Table of Contents

WisdomTree Trust

WisdomTree Trust (the "Trust") is a registered investment company that consists of separate investment portfolios called "Funds." This prospectus describes the **WisdomTree DEFA Hedged Fund** and **WisdomTree Emerging Markets Hedged Fund**. Each Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of a particular index. The indexes are created using proprietary methodologies developed by WisdomTree Investments, Inc. Each index and Fund described herein seeks to provide exposure to designated international markets while at the same time seeking to minimize exposure to fluctuations between the value of the U.S. dollar and non-U.S. currency.

Each Fund is an exchange traded fund ("ETF"). This means that shares of the Funds are listed on a national securities exchange, such as NYSE Arca, and trade at market prices. The market price for a Fund's shares may be different from its net asset value per share ("NAV"). Each Fund has its own CUSIP number and exchange trading symbol.

Each Fund described in this Prospectus issues and redeems shares at NAV only in large blocks of shares, typically 100,000 shares or more ("Creation Units"). These transactions are usually in exchange for a basket of securities and an amount of cash. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, shares of each Fund are not redeemable securities.

A NOTE TO RETAIL INVESTORS

Shares can be purchased directly from the issuing Fund only in exchange for a basket of securities that is expected to be worth several million dollars. Most individual investors, therefore, will not be able to purchase shares directly from a Fund. Instead, these investors will purchase shares in the secondary market through a brokerage account or with the assistance of a broker. Thus, some of the information contained in this Prospectus such as information about purchasing and redeeming shares from a Fund and references to transaction fees imposed on purchases and redemptions is not relevant to most individual investors. Shares purchased or sold through a brokerage account or with the assistance of a broker may be subject to brokerage commissions and charges.

INVESTMENT PRODUCTS: ○ ARE NOT FDIC INSURED ○ MAY LOSE VALUE ○

Table of Contents

Overview

This Prospectus provides the information you need to make an informed decision about investing in the Funds.⁽¹⁾ It contains important facts about the Trust as a whole and each Fund in particular.

Each Fund is an exchange traded fund (ETF). ETFs are funds whose shares are listed on a stock exchange and traded like equity securities at market prices. ETFs, such as the Funds, allow you to buy or sell shares that represent the collective performance of a selected group of securities. ETFs are designed to add the flexibility, ease and liquidity of stock-trading to the benefits of traditional fund investing.

WisdomTree Asset Management, Inc. (WisdomTree Asset Management) is the investment adviser to each Fund. WisdomTree Investments, Inc. (WisdomTree Investments) is the parent company of WisdomTree Asset Management.

Investment Objective

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments. Each Index consists of securities suggested by its name that meet specific criteria developed by WisdomTree Investments. Each index and Fund seeks to provide exposure to designated international markets while at the same time seeking to minimize exposure to fluctuations between the value of the U.S. dollar and non-U.S. currency.

Principal Investment Strategies

International equity investments include two components of return: a return based on stock prices in the non-U.S. market and a return based on the value of non-U.S. currency relative to the U.S. dollar. Each Fund is designed to provide exposure to non-U.S. equity securities while at the same time minimizing exposure to fluctuations between the value of the U.S. dollar and the currencies represented in the Index.

Each Fund will normally invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in the types of investments suggested by its name (i.e., the securities in its underlying Index). Each Fund generally may invest up to 20% of its total assets in investments not included in its Index, but which the Fund believes will help it track its Index. For example, a Fund may invest in securities that are not components of its Index in order to reflect various corporate actions and other changes to its Index (such as reconstitutions, additions and deletions). Each Fund also may invest its assets in cash and cash equivalents, as well as in shares of other investment companies, forward contracts, futures contracts, options on futures contracts, options, and swaps. WisdomTree Asset Management expects that, over time, the correlation between each Fund's performance and that of its Index, before fees and expenses, will be 95% or better.

Each Fund uses a Representative Sampling strategy in seeking to track the performance of its Index. A Fund using a Representative Sampling strategy generally will invest in a sample of the securities in its Index whose risk, return and other characteristics closely resemble the risk, return and other characteristics of the Index as a whole.

To the extent that a Fund's underlying Index concentrates (i.e., holds 25% or more of its total assets) in the securities of a particular industry or group of industries, a Fund will concentrate its investments to approximately the same extent as its Index.

(1) WisdomTree is a registered mark of WisdomTree Investments and has been licensed for use by the Trust.

Table of Contents

Principal Risk Factors Common to All Funds

Each Fund is subject to the principal risks described below. Certain additional risks associated with a Fund are discussed in the specific section describing that Fund. Some or all of these risks may adversely affect a Fund's NAV, trading price, total return and/or its ability to meet its objectives.

Investment Risk

As with all investments, an investment in a Fund is subject to investment risk. Investors in a Fund could lose money, including the possible loss of the entire principal amount of an investment, over short or even long periods of time.

Stock Market Risk

The trading price of equity securities fluctuates in response to a variety of factors. These factors include events impacting a single issuer, as well as political, market and economic developments that affect specific market segments and the market as a whole. Each Fund's NAV and market price, like stock prices generally, will fluctuate within a wide range in response to these factors. As a result, an investor could lose money over short or even long periods. Recent events in the financial sector and other markets have resulted, and may continue to result, in an unusually high degree of volatility in the worldwide stock markets. Both domestic and foreign fixed income and equity markets have been experiencing extreme volatility and turmoil. Well-known financial and other institutions have experienced significant liquidity and other problems and issuers that have exposure to the real estate, mortgage and credit markets have been particularly affected. Some of these institutions have declared bankruptcy or defaulted on their debt. It is uncertain whether or for how long these conditions will continue. These events and possible continuing market turbulence may have an adverse effect on Fund performance.

Investment Style Risk

The returns from the types of securities in which a Fund invests may underperform returns from the various general securities markets or different asset classes. This may cause a Fund to underperform other investment vehicles that invest in different asset classes. Different types of securities (for example, large-, mid- and small-capitalization stocks) tend to go through cycles of doing better or worse than the general securities markets. In the past, these periods have lasted for as long as several years.

Foreign Securities Risk

Investments in non-U.S. securities involve certain risks that may not be present with investments in U.S. securities. For example, investments in non-U.S. securities may be subject to risk of loss due to foreign currency fluctuations or to political or economic instability. There may be less information publicly available about a non-U.S. issuer than a U.S. issuer. Non-U.S. issuers may be subject to different accounting, auditing, financial reporting and investor protection standards than U.S. issuers. Investments in non-U.S. securities may be subject to withholding or other taxes and may be subject to additional trading, settlement, custodial, and operational risks. With respect to certain countries, there is the possibility of government intervention and expropriation or nationalization of assets. Because legal systems differ, there is also the possibility that it will be difficult to obtain or enforce legal judgments in certain countries. Since foreign exchanges may be open on days when the Fund does not price its shares, the value of the securities in the Fund's portfolio may change on days when shareholders will not be able to purchase or sell the Fund's shares. Conversely, Fund shares may trade on days when foreign exchanges are close. Each of these factors can make investments in the Fund more volatile and potentially less liquid than other types of investments.

Foreign Currency Risk

Each Fund uses various strategies to attempt to minimize the impact of changes in the value of the non-U.S. currencies included in its underlying Index against the U.S. dollar. These strategies may not be successful. Changes in currency exchange rates and the relative value of non-U.S. currencies may affect the value of a Fund's investment and the value of your Fund shares. To the extent the Fund's hedging strategies are not successful, the U.S. dollar value of your investment in a Fund may go down if the value of the local currency of the non-U.S. markets in which the Fund invests depreciates against the U.S. dollar. This is true even if the local currency value of securities in the Fund's holdings goes up. Conversely, the dollar value of your investment in a Fund may go up if the value of the local currency appreciates against the U.S. dollar. The value of the U.S. dollar measured against other currencies is influenced by a variety of factors. These factors include: interest rates, national debt levels and trade deficits, changes in balances of payments and trade, domestic and foreign interest and inflation rates, global or regional political, economic or financial events, monetary policies of governments, actual or potential government intervention, and global energy prices. Political instability, the possibility of government intervention and restrictive or opaque business and investment policies may also reduce the value of a country's currency. Government monetary policies and the buying or selling of currency by a country's government may also influence exchange

Edgar Filing: WisdomTree Trust - Form 485BPOS

rates. Currency exchange rates can be very volatile and can change quickly and unpredictably. Therefore, the value of an investment in a Fund may also go up or down quickly and unpredictably and investors may lose money.

Emerging Markets Risk

The Emerging Markets Hedged Fund invests a relatively large percentage of its assets in securities listed and traded in emerging markets. Investing in securities listed and traded in emerging markets may be subject to additional risks associated with emerging market economies. Such risks may include: (i) greater market volatility, (ii) lower trading volume, (iii) greater social, political and economic uncertainty, (iv) governmental controls on foreign investments and limitations on repatriation of invested capital, (v) the risk that companies may be held to lower disclosure, corporate governance, auditing and financial reporting standards than companies in more developed markets, and (vi) the risk that there may be less protection of property rights than in other countries. Emerging markets are generally less liquid and less efficient than developed securities markets.

Derivative Investment Risk

Each Fund intend to invest in derivatives. Derivatives are financial instruments that derive their performance from an underlying asset, index, interest rate or currency exchange rate, such as a forward currency contract, and swaps. The Funds intend to invest in forward currency contracts, non-deliverable forward currency contracts, currency swaps and currency futures contracts. A forward currency contract is an agreement to buy or sell a specific currency at a future date at a price set at the time of the contract. Non-deliverable forward currency contracts are contracts where there is no physical settlement of two currencies at maturity. Rather, based on the movement of the currencies, a net cash settlement will be made by one party to the other. A currency swap is an agreement between two parties to exchange one currency for another at a future rate. A currency futures contract is a contract to exchange one currency for another at a specified date in the future at an agreed upon exchange rate. Derivatives are subject to a number of risks described elsewhere in this section, such as interest rate risk, market risk, capacity risk and management risk. They also involve the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index, or that the counterparty to a derivative contract might default on its obligations. Derivatives can be volatile and may be less liquid than other securities.

Interest Rate Risk

Each of the underlying Indexes, and therefore the Funds, may be more heavily weighted than other types of investments in market sectors that are sensitive to interest rate fluctuations (such as the financial and real estate sectors). The Funds therefore may be more sensitive to fluctuations in interest rates than other types of investments. In particular, increases to prevailing interest rates could have a negative impact on the performance of the Funds.

The value of the U.S. dollar measured against other currencies is influenced by a variety of factors. These factors include: national debt levels and trade deficits, changes in balances of payments and trade, domestic and foreign interest and inflation rates, global or regional political, economic or financial events, monetary policies of governments, actual or potential government intervention, and global energy prices. Political instability, the possibility of government intervention and restrictive or opaque business and investment policies may also reduce the value of a country's currency. Government monetary policies and the buying or selling of currency by a country's government may also influence exchange rates.

Concentration Risk

To the extent that a Fund's Index concentrates in the securities of a particular industry or group of industries, the Fund will concentrate its investments to approximately the same extent as its Index. A Fund that concentrates, or otherwise invests a large portion of its assets in a single industry or group of industries, may be more susceptible to any single economic, market, political or regulatory occurrence affecting that industry or group of industries. In such case, a Fund may be more volatile than funds based on broader or less volatile market segments.

Geographic Investment Risk

To the extent a Fund invests a significant portion of its assets in the securities of a single country or region it is more likely to be impacted by events or conditions affecting that country or region. For example, political and economic conditions and changes in regulatory, tax, or economic policy in a country could significantly affect the market in that country and in surrounding or related countries and have a negative impact on a Fund's performance.

Financial Sector Investing

The Funds generally invest a relatively large percentage of their assets in securities in the Financial industry and therefore the performance of the Funds will be impacted by events affecting the Financial industry. This industry can be significantly affected by changes in interest rates, the rate

Edgar Filing: WisdomTree Trust - Form 485BPOS

of corporate and consumer debt defaulted, price competition, the availability and cost of capital funds and fallout from the housing and sub-prime mortgage crisis. Recently, this sector has been significantly impacted by bankruptcies and consolidations of major financial firms. These events have had, and may continue to have, a significant negative impact on the valuation and stock price of companies in this sector and have increased the volatility of investments in this sector.

WisdomTree Prospectus 3

Table of Contents

Small and Mid-Capitalization Investing

Each Fund invests a portion of its assets in securities of small and mid-capitalization companies. The securities of small and mid-capitalization companies may be subject to more unpredictable price changes than securities of larger companies or the market as a whole.

Non-Diversification Risk

Each Fund is considered to be non-diversified, which means that it may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were a diversified fund. As a result, a Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a smaller number of issuers than a fund that invests more widely. This may increase the Fund's volatility and cause the performance of a relatively smaller number of issuers to have a greater impact on a Fund's performance.

Capacity Risk

Each Fund may invest in derivative instruments as a substitute for taking a position in an underlying asset in an attempt to create a position economically similar to a direct investment. Each Fund which attempts to use derivatives may experience the risk that the market for derivative instruments used to achieve such exposure has limited liquidity or volume. This may be due to foreign government restrictions or regulations on such use of derivative instruments, or because the Fund may be unable to obtain a sufficient amount of derivative instruments necessary to create the required exposure. This could have a negative effect on a Fund's ability to achieve its investment objective.

WisdomTree Prospectus 4

Table of Contents

Issuer-Specific Risk

Changes in the financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular type of security or issuer, and changes in general economic or political conditions can affect a security's or instrument's value. The value of securities of smaller, less-well-known issuers can be more volatile than that of larger issuers. Issuer-specific events can have a negative impact on the value of a Fund.

Investment Approach Risk

Each Fund invests in the securities included in, or representative of, its Index regardless of their investment merit. The Funds do not attempt to outperform their Indexes or take defensive positions in declining markets. As a result, each Fund's performance may be adversely affected by a general decline in the U.S. or foreign market segments relating to its Index.

