OUR BOARD OF DIRECTORS AND ITS COMMITTEES***The Board of Directors*

Our business and affairs are managed under the direction of our board of directors. Our bylaws specify that we shall not have less than one nor more than eleven directors. Our board currently has nine (9) members. Under our bylaws, each director holds office until the annual stockholders meeting at which such director's class is up for re-election and until the director's successor is duly elected and qualified, or until such director's earlier death, resignation or removal. Our certificate of incorporation provides that our board of directors is classified into three classes: Class I, Class II and Class III, each class having a three-year term of office. As discussed more fully below under Proposal I Election of Directors, three of our current directors, James W. Christmas, James L. Irish III and Robert C. The following table sets forth the names and ages of all directors, the positions and offices with us held by such persons, the terms of their office and the length of their continuous service as a director:

Our board of directors has determined that all members of the nominating and corporate governance committee who currently serve are independent pursuant to the NYSE rules and in accordance with our nominating and corporate governance committee charter. The primary functions of the nominating and corporate governance committee are to recommend candidates to the board of directors as nominees for election at the annual meeting of stockholders or to fill vacancies as they may occur, and to perform an annual performance evaluation of the board of directors. This committee also reviews candidates suggested for nomination by the stockholders. Our board of directors adopted an amended nominating and corporate governance committee charter on February 27, 2007. Director Independence. On March 13, 2007, our common stock began trading on the NYSE under the symbol **HK** and we became subject to the rules of NYSE applicable to NYSE listed companies, including the NYSE corporate governance rules. Prior to March 13, 2007, we were subject to the rules of NASDAQ applicable to NASDAQ listed companies, including the NASDAQ corporate governance rules.

The current listing standards of the NYSE require our board to affirmatively determine the independence of each director and to disclose such determination in the proxy statement for each annual meeting of our stockholders. The board, at its meeting held on February 24, 2009, affirmatively determined that each of Messrs. Bridwell, Fuller, Irish, Merriman, Raynolds, Stone and Viggiano is an independent director with respect to Petrohawk under the independence standards of our corporate governance guidelines, adopted as of February 24, 2009 and described below, and under the corporate governance rules of the NYSE codified in Section 303A of the NYSE Listed Company Manual.

Table of Contents

Our board established the following standards for determining director independence in our corporate governance guidelines:

A majority of the directors on our board must be independent. No director qualifies as independent unless the board affirmatively determines that the director has no material relationship with Petrohawk, either directly, or as a partner, shareholder or officer of an organization that has a relationship with Petrohawk. A material relationship is a relationship that the board determines, after a consideration of all relevant facts and circumstances, compromises the director's independence from management. Our board's determination of independence must be consistent with all applicable requirements of the NYSE, the SEC, and any other applicable legal requirements. Our board may adopt specific standards or guidelines for independence in its discretion from time to time, consistent with those requirements. As set forth in the NYSE Listed Company Manual Section 303A.02, our board must consider the following factors that preclude a finding by the board of a member's or prospective member's independence from Petrohawk:

1. A director who is, or who has been within the last three years, an employee of Petrohawk (including in each case subsidiaries or parent entities in a consolidated group), or an immediate family member who is, or has been within the last three years, an executive officer, of Petrohawk;
2. A director who has received, or has an immediate family member who has received, during any twelve-month period within the last three years, more than \$120,000 in direct compensation from Petrohawk, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service); provided, that, compensation received by a director for former service as an interim Chairman or CEO or other executive officer need not be considered in determining independence under this test, and compensation received by an immediate family member for service as an employee of Petrohawk need not be considered in determining independence under this test;
3. (A) A director is a current partner or employee of a firm that is Petrohawk's internal or external auditor; (B) a director who has an immediate family member who is a current partner of such a firm; (C) a director who has an immediate family member who is a current employee of such a firm and who participates in Petrohawk's audit; or (D) a director or an immediate family member who was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on Petrohawk's audit within that time;
4. A director or an immediate family member who is, or who has been within the last three years, employed as an executive officer of another company where any of Petrohawk's present executive officers at the same time serves or served on that company's compensation committee; and
5. A director who is a current employee, or an immediate family member who is a current executive officer, of a company that has made payments to, or received payments from, Petrohawk for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues.

For purposes of determining independence of a director based on the tests set forth above, among other things, the following applies:

- A. In applying the test in section 5 above, both the payments and the consolidated gross revenues to be measured are those reported in the last completed fiscal year. The look-back provision for this test applies solely to the financial relationship between Petrohawk and the director or immediate family member's current employer; Petrohawk is not required to consider former employment of the director or the immediate family member.
- B. For purposes of section 5 above, contributions to tax exempt organizations are not considered payments, although Petrohawk still considers the materiality of any such relationship in determining the independence of a director.

Table of Contents

- C. For purposes of determining independence, an immediate family member includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than a domestic employee) who shares such person's home, and does not include individuals who are no longer immediate family members as a result of legal separation or divorce, or those who have died or become incapacitated.

Our corporate governance guidelines set forth our policy with respect to qualifications of the members of the board, the standards of director independence, director responsibilities, board meetings, director access to management and independent advisors, director orientation and continuing education, director compensation, chairman and CEO dual responsibilities, management evaluation and succession, annual performance evaluation of the board, and executive sessions.

As discussed on page 6, our board determined that Mr. Irish is an independent director under our corporate governance guidelines and under NYSE rules. In determining that Mr. Irish is an independent director, our board considered that Mr. Irish is senior counsel to Thompson & Knight LLP, which we have engaged for the purpose of obtaining legal advice. In concluding that this relationship did not result in a material relationship between Petrohawk and Mr. Irish, our board considered, among other things, that Mr. Irish does not actively engage in the practice of law with Thompson & Knight or participate in the management or profits of that firm.

Nomination Process. Our nominating and corporate governance committee reviews possible candidates for nomination to the board of directors and recommends candidates for nomination to the board for approval. The committee and the board have adopted guidelines that describe specific traits, abilities, and experience which the committee and the board consider in selecting candidates for nomination as directors. Among the standards and qualifications the committee and the board seek are individuals of high ethical character who share our values and who possess varied backgrounds. The board is expected to have some members with specialized skills in the oil and gas exploration and development industry, including individuals with strong technical backgrounds. Absent special circumstances, we are generally of the view that the continuing service of qualified incumbents promotes stability and continuity in the board room, giving us the benefit of the familiarity and insight into our affairs that directors have accumulated during their tenure, while contributing to our board's ability to work as a collective body. Accordingly, it is the general policy of the committee to nominate qualified incumbent directors who continue to satisfy the committee's membership criteria, whom the committee believes will continue to make important contributions to the board and who consent to stand for reelection and continue their service on the board. The nominating and corporate governance committee is responsible for assessing the appropriate mix of skills and characteristics required of directors in the context of perceived needs of the board at any given point in time and reviews and updates the criteria for nomination as they determine to be necessary.

