**Chunghwa Telecom Reports Operating Results for Full Year 2008**

Taipei, Taiwan, R.O.C. March 30, 2009 Chunghwa Telecom Co., Ltd (TAIEX: 2412, NYSE: CHT) ( Chunghwa or the Company ), today reported its operating results for full year 2008. All figures are presented on consolidated basis and prepared in accordance with ROC GAAP.

*(Comparisons, unless otherwise stated, are with respect to the prior year period)*

**Financial Highlights for Full Year 2008:**

Total revenue increased by 2.2% to NT\$201.7 billion

Internet and data revenue grew by 1.7%

Mobile revenue decreased 1.9%; Mobile VAS revenue increased by 25.0%

Net income totaled NT\$45.0 billion, a decrease of 6.7%

Earnings per share (EPS) decreased by 6.1% to NT\$4.64, or NT\$46.4 per ADS

**Financial Highlights for 4Q08:**

Total revenue decreased by 0.3% to NT\$49.8 billion

Internet and data revenue grew by 2.6%

Mobile revenue decreased 1.4%; Mobile VAS revenue increased by 19.8%

Net income totaled NT\$8.5 billion, a decrease of 18.9%

Earnings per share (EPS) decreased by 23.7% to NT\$0.82, or NT\$8.2 per ADS

**Management Commentary**

Commenting on the fourth quarter and fiscal year 2008 results, Dr. Shyue-Ching Lu, Chunghwa's Chairman and Chief Executive Officer, said I am pleased that we were able to deliver our top-line performance and to continue to return cash to the shareholders in 2008 given the adverse economic condition. In 2009, our management's primary focus will be on maintaining market leadership for our core services, while expanding our strategic digital-converged services such as, broadband and mobile VAS and MOD/IPTV, as well as key enterprise solutions. Furthermore, we plan to continue the deployment of our next-generation networks as a foundation for our long-term growth in providing high quality total communication solutions. Finally, we will continue to focus on company-wide operational efficiency improvement to enhance our profitability. We are confident that our current strategic initiatives and the healthy financial footing position us for long-term success. As such, our Board of Directors has just approved a cash dividend, which demonstrates our confidence and our commitment to maximizing returns for our

shareholders.

## Revenue

Chunghwa's total revenue for 2008 increased by 2.2% year-over-year to NT\$201.7 billion, of which 28.3% was from fixed-line services, 35.9% was from mobile services, 24.8% was from Internet and data services, and the remainder consisted of handset revenue, data card sales and the consolidated revenue of Senao International ( Senao ).

While Internet and data businesses contributed positively to the overall revenue, revenue growth was mainly driven by the full 12 months consolidation of Chunghwa's subsidiary Senao, compared to only 8.5 months of consolidated Senao's operational results for 2007.

Internet and data revenue in 2008 was 1.7% higher than in 2007, primarily driven by the increased broadband subscriber base and the successful initiatives in upgrading the customers to higher speed fiber services. However, this growth was partly offset by an ADSL tariff adjustment that took effect on April 1, 2008. For mobile business, Chunghwa made progress by increasing the subscriber numbers by 2.9% and by enhancing the VAS service revenues by 25.0% compared to 2007. However, these successes were offset by the traffic decline and the price cuts imposed by the National Communication Commission (or NCC ), which resulted in an overall revenue decline of 1.9% year-over-year. Fixed-line revenue decreased by 3.4% year-over-year to NT\$57.1 billion for 2008. Local and Domestic long distance revenues decreased by 3.3% and 6.8%, respectively, year-over-year for 2008, mainly due to mobile and VOIP substitution. International long distance revenues decreased by 1.4% compared to 2007. This was primarily because of the increased competition from prepaid calling card and the decrease in international direct dial traffic. Other revenue increased over 44%, mostly from the consolidation of Senao.

For the fourth quarter of 2008, total revenue was NT\$49.8 billion, a 0.3% decrease over the same period last year. Internet and data revenue was 2.6% higher than the same period last year. Mobile revenue decreased by 1.4%, mainly due to the decrease in traffic. Fixed line revenue as a whole decreased by 2.4% as compared to the same period last year.

## Costs and expenses

For 2008, total operating costs and expenses increased year-over-year by 4.4% to NT\$143.0 billion, primarily due to the consolidation of Senao's operating costs and expenses for the full year, compared to only 8.5 months of consolidated Senao's operating costs and

expenses for 2007. For the parent company, total operating costs and expenses increased by NT\$2.9 billion, representing a year-over-year increase of 2.3%. This was primarily because of the increase in handset sale costs, handset subsidies and the employee bonus expenses. However, depreciation and amortization expense for the parent company was 4.3% lower than 2007.

For the fourth quarter of 2008, total operating costs and expenses increased by 1.9% to NT\$38.1 billion, mainly due to the increase in personnel cost resulted from the expensing of the employee bonus.

#### **Income tax**

The Company's income tax for 2008 was NT\$13.9 billion, a 6.4% increase compared to NT\$13.1 billion for 2007. This was mainly due to the decrease in tax credit.

#### **EBITDA and net income**

EBITDA for 2008 decreased by 3.4% year-over-year to NT\$96.8 billion, resulting in an EBITDA margin of 48.0%, down from 50.8% for 2007. The EBITDA margin decline was primarily attributed to the increase of handset subsidy, cost of handset sales for the parent company and the full year consolidation of Senao, which operates at a lower margin than the parent company.

Net income for 2008 was NT\$45.0 billion, a decrease of 6.7% year-over-year. The reasons for such decline were due to the increase in operating costs and expense, as well as the NT\$1.2 billion financial asset impairment in the fourth quarter 2008 and the NT\$1.7 billion employee bonus which started to be expensed in 2008.

#### **Capex**

Capital expenditures totaled NT\$30.1 billion for 2008 compared to NT\$25.1 billion for 2007. The 20.1% increase of capex in 2008 was mainly for the deployment of the next generation network. Going forward, Chunghwa expects the capex spending to remain between NT\$30billion to NT\$32billion over the next 2 to 3 years.

These future capex investments will focus on core businesses and on migrating mobile and broadband customers to higher performance platforms.

#### **Cash Flows**

Cash flow from operating activities increased by 3.3% to NT\$91.9 billion. The increase was primarily because of a decrease in other financial assets and an increase in accounts payable. Free cash flow for 2008 decreased by 3.4% compared with 2007 as capex increased by 20.1%. Still, the cash and cash equivalents remained solid at NT\$81.3 billion as of the end of 2008.

For the fourth quarter of 2008, cash flow from operating activities increased by 12.1%. This increase was primarily due to the decrease in other financial assets and the increase in other current liabilities.

**Business Performance Highlights:**

**Internet and Data Services**

By the end of 2008, Chunghwa Telecom had 410 million HiNet subscribers, a 0.5% increase year-over-year. Overall, the Company had 4.3 million broadband subscribers (including ADSL and FTTB) at the end of 2008, a 1.4% increase as compared to the end of 2007. By the end of 2008, FTTx subscriptions with an average service speed of 10 Mbps reached 1.07 million, representing 24.8% of total broadband subscribers.

As of the end of 2008, Chunghwa had 676 thousand MOD subscribers, a solid 71.4% year-over-year increase.

**Mobile Services**

As of December 31, 2008, Chunghwa had 8.95 million mobile subscribers, slightly up by 0.87% quarter-over-quarter compared to 8.87 million as of September 31, 2008.

Chunghwa remained the leading mobile operator in Taiwan. According to statistics published by the NCC, at the end of 2008, the Company's total subscriber market share (including 2G, 3G and PHS) was 35.2%, while the revenue market share was 33.5%, respectively.

Chunghwa had 322 thousand net additions to its 3G subscriber base during the fourth quarter 2008, representing an increase of 9.9% quarter-over-quarter resulting in a total number of 3G subscribers of 3.56 million as of December 31, 2008.

Mobile VAS revenue for 2008 was NT\$7.0 billion, representing a 25.0% increase year-over-year, including the increase of SMS revenue by 20.5% and the increase of mobile Internet revenue by 38.5%.

**Fixed-line Services**

As of the end of 2008, the Company maintained its leading fixed-line market position, with fixed-line subscribers totaling 12.7 million.

**Recent Updates**

The company has recently completed the second capital reduction program on March 20. The total cash returned to the shareholders was NT\$19.1 billion.

## **Note Concerning Forward-looking Statements**

This press release contains forward-looking statements. These statements constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as will, expects, anticipates, future, intends, plans, believes, estimates and similar statements. Chunghwa may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission on forms 20-F and 6-K., in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about Chunghwa's beliefs and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties that could cause actual results to differ materially from the forward-looking statements. A number of important factors could cause actual results to differ materially from those contained in any forward-looking statement. Investors are cautioned that actual events and results could differ materially from those statements as a result of a number of factors including, but not limited to: extensive regulation of telecom industry; the intensely competitive telecom industry; our relationship with our labor union; general economic and political conditions, including those related to the telecom industry; possible disruptions in commercial activities caused by natural and human induced events and disasters, including terrorist activity, armed conflict and highly contagious diseases, such as SARS; and those risks outlined in Chunghwa's filings with the U.S. Securities and Exchange Commission, including its registration statements on Form F-1, F-3, F-6 and 20-F, in each case as amended. Chunghwa does not undertake any obligation to update any forward-looking statement, except as required under applicable law.

This release is not an offer of securities for sale in the United States. Securities may not be offered or sold in the United States absent registration or an exemption from registration. Any public offering of securities to be made in the United States will be made by means of a prospectus that may be obtained from the issuer or selling security holder and that will contain detailed information about the company and management, as well as financial statements.

#### **SPECIAL NOTE REGARDING NON-GAAP FINANCIAL MEASURES**

A body of generally accepted accounting principles is commonly referred to as GAAP. A non-GAAP financial measure is generally defined by the SEC as one that purports to measure historical or future financial performance, financial position or cash flows but excludes or includes amounts that would not be so adjusted in the most comparable U.S. GAAP measure. We disclose in this report certain non-GAAP financial measures, including EBITDA. EBITDA for any period is defined as consolidated net income (loss) excluding (i) depreciation and amortization, (ii) total net comprehensive financing cost (which is comprised of net interest expense, exchange gain or loss, monetary position gain or loss and other financing costs and derivative transactions), (iii) other expenses, net, (iv) income tax, (v) cumulative effect of change in accounting principle, net of tax and (vi) (income) loss from discontinued operations.

In managing our business we rely on EBITDA as a means of assessing our operating performance. We believe that EBITDA can be useful to facilitate comparisons of operating performance between periods and with other companies because it excludes the effect of (i) depreciation and amortization, which represents a non-cash charge to earnings, (ii) certain financing costs, which are significantly affected by external factors, including interest rates, foreign currency exchange rates and inflation rates, which have little or no bearing on our operating performance, (iii) income tax and tax on assets and statutory employee profit sharing, which is similar to a tax on income and (iv) other expenses or income not related to the operation of the business.