Non-Correlation Risk

The performance of a Fund and its Index may vary somewhat for a variety of reasons. For example, each Fund incurs operating expenses and portfolio transaction costs not incurred by its Index. In addition, a Fund may not be fully invested in the securities of its Index at all times. The use of sampling techniques may affect a Fund's ability to achieve close correlation with its Index. A Fund using a Representative Sampling strategy generally can be expected to have a greater non-correlation risk.

Management Risk

Because each Fund may not fully replicate its Index and may hold securities not included in its Index, a Fund is subject to management risk. This is the risk that the Fund's investment strategy, the implementation of which is subject to a number of constraints, may not produce the intended results.

Cash Redemption Risk

Because the Funds invest a portion of their assets in foreign currency forward contracts, each Fund intends to pay out a portion of its redemption proceeds in cash rather than through the in-kind delivery of portfolio securities. Each Fund may be required to sell portfolio securities in order to obtain the cash needed to distribute redemption proceeds. This may cause a Fund to recognize a capital gain that it might not have incurred if it had made a redemption in-kind. As a result the Funds may pay out higher annual capital gains distributions than if the in-kind redemption process was used.

Market Trading Risk

Although Fund shares are listed on national securities exchanges, there can be no assurance that an active trading market for Fund shares will develop or be maintained. If an active market is not maintained, investors may find it difficult to buy or sell Fund shares. Trading of shares of a Fund on a stock exchange may be halted if exchange officials deem such action appropriate, if the Fund is delisted, or if the activation of marketwide circuit breakers halts stock trading generally. If a Fund's shares are delisted, the Fund may seek to list its shares on another market, merge with another ETF or traditional mutual fund, or redeem its shares at NAV. WisdomTree Asset Management believes that, under normal market conditions, large market price discounts or premiums to NAV will not be sustained because of arbitrage opportunities.

Table of Contents

Shares of the Funds May Trade at Prices Other Than NAV

As with all ETFs, Fund shares are bought and sold in the secondary market at market prices. Although it is expected that the market price of the shares of each Fund will approximate the respective Fund's NAV, there may be times when the market price and the NAV vary significantly. Thus, you may pay more than NAV when you buy shares of a Fund in the secondary market, and you may receive less than NAV when you sell those shares in the secondary market. The market price of Fund shares during the trading day, like the price of any exchange-traded security, includes a bid/ask spread charged by the exchange specialist, market makers or other participants that trade the Fund shares. The bid/ask spread on ETF shares is likely to be wider on ETFs that are traded less frequently and also may be wider at certain times of the day, such as immediately after the market opens and just before closing time. When this occurs you may pay more to buy Fund shares, or receive less on the sale of Fund shares, than you might receive at other times. In addition, in times of severe market disruption, the bid/ask spread can increase significantly. At those times, Fund shares are most likely to be traded at a discount to NAV, and the discount is likely to be greatest when the price of shares is falling fastest, which may be the time that you most want to sell your shares. You may wish to discuss ETF trading strategies, such as the use of limit orders and stop orders, with your broker.

Lack of Governmental Insurance or Guarantee

An investment in a Fund is not a bank deposit and it is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

WisdomTree Prospectus 6

WisdomTree DEFA Hedged Fund

Fund Facts

Cusip Number: 97717X701

WisdomTree DEFA Hedged Fund

Investment Objective

The Fund seeks to track the price and yield performance, before fees and expenses, of the WisdomTree DEFA Hedged Index. Since the Fund's investment objective has been adopted as a non-fundamental investment policy, the Fund's investment objective may be changed without a vote of shareholders. The Fund is designed to provide exposure to the non-U.S. equity securities in the WisdomTree DEFA Index, while at the same time minimizing exposure to fluctuations between the value of the U.S. dollar and the non-U.S. currencies reflected in the Index.

Primary Investment Strategies

The Fund employs a passive management or indexing investment approach designed to track the performance of the Index. The Fund attempts to invest all, or substantially all, of its assets in the securities and instruments that make up the Index. The Fund generally uses a Representative Sampling strategy to achieve its investment objective.

Index Description

The WisdomTree DEFA Hedged Index is designed to provide exposure to non-U.S. equity securities in developed markets outside of the U.S. and Canada, while at the same time minimizing exposure to fluctuations between the value of the U.S. dollar and non-U.S. currencies represented in the Index. For U.S. investors, international equity investments include two components of return. The first is the return attributable to stock prices in the non-U.S. market or markets in which an investment is made. The second is the return attributable to the value of non-U.S. currencies in these markets relative to the U.S. dollar. The WisdomTree DEFA Hedged Index seeks to measure the performance of dividend paying companies that is attributable solely to stock prices.

The Index and the Fund are designed to have higher returns than an equivalent non-currency hedged investment when the U.S. Dollar is going up in value relative to foreign currencies. Conversely, the Index and Fund are designed to have lower returns than an equivalent non-hedged investment when the U.S. dollar is falling in value relative to foreign currencies (e.g., the Euro is rising relative to the U.S. dollar). Of course, there can be no guarantee that the Index or Fund will achieve its respective objective.

To be included in the WisdomTree DEFA Hedged Index, companies must be incorporated and listed for trading in one of 16 developed-market European countries (Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom), Japan, Hong Kong, Singapore, Australia, or New Zealand. The Index currently includes a relatively large percentage of companies organized in France and the United Kingdom. This may change from time to time based on the amount of dividends paid by companies in the Index. Companies must have paid at least \$5 million in cash dividends on their common stock in the annual cycle prior to the most recent Index measurement date and must also satisfy specified liquidity and other requirements. Companies are weighted in the Index based on regular cash dividends paid. The Index includes large-capitalization, mid-capitalization and small-capitalization securities that meet the Index requirements. As of May 29, 2009, approximately 72% of the capitalization of the Index consisted of large capitalization companies (i.e., companies with market capitalizations over \$10 billion). The Index applies an applicable published WM/Reuters one-month currency forward rate to the total equity exposure of each country in the Index to adjust the value of each currency against the U.S. dollar.

The Fund invests in a representative sample of the equity securities included in the Index. The Fund also enters into one-month forward currency contracts and futures contracts designed to offset the Fund's aggregate exposure to the currency of each non-U.S. market in which the Fund invests. A one-month forward currency contract is a contract between two parties to buy or sell a specific currency one month in the future at an agreed-upon rate. A currency futures contract is a contract to exchange one currency for another at a specified date in the future at an agreed upon exchange rate. The amount of forward contracts and futures contracts in the Fund is based on the component companies in the Index and the aggregate exposure of the Index to each non-U.S. currency. While this approach is designed to minimize the impact of currency fluctuations on Index returns, the Index does not necessarily eliminate exposure to all currency fluctuations. The return of the forward contracts and futures contracts may not perfectly offset the actual fluctuations of non-U.S. currencies relative to the U.S. dollar.

Table of Contents

Primary Investment Risks

You can lose money on your investment in the Fund. For information about the risks of investing in the Fund, see the section entitled "Principal Risk Factors Common to All Funds."

Performance Information

No performance information is presented for the Fund because it has been in operation for less than one full calendar year. After the first full calendar year, a risk/return chart and table will be provided. Any past performance of the Fund that will be shown will not be an indication of future results.

Fees and Expenses

The following table describes the fees and expenses you may pay if you buy and hold shares of the Fund. The fees are expressed as a percentage of the Fund's average net assets. You may also incur customary brokerage charges when buying or selling Fund shares.

WisdomTree Prospectus 8

Table of Contents

Shareholder Fees (fees paid directly from your investment, but see the Creation Transaction Fees and Redemption Transaction Fees section below)	None
Annual Fund Operating Expenses (expenses deducted from Fund assets)	
Management Fees	0.48%
Administration Fee	0.10%
Distribution and/or Service (12b-1) Fees	None
Total Annual Fund Operating Expenses	0.58%

The following example is intended to help retail investors compare the cost of investing in the Fund with the cost of investing in other funds. It illustrates the hypothetical expenses that such investors would incur over various periods if they invest \$10,000 in the Fund for the time periods indicated and then redeemed all of the shares at the end of those periods. This example assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. This example does not include the brokerage commission that retail investors may pay to buy and sell shares of the Fund. The cost under the 1 Year example reflects WisdomTree Asset Management's agreement to waive fees and/or reimburse expenses to the level specified in the fee table. The cost under the 3 year example does not reflect this agreement. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	1 Year	3 Years
	\$ 59	\$ 186

You would pay the following expenses if you did not redeem your shares:

	1 Year	3 Years
	\$ 59	\$ 186

WisdomTree Emerging Markets Hedged Fund

Fund Facts

Cusip Number: 97717X800

WisdomTree Emerging Markets Hedged Fund

Investment Objective

The Fund seeks to track the price and yield performance, before fees and expenses, of the WisdomTree Emerging Markets Hedged Index. Since the Fund's investment objective has been adopted as a non-fundamental investment policy, the Fund's investment objective may be changed without a vote of shareholders. The Fund is designed to provide exposure to the non-U.S. equity securities in the WisdomTree Emerging Markets Index, while at the same time minimizing exposure to fluctuations between the value of the U.S. dollar and the non-U.S. currencies reflected in the Index.

Primary Investment Strategies

The Fund employs a passive management - or indexing - investment approach designed to track the performance of the Emerging Markets Hedged Fund. The Fund attempts to invest all, or substantially all, of its assets in the securities and instruments that make up the Index. The Fund generally uses a Representative Sampling strategy to achieve its investment objective.

Index Description

The WisdomTree Emerging Market Hedged Index is designed to provide exposure to emerging market securities, while at the same time minimizing exposure to fluctuations between the value of the U.S. dollar and non-U.S. currencies represented in the Index. For U.S. investors, international equity investments include two components of return. The first is the return attributable to stock prices in the non-U.S. market or markets in which an investment is made. The second is the return attributable to the value of non-U.S. currencies in these markets relative to the U.S. dollar. The WisdomTree Emerging Markets Hedged Index seeks to measure the performance of dividend paying companies that is attributable solely to stock prices.

The Index and the Fund are designed to have higher returns than an equivalent non-currency hedged investment when the U.S. Dollar is going up in value relative to foreign currencies. Conversely, the Index and Fund are designed to have lower returns than an equivalent non-hedged investment when the U.S. dollar is falling in value relative to foreign currencies (e.g., the Indian Rupee is rising relative to the U.S. dollar). Of course, there can be no guarantee that the Index or Fund will achieve its respective objective.

To be included in the WisdomTree Emerging Markets Hedged Index, companies must be incorporated in and have their shares listed on a major stock exchange in Argentina, Brazil, Chile, China, Czech Republic, Hungary, India, Indonesia, Israel, Malaysia, Mexico, Philippines, Poland, Russia, South Africa, South Korea, Taiwan, Thailand or Turkey. The Index currently includes a relatively large percentage of companies organized in Taiwan. This may change from time to time based on the amount of dividends paid by companies in the Index. Companies must have paid at least \$5 million in cash dividends on their common stock in the annual cycle prior to the most recent Index measurement date and must also satisfy specified liquidity and other requirements. Companies are weighted in the Index based on regular cash dividends paid. The Index includes large-capitalization, mid-capitalization and small-capitalization securities that meet the Index requirements. As of May 29, 2009, approximately 43% of the capitalization of the Index consisted of mid-capitalization companies (i.e., companies with market capitalizations between \$2 billion and \$10 billion) and approximately 40% of the capitalization of the Index consisted of large-capitalization companies (i.e., companies with market capitalizations over \$10 billion). The Index applies an applicable published WM/Reuters one-month currency forward rate to the total equity exposure of each country in the Index to adjust the value of each currency against the U.S. dollar.

The Fund invests in a representative sample of the equity securities included in the Index. The Fund also enters into one-month forward currency contracts and futures contracts designed to offset the Fund's aggregate exposure to the currency of each non-U.S. market in which the Fund invests. A one-month forward currency contract is a contract between two parties to buy or sell a specific currency one month in the future at an agreed-upon rate. A currency futures contract is a contract to exchange one currency for another at a specified date in the future at an agreed upon exchange rate. The amount of forward contracts and futures contracts in the Fund is set based on the component companies in the Index and the aggregate exposure of the Index to each non-U.S. currency. While this approach is designed to minimize the impact of currency fluctuations on Index returns, the Index does not necessarily eliminate exposure to all currency fluctuations. The return of the forward contracts and futures contracts may not perfectly offset the actual fluctuations of non-U.S. currencies relative to the U.S. dollar.

Table of Contents

Primary Investment Risks

You can lose money on your investment in the Fund. For information about the risks of investing in the Fund, see the section entitled **Principal Risk Factors Common to All Funds**. In addition, the Fund is subject to the following potential risk. As with all potential risks, this risk could decrease the value of your Fund investment.

Small and Mid-Capitalization Investing. The Fund invests a relatively large percentage of its assets in securities of small-and mid-capitalization issuers. As a result, the Fund may be more volatile than funds that invest in larger, more established companies. The securities of small- and mid-capitalization companies generally trade in lower volumes and are subject to greater and more unpredictable price changes than larger capitalization stocks or the stock market as a whole. Small- and mid-capitalization companies may be particularly sensitive to changes in interest rates, borrowing costs and earnings.

Performance Information

No performance information is presented for the Fund because it has been in operation for less than one full calendar year. After the first full calendar year, a risk/return chart and table will be provided. Any past performance of the Fund that will be shown will not be an indication of future results.

Fees and Expenses

The following table describes the fees and expenses you may pay if you buy and hold shares of the Fund. The fees are expressed as a percentage of the Fund's average net assets. You may also incur customary brokerage charges when buying or selling Fund shares.