Stockholder Nomination Process. Our nominating and corporate governance committee considers suggestions from many sources, including management, directors, and stockholders regarding possible candidates for nomination to the board of directors. Any such suggestion by a stockholder should be submitted to the nominating and corporate governance committee in writing, c/o David S. Elkouri, Executive Vice President General Counsel and Secretary, at 1000 Louisiana, Suite 5600, Houston, Texas, 77002. The information should include the name and address of the stockholder suggesting the individual as they appear on our books, the number and class of shares owned beneficially and of record by the stockholder, the suggested individual's name and address, a description of all arrangements or understandings (if any) between the stockholder and the individual being suggested for the committee's consideration, the information about the individual being suggested that would be required to be included in a proxy statement filed with the SEC, and an indication of the individual's willingness to be named as a nominee and to serve as a director of Petrohawk if nominated by the committee and the board. The recommendation must be accompanied by the candidate's written consent to being named in our proxy statement as a nominee for election to the board of directors and to serving as a director, if elected. The recommendation and the director candidate's written consent must be provided to us for an annual meeting of stockholders in accordance with the provisions of Submission of

Table of Contents

Stockholder Proposals for Our 2010 Annual Meeting of Stockholders in our proxy statement relating to our 2009 annual meeting of stockholders and must otherwise comply with all the provisions set forth in Rule 14a-8 under the 1934 Act, and any other requirements of state law. We may also require any proposed nominee to furnish such other information as we or the committee may reasonably require to determine the eligibility of the nominee to serve as a director. For the deadline for stockholder suggestions of individuals to be considered by the committee for nomination as a candidate to be elected at the 2010 annual meeting of stockholders, see Submission of Stockholder Proposals for Our 2010 Annual Meeting of Stockholders in our proxy statement relating to our 2009 annual meeting of stockholders. Candidates who have been suggested by stockholders are evaluated by the nominating and corporate governance committee in the same manner as are other candidates. Our nominating and corporate governance committee has not retained a third-party search firm to identify candidates, but may do so in the future in its discretion.

The nominating and corporate governance committee did not receive any stockholder recommendations for nomination to our board of directors in connection with this year's annual meeting. The nominating and corporate governance committee has recommended Messrs. Christmas, Irish and Stone, who are current Class II directors, for reelection as the term of their class, Class II, is expiring on our classified board of directors.

Communications with the Board. Our stockholders may communicate concerns to any specific director, board committee or to the full board of directors by sending letters addressed to such directors, board committee or the full board of Petrohawk Energy Corporation at 1000 Louisiana, Suite 5600, Houston, Texas 77002, Attention: Mark J. Mize, Chief Ethics Officer. The Chief Ethics Officer will then, as appropriate, forward the communication to the intended director or directors, board committee or the full board of directors. If the stockholder wishes the communication to be confidential, then the communication should be provided in a form that will maintain confidentiality such as stamping the envelope and the contents as confidential .

Communications with the Non-Management Directors. Interested parties may communicate concerns to the non-management members of our board of directors by sending a communication to the chairman of the audit committee, James L. Irish III, 1722 Routh Street, Suite 1500, Dallas, Texas 75201. The chairman of the audit committee will then forward such communication to all of our other non-management directors.

Executive Sessions. Our corporate governance guidelines currently provide that non-management directors must meet at regularly scheduled executive sessions without management, and if the group of non-management directors includes directors who are not independent under the NYSE rules, we must at least once a year schedule an executive session including only the independent directors. Our lead director, who is currently Mr. Irish and who is an independent and non-management director, presides over the executive sessions of our non-management directors. During 2008, our independent directors held four executive sessions without management present, and Mr. Irish presided over each executive session.

Board Attendance at Stockholder Meetings. Our corporate governance guidelines provide that our directors are strongly encouraged to attend annual meetings of our stockholders. Four members of our board attended last year's annual meeting of stockholders.

Compensation Discussion and Analysis

Introduction

The following discussion provides an overview of the compensation committee of our board of directors, the background and objectives of our compensation programs for our senior management, and the material elements of the compensation of each of our executive officers identified in the following table, whom we refer to as our named executive officers:

Name	Title
Floyd C. Wilson	Chairman of the Board, President and Chief Executive Officer (our principal executive officer)
Mark J. Mize	Executive Vice President Chief Financial Officer and Treasurer (our principal financial officer)
Richard K. Stoneburner	Executive Vice President Chief Operating Officer
Larry L. Helm	Executive Vice President Finance and Administration
H. Weldon Holcombe	Executive Vice President Mid-Continent Region

Overview of the Compensation Committee

The compensation committee of the board of directors is comprised entirely of independent directors in accordance with the rules of the New York Stock Exchange governing listed companies. The current members of our compensation committee are Gary A. Merriman (Chairman), Christopher A. Viggiano, and Thomas R. Fuller.

The primary duties and responsibilities of the compensation committee are to establish and implement our compensation policies and programs for senior management, including the named executive officers. The compensation committee has the authority under its charter to engage the services of outside advisors, experts and others to assist it. A copy of our compensation committee charter is available on our website at www.petrohawk.com under the section *About Us Corporate Governance*. The compensation committee also periodically reviews and assesses the adequacy of its charter and recommends any proposed changes to our board of directors for approval.

The compensation committee works with our executive vice president finance and administration to establish an agenda for each meeting of the compensation committee and, with the assistance of outside advisors, to prepare meeting materials. Our chief executive officer, executive vice president finance and administration and outside advisors may be invited to attend all or a portion of a compensation committee meeting depending on the nature of the matters to be discussed. Only members of the compensation committee vote on items before the compensation committee; however, the compensation committee and board of directors often solicit the views of the chief executive officer on compensation matters, including as they relate to the compensation of the other members of senior management.

Objectives of Our Compensation Program

Our success depends on the continued contributions of our senior management and other key employees. Our compensation program is intended to attract, motivate and retain experienced and qualified personnel by providing compensation that is competitive in relation to our peers while recognizing overall business results and individual merit, and which supports the attainment of our strategic objectives by tying the interests of senior management and key employees to those of our stockholders through the use of equity-based compensation.

