholders meetings.

In order to maintain its credit and stockholders equity, Chunghwa repurchased 121,075 thousand treasury stock for \$7,217,562 thousand from August 29, 2007 to October 25, 2007. On December 29, 2007, Chunghwa cancelled 11,007 thousand shares of treasury stock by reducing common stock of \$110,068 thousand. The remaining treasury stock of 110,068 thousand shares amounted \$7,107,494 thousand was cancelled on February 21, 2008.

- 30 -

Chunghwa presumes that the bonuses to employees will be settled in shares and takes those shares into consideration when calculating the weighted average number of shares outstanding used in the calculation of diluted EPS. The number of shares is calculated by dividing the amount of bonuses by the closing price of the Chunghwa s shares of the balance sheet date. The dilutive effect of the shares needs to be considered until the shareholders resolve the number of shares to be distributed to employees in their meeting in the following year.

The diluted earnings per share for the six months ended June 30, 2008 and 2007 was due to the effect of potential common stock of stock options by SENAO.

23. PENSION PLAN

Chunghwa completed privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the Privatization Fund) under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa would, on behalf of the MOTC to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization.

The pension plan under the Labor Pension Act of ROC is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. The employees who were subject to the Labor Standards Law prior to the July 1, 2005 may choose to be subject to the pension mechanism under this Act or continue to remain to be subject to the pension mechanism under the Labor Standards Law. For those employees who were subject to the Labor Standards Law prior to July 1, 2005 and still work for the same company after July 1, 2005 and choose to be subject to the pension mechanism under this Act, their seniority as of July 1, 2005 shall be maintained. The monthly contribution shall not be less than 6% of each employee s monthly salary. Chunghwa made monthly contributions equal to 6% of each employee s monthly salary to employee s pension accounts beginning July 1, 2005.

Chunghwa s pension plan is considered as a defined benefit plan under the Labor Standards Law that provide benefits based on an employee s length of service and average six-month salary prior to retirement at retirement. Chunghwa contributes an amount at 15% or less of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan.

The balance of Chunghwa s plan assets subject to defined benefit plan were \$2,961,507 thousand and \$2,521,981 thousand as of June 30, 2008 and 2007, respectively.

Pension costs of Chunghwa were \$1,410,232 thousand (\$1,374,036 thousand subject to defined benefit plan and \$36,196 thousand subject to defined contribution plan) and \$1,524,809 thousand (\$1,496,208 thousand subject to defined benefit plan and \$28,601 thousand subject to defined contribution plan) for the six months ended June 30, 2008 and 2007, respectively.

24. TRANSACTIONS WITH RELATED PARTIES

The ROC Government, one of Chunghwa s customers held significant equity interest in Chunghwa. Chunghwa provides fixed-line services, wireless services, internet and data and other services to the various departments and institutions of the ROC Government and other state-owned enterprises in the normal course of business and at arm s-length prices. The information on service revenues from government bodies and related organizations have not been provided because details of the type of transactions were not summarized by Chunghwa. Chunghwa believes that all costs of doing business are reflected in the financial statements.

a. Chunghwa engages in business transactions with the following related parties:

Company	Relationship
Senao International Co., Ltd. (SENAO)	Subsidiary (it was the equity-accounted investee in
	January 2007, and has substantial control in April
	2007.)
Light Era Development Co., Ltd. (LED)	Subsidiary
CHIEF Telecom, Inc. (CHIEF)	Subsidiary
Chunghwa International Yellow Pages Co., Ltd. (CIYP)	Subsidiary
Chunghwa System Integration Co., Ltd. (CHSI)	Subsidiary (it was the subsidiary of equity- accounted
	investee, Chunghwa Investment Co., Ltd., it becomes to
	Chunghwa s subsidiary since December 2007.)
Spring House Entertainment Inc. (SHE)	Subsidiary (it was the equity-accounted investee, it
	becomes to Chunghwa s subsidiary since January 2008)
Chunghwa Telecom Global, Inc. (CHTG)	Subsidiary (it was the subsidiary of equity- accounted
	investee, Chunghwa Investment Co., Ltd., it becomes to
	Chunghwa s subsidiary since December 2007.)
Donghwa Telecom Co., Ltd. (DHT)	Subsidiary (it was the indirect owned subsidiary of
	equity-accounted investee, Chunghwa Investment Co.,
	Ltd., it becomes to Chunghwa s subsidiary since
	December 2007.)
New Prospect Investments Holdings Ltd. (B.V.I.)	Subsidiary
Prime Asia Investments Group Ltd. (B.V.I.)	Subsidiary
Uni-Gate Telecom Inc.	Subsidiary of CHIEF
Chunghwa Investment Co., Ltd. (CHI)	Equity-accounted investee
Taiwan International Standard Electronics Co., Ltd. (TISE)	Equity-accounted investee
ELTA Technology Co., Ltd. (ELTA)	Equity-accounted investee
Skysoft Co., Ltd. (SKYSOFT)	Equity-accounted investee
KingWay Technology Co., Ltd. (KWT)	Equity-accounted investee
Viettel-Cht Co., Ltd. (Viettel-CHT)	Equity-accounted investee
Chunghwa Precision Test Technical Co., Ltd. (CHPT)	Equity-accounted investee of CHI

	, , ,		,	_

Chunghwa sold the land with a carrying value of \$703,125 thousand to Light Era Development Co., Ltd.(LED) at price of \$1,820,880 thousand. However, since the gain on disposal of land amounting to \$1,117,755 thousand is unrealized, the gain is recognized as deferred credit profit on intercompany transactions, and will not be recognized as revenue till the gain is realized in the future.

The transaction terms, except of SENAO, CHIEF, CIYP were determined in accordance with mutual agreements. The foregoing transactions with related parties were conducted under normal commercial terms.

25. COMMITMENTS AND CONTINGENT LIABILITIES

As of June 30, 2008, Chunghwa s remaining commitments under non-cancellable contracts with various parties were as follows:

- a. Acquisitions of land and buildings of \$1,004,818 thousand.
- b. Acquisitions of telecommunications equipment of \$21,856,769 thousand.
- c. Unused letters of credit of \$1,076,870 thousand.
- d. Contracts to print billing, envelops and selling gifts \$190,220 thousand.
- e. Chunghwa also has non-cancellable operating leases covering certain buildings, computers, computer peripheral equipment and operating system software under contracts that expire in various years. Future lease payments were as follows:

	Kental
Year	Amount
2008 (from July 1, 2008 to December 31, 2008)	\$ 642,132
2009	1,100,092
2010	795,156
2011	520,016
2012 and thereafter	468,379

- f. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by Chunghwa on August 15, 1996 (classified as long-term investment other monetary assets). When the fund is not sufficient, Chunghwa will contribute the remaining \$1,000,000 thousand after getting the notification from the Taipei City Government. For Piping Fund, Chunghwa understands that if the project is considered no longer be necessary by the ROC government, Chunghwa will receive back its proportionate share of the net equity of the fund upon dissolution of the fund.
- g. A portion of the land used by Chunghwa during the period July 1, 1996 to December 31, 2004 was co-owned by Chunghwa and Chunghwa Post Co., Ltd. In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to Chunghwa to reimburse Chunghwa Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of Chunghwa s ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. However, Chunghwa believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, Chunghwa has filed an appeal at the Taiwan Taipei District Court. As of audit report date, the case is still in the procedure of the first instance at the Taiwan Taipei District Court.
- h. Giga Media filed a civil action against Chunghwa with the Taiwan Taipei District Court. The complaint alleged that Chunghwa infringed Giga Media s R.O.C. Patent No. I258284 which is a Point-to-Point Protocol over Ethernet (PPPoE) technique used to launch fixed IP of ADSL. Giga Media is seeking damage of NT\$500,000 thousand and interest calculated at 5% from the date the indictment was received by Chunghwa to the payment date. Chunghwa claims that its service technique is different from the nature of Giga Media s patent and that it does not need to use Giga Media s PPPoE technique for its services. Chunghwa has filed a statement of defense with the Taiwan Taipei District Court.

26. FAIR VALUE OF FINANCIAL INSTRUMENTS

a. Fair values of financial instruments were as follows:

		June 30

- b. Methods and assumptions used in the estimation of fair values of financial instruments:
 - 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. Because of the short maturities of these instruments, the carrying value represents a reasonable basis to estimate fair values. This method does not apply to the financial instruments discussed in Notes 2 and 3 below.
 - 2) If the financial assets/liabilities at fair value through profit or loss and the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market price of the available-for-sale financial assets are not readily available, valuation techniques is used incorporating estimates and assumptions that are consistent with prevailing market conditions.