EBITDA is not a measure of financial performance under ROC GAAP. EBITDA should not be considered as an alternate measure of net income or operating income, as determined on a consolidated basis using amounts derived from statements of operations prepared in accordance with ROC GAAP, as an indicator of operating performance or as cash flows from operating activity or as a measure of liquidity. EBITDA has material limitations that impair its value as a measure of a company's overall profitability since it does not address certain ongoing costs of our business that could significantly affect profitability such as financial expenses and income taxes, depreciation, pension plan reserves or capital expenditures and associated charges. These non-GAAP measures are not in accordance with or an alternative for GAAP financial data, the non-GAAP results should be reviewed together with the GAAP results and are not intended to serve as a substitute for results under GAAP, and may be different from non-GAAP measures used by other companies. For more information on these non-GAAP financial measures, please see the tables captioned set forth at the end of this release and which shall be read together with the accompanying financial statements prepared under ROC GAAP.

The Board of Directors and Stockholders

Chunghwa Telecom Co., Ltd.

We have audited the accompanying balance sheets of Chunghwa Telecom Co., Ltd. as of December 31, 2008 and 2007, and the related statements of income, changes in stockholders' equity and cash flows for the years then ended, all expressed in New Taiwan dollars. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to first paragraph present fairly, in all material respects, the financial position of the Company as of December 31, 2008 and 2007, and the results of its operations and its cash flows for the years then ended in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 3 to the financial statements starting from January 1, 2008, the Company changed its method of accounting for bonuses paid to employees, directors and supervisors upon adoption of Interpretation 96-052 issued by the Accounting and Research Development Foundation in the Republic of China.

We have also audited the consolidated financial statements of the Company and its subsidiaries as of and for the year ended December 31, 2008, and have expressed a modified unqualified opinion on those consolidated financial statements.

**CHUNGHWA TELECOM CO., LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007**

**(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)**

**1. GENERAL**

Chunghwa Telecom Co., Ltd. ( Chunghwa ) was incorporated on July 1, 1996 in the Republic of China ( ROC ) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications ( MOTC ). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications ( DGT ). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

As the dominate telecommunications service provider of fixed-line and Global System for Mobile Communications (GSM) in the ROC, Chunghwa is subject to additional regulations imposed by ROC.

Effective August 12, 2005, the MOTC had completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the SFC ) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE ) on October 27, 2000. Certain of Chunghwa s common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa s common shares had also been sold in an international offering of securities in the form of American Depository Shares ( ADS ) on July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE ). The MOTC sold common shares of Chunghwa by auction in the ROC on August 9, 2005 and completed the second international offering on August 10, 2005. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

As of December 31, 2008 and 2007, the Company had 24,551 and 24,138 employees, respectively.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements were prepared in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law, Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the ROC ( ROC GAAP ). The preparation of financial statements requires management to make certain estimates and assumptions on allowances for doubtful accounts, valuation allowances on inventories, depreciation of property, plant and equipment, impairment of assets, bonuses paid to employees, remuneration to board of directors and supervisors, pension plans and income tax which are inherently uncertain. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

**Classification of Current and Noncurrent Assets and Liabilities**

Current assets are assets expected to be converted to cash, sold or consumed within one year from balance sheet date. Current liabilities are obligations expected to be settled within one year from balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

### **Cash Equivalents**

Cash equivalents are commercial paper and treasury bill purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

### **Financial Assets and Liabilities at Fair Value Through Profit or Loss**

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss ( FVTPL ) include financial assets or financial liabilities held for trading and those designated as at FVTPL on initial recognition. The Company recognizes a financial asset or a financial liability when the Company becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when the Company loses control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized as expenses as incurred. Financial assets or financial liabilities at FVTPL are remeasured at fair value, subsequently with changes in fair value recognized in earnings. Cash dividends received subsequently (including those received in the period of investment) are recognized as income. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in earnings. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

Derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading. When the fair value is positive, the derivative is recognized as a financial asset, when the fair value is negative, the derivative is recognized as a financial liability.

### **Available-for-sale Financial Assets**

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of stockholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

The recognition and derecognition of available-for-sale financial assets are similar to those of financial assets at FVTPL.

Fair values are determined as follows: Listed stocks at closing prices at the balance sheet date; open-end mutual funds at net asset values at the balance sheet date; bonds quoted at prices provided by the Taiwan GreTai Securities Market; and financial assets and financial liabilities without quoted prices in an active market at values determined using valuation techniques.

Cash dividends are recognized in earnings on the ex-dividend date, except for the dividends declared before acquisition are treated as a reduction of investment cost. Stock dividends are recorded as an increase in the number of shares and do not affect investment income. The total number of shares subsequent to the increase of stock dividends is used for recalculate cost per share.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent to the decrease and recorded as an adjustment to stockholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

#### **Held-to-maturity Financial Assets**

Held-to-maturity financial assets are carried at amortized cost using the effective interest method. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains and losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

#### **Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables**

Revenues are recognized when they are realized or realizable and earned. Revenues are realized or realizable and earned when the Company has persuasive evidence of an arrangement, the goods have been delivered or the services have been rendered to the customer, the sales price is fixed or determinable and collectibility is reasonably assured.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts agreed between the Company and the customers for goods sold in the normal course of business, net of sales discounts and volume rebates. For trade receivables due within one year from the balance sheet date, as the nominal value of the consideration to be received approximates its fair value and transactions are frequent, fair value of the consideration is not determined by discounting all future receipts using an imputed rate of interest.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract bundled with the handsets.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

Where the Company enters into transactions which involve both the provision of air time bundled with products such as 3G data card and handset, total consideration received from handsets in these arrangements is allocated and measured using units of accounting within the arrangement based on relative fair values limited to the amount that is not contingent upon the delivery of other items or services.

Where the Company sells products to third party cellular phone stores the Company records the direct sale of the products, typically handsets, as gross revenue when the Company is the primary obligor in the arrangement and when title is passed and the products are accepted by the stores.

An allowance for doubtful receivables is provided based on a review of the collectibility of accounts receivable. The Company determines the amount of allowance for doubtful receivables by examining the aging analysis of outstanding accounts receivable.

#### **Inventories**

Inventories are stated at the lower of cost (weighted-average cost) or market value (replacement cost or net realizable value).

#### **Investments Accounted for Using Equity Method**

Investments in companies where in the Company exercises significant influence over the operating and financial policy decisions are accounted for using the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments.

Gains or losses on sales from the Company to equity method investees wherein the Company does not have substantial control over these equity investees are deferred in proportion to the Company's ownership percentage in the investees until such gains or losses are realized through transactions with third parties. Gains or losses on sales from the Company to equity method investees are eliminated if the Company has substantial control over these equity investees. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company's ownership percentages in the investees until they are realized through transactions with third parties.

Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards, the cost of an investment shall be analyzed and the difference between the cost of investment and the fair value of identifiable net assets acquired, representing goodwill, shall not be amortize and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of noncurrent assets except (a) financial assets other than investments accounted for using equity method, (b) assets to be disposed of by sale, (c) deferred tax assets, and (d) prepaid assets relating to pension or other postretirement benefit plans. If any excess remains after reducing the aforementioned items, the remaining excess shall be recognized as an extraordinary gain.

When the Company subscribes for additional investees shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company share of the investee's equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to additional paid-in capital the extent available, with the balance charged to retained earnings.

#### **Financial Assets Carried at Cost**

Investments in equity instruments that do not have a quoted price in an active market and whose fair values cannot be reliably measured such as non-publicly traded stocks are measured at their original cost. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

The accounting treatment for cash dividends and stock dividends arising from financial assets carried at cost is the same as that for cash dividends and stock dividends arising from available-for-sale financial assets.

### **Property, Plant and Equipment**

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation and accumulated impairment loss. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized.

An impairment loss on a revalued asset is charged to unrealized revaluation increment under equity to the extent available, with the balance is recognized as a loss in earnings. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment loss could be reversed and recognized as a gain, with the remaining credited to unrealized revaluation increment .

Depreciation expense is computed using the straight-line method over the following estimated service lives: land improvements - 10 to 30 years; buildings - 10 to 60 years; computer equipment - 6 to 10 years; telecommunications equipment - 6 to 15 years; transportation equipment - 5 to 10 years; and miscellaneous equipment - 3 to 12 years.

Upon sale or disposal of property, plant and equipment, the related cost and accumulated depreciation, accumulated impairment losses and any unrealized revaluation increment are deducted from the corresponding accounts, and any gain or loss recorded as non-operating gains or losses in the year of sale or disposal.

### **Intangible Assets**

Intangible assets mainly include 3G Concession, computer software and patents.

The 3G Concession is valid through December 31, 2018. The 3G Concession and any additional licensing fees are amortized on a straight-line basis from the date operations commence through the date the license expires. Computer software costs and patents are amortized using the straight-line method over the estimated useful lives of 3-20 years.

Effective January 1, 2007, the Company adopted the newly released Statements of Financial Accounting Standards No. 37, Intangible Assets. Expenditure on research shall be expensed as incurred. Development Costs are capitalized when those costs meet relative criteria and are amortized using the straight-line method over estimated useful lives. Development costs do not meet relative criteria shall be expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, as if no impairment loss had been recognized.

### **Idle Assets**

Idle assets are carried at the lower of recoverable amount or carrying amount.

### **Pension Costs**

For employees under defined benefit pension plans, pension costs are recorded based on actuarial calculations. For employees under defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods.

### **Expense Recognition**

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract bundled with the handsets.

### **Treasury Stock**

Treasury stock is recorded at cost and shown as a reduction to stockholders' equity. Upon cancellation of treasury stock, the treasury stock account is reduced and the common stock and capital surplus are reversed on a pro rata basis. If capital surplus is not sufficient, the difference is charged to retained earnings.

### **Income Tax**

The Company applies inter-period allocations for its income tax, whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year of stockholders' approval which is the year subsequent to the year the earnings are generated.

### **Foreign-currency Transactions**

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign equity investees are translated into New Taiwan dollars at the following exchange rates. Assets and liabilities - spot rates at year-end; stockholders' equity - historical rates, income and expenses - average rates during the year. The resulting translation adjustments are recorded as a separate component of stockholders' equity.

**Hedge Accounting**

A hedging relationship qualifies for hedge accounting only if, all of the following conditions are met: (a) at the inception of the hedge, there is formal documentation of the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge; (b) the hedge is expected to be highly effective in achieving offsetting changes in fair value attributable to the hedged risk, consistently with the risk management strategy documented for that particular hedging relationship; (c) the effectiveness of the hedge can be reliably measured; (d) the hedge is assessed on an ongoing basis and determined actually to have been highly effective throughout the financial reporting periods for which the hedge was designated.

The gain or loss from remeasuring the hedging instrument at fair value and the gain or loss on the hedged item attributable to the hedged risk are recognized in earnings.