Design of Our Compensation Program

Our compensation program for senior management, including the named executive officers, is designed to:

provide compensation that is competitive with our compensation peer group;

balance short-term and long-term goals through the use of annual cash incentives and grants of long-term equity incentives; and

deliver a mix of fixed and at-risk compensation that is directly related to stockholder value and our overall performance.

Each element of compensation is reviewed and considered with the other elements of compensation to ensure that it is consistent with the goals and objectives of both that particular element of compensation and our overall compensation program. In designing the compensation program and in determining senior management compensation, including the compensation of the named executive officers, we also considered the following factors:

our operating and financial performance compared with targeted goals;

our size, growth and performance relative to companies in our compensation peer group;

each individual's contributions to our overall results; and

the external challenges to our ability to attract and retain strong management.

In establishing compensation, the committee retains an independent compensation consultant, Longnecker & Associates, to assist us in evaluating the competitiveness of our executive compensation programs and in assessing whether our compensation practices are achieving our goals. As part of its engagement, Longnecker & Associates generates a report that includes a compilation of compensation and performance data (Survey Data) prepared based upon data for our compensation peer group, set forth below, broad industry-specific compensation survey data for other companies that participate in energy and general industry surveys, as well as particularized data for industry participants to the extent the consultant determines that such additional data would prove useful in our compensation process. We utilize the Survey Data to assess the competitiveness of our compensation programs with our compensation peer group and their effectiveness in achieving our goals. The consultant reports directly to the committee and may work with management when preparing materials for the committee. Longnecker & Associates provides no other service for us.

In developing our compensation structure, we review the compensation and benefit practices, as well as levels of pay, of a compensation peer group of companies selected by the compensation committee from domestic oil and natural gas exploration and development companies. We periodically review, evaluate and update our compensation peer group to provide on-going comparability for compensation purposes. Adjustments to our compensation peer group are made from time to time on account of business combinations or sales of peer group companies, as well as when necessary, in the opinion of our compensation committee, to better reflect the companies that compete with us for management talent and share common characteristics with our business, assets, drilling budget and size. However, because we compete for management talent with other companies in the industry who are engaged in the exploration, development and production of oil and natural gas, both onshore

and offshore, we also compare our pay

Table of Contents

practices to a broad industry group based upon the Survey Data. For the compensation structure developed for 2008, the compensation peer group consisted of the following ten companies:

Cabot Oil & Gas Corporation

Comstock Resources, Inc.

Cimarex Energy Corporation

Encore Acquisition Company

EXCO Resources, Inc.

Forest Oil Corporation

The Houston Exploration Company

Range Resources Corporation

St. Mary Land & Exploration Company

Whiting Petroleum Corporation

In conjunction with our consideration of cash bonuses to be paid in 2009 based upon 2008 performance, as well as in establishing 2009 base salary and equity awards, we revised our compensation peer group on account of business combinations in the prior year group and due to changes in our business and assets over the year. Our compensation peer group for 2009 consists of the following eleven companies:

Berry Petroleum Company

Cabot Oil & Gas Corporation

Carrizo Oil & Gas, Inc.

Cimarex Energy Corporation

Comstock Resources, Inc.

Denbury Resources Inc.

EXCO Resources, Inc.

Forest Oil Corporation

Mariner Energy Inc.

Plains Exploration & Production Company

St. Mary Land & Exploration Company

For 2008, we generally targeted compensation for our management at approximately the 75th percentile of our compensation peer group. We established compensation at this level because we believe it is required for us to attract and retain talented management capable of executing our rapid growth business plan and managing our business in a competitive environment. In establishing total compensation for our management, our compensation committee assesses the performance of our management relative to our peer group and in light of compensation practices among the broader industry group against whom we compete for management talent.

The operating and financial performance factors that we utilize in our compensation program and the goals that we established relative to those factors for 2008 are discussed in detail below, under the heading *Annual Cash Incentives*. As discussed below, in establishing bonuses for 2008 (paid in 2009) our emphasis is on our company's performance across various operating metrics and taking into consideration our management's performance in formulating and implementing our strategic objectives in light of internal and external challenges encountered during the year. Our compensation committee views the successful implementation of our goals as a

Table of Contents

team effort and does not establish individualized performance targets or goals. However, our compensation committee does recognize that each member of management will contribute to our overall results and the achievement of our goals to varying degrees, and it takes these relative contributions into account in establishing annual cash incentives, also as discussed below.

2008 Compensation Program

Elements of Compensation

The principal elements of our executive compensation program are base salary, annual cash incentives, long-term equity incentives in the form of stock options, stock appreciation rights and restricted stock grants as well as post-termination severance (under certain circumstances), and other benefits and perquisites, consisting of life and health insurance benefits, a qualified 401(k) savings plan, the reimbursement of automobile expenses for our chief executive officer and the reimbursement of certain club dues for our chief executive officer and chief financial officer.

Base Salary

We review base salaries for our chief executive officer and other executives annually to determine if a change is appropriate. In reviewing base salaries, we consider several factors, including a comparison to base salaries paid for comparable positions in our compensation peer group and the compensation reflected in the Survey Data, the relationship among base salaries paid within our company and individual experience and contributions. Our intent is to fix base salaries at levels that we believe are consistent with our program design objectives, including the ability to attract, motivate and retain individuals in a competitive environment. During 2008, we increased the base salaries of the named executive officers based upon our analysis of competitive market practice.

Base salaries for our named executive officers in 2008 were as follows:

Name	Amount of Base Salary Increase		2008 Base Salary
		for 2008	
Floyd C. Wilson	\$	60,000	\$ 660,000
Mark J. Mize	\$	40,000	\$ 300,000
Richard K. Stoneburner	\$	50,000	\$ 350,000
Larry L. Helm	\$	25,000	\$ 350,000
H. Weldon Holcombe	\$	50,000	\$ 300,000

Subsequent to 2008, and effective March 1, 2009, we increased the base salaries of the named executive officers based upon our annual analysis of competitive market practice and, in the case of Mr. Stoneburner, considering his appointment as Chief Operating Officer. In general, we targeted base compensation using the same 75th percentile target for our compensation peer group as we utilized in 2008, except for our chief executive officer, where we targeted the 90th percentile of our compensation peer group. Information regarding the incremental increase for 2009 in the base salary of each of the named executive officers is set forth below under the heading *Compensation Adjustments and Long-term Incentive Awards Subsequent to Fiscal Year End*.