3) Long-term investments are based on the net asset values of the investments in unconsolidated companies, if quoted market prices are not available.

c. Fair values of financial instruments were as follow:

	Mark	sed on Quoted set Price ne 30	Amount Determined Usin Valuation Techniques June 30		
	2008	2007	2008	2007	
Assets					
Financial assets at fair value through profit or

Available-for-sale financial assets	18,509,251	17,615,909			
Hedging derivative financial assets (classified as					
other current monetary assets)		2,861			
Liabilities					
Financial liabilities at fair value through profit or					
loss	38,684	19,692	3,274,607		
Hedging derivative financial liabilities (classified as					
other current liabilities)	5,263				

d. Information about financial risks

1) Market risk

The foreign exchange rate fluctuations would result in Chunghwa s foreign-currency-dominated assets and liabilities and open forward exchange contracts exposed to rate risk.

The fluctuations of market price would result in the index future contracts exposed to price risk.

The financial instruments categorized as available-for-sale financial assets are mainly listed stocks and open-end mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, Chunghwa would assess the risk before investing, therefore, no material market risk are anticipated.

Credit risk

Credit risk represents the potential loss that would be incurred by Chunghwa if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the aforementioned financial instruments are reputable financial institutions. Management believes that Chunghwa s exposure to default by those parties is low.

3) Liquidation risk

Chunghwa has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the cash flow risk is low.

The financial instruments of the Company categorized as available-for-sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risk are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk are anticipated.

- 37 -

4) Cash flow interest rate risk

Chunghwa engages in investments in fixed-interest-rate debt securities. Therefore, cash flows from such securities are not expected to fluctuate significantly due to changes in market interest rates.

In addition, Chunghwa engages in investments in floating-interest-rate debt securities. The changes in market interest rate would impact the floating-interest rate; therefore, cash flows from such securities are expected to fluctuate due to changes in market interest rates.

e. Fair value hedge

Chunghwa entered into forward exchange contracts is mainly to hedge the fluctuation in exchange rates of beneficiary certificate denominated in foreign currency, which is fair value hedge. The transaction was assessed as highly effective for the six months ended June 30, 2008 and 2007.

Outstanding forward exchange contracts of hedge as of June 30, 2008 and 2007:

	Currency	Holding Period	Amount (in Thousands)
June 30, 2008			
Sell	USD/NTD	2008.09	US\$ 65,000
June 30, 2007			
Sell	USD/NTD	2007.09	US\$ 15,000

As of June 30, 2008 and 2007, the forward exchange contract was measured at fair value of \$5,263 thousand (classified as other current liabilities) and \$2,861 thousand (classified as other current monetary assets).

According to the regulations of Securities and Futures Bureau, Chunghwa should disclose the derivative transactions of Chunghwa s investees, SENAO, which was as follows:

1) Holding period and contract amounts

SENAO entered into a forward exchange contract for the six months ended June 30, 2008 and 2007 to reduce the exposure to foreign currency risk.

Outstanding forward exchange contracts as of June 30, 2008 and 2007:

			Contract
	Currency	Holding Period	Amount (in Thousands)
June 30, 2008			
Buy	USD/NTD	2008.07	NT\$ 149,934
<u>June 30, 2007</u>			
Buy	USD/NTD	2007.07	NT\$ 31,727

Market risk

SENAO uses forward contracts to hedge the fluctuations of adverse exchange rate on foreign currency assets and liabilities. The gain and loss from the fluctuation of exchange rate under forward contracts was offset by that of the hedged assets or liabilities. Therefore, the market risk was not significant.

3) Credit risk

Financial assets represents the potential loss that would be incurred by SENAO if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The maximum credit risk amount of all kinds of financial instruments is equal to its book value.

4) Liquidation risk

SENAO s investments in domestic open-end mutual fund and convertible bonds are publicly-traded, easily converted to cash. Therefore, no material cash flow risks are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk would be anticipated. SENAO uses forward contracts to hedge the fluctuations of adverse exchange rate on foreign currency assets and liabilities. There will be corresponding cash inflows or outflows upon maturity dates, and SENAO has sufficient cash flow and operating capital to meet the cash demand, thus; there shall be no risk on raising capital. In addition, the exchange rates in the forward contracts are fixed; therefore, there is no significant risk of cash flow.

27. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFC for Chunghwa and its investees:

- a. Financing provided: None.
- b. Endorsement/guarantee provided: None.
- c. Marketable securities held: Please see Table 1.
- d. Marketable securities acquired and disposed of at costs or prices at least \$100 million or 20% of the paid-in capital: Please see Table 2.
- e. Acquisition of individual real estate at costs of at least \$100 million or 20% of the paid-in capital: Please see Table 3.
- f. Disposal of individual real estate at prices of at least \$100 million or 20% of the paid-in capital: Please see Table 4.
- g. Total purchase from or sale to related parties amounting to at least \$100 million or 20% of the paid-in capital: Please see Table 5.
- h. Receivables from related parties amounting to \$100 million or 20% of the paid-in capital: Please see Table 6.

i. Names, locations, and other information of investees on which the Company exercises significant influence: Please see Table 7.

- j. Financial transactions: Please see Notes 5 and 26.
- k. Investment in Mainland China: Please see Table 8.

Consolidated Financial Statements for the

Six Months Ended June 30, 2008 and 2007 and

Independent Auditors Report

INDEPENDENT AUDITORS REPORT

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have audited the accompanying consolidated balance sheets of Chunghwa Telecom Co., Ltd. and its subsidiaries (the Company) as of June 30, 2008 and 2007, and the related consolidated statements of income, changes in stockholders equity and cash flows for the six months then ended. These consolidated financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of Taiwan International Standard Electronics Co., Ltd. and of Senao Networks, Inc. The aggregate carrying values of these equity method investees were NT\$830,220 thousand and NT\$796,430 thousand, respectively, as of June 30, 2008 and 2007 and the equity in their earnings were NT\$80,097 thousand and NT\$14,925 thousand, respectively, for the six months then ended. The financial statements of Taiwan International Standard Electronics Co., Ltd. and of Senao Networks, Inc. as of and for the six months ended June 30, 2008 and 2007, were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for these equity method investees, is based solely on the reports of the other auditors.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards required that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits and the financial reports of other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the consolidated financial statements referred to first paragraph present fairly, in all material respects, the consolidated financial position of the Company as of June 30, 2008 and 2007, and the consolidated results of their operations and consolidated cash flows for the six months then ended in conformity with the Securities and Exchange Act and the Guidelines Governing the Preparation of Financial Reports by Securities Issuers relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As stated in Note 3 to the consolidated financial statements, on January 1, 2008, the Company adopted Interpretation 96-052 issued by the Accounting and Research Development Foundation of the Republic of China that requires companies to record bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings.

August 15, 2008

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors report and financial statements shall prevail.

CHUNGHWA TELECOM CO., LTD. AND ITS SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2008 AND 2007

(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. GENERAL

Chunghwa Telecom Co., Ltd. (Chunghwa) was incorporated on July 1, 1996 in the Republic of China (ROC) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications (MOTC). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications (DGT). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

As a telecommunications service provider of fixed-line and cellular telephone services, Chunghwa was announced as a market dominator by the MOTC; therefore Chunghwa is subject to the applicable telecommunications regulations for market dominators of the ROC.

Effective August 12, 2005, the MOTC had completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the SFC) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE) on October 27, 2000. Certain of Chunghwa s common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa s common shares had also been sold in an international offering of securities in the form of American Depository Shares (ADS) on July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE). The MOTC sold 289,431 thousand common shares of Chunghwa by auction in the ROC on August 9, 2005 and 1,350,682 thousand common shares of Chunghwa on August 10, 2005 in an international offering. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

Senao International Co., Ltd. (SENAO) was incorporated in 1979. SENAO engages mainly in selling and maintaining mobile phones and its peripheral products. Chunghwa acquired 31.33% shares of SENAO on January 15, 2007 and has substantial control in SENAO by obtaining four out of seven seats of the board of directors of SENAO on April 12, 2007.

Chunghwa established Chunghwa International Yellow Pages Co., Ltd. (CIYP) in January 2007. CIYP engages mainly in yellow pages sales and advertisement services.

CHIEF Telecom Inc. (CHIEF) was incorporated in 1991. CHIEF engages mainly in internet communication and internet date center (IDC) service. Chunghwa acquired 70% shares of CHIEF on September 2006.

Unigate Telecom Inc. (Unigate) was established by CHIEF in 1999. Unigate engages mainly in telecommunication and information software service.

CHIEF Telecom (Hong Kong) Limited (CHIEF (HK)) was established by CHIEF in 2003. CHIEF (HK) engages mainly in internet communication and internet data center (IDC) service.

Chunghwa System Integration Co., Ltd. (CHSI) was incorporated in 2002. CHSI engages mainly in providing communication and information aggregative services. Chunghwa acquired 100% shares of CHSI in December 2007.