**Recent Accounting Pronouncements**

The ARDF of the R.O.C. revised Statement of Financial Accounting Standards No. 10, Accounting for Inventories (SFAS No. 10) in November 2007, which requires inventories to be stated at the lower of cost or net realizable value item by item. Inventories are recorded by the specific identification method, first-in, first-out method or weighted average method. The last-in, first-out method is no longer permitted. The revised SFAS No. 10 should be applied to financial statements for the fiscal years beginning on or after January 1, 2009. Early adoption is permitted. The Company is currently evaluating the impact that the adoption of ROC SFAS No. 10 will have on its results of operation and financial positions.

**Reclassifications**

Certain accounts in the financial statements as of and for the year ended December 31, 2007 have been reclassified to conform to the presentation of the financial statements as of and for the year ended December 31, 2008.

**3. EFFECT OF CHANGES IN ACCOUNTING PRINCIPLE**

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning January 1, 2008. The adoption of this interpretation resulted in a decrease of \$1,317,524 thousand (including \$1,289,556 thousand recorded by Chunghwa and \$27,968 thousand recorded by its equity-method investees) in net income and a decrease in basic earnings per share (after income tax) of \$0.14 for the year ended December 31, 2008. For purposes of the statement of cash flows, such bonuses represent appropriations of the earning from prior years and have been classified as financing activities for 2008 and 2007. Beginning from 2009, such bonuses will be classified as an operating activity for purposes of the statement of cash flows when paid.

Chunghwa entered into investment management agreements with a well-known financial institution (fund managers) to manage its investment portfolios in 2006. As of December 31, 2008, Chunghwa's investment portfolios managed by these fund managers aggregated to an original amount of US\$100,000 thousand. The investment portfolios included listed stocks, mutual funds and derivative instruments.

Chunghwa entered into forward exchange contracts and index future contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates and stock prices. However, derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading.

As of December 31, 2008 and 2007, the amount paid for future deposit were \$242,768 thousand and \$81,515 thousand, respectively.

In September 2007, Chunghwa entered into a 10-year, foreign currency derivative contract with Goldman Sachs Group Inc. ( Goldman ) and valuations are made biweekly starting from September 20, 2007 which are 260 valuation periods totally. Under the terms of the contract, if the NT dollar/US dollar exchange rate is less than NT\$31.50 per US dollar at any two consecutive bi-weekly valuation dates during the valuation period starting from October 4, 2007 to September 5, 2017, Chunghwa is required to make a cash payment to Goldman. The settlement amount is determined by the difference between the applicable exchange rates and the base amount of US\$4,000 thousand. Conversely, if the NT dollar/US dollar exchange rate is above NT\$31.50 per US dollar using the same valuation methodology, Goldman would have a settlement obligation to Chunghwa determined using a base amount of US\$2,000 thousand. Further, if the exchange rate is at or above NT\$32.70 per US dollar starting from December 12, 2007 at any time, the contract would be terminated at that time. In accordance with the terms of the contract, Chunghwa deposited US\$3,000 thousand with Goldman with annual yield rate of 8%. On October 21, 2008, the exchange rate was above NT\$32.70 per US dollar, so the contract was terminated at that time.

Net gain and net loss arising from financial assets and liabilities at fair value through profit or loss for the years ended December 31, 2008 and 2007 were \$477,792 thousand (including realized settlement loss of \$46,210 thousand and valuation gain of \$524,002 thousand) and \$876,482 thousand (including realized settlement loss of \$281,474 thousand and valuation loss of \$595,008 thousand, respectively).

Pursuant to the related regulation, Chunghwa revalued its land owned as of April 30, 2000 based on the publicly announced value on July 1, 1999. These revaluations which have been approved by the Ministry of Auditing resulted in increases in the carrying values of property, plant and equipment of \$5,986,074 thousand, liabilities for land value incremental tax of \$211,182 thousand, and stockholders' equity - other adjustments of \$5,774,892 thousand.

The amendment to the Land Tax Act, relating to the article to permanently lower land value incremental tax, went effective from February 1, 2005. In accordance with the lowered tax rates, Chunghwa recomputed its land value incremental tax, and reclassified the reserve for land value incremental tax of \$116,196 thousand to stockholders' equity - other adjustments. As of December 31, 2008, the unrealized revaluation increment was decreased to \$5,813,187 thousand by disposal revaluation assets.

Depreciation expense on property, plant and equipment for the years ended December 31, 2008 and 2007 amounted to \$36,951,384 thousand and \$38,691,561 thousand, respectively. No interest expense was capitalized for the years ended December 31, 2008 and 2007.

## 18. STOCKHOLDERS EQUITY

Under Chunghwa's Articles of Incorporation, Chunghwa's authorized capital is \$120,000,000,020, which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,696,808,181 shares. Chunghwa's Articles of Incorporation and the Republic of China Telecommunications Act provide that the MOTC has the right to purchase two redeemable preferred shares at \$10 (par value) in the event its ownership of Chunghwa falls below 50% of the outstanding common shares. On March 28, 2006, the board of directors approved the issuance of the 2 preferred shares, and the MOTC purchased the 2 preferred shares at par value on April 4, 2006.

For the purpose of privatizing Chunghwa, the MOTC sold 1,109,750 thousand common shares of Chunghwa in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange on July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. Subsequently, the MOTC and Taiwan Mobile Co., Ltd. sold 505,389 thousand and 58,959 thousand common shares of Chunghwa, respectively, in the form of ADS totally amounting to 56,435 thousand units on September 29, 2006. The MOTC and Taiwan Mobile Co., Ltd. have sold 3,024,780 thousand common shares in the form of ADS amounting to 302,478 thousand units. As of December 31, 2008, the outstanding ADSs were 1,780,568 thousand common shares, which equaled approximately 178,057 thousand units and represented 18.36% of Chunghwa's total outstanding common shares.

The ADS holders generally have the same rights and obligations as other common stockholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights,
- b. Sell their ADSs, and
- c. Receive dividends declared and subscribe to the issuance of new shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in Chunghwa's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when Chunghwa raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of Chunghwa or the nature of its business and any transfer of a substantial portion of Chunghwa's business or property.
- d. The holder of the preferred shares may not transfer the ownership. Chunghwa must redeem all outstanding preferred shares with par value within three years from the date of their issuance.

Under the ROC Company Law, additional paid-in capital may only be utilized to offset deficits. For those companies having no deficits, additional paid-in capital arising from capital surplus can be used to increase capital stock and distribute to stockholders in proportion to their ownership at the ex-dividend date. Also, such amounts can only be declared as a stock dividend by Chunghwa at an amount calculated in accordance with the provisions of existing regulations. The combined amount of any portions capitalized each year may not exceed 10 percent of common stock issued. However, where a company undergoes an organizational change (such as a merger, acquisition, or reorganization) that results in the capitalization of undistributed earnings after the organizational change, the above restriction does not apply.

In addition, before distributing a dividend or making any other distribution to stockholders, Chunghwa must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: (a) from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus; (b) no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration; and (c) cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Chunghwa operates in a capital-intensive and technology-intensive industry and requires capital expenditures to sustain its competitive position in high-growth market. Thus, Chunghwa's dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

For the year ended December 31, 2008, the accrual amounts for bonuses to employees and remuneration to directors and supervisors is based on management estimates including past experience and probable amount to be paid in accordance with Chunghwa's Articles of Incorporation and Implementation Guidance for the Employee's Bonus Distribution of Chunghwa Telecom Co., Ltd.

If the initial accrual amounts of the aforementioned bonus are different from the amounts resolved in the stockholders' meeting, the difference is charged to the earnings of the following year as a result of change in accounting estimate.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of Chunghwa. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of Chunghwa, up to 50% of the reserve may, at the option of Chunghwa, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2007 and 2006 earnings of the company have been approved and resolved by the stockholders on June 19, 2008 and June 15, 2007 as follows:

	Appropriation of Earnings		Dividend Per Share	
	2007	2006	2007	2006
Legal reserve	\$ 4,823,356	\$ 3,998,445	\$	\$
Reversal of special reserve	3,304	1,461		
Cash dividends	40,716,130	34,610,885	4.26	3.58
Stock dividends	955,778		0.10	
Employee bonus - cash	1,303,605	1,256,619		
Employee bonus - stock	434,535			
Remuneration to board of directors and supervisors	43,454	35,904		

The amounts of the appropriations of earnings for 2007 and 2006 were consistent with the resolutions of the meetings of the Board of Directors held on April 25, 2008 and April 24, 2007, respectively.

The stockholders, at a special meeting held on August 14, 2008, resolved to transfer capital surplus in the amount of \$19,115,554 thousand to common capital stock.

The above mentioned 2008 capital increase proposal was effectively registered with Securities and Futures Bureau of Financial Supervisory Commission, Executive Yuan ( SFC ). The board of directors resolved the ex- dividend date of the aforementioned proposal as October 25, 2008.

The stockholders, at the stockholders meeting held on August 14, 2008, also resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of \$19,115,554 thousand to common capital stock and was effectively registered with SFC. Chunghwa designated December 30, 2008 as the record date and March 9, 2009 as the stock transfer date of capital reduction.

The stockholders, at a meeting held on June 15, 2007, resolved to transfer capital surplus in the amount of \$9,667,845 thousand to common capital stock.

The above 2007 capital increase proposal was effectively registered with SFC. The board of directors resolved the ex-dividend date of aforementioned proposal as August 1, 2007.

The stockholders, at the stockholders meeting held on June 15, 2007, also resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of \$9,667,845 thousand to common capital stock and effectively registered with SFC. Chunghwa decided October 19, 2007 and December 29, 2007 as the record date and stock transfer date of capital reduction, respectively. Subsequently, common capital stock was reduced by \$9,667,845 thousand and a liability for the actual amount of cash to be distributed to stockholders of \$9,557,777 thousand was recorded. The difference between the reduction in common capital stock and the distribution amount represents treasury stock of \$110,068 thousand held by Chunghwa and concurrently cancelled. Such cash payments to stockholders was made in January 2008.

The appropriation of Chunghwa's 2008 earnings has not been resolved by the board of directors as of the report date. Information on the appropriation of 2008 earnings, employee bonus and remuneration to board of directors and supervisors proposed by the board of directors and resolved by the stockholders is available at the Market Observation Post System website.

According to the Interpretation 97-169 issued by ARDF in May 2008, Chunghwa presumed that the employees bonuses to be paid will be settled in shares and takes those shares into consideration when calculating the weighted average number of outstanding shares used in the calculation of diluted EPS if the share have a dilutive effect for the year ended December 31, 2008. The number of shares is calculated by dividing the amount of bonuses by the closing price of the Chunghwa's shares of the balance sheet date. The dilutive effect of the shares needs to be considered until the stockholders resolve the number of shares to be distributed to employees in their meeting in the following year.

The diluted earnings per share for the years ended December 31, 2008 and 2007 was due to the effect of potential common stock of stock options by SENAO.

**23. PENSION PLAN**

Chunghwa completed privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the Privatization Fund) under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa would, on behalf of the MOTC pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization.