Annual Cash Incentives

Annual cash incentives for each year are determined during the February following the end of the year, when our results for the preceding year become available. Annual cash incentive compensation is intended to focus and reward individuals on measures identified as having a positive impact on our annual business results. As a general matter, we review the following performance factors in determining annual cash incentives:

increases in annual production rates;

growth in proved reserves and resource potential;

finding and development costs;

Table of Contents

cash flow from operations per share;

lease operating expenses per mcfe;

general and administrative expenses per mcfe; and

qualitative factors considered significant by the compensation committee.

With respect to some of these factors, our compensation committee establishes targets in advance, generally in February of each year. For certain other factors, the compensation committee does not establish targets but takes performance relative to prior year results into account in establishing compensation. For 2008, our compensation committee established targets for production (between 295 million cubic feet natural gas equivalent per day (Mmcfe/d) to 315 Mmcfe/d); lease operating expense (between \$0.50 – \$0.60 per mcfe), general and administrative expenses (between \$0.33 – \$0.40 per mcfe, excluding stock based compensation expense). For 2008, taking into account the compensation practices of our compensation peer group, as reflected in the Survey Data, our compensation committee also established an annual cash incentive target for senior executives of 100% of base salary, with the understanding that such amount might be earned if the targets for performance factors established by the compensation committee in advance were met and company performance relative to the other performance factors was deemed satisfactory, in our discretion. We do not assign in advance any specific weight to any of the performance factors that we take into account in making compensation determinations.

We establish bonus targets and performance targets for senior management for a variety of reasons, including to assist in communicating corporate objectives and expectations and to motivate management. However, our compensation program is not formulaic or inflexible. We retain the discretion to alter performance factors and targets and, in assessing performance of the company or an individual, such other factors as we may consider relevant in establishing compensation. Accordingly, compensation, including annual cash compensation, may vary greatly from year to year and from executive to executive as a consequence of corporate performance and individual contribution relative to the factors listed above and other factors that we may consider important, which may carry varying weight over time depending on the circumstances. As we did for 2008, we may award cash bonuses that are in excess of targeted annual cash incentive compensation.

During mid-2007, our chief executive officer recommended, and we announced, a fundamental change in our business strategy that involved a shift in focus towards unconventional resource-style natural gas plays which we believed would better position us for long-term production and reserve growth. As part of our execution of this strategy, we sold our Gulf Coast properties in November 2007 for approximately \$800 million. At the time, our Gulf Coast properties represented a significant percentage of our then current production, proved reserves and potential future drilling locations, and the disposition of these properties and our investment in largely undeveloped, non-producing properties resulted in the additional challenge of successfully managing our near-term cash flow requirements. The proceeds from the sale of our Gulf Coast properties as well as capital we raised by accessing the debt and equity markets during 2008 were deployed to accumulate our largely undeveloped acreage position in several shale plays, including in the Haynesville, Eagle Ford, and Fayetteville shales, and to support our capital spending, including a substantial drilling budget allocated to these properties. These actions were successfully implemented against the backdrop of a recession in the United States, significant declines in the stock exchanges and, during the latter part of 2008, disruptions in the credit markets and dramatically declining commodity prices.

For 2008, we reported production of 305 Mmcfe/d, which represented a 35% increase over 2007 and was within the target range established by our compensation committee; lease operating expense of \$0.47 per mcfe, which was \$0.03 per mcfe below the low-end of our target range; and general and administrative expenses of \$0.56 per mcfe, which was \$0.16 per mcfe above the high-end of our target range due to staffing increases associated with our growth that were not contemplated at the time this target was established. We also reported proved reserves 34% higher than year-end 2007, and improved our potential to realize additional increases in future reserves and production as a consequence of our accumulation of a large undeveloped leasehold acreage

Table of Contents

position. Among the other performance factors for which no targets were established, cash flow per share was lower and finding and development costs were higher than in the prior year, but these measures were adversely impacted by, among other things, the implementation of our strategic plan, including the sale of our Gulf Coast properties, our investment in undeveloped acreage and our associated financing activities. As a consequence of our implementation of our strategic plan beginning in late 2007 and continuing through 2008, however, qualitative factors relating to the execution of that plan were a more significant influence on the annual cash compensation paid to the named executive officers for 2008 than was performance relative to these operating metrics.

In light of the foregoing achievements, and taking into account the Survey Data regarding the cash incentives paid to senior management by our compensation peer group to assess the competitiveness of our compensation, senior executives were awarded cash bonuses generally equal to two times their base salary, or twice the target established in advance, with Messrs. Wilson, Stoneburner and Holcombe receiving amounts in excess of that multiple based upon the compensation committee's determination that their relative contributions were more integral to the implementation of our strategic objectives and our overall performance, given their positions and responsibilities. Specifically, Messrs. Stoneburner and Holcombe were directly responsible for our drilling, completion, production and sales activities that underlay our performance, and Mr. Wilson was ultimately responsible for the implementation of our strategic and operational objectives and the management of our affairs in a challenging environment.

The annual cash incentives awarded to the named executive officers for fiscal year 2008 performance are included in the Summary Compensation Table for 2008 on page 27. The table reflects awards for 2008 performance that were paid during March 2009.

Long-term Incentives

Long-term incentives comprise a significant portion of a senior executive's compensation package. Long-term incentives are consistent with our objective of providing an at-risk component of compensation. Our business strategy embraces the consolidation trend in our industry and providing long-term incentive award opportunities for senior executives and key employees both align their interests with those of our stockholders and help to offset the negative implications that such a strategy may have on our ability to attract and retain talented management and key employees. In establishing long-term incentive awards we endeavor to remain consistent with the Survey Data while taking into account each individual's performance.

In 2008, the compensation committee awarded grants of restricted stock and stock options to senior executives, each of which is discussed in more detail below. For 2009, the compensation committee has approved a mix of long-term incentives awarded to senior executives that includes stock options and restricted stock. For the past several years, our compensation committee has awarded an approximately equal amount in value of long-term incentive awards comprised of restricted stock and stock options or stock settled stock appreciation rights because of the differing risk and reward characteristics of these awards and considering the Survey Data. From time to time, the compensation committee may utilize a different mix of stock options, restricted stock and stock appreciation rights, each of which is permitted under our equity incentive plans, discussed in more detail below, depending upon the compensation committee's current view of the most efficacious method to provide incentives under current market conditions, taking into account the practices of our peer group, as reflected in the Survey Data. The compensation committee approves the total stock options, restricted stock and stock appreciation rights that will be made available to all employees as well as the size of individual grants for each member of senior management. All grants are made in accordance with our Equity-Based Incentive Grant Policy, which sets forth the timing of awards and the procedures for making awards and, in the case of stock options and stock appreciation rights, for determining the exercise price or grant value, respectively, of the award. The amounts granted vary each year and are based on management's performance, our analysis of compensation peer group data, the Survey Data and management's total compensation package. Previous awards and grants, whether vested or unvested, may be considered by the compensation committee in establishing the current year's awards and grants.