Shareholder Fees (fees paid directly from your investment, but see the Creation Transaction Fees and Redemption Transaction Fees section below)	None
Annual Fund Operating Expenses (expenses deducted from Fund assets)	
Management Fees	0.58%
Administration Fee	0.10%
Distribution and/or Service (12b-1) Fees	None
Total Annual Fund Operating Expenses	0.68%

The following example is intended to help retail investors compare the cost of investing in the Fund with the cost of investing in other funds. It illustrates the hypothetical expenses that such

Table of Contents

investors would incur over various periods if they invest \$10,000 in the Fund for the time periods indicated and then redeemed all of the shares at the end of those periods. This example assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. This example does not include the brokerage commission that retail investors may pay to buy and sell shares of the Fund. The cost under the 1 Year example reflects WisdomTree Asset Management's agreement to waive fees and/or reimburse expenses to the level specified in the fee table. The cost under the 3 year example does not reflect this agreement. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	1 Year	3 Years
You would pay the following expenses if you did not redeem your shares:	\$69	\$218

	1 Year	3 Years
Management	\$69	\$218

Investment Adviser

As investment adviser, WisdomTree Asset Management has overall responsibility for the portfolio management of the Trust. WisdomTree Asset Management provides an investment program for each Fund. WisdomTree Asset Management arranges for transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate.

The basis for the Board of Trustees' approval of the Investment Advisory Agreement for the Funds will be available in the Trust's Annual Report to Shareholders for the period ending March 31, 2009.

WisdomTree Asset Management expects to receive fees from each Fund, based on a percentage of the Fund's average daily net assets, as shown in the following table:

Name of Fund	Management Fee
WisdomTree DEFA Hedged Fund	0.48%
WisdomTree Emerging Markets Hedged Fund	0.58%

WisdomTree Asset Management is a registered investment adviser with offices located at 380 Madison Avenue, 21st Floor, New York, NY 10017 and is a leader in ETF management.

In addition to providing investment advisory services, WisdomTree Asset Management, in exchange for a fee of 0.10% of each Fund's average daily net assets, has entered into an Administration Agreement with the Funds whereby WisdomTree Asset Management, among other things, arranges for the provision of non-advisory services necessary for the Funds to operate and has agreed to pay certain fees and costs that might otherwise be considered expenses of the Funds.

Sub-Adviser

Mellon Capital Management Corporation (Mellon Capital) serves as the sub-adviser for the Funds. Mellon Capital is a leading innovator in the investment industry and manages global quantitative-based investment strategies for institutional and private investors with its principal office located at 50 Fremont Street, San Francisco, CA 94105. As of April 30, 2009, Mellon Capital had assets under management totaling approximately \$146 billion.

Table of Contents

The Sub-Adviser chooses each Fund's portfolio investments and places orders to buy and sell the Fund's portfolio investments.

WisdomTree Asset Management pays the Sub-Adviser the fees indicated below for providing sub-advisory services to the Funds:

7.5 basis points (0.075%) of the first \$200 Million of average daily net assets of the Funds;

5 basis points (0.05%) of the next 300 Million of average daily net assets of the Funds; and

3 basis points (0.03%) of the average daily net assets of the Funds in excess of this amount.

Portfolio Managers

Each Fund is managed by Mellon Capital's Equity Index Strategies Portfolio management team. The individual members of the team responsible for the day-to-day management of the Funds' portfolios are described below. Denise Krisko is a Managing Director, Co-Head of the Equity Index Management and Head of East Coast Equity Index Strategies for Mellon Capital. She was also a Managing Director of The Bank of New York and Head of Equity Index Strategies for BNY Investment Advisors since August of 2005. Prior to joining The Bank of New York, from 2000 to 2004, Ms. Krisko held various senior investment positions with Deutsche Asset Management and Northern Trust, including quantitative strategies director, senior portfolio manager and trader. Ms. Krisko has over 15 years of investment experience. Steven Wetter is a Vice President, Senior Portfolio Manager of Equity Index Strategies. He obtained his M.B.A. from New York University, Stern School of Business. He joined The Bank of New York in 2007 as a Senior Portfolio Manager. Prior to joining The Bank of New York, he worked as portfolio manager and trader at Bankers Trust and continued in that role as the division was sold to Deutsche Bank in 1999 and then to Northern Trust in 2003. Mr. Wetter has 20 years of investment experience.

WisdomTree Prospectus 13

Table of Contents

Ms. Krisko manages the team. Each Portfolio Manager has served as manager of each Fund since its inception. The Trust's SAI provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers, and the Portfolio Managers' ownership of shares in the Funds for which they are Portfolio Managers.

Portfolio Holdings Information

Information about each Fund's daily portfolio holdings is available at www.wisdomtree.com. In addition, each Fund discloses its complete portfolio holdings as of the end of its fiscal year (March 31) and its second fiscal quarter (September 30) in its reports to shareholders. Each Fund files its complete portfolio holdings as of the end of its first and third fiscal quarters (June 30 and December 31, respectively) with the SEC on Form N-Q no later than 60 days after the relevant fiscal period. You can find the SEC filings on the SEC's website, www.sec.gov. A summarized description of the Funds' policies and procedures with respect to the disclosure of each Fund's portfolio holdings is available in the Trust's Statement of Additional Information (SAI).

WisdomTree Prospectus 14

Table of Contents

Buying and Selling Shares

Most investors will buy and sell shares of the Funds through brokers. Shares of the Funds trade on national securities exchanges and elsewhere during the trading day and can be bought and sold throughout the trading day like other shares of publicly-traded securities. When buying or selling shares through a broker, most investors will incur customary brokerage commissions and charges.

Shares of the Funds may be acquired or redeemed directly from a Fund only in Creation Units or multiples thereof, as discussed in the Creation and Redemption section. Once created, shares of the Funds trade in the secondary market in amounts less than a Creation Unit.

Share Trading Prices

As with other types of securities, the trading prices of shares in the secondary market can be affected by market forces such as supply and demand, economic conditions and other factors. The price you pay or receive when you buy or sell your shares in the secondary market may be more or less than the NAV of such shares.

The approximate value of shares of each Fund is disseminated every fifteen seconds throughout the trading day by the national securities exchange on which such Fund is listed or by other information providers. This approximate value should not be viewed as a real-time update of the NAV, because the approximate value may not be calculated in the same manner as the NAV, which is computed once per day. The approximate value generally is determined by using current market quotations and/or price quotations obtained from broker-dealers that may trade in the portfolio securities held by the Funds. The Funds are not involved in, or responsible for, the calculation or dissemination of the approximate value and make no warranty as to its accuracy.

Determination of Net Asset Value

The NAV of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding.

Stocks held by a Fund are valued at their market value when reliable market quotations are readily available. Certain short-term debt instruments, which may be used to manage a Fund's cash, are valued on the basis of amortized cost. The values of any foreign securities held by a Fund are converted into U.S. dollars using an exchange rate deemed appropriate by the Fund.

When reliable market quotations are not readily available, securities are priced at their fair value, which is the price a security's owner might reasonably expect to receive upon its sale. A Fund may also use fair-value pricing if the value of a security it holds has been materially affected by events occurring before the Fund's pricing time but after the close of the primary markets or exchanges on which the security is traded. For example, this may occur with foreign securities, which may trade on foreign exchanges that close many hours before the Fund's pricing time.

WisdomTree Prospectus 15

Table of Contents

Intervening events might be company-specific (e.g., earnings report, merger announcement), country-specific (e.g., natural disaster, economic or political news, act of terrorism, interest rate change), or global. Intervening events may include price movements in U.S. markets that are deemed to affect the value of foreign securities. Fair-value pricing also may be used if, for example, trading in a security is halted and does not resume before the Fund's pricing time or if a security does not trade in the course of a day.

Fair-value prices are determined by the Funds according to procedures adopted by the Board of Trustees. When fair-value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from a Fund in Creation Units. Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV.

Dividends and Distributions

Each Fund pays out dividends, if any, to investors at least annually. Each Fund distributes its net realized capital gains, if any, to investors annually. The Funds may occasionally be required to make supplemental distributions at some other time during the year. Distributions in cash may be reinvested automatically in additional whole shares only if the broker through whom you purchased shares makes such option available. Your broker is responsible for distributing the income and capital gain distributions to you.

Book Entry

Shares of the Funds are held in book-entry form, which means that no stock certificates are issued. The Depository Trust Company (DTC) or its nominee is the record owner of all outstanding shares of each Fund.

Investors owning shares of the Funds are beneficial owners as shown on the records of DTC or its participants. DTC serves as the securities depository for all shares of the Funds. Participants include DTC, securities brokers and dealers, banks, trust companies, clearing corporations, and other institutions that directly or indirectly maintain a custodial relationship with DTC. As a beneficial owner of shares, you are not entitled to receive physical delivery of stock certificates or to have shares registered in your name, and you are not considered a registered owner of shares. Therefore, to exercise any right as an owner of shares, you must rely upon the procedures of DTC and its participants. These procedures are the same as those that apply to any securities that you hold in book entry or street name form. Your broker will provide you with account statements, confirmations of your purchases and sales, and tax information.

Delivery of Shareholder Documents-Householding

Householding is an option available to certain investors of the Funds. Householding is a method of delivery, based on the preference of the individual investor, in which a single copy of certain shareholder documents can be delivered to investors who share the same address, even if their accounts are registered under different names. Householding for the Funds is available through certain broker-dealers. If you are interested in enrolling in householding and receiving a single

Table of Contents

copy of prospectuses and other shareholder documents, please contact your broker-dealer. If you are currently enrolled in householding and wish to change your householding status, please contact your broker-dealer.

Frequent Purchases and Redemptions of Fund Shares

The Funds have adopted policies and procedures with respect to frequent purchases and redemptions of Creation Units of Fund shares. Since the Funds are ETFs, only a few institutional investors (known as Authorized Participants) are authorized to purchase and redeem shares directly with the Funds. Because purchase and redemption transactions with Authorized Participants are an essential part of the ETF process and help keep ETF trading prices in line with NAV, each Fund accommodates frequent purchases and redemptions by Authorized Participants. Frequent purchases and redemptions for cash may increase index tracking error and portfolio transaction costs and may lead to realization of capital gains. Frequent in-kind creations and redemptions do not give rise to these concerns. Each Fund reserves the right to reject any purchase order at any time. Each Fund reserves the right to impose restrictions on disruptive, excessive, or short-term trading and may reject purchase or redemption orders in such instances.

Investments by Registered Investment Companies

Section 12(d)(1) of the Investment Company Act of 1940 restricts investments by registered investment companies in the securities of other investment companies, including shares of each Fund. Registered investment companies are permitted to invest in the Funds beyond the limits set forth in section 12(d)(1), subject to certain terms and conditions set forth in an SEC exemptive order issued to the WisdomTree Trust, including that such investment companies enter into an agreement with the Funds.

Taxes

The following discussion is a summary of some important U.S. federal income tax considerations generally applicable to investments in the Funds. Your investment in a Fund may have other tax implications. Please consult your tax advisor about the tax consequences of an investment in Fund shares, including the possible application of foreign, state, and local tax laws.

WisdomTree Prospectus 17

Table of Contents

Each Fund intends to qualify each year as a regulated investment company (RIC). A RIC is not subject to tax at the fund level on income and gains from investments that are distributed to shareholders. A Fund's failure to qualify as a RIC would result in Fund-level taxation, and consequently a reduction in income available for distribution to shareholders. Unless your investment in shares is made through a tax-exempt entity or tax-deferred retirement account, such as an individual retirement account, you need to be aware of the possible tax consequences when:

A Fund makes distributions;

You sell shares; and

You purchase or redeem Creation Units (institutional investors only).

Taxes on Distributions

For federal income tax purposes, distributions of investment income are generally taxable as ordinary income. Taxes on distributions of capital gains are determined by how long a Fund owned the investments that generated them, rather than how long you have owned your Fund shares. Distributions of net capital gains (the excess of net long-term capital gains from the sale of investments that a Fund owned for more than one year over net short-term capital losses) that are properly designated as capital gain dividends (Capital Gain Dividends) will be taxable as long-term capital gains. Long-term capital gain rates have been temporarily reduced in general, to 15%, with lower rates applying to taxpayers in the 10% and 15% rate brackets for taxable years beginning before January 1, 2011. Distributions of gains from the sale of investments that a Fund owned for one year or less will be taxable as ordinary income. For the taxable years beginning before January 1, 2011, distributions of investment income designated by a Fund as derived from qualified dividend income are taxed to individuals at rates applicable to long-term capital gains, provided holding period and other requirements are met at both the shareholder and the Fund level.

In general, your distributions are subject to federal income tax for the year in which they are paid. Certain distributions paid in January, however, may be treated as paid on December 31 of the prior year. Distributions are taxable even if they are paid from income or gains earned by a Fund before your investment (and thus were included in the price you paid for your shares).

Dividends, interest, and gains received by a Fund with respect to foreign securities may be subject to withholding and other taxes imposed by foreign countries. Tax conventions between certain countries and the United States may in some cases reduce or eliminate such taxes. Because more than 50% of the total assets of each Fund are expected to consist of foreign stocks or securities, the Funds may elect to pass through to you certain foreign income taxes (including withholding taxes) paid by the Funds. In such a case, you would be considered to have received as an additional dividend your share of such foreign taxes, but you could be entitled, subject to certain limitations, to either a corresponding tax deduction or a credit in calculating your federal income tax.

WisdomTree Prospectus 18

Table of Contents

If you are neither a resident nor a citizen of the United States or if you are a foreign entity, dividends (other than Capital Gain Dividends) paid to you by the Funds will generally be subject to a 30% U.S. withholding tax, unless a lower treaty rate applies. Foreign persons should consult the SAI for further information.

The Funds (or financial intermediaries, such as brokers, through which a shareholder owns Fund shares) generally are required to withhold and remit to the U.S. Treasury a percentage of the taxable distributions and sale or redemption proceeds paid to any shareholder who fails to properly furnish a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify that he, she or it is not subject to such withholding.

Taxes When Fund Shares are Sold

Any capital gain or loss realized upon a sale of Fund shares is generally treated as a long-term gain or loss if the shares have been held for more than one year. Any capital gain or loss realized upon a sale of Fund shares held for one year or less is generally treated as a short-term gain or loss, except that any capital loss on a sale of shares held for six months or less is treated as long-term capital loss to the extent that capital gain dividends were paid with respect to such shares. The ability to deduct capital losses may be limited.