The pension plan under the Labor Pension Act of ROC (the LPA) is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. Based on the LPA, Chunghwa makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

Chunghwa's pension plan is considered as a defined benefit plan under the Labor Standards Law that provide benefits based on an employee's length of service and average six-month salary prior to retirement. Chunghwa contributes an amount at 15% or less of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan.

Pension costs of Chunghwa were \$2,871,428 thousand (\$2,774,274 thousand subject to defined benefit plan and \$97,154 thousand subject to defined contribution plan) and \$3,101,497 thousand (\$3,023,558 thousand subject to defined benefit plan and \$77,939 thousand subject to defined contribution plan) for the years ended December 31, 2008 and 2007, respectively.

Chunghwa acquired all of the shares of CHSI and CHTG from CHI in December 2007, for a total purchase price of \$908,935 thousand cash. The Company also acquired all of the shares of DHT from CIHC, for a total purchase price of \$11,430 thousand cash.

Chunghwa sold the land with a carrying value of \$936,016 thousand to LED at price of \$2,421,932 thousand during 2008. However, since the gain on disposal of land amounting to \$1,485,916 thousand is unrealized, the gain is recognized as deferred credits - gain on inter-company transactions, and will not be recognized as revenue till the gain is realized in the future.

Chunghwa sold the land with a carrying value of \$378,927 thousand to LED at price of \$207,030 thousand in 2008 and resulted in a disposal loss amounting to \$171,897 thousand. The disposal loss on land is unrealized and the unrealized loss is included in other assets - other. The unrealized loss is not recognized in earnings until it is sold to the third party and realized in the future.

The foregoing transactions with related parties were conducted as arm's length transactions, except for the transactions with SENAO, CHIEF and CIYP were determined in accordance with mutual agreements.

- c. The compensation of directors, supervisors and managements is showed as follows:

	<b>Years Ended December 31</b>

The compensation of directors, supervisors and management personnel for the year ended December 31, 2007 included the bonuses appropriated from earnings for 2007 which had been approved by stockholders in their annual meeting held in 2008.

## 25. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

As of December 31, 2008, Chunghwa's remaining commitments under non-cancelable contracts with various parties were as follows:

- a. Acquisitions of land and buildings of \$399,116 thousand.
- b. Acquisitions of telecommunications equipment of \$17,090,893 thousand.
- c. Unused letters of credit \$912,714 thousand.
- d. Contract to print billing, envelopes and telephone directories of \$115,725 thousand.
- e. Chunghwa also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operating system software under contracts that expire in various years. Future lease payments were as follows:

<b>Year</b>	<b>Rental Amount</b>
2009	\$ 1,460,359
2010	1,070,118
2011	796,618
2012	572,531

2013 and thereafter

314,256

- 37 -

- f. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by Chunghwa on August 15, 1996 (classified as long-term investment - other monetary assets). If the fund is not sufficient, Chunghwa will contribute the remaining \$1,000,000 thousand upon notification from the Taipei City Government. Based on Chunghwa's understanding of the Piping Fund terms, if the project is considered to be no longer necessary by the ROC government, Chunghwa will receive back its proportionate share of the net equity of the Piping Fund upon its dissolution. Chunghwa does not know when its contribution to the Piping Fund will be returned; therefore, Chunghwa did not discount the face amount of its contribution on the Piping Fund.
- g. A portion of the land used by Chunghwa during the period July 1, 1996 to December 31, 2004 was co-owned by Chunghwa and Chunghwa Post Co., Ltd. (the former Chunghwa Post Co., Ltd. directorate General of Postal Service). In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to Chunghwa to reimburse Chunghwa Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of Chunghwa's ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. Chunghwa stated that both parties have the right to use co-management land without consideration. Chunghwa Post Co., Ltd. can't request payment for land compensation. However, Chunghwa believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, Chunghwa has filed an appeal at the Taiwan Taipei District Court. As of audit report date, the case is still in the procedure of the first instance at the Taiwan Taipei District Court.
- h. Giga Media filed a civil action against Chunghwa with the Taiwan Taipei District Court (the Court) on June 12, 2008. The complaint alleged that Chunghwa infringed Giga Media's ROC Patent No. I 258284 which is a Point-to-Point Protocol over Ethernet (PPPoE) technique used to launch fixed IP of ADSL. Giga Media is seeking damages of \$500,000 thousand and interest calculated at 5% for the period from one day following the date Chunghwa received the official notification from the Court to the payment date.

b. Methods and assumptions used in the estimation of fair values of financial instruments:

- 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. Because of the short maturities of these instruments, the carrying value represents a reasonable basis to estimate fair values. This method does not apply to the financial instruments discussed in Notes 2, and 3 below.
- 2) If the financial assets/liabilities at fair value through profit or loss and the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market prices of the available-for-sale financial assets are not readily available, valuation techniques are used incorporating estimates and assumptions that are consistent with prevailing market conditions.
- 3) Long-term investments are based on the net asset values of the investments in investees, if quoted market prices are not available.

c. Fair values of financial assets and liabilities using quoted market prices or valuation techniques were as follow:

	Amount Based on Quoted Market Price December 31		Amount Determined Using Valuation Techniques December 31	
	2008	2007	2008	2007
<b>Assets</b>				
Financial assets at fair value through profit or loss	\$ 258,076	\$ 119,139	\$	\$

Hedging derivative financial liabilities (classified as other current liabilities)	27,616	35,162		
				(Concluded)

d. Information about financial risks

1) Market risk

The foreign exchange rate fluctuations would result in Chunghwa's foreign-currency-dominated assets and liabilities and open forward exchange contracts exposed to rate risk.

The fluctuations of market price would result in the index future contracts exposed to price risk.

The financial instruments categorized as available-for-sale financial assets are mainly listed stocks and open-end mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, Chunghwa would assess the risk before investing, therefore, no material market risk are anticipated.

2) Credit risk

Credit risk represents the potential loss that would be incurred by Chunghwa if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties of the aforementioned financial instruments are reputable financial institutions. Management does not expect Chunghwa's exposure to default by those parties to be material.

3) Liquidation risk

Chunghwa has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the liquidation risk is low.

The financial instruments of the Company categorized as available-for-sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risks are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risks are anticipated.

4) Cash flow interest rate risk

The Company engages in investments in fixed-interest-rate debt securities. Therefore, cash flows from such securities are not expected to fluctuate significantly due to changes in market interest rates.

In addition, the Company engages in investments in floating-interest-rate debt securities. The changes in market interest rate would impact the floating-interest rate; therefore, cash flows from such securities are expected to fluctuate due to changes in market interest rates.

e. Fair value hedge

Chunghwa entered into forward exchange contracts is mainly to hedge the fluctuation in exchange rates of beneficiary certificate denominated in foreign currency, which is fair value hedge. The transaction was assessed as highly effective for the year ended December 31, 2008 and 2007.

Outstanding forward exchange contracts for hedge as of December 31, 2007 and 2008:

	Currency	Maturity Date	Contract Amount (in Thousands)
<u>December 31, 2008</u>			
Sell	USD/NTD	2009.01	USD 30,000
<u>December 31, 2007</u>			
Sell	USD/NTD	2008.03	USD 65,000
	EUR/NTD	2008.02-03	EUR 40,000

As of December 31, 2008 and 2007, the forward exchange contract measured at fair value resulting in hedging derivative financial liability of \$27,616 thousand and \$35,162 thousand (classified as other current liabilities), respectively. As of December 31, 2007, the forward exchange contract measured at fair value resulting in hedging derivative financial asset of \$990 thousand (classified as other current monetary assets).

According to the regulations of Securities and Futures Bureau, Chunghwa should disclose the derivative transactions of Chunghwa's investees, SENAO, which was as follows:

1) Holding period and contract amounts

SENAO entered into a forward exchange contract for the years ended December 31, 2008 and 2007 to reduce the exposure to foreign currency risk.

Outstanding forward exchange contracts as of December 31, 2008 and 2007:

	Currency	Maturity Period	Contract Amount (in Thousands)
<u>December 31, 2008</u>			
Buy	NTD / USD	2009.01	NTD 131,412
<u>December 31, 2007</u>			
Buy	NTD / USD	2008.01	NTD 64,945

2) Market risk

The foreign exchange rate fluctuations would result in SENAO's foreign-currency-dominated assets and liabilities and open forward exchange contracts exposed to rate risk.

The financial instruments categorized as available-for-sale financial assets are mainly beneficiary certificates. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, SENAO would assess the risk before investing, therefore, no material market risk are anticipated.

3) Credit risk

Credit risk represents the potential loss that would be incurred by SENAO if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the aforementioned financial instruments are reputable financial institutions and companies. Management does not expect SENAO's exposure to default by those parties to be material. The maximum credit exposures of SENAO's financial instruments are the same as its carrying amounts.

4) Liquidation risk

SENAO has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the liquidation risk is low.

SENAO's investments in domestic open-end mutual funds are traded in active markets and can be disposed readily approximately to their fair values. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market; therefore, material liquidation risk would be anticipated on financial assets carried at cost.

Note 2: Inter-division revenues from goods and services.

Note 3: Represents revenues minus costs and operating expenses. Operating expenses include costs and expenses directly pertaining to an industry segment, i.e., excluding general and interest expenses.

Note 4: Represents general expense that cannot be allocated to each division.

Edgar Filing: CHUNGHWA TELECOM CO LTD - Form 6-K

Note 5: Represents tangible assets used by the industry segment, excluding:

- a. Assets maintained for general corporate purposes.
- b. Advances or loans to another industry segment.
- c. Long-term investments accounted for using equity method.

Note 6: Service revenues of internet and data service and electronic rent are included.

Note 7: In order to strengthen the internal management, Chunghwa allocated some of its costs of non-regulated services directly to other segments instead of using internal transfer pricing starting from 2008. Segment assets were adjusted accordingly to conform with the change. The effect of the change of measurement method caused intersegment service revenues of Local Telephone Service operations and All Others operations to decrease by \$8,705,817 thousand and \$4,392,728 thousand, respectively. There was no impact on the intersegment service of DLD operations, ILD operations, Cellular Service operations and Internet and Data Service operations due to the change of measurement method. The effect of the change of measurement method caused segment income before income tax of Local Telephone Service operations and All Others operations to decrease by \$748,937 thousand and \$481,641 thousand, respectively and that of DLD operations, ILD operations, Cellular Service operations and Internet and Data Service operations to increase by \$165,212 thousand, \$136,901 thousand, \$576,385 thousand and \$352,080 thousand, respectively. The effect of the change of measurement method caused segment assets of Local Telephone Service operations and All Other operations to decrease by \$7,582,799 thousand and \$3,640,950 thousand, respectively and that of DLD operations, ILD operations, Cellular Service operations and Internet and data service operations to increase by \$295,718 thousand, \$727,872 thousand, \$5,226,502 thousand and \$4,973,657 thousand, respectively. There was no impact on segment assets of Cellular Phone operations due to the change of measurement method. The disclosure of 2007 was changed to conform with the segment disclosure of 2008.