Concord Technology Co., Ltd. (Concord), a subsidiary of CHSI, was incorporated in 2006. Concord engages mainly in investment.

Glory Network System Service (Shanghai) Co., Ltd. (GNSS (Shanghai)), a subsidiary of Concord, was incorporated in 2006. GNSS (Shanghai) engages mainly in planning and designing of systems and communications and information aggregative services.

Chunghwa Telecom Global, Inc. (CHTG) was incorporated in 2004. CHTG engages mainly in international data and internet services and long distance call wholesales to carriers. Chunghwa acquired 100% shares of CHTG in December 2007.

Donghwa Telecom Co., Ltd. (DHT) was incorporated in 2004. DHT engages mainly in international telecommunications, IP fictitious internet and internet transfer services. Chunghwa acquired 100% shares of DHT in December 2007.

Spring House Entertainment Inc. (SHE) was incorporated in 2000. SHE was an equity method investee before Chunghwa obtained control interest over it. SHE engages mainly in network services, producing digital entertainment contents and broadband visual sound terrace development. Chunghwa acquired an additional 26% of the shares of SHE in January 2008. Chunghwa was the only shareholder that subscribed for the issuance of new shares of SHE and was accounted for as a capital transaction between a parent and subsidiary. The 44% minority interest in SHE was accounted for at historical cost basis. Cash held by SHE in January 2008 was NT\$13,192 thousand.

Chunghwa established Light Era Development Co., Ltd. (LED) in January 2008. LED engages mainly in development of property for rent and sale.

Chunghwa has established New Prospect Investments Holdings Ltd. (New Prospect) and Prime Asia Investments Group Ltd. (Prime Asia) in March 2006, but not on operation stage yet. Both holding companies are operating as investment companies and Chunghwa has 100% ownership right in an amount of US\$1 in each holding company.

As of June 30, 2008 and 2007, Chunghwa and its subsidiaries (the Company) had 26,885 and 25,757 employees, respectively.

The following diagram presents information regarding the relationship and ownership percentages between Chunghwa and its subsidiaries as of June 30, 2008:

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated financial statements were prepared in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers relevant to financial accounting standards and accounting principles generally accepted in the ROC (ROC GAAP). The preparation of consolidated financial statements requires management to make reasonable estimates and assumptions on allowances for doubtful accounts, valuation allowances on inventories, depreciation of property, plant and equipment, impairment of assets, bonuses paid to employees, remuneration to board of directors and supervisors, pension plans and income tax which are inherently uncertain. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

Principle of Consolidation

The accompanying consolidated financial statements include the accounts of all directly and indirectly majority owned subsidiaries of Chunghwa, and the accounts of investees in which Chunghwa s ownership percentage is less than 50% but over which Chunghwa has a controlling interest. All significant intercompany transactions and balances are eliminated upon consolidation.

The consolidated financial statements for the six months ended June 30, 2008 include the accounts of Chunghwa, SENAO, CIYP, CHIEF, Unigate, CHIEF (HK), CHSI, Concord, GNSS (Shanghai), CHTG, DHT, SHE, LED, New Prospect and Prime Asia. The consolidated financial statements for the six months ended June 30, 2007 include the accounts of Chunghwa, SENAO, Taiwan Icon, CIYP, CHIEF, Unigate, CHIEF (HK), New Prospect and Prime Asia.

For foreign subsidiaries using their local currency as their functional currency, assets and liabilities are translated into New Taiwan dollars at the exchange rates in effect on the balance sheet date; stockholders equity accounts are translated into New Taiwan dollars at using historical exchange rates and income statement accounts are translated into New Taiwan dollars at using average exchange rates during the period.

Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets expected to be converted to cash, sold or consumed within one year from balance sheet date. Current liabilities are obligations expected to be settled within one year from balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

For LED engages mainly in development of property for sale, which has an operating cycle of over one year, the length of the operating cycle is the basis for classifying construction assets and liabilities as current or noncurrent.

Cash Equivalents

Cash equivalents are commercial paper and bond with resale agreements purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

Financial Assets and Liabilities at Fair Value Through Profit or Loss

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss (FVTPL) include financial assets or financial liabilities held for trading and those designated as at FVTPL on initial recognition. Chunghwa recognizes a financial asset or a financial liability when Chunghwa becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when Chunghwa losts control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized as expenses as incurred. Financial assets or financial liabilities at FVTPL are remeasured at fair value, subsequently with changes in fair value recognized in earnings. Cash dividends received subsequently (including those received in the period of investment) are recognized as income. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in earnings. A regular way purchases or sales of financial assets is accounted for using trade date accounting.

Derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

Available-for-sale Financial Assets

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of stockholders—equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

The recognition and derecognition of available-for-sale financial assets are similar to those of financial assets at FVTPL.

Fair values are determined as follows: Listed stocks - at closing prices at the balance sheet date; open-end mutual funds - at net asset values at the balance sheet date; bonds - quoted at prices provided by the Taiwan GreTai Securities Market; and financial assets and financial liabilities without quoted prices in an active market - at values determined using valuation techniques.

Cash dividends are recognized in earnings on the ex-dividend date, except for the dividends declared before acquisition are treated as a reduction of investment cost. Stock dividends are recorded as an increase in the number of shares and do not affect investment income. The total number of shares subsequent to the increase of stock dividends is used for recalculate cost per share.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent to the decrease and recorded as an adjustment to stockholders—equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Held-to-maturity Financial Assets

Held-to-maturity financial assets are carried at amortized cost using the effective interest method. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains and losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables

Revenues are recognized when revenues are realized or realizable and earned. Related costs are expensed as incurred.

Sales prices are determined using fair value taking into account related sales discounts and quantity discounts agreed to by the Company and its customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

An allowance for doubtful receivables is provided based on a review of the collectibility of accounts receivable. The Company determines the amount of allowance for doubtful receivables by examining the aging analysis of outstanding accounts receivable.

Inventories

Inventories are stated at the lower of cost (weighted-average cost) or market value (replacement cost or net realizable value).

Real Estate

Advances from the sale of real estate included in unearned revenue are deferred and recognized as revenue when the ownership is transferred to customers after completion of the construction.

Land held for commercial, industrial or residential development is stated at the lower of cost or market value.

Marketing expenses for inducing sale of real estate before completion of the construction are treated as deferred marketing expenses (included in other current assets) and recognized as expenses when the following conditions are met: a) the construction is completed and b) the ownership of the real estate is transferred to customers.

Investments Accounted for using Equity Method

Investments in companies where in Chunghwa exercises significant influence over the operating and financial policy decisions are accounted for by the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments.

Gains or losses on sales from the Company to equity method investees wherein Chunghwa does not have substantial control over these equity investees are deferred in proportion to Chunghwa s ownership percentage in the investees until such gains or losses are realized through transactions with third parties. Gains or losses on sales from the Company to equity method investees are eliminated if Chunghwa has substantial control over these equity investees. Gains or losses on sales from equity method investees to Chunghwa are deferred in proportion to Chunghwa s ownership percentages in the investees until they are realized through transactions with third parties.

Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards, the cost of an investment shall be analyzed and the difference between the cost of investment and the fair value of identifiable net assets acquired, representing goodwill, shall not be amortize and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of noncurrent assets except (a) financial assets other than investments accounted for using equity method, (b) assets to be disposed of by sale (c) deferred tax assets, and (d) prepaid assets relating to pension or other postretirement benefit plans. If any excess remains after reducing the aforementioned items, the remaining excess shall be recognized as an extraordinary gain.

When the Company subscribes for additional investees shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company share of the investee s equity. Chunghwa records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to additional paid-in capital the extent available, with the balance charged to retained earnings.

Financial Assets Carried at Cost

Investments in equity instruments that do not have a quoted price in an active market and whose fair values that cannot be reliably measured are measured at their original cost, such as non-publicly traded stocks. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Property, Plant and Equipment

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation and accumulated impairment loss. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized.

An impairment loss on a revalued asset is charged to unrealized revaluation increment under equity to the extent available, with the balance recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment could be reversed and recognized as a gain, with the remaining credited to unrealized revaluation increment.

Depreciation expense is computed using the straight-line method over the following estimated service lives: land improvements - 10 to 30 years; buildings - 10 to 60 years; computer equipment - 3 to 10 years; telecommunication equipment - 5 to 30 years; transportation equipment - 5 to 10 years; and miscellaneous equipment - 2 to 12 years.

Upon sale or disposal of property, plant and equipment, the related cost, accumulated depreciation, accumulated impairment losses and any unrealized revaluation increment are deducted from the corresponding accounts, and any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

Intangible Assets

Intangible assets mainly including 3G Concession, computer software, patents and goodwill.