Taxes on Creation and Redemption of Creation Units

An Authorized Participant who exchanges securities for Creation Units generally will recognize a gain or a loss equal to the difference between the market value of the Creation Units at the time of the exchange and the sum of the exchanger's aggregate basis in the securities surrendered and the cash component paid. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate market value of the securities and the amount of cash received for such Creation Units. The Internal Revenue Service, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules governing wash sales, or on the basis that there has been no significant change in economic position. Persons exchanging securities for Creation units should consult their own tax advisors with respect to whether the wash sale rules apply and when a loss might be deductible.

Any capital gain or loss realized upon a redemption (or creation) of Creation Units is generally treated as long-term capital gain or loss if the Fund shares (or securities surrendered) have been held for more than one year and as short-term capital gain or loss if the shares have been held for one year or less.

If you purchase or redeem Creation Units, you will be sent a confirmation statement showing how many shares you purchased or sold and at what price. Persons purchasing or redeeming Creation Units should consult their own tax advisors with respect to the tax treatment of any creation or redemption transaction.

Creation and Redemption

The shares that trade in the secondary market are created at NAV. Each Fund issues and redeems shares at NAV only in large blocks of shares, typically 100,000 shares or more (Creation Units). Only institutional investors who have entered into an authorized participant agreement purchase or redeem Creation Units. Creation Units generally are issued and redeemed in exchange for a specified basket of securities approximating the holdings of a Fund and a designated amount of cash. Each business day prior to the opening of trading each Fund publishes the specific securities and designated amount of cash included in that day's basket for the Fund through the National Securities Clearing Corporation (NSCC) or other method of public dissemination. Each Fund reserves the right to accept or pay out a basket of securities or cash that differs from the published basket. The prices at which creations and redemptions occur are based on the next calculation of NAV after an order is received in proper form.

Table of Contents

Creations and redemptions must be made by an Authorized Participant or through a firm that is either a member of the Continuous Net Settlement System of the NSCC or a DTC participant, and in each case, must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Unit aggregations. Information about the procedures regarding creation and redemption of Creation Units is included in the Trust's SAI.

Authorized Participants and the Continuous Offering of Shares

Because new shares may be created and issued on an ongoing basis, at any point during the life of a Fund, a distribution, as such term is used in the Securities Act of 1933 (Securities Act), may be occurring. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner that could render them statutory underwriters and subject to the prospectus-delivery and liability provisions of the Securities Act. Nonetheless, any determination of whether one is an underwriter must take into account all the relevant facts and circumstances of each particular case.

Broker-dealers should also note that dealers who are not underwriters, but are participating in a distribution (as contrasted to ordinary secondary transactions), and thus dealing with shares that are part of an unsold allotment within the meaning of Section 4(3)(C) of the Securities Act, would be unable to take advantage of the prospectus delivery exemption provided by Section 4(3) of the Securities Act. For delivery of prospectuses to exchange members, the prospectus delivery mechanism of Rule 153 under the Securities Act is only available with respect to transactions on a national securities exchange.

WisdomTree Prospectus 20

Table of Contents

Creation and Redemption Transaction Fees for Creation Units

Each Fund may impose a creation transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units of shares. The standard creation and redemption transaction fees are listed below. The standard creation and redemption transaction fee is on a per creation unit basis. Purchasers and redeemers of Creation Units for cash (when cash creations and redemptions are permitted) will also be subject to an additional charge shown below under Maximum Creation/Redemption Transaction Fee to offset the transaction cost to the Fund of buying portfolio securities. In addition, purchasers and redeemers of shares in Creation Units are responsible for payment of the costs of transferring securities to or out of a Fund. From time to time, WisdomTree Asset Management may cover the cost of any transaction fees.

The following table also shows, as of March 1, 2009, the approximate value of one Creation Unit per Fund, including the standard creation and redemption transaction fee. These fees are payable only by investors who purchase shares directly from a Fund. Retail investors who purchase shares through their brokerage account will not pay these fees.

Name of Fund	Approximate Value of One Creation Unit	Standard Creation/Redemption Transaction Fee	Maximum Creation/Redemption Transaction Fee
WisdomTree DEFA Hedged Fund	\$ 5,000,000	\$ 13,000	\$ 52,000
WisdomTree Emerging Markets Hedged Fund Distribution	\$ 5,000,000	\$ 7,000	\$ 21,000

ALPS Distributors, Inc. (the Distributor) serves as the distributor of Creation Units for each Fund on an agency basis. The Distributor does not maintain a secondary market in shares of the Funds. The Distributor's principal address is 1290 Broadway, Suite 1100, Denver, Colorado 80203.

The Distributor has no role in determining the policies of any Fund or the securities that are purchased or sold by any Fund.

Additional Notices

Shares of the Trust are not sponsored, endorsed, or promoted by any listing exchange (Exchange). The Exchange makes no representation or warranty, express or implied, to the owners of the shares of any Fund or any member of the public regarding the ability of a fund to track the total return performance of any Index or the ability of any Index identified herein to track stock market performance. The Exchange is not responsible for, nor has it participated in, the determination of the compilation or the calculation of any Index, nor in the determination of the timing of, prices of, or quantities of the shares of any Fund to be issued, nor in the determination or calculation of the equation by which the shares are redeemable. The Exchange has no obligation or liability to owners of the shares of any Fund in connection with the administration, marketing, or trading of the shares of the Fund.

The Exchange does not guarantee the accuracy and/or the completeness of any Index or any data included therein. The Exchange makes no warranty, express or implied, as to results to be obtained by the WisdomTree Trust on behalf of its Funds, owners of the shares, or any other person or entity from the use of the subject Indexes or any data included therein. The Exchange makes no express or implied warranties, and hereby expressly disclaims all warranties of merchantability or fitness for a particular purpose with respect to any Index or any data included therein. Without limiting any of the foregoing, in no event shall the Exchange have any liability for any lost profits or indirect, punitive, special, or consequential damages even if notified of the possibility thereof.

WisdomTree Investments, WisdomTree Asset Management and the Funds make no representation or warranty, express or implied, to the owners of shares of the Funds or any member of the public regarding the advisability of investing in securities generally or in the Funds particularly or the ability of the Indexes to track general stock market performance. WisdomTree Investments is the licensor of certain trademarks, service marks and trade names of the Funds. WisdomTree Investments has no obligation to take the needs of the Funds or the owners of shares of the Funds into consideration in determining, composing, or calculating the Indexes. WisdomTree Investments is not responsible for, and has not participated in, the determination of the timing of, prices at, or quantities of shares of the Funds to be issued or in the determination or calculation of the equation by which the shares of the Funds are redeemable.

The Funds, WisdomTree Investments and WisdomTree Asset Management do not guarantee the accuracy, completeness, or performance of any Index or the data included therein and shall have no liability in connection with any Index or Index calculation. WisdomTree Investments has contracted with Standard & Poor's (S&P) to maintain and calculate each Index. S&P shall have no liability for any errors or omissions in calculating any Index.

Financial Highlights

Financial Statements and Annual Reports will be available after the Funds have completed a fiscal year of operations.

GENERAL DESCRIPTION OF THE TRUST AND THE FUNDS

The Trust was organized as a Delaware statutory trust on December 15, 2005 and is authorized to have multiple series or portfolios. The Trust is an open-end, non-diversified management investment company, registered under the Investment Company Act of 1940, as amended (the "1940 Act"). The offering of the Trust's shares is registered under the Securities Act of 1933, as amended (the "Securities Act"). This SAI relates to the following Funds:

WisdomTree DEFA Hedged Fund

WisdomTree Emerging Markets Hedged Fund

Table of Contents

Each Fund described in this SAI seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index). The Indexes are created using proprietary methodology developed by WisdomTree Investments, Inc. (WisdomTree Investments). WisdomTree Asset Management, Inc. (WisdomTree Asset Management) is the investment adviser to each Fund. Mellon Capital Management Corporation (Mellon Capital) is the investment sub-adviser (Sub-Adviser) to each Fund. WisdomTree Investments is the parent company of WisdomTree Asset Management.

Each Fund issues and redeems shares at net asset value per share (NAV) only in large blocks of shares, typically 100,000 shares or more (Creation Units). These transactions are usually in exchange for a basket of securities and an amount of cash. As a practical matter, only institutions or large investors purchase or redeem Creation Units. Except when aggregated in Creation Units, shares of each Fund are not redeemable securities.

Shares of each Fund are listed on a national securities exchange, such as the NYSE Arca or the Nasdaq Stock Market (Nasdaq) (each, a Listing Exchange), and trade throughout the day on the Listing Exchange and other secondary markets at market prices that may differ from NAV. As in the case of other publicly-traded securities, brokers' commissions on transactions will be based on negotiated commission rates at customary levels.

The Trust reserves the right to adjust the share prices of shares in the future to maintain convenient trading ranges for investors. Any adjustments would be accomplished through stock splits or reverse stock splits, which would have no effect on the net assets of the applicable Fund.

WisdomTree , is a registered mark of WisdomTree Investments and have been licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

INVESTMENT STRATEGIES AND RISKS

PRINCIPAL INVESTMENT STRATEGY. Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular Index developed by WisdomTree Investments. The Funds do not try to beat the Indexes that they track and do not seek temporary defensive positions when equity markets decline or appear to be overvalued.

This investment strategy, known as indexing, may eliminate some of the risks of active portfolio management, such as poor security selection. In addition, indexing may also help increase after-tax investment performance by keeping portfolio turnover low in comparison to actively managed investment companies.

As a matter of general policy, each Fund will invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in the types of investments suggested by its name (i.e., the securities of its underlying index). If, subsequent to an investment, the 80% requirement is no longer met, a Fund's future investments will be made in a manner that will bring the Fund into compliance with this policy. The Trust will provide shareholders with sixty (60) days prior notice of any change to this policy for a Fund.

Table of Contents

GENERAL RISKS. An investment in a Fund should be made with an understanding that the value of a Fund's portfolio securities may fluctuate in accordance with changes in the financial condition of an issuer or counterparty, changes in specific economic or political conditions that affect a particular security or issuer and changes in general economic or political conditions.

An investment in a Fund should also be made with an understanding of the risks inherent in an investment in equity securities, including the risk that the financial condition of issuers may become impaired or that the general condition of the stock market may deteriorate (either of which may cause a decrease in the value of the portfolio securities and thus in the value of shares of the Trust). Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence and perceptions of their issuers change. These investor perceptions are based on various and unpredictable factors, including expectations regarding government, economic, monetary and fiscal policies, inflation and interest rates, economic expansion or contraction, and global or regional political, economic or banking crises.

Holders of common stocks incur more risk than holders of preferred stocks and debt obligations because common stockholders, as owners of the issuer generally have inferior rights to receive payments from the issuer in comparison with the rights of creditors, or holders of debt obligations or preferred stocks. Further, unlike debt securities, which typically have a stated principal amount payable at maturity (whose value, however, is subject to market fluctuations prior thereto), or preferred stocks, which typically have a liquidation preference and which may have stated optional or mandatory redemption provisions, common stocks have neither a fixed principal amount nor a maturity. Common stock values are subject to market fluctuations as long as the common stock remains outstanding.

There can be no guarantees that a liquid market for the securities and instruments held by the Funds will be maintained. The existence of a liquid trading market for certain securities and instruments may depend on whether dealers will make a market in such securities and instruments. There can be no assurance that a market will be made or maintained or that any such market will be or remain liquid. The price at which securities may be sold and the value of a Fund's shares will be adversely affected if trading markets for a Fund's portfolio securities are limited or absent, or if bid/ask spreads are wide.

Each Fund intends to invest in foreign currency transactions in order to minimize the impact of changes in the value of non-U.S. currencies included in its underlying Index against the U.S. dollar. Foreign currency transactions involve a significant degree of risk and the markets in which foreign exchange transactions are effected are highly volatile, highly specialized and highly technical. Significant changes, including changes in liquidity and prices, can occur in such markets within very short periods of time, often within minutes. Foreign exchange trading risks include, but are not limited to, exchange rate risk, maturity gap, interest rate risk, and potential interference by foreign governments through regulation of local exchange markets, foreign investment or particular transactions in foreign currency. If a Fund utilizes foreign exchange transactions at an inappropriate time, such transactions may not serve their intended purpose of improving the correlation of a Fund's return with the performance of its underlying Index. A Fund could experience losses if the value of any currency forwards, options and futures positions is poorly correlated with its other investments or if it could not close out its positions because of an illiquid market. In addition, each Fund will incur transaction costs, including trading commissions, in connection with certain foreign currency transactions.

A discussion of some of the other risks associated with an investment in a Fund is contained in each Fund's Prospectus.

LACK OF DIVERSIFICATION. Each Fund is considered to be non-diversified. A non-diversified classification means that a Fund is not limited by the 1940 Act with regard to the percentage of its assets that may be invested in the securities of a single issuer. As a result, each of the Funds may invest more of its assets in the securities of a single issuer or a smaller number of issuers than if it were classified as a diversified fund. Therefore, each Fund may be more exposed to the risks associated with and developments affecting an individual issuer or a small number of issuers than a fund that invests more widely, which may have a greater impact on the Fund's volatility and performance.

Each Fund does, however, intend to maintain the level of diversification necessary to qualify as a regulated investment company (RIC) under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). The Subchapter M diversification tests generally require that (i) a Fund invest no more than 25% of its total assets in securities (other than securities of the U.S. government or other RICs) of any one issuer or two or more issuers that are controlled by a Fund and that are engaged in the same, similar or related trades or businesses, and (ii) at least 50% of a Fund's total assets consist of cash and cash items, U.S. government securities, securities of other RICs and other securities, with investments in such other securities limited in respect of any one issuer to an amount not greater than 5% of the value of a Fund's total assets and 10% of the outstanding voting securities of such issuer. These tax requirements are generally applied at the end of each quarter of a Fund's taxable year.

Table of Contents

SPECIFIC INVESTMENT STRATEGIES. A description of certain investment strategies and types of investments used by some or all of the Funds is set forth below.