**INDEPENDENT AUDITORS' REPORT**

To the Board of Directors and Stockholders of

Chunghwa Telecom Co., Ltd.

We have audited the accompanying consolidated balance sheet of Chunghwa Telecom Co., Ltd. and subsidiaries (the Company) as of December 31, 2008 and 2007, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years ended December 31, 2008 and 2007. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of China. Those standards required that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements present fairly, in all material respects, the financial position of Chunghwa Telecom Co., Ltd. and subsidiaries as of December 31, 2008 and 2007, and the results of their operations and their cash flows for the years ended December 31, 2008 and 2007, in conformity with accounting principles generally accepted in the Republic of China.

As discussed in Note 3 to the consolidated financial statements starting from January 1, 2008, the Company changed its method of accounting for bonuses paid to employees, directors and supervisors upon adoption of Interpretation 96-052 issued by the Accounting and Research Development Foundation in the Republic of China.

March 3, 2009

**Notice to Readers**

*The accompanying consolidated financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.*

*For the convenience of readers, the auditors' report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and consolidated financial statements shall prevail.*

**CHUNGHWA TELECOM CO., LTD. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENT**

**FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007**

**(Amounts in Thousands of New Taiwan Dollars, Unless Stated Otherwise)**

**1. GENERAL**

Chunghwa Telecom Co., Ltd. ( Chunghwa ) was incorporated on July 1, 1996 in the Republic of China ( ROC ) pursuant to the Article 30 of the Telecommunications Act. Chunghwa is a company limited by shares and, prior to August 2000, was wholly owned by the Ministry of Transportation and Communications ( MOTC ). Prior to July 1, 1996, the current operations of Chunghwa were carried out under the Directorate General of Telecommunications ( DGT ). The DGT was established by the MOTC in June 1943 to take primary responsibility in the development of telecommunications infrastructure and to formulate policies related to telecommunications. On July 1, 1996, the telecom operations of the DGT were spun-off to as Chunghwa which continues to carry out the business and the DGT continues to be the industry regulator.

As the dominate telecommunications service provider of fixed-line and Global System for Mobile Communications (GSM) in the ROC, Chunghwa is subject to additional regulations imposed by ROC.

Effective August 12, 2005, the MOTC had completed the process of privatizing Chunghwa by reducing the government ownership to below 50% in various stages. In July 2000, Chunghwa received approval from the Securities and Futures Commission (the SFC ) for a domestic initial public offering and its common shares were listed and traded on the Taiwan Stock Exchange (the TSE ) on October 27, 2000. Certain of Chunghwa 's common shares had been sold, in connection with the foregoing privatization plan, in domestic public offerings at various dates from August 2000 to July 2003. Certain of Chunghwa 's common shares had also been sold in an international offering of securities in the form of American Depository Shares ( ADS ) on July 17, 2003 and were listed and traded on the New York Stock Exchange (the NYSE ). The MOTC sold common shares of Chunghwa by auction in the ROC on August 9, 2005 and completed the second international offering on August 10, 2005. Upon completion of the share transfers associated with these offerings on August 12, 2005, the MOTC owned less than 50% of the outstanding shares of Chunghwa and completed the privatization plan.

Senao International Co., Ltd. ( SENAO ) was incorporated in 1979. SENAO engages mainly in selling and maintaining mobile phone and its peripheral products. Chunghwa acquired 31.33% shares of SENAO on January 15, 2007 and has control in SENAO by obtaining four out of seven seats of the board of directors of SENAO on April 12, 2007.

Chunghwa established Chunghwa International Yellow Pages Co., Ltd. ( CIYP ) in January, 2007. CIYP engages mainly in yellow pages sales and advertisement services.

CHIEF Telecom Inc. ( CHIEF ) was incorporated in 1991. CHIEF engages mainly in internet communication and internet data center ( IDC ) service. Chunghwa acquired 70% shares of CHIEF on September, 2006.

Unigate Telecom Inc. ( Unigate ) was established by CHIEF in 1999. Unigate engages mainly in telecommunication and information software service.

CHIEF Telecom (Hong Kong) Limited ( CHIEF(HK) ) was established by CHIEF in 2003. CHIEF (HK) engages mainly in internet communication and internet data center ( IDC ) service.

Chief International Corp. ( CIC ) was established by CHIEF in 2008. CIC engages mainly in internet communication and internet data center ( IDC ) services.

Chunghwa System Integration Co., Ltd. ( CHSI ) was incorporated in 2002. CHSI engages mainly in providing communication and information integration services. Chunghwa has acquired 100% shares of CHSI in December 2007.

Concord Technology Co., Ltd. ( Concord ), a subsidiary of CHSI, was incorporated in 2006. Concord engages mainly in investment.

Glory Network System Service (Shanghai) Co., Ltd. ( GNSS (Shanghai) ), a subsidiary of Concord, was incorporated in 2006. GNSS (Shanghai) engages mainly in planning and designing of systems and communications and information integration services.

Chunghwa Telecom Global, Inc. ( CHTG ) was incorporated in 2004. CHTG engages mainly in international data and internet services and long distance call wholesales to carriers. Chunghwa acquired 100% shares of CHTG in December 2007.

Donghwa Telecom Co., Ltd. ( DHT ) was incorporated in 2004. DHT engages mainly in international telecommunications, IP fictitious internet and internet transfer services. Chunghwa acquired 100% shares of DHT in December 2007.

Spring House Entertainment Inc. ( SHE ) was incorporated in 2000. SHE engages mainly in network services, producing digital entertainment contents and broadband visual sound terrace development. SHE was an equity method investee before Chunghwa obtained control interest over it in January 2008.

Chunghwa established Light Era Development Co., Ltd. ( LED ) in January 2008. LED engages mainly in development of property for rent and sale.

Chunghwa established Chunghwa Telecom Singapore Pte. Ltd. ( CHTS ) in July 2008, CHTS engages mainly in telecommunication wholesale, internet transfer services, international data, long distance call wholesales to carriers and the world satellite business.

Chunghwa established Chunghwa Telecom Japan Co., Ltd. ( CHTJ ) 100% owned subsidiary in October 2008. CHTJ engages mainly in telecommunication business, information processing and information providing service, development and sale of software and consulting services in telecommunication.

Chunghwa has established New Prospect Investments Holdings Ltd. ( New Prospect ) and Prime Asia Investments Group Ltd. ( Prime Asia ) in September 2006, but not on operation stage yet. Both holding companies are operating as investment companies and Chunghwa has 100% ownership right in an amount of US\$1 in each holding company.

As of December 31, 2008 and 2007, the Company had 27,165 and 26,154 employees, respectively.

The following diagram presents information regarding the relationship and ownership percentages between Chunghwa and its subsidiaries as of December 31, 2008:

Chunghwa together with its subsidiaries are hereinafter referred to collectively as the Company . Minority interest in the aforementioned subsidiaries are presented as a separate component of stockholders' equity.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying consolidated financial statements were prepared in conformity with the Securities and Exchange Act, the Guidelines Governing the Preparation of Financial Reports by Securities Issuers and accounting principles generally accepted in the ROC ( ROC GAAP ). The preparation of consolidated financial statements requires management to make reasonable estimates and assumptions on allowances for doubtful accounts, valuation allowances on inventories, depreciation of property, plant and equipment, impairment of assets, bonuses paid to employees, directors and supervisors, pension plans and income tax which are inherently uncertain. Actual results may differ from these estimates. The significant accounting policies are summarized as follows:

### Principle of Consolidation

Chunghwa need to comply with the Statement of Financial Accounting Standards No. 25 Business Combinations the accounting treatment of Purchase method when acquiring the information of its subsidiaries.

The accompanying consolidated financial statements include the accounts of all directly and indirectly majority owned subsidiaries of the Company, and the accounts of investees in which the Company's ownership percentage is less than 50% but over which the Company has a controlling interest. All significant intercompany transactions and balances are eliminated upon consolidation.

The consolidated financial statements for the year ended December 31, 2008 include the accounts of Chunghwa, SENAO, CIYP, CHIEF, Unigate, CHIEF (HK), CIC, CHSI, Concord, GNSS (Shanghai), CHTG, DHT, SHE, LED, CHTS, CHTJ, New Prospect and Prime Asia. The consolidated financial statements for the year ended December 31, 2007 include the accounts of Chunghwa, SENAO, CIYP, CHIEF, Unigate, CHIEF (HK), CHSI, Concord, GNSS (Shanghai), CHTG, DHT, New Prospect and Prime Asia.

For foreign subsidiaries using their local currency as their functional currency, assets and liabilities are translated in New Taiwan dollars at the exchange rates in effect on the balance sheet date; stockholders' equity accounts are translated into New Taiwan dollars at historical exchange rates and income statement accounts are translated into New Taiwan dollars at average exchange rates during the year.

The entities in the Consolidated Financial Statements of Affiliated Enterprises are the same as those in the consolidated financial statements; thus, no consolidated financial statements of Chunghwa and affiliates will be compiled. The information needed in the consolidated financial statements of Chunghwa and affiliates is enclosed in the consolidated financial statements.

#### **Classification of Current and Noncurrent Assets and Liabilities**

Current assets are assets expected to be converted to cash, sold or consumed within one year from balance sheet date. Current liabilities are obligations expected to be settled within one year from balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

As LED engages mainly in the development of property for rent and sale, its operating cycle is over one year.

#### **Cash Equivalents**

Cash equivalents are commercial paper and treasury bills purchased with maturities of three months or less from the date of acquisition. The carrying amount approximates fair value.

#### **Financial Assets and Liabilities at Fair Value Through Profit or Loss**

Financial instruments classified as financial assets or financial liabilities at fair value through profit or loss ( FVTPL ) include financial assets or financial liabilities held for trading and those designated as at FVTPL on initial recognition. Chunghwa recognizes a financial asset or a financial liability when the Company becomes a party to the contractual provisions of the financial instrument. A financial asset is derecognized when the Company loses control of its contractual rights over the financial asset. A financial liability is derecognized when the obligation specified in the relevant contract is discharged, cancelled or expired.

Financial instruments at FVTPL are initially measured at fair value. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized as expenses as incurred. Financial assets or financial liabilities at FVTPL are remeasured at fair value, subsequently with changes in fair value recognized in earnings. Cash dividends received subsequently (including those received in the period of investment) are recognized as income. On derecognition of a financial asset or a financial liability, the difference between its carrying amount and the sum of the consideration received and receivable or consideration paid and payable is recognized in earnings. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

Derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

#### **Available-for-sale Financial Assets**

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of stockholders' equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

The recognition and derecognition of available-for-sale financial assets are similar to those of financial assets at FVTPL.

Fair values are determined as follows: Listed stocks at closing prices at the balance sheet date; open-end mutual funds at net asset values at the balance sheet date; bonds quoted at prices provided by the Taiwan GreTai Securities Market; and financial assets and financial liabilities without quoted prices in an active market at values determined using valuation techniques.