3G Concession is amortized upon the MOTC granted the license of using the straight-line method over the shorter of the legal useful life or estimated useful life. Computer software costs and patents are amortized using the straight-line method over the estimated useful lives of 3-20 years. Goodwill is not being amortized.

Effective January 1, 2007, the Company adopted the newly released Statements of Financial Accounting Standards No. 37, Intangible Assets. Expenditure on research shall be expensed as incurred. Development costs are capitalized when those costs meet relative criteria and are amortized using the straight-line method over estimated useful lives. Development costs do not meet relative criteria shall be expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, as if no impairment loss had been recognized.

Reversal of a previously recognized impairment loss on goodwill is prohibited.

Idle Assets

Idle assets are carried at the lower of recoverable amount or carrying amount.

Pension Costs

For employees under defined benefit pension plans, pension costs are recorded based on actuarial calculations. For employees under defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees individual pension accounts during their service periods.

Expense Recognition

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract bundled with the handsets.

Treasury Stock

Treasury stock is recorded at cost and shown as a reduction to stockholders equity. Upon cancellation of treasury stock, the treasury stock account is reduced and the common stocks as well as the capital surplus are reversed on a pro rata basis. If capital surplus is not sufficient for debiting purposes, the difference is charged to retained earnings.

Share-based Compensation

Employee stock options granted on or after January 1, 2008 are in accordance with under SFAS No. 39, Accounting for Share-based Payment.

Employee stock options granted between January 1, 2004 and December 31, 2007 were accounted for under the interpretations issued by the Accounting Research and Development Foundation. The Company adopted the intrinsic value method, under which compensation cost was recognized on a straight-line basis over the vesting period. According to the Interpretation 96-330 issued by ARDF in December 2007, the compensation cost remains the same if the revised plan meets both criteria in the aforementioned interpretation. If the revised plan does not meet both criteria stated in the interpretation, the revised plan would replace the original plan and the Company would calculate the incremental compensation cost using intrinsic value method and amortize over the vesting period.

Income Tax

The Company applies inter-period allocations for its income tax, whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years tax liabilities are added to or deducted from the current year s tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year of stockholders approval which is the year subsequent to the year the earnings are generated.

Foreign-currency Transactions

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign equity investees are translated into New Taiwan dollars at the following exchange rates. Assets and liabilities - spot rates at year-end; stockholders equity - historical rates, income and expenses - average rates during the year. The resulting translation adjustments are recorded as a separate component of stockholders equity.

Hedge Accounting

Hedged items are recognized as follows:

- a. The gain or loss from remeasuring the hedging instrument at fair value and the gain or loss on the hedged item attributable to the hedged risk are recognized in profit or loss.
- b. The gain or loss on the hedged item attributable to the hedged risk shall adjust the carrying amount of the hedged item and be currently recognized in earnings.

Reclassifications

Certain accounts in the financial statements as of and for the six months ended June 30, 2007 have been reclassified to conform to the presentation of the financial statements as of and for the six months ended June 30, 2008.

3. EFFECT OF CHANGES IN ACCOUNTING PRINCIPLES

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning from January 1, 2008. These bonuses were previously recorded as appropriations from earnings. The adoption of this interpretation resulted in a decrease of NT\$562,776 thousand in consolidated net income which was attributed to shareholders of the parent and a decrease in basic earnings per share (after income tax) of NT\$0.06 for the six months ended June 30, 2008.

Chunghwa entered into investment management agreements with a well-known financial institutions (fund managers) to manage its investment portfolios in 2006. As of June 30, 2008, Chunghwa s investment portfolios managed by these fund managers aggregated to an original amount of US\$100,000 thousand. The investment portfolios included listed stocks, mutual funds and derivative instruments.

Chunghwa entered into forward exchange contracts and index future contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates and stock prices. However, derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading.

Outstanding forward exchange contracts on June 30, 2008 and 2007 were as follows:

As of June 30, 2008 and 2007, the deposits paid for index future contracts were \$101,374 thousand and \$63,619 thousand, respectively.

In September 2007, Chunghwa entered into a 10-year, foreign currency derivative contract with Goldman Sachs Group Inc. (Goldman) and valuations are made biweekly starting from September 20, 2007 which are 260 valuation periods totally. Under the terms of the contract, if the NT dollar/US dollar exchange rate is less than NT\$31.50 per US\$ at any two consecutive bi-weekly valuation dates during the valuation period starting from October 4, 2007 to September 5, 2017, Chunghwa is required to make a cash payment to Goldman. The settlement amount is determined by the difference between the applicable exchange rates and the base amount of US\$4,000 thousand. Conversely, if the NT dollar/US dollar exchange rate is above NT\$31.50 per US dollar using the same valuation methodology, Goldman would have a settlement obligation to Chunghwa determined using a base amount of US\$2,000 thousand. Further, if the exchange rate is at or above NT\$32.70 per US dollar starting from December 12, 2007 at any time, the contract will be terminated at that time.

In accordance with the terms of the contract, Chunghwa deposited US\$3,000 thousand with Goldman (included in other current assets) with annual yield rate of 8%. As of June 30, 2008, there are 240 remaining valuation periods.

Net loss arising from financial assets and liabilities at fair value through profit or loss for the six months ended June 30, 2008 and 2007 were \$2,121,566 thousand (including realized settlement gain of \$542,283 thousand and net valuation loss of \$2,663,849 thousand; such valuation loss included a total of \$2,694,448 from foreign currency derivative contract with Goldman) and \$74,366 thousand (including realized settlement loss of \$77,018 thousand and valuation gain of \$2,652 thousand), respectively.

Chunghwa invested in IBT II in January 2008, for a purchase price of \$200,000 thousand. IBT II engages mainly in investment and completed its incorporation on February 13, 2008.

Chunghwa invested GMC in December 2007, for a purchase price of \$168,038 thousand for 16,796 thousand stocks. GMC engages mainly in computer software wholesale and circuit engineering and wire communication services. The National Communications Commission (NCC) informed Chunghwa with the Communication Letter (#0974102087) on April 1, 2008 that its investment in GMC has been overruled, and notified Chunghwa officially on May 5, 2008 that Chunghwa should dispose of all investment in GMC no later than June 30, 2008, otherwise, NCC will enforce a fine according to Telecommunication Act, and the fine may be imposed consecutively until the violation is rectified. Chunghwa has disposed 4,100 thousand stocks of GMC in April 2008. Chunghwa has filed an appeal to NCC on April 30, 2008 and requested NCC officially to suspend the enforcement on June 10, 2008. On July 3, 2008, NCC resolved that according to the administrative penal provisions, Chunghwa will not be subject to fine in a suitable time.

After evaluating the investment in RPTI, Chunghwa determined the investment in RPTI was impaired and recognized an impairment loss of \$22,000 thousand for the year ended December 31, 2007.

Chunghwa invested ETS in December 2007, for a purchase price of \$20,000 thousand. ETS mainly engaged in IP-Private Branch Exchange (IP PBX) and design of voice security module.

Chunghwa disposed all stocks of Siemens with carrying value \$5,250 thousand in March 2008, for a selling price of \$314,055 thousand and Chunghwa recognized a disposal gain of \$308,805 thousand.

The above investments that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at original cost.

14. OTHER NONCURRENT MONETARY ASSETS

	Jun	e 30
	2008	2007
Piping Fund	\$ 1,000,000	\$ 1,000,000
Taiwan Goal Co., Ltd. (TG)	29,100	
Fixed-Line Fund		1,000,000
	\$ 1.029,100	\$ 2,000,000

As part of the government seffort to upgrade the existing telecommunications infrastructure, Chunghwa and other public utility companies were required by the ROC government to contribute a total of \$2,000,000 thousand to a Fixed-Line Fund managed by the Ministry of the Interior and a Piping Fund administered by the Taipei City Government. These funds were used to finance various telecommunications infrastructure projects. Upon completion of the construction projects, the parties using the infrastructure shall reimburse the money to the contributors. According to the communication letter (#0960004447) dated August 6, 2007, the Executive Yuan ratified that the Ministry of the Interior (the Interior) can dissolve the Fixed-Line Fund effective from January 1, 2008. In connection with the dissolution, the Interior disposed the assets and liabilities related to the Fixed-Line Fund during the final accounting of the fiscal year 2007. Chunghwa received the full amount of its original contribution of \$1,000,000 thousand on January 11, 2008.

CHSI invested Taiwan Goal Co., Ltd. (TG) in January 2008, for a purchase price of \$30,000 thousand. TG engages mainly in import and export activities for machine wholesale, arms and ammunition products. On March 17, 2008, the stockholders of TG resolved to dissolve TG at a special meeting. Currently, TG has registered dissolution and cancelled the certificate of Profit Seeking Enterprise, and will file the statement of complete liquidation to the Taipei District Court as well. Therefore, CHSI has reclassified its investment to other financial assets and recognized a loss of \$900 thousand for the six month ended June 30, 2008.