SECURITIES LENDING. Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. Loans of portfolio securities provide the Funds with the opportunity to earn additional income on the Funds' portfolio securities. All securities loans will be made pursuant to agreements requiring the loans to be continuously secured by collateral in cash or high grade debt obligations at least equal at all times to the market value of the loaned securities. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities involves risks of delay in recovery of the loaned securities or in some cases loss of rights in the collateral should the borrower fail financially. Furthermore, because of the risks of delay in recovery, the Fund may lose the opportunity to sell the securities at a desirable price. A Fund will generally not have the right to vote securities while they are being loaned.

MONEY MARKET INSTRUMENTS. Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include: (i) short-term obligations issued by the U.S. Government; (ii) negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions; (iii) commercial paper rated at the date of purchase Prime-1 by Moody's or A-1+ or A-1 by S&P or, if unrated, of comparable quality as determined by the Fund; and (iv) repurchase agreements. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

REPURCHASE AGREEMENTS. Each Fund may enter into repurchase agreements with counterparties that are deemed to present acceptable credit risks. A repurchase agreement is a transaction in which a Fund purchases securities or other obligations from a bank or securities dealer (or its affiliate) and simultaneously commits to resell them to a counterparty at an agreed-upon date or upon demand and at a price reflecting a market rate of interest unrelated to the coupon rate or maturity of the purchased obligations. A Fund maintains custody of the underlying obligations prior to their repurchase, either through its regular custodian or through a special triparty custodian or sub-custodian that maintains separate accounts for both the Fund and its counterparty. Thus, the obligation of the counterparty to pay the repurchase price on the date agreed to or upon demand is, in effect, secured by such obligations.

Repurchase agreements carry certain risks not associated with direct investments in securities, including a possible decline in the market value of the underlying obligations. If their value becomes less than the repurchase price, plus any agreed upon additional amount, the counterparty must provide additional collateral so that at all times the collateral is at least equal to the repurchase price plus any agreed upon additional amount. The difference between the total amount to be received upon repurchase of the obligations and the price that was paid by a Fund upon acquisition is accrued as interest and included in its net investment income. Repurchase agreements involving obligations other than U.S. government securities (such as commercial paper and corporate bonds) may be subject to special risks and may not have the benefit of certain protections in the event of the counterparty's insolvency. If the seller or guarantor becomes insolvent, the Fund may suffer delays, costs and possible losses in connection with the disposition of collateral.

REVERSE REPURCHASE AGREEMENTS. Each Fund may enter into reverse repurchase agreements, which involve the sale of securities held by a Fund subject to its agreement to repurchase the securities at an agreed upon date or upon demand and at a price reflecting a market rate of interest. Reverse repurchase agreements are subject to each Fund's limitation on borrowings and may be entered into only with banks or securities dealers or their affiliates. While a reverse repurchase agreement is outstanding, a Fund will maintain the segregation, either on its records or with the Trust's custodian, of cash or other liquid securities, marked to market daily, in an amount at least equal to its obligations under the reverse repurchase agreement.

Reverse repurchase agreements involve the risk that the buyer of the securities sold by a Fund might be unable to deliver them when that Fund seeks to repurchase. If the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the buyer or trustee or receiver may receive an extension of time to

Table of Contents

determine whether to enforce a Fund's obligation to repurchase the securities, and the Fund's use of the proceeds of the reverse repurchase agreement may effectively be restricted pending such decision.

INVESTMENT COMPANY SECURITIES. Each Fund may invest in the securities of other investment companies (including money market funds). The 1940 Act generally prohibits a fund from acquiring more than 3% of the outstanding voting shares of an investment company and limits such investments to no more than 5% of the fund's total assets in any single investment company and no more than 10% in any combination of two or more investment companies. All Funds may invest in the securities of open-end funds (including money market funds) as permitted under the 1940 Act. Each Fund may purchase shares of affiliated exchange traded funds in secondary market transactions.

REAL ESTATE INVESTMENT TRUSTS. Each Fund may invest in the securities of real estate investment trusts (REITs) to the extent allowed by law. Risks associated with investments in securities of REITs include: decline in the value of real estate; risks related to general and local economic conditions; overbuilding and increased competition; increases in property taxes and operating expenses; changes in zoning laws; casualty or condemnation losses; variations in rental income; changes in neighborhood values; the appeal of properties to tenants; and increases in interest rates. In addition, equity REITs may be affected by changes in the values of the underlying property owned by the trusts, while mortgage REITs may be affected by the quality of credit extended. REITs are dependent upon management skills, may not be diversified and are subject to the risks of financing projects. REITs are also subject to heavy cash flow dependency, defaults by borrowers, self liquidation and the possibility of failing to qualify for tax-free pass-through of income and net gains under the Code, and to maintain exemption from the 1940 Act. If an issuer of debt securities collateralized by real estate defaults, it is conceivable that the REITs could end up holding the underlying real estate.

NON-U.S. SECURITIES. Each Fund invests a significant portion of its assets in non-U.S. equity securities.

Non-U.S. stock markets may not be as developed or efficient as, and may be more volatile than, those in the U.S. While the volume of shares traded on non-U.S. stock markets generally has been growing, such markets usually have substantially less volume than U.S. markets. Therefore, a Fund's investment in non-U.S. equity securities may be less liquid and subject to more rapid and erratic price movements than comparable securities listed for trading on U.S. exchanges. Non-U.S. equity securities may trade at price/earnings multiples higher than comparable U.S. securities and such levels may not be sustainable. There may be less government supervision and regulation of foreign stock exchanges, brokers, banks and listed companies abroad than in the U.S. Moreover, settlement practices for transactions in foreign markets may differ from those in U.S. markets. Such differences may include delays beyond periods customary in the U.S. and practices, such as delivery of securities prior to receipt of payment, which increase the likelihood of a failed settlement, which can result in losses to a Fund. The value of non-U.S. investments and the investment income derived from them may also be affected unfavorably by changes in currency exchange control regulations.

Table of Contents

Foreign brokerage commissions, custodial expenses and other fees are also generally higher than for securities traded in the U.S. This may cause the Funds to incur higher portfolio transaction costs than domestic equity funds.

Fluctuations in exchange rates may also affect the earning power and asset value of the foreign entity issuing a security, even one denominated in U.S. dollars. Dividend and interest payments may be repatriated based on the exchange rate at the time of disbursement, and restrictions on capital flows may be imposed.

INVESTMENTS IN EMERGING MARKETS. The Emerging Markets Hedged Fund invests substantially all of its assets in markets that are considered to be emerging. Investing in securities listed and traded in emerging markets may be subject to additional risks associated with emerging market economies. Such risks may include: (i) greater market volatility, (ii) lower trading volume, (iii) greater social, political and economic uncertainty, (iv) governmental controls on foreign investments and limitations on repatriation of invested capital, (v) the risk that companies may be held to lower disclosure, corporate governance, auditing and financial reporting standards than companies in more developed markets, and (vi) the risk that there may be less protection of property rights than in other countries. Emerging markets are generally less liquid and less efficient than developed securities markets.

Set forth below for certain markets in which the Funds may invest are brief descriptions of some of the conditions and risks in each such market.

Table of Contents

INVESTMENTS IN AUSTRALIA. The DEFA Hedged Fund generally invests a relatively large percentage of its assets in companies organized in Australia. The economy of Australia is heavily dependent on the demand for natural resources and agricultural products. Conditions that weaken demand for such products worldwide could have a negative impact on the Australian economy as a whole. These and other factors could have a negative impact on Fund performance.

INVESTMENTS IN BRAZIL. The Emerging Markets Hedged Fund invests a portion of its assets in companies organized and listed in Brazil. Investing in securities of Brazilian companies involves certain considerations not typically associated with investing in securities of United States companies or the United States government, including (i) investment and repatriation controls, which could affect the Fund's ability to operate, and to qualify for the favorable tax treatment afforded to regulated investment companies for U.S. Federal income tax purposes, (ii) fluctuations in the rate of exchange between the Brazilian Real and the U.S. Dollar, (iii) the generally greater price volatility and lesser liquidity that characterize Brazilian securities markets, as compared with U.S. markets, (iv) the effect that a trade deficit could have on economic stability and the Brazilian government's economic policy, (v) high rates of inflation, (vi) governmental involvement in and influence on the private sector, (vii) Brazilian accounting, auditing and financial standards and requirements, which differ from those in the United States, and (viii) political and other considerations, including changes in applicable Brazilian tax laws. These and other factors could have a negative impact on Fund performance.

INVESTMENTS IN CHINA AND HONG KONG. The DEFA Hedged Fund invests a portion of its assets in securities listed and traded on the Hong Kong Stock Exchange. In addition to the aforementioned risks of investing in non-U.S. securities, investing in securities listed and traded in Hong Kong involves special considerations not typically associated with investing in countries with more democratic governments or more established economies or securities markets. Such risks may include:

(i) the risk of nationalization or expropriation of assets or confiscatory taxation; (ii) greater social, economic and political uncertainty (including the risk of war); (iii) dependency on exports and the corresponding importance of international trade; (iv) the increasing competition from Asia's other low-cost emerging economies; (v) currency exchange rate fluctuations and the lack of available currency hedging instruments; (vi) higher rates of inflation; (vii) controls on foreign investment and limitations on repatriation of invested capital and on the Fund's ability to

Table of Contents

exchange local currencies for U.S. dollars; (viii) greater governmental involvement in and control over the economy; (ix) the risk that the Chinese government may decide not to continue to support the economic reform programs implemented since 1978 and could return to the prior, completely centrally planned, economy; (x) the fact that China companies, particularly those located in China, may be smaller, less seasoned and newly-organized companies; (xi) the difference in, or lack of, auditing and financial reporting standards which may result in unavailability of material information about issuers, particularly in China; (xii) the fact that statistical information regarding the economy of China may be inaccurate or not comparable to statistical information regarding the U.S. or other economies; (xiii) the less extensive, and still developing, regulation of the securities markets, business entities and commercial transactions; (xiv) the fact that the settlement period of securities transactions in foreign markets may be longer; (xv) the willingness and ability of the Chinese government to support the Chinese and Hong Kong economies and markets is uncertain; (xvi) the risk that it may be more difficult, or impossible, to obtain and/or enforce a judgment than in other countries; (xvii) the rapidity and erratic nature of growth, particularly in China, resulting in inefficiencies and dislocations; (xviii) the risk that, because of the degree of interconnectivity between the economies and financial markets of China and Hong Kong, any sizable reduction in the demand for goods from China, or an economic downturn in China, could negatively affect the economy and financial market of Hong Kong, as well; and (ixx) the risk that certain companies in the Fund's Index may have dealings with countries subject to sanctions or embargoes imposed by the U.S. government or identified as state sponsors of terrorism.

Investments in Hong Kong are also subject to certain political risks. Following the establishment of the People's Republic of China by the Communist Party in 1949, the Chinese government renounced various debt obligations incurred by China's predecessor governments, which obligations remain in default, and expropriated assets without compensation. There can be no assurance that the Chinese government will not take similar action in the future. An investment in the Fund involves risk of a total loss. China has committed by treaty to preserve Hong Kong's autonomy and its economic, political and social freedoms for fifty years from the July 1, 1997 transfer of sovereignty from Great Britain to China. However, if China would exert its authority so as to alter the economic, political or legal structures or the existing social policy of Hong Kong, investor and business confidence in Hong Kong could be negatively affected, which in turn could negatively affect markets and business performance. These and other factors could have a negative impact on Fund performance.

INVESTMENTS IN INDIA. The Emerging Markets Hedged Fund invests in securities listed and traded in India. Investments in India may be more volatile and less liquid and may offer higher potential for gains and losses than investments in more developed markets. Economic and political structures in India may lack the stability of more developed nations. Unanticipated political or social developments in India and surrounding regions may affect the value of a Fund's investments and the value of Fund shares. Although the government has recently begun to institute economic reform policies, there can be no assurance that they will continue to pursue such policies or, if they do, that such policies will succeed. Monsoons and other natural disasters in India and surrounding regions also can affect the value of Fund investments.

The laws relating to limited liability of corporate shareholders, fiduciary duties of officers and directors, and the bankruptcy of state enterprises are generally less well developed than or different from such laws in the United States. It may be more difficult to obtain a judgment in Indian courts than it is in the United States.

The market for securities in India may be less liquid and transparent than the markets in more developed countries. In addition, strict restrictions on foreign investment may decrease the liquidity of a Fund's portfolio or inhibit the Fund's ability to achieve its investment objective. The Fund may be unable to buy or sell securities or receive full value for such securities. Settlement of securities transactions in the Indian subcontinent are subject to risk of loss, may be delayed and are generally less efficient than in the United States. In addition, disruptions due to work stoppages and trading improprieties in these securities markets have caused such markets to close. If extended closings were to occur in stock markets where the Fund was heavily invested, a Fund's ability to redeem Fund shares could become correspondingly impaired. Each of these events could have a negative impact on the liquidity and value of the Fund's investments. To mitigate these risks, a Fund may maintain a higher cash position than it otherwise would, or a Fund may have to sell more liquid securities which it would not otherwise choose to sell, possibly diluting its return and inhibiting its ability to track its Index.

Table of Contents

In recent years, exchange-listed companies in the technology sector and related sectors (such as software) have grown so as to represent a significant portion of the total capitalization of the Indian market. The value of these companies will generally fluctuate in response to technological and regulatory developments. The stock markets in the region are undergoing a period of growth and change, which may result in trading or price volatility and difficulties in the settlement and recording of transactions, and in interpreting and applying the relevant laws and regulations. The securities industries in these countries are comparatively underdeveloped, and stockbrokers and other intermediaries may not perform as well as their counterparts in the United States and other more developed securities markets. In some cases, physical delivery of securities in small lots has been required in India and a shortage of vault capacity and trained personnel has existed among qualified custodial Indian banks. These and other factors could have a negative impact on Fund performance.

INVESTMENTS IN FRANCE. The DEFA Hedged Fund invests in France. France is a member of the European Economic and Monetary Union (EMU). EMU member countries share coordinated economic policies and a common currency. As a result, the economy of France may be significantly affected by changes in the economies of the EMU members or other European countries. These and other factors could have a negative impact on Fund performance.