Cash dividends are recognized in earnings on the ex-dividend date, except for the dividends declared before acquisition are treated as a reduction of investment cost. Stock dividends are recorded as an increase in the number of shares and do not affect investment income. The total number of shares subsequent to the increase of stock dividends is used for recalculate cost per share.

An impairment loss is recognized when there is objective evidence that the financial asset is impaired. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to stockholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

#### **Held-to-maturity Financial Assets**

Held-to-maturity financial assets are carried at amortized cost using the effective interest method. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains and losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using trade date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

#### **Revenue Recognition, Account Receivables and Allowance for Doubtful Receivables**

Revenues are recognized when they are realized or realizable and earned. Revenues are realized or realizable and earned when the Company has persuasive evidence of an arrangement, the goods have been delivered or the services have been rendered to the customer, the sales price is fixed or determinable and collectibility is reasonably assured.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts agreed between the Company and the customers for goods sold in the normal course of business, net of sales discounts and volume rebates. For trade receivables due within one year from the balance sheet date, as the nominal value of the consideration to be received approximates its fair value and transactions are frequent, fair value of the consideration is not determined by discounting all future receipts using an imputed rate of interest.

Usage revenues from fixed-line services (including local, domestic long distance and international long distance), cellular services, Internet and data services, and interconnection and call transfer fees from other telecommunications companies and carriers are billed in arrears and are recognized based upon minutes of traffic processed when the services are provided in accordance with contract terms.

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract bundled with the handsets.

Other revenues are recognized as follows: (a) one-time subscriber connection fees (on fixed-line services) are deferred and recognized over the average expected customer service periods, (b) monthly fees (on fixed-line services, wireless and Internet and data services) are accrued every month, and (c) prepaid services (fixed line, cellular and Internet) are recognized as income based upon actual usage by customers or when the right to use those services expires.

Where the Company enters into transactions which involve both the provision of air time bundled with products such as 3G data card and handset, total consideration received from handsets in these arrangements is allocated and measured using units of accounting within the arrangement based on relative fair values limited to the amount that is not contingent upon the delivery of other items or services.

Where the Company sells products to third party cellular phone stores the Company records the direct sale of the products, typically handsets, at gross revenue when the Company is the primary obligor in the arrangement and when title is passed and the products are accepted by the stores.

An allowance for doubtful receivables is provided based on a review of the collectibility of accounts receivable. The Company determines the amount of allowance for doubtful receivables by examining the aging analysis of outstanding accounts receivable.

#### **Inventories**

Inventories are stated at the lower of cost (weighted-average cost) or market value (replacement cost or net realizable value).

Beginning from 2008, the Company classified certain land as land held for development within inventories. Prior to 2008, such land was classified as part of property, plant, and equipment. Such land is stated at the lower of cost or market value. Prepayments for licensing and other miscellaneous costs have been capitalized as part of inventory. Profit shall be recognized in full when the land is sold, provided (a) the profit is determinable, that is, the collectibility of the sales price is reasonably assured or the amount that will not be collectible can be estimated, and (b) the earnings process is virtually complete.

#### **Investments Accounted for using Equity Method**

Investments in companies in which Chunghwa exercises significant influence over the operating and financial policy decisions are accounted for by the equity method. Under the equity method, the investment is initially stated at cost and subsequently adjusted for its proportionate share in the net earnings of the investee companies. Any cash dividends received are recognized as a reduction in the carrying value of the investments.

Gains or losses on sales from the Company to equity method investees wherein Chunghwa exercises significant influence over these equity investees are deferred in proportion to the Company's ownership percentage in the investees until such gains or losses are realized through transactions with third parties. Gains or losses on sales from equity method investees to Chunghwa are deferred in proportion to Chunghwa's ownership percentages in the investees until they are realized through transactions with third parties.

Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards No. 5, the cost of an investment shall be analyzed and the difference between the cost of investment and the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of noncurrent assets except (a) financial assets other than investments accounted for using equity method, (b) assets to be disposed of by sale, (c) deferred tax assets, and (d) prepaid assets relating to pension or other postretirement benefit plans. If any excess remains after reducing the aforementioned items, the remaining excess shall be recognized as an extraordinary gain.

When the Company subscribes for additional investee shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company share of the investee's equity. Chunghwa records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to additional paid-in capital to the extent available, with the balance charged to retained earnings.

#### **Financial Assets Carried at Cost**

Investments in equity instruments that do not have a quoted price in an active market and whose fair values cannot be reliably measured such as non-publicly traded stocks are measured at their original cost. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

The accounting treatment for cash dividends and stock dividends arising from financial assets carried at cost is the same as that for cash dividends and stock dividends arising from available-for-sale financial assets.

#### **Property, Plant and Equipment**

Property, plant and equipment are stated at cost plus a revaluation increment, if any, less accumulated depreciation and accumulated impairment loss. The interest costs that are directly attributable to the acquisition, construction of a qualifying asset are capitalized as property, plant and equipment. Major renewals and betterments are capitalized, while maintenance and repairs are expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized.

An impairment loss on a revalued asset is charged to unrealized revaluation increment under equity to the extent available, with the balance recognized as a loss in earnings. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment loss could be reversed and recognized as a gain, with the remaining credited to unrealized revaluation increment.

Depreciation expense is computed using the straight-line method over the following estimated service lives: land improvements - 10 to 30 years; buildings - 5 to 60 years; computer equipment - 3 to 10 years; telecommunication equipment - 5 to 30 years; transportation equipment - 5 to 10 years; and miscellaneous equipment - 2 to 12 years.

Upon sale or disposal of property, plant and equipment, the related cost, accumulated depreciation, accumulated impairment losses and any unrealized revaluation increment are deducted from the corresponding accounts, and any gain or loss recorded as non-operating gains or losses in the year of sale or disposal.

### **Intangible Assets**

Intangible assets mainly include 3G Concession, computer software, patents and goodwill.

The 3G Concession is valid through December 31, 2018. The 3G Concession and any additional licensing fees are amortized on a straight-line basis from the date operations commence through the date the license expires. Computer software costs and patents are amortized using the straight-line method over the estimated useful lives of 2-20 years.

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Goodwill is tested for impairment annually. If an event occurs or circumstances change which indicates that the fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Effective January 1, 2007, the Company adopted the newly released Statements of Financial Accounting Standards No. 37, Intangible Assets. Expenditure on research shall be expensed as incurred. Development Costs are capitalized when those costs meet relative criteria and are amortized using the straight-line method over estimated useful lives. Development costs do not meet relative criteria shall be expensed as incurred.

When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, as if no impairment loss had been recognized.

### **Pension Costs**

For employees under defined benefit pension plans, pension costs are recorded based on actuarial calculations. For employees under defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees' individual pension accounts during their service periods.

### **Expense Recognition**

The costs of providing services are recognized as incurred. The cost includes incentives to third party dealers for inducing business which are payable when the end user enters into an airtime contract bundled with the handsets.

### **Treasury Stock**

Treasury stock is recorded at cost and shown as a reduction to stockholders' equity. Upon cancellation of treasury stock, the treasury stock account is reduced and the common stock and capital surplus are reversed on a pro rata basis. If capital surplus is not sufficient, the difference is charged to retained earnings.

### **Share-based Compensation**

Employee stock options granted on or after January 1, 2008 are accounted for using fair value method in accordance with under SFAS No. 39, Accounting for Share-based Payment. The adoption of SFAS No. 39 did not have any impact on the Company.

Employee stock options granted between January 1, 2004 and December 31, 2007 were accounted for under the interpretations issued by the Accounting Research and Development Foundation (the ARDF). The Company adopted the intrinsic value method, under which compensation cost was amortized over the vesting period.

### **Income Tax**

The Company applies inter-period allocations for its income tax, whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax provision.

Income taxes (10%) on undistributed earnings is recorded in the year of stockholders approval which is the year subsequent to the year the earnings are generated.

### **Foreign-currency Transactions**

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings. At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

The financial statements of foreign equity investees are translated into New Taiwan dollars at the following exchange rates. Assets and liabilities - spot rates at year-end; stockholders' equity - historical rates, income and expenses - average rates during the year. The resulting translation adjustments are recorded as a separate component of stockholders' equity.

### **Hedge Accounting**

A hedging relationship qualifies for hedge accounting only if, all of the following conditions are met: (a) at the inception of the hedge, there is formal documentation of the hedging relationship and the entity's risk management objective and strategy for undertaking the hedge; (b) the hedge is expected to be highly effective in achieving offsetting changes in fair value attributable to the hedged risk, consistently with the risk management strategy documented for that particular hedging relationship; (c) the effectiveness of the hedge can be reliably measured; (d) the hedge is assessed on an ongoing basis and determined actually to have been highly effective throughout the financial reporting periods for which the hedge was designated.

The gain or loss from remeasuring the hedging instrument at fair value and the gain or loss on the hedged item attributable to the hedged risk are recognized in earnings.

### **Recent Accounting Pronouncements**

The ARDF of the ROC revised Statement of Financial Accounting Standards No. 10, Accounting for Inventories (SFAS No. 10) in November 2007, which requires inventories to be stated at the lower of cost or net realizable value item by item. Inventories are recorded by the specific identification method, first-in, first-out method or weighted average method. The last-in, first-out method is no longer permitted. The revised SFAS No. 10 should be applied to financial statements for the fiscal years beginning on or after January 1, 2009. Early adoption is permitted. The Company is currently evaluating the impact that the adoption of ROC SFAS No. 10 will have on its results of operation and financial positions.

**Reclassifications**

Certain accounts in the financial statements as of and for the years ended December 31, 2007 have been reclassified to conform to the presentation of the financial statements as of and for the year ended December 31, 2008.

**3. EFFECT OF CHANGES IN ACCOUNTING PRINCIPLES**

In March 2007, the ARDF issued an Interpretation 96-052 that requires companies to recognize bonuses paid to employees, directors and supervisors as an expense rather than an appropriation of earnings beginning from January 1, 2008. The adoption of this interpretation resulted in a decrease of \$1,317,524 thousand in consolidated net income which was attributed to shareholders of the parent and a decrease in basic earnings per share (after income tax) of \$0.14 for the year ended December 31, 2008. Beginning from 2009, such bonuses will be classified as an operating activity for purposes of the statement of cash flows when paid.

Chunghwa entered into investment management agreements with a well-known financial institution (fund managers) to manage its investment portfolios in 2006. As of December 31, 2008, Chunghwa's investment portfolios managed by these fund managers aggregated to an original amount of US\$100,000 thousand. The investment portfolios included listed stocks, mutual funds and derivative instruments.

The Company entered into forward exchange contracts and index future contracts to reduce its exposure to foreign currency risk and variability in operating results due to fluctuations in exchange rates and stock prices. However, derivatives that do not meet the criteria for hedge accounting is classified as financial assets or financial liabilities held for trading.

As of December 31, 2008 and 2007, the deposits paid for index future contracts were \$242,768 thousand and \$81,515 thousand, respectively.