(Concluded)

Pursuant to the related regulations, Chunghwa revalued its land owned as of April 30, 2000 based on the publicly announced values as of July 1, 1999. These revaluations which were approved by the MOA resulted in increases in the carrying values of property, plant and equipment of \$5,986,074 thousand, liabilities for land value incremental tax of \$211,182 thousand, and stockholder s equity - other adjustments of \$5,774,892 thousand.

The amendment to the Land Tax Act, relating to the article to permanently lower land value incremental tax, went effective from February 1, 2005. In accordance with the lowered tax rates, Chunghwa recomputed its land value incremental tax, and reclassified the reserve for land value incremental tax of \$116,196 thousand to stockholders equity - other adjustments. As of June 30, 2008, the unrealized revaluation increment was decreased to \$5,823,085 thousand by disposal revaluation assets.

Depreciation on property, plant and equipment for the six months ended June 30, 2008 and 2007 amounted to \$18,705,762 thousand and \$19,477,659 thousand, respectively. Capitalized interest expense for the six months ended June 30, 2008 and 2007 amounted to \$143 thousand and \$1,010 thousand, capitalized rate were 2.85%-2.88% and 2.96%-3.02%, respectively.

21. STOCKHOLDERS EQUITY

Under Chunghwa s Articles of Incorporation, Chunghwa s authorized capital is \$120,000,000,000, which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,557,776,912 shares, and 2 preferred shares (at \$10 par value per share), which was approved by the board of directors to be issue on March 28, 2006, and the MOTC purchased 2 preferred shares at par value on April 4, 2006.

For the purpose of privatizing Chunghwa, the MOTC sold 1,109,750 thousand common shares of Chunghwa in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange on July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. Subsequently, the MOTC and Taiwan Mobile Co., Ltd. sold 505,389 thousand and 58,959 thousand common shares of Chunghwa, respectively, in the form of ADS totally amounting to 56,435 thousand units on September 29, 2006. The MOTC and Taiwan Mobile Co., Ltd. have sold 3,024,780 thousand common shares in the form of ADS amounting to 302,478 thousand units. As of June 30, 2008, the outstanding ADSs were 1,781,712 thousand units, which equaled approximately 178,171 thousand common shares and represented 18.64% of Chunghwa s total outstanding common shares.

The ADS holders generally have the same rights and obligations as other common stockholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights,
- b. Sell their ADSs, and
- c. Receive dividends declared and subscribe to the issuance of new shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in Chunghwa s Articles of Incorporation as follows:

a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.

- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when Chunghwa raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of Chunghwa or the nature of its business and any transfer of a substantial portion of Chunghwa s business or property.
- d. The holder of the preferred shares may not transfer the ownership. Chunghwa must redeem all outstanding preferred shares with par value within three years from the date of their issuance.

Under the ROC Company Law, additional paid-in capital may only be utilized to offset deficits. For those companies having no deficits, additional paid-in capital arising from capital surplus can be used to increase capital stock and distribute to stockholders in proportion to their ownership at the ex-dividend date. Also, such amounts can only be declared as a stock dividend by Chunghwa at an amount calculated in accordance with the provisions of existing regulations.

In addition, before distributing a dividend or making any other distribution to stockholders, Chunghwa must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: (a) from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus; (b) no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration; and (c) cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Chunghwa operates in a capital-intensive and technology-intensive industry and requires capital expenditures to sustain its competitive position in high-growth market. Thus, Chunghwa s dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

For the six months ended June 30, 2008, the accrual amounts for bonuses to employees and remuneration to directors and supervisors were accrued based on past experiences and represented 3.37% and 0.2%, respectively, of net income after setting aside 10% legal reserve.

If the initial accrual amounts of the aforementioned bonus are significantly different from the amounts proposed by the board of directors, the difference is charged to the earnings of the year making the initial estimate. Otherwise, the difference between initial accrual amount and the amount resoluted in the shareholders meeting is charged to the earnings of the following year as a result of change of accounting estimate.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of Chunghwa. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of Chunghwa, up to 50% of the reserve may, at the option of Chunghwa, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2007 and 2006 earnings of Chunghwa have been approved and resolved by the stockholders on June 19, 2008 and June 15, 2007 as follows:

	* * *	Appropriation and Distribution		
	2007	2006	2007	2006
Legal reserve	\$ 4,823,356	\$ 3,998,445	\$	\$
Reversal of special reserve	3,304	1,461		
Cash dividends	40,716,130	34,610,885	4.26	3.58
Stock dividends	955,778		0.10	
Employee bonus - cash	1,303,605	1,256,619		
Employee bonus - stock	434,535			
Remuneration to board of directors and supervisors	43,454	35,904		

On June 27, 2008, the board of directors of Chunghwa resolved to transfer capital surplus in the amount of \$19,115,554 thousand to common capital stock. Furthermore, they resolved to reduce the same amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and to refund the excess funds to shareholders. The proposal was resolved by the stockholders meeting which was held on August 14, 2008.

The stockholders meeting held on June 15, 2007 also resolved to transfer capital surplus in the amount of \$9,667,845 thousand to common capital stock.

The above proposals have had an effective registration with the Securities and Futures Bureau of Financial Supervisory Commission, Executive Yuan (SFC). The board of directors resolved the ex-dividend date of aforementioned proposals as August 1, 2007.

The stockholders, at the stockholders meeting held on June 15, 2007, resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of NT\$9,667,845 thousand to common capital stock. Chunghwa obtained the approval letter from Financial Supervisory Commission, Executive Yuan which stated the effective registration date of capital reduction is October 17, 2007. Chunghwa decided October 19, 2007 and December 29, 2007 as the record date and stock transfer date of capital reduction, respectively. Subsequently, common capital stock was reduced by NT\$9,667,845 thousand and a liability for the actual amount of cash to be distributed to stockholders of NT\$9,557,777 thousand was recorded. The difference between the reduction in common capital stock and the distribution amount represents treasury stock of NT\$110,068 thousand held by Chunghwa and concurrently cancelled.

Information on the appropriation of 2007 earnings, employee bonus and remuneration to board of directors and supervisors proposed by the board of directors and resolved by the stockholders is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on July 1, 1998, R.O.C. resident stockholders are allowed a tax credit for their proportionate share of the income tax paid by Chunghwa on earnings generated since July 1, 1998.

22. SENAO STOCK-BASED COMPENSATION PLANS

SENAO has several share-based compensation plans (SENAO Plans) described as follows:

		Stock Options Units	
Effective Date	Grant Date	(Thousand)	Exercise Price
2003.09.03	2003.10.17	3,981	\$ 17.4
			(Original price \$ 20.2)
2003.09.03	2004.03.04	385	20.8
			(Original price \$ 23.9)
2004.12.01	2004.12.28	6,500	10.5
			(Original price \$ 11.6)
2004.12.01	2005.11.28	1,500	17.1
			(Original price \$ 18.3)
2005.09.30	2006.05.05	10,000	15.7
			(Original price \$ 16.9)
2007.10.16	2007.10.31	6,181	44.2
		28,547	

Each option is eligible to subscribe for one common share when exercisable. Under the terms of the Plans, the options are granted at an exercise price equal to the closing price of the SENAO s common shares listed on the TSE on the higher of closing price or par value. SENAO Plans have exercise price adjustments formula upon the changes on common shares and distribute cash dividends. The options of all the Plans are valid for six years and exercisable at certain percentages subsequent to the second anniversary of the grant date.

Information about SENAO s outstanding stock options for the six months ended June 30, 2008 and 2007 were as follows:

	20	Stock Options		007
	Number of Options (Thousand)	Weighted Average Exercise Price NT\$	Number of Options (Thousand)	Weighted Average Exercise Price NT\$
Options outstanding, beginning of year	18,592	\$ 24.70	16,488	\$ 14.66
Options issued				
Options exercised	(2,791)	14.74	(2,611)	13.39
Options cancelled				
Options forfeited	(167)	25.43	(448)	
Options outstanding, end of June 30	15,634	26.47	13,429	16.30
Options exercisable, end of June 30	3,792		1,685	

As of June 30, 2008, information about SENAO s outstanding and exercisable options was as follows:

	Options Outstanding			Options Ex	ercisable
		Weighted-	Weighted Average		Weighted Average
	Number of	average Remaining	Exercise	Number of	Exercise
Range of Exercise Price (NT\$)	Options (Thousand)	Contractual Life (Years)	Price (NT\$)	Options (Thousand)	Price (NT\$)
\$10.5-\$15.7	8,389	1.97	\$ 14.77	3,337	\$ 14.74
\$17.1-\$20.8	1,121	1.23	17.19	455	17.33
\$44.2	6,124	3.79	44.20		

As of June 30, 2007, information about SENAO s outstanding and exercisable options was as follows:

	Options Outstanding			Options Ex	ercisable
		Weighted-	Weighted		Weighted
		average	Average		Average
	Number of	Remaining	Exercise	Number of	Exercise
	Options	Contractual	Price	Options	Price
Range of Exercise Price (NT\$)	(Thousand)	Life (Years)	(NT\$)	(Thousand)	(NT\$)
\$11.6-\$16.9	11,210	2.95	\$ 15.87	1,088	\$ 11.60
\$18.3-\$22.1	2,219	2.05	18.46	597	18.76

No compensation cost was recognized under the intrinsic value method for the six months ended June 30, 2008 and 2007.