INVESTMENTS IN GERMANY. The DEFA Hedged Fund invests in Germany. Germany is a member of the European Economic and Monetary Union (EMU). EMU member countries share coordinated economic policies and a common currency. As a result, the economy of Germany may be significantly affected by changes in the economies of the EMU members or other European countries. Challenges related to the rebuilding of infrastructure and unemployment in the former area of East Germany may also impact the economy of Germany. These and other factors could have a negative impact on Fund performance.

INVESTMENTS IN JAPAN. The DEFA Hedged Fund generally invests a relatively large percentage of its assets in companies organized in Japan. The Japanese economy is characterized by government intervention and protectionism, an unstable financial services sector, and relatively high unemployment. Economic growth is heavily dependent on international trade, government support and consistent government policy. Slowdowns in the economies of key trading partners such as the United States, China and countries in Southeast Asia could have a negative impact on the Japanese economy as a whole. These and other factors could have a negative impact on Fund performance.

Table of Contents

INVESTMENTS IN SINGAPORE. The DEFA Hedged Fund invests in Singapore. The economy of Singapore is heavily dependent on international trade and export. Conditions that weaken demand for such products worldwide or in the Asian region could have a negative and significant impact on the Singaporean economy as a whole. In addition, the economy of Singapore may be particularly vulnerable to external market changes because of its smaller size. These and other factors could have a negative impact on a Fund performance.

INVESTMENTS IN SOUTH AFRICA. The Emerging Markets Hedged Fund invests in companies organized and listed in South Africa. Although South Africa is a developing country with a solid economic infrastructure (in some regards rivaling other developed countries) certain issues, such as unemployment, access to healthcare, limited economic opportunity, and other financial constraints, continue to present obstacles towards full economic development. There can be no assurance that initiatives by the government to address these issues will achieve the desired results. South Africa's currency may be vulnerable to devaluation. These and other factors could have a negative impact on Fund performance.

INVESTMENTS IN SOUTH KOREA. The Emerging Markets Hedged Fund invests in companies organized and listed in South Korea. The economy of South Korea is heavily dependent on exports and the demand for certain finished goods. South Korea's main industries include electronics, automobile production, chemicals, shipbuilding, steel, textiles, clothing, footwear, and food processing. Conditions that weaken demand for such products worldwide or in other Asian countries could have a negative impact on the South Korean economy as a whole. Relations with North Korea could also have a significant impact on the economy of South Korea. These and other factors could have a negative impact on Fund performance.

INVESTMENTS IN TAIWAN. The Emerging Markets Hedged Fund invests in companies organized and listed in Taiwan. The economy of Taiwan is heavily dependent on exports. Currency fluctuations, increasing competition from Asia's other emerging economies, and conditions that weaken demand for Taiwan's export products worldwide could have a negative impact on the Taiwanese economy as a whole. Concerns over Taiwan's history of political contention and its current relationship with China may also have a significant impact on the economy of Taiwan. These and other factors could have a negative impact on Fund performance.

INVESTMENTS IN THE UNITED KINGDOM. The DEFA Hedged Fund invests in companies organized in the United Kingdom. The United Kingdom has one of the largest economies in Europe and trades heavily with other European countries. The economy of the United Kingdom may be impacted by changes to the economic health of other European countries. These and other factors could have a negative impact on Fund performance.

DEPOSITARY RECEIPTS. To the extent a Fund invests in stocks of foreign corporations, a Fund's investment in such stocks may also be in the form of Depositary Receipts or other securities convertible into securities of foreign issuers. Depositary Receipts may not necessarily be denominated in the same currency as the underlying securities into which they may be converted. American Depositary Receipts (ADRs) are receipts typically issued by an American bank or trust company that evidence ownership of underlying securities issued by a foreign corporation. European Depositary Receipts (EDRs) are receipts issued in Europe that evidence a similar ownership arrangement. Global Depositary Receipts (GDRs) are receipts issued throughout the world that evidence a similar arrangement. Generally, ADRs, in registered form, are designed for use in the U.S. securities markets, and EDRs, in bearer form, are designed for use in European securities markets. GDRs are tradable both in the United States and in Europe and are designed for use throughout the world. Depositary Receipts will not necessarily be denominated in the same currency as their underlying securities.

A Fund will not invest in any unlisted Depositary Receipts or any Depositary Receipt that WisdomTree Asset Management or the Sub-Adviser deems to be illiquid or for which pricing information is not readily available. In

Table of Contents

addition, all Depositary Receipts generally must be sponsored. However, a Fund may invest in unsponsored Depositary Receipts under certain limited circumstances. The issuers of unsponsored Depositary Receipts are not obligated to disclose material information in the United States, and, therefore, there may be less information available regarding such issuers and there may not be a correlation between such information and the market value of the Depositary Receipts. The use of Depositary Receipts may increase tracking error relative to an underlying index.

FOREIGN CURRENCY TRANSACTIONS. The Funds intend to enter into foreign currency forward and foreign currency futures contracts in order to track the performance of their respective Index, to facilitate local securities settlements and to protect against currency exposure. Each Fund may invest directly in foreign currencies in the form of bank and financial institution deposits, certificates of deposit, and bankers acceptances denominated in a specified non-U.S. currency. Each Fund may enter into foreign currency exchange transactions. Each Fund will conduct its foreign currency exchange transactions either on a spot (i.e., cash) basis at the spot rate prevailing in the foreign currency exchange market, or by entering into forward currency contracts to purchase or sell foreign currencies or forward currency swaps to exchange cash flows based on the notional difference among two or more currencies.

DERIVATIVES. Each Fund may use derivative instruments as part of its investment strategies. Generally, derivatives are financial contracts whose value depends upon, or is derived from, the value of an underlying asset, reference rate or index, and may relate to bonds, interest rates, currencies, commodities, and related indexes. Examples of derivative instruments include forward currency contracts, currency and interest rate swaps, currency options, futures contracts, options on futures contracts and swap agreements. A Fund's use of derivative instruments will be underpinned by investments in short term, high-quality U.S. money market securities.

With respect to certain kinds of derivative transactions entered into by the Funds that involve obligations to make future payments to third parties, including, but not limited to, futures, forward contracts, swap contracts, the purchase of securities on a when-issued or delayed delivery basis, or reverse repurchase agreements, under applicable federal securities laws, rules, and interpretations thereof, the Fund must set aside (referred to sometimes as asset segregation) liquid assets, or engage in other measures to cover open positions with respect to such transactions. For example, with respect to forward foreign currency exchange contracts and futures contracts that are not contractually required to cash-settle, the Fund must cover its open positions by setting aside liquid assets equal to the contracts' full, notional value, except that deliverable foreign currency exchange contracts for currencies that are liquid will be treated as the equivalent of cash-settled contracts. As such, the Fund may set aside liquid assets in an amount equal to the Fund's daily marked-to-market (net) obligation (i.e., the Fund's daily net liability if any) rather than the full notional amount under such deliverable forward foreign currency exchange contracts. With respect to forward foreign currency exchange contracts and futures contracts that are contractually required to cash-settle, the Fund may set aside liquid assets in an amount equal to the Fund's daily marked-to-market (net) obligation rather than the notional value. The Fund reserves the right to modify its asset segregation policies in the future.

FORWARD CURRENCY CONTRACTS. A forward currency contract involves a privately negotiated obligation to purchase or sell a specific currency at a future date (usually less than one year) at a price set at the time of the contract. These contracts are traded in the interbank market conducted directly between currency traders (usually large, commercial banks) and their customers. Each Fund may enter into forward currency contracts in order to hedge against currency fluctuations or lock in the exchange rate between the currency it will deliver and the currency it will receive for the duration of the contract. The settlement of the contracts may occur with the delivery of a specified amount of currency or a net cash settlement in a base currency equivalent to the market value of the contract. Each Fund may invest in a combination of forward currency contracts and U.S. dollar-denominated money market securities in an attempt to obtain an investment result that is similar to a direct investment in a foreign currency denominated instrument. This investment technique, if successful, creates a synthetic position in the particular foreign currency instrument the Fund is trying to duplicate.

NON-DELIVERABLE FORWARD CONTRACTS. A non-deliverable forward contract is a forward contract where there is no physical settlement of two currencies at maturity. Non-deliverable forward contracts are contracts between parties in which one party agrees to make periodic payments to the other party (the Counterparty) based on the change in market value or level of a specified currency. In return, the Counterparty agrees to make periodic payments to the first party based on the return of a different specified currency. Non-deliverable forward contracts will usually be done on a net basis, each Fund receiving or paying only the net amount of the two payments. The net amount of the excess, if any, of each Fund's obligations over its entitlements with respect to each non-deliverable forward contract is accrued on a daily basis and an amount of cash or highly liquid securities having an aggregate value at least equal to the accrued excess is maintained in an account at the Trust's custodian bank. The risk of loss with respect to non-deliverable forward contracts generally is limited to the net amount of payments that a Fund is contractually obligated to make or receive. Non-deliverable forward contracts are also subject to the risk that the counterparty will default on its obligations.

CURRENCY AND INTEREST RATE SWAPS. Each Fund may enter into swap agreements, including interest rate swaps and currency swaps. A typical interest rate swap involves the exchange of a floating interest rate payment for a fixed interest payment. A typical foreign currency swap involves the exchange of cash flows based on the notional difference among two or more currencies (e.g., the U.S. dollar and the Brazilian Real). Swap agreements may be used to hedge or achieve exposure to, for example, currencies, interest rates, and money market securities

Edgar Filing: WisdomTree Trust - Form 485BPOS

without actually purchasing such currencies or securities. Each Fund may use swap agreements to invest in a market without owning or taking physical custody of the underlying securities in circumstances in which direct investment is restricted for legal reasons or is otherwise impracticable. Swap agreements will tend to shift a Fund's investment exposure from one type of investment to another or from one payment stream to another. Depending on their structure, swap agreements may increase or decrease a Fund's exposure to long or short-term interest rates (in the United States or abroad), foreign currencies, corporate borrowing rates, or other factors, and may increase or decrease the overall volatility of a Fund's investments and its share price.

FOREIGN CURRENCY OPTIONS. Each Fund may buy or sell put and call options on foreign currencies either on exchanges or in the over-the-counter market in order to hedge against or gain exposure to foreign currencies. A put option on a foreign currency gives the purchaser of the option the right to sell a foreign currency at the exercise price until the option expires. A call option on a foreign currency gives the purchaser of the option the right to purchase the currency at the exercise price until the option expires.

FUTURES CONTRACTS AND OPTIONS ON FUTURES CONTRACTS. Each Fund may use futures contracts and related options: (i) to attempt to hedge or gain exposure to foreign currencies, and (ii) to attempt to hedge or gain exposure to a particular market, instrument or index.

A futures contract may generally be described as an agreement for the future sale by one party and the purchase by another of a specified security or instrument at a specified price and time. An option on a futures contract gives the purchaser the right, in exchange for payment of a premium, to assume a position in a futures contract at a specified exercise price during the term of the option. A put option gives the purchaser of the option the right to sell, and the writer of the option the obligation to buy, the underlying security or instrument at any time during the option period. A call option on a security gives the purchaser of the option the right to buy, and the writer of the option the obligation to sell, the underlying security or instrument at any time during the option period.

ILLIQUID SECURITIES. Each Fund may invest up to an aggregate amount of 15% of its net assets in illiquid securities. Illiquid securities include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets. The inability of a Fund to dispose of illiquid or not readily marketable investments readily or at a reasonable price could impair a Fund's ability to raise cash for redemptions or other purposes. The liquidity of securities purchased by a Fund which are eligible for resale pursuant to Rule 144A will be monitored by each Fund on an ongoing basis. In the event that such a security is deemed to be no longer liquid, a Fund's holdings will be reviewed to determine what action, if any, is required to ensure that the retention of such security does not result in a Fund having more than 15% of its assets invested in illiquid or not readily marketable securities.

Table of Contents

PARTICIPATION CERTIFICATES. Each Fund may invest in participation certificates (Participation Certificates) as a substitute for investing directly in equity securities. Participation Certificates are notes issued by banks or broker-dealers and are designed to provide returns corresponding with the performance of an underlying equity security or market. Participation Certificates are subject to the risk that the issuer of the note will default on its obligation, in which case the Fund could lose the entire value of its investment. The use of Participation Certificates can increase tracking error relative to the Index. A holder of a Participation Certificates that is linked to an underlying security may receive any dividends paid in connection with the underlying security. However, a holder of a Participation Certificates does not have voting rights, as the holder would if it owned the underlying security directly. Investing in Participation Certificates may subject the Funds to counterparty risk. In addition, there can be no assurance that the trading price of a Participation Certificates will be equal to the underlying value of the company or market that it seeks to replicate. The Fund will be relying on the creditworthiness of the counterparty issuing the Participation Certificates and would lose its investment if such counterparty became insolvent. The Fund will have no rights against the issuer of the underlying security. A

Table of Contents

Participation Certificates may also include transaction costs in addition to those applicable to a direct investment in securities. The markets on which the Participation Certificates are traded may be less liquid than the markets for other securities due to liquidity and transfer restrictions. The markets for Participation Certificates typically are over the counter and may be less transparent than the markets for listed securities. This may limit the availability of pricing information and may make it more difficult for the Fund to accurately value its investments in Participation Certificates. This may increase tracking error relative to the Index.

TRACKING STOCKS. A tracking stock is a separate class of common stock whose value is linked to a specific business unit or operating division within a larger company and which is designed to track the performance of such business unit or division. The tracking stock may pay dividends to shareholders independent of the parent company. The parent company, rather than the business unit or division, generally is the issuer of tracking stock. However, holders of the tracking stock may not have the same rights as holders of the company's common stock.

FUTURE DEVELOPMENTS. The Board may, in the future, authorize each Fund to invest in securities contracts and investments other than those listed in this SAI and in each Fund's Prospectus, provided they are consistent with the Fund's investment objective and do not violate any investment restrictions or policies.

PROXY VOTING POLICY

The Trust has adopted as its proxy voting policies for each Fund the proxy voting guidelines of the Sub-Adviser. The Trust has delegated to the Sub-Adviser the authority and responsibility for voting proxies on the portfolio securities held by each Fund. The remainder of this section discusses each Fund's proxy voting guidelines and the Sub-Adviser's role in implementing such guidelines.