In September 2007, Chunghwa entered into a 10-year, foreign currency derivative contract with Goldman Sachs Group Inc. ( Goldman ) and valuations are made biweekly starting from September 20, 2007 which are 260 valuation periods totally. Under the terms of the contract, if the NT dollar/US dollar exchange rate is less than NT\$31.50 per US dollar at any two consecutive bi-weekly valuation dates during the valuation period starting from October 4, 2007 to September 5, 2017, Chunghwa is required to make a cash payment to Goldman. The settlement amount is determined by the difference between the applicable exchange rates and the base amount of US\$4,000 thousand. Conversely, if the NT dollar/US dollar exchange rate is above NT\$31.50 per US dollar using the same valuation methodology, Goldman would have a settlement obligation to Chunghwa determined using a base amount of US\$2,000 thousand. Further, if the exchange rate is at or above NT\$32.70 per US dollar starting from December 12, 2007 at any time, the contract would be terminated at that time. In accordance with the terms of the contract, Chunghwa deposited US\$3,000 thousand with Goldman with annual yield rate of 8%. On October 21, 2008, the exchange rate was above NT\$32.70 per US dollar, so the contract was terminated at that time.

Net gain and net loss arising from financial assets and liabilities at fair value through profit or loss for the years ended December 31, 2008 and 2007 were \$485,929 thousand (including realized settlement loss of \$38,127 thousand and valuation gain of \$524,056 thousand), and \$866,040 thousand (including realized settlement loss of \$271,138 thousand and valuation loss of \$594,902 thousand) respectively.

## 21. STOCKHOLDERS EQUITY

Under Chunghwa's Articles of Incorporation, Chunghwa's authorized capital is \$120,000,000,020 which is divided into 12,000,000,000 common shares (at \$10 par value per share), which are issued and outstanding 9,696,808,181 shares. Chunghwa's Articles of Incorporation and the Republic of China Telecommunications Act provide that the MOTC has the right to purchase two redeemable preferred shares at \$10 (par value) in the event its ownership of Chunghwa falls below 50% of the outstanding common shares. On March 28, 2006, the board of directors approved the issuance of the 2 preferred shares, and the MOTC purchased the 2 preferred shares at par value on April 4, 2006.

For the purpose of privatizing Chunghwa, the MOTC sold 1,109,750 thousand common shares of Chunghwa in an international offering of securities in the form of American Depositary Shares (ADS) amounting to 110,975 thousand units (one ADS represents ten common shares) on the New York Stock Exchange on July 17, 2003. Afterwards, the MOTC sold 1,350,682 thousand common shares in the form of ADS amounting to 135,068 thousand units on August 10, 2005. Subsequently, the MOTC and Taiwan Mobile Co., Ltd. sold 505,389 thousand and 58,959 thousand common shares of Chunghwa, respectively, in the form of ADS totally amounting to 56,435 thousand units on September 29, 2006. The MOTC and Taiwan Mobile Co., Ltd. have sold 3,024,780 thousand common shares in the form of ADS amounting to 302,478 thousand units. As of December 31, 2008, the outstanding ADSs were 1,780,568 thousand common shares, which equaled approximately 178,057 thousand units and represented 18.36% of Chunghwa's total outstanding common shares.

The ADS holders generally have the same rights and obligations as other common stockholders, subject to the provision of relevant laws. The exercise of such rights and obligations shall comply with the related regulations and deposit agreement, which stipulate, among other things, that ADS holders can, through deposit agents:

- a. Exercise their voting rights,
- b. Sell their ADSs, and
- c. Receive dividends declared and subscribe to the issuance of new shares.

The MOTC, as the holder of those preferred shares is entitled to the same rights as holders of common shares and certain additional rights as specified in Chunghwa's Articles of Incorporation as follows:

- a. The holder of the preferred shares, or its nominated representative, will act as a director and/or supervisor during the entire period in which the preferred shares are outstanding.
- b. The holder of preferred shares has the same pre-emptive rights as holders of common shares when Chunghwa raises capital by issuing new shares.
- c. The holder of the preferred shares will have the right to veto on any change in the name of Chunghwa or the nature of its business and any transfer of a substantial portion of Chunghwa's business or property.
- d. The holder of the preferred shares may not transfer the ownership. Chunghwa must redeem all outstanding preferred shares with par value within three years from the date of their issuance.

Under the ROC Company Law, additional paid-in capital may only be utilized to offset deficits. For those companies having no deficits, additional paid-in capital arising from capital surplus can be used to increase capital stock and distribute to stockholders in proportion to their ownership at the ex-dividend date. Also, such amounts can only be declared as a stock dividend by Chunghwa at an amount calculated in accordance with the provisions of existing regulations. The combined amount of any portions capitalized each year may not exceed 10 percent of common stock issued. However, where a company undergoes an organizational change (such as a merger, acquisition, or reorganization) that results in the capitalization of undistributed earnings after the organizational change, the above restriction does not apply.

In addition, before distributing a dividend or making any other distribution to stockholders, Chunghwa must pay all outstanding taxes, recover any past losses and set aside a legal reserve equal to 10% of its net income, and depending on its business needs or requirements, may also set aside a special reserve. In accordance with the Articles of Incorporation, no less than 50% of the remaining earnings comprising remaining balance of net income, if any, plus cumulative undistributed earnings shall be distributed in the following order: (a) from 2% to 5% of distributable earnings shall be distributed to employees as employee bonus; (b) no more than 0.2% of distributable earnings shall be distributed to board of directors and supervisors as remuneration; and (c) cash dividends to be distributed shall not be less than 50% of the total amount of dividends to be distributed. If cash dividends to be distributed is less than \$0.10 per share, such cash dividend shall be distributed in the form of common shares.

Chunghwa operates in a capital-intensive and technology-intensive industry and requires capital expenditures to sustain its competitive position in high-growth market. Thus, Chunghwa's dividend policy takes into account future capital expenditure outlays. In this regard, a portion of the earnings may be retained to finance these capital expenditures. The remaining earnings can then be distributed as dividends if approved by the stockholders in the following year and will be recorded in the financial statements of that year.

For the year ended December 31, 2008, the accrual amounts for bonuses to employees and remuneration to directors and supervisors is based on management estimates including past experience and probable amount to be paid in accordance with Chunghwa's Articles of Incorporation and Implementation Guidance for the Employee's Bonus Distribution of Chunghwa Telecom Co., Ltd.

If the initial accrual amounts of the aforementioned bonus are different from the amounts resolute in the stockholders' meeting and the difference is charged to the earnings of the following year as a result of change in accounting estimate.

Under the ROC Company Law, the appropriation for legal reserve shall be made until the accumulated reserve equals the aggregate par value of the outstanding capital stock of Chunghwa. This reserve can only be used to offset a deficit, or when reaching 50% of the aggregate par value of the outstanding capital stock of Chunghwa, up to 50% of the reserve may, at the option of Chunghwa, be declared as a stock dividend and transferred to capital.

The appropriations and distributions of the 2007 and 2006 earnings of Chunghwa have been approved and resolved by the stockholders on June 19, 2008 and June 15, 2007 as follows:

	Appropriation of Earnings		Dividend Per Share	
	2007	2006	2007	2006
Legal reserve	\$ 4,823,356	\$ 3,998,445	\$	\$
Reversal of special reserve	3,304	1,461		
Cash dividends	40,716,130	34,610,885	4.26	3.58
Stock dividends	955,778		0.10	
Employee bonus - cash	1,303,605	1,256,619		
Employee bonus - stock	434,535			
Remuneration to board of directors and supervisors	43,454	35,904		

The amounts of the appropriations of earnings for 2007 and 2006 were consistent with the resolutions of the meetings of the Board of Directors held on April 25, 2008 and, April 24, 2007 respectively.

The stockholders, at a special meeting held on August 14, 2008, resolved to transfer capital surplus in the amount of \$19,115,554 thousand to common capital stock.

The above mentioned 2008 capital increase proposal was effectively registered with Securities and Futures Bureau of Financial Supervisory Commission, Executive Yuan ( SFC ). The board of directors resolved the ex- dividend date of the aforementioned proposal as October 25, 2008.

The stockholders, at the stockholders meeting held on August 14, 2008, also resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of \$19,115,554 thousand to common capital stock and was effectively registered with SFC. Chunghwa designated December 30, 2008 as the record date and March 9, 2009 as the stock transfer date of capital reduction.

The stockholders, at a meeting held on June 15, 2007, resolved to transfer capital surplus in the amount of \$9,667,845 thousand to common capital stock.

The above 2007 capital increase proposal was effectively registered with SFC. The board of directors resolved the ex-dividend date of the aforementioned proposal is August 1, 2007.

The stockholders, at the stockholders meeting held on June 15, 2007, also resolved to reduce the amount of capital in Chunghwa by a cash distribution to its stockholders in order to improve the financial condition of Chunghwa and better utilize its excess funds. The capital reduction plan was effected by a transfer of capital surplus in the amount of \$9,667,845 thousand to common capital stock, and was effectively registered with SFC. Chunghwa decided October 19, 2007 and December 29, 2007 as the record date and stock transfer date of capital reduction, respectively. Subsequently, common capital stock was reduced by \$9,667,845 thousand and a liability for the actual amount of cash to be distributed to stockholders of \$9,557,777 thousand was recorded. The difference between the reduction in common capital stock and the distribution amount represents treasury stock of \$110,068 thousand held by Chunghwa and concurrently cancelled. Such cash payments to stockholders was made in January 2008.

The appropriation of Chunghwa s 2008 earnings has not been resolved by the board of directors as of the report date. Information on the appropriation of 2008 earnings, employee bonus and remuneration to board of directors and supervisors proposed by the board of directors and resolved by the stockholders is available at the Market Observation Post System website.

(Concluded)

According to the Interpretation 97-169 issued by ARDF in May 2008, Chunghwa presumed that the employees bonuses to be paid will be settled in shares and takes those shares into consideration when calculating the weighted average number of outstanding shares used in the calculation of diluted EPS if the share have a dilutive effect for the year ended December 31, 2008. The number of shares is calculated by dividing the amount of bonuses by the closing price of the Chunghwa's shares of the balance sheet date. The dilutive effect of the shares needs to be considered until the stockholders resolve the number of shares to be distributed to employees in their meeting in the following year.

The diluted earnings per share for the years ended December 31, 2008 and 2007 was due to the effect of potential common stock of stock options by SENAO.

## 27. PENSION PLAN

Chunghwa completed privatization plans on August 12, 2005. Chunghwa is required to pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization in accordance with the Statute Governing Privatization of Stated-owned Enterprises. After paying all pension obligations for privatization, the plan assets of Chunghwa should be transferred to the Fund for Privatization of Government-owned Enterprises (the Privatization Fund) under the Executive Yuan. On August 7, 2006, Chunghwa transferred the remaining balance of fund to the Privatization Fund. However, according to the instructions of MOTC, Chunghwa would, on behalf of the MOTC pay all accrued pension obligations including service clearance payment, lump sum payment under civil service plan, additional separation payments, etc. upon the completion of the privatization.