Had SENAO used the fair value based method to evaluate the options using the Black-Scholes model, the assumptions and pro forma results of SENAO for the six months ended June 30, 2008 would have been as follows:

	October 2007	31,		ny 5, 006		mber 28, 2005		nber 28, 004		arch 4, 2004
Expected dividend yield	1	1.49%

Weighted-average fair value										
of grants	\$ 13	3.69	\$	5.88	\$	6.93	\$	4.91	\$	10.56

23. TREASURY STOCK (COMMON STOCK IN THOUSANDS OF SHARES)

	Six Months Ended June 30
	2008 2007
Balance, beginning of period	110,068
Increase	
Decrease	(110,068)

Balance, end of period

According to the Securities and Exchange Law of the ROC, total shares of treasury stock shall not exceed 10% of Chunghwa s stock issued. The total amount of the repurchased shares shall not be more than the total amount of retained earnings, capital surplus and realized additional paid-in capital. The shares repurchased by Chunghwa shall not be pledged in accordance with Securities and Exchange Law of the ROC. The holders of treasury stocks are not entitled to vote in stockholders meetings.

In order to maintain its credit and stockholders equity, Chunghwa repurchased 121,075 thousand treasury stock for \$7,217,562 thousand from August 29, 2007 to October 25, 2007. On December 29, 2007, Chunghwa cancelled 11,007 thousand shares of treasury stock by reducing common stock of \$110,068 thousand. The remaining treasury stock of 110,068 thousand shares amounted \$7,107,494 thousand was cancelled on February 21, 2008.

24. COMPENSATION, DEPRECIATION AND AMORTIZATION EXPENSES

		Six Months Ended June 30, 2008		
	Cost of Services	Operating Expenses	Total	
Compensation expense				
Salaries	\$ 6,134,641	\$ 4,817,719	\$ 10,952,360	
Insurance	290,987	231,972	522,959

	\$ 1,534,088	\$ 887,061
	φ 1,554,000	φ 007,001

c. As of June 30, 2008, loss carryforward of CHIEF, Unigate, SHE, CIYP and LED are as follows:

Company	Total Creditable Amounts	Remaining Creditable Amounts	Expiry Year
CHIEF	\$ 28,261	\$ 28,261	2008
	22,427	22,427	2009
	25,392	25,392	2010
	21,975	21,975	2011
	12,679	12,679	2012
	5,253	5,253	2013
Unigate	20	20	2012
	13	13	2013
SHE	6,529	5,752	2008
	1,972	1,972	2009
	6,262	6,262	2011
	1,152	1,152	2012
CIYP	38,561	15,192	2012
LED	1,767	1,767	2013
	\$ 172,263	\$ 148,117	

d. The related information under the Integrated Income Tax System is as follows:

		June 30		
	2008		2007	
Balance of Imputation Credit Account (ICA)				
Chunghwa	\$ 1	3,645,995	\$9	,746,573
CHIEF	\$	17,280	\$	17,167
Unigate	\$	595	\$	594
CIYP	\$		\$	
SENAO	\$	334,678	\$	75,953
CHSI	\$	502		
SHE	\$	67		
LED	\$	256		

The estimated and the actual creditable ratios distribution of Chunghwa s of 2007 and 2006 for earnings were 31.37% and 24.42%, respectively. The imputation credit allocated to stockholders is based on its balance as of the date of dividend distribution. The estimated creditable ratio may change when the actual distribution of imputation credit is made.

e. Undistributed earnings information

As of June 30, 2008 and 2007, there is no earnings generated prior to June 30, 1998 in Chunghwa s undistributed earnings.

The following entities income tax returns have been examined by tax authorities through 2005: Chunghwa, SENAO, CHIEF, Unigate, CHSI and SHE.

26. EARNINGS PER SHARE

	Amount (Numerator) Income		Weighted- average Number of Common	Net Income Per Share (Dollars) Income	
	Before Income Tax	Net Income	Shares Outstanding (Denominator)	Before Income Tax	Net Income
Six months ended June 30, 2008			,		
EPS was calculated as follows:					
Basic earnings per share	\$ 30,024,121	\$ 23,230,513	9,557,777	\$ 3.14	\$ 2.43
SENAO stock-based compensation	(5,009)	(5,009)			
Employee bonus	(5,002)	(2,002)	9,616		
Diluted earnings per share	\$ 30,019,112	\$ 23,225,504	9,567,393	\$ 3.14	\$ 2.43
Pro forma basic EPS adjusted for stock dividends with ex-dividend date after issuance of financial statements	\$ 30,024,121	\$ 23,230,513	11,608,363	\$ 2.59	\$ 2.00
Pro forma diluted EPS adjusted for stock dividends with ex-dividend date after issuance of financial statements	\$ 30,019,112	\$ 23,225,504	11,617,979	\$ 2.58	\$ 2.00
Six months ended June 30, 2007					
EPS was calculated as follows:					
Basic earnings per share	\$ 30,965,675	\$ 24,598,845	10,634,630	\$ 2.91	\$ 2.31
SENAO stock-based compensation	(11,334)	(11,334)			
Diluted earnings per share	\$ 30,954,341	\$ 24,587,511	10,634,630	\$ 2.91	\$ 2.31
Pro forma basic EPS adjusted for stock dividends with ex-dividend date after issuance of financial statements	\$ 30,965,675	\$ 24,598,845	12,685,216	\$ 2.44	\$ 1.94
Pro forma diluted EPS adjusted for stock dividends with ex-dividend date after issuance of financial statements	\$ 30,954,341	\$ 24,587,511	12,685,216	\$ 2.44	\$ 1.94

Chunghwa presumes that the bonuses to employees will be settled in shares and takes those shares into consideration when calculating the weighted average number of shares outstanding used in the calculation of diluted EPS. The number of shares is calculated by dividing the amount of bonuses by the closing price of the Chunghwa s shares of the balance sheet date. The dilutive effect of the shares needs to be considered until the shareholders resolve the number of shares to be distributed to employees in their meeting in the following year.

The diluted earnings per share for the six months ended June 30, 2008 and 2007 was due to the effect of potential common stock of stock options by SENAO.

27. PENSION PLAN

Chunghwa completed privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the Privatization Fund) under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa would on behalf of the MOTC to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization.

The pension plan under the Labor Pension Act of ROC (the LPA) is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. Based on the LPA, the Company makes monthly contributions to employees individual pension accounts at 6% of monthly salaries and wages.

The Company s pension plan is considered as a defined benefit plan under the Labor Standards Law that provide benefits based on an employee s length of service and average six-month salary prior to retirement at retirement. The Company contribute an amount equal to 2% to 15% of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan.

Pension costs of the Company were \$1,442,748 thousand (\$1,375,664 thousand subject to defined benefit plan and \$67,084 thousand subject to defined contribution plan) and \$1,537,443 thousand (\$1,503,178 thousand subject to defined benefit plan and \$34,265 thousand subject to defined contributed plan) for the six months ended June 30, 2008 and 2007, respectively.