2004 Employee Incentive Plan

On June 3, 2004, our compensation committee and our board of directors approved the Petrohawk Energy Corporation 2004 Employee Incentive Plan, as amended, referred to as the 2004 Petrohawk Plan in this report. On July 15, 2004, the 2004 Petrohawk Plan was approved by our stockholders. Increases to the number of shares available under the 2004 Petrohawk Plan were subsequently approved by our stockholders in November 2004, July 2005, July 2006 and July 2007. Subject to certain adjustments that may be required from time to time to prevent dilution or enlargement of the rights of participants under the 2004 Petrohawk Plan, currently a maximum of 12.55 million shares of common stock may be issued under the 2004 Petrohawk Plan. Out of the total number of shares available under the 2004 Petrohawk Plan, a maximum of 3.61 million shares of incentive stock, restricted stock and stock appreciation rights may be issued.

The 2004 Petrohawk Plan facilitates the issuance of future long-term incentive awards as part of our comprehensive compensation structure and is administered by a committee of non-employee directors of our board of directors, currently our compensation committee. For the year ended December 31, 2008, a majority of our employees received awards under the 2004 Petrohawk Plan.

The 2004 Petrohawk Plan permits the granting of awards in the form of options to purchase our common stock, shares of restricted stock, shares of incentive stock (stock issued without restrictions) and stock appreciation rights. Recipients are not permitted to receive in any one year options or stock appreciation rights to purchase or receive in excess of 200,000 shares or grants of restricted or incentive stock in excess of 100,000 shares. As of December 31, 2008, no incentive stock had been issued, a total of 946,949 shares of common stock had been issued as restricted stock, 3,216,689 shares were reserved for the exercise of outstanding stock options and 683,336 shares reserved for the exercise of outstanding stock appreciation rights. As of December 31, 2008, 5,682,010 shares of our common stock remained available for issuance pursuant to the 2004 Petrohawk Plan.

The 2004 Petrohawk Plan will expire on June 2, 2014. No grants will be made under the 2004 Petrohawk Plan after that date, but all grants made on or prior to such date will continue in effect thereafter subject to the terms thereof and of the 2004 Petrohawk Plan. Our board of directors may, in its discretion, terminate the 2004 Petrohawk Plan at any time. The termination of the 2004 Petrohawk Plan would not affect the rights of participants or their successors under any awards outstanding and not exercised in full on the date of termination. The board may at any time and from time to time amend the 2004 Petrohawk Plan in whole or in part. Any amendment which must be approved by our stockholders in order to comply with the terms of the 2004 Petrohawk Plan, applicable law or the rules of the principal securities exchange, association or quotation system on which our common stock is then traded or quoted will not be effective unless and until such approval has been obtained. The board is not permitted, without the further approval of the stockholders, to make any alteration or amendment which would materially increase the benefits accruing to participants under the 2004 Petrohawk Plan, increase the aggregate number of shares which may be issued pursuant to the provisions of the 2004 Petrohawk Plan, change the class of individuals eligible to receive awards under the 2004 Petrohawk Plan or extend the term of the 2004 Petrohawk Plan.

1999 Incentive and Non-Statutory Stock Option Plan

On August 20, 1999, our board of directors approved the Petrohawk Energy Corporation 1999 Incentive and Non-Statutory Stock Option Plan (the 1999 Plan). On September 11, 2000, the 1999 Plan was approved by our stockholders. An amendment to the 1999 Plan to increase the number of shares available under the 1999 Plan was subsequently approved by our stockholders on June 20, 2003. As a consequence of the adoption of the 2004 Petrohawk Plan, we no longer issue grants under the 1999 Plan. As of December 31, 2008, a total of 97,502 shares of common stock were issuable upon the exercise of outstanding stock options under the 1999 Plan.

Incentive Plans Assumed in Connection with Acquisitions

In July 2006, as part of our merger with KCS, we assumed the KCS Energy, Inc. 2001 Employees and Directors Stock Plan (the 2001 KCS Plan) and the 2005 KCS Plan (together with the 2001 KCS Plan, the KCS Plans). As of July 18, 2007, no new awards are permitted to be issued under the 2005 KCS Plan.

Table of Contents

The KCS Plans are administered by our compensation committee. The 2005 KCS Plan permitted grants of awards of options to purchase common stock, shares of restricted stock, shares of incentive stock (stock issued without restrictions), and stock appreciation rights. On March 2, 2007, 172,850 shares of restricted stock and 397,400 shares of stock appreciation rights were granted under the 2005 KCS Plan to persons that were former employees of KCS and continued to be employed by us. As of December 31, 2008, 256,243 shares of restricted stock and 1,484,462 shares of stock options and appreciation rights were outstanding under the KCS Plans. All awards outstanding under the 2001 KCS Plan will expire on or before March 30, 2011. All awards outstanding under the 2005 KCS Plan will expire on or before March 2, 2017.

In July 2005, as part of our merger with Mission Resources Corporation, we also assumed the Mission Resources Corporation 2004 Incentive Plan (the Mission Plan). We do not issue new awards under the Mission Plan. As of December 31, 2008, there were options for the purchase of a total of 83,112 shares of our common stock outstanding under the Mission Plan. All awards outstanding under the Mission Plan will expire on or before April 12, 2015.

The long-term incentive information related to the named executive officers during fiscal year 2008 is included in the Summary Compensation Table for 2008 on page 27. Additional information on long-term incentive awards for 2008 is shown in the Grants of Plan-Based Awards Table on page 28 and the Outstanding Equity Awards at December 31, 2008 Table on page 29.

Stock Options

An important objective of the long-term incentive program is to strengthen the relationship between the long-term value of our stock price and the potential financial gain for employees. Stock options provide senior management and key employees with the opportunity to purchase our common stock at a price fixed on the grant date regardless of future market price. A stock option becomes valuable only if our common stock price increases above the option exercise price and the holder of the option remains employed during the period required for the option to vest, thus providing an incentive for an option holder to remain employed by us. Stock options link a portion of the option holder's compensation to stockholders' interests by providing an incentive to increase the market price of our stock.