The pension plan under the Labor Pension Act of ROC (the LPA) is effective beginning July 1, 2005 and this pension mechanism is considered as a defined contribution plan. Based on the LPA, Chunghwa, SENAO, CIYP, CHIEF, Unigate, CHSI, SHE, LED makes monthly contributions to employees' individual pension accounts at 6% of monthly salaries and wages.

The Company's pension plan is considered as a defined benefit plan under the Labor Standards Law that provide benefits based on an employee's length of service and average six-month salary prior to retirement. Chunghwa, SENA0, CHIEF and SHE contribute an amount equal to 2% to 15% of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the names of the Committees in the Bank of Taiwan.

The Company used December 31 as the measurement date for their pension plans.

Pension costs of the Company amounted to \$2,938,297 thousand (\$2,774,487 thousand subject to defined benefit plan and \$163,810 thousand subject to defined contribution plan) and \$3,138,987 thousand (\$3,026,778 thousand subject to defined benefit plan and \$112,209 thousand subject to defined contributed plan) for the years ended December 31, 2008 and 2007, respectively.

The following assets are pledged as collateral for short-term and long-term bank loans and contract deposits by SENAO, CHIEF and SHE.

	December 31	
	2008	2007
Property, plant and equipment, net	\$ 337,857	\$ 505,747
Leased assets, net	435,166	288,998
Restricted assets	11,904	864
	\$ 784,927	\$ 795,609

## 30. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

As of December 31, 2008, the Company's remaining commitments under non-cancelable contracts with various parties were as follows:

- a. Acquisitions of land and buildings of \$399,116 thousand.
- b. Acquisitions of telecommunications equipment of \$15,605,897 thousand.

- c. Unused letters of credit of \$912,714 thousand.

- d. Contract to print billing, envelopes and telephone directories of \$115,725 thousand.
- e. LED has already contracted to advance sale of land for \$1,667,660 thousand, and collected \$226,567 thousand according to the contracts.
- f. For the purpose of completion the construction, acquisition of the building construction license and registration ownerships of all buildings for Wan-Xi Project, LED signed the trust deeds with Hua Nan Bank and China Real Estate Management Co., Ltd. for the fund management, property rights and related development to the extent of authority they are given.

Trust assets are as follow:

	<b>December 31, 2008</b>
Restricted assets -Bank deposits	\$ 55,546
Land used in construction	1,822,166
	<b>\$ 1,877,712</b>

- g. The Company also has non-cancelable operating leases covering certain buildings, computers, computer peripheral equipment and operation system software under contracts that expire in various years. Future lease payments were as follows:

	<b>Amount</b>
2009	\$ 1,405,635
2010	1,059,955
2011	864,480
2012	650,805
2013 and thereafter	645,749

- h. A commitment to contribute \$2,000,000 thousand to a Piping Fund administered by the Taipei City Government, of which \$1,000,000 thousand was contributed by Chunghwa on August 15, 1996 (classified as long-term investment other monetary assets). If the fund is not sufficient, Chunghwa will contribute the remaining \$1,000,000 thousand upon notification from the Taipei City Government. Based on Chunghwa's understanding of the Piping Fund terms, if the project is considered to be no longer necessary by the ROC government, Chunghwa will receive back its proportionate share of the net equity of the Piping Fund upon its dissolution. The Company does not know when its contribution to the Piping Fund will be returned; therefore, the Company did not discount the face amount of its contribution to the Piping Fund.
- i. A portion of the land used by Chunghwa during the period July 1, 1996 to December 31, 2004 was co-owned by Chunghwa and Chunghwa Post Co., Ltd. (the former Chunghwa Post Co., Ltd. directorate General of Postal Service). In accordance with the claims process in Taiwan, on July 12, 2005, the Taiwan Taipei District Court sent a claim notice to Chunghwa to reimburse Chunghwa Post Co., Ltd. in the amount of \$767,852 thousand for land usage compensation due to the portion of land usage area in excess of Chunghwa's ownership and along with interest calculated at 5% interest rate from June 30, 2005 to the payment date. Chunghwa stated that both parties have the right to use co-management land without consideration. Chunghwa Post Co., Ltd. can't request payment for land compensation. However, Chunghwa believes that the computation used to derive the land usage compensation amount is inaccurate because most of the compensation amount has expired as result of the expiration clause. Therefore, Chunghwa has filed an appeal at the Taiwan Taipei District Court. As of audit report date, the case is still in the procedure of the first instance at the Taiwan Taipei District Court.

- j. Giga Media filed a civil action against Chunghwa with the Taiwan Taipei District Court (the Court) on June 12, 2008. The complaint alleged that Chunghwa infringed Giga Media's ROC Patent No. I258284 which is a Point-to-Point Protocol over Ethernet (PPPoE) technique used to launch fixed IP of ADSL. Giga Media is seeking damages of \$500,000 thousand and interest calculated at 5% for the period from one day following the date Chunghwa received the official notification from the Court to the payment date.

b. Methods and assumptions used in the estimation of fair values of financial instruments:

- 1) The fair values of certain financial instruments recognized in the balance sheet generally correspond to the market prices of the financial assets. Because of the short maturities of these instruments, the carrying value represents a reasonable basis to estimate fair values. This method does not apply to the financial instruments discussed in Notes 2, 3, and 4 below.
- 2) If the financial assets/liabilities at fair value through profit or loss and the available-for-sale financial assets have quoted market prices in an active market, the quoted market prices are viewed as fair values. If the market price of the available-for-sale financial assets are not readily available, valuation techniques are used incorporating estimates and assumptions that are consistent with prevailing market conditions.
- 3) Long-term investments are based on the net asset values of the investments in unconsolidated companies if quoted market prices are not available.
- 4) The fair value of long-term loans (including current portion) is discounted based on projected cash flow with approximate their carrying amounts. The projected cash flows were discounted using the interest rate of similar long-term loans.

c. Fair values of financial assets and liabilities using quoted market price or valuation techniques were as follows:

	Amount Based on Quoted Market Price December 31		Amount Determined Using Valuation Techniques December 31	
	2008	2007	2008	2007
<b>Assets</b>				
Financial assets at fair value through profit or loss	\$ 258,578	\$ 119,139	\$	\$
Available-for-sale financial assets	14,182,385	18,157,513		
Hedging derivative financial assets (classified as other current monetary assets)		990		
<b>Liabilities</b>				
Financial liabilities at fair value through profit or loss	107,344	73,127		580,159
Hedging derivative financial liabilities (classified as other current liabilities)	27,616	35,162		

d. Information about financial risks

1) Market risk

The foreign exchange rate fluctuations would result in the Company's foreign-currency-dominated assets and liabilities and open forward exchange contracts exposed to rate risk.

The fluctuations of market price would result in the index future contracts exposed to price risk.

The financial instruments categorized as available-for-sale financial assets are mainly listed stocks and open-end mutual funds. Therefore, the market risk is the fluctuations of market price. In order to manage this risk, the Company would assess the risk before investing, therefore, no material market risk are anticipated.

2) Credit risk

Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties of the aforementioned financial instruments are reputable financial institutions. Management does not expect the Company's exposure to default by those parties to be material.

3) Liquidation risk

The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments. Therefore, the cash flow risk is low.

The financial instruments of the Company categorized as available-for-sale financial assets are publicly-traded, easily converted to cash. Therefore, no material liquidation risk are anticipated. The financial instruments categorized as financial assets carried at cost are investments that do not have a quoted market price in an active market. Therefore, material liquidation risk are anticipated.

4) Cash flow interest rate risk

The Company engages in investments in fixed-interest-rate debt securities. Therefore, cash flows from such securities are not expected to fluctuate significantly due to changes in market interest rates.

In addition, the Company engages in investments in floating-interest-rate debt securities. The changes in market interest rate would impact the floating-interest rate; therefore, cash flows from such securities are expected to fluctuate due to changes in market interest rates.

e. Fair value hedge

Chunghwa entered into forward exchange contracts is mainly to hedge the fluctuation in exchange rates of beneficiary certificate denominated in foreign currency, which is fair value hedge. The transaction was assessed as highly effective for the years ended December 31, 2008 and 2007.

Outstanding forward exchange contracts for hedge as of December 31, 2008 and 2007:

	Currency	Holding Period	Contract Amount (in Thousands)	
<u>December 31, 2008</u>				
Sell	USD/NTD	2009.01	USD	30,000
<u>December 31, 2007</u>				
Sell	USD/NTD	2008.03	USD	65,000
	EUR/NTD	2008.02-03	EUR	40,000

As of December 31, 2008 and 2007, the forward exchange contract measured at fair value resulting in hedging derivative financial liability of \$27,616 thousand and \$35,162 thousand (classified as other current liabilities), respectively. As of December 31, 2007, the forward exchange contract measured at fair value resulting in hedging derivative financial asset of \$990 thousand (classified as other current monetary assets).

- Note 1: The major business segments operated by the Company are local telephone service, domestic long distance call service, international long distance call service, cellular service, Internet and data service, cellular phone and other service.
- Note 2: Inter-division revenues from goods and services.
- Note 3: Represents revenues minus costs and operating expenses. Operating expenses include costs and expenses directly pertaining to an industry segment, i.e., excluding general and interest expense.
- Note 4: Represents general expense that cannot be allocated to each division.
- Note 5: Represents tangible assets used by the industry segment, excluding:
- a. Assets maintained for general corporate purposes.
  - b. Advances or loans to another industry segment.
  - c. Long-term investments accounted for using equity method.
- Note 6: Service revenues of internet and data service and electronic rent are included.
- Note 7: In order to strengthen the internal management, Chunghwa allocated some of its costs of non-regulated services directly to other segments instead of using internal transfer pricing starting from 2008. Segment assets were adjusted accordingly to conform with the change. The effect of the change of measurement method caused intersegment service revenues of Local Telephone Service operations and All Other operations to decrease by \$8,705,817 thousand and \$4,392,728 thousand, respectively. There was no impact on the intersegment service of DLD operations, ILD operations Cellular Service operations, Internet and Data operation and Cellular Phone operations due to the change of measurement method. The effect of the change of measurement method caused segment income before income tax of Local operations and All Other operations to decrease by \$748,937 thousand and \$481,641 thousand, respectively and that of ,DLD operations, ILD operations, Cellular Service operations and Internet and Data operation operations to increase by \$165,212 thousand, \$136,901 thousand, \$576,385 thousand and \$352,080 thousand, respectively. There was no impact on segment income before income tax of Cellular Phone operations due to the change of measurement method. The effect of the change of measurement method caused segment assets of Local Telephone Service operations and All Other operations to decrease by \$7,582,799 thousand and \$3,640,950 thousand, respectively and that of DLD operations, ILD operations, Cellular Service operations and Internet and Data operation operations to increase by \$295,718 thousand, \$727,872 thousand, \$5,226,502 thousand and \$4,973,657 thousand, respectively.