The Sub-Adviser understands that proxy voting is an integral aspect of investment management. Accordingly, proxy voting must be conducted with the same degree of prudence and loyalty accorded any fiduciary or other obligation of an investment manager. The Sub-Adviser has designated a Proxy Committee with the responsibility for administering and overseeing the proxy voting process and procedures.

The Sub-Adviser or its designated Agent is currently performing certain proxy-related services pursuant to these procedures, including providing research and making voting determinations in accordance with the proxy voting guidelines, voting and submitting proxies and related administrative and recordkeeping functions. If the guidelines do not address how a proxy should be voted, the proxy will be voted in accordance with an independent third party's recommendations. The Sub-Adviser believes that this process is reasonably designed to address material conflicts of interest that may arise between the Sub-Adviser and a Fund as to how proxies are voted. If an investment professional (a portfolio manager, the Sub-Adviser's Chief Investment Officer or other investment professional) believes that it may be in the best interest of a Fund to vote in a manner inconsistent with the independent third party's recommendations, such investment professional must contact the Proxy Committee and complete a questionnaire to allow the Proxy Committee to review the recommendation and consider such other matters as it deems appropriate to determine that there is no material conflict of interest between the Sub-Adviser and the Fund with respect to the voting of the proxy in that manner. If the proxy guidelines do not address how a proxy should be voted and the independent third party refrains from making a recommendation as to how such proxy should be voted, the Proxy Committee will make a determination as to how the proxy should be voted. After making such a determination, the Proxy Committee will consider such matters as it deems appropriate to determine that there is no material conflict of interest between the Sub-Adviser and the Fund with respect to the voting of the proxy in that manner.

Although the proxy guidelines detail numerous specific instances and possible proposals, the guidelines provide that the Fund's will generally vote for management proposals on routine business; case by case on management proposals related to directors (though for routine matters and against classification of the Board); case by case on management proposals related to a company's capitalization, reorganizations or merger proposals, and non-salary compensation issues; against management proposals on anti-takeover related proposals; and against or case by case on most shareholder proposals, including social issues. A complete copy of the Proxy Policy may be obtained by writing to: Judy Manion at 500 Grant Street, Suite 2600, Pittsburgh, PA 15258.

Table of Contents

The Trust is required to disclose annually the Funds' complete proxy voting record on Form N-PX covering the period from July 1 of one year through June 30 of the next and to file N-PX with the SEC no later than August 31 of each year. The current Form N-PX for the Funds is available at no charge upon request by calling 866-909-9473 or through the Trust's website at www.wisdomtree.com. The Funds' Form N-PX is also available on the SEC's website at www.sec.gov.

PORTFOLIO HOLDING DISCLOSURE POLICIES AND PROCEDURES

The Trust has adopted a Portfolio Holdings Policy (the "Policy") designed to govern the disclosure of Fund portfolio holdings and the use of material non-public information about Fund holdings. The Policy applies to all officers, employees, and agents of the Funds, including the Adviser and any Sub-Adviser (together, the "Advisers"). The Policy is designed to ensure that the disclosure of information about each Fund's portfolio holdings is consistent with applicable legal requirements and otherwise in the best interest of each Fund.

As exchange traded funds, information about each Fund's portfolio holdings is made available on a daily basis in accordance with the provisions of any Order of the Securities and Exchange Commission ("SEC") applicable to the Funds, regulations of the Funds' Listing Exchange and other applicable SEC regulations, orders and no-action relief. Such information typically reflects all or a portion of a Fund's anticipated portfolio holdings as of the next Business Day. This information is used in connection with the Creation and Redemption process and is disseminated on a daily basis through the facilities of the Listing Exchange, the National Securities Clearing Corporation ("NSCC") and/or third party service providers.

Each Fund may disclose on the Funds' website at the start of each Business Day the identities and quantities of the securities and other assets held by each Fund that will form the basis of the Fund's calculation of its net asset value ("NAV") on that Business Day. The portfolio holdings so disclosed will be based on information as of the close of business on the prior Business Day and/or trades that have been completed prior to the opening of business on that Business Day and that are expected to settle on that Business Day.

Daily access to each Fund's portfolio holdings is permitted to personnel of the Advisers, the Distributor and the Funds' administrator, custodian and accountant and other agents or service providers of the Trust who have need of such information in connection with the ordinary course of their respective duties to the Funds. The Funds' Chief Compliance Officer may authorize disclosure of portfolio holdings.

Each Fund may disclose its complete portfolio holdings or a portion of its portfolio holdings online at www.wisdomtree.com. Online disclosure of such holdings is publicly available at no charge.

Each Fund will disclose its complete portfolio holdings schedule in public filings with the SEC on a quarterly basis, based on the Fund's fiscal year, within sixty (60) days of the end of the quarter, and will provide that information to shareholders, as required by federal securities laws and regulations thereunder.

No person is authorized to disclose a Fund's portfolio holdings or other investment positions except in accordance with the Policy. The Trust's Board reviews the implementation of the Policy on a periodic basis.

Table of Contents

DESCRIPTION OF THE WISDOMTREE INDEXES

WisdomTree DEFA Hedged Index

Number of Components: approximately 2440

The WisdomTree DEFA Hedged Index is designed to provide exposure to non-U.S. equity securities in developed markets outside of the U.S. and Canada, while at the same time minimizing exposure to fluctuations between the value of the U.S. dollar and non-U.S. currencies represented in the Index. For U.S. investors, international equity investments include two components of return. The first is the return attributable to stock prices in the non-U.S. market or markets in which an investment is made. The second is the return attributable to the value of non-U.S. currencies in these markets relative to the U.S. dollar. The WisdomTree DEFA Hedged Index seeks to measure the performance of dividend paying companies that is attributable solely to stock prices.

The Index and the Fund are designed to have higher returns than an equivalent non-currency hedged investment when the U.S. Dollar is going up in value relative to foreign currencies. Conversely, the Index and Fund are designed to have lower returns than an equivalent non-hedged investment when the U.S. dollar is falling in value relative to foreign currencies (e.g., the Euro is rising relative to the U.S. dollar). Of course, there can be no guarantee that the Index or Fund will achieve its respective objective.

To be included in the WisdomTree DEFA Index, companies must be incorporated and listed for trading in one of 16 developed-market European countries represented by the WisdomTree Europe Dividend Index (Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom), Japan, Hong Kong, Singapore, Australia, or New Zealand. Companies must have paid at least \$5 million in cash dividends on their common stock in the annual cycle prior to the most recent Index measurement date and must also satisfy specified liquidity and other requirements. Companies are weighted in the Index based on regular cash dividends paid. The Index applies an applicable published WM/Reuters one-month currency forward rate to the total equity exposure of each country in the Index to adjust the value of each currency against the U.S. dollar.

WisdomTree Emerging Markets Hedged Index

Number of Components: approximately 300

The WisdomTree Emerging Market Hedged Index is designed to provide exposure to emerging market securities, while at the same time minimizing exposure to fluctuations between the value of the U.S. dollar and non-U.S. currencies represented in the Index. For U.S. investors, international equity investments include two components of return. The first is the return attributable to stock prices in the non-U.S. market or markets in which an investment is made. The second is the return attributable to the value of non-U.S. currencies in these markets relative to the U.S. dollar. The WisdomTree Emerging Markets Hedged Index seeks to measure the performance of dividend paying companies in the Emerging Markets Dividend Index attributable solely to stock prices.

The WisdomTree Emerging Markets Hedged Index is designed to provide exposure to non-U.S. equity securities while at the same time minimizing exposure to fluctuations between the value of the U.S. dollar and non-U.S. currencies. In this sense, the Index hedges against fluctuations in the relative value of non-U.S. currencies against the U.S. dollar. The Index and the Fund are designed to have higher returns than an equivalent non-currency hedged investment when the U.S. Dollar is going up in value relative to foreign currencies. Conversely, the Index and Fund are designed to have lower returns than an equivalent non-hedged investment when the U.S. dollar is falling in value relative to foreign currencies (e.g., the Indian Rupee is rising relative to the U.S. dollar). Of course, there can be no guarantee that the Index or Fund will achieve its respective objective.

Companies eligible for inclusion in the Index must be incorporated in and have their shares listed on a major stock exchange in Argentina, Brazil, Chile, China, Czech Republic, Hungary, India, Indonesia, Israel, Malaysia, Mexico, Philippines, Poland, Russia, South Africa, South Korea, Taiwan, Thailand or Turkey. Companies must have paid at least \$5 million in cash dividends on their common stock in the annual cycle prior to the most recent Index measurement date. Companies are weighted in the Index based on regular cash dividends paid. The Index applies an applicable published WM/Reuters one-month currency forward rate to the total equity exposure of each country in the Index to adjust the value of each currency against the U.S. dollar.

Annual Index Reconstitution. The WisdomTree Indexes are reconstituted on an annual basis. New securities are added to the Indexes only during the annual reconstitution. The annual reconstitution of the Indexes takes place at the end of June and the beginning of July each year.

Edgar Filing: WisdomTree Trust - Form 485BPOS

During the annual reconstitution, securities are screened to determine whether they comply with WisdomTree's proprietary Index methodology and are eligible to be included in an Index. This date is sometimes referred to as the Index measurement date or the Screening Point. Based on this screening, securities that meet Index requirements are added to the applicable Index and securities that do not meet such requirements are dropped from the applicable Index. A preliminary Index is made publicly available based on this information. The Weighting Date is the date when the final weights of each component security of each Index are established. This is determined after the close of trading on the third Wednesday of June. The final index constituents and their respective weightings are made publicly available at this time. The final Index constituents and final constituent weightings go into effect immediately before the opening of trading on the Monday following the Weighting Date. This is sometimes referred to as the Reconstitution Date.

Table of Contents

Index Maintenance. Index maintenance occurs throughout the year and includes monitoring and implementing the adjustments for company additions and deletions, stock splits, corporate restructurings and other corporate actions. Corporate actions are generally implemented after the close of trading on the day prior to the ex-date of such corporate actions. To the extent reasonably practicable, such changes will be announced at least two days prior to their implementation.

Should any company achieve a weighting equal or greater than 24% of an Index, its weighting will be reduced at the close of the current calendar quarter and other components in the Index will be rebalanced. Moreover, should the collective weight of Index component securities whose individual current weights equal or exceed 5% of an Index, when added together, exceed 50% of such Index, the weightings in those component securities will be reduced so that their collective weight equals 40% of the Index as of the close of the current calendar quarter, and other components in the Index will be rebalanced.

Index Availability. Each WisdomTree Index is calculated and disseminated throughout each day the New York Stock Exchange is open for trading.

Changes to the Index Methodology. The WisdomTree Indexes are governed by a published, rules-based methodology. Changes to the methodology will be publicly disclosed at www.wisdomtreeindexes.com prior to implementation. Sixty (60) days prior notice will be given prior to the implementation of any such change.

Index Calculation Agent. In order to minimize any potential for conflicts caused by the fact that WisdomTree Investments and its affiliates act as Index provider and investment adviser to the Funds, WisdomTree Investments has retained an unaffiliated third party to calculate each Index (the Calculation Agent). The Calculation Agent, using the rules-based methodology, will calculate, maintain and disseminate the Indexes on a daily basis. WisdomTree Investments will monitor the results produced by the Calculation Agent to help ensure that the Indexes are being calculated in accordance with the rules-based methodology. In addition, WisdomTree Investments and WisdomTree Asset Management have established policies and procedures designed to prevent non-public information about pending changes to the Indexes from being used or disseminated in an improper manner. Furthermore, WisdomTree Investments and WisdomTree Asset Management have established policies and procedures designed to prevent improper use and dissemination of non-public information about the Funds' portfolio strategies and to prevent the Funds' portfolio managers from having any influence on the construction of the Index methodology.

Table of Contents

INVESTMENT LIMITATIONS

The following fundamental investment policies and limitations supplement those set forth in each Fund's Prospectus. Unless otherwise noted, whenever a fundamental investment policy or limitation states a maximum percentage of a Fund's assets that may be invested in any security or other asset, or sets forth a policy regarding quality standards, such standard or percentage limitation will be determined immediately after and as a result of the Fund's acquisition of such security or other asset. Accordingly, other than with respect to a Fund's limitations on borrowings, any subsequent change in values, net assets, or other circumstances will not be considered when determining whether the investment complies with a Fund's investment policies and limitations.

Each Fund's fundamental investment policies cannot be changed without the approval of the holders of a majority of that Fund's outstanding voting securities as defined under the 1940 Act. Each Fund, however, may change the non-fundamental investment policies described below, its investment objective, and its underlying Index without a shareholder vote provided that it obtains Board approval and notifies its shareholders with at least sixty (60) days prior written notice of any such change.

Fundamental Policies. The following investment policies and limitations are fundamental and may NOT be changed without shareholder approval.

Each Fund, as a fundamental investment policy, may not:

Senior Securities

Issue senior securities, except as permitted under the 1940 Act.

Borrowing

Borrow money, except as permitted under the 1940 Act.

Underwriting

Act as an underwriter of another issuer's securities, except to the extent that each Fund may be considered an underwriter within the meaning of the Securities Act of 1933 in the disposition of portfolio securities.

Concentration

Purchase the securities of any issuer (other than securities issued or guaranteed by the U.S. Government or any of its agencies or instrumentalities) if, as a result, more than 25% of the Fund's total assets would be invested in the securities of companies whose principal business activities are in the same industry, except that each Fund will invest more than 25% of its total assets in securities of the same industry to approximately the same extent that each Fund's underlying Index concentrates in the securities of a particular industry or group of industries.

Real Estate

Purchase or sell real estate unless acquired as a result of ownership of securities or other instruments (but this shall not prevent the fund from investing in securities or other instruments backed by real estate, real estate investment trusts or securities of companies engaged in the real estate business).

Commodities

Purchase or sell physical commodities unless acquired as a result of ownership of securities or other instruments (but this shall not prevent each Fund from purchasing or selling options and futures contracts or from investing in securities or other instruments backed by physical commodities).