28. TRANSACTIONS WITH RELATED PARTIES

The ROC Government, one of Chunghwa s customers held significant equity interest in Chunghwa. Chunghwa provides fixed-line services, wireless services, internet and data and other services to the various departments and institutions of the ROC Government and other state-owned enterprises in the normal course of business and at arm s-length prices. The information on service revenues from government bodies and related organizations have not been provided because details of the type of transactions were not summarized by Chunghwa. Chunghwa believes that all costs of doing business are reflected in the financial statements.

a. Chunghwa engages in business transactions with the following related parties:

Company Senao International Co., Ltd. (SENAO)	Relationship Equity-accounted investee before Chunghwa has control over SENAO on April 12, 2007
Chunghwa System Integration Co., Ltd. (CHSI)	Subsidiary of CHI prior to acquisition.
Spring House Entertainment Inc.(SHE)	Equity-accounted investee before Chunghwa has control over SHE on January 2008
Chunghwa Telecom Global, Inc. (CHTG)	Subsidiary of CHI prior to acquisition.
Donghwa Telecom Co., Ltd. (DHT)	Subsidiary of CHI prior to acquisition. (Continued)

Company Chunghwa Investment Co., Ltd. (CHI)	Relationship Equity-accounted investee
Taiwan International Standard Electronics Ltd. (TISE)	Equity-accounted investee
ELTA Technology Co., Ltd. (ELTA)	Equity-accounted investee
Skysoft Co., Ltd. (SKYSOFT)	Equity-accounted investee
KingWay Technology Co., Ltd. (KWT)	Equity-accounted investee
Viettel-CHT Co., Ltd. (Viettel-CHT)	Equity-accounted investee
Chunghwa Precision Test Technical Co., Ltd. (CHPT)	Subsidiary of CHI
Tai Zhong He	Former chairman of CHIEF, as a current member of the board of directors of CHIEF
Senao Networks, Inc. (SNI)	Equity-accounted investee of SENAO
SENAO Technology Education Foundation (STEF)	A nonprofit organization of which the funds donated by SENAO exceeds one third of its total funds
Paul Lin	Vice chairman and general manager of SENAO
SENAO INTERNATIONAL MIAMI INC.(SIM)	Chairman of SIM is vice chairman and general manager of SENAO
SENORA TRADING COMPANY(STC)	Chairman of STC and SENAO s is vice chairman and general manager are close relatives
	(Concluded)

b. Significant transactions with the above related parties are summarized as follows:

	2000	Jun	ne 30	205	
	2008 Amount	%	2007 Amount	%	
1) Receivables					
Trade notes and accounts receivable					
CHTG	\$		\$ 16,349	59

Above transaction amount between the Company and SENAO was happened before the Company has control over SENAO on April 12, 2007. After the date, the amount are eliminated upon consolidation.

SENAO rent a building from Paul Lin for retail sales and service centers. The rent is paid monthly. The transaction terms, except of SENAO, SNI, STEF, STC, SIM and other payable to Tai, Zhong He and Paul Lin were determined in accordance with mutual agreements. The foregoing transactions with related parties were conducted under normal commercial terms.

29. PLEDGED ASSETS

The assets are pledged as collaterals for short-term and long-term bank loans and contract deposits by SENAO, CHIEF and SHE.

	Jun	e 30

Restricted assets	11,397	1,525
	\$ 795,281	\$ 807,139

30. COMMITMENTS AND CONTINGENT LIABILITIES

As of June 30, 2008, the Company s remaining commitments under non-cancellable contracts with various parties were as follows:

- a. Acquisitions of land and buildings of \$1,004,818 thousand.
- b. Acquisitions of telecommunications equipment of \$18,891,818 thousand.
- c. Unused letters of credit of \$2,276,870 thousand.
- d. Contracts to print billing, envelops and selling gifts of \$190,220 thousand.
- e. The Company also has non-cancellable operating leases covering certain buildings, computers, computer peripheral equipment and operating system software under contracts that expire in various years. Future lease payments were as follows:

	Rental
Year	Amount
2008 (from July 1, 2008 to December 31, 2008)	\$ 763,344
2009	1,305,414
2010	841,800
2011	532,827
2012 and thereafter	473,053

- f. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by Chunghwa on August 15, 1996 (classified as long-term investment other monetary assets). When the fund is not sufficient, Chunghwa will contribute the remaining \$1,000,000 thousand after getting the notification from the Taipei City Government. For Piping Fund, Chunghwa understands that if the project is considered no longer be necessary by the ROC government, Chunghwa will receive back its proportionate share of the net equity of the fund upon dissolution of the fund.
- g. A portion of the land used by Chunghwa during the period July 1, 1996 to December 31, 2004 was co-owned by Chunghwa and Chunghwa Post Co., Ltd (the former Chunghwa Post Co., Ltd. directorate General of Postal service). In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to Chunghwa to reimburse Chunghwa Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of Chunghwa s ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. However, Chunghwa believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, Chunghwa has filed an appeal at the Taiwan Taipei District Court. As of audit report date, the case is still in the procedure of the first instance at the Taiwan Taipei District Court.
- h. Giga Media filed a civil action against Chunghwa with the Taiwan Taipei District Court. The complaint alleged that Chunghwa infringed Giga Media s R.O.C. Patent No. I258284 which is a Point-to-Point Protocol over Ethernet (PPPoE) technique used to launch fixed IP of ADSL. Giga Media is seeking damage of NT\$500,000 thousand and interest calculated at 5% from the date the indictment was received by Chunghwa to the payment date. Chunghwa claims that its service technique is different from the nature of Giga Media s patent and that it does not need to use Giga Media s PPPoE technique for its services. Chunghwa has filed a statement of defense with the Taiwan Taipei District Court.

- b. Methods and assumptions used in the estimation of fair values of financial instruments:
 - 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. Because of the short maturities of these instruments, the carrying value represents a reasonable basis to estimate fair values. This method does not apply to the financial instruments discussed in Notes 2, 3 and 4 below.
 - 2) If the financial assets/liabilities at fair value through profit or loss and the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market price of the available-for-sale financial assets are not readily available, valuation techniques is used incorporating estimates and assumptions that are consistent with prevailing market conditions.
 - 3) Long-term investments are based on the net asset values of the investments in unconsolidated companies if quoted market prices are not available.
 - 4) The fair value of long-term loans (including current portion) is discounted based on projected cash flow. The projected cash flows were discounted using the interest rate of similar long-term loans.

c. Fair values of financial instruments were as follow:

	Amount Base Marke Jun	t Price	Amount Determined Using Valuation Techniques June 30		
	2008	2007	2008	2007	
<u>Assets</u>					
Financial assets at fair value through profit or loss	\$ 135,307	\$ 65,441	\$	\$	
Available-for-sale financial assets	18,979,469	17,673,506			
Hedging derivative financial assets (classified as		, ,			
other current monetary assets)		2,861			
<u>Liabilities</u>					
Financial liabilities at fair value through profit or					
loss	38,765	19,828	3,274,607		
Hedging derivative financial liabilities (classified as					
other current liabilities)	5,263				

d. Information about financial risks

1) Market risk

The foreign exchange rate fluctuations would result in the Company s foreign-currency-dominated assets and liabilities and open forward exchange contracts exposed to rate risk.

The fluctuations of market price would result in the index future contracts exposed to price risk.

The financial instruments categorized as available-for-sale financial assets are mainly listed stocks and open-end mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, the Company would assess the risk before investing, therefore, no material market risk are anticipated.

2) Credit risk

Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties of the aforementioned financial instruments are reputable financial institutions. Management believes that the Company s exposure to default by those parties is low.

3) Liquidation risk

The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the cash flow risk is low.

The financial instruments of the Company categorized as available-for-sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risk are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk are anticipated.

4) Cash flow interest rate risk

The Company engages in investments in fixed-interest-rate debt securities. Therefore, cash flows from such securities are not expected to fluctuate significantly due to changes in market interest rates.

In addition, the Company engages in investments in floating-interest-rate debt securities. The changes in market interest rate would impact the floating-interest rate; therefore, cash flows from such securities are expected to fluctuate due to changes in market interest rates.

e. Fair value hedge

Chunghwa entered into forward exchange contracts is mainly to hedge the fluctuation in exchange rates of beneficiary certificate denominated in foreign currency, which is fair value hedge. The transaction was assessed as highly effective for the six months ended June 30, 2008 and 2007.

Outstanding forward exchange contracts for hedge as of June 30, 2008 and 2007:

			Contract
	Currency	Holding Period	Amount (in Thousands)
June 30, 2008			
Sell	USD/NTD	2008.09	US\$ 65,000
June 30, 2007			
Sell	USD/NTD	2007.09	US\$ 15,000

As of June 30, 2008, the forward exchange contract was measured at fair value of \$5,263 thousand (classified as other current liabilities) and \$2,861 thousand (classified as other current monetary assets).

32. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFC for Chunghwa and its investees:

- a. Financing provided: None.
- b. Endorsement/guarantee provided: None.
- c. Marketable securities held: Please see Table 1.
- d. Marketable securities acquired and disposed of at costs or prices at least \$100 million or 20% of the paid-in capital: Please see Table 2.
- e. Acquisition of individual real estate at costs of at least \$100 million or 20% of the paid-in capital: Please see Table 3.
- f. Disposal of individual real estate at prices of at least \$100 million or 20% of the paid-in capital: Please see Table 4.

g. Total purchase from or sale to related parties amounting to at least \$100 million or 20% of the paid-in capital: Please see Table 5.

