Set forth below are several non-GAAP financial measures that are included in the attached press release together with the most directly comparable GAAP financial measure.

For the three months ended March 31, 2009, our Net Income Attributable to DCT Common Stockholders was \$3.8 million and our Net Income Attributable to DCT Common Stockholders per diluted share was \$0.02. In our press release referred to above, we disclose Funds From Operations, or FFO, as defined by the National Association of Real Estate Investment Trusts (NAREIT), to be \$33.1 million, or \$0.16 per diluted share and unit for the three months ended March 31, 2009. For the three months ended March 31, 2008, our Net Income Attributable to DCT Common Stockholders was \$0.4 million and our Net Income Attributable to DCT Common Stockholders per diluted share was \$0.00. For the three months ended March 31, 2008, our FFO per diluted common share and unit was \$0.15.

For the three months ended March 31, 2009, income from continuing operations was \$4.3 million. In our press release referred to above, we disclose our net operating income, or NOI, to be \$45.5 million for the same period in 2009. For the three months ended March 31, 2008, loss from continuing operations was \$1.4 million. In our press release referred to above, we disclose our net operating income to be \$45.8 million for the same period in 2008.

For the three months ended March 31, 2009, our income from continuing operations increased \$5.7 million from a loss of \$1.4 million for the three months ended March 31, 2008 to income of \$4.3 million for the same period in 2009. In our press release referred to above, we disclose that our same store net operating income excluding lease termination fees for the three months ended March 31, 2009 decreased 5.1% compared to the same period in 2008 and decreased 2.5% on a cash-adjusted basis.

Our percentage of debt to total assets was 44.8% and 44.4% at March 31, 2009 and December 31, 2008, respectively. In our press release referred to above, we disclose that the percentage of debt to book value of total assets, excluding accumulated depreciation and amortization, was 38.4% and 38.4%, for the same periods. We believe that this percentage, calculated using total assets, excluding accumulated depreciation and amortization, is a useful supplemental measure of our leverage. The market value of real estate assets often does not decline in the formulaic manner in which depreciation and amortization accrues with respect to those assets for GAAP accounting purposes. Accordingly, we believe that providing a supplemental measure of our leverage based on the book value of our total assets, excluding the cumulative effect of these depreciation and amortization accruals, provides investors with a useful supplemental measure of our leverage.