Option grants to senior management are generally considered annually, at the same time as grants are considered for the general eligible employee population, in February, after our year-end results become available. Our practice is that the exercise price for each stock option is the market value on the date of grant, which is normally the date that our compensation committee approves the award at a meeting of the compensation committee or forty-eight hours after our release of earnings in accordance with our Insider Trading Policy. Our current policy provides for grants to be made or priced only during a trading window, as set forth in our Insider Trading Policy, and within such window only at such time as there is no material non-public information regarding the company. Under our 2004 Petrohawk Plan the option price may not be less than the fair market value (the closing market price) of the shares on the date of grant. With respect to employees who are not executive officers, the compensation committee may delegate its authority to make such grants to our chief executive officer by specifying the grant date, the total number of shares that may be subject to grants and other material terms of the grants. All proposed stock options to new-hire employees are required to be approved by our compensation committee. Alternatively, our compensation committee may authorize in writing, in advance of any fiscal quarter, the number of shares underlying stock options that may be granted to new hire employees for the following fiscal quarter and provide that our chief executive officer may allocate such stock options at his discretion. The grant date in this instance is generally the date of hire.

Stock options generally vest and become exercisable one-third annually after the original grant date. In certain instances, however, stock options may vest on an accelerated basis, such as in the event an executive's employment is terminated by us without cause or by the executive with good reason, in the event that the

Table of Contents

executive terminates his employment within a certain period following a transaction that effects a change in the control of our company, or in the event of the executive's death or disability while employed by us. Under these circumstances all stock options held by the executive may automatically vest and become exercisable in accordance with the terms outlined in the stock option award agreement or the employment agreement, if applicable. The employment agreements that we entered into with the named executive officers during 2006 and amended in 2007 provide for all stock options held by an executive to automatically vest and become exercisable in the event his employment is terminated by us without cause or by the executive with or without good reason within a two-year period following a change of control of our company.

There is a limited term in which an executive can exercise stock options, known as the option term. The option term is generally ten years from the date of grant, which is the maximum term of an option permitted under the 2004 Petrohawk Plan, the Mission Plan and the KCS Plans. At the end of the option term, the right to purchase shares pursuant to any unexercised option expires.

The exercise prices of the stock options granted to the named executive officers during fiscal year 2008 are shown in the Grants of Plan-Based Awards in 2008 Table on page 28. Additional information on these grants, including the number of shares subject to each grant, also is shown in the Grants of Plan-Based Awards in 2008 Table.

Restricted Stock Awards

During 2008, we granted restricted stock awards to various officers (including our named executive officers) and key employees under the 2004 Petrohawk Plan. Restricted stock awards are shares of our common stock that are awarded with the restriction that the executive remain with us through certain vesting dates. Prior to the restrictions thereon lapsing, the participant may not sell, transfer, pledge, assign or take any similar action with respect to the shares of restricted stock which the participant owns. Once the restrictions lapse with respect to shares of restricted stock, the participant owning such shares will hold freely-transferable shares, subject only to any restrictions on transfer contained in our certificate of incorporation, bylaws and insider trading policies, as well as any applicable federal or state securities laws. Despite the restrictions, each participant will have full voting rights and will receive any dividends or other distributions, if any, with respect to the shares of restricted stock which the participant owns.

The compensation committee does take prior grants into account in the design of future programs and awards. Restricted stock awards to senior management are generally considered annually, in February, after our year-end results become available, and at the same time as grants to the general eligible employee population are considered.

Restricted stock awards provide the opportunity for capital accumulation and more predictable long-term incentive value. The purpose of granting restricted stock awards is to encourage ownership, encourage retention of our senior management and result in business decisions that may drive stock price appreciation. Recognizing that our business is subject to significant fluctuations in commodity prices that may cause the market value of our common stock to fluctuate, we also intended the awards to provide an incentive for senior management to remain with us throughout commodity price and business cycles.

Restricted stock awards generally vest one-third annually after the original award date. As a consequence, the recipients do not become unconditionally entitled to retain any of the shares of restricted stock until one year following the date of grant, subject to certain exceptions related to termination of employment. Any unvested restricted stock awards generally are forfeited if the executive terminates employment with us. In certain instances, however, restricted stock awards may vest on an accelerated basis, such as in the event of the executive's employment is terminated by us without cause or by the executive with good reason, in the event that the executive terminates his employment within a certain period following a transaction that effects a change in

Table of Contents

the control of our company, or in the event of the executive's death or disability while employed by us. Under these circumstances all restricted stock awards held by the executive may automatically vest in accordance with the terms outlined in the restricted stock award agreement or the employment agreement, if applicable. The employment agreements that we entered into with the named executive officers during 2006 and amended in 2007 provide for all restricted stock awards held by an executive to automatically vest in the event his employment is terminated by us without cause or by the executive with or without good reason within a two year period following a change of control of our company.

The restricted stock grants to the named executive officers during fiscal year 2008 are shown in the Grants of Plan-Based Awards in 2008 Table on page 28.

Stock Appreciation Rights

The 2004 Petrohawk Plan permits awards of stock appreciation rights. A stock appreciation right is very similar to a stock option, in that it represents the right to realize the increase in market price, if any, of a fixed number of shares over the grant value of the right, which is equal to the market price of our common stock on the date of grant. However, whereas to realize the value of a stock option the holder must pay the exercise price in exchange for shares of stock underlying the option, the value embodied by the stock appreciation right, if any, may be settled in exchange for shares of common stock valued on the date of settlement.

Stock appreciation rights provide incentives for the recipient that are very similar to the incentives provided by stock options, in that the stock appreciation right becomes valuable only if our common stock price increases above the grant value of the right and the holder of the right remains employed during the period required for the right to vest, thus providing an incentive for the holder to remain employed by us. Stock appreciation rights link a portion of the holder's compensation to stockholders' interests by providing an incentive to increase the market price of our stock.

Grants of stock appreciation rights to senior management are generally considered annually, at the same time as grants are considered for the general eligible employee population, in February, after our year-end results become available. Our practice is that the exercise price for each stock appreciation right is the market value of our common stock on the date of grant, which is normally the date that our compensation committee approves the award at a meeting of the compensation committee or forty-eight hours after our release of earnings in accordance with our Insider Trading Policy. Our current policy provides for grants to be made during a trading window, as set forth in our Insider Trading Policy, and within such window only at such time as there is no material non-public information regarding the company. With respect to employees who are not executive officers, the compensation committee may delegate its authority to make such grants to our Chief Executive Officer by specifying the grant date, the total number of shares that may be subject to grants and other material terms of the grants. All proposed grants of stock appreciation rights to new-hire employees are required to be approved by our compensation committee. Alternatively, our compensation committee may authorize in writing, in advance of any fiscal quarter, the number of shares underlying stock appreciation rights that may be granted to new hire employees for the following fiscal quarter and provide that our Chief Executive Officer may allocate such stock options at his discretion. The grant date in this instance is generally the date of hire.