- h. Receivables from related parties amounting to \$100 million or 20% of the paid-in capital: Please see Table 6.
- i. Names, locations, and other information of investees on which the Company exercises significant influence: Please see Table 7.
- j. Financial transactions: Please see Notes 5 and 31
- k. Investment in Mainland China: Please see Table 8.
- 1. Intercompany relationships and significant intercompany transaction: Please see Table 9.

GAAP Reconciliations of

Consolidated Financial Statements for the

Six Months Ended June 30, 2007 and 2008

1. UNAUDITED GAAP RECONCILIATIONS OF CONSOLIDATED FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED JUNE 30, 2007 AND 2008 (AMOUNTS IN MILLIONS OF NEW TAIWAN DOLLARS, UNLESS STATED OTHERWISE)

The following is a reconciliation of consolidated net income and stockholders equity under ROC GAAP as reported in the audited consolidated financial statements to unaudited consolidated net income and stockholders equity determined under US GAAP. For the descriptions of principal differences between ROC GAAP and US GAAP, please refer to Form 6-K furnished with the Securities and Exchange Commission of the United States (the SEC) on April 25, 2008 (File No. 001-31731). Certain additional adjustments impacting the reconciliation but not included in the SEC Form 6-K referenced above have been included in the notes to the reconciliation below.

Net Income Reconciliation

		June 2007 NT\$	e 30	2008 NT\$
Consolidated net income under ROC GAAP	\$	24,706	\$	23,622
Net income attributable to minority interests under ROC GAAP	,	(107)		(391)
Net income attributable to stockholders of the parent under ROC GAAP		24,599		23,231
Adjustment:				
a. Property, plant and equipment				
1. Adjustments of gains and losses on disposal of property, plant and equipment		227		8
2. Adjustments for depreciation expenses		185		166
b. 10% tax on unappropriated earnings		1,783		2,248
c. Employee bonuses and remuneration to directors and supervisors (Note 1)		(885)		(3,993)
d. Revenues recognized from deferred income of prepaid phone cards		62		377
e. Revenues recognized from deferred one-time connection fees		717		959
f. Share-based compensation (Note 2)		(7)		(12)
g. Benefit pension plan		1		
i. Income tax effect of US GAAP adjustments		(255)		(479)
Others		(79)		(16)
Minorityinterest effect of US GAAP adjustments		53		188
Net adjustments		1,802		(554)
Net income under US GAAP	\$	26,401	\$	22,677
US GAAP earnings per common share:				
Basic(in dollars)	\$	2.73	\$	2.37
Diluted(in dollars)	\$	2.73	\$	2.37
Weighted-average number of common shares outstanding (in 1,000 shares)	\$ 9	9,667,845	\$ 9	9,557,777
US GAAP earnings per pro forma equivalent ADSs				
Basic(in dollars)	\$	27.31	\$	23.73
Diluted(in dollars)	\$	27.30	\$	23.72
Weighted-average number of pro forma equivalent ADSs (in 1,000 shares)	\$	966,784	\$	955,777

2) Stockholders Equity Reconciliation

		June	
		2007 NT\$	2008 NT\$

Net	adjustments	(76,877)	(72,973)
Stoc	kholders equity under US GAAP	\$ 312,088	\$ 302,013

3) Cash Flows Differences

The Company applies R.O.C. SFAS No. 17, Statement of Cash Flows . Its objectives and principles are similar to those set out in U.S. SFAS No. 95, Statement of Cash Flows . The principal differences between the two standards relate to classification. Cash flows from investing activities for changes in other assets, and cash flows from financing activities for changes in customer deposits, other liabilities and cash bonuses paid to employees, directors and supervisors are reclassified to operating activities under U.S. SFAS No. 95.

Note 1: In March 2007, the Accounting Research and Development Foundation (ARDF) in the R.O.C. issued Interpretation 96-052 for the fiscal year beginning after January 1, 2008. From that date, the accounting treatment under ROC GAAP is as follows:

(1) Nature - employees bonuses and remuneration of directors and supervisors are treated as an expense rather than an appropriation of earnings.

- (2) Measurement and recognition such bonuses to employees and remuneration to directors and supervisors are initially accrued based on management s estimate pursuant to the Articles of Incorporation of CHT. If the amounts initially accrued are significantly different from the amounts proposed subsequently by the board of directors in the following year, the difference needs to be retroactively adjusted. Otherwise, any difference between the amount initially accrued and actual amount of the bonuses approved by the stockholders is adjusted subsequently. If such bonuses and remuneration are in the form of shares, compensation expenses remains the same but the units of shares are determined by divided by the fair value of the day prior to the shareholders meeting in the following year.
- Note 2: In August 2007, the ARDF issued ROC SFAS No. 39, Accounting for Share-based Payment , which require companies to record share-based payment transactions granted on or after January 1, 2008 using fair value method. There is no impact of the adoption this statement since the Company did not grant options on or after January 1, 2008.
- Note 3: There are significant differences in the classification of items on the statements of income under ROC GAAP and US GAAP.

 These include:
 - (1) Gains (losses) on disposal of property, plant and equipment:
- Under ROC GAAP: Such amount is recorded as non-operating income (expense).
- Under US GAAP: Such amount is recorded as cost of revenues
 - (2) Valuation loss on inventory:
- Under ROC GAAP: Such amount is recorded as non-operating expense.
- Under US GAAP: Such amount is recorded as cost of revenues
 - (3) Under US GAAP the minority interest in the income of subsidiaries is deducted in arriving at net income whereas under ROC GAAP the minority interest forms part of stockholders funds.

2. RECENT ACCOUNTING PRONOUNCEMENTS

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combination , which replaces SFAS No. 141, Business Combinations. SFAS No. 141(R) retains the fundamental requirements in SFAS No. 141 that the acquisition method of accounting (which SFAS No. 141 called the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. SFAS No. 141(R) defines the acquirer as the entity that obtains control of one or more businesses in the business combination and establishes the acquirition date as the date that the acquirer achieves control. SFAS No. 141 did not define the acquirer, although it included guidance on identifying the acquirer. SFAS No. 141(R) s scope is broader than that of SFAS No. 141, which applied only to business combinations in which control was obtained by transferring consideration. The result of applying SFAS No. 141 s guidance on recognizing and measuring assets and liabilities in a step acquisition was to measure them at a blend of historical costs and fair values. In addition, SFAS No. 141(R) requires to measure the noncontrolling interest in the acquirer at fair value which results in recognizing the goodwill attributable to the noncontrolling interest in addition to that attributable to the acquirer. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008, the beginning of the Company s 2009 fiscal year. Earlier adoption is prohibited. This Statement is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008, the beginning of the Company s 2009 fiscal year.

In December 2007, the FASB issued SFAS No. 160 Noncontrolling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51 , which clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. The effective date of SFAS No. 160 is the same as that of the related SFAS No. 141(R) Earlier adoption is prohibited. SFAS No. 160 shall be applied prospectively as of the beginning of the fiscal year in which this statement is initially applied, except for the presentation and disclosure requirements. The presentation and disclosure requirements shall be applied retrospectively for all periods presented. The Company is currently evaluating the impact of such new pronouncement in its consolidated financial statements but believes that it will not generate a material impact on the Company is consolidated results of operations or financial position.

In March 2008, the FASB issued SFAS No. 161 Disclosures about Derivative Instruments and Hedging Activities - An Amendment of FASB Statement No. 133 , which requires enhanced disclosures about an entity s derivative and hedging activities and thereby improves the transparency of financial reporting. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is assessing the impact of the adoption of this standard.

In May 2008, the FASB issued SFAS No. 162 The Hierarchy of Generally Accepted Accounting Principles , which identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States. SFAS No. 162 is effective 60 days following the SEC s approval of the PCAOB amendment to AU Section 411. There is no impact to the Company.

In February 2008, the FASB issued FSP 157-2 Partial Deferral of the Effective Date of Statement 157 (FSP 157-2). FSP 157-2 delays the effective date of FAS 157, for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008. The Company is accessing the impact of the adoption of this statement.

In April 2008, the FASB issued FSP FAS 142-3 Determination of the Useful Life of Intangible Assets (FSP FAS 142-3) which amends the list of factors an entity should consider in developing renewal or extension assumptions used in determining the useful life of recognized intangible assets under Statement 142. The new guidance applies to (1) intangible assets that are acquired individually or with a group of other assets and (2) intangible assets acquired in both business combinations and asset acquisitions. FSP FAS 142-3 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. While the guidance on determining the useful life of a recognized intangible asset must be applied prospectively only to intangible assets acquired after the FSP s effective date, the disclosure requirements of the FSP must be applied prospectively to all intangible assets recognized as of, and after, the FSP FAS 142-3 s effective date. Early adoption is prohibited. The Company is assessing the impact of the adoption of this statement.