Stock appreciation rights generally vest one-third annually after the original grant date. In certain instances, however, stock appreciation rights may vest on an accelerated basis, such as in the event an executive's employment is terminated by us without cause or by the executive with good reason, in the event that the executive terminates his employment within a certain period following a transaction that effects a change in the control of our company, or in the event of the executive's death or disability while employed by us. Under these circumstances all stock appreciation rights held by the executive may automatically vest in accordance with the terms outlined in the stock appreciation award agreement or the employment agreement, if applicable. The employment agreements that we entered into with the named executive officers during 2006 and amended in 2007 provide for all stock appreciation awards held by an executive to automatically vest in the event his

employment is terminated by us without cause or by the executive with or without good reason within a two year period following a change of control of our company.

There is a limited term in which an executive can exercise a stock appreciation right, known as the term. The term is generally ten years from the date of grant, which is the maximum term permitted under the 2004 Petrohawk Plan. At the end of the term, the right to receive the value of the stock appreciation right expires.

No stock appreciation rights were granted in 2008.

Retirement Benefits

We do not maintain a defined benefit pension plan or retiree medical program that covers members of senior management. Retirement benefits to our senior management, including the named executive officers, are currently provided principally through a tax-qualified profit sharing and 401(k) plan (our Savings Plan), in which eligible salaried employees may participate. Pursuant to the Savings Plan, employees may elect to reduce their current annual compensation up to the lesser of 75% or the statutorily prescribed limit of \$15,500 in calendar year 2008 (plus up to an additional \$5,000 in the form of catch-up contributions for participants age 50 and above), and have the amount of any reduction contributed to the Savings Plan. Our Savings Plan is intended to qualify under sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (the Code), so that contributions by us or our employees to the Savings Plan and income earned on contributions are not taxable to employees until withdrawn from the Savings Plan and so that contributions will be deductible by us when made. We match 100% of the amount an employee contributes to the Savings Plan, subject to a 10% maximum based on the employee's compensation as defined in the Savings Plan. Executives participate in the Savings Plan on the same basis as other employees.

The Savings Plan provides for 36 different investment options, for which the participant has sole discretion in determining how both the employer and employee contributions are invested. The independent trustee of the Savings Plan then invests the assets of the Savings Plan as directed by participants. The Savings Plan does not provide our employees the option to invest directly in our securities. The Savings Plan offers in-service withdrawals in the form of after-tax account distributions and age 59.5 distributions.

We believe that the Savings Plan supports the objectives of our compensation structure, including the ability to attract and retain senior and experienced mid- to late-career executives for critical positions within our organization.

Employment Contracts, Termination of Employment and Change-in-Control Arrangements

On July 11, 2006, we entered into employment agreements with Messrs. Wilson, Mize, Stoneburner and Helm. During 2006 we faced increasing competition for management talent at the same time as anticipated changes to our board of directors and the constitution of our compensation committee as a consequence of our pending merger with KCS created greater uncertainty for management. These factors led us to conclude that it was appropriate and in our best interests to enter into employment agreements with each of the named executive officers.

In September 2007, we amended the employment agreements for each of Messrs. Wilson, Mize, Stoneburner and Helm to clarify payment terms under change of control and employment termination scenarios and to comply with final 409A regulations. We also entered into an employment agreement with Mr. Holcombe at that time. The following summarized the terms of the employment agreements as amended.

Term of Employment Agreements

The initial term of employment of each of our current named executive officers is two years from the effective date of their employment agreements. Each agreement with an executive provides for automatic one

Table of Contents

year extensions unless either party provides written notice six months prior to expiration of the initial term or any extension. During 2008, each of the employment agreements with each named executive officer was automatically renewed.

Compensation and Benefits

The salary payable to each of the named executives during 2008 is the amount set forth under the heading *2008 Base Salary* in the table above. The salary of each executive is subject to periodic review and may be increased from time to time by the compensation committee. The base salary for each of the named executives during 2009 is set forth in under the heading *Compensation Adjustments and Long-Term Incentive Awards Subsequent to Fiscal Year End* below. Each executive is eligible to receive bonuses, grants of stock options, restricted stock or other equity awards as determined in the discretion of the compensation committee. Each of the executives is also entitled to reimbursement for reasonable business expenses and to participate in our life, health, and dental insurance programs, and all other employee benefit plans which we may, from time to time, make available. We do not provide tax gross-ups for compensation or benefits, other than under limited circumstances where excise taxes are imposed by Sections 4999 or 409A of the Code.

Our chief executive officer is entitled under his employment agreement to receive a vehicle allowance and reimbursement for admission to, and the dues for, one club membership. Our chief financial officer is entitled under his employment agreement to be reimbursed for admission to, and the dues for, one club membership.

Our use of expense reimbursement and perquisites as an element of compensation is limited and is largely based on historical practices. We do not view these items as a significant element of our compensation structure but do believe that they can be used in conjunction with base salary to attract, motivate and retain individuals in a competitive environment. The compensation committee annually reviews these items provided to determine if they are appropriate and if any adjustments are warranted.

Termination Provisions and Severance Payments

We may terminate each executive's employment upon disability, for cause or without cause. Each executive may terminate his employment based on uncured material breaches of his employment agreement by us, a reduction in the base compensation or target bonus payable to him, a material reduction in the scope of his office and responsibilities, a failure by us to continue any compensation or benefit plan that is material to the executive's total compensation or the permanent relocation of the executive outside of the metropolitan area of Houston, Texas. If the employment of any of the executives is terminated by death or disability, such executive (or his or her personal representative in the event of death) is entitled to receive his accrued unpaid base compensation, plus an optional bonus to be determined by the compensation committee, and all stock options and other incentive awards held by the executive will become fully vested and immediately exercisable, and all restrictions on any shares of restricted stock will be removed. If the employment of any of the executives is terminated by us for cause, such executive (or his or her personal representative in the event of death) is entitled to receive his accrued unpaid base compensation.

If the employment of any executive is terminated by us without cause or by such executive with good reason, and such termination is not within two years after a change in control, such executive will be entitled to the accrued portion of unpaid salary, payment of a prorated amount of the executive's bonus for the year in which the termination occurs, a severance payment equal to one year's base salary plus the higher of the current year target bonus or the bonus paid for the preceding year, payment of the premiums for medical and dental insurance for him and his entire family for one year following termination, and the full vesting of all his unvested options and all restrictions removed from his shares of restricted stock. If such executive is terminated by us without cause or such executive terminates his employment with the Company *with or without* good reason, and such termination is within two years after a change in control, such executive will be entitled to receive the accrued portion of unpaid salary, a severance payment equal to two times his current base salary plus the higher

Table of Contents

of the current year target bonus or the bonus paid for the preceding year, payment of the premiums for medical and dental insurance for him and his entire family for two years following termination payment of a prorated bonus in the year of the change of control, and the full vesting of all his unvested options and all restrictions removed from his shares of restricted stock. If the employment of such executive is terminated by such executive without good reason and not within two years after a change in control, such executive is entitled to receive his accrued unpaid base compensation.

The employment agreements with the named executive officers generally define a change of control to mean any of the following events:

any person or group becomes the beneficial owner (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of more than 35% of the total voting power of our outstanding voting stock;

our merger with or consolidation into another entity and, immediately after giving effect to the merger or consolidation, one or both of the following occurs: (a) less than 50% of the total voting power of the outstanding voting stock of the surviving or resulting entity is then beneficially owned in the aggregate by our stockholders immediately prior to such merger or consolidation, or (b) the individuals who were members of our board of directors immediately prior to the execution of the agreement providing for the merger or consolidation do not constitute at least a majority of the members of the board of directors of the surviving or resulting entity;

we sell, assign, convey, transfer, lease or otherwise dispose of all or substantially all of our assets to a third party in one transaction or a series of related transactions;

individuals who constitute our board of directors cease for any reason to constitute at least a majority of our board of directors unless such persons were elected, appointed or nominated by a vote of at least a majority of our incumbent directors; or

the complete liquidation or dissolution of our company.

In our view, having the change of control and severance protections helps to maintain the named executive officer's objectivity in decision-making and provides another vehicle to align the interests of our named executive officer with the interests of our stockholders.

The following table sets forth the estimated amounts that would be payable to each of the named executives upon a termination under the scenarios outlined above, excluding termination for cause or on account of death or disability, assuming that such termination occurred on December 31, 2008 and using the closing price of our common stock at December 31, 2008 for purposes of the calculations as required by the SEC. The dollar amounts set forth under the column heading *Early Vesting of Restricted Stock/Options* correspond to the amounts that would be paid, in addition to accrued and unpaid salary through the date of death or disability, in the event of the death or disability at year-end of each of the executives. There can be no assurance that these scenarios would produce the same or similar results as those disclosed if a termination occurs in the future.

Board Representation

Mr. Wilson's employment agreement provides that he will be nominated as a member of our board of directors, and that we will use our best efforts to cause him to be elected, appointed, or re-elected or re-appointed, as a director.

Indemnification Agreements

We have entered into an indemnification agreement with each of our independent, non-management directors and senior executives. These agreements provide for us to, among other things, indemnify such persons against certain liabilities that may arise by reason of their status or service as directors or officers, to advance their expenses incurred as a result of a proceeding as to which they may be indemnified and to cover such person under any directors' and officers' liability insurance policy we choose, in our discretion, to maintain. These indemnification agreements are intended to provide indemnification rights to the fullest extent permitted under applicable indemnification rights statutes in the State of Delaware and are in addition to any other rights such person may have under our certificate of incorporation, bylaws and applicable law. We believe these indemnification agreements enhance our ability to attract and retain knowledgeable and experienced executives and independent, non-management directors.

Tax Deductibility

Section 162(m) of the Code limits the deductibility of compensation in excess of \$1 million paid to our chief executive officer and our four other highest-paid executive officers unless certain specific and detailed criteria are satisfied. We believe that it is often desirable and in our best interests to deduct compensation payable to our executive officers. However, we also believe that there are circumstances where our interests are best served by maintaining flexibility in the way compensation is provided, even if it might result in the non-deductibility of certain compensation under the Code. In this regard, we consider the anticipated tax treatment to our company and our executive officers in the review and establishment of compensation programs and payments; however, we may from time to time pay compensation to our executives that may not be deductible, including discretionary bonuses or other types of compensation outside of our plans.

Although equity awards may be deductible for tax purposes by us, the accounting rules pursuant to Financial Accounting Standards Board Statement No. 123 (revised 2004), *Accounting for Stock-Based Compensation* (FAS 123(R)) require that the portion of the tax benefit in excess of the financial compensation cost be recorded to paid-in-capital.

controlling group with respect to FMR LLC. Amendment No. 2 to Schedule 13G filed by FMR LLC with the SEC on February 17, 2009 indicates that neither FMR LLC nor Edward C. Johnson 3d has the sole power to vote or direct the voting of the shares owned directly by the Fidelity funds, which power resides with the funds' Boards of Trustees. Fidelity carries out the voting of the shares under written guidelines established by the funds' Boards of Trustees. As such, FMR LLC's beneficial ownership includes 3,365 shares, or 0.001%, of our outstanding common stock, beneficially owned through Strategic Advisers, Inc. Pyramis Global Advisors, LLC (PGALLC), an indirect, wholly owned subsidiary of FMR LLC and an investment adviser registered under Section 203 of the Investment Advisers Act of 1940, is the beneficial owner of 45,300 shares, or 0.018%, of our outstanding common stock as a result of its serving as investment adviser to institutional accounts, non-U.S. mutual funds, or investment companies registered under Section 8 of the Investment Company Act of 1940 owning such shares. FMR LLC and FIL are separate and independent corporate entities, and their Boards of Directors are generally composed of different individuals. FMR LLC and FIL are of the view that they are not acting as a group for purposes of Section 13(d) under the Securities Exchange Act of 1934 (the 1934 Act) and that they are not otherwise required to attribute to each other the beneficial ownership of securities beneficially owned by the other corporation within the meaning of Rule 13d-3 promulgated under the 1934 Act. Therefore, they are of the view that the shares held by the other corporation need not be aggregated for purposes of Section 13(d). However, FMR LLC filed the Schedule 13G on a voluntary basis as if all of the shares are beneficially owned by FMR LLC and FIL on a joint basis. Also see footnotes 1 and 2.