Loans

Lend any security or make any other loan except as permitted under the Investment Company Act of 1940.

Table of Contents

This means that no more than 33 1/3% of its total assets would be lent to other parties. This limitation does not apply to purchases of debt securities or to repurchase agreements, or to acquisitions of loans, loan participations or other forms of debt instruments, permissible under each Fund's investment policies.

Non-Fundamental Policies. The following investment policy is not fundamental and MAY be changed without shareholder approval.

Each Fund has adopted a non-fundamental investment policy in accordance with Rule 35d-1 under the 1940 Act to invest, under normal circumstances, at least 80% of the value of its net assets, plus the amount of any borrowings for investment purposes, in the types of securities suggested by the Fund's name. If, subsequent to an investment, the 80% requirement is no longer met, a Fund's future investments will be made in a manner that will bring the Fund into compliance with this policy.

CONTINUOUS OFFERING

The method by which Creation Unit Aggregations of shares are created and traded may raise certain issues under applicable securities laws. Because new Creation Unit Aggregations of shares are issued and sold by the Funds on an ongoing basis, at any point a distribution, as such term is used in the Securities Act, may occur. Broker-dealers and other persons are cautioned that some activities on their part may, depending on the circumstances, result in their being deemed participants in a distribution in a manner which could render them statutory underwriters and subject them to the prospectus delivery requirement and liability provisions of the Securities Act.

For example, a broker-dealer firm or its client may be deemed a statutory underwriter if it takes Creation Unit Aggregations after placing an order with the Distributor, breaks them down into constituent shares, and sells such shares directly to customers, or if it chooses to couple the creation of a supply of new shares with an active selling effort involving solicitation of secondary market strikes demand for shares. A determination of whether one is an underwriter for purposes of the Securities Act must take into account all the facts and circumstances pertaining to the activities of the broker-dealer or its client in the particular case, and the examples mentioned above should not be considered a complete description of all the activities that could lead to a categorization as an underwriter.

Broker-dealer firms should also note that dealers who are not underwriters but are effecting transactions in shares, whether or not participating in the distribution of shares, generally are required to deliver a prospectus. This is because the prospectus delivery exemption in Section 4(3) of the Securities Act is not available in respect of such transactions as a result of Section 24(d) of the 1940 Act. Firms that incur a prospectus delivery obligation with respect to shares of the Funds are reminded that, pursuant to Rule 153 under the Securities Act, a prospectus delivery obligation under Section 5(b)(2) of the Securities Act owed to an exchange member in connection with the sale on the Listing Exchange is satisfied by the fact that the prospectus is available at the Listing Exchange upon request. The prospectus delivery mechanism provided in Rule 153 is only available with respect to transactions on an exchange.

Table of Contents

MANAGEMENT OF THE TRUST

Trustees and Officers

The Board of Trustees has responsibility for the overall management and operations of the Funds, including general supervision of the duties performed by WisdomTree Asset Management and other service providers. The Board of Trustees elects the officers of the Trust who are responsible for administering the Trust's day-to-day operations. Each Trustee serves until his or her successor is duly elected or appointed and qualified.

The address of each Trustee and Officer is c/o WisdomTree Asset Management, Inc., 380 Madison Avenue, 21st Floor, New York, NY 10017.

* Chair of the Audit Committee.

** Chair of the Governance and Nominating Committee.
As of May 27, 2009.

Table of Contents

The following table sets forth, as of December 31, 2008 the dollar range of equity securities beneficially owned by each Trustee in the Funds and in other registered investment companies overseen by the Trustee within the same family of investment companies as the Trust.

Name of Trustee	Aggregate Dollar Range of Equity Securities in all Registered Investment Companies Overseen by the Trustee in Family of		
	Dollar Range of Equity Securities in the Funds	Investment Companies	
Interested Trustee:			
Jonathan Steinberg	Emerging Markets Equity Income Fund	\$10,001-\$50,000	
	DEFA Equity Income Fund	\$10,001-\$50,000	
	SmallCap Earnings Fund	\$10,001-\$50,000	\$50,001-\$100,000
Independent Trustees:			
Gregory Barton	Total Dividend Fund	\$50,001-\$100,000	
	DEFA Fund	\$1-\$10,000	Over \$100,000
Toni Massaro	International Dividend ex-Financials	\$1-\$10,000	
	Japan SmallCap Dividend Fund	\$1-\$10,000	
	Dividend ex-Financials Fund	\$1-\$10,000	\$1-\$10,000
Victor Ugolyn	LargeCap Dividend Fund	\$10,001-\$50,000	
	International LargeCap Dividend Fund	\$10,001-\$50,000	\$50,001-\$100,000

As of December 31, 2008 none of the Trustees who are not interested persons (as defined in the 1940 Act) of the Trust (Independent Trustees) or their immediate family members owned beneficially or of record any securities of WisdomTree Asset Management, the Sub-Adviser, the Distributor, or any person controlling, controlled by or under control with WisdomTree Asset Management, the Sub-Adviser or the Distributor.

The Board of Trustees of the Trust met eight times during the fiscal year ended March 31, 2008.

Committees of the Board of Trustees

Audit Committee. Each Independent Trustee is a member of the Trust's Audit Committee (the Audit Committee). The principal responsibilities of the Audit Committee are the appointment, compensation and oversight of the Trust's independent auditors, including the resolution of disagreements regarding financial reporting between Trust management and such independent auditors. The Audit Committee's responsibilities include, without limitation, to (i) oversee the accounting and financial reporting processes of the Trust and its internal control over financial reporting and, as the Committee deems appropriate, to inquire into the internal control over financial reporting of certain third-party service providers; (ii) oversee the quality and integrity of the Funds' financial statements and the independent audits thereof; (iii) oversee, or, as appropriate, assist Board oversight of, the Trust's compliance with legal and regulatory requirements that relate to the Trust's accounting and financial reporting, internal control over financial reporting and independent audits; (iv) approve prior to appointment the engagement of the Trust's independent auditors and, in connection therewith, to review and evaluate the qualifications, independence and performance of the Trust's independent auditors; and (v) act as a liaison between the Trust's independent auditors and the full Board. The Board of the Trust has adopted a written charter for the Audit Committee. The Audit Committee has retained independent legal counsel to assist it in connection with these duties. During the fiscal year ended March 31, 2008, the Audit Committee held six meetings.

Governance and Nominating Committee. Each Independent Trustee is also a member of the Trust's Governance and Nominating Committee. The principal responsibilities of the Governance and Nominating Committee are to (i) oversee Fund governance matters and (ii) identify individuals qualified to serve as Independent Trustees of the Trust and to recommend its nominees for consideration by the full Board. While the Governance and Nominating Committee is solely responsible for the selection and nomination of the Trust's Independent Trustees, the Nominating Committee may consider nominations for the office of Trustee made by Trust stockholders as it deems appropriate. The Governance and Nominating Committee considers nominees recommended by shareholders if such nominees are submitted in accordance with Rule 14a-8 of the Securities Exchange Act of 1934 (the 1934 Act), in conjunction with a shareholder meeting to consider the election of Trustees. Trust stockholders who wish to recommend a nominee should send nominations to the Secretary of the Trust that include biographical information and set forth the qualifications of the proposed nominee. During the fiscal year ended March 31, 2008, the Nominating Committee held one meeting.

Table of Contents

Remuneration of Trustees. Pursuant to its Investment Advisory Agreement with the Trust, WisdomTree Asset Management pays all compensation of officers and employees of the Trust as well as the fees of all Trustees of the Trust who are affiliated persons of WisdomTree Investments or its subsidiaries.

Each Independent Trustee receives annual compensation of \$100,000. The Audit Committee Chairman will be paid an additional 10% and the Independent Chairman of the Board will be paid an additional 50% of this amount. The Trust also reimburses each Trustee for travel and other out-of-pocket expenses incurred by him/her in connection with attending meetings. Prior to December 2007, each Independent Trustee received \$40,000 annually. The Audit Committee Chairman received an additional 10% and the Independent Chairman received an additional 50% of this amount.

The following table sets forth the fees paid to each Trustee for the calendar year-ended December 31, 2008.

Name of Interested Trustee	Aggregate Compensation from the Trust	Pension or Retirement	Estimated Annual Benefits upon Retirement	Total Compensation From the Funds and Fund Complex
		Benefits Accrued As Part of Company Expenses		
Jonathan Steinberg	None	None	None	None

Name of Independent Trustee	Aggregate Compensation from the Trust	Pension or Retirement	Estimated Annual Benefits upon Retirement	Total Compensation From the Funds and Fund Complex
		Benefits Accrued As Part of Company Expenses		
Gregory Barton	\$ 103,400	None	None	\$ 103,400
Toni Massaro	\$ 112,000	None	None	\$ 112,000
Victor Ugolyn	\$ 168,000	None	None	\$ 168,000

Trustees and officers of the Trust collectively owned less than 1% of each of the Trust's outstanding shares as of June 30, 2008.

Control Persons and Principal Holders of Securities. Since the Funds had not commenced operations as of the date of this SAI, the name and percentage holding of each Depository Trust Company (DTC) participant that owns of record 5% or more of each Fund's outstanding shares is not yet available.

Investment Adviser. WisdomTree Asset Management serves as investment adviser to each Fund pursuant to an Investment Advisory Agreement between the Trust and WisdomTree Asset Management. WisdomTree Asset Management is a Delaware corporation registered as an investment adviser under the Investment Advisers Act of 1940, as amended (the Advisers Act), and has offices located at 380 Madison Avenue, 21st Floor, New York, NY 10017. WisdomTree Asset Management is a leader in EFT management.

Under the Investment Advisory Agreement, WisdomTree Asset Management has overall responsibility for the portfolio management of the Trust. WisdomTree Asset Management provides an investment program for each Fund.

Table of Contents

Each Fund pays WisdomTree Asset Management the Management Fee indicated below.

Name of Fund	Management Fee
WisdomTree DEFA Hedged Fund	0.48%
WisdomTree Emerging Markets Hedged Fund	0.58%

The Advisory Agreement with respect to each Fund continues in effect for two years from its effective date, and thereafter is subject to annual approval by (i) the Board of Trustees of the Trust or (ii) the vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the Fund, provided that in either event such continuance also is approved by a vote of a majority of the Trustees of the Trust who are not interested persons (as defined in the 1940 Act) of the Fund, by a vote cast in person at a meeting called for the purpose of voting on such approval. If the shareholders of any Fund fail to approve the Advisory Agreement, WisdomTree Asset Management may continue to serve in the manner and to the extent permitted by the 1940 Act and rules and regulations thereunder.

The Advisory Agreement with respect to any Fund is terminable without any penalty, by vote of the Board of Trustees of the Trust or by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of that Fund, or by WisdomTree Asset Management, in each case on not less than 30 days nor more than 60 days prior written notice to the other party; provided, that a shorter notice period shall be permitted for a Fund in the event its shares are no longer listed on a national securities exchange. The Investment Advisory Agreement will terminate automatically and immediately in the event of its assignment (as defined in the 1940 Act).

Administration Agreement. In addition to providing investment advisory services, WisdomTree Asset Management, in exchange for a fee of 0.10% of each Fund's average daily net assets, has entered into an Administration Agreement with the Funds whereby WisdomTree Asset Management, among other things, arranges for the provision of non-advisory services necessary for the Funds to operate and has agreed to pay certain fees and costs that might otherwise be considered expenses of the Funds.

Sub-Adviser. Mellon Capital, a registered investment adviser with offices located at 45 Fremont Street, San Francisco, CA 94105, serves as the Sub-Adviser for each Fund. Mellon Capital, as of June 30, 2008 managed more than \$204 billion in investments. The Sub-Adviser chooses each Fund's portfolio investments and places orders to buy and sell the Fund's portfolio investments. WisdomTree Asset Management pays the Sub-Adviser for providing sub-advisory services to the Funds in accordance with the table set forth below.

The Sub-Adviser is entitled to receive the fees indicated below for acting as Sub-Adviser to the Funds:

7.5 basis points (0.075%) of the first \$200 million of average daily net assets of the Funds;

5 basis points (0.05%) of the next \$300 million of average daily net assets of the Funds; and

3 basis points (0.03%) of the average daily net assets of the Funds in excess of this amount.

Table of Contents

The Sub-Advisor believes that it may perform Sub-Advisory and related services for the Trust without violating applicable banking laws or regulations. However, the legal requirements and interpretations about the permissible activities of banks and their affiliates may change in the future. These changes could prevent BNY from continuing to perform services for the Trust. If this happens, the Board would consider selecting other qualified firms. Any new investment Sub-Advisory agreement would be subject to shareholder approval.

Portfolio Managers.

Each Fund is managed by Mellon Capital’s Equity Index Strategies Portfolio management team. The individual members of the team responsible for the day-to-day management of the Funds’ portfolios are described below. Denise Krisko is a Managing Director, Co-Head of the Equity Index Management and Head of East Coast Equity Index Strategies for Mellon Capital. She was also a Managing Director of The Bank of New York and Head of Equity Index Strategies for BNY Investment Advisors since August of 2005. Prior to joining The Bank of New York, from 2000 to 2004, Ms. Krisko held various senior investment positions with Deutsche Asset Management and Northern Trust, including quantitative strategies director, senior portfolio manager and trader. Ms. Krisko has over 15 years of investment experience. Steven Wetter is a Vice President, Senior Portfolio Manager of Equity Index Strategies. He obtained his M.B.A. from New York University, Stern School of Business. He joined The Bank of New York in 2007 as a senior portfolio manager. Prior to joining The Bank of New York, he worked as portfolio manager and trader at Bankers Trust and continued in that role as the division was sold to Deutsche Bank in 1999 and then to Northern Trust in 2003. Mr. Wetter has 20 years of investment experience.

Each of the portfolios or accounts for which the Portfolio Managers are primarily responsible for the day-to-day management seeks to track the rate of return, risk profile and other characteristics of its underlying Index through a representative sampling of the securities that compose that benchmark based on objective criteria and data. The Portfolio Managers are required to manage each portfolio or account to meet those objectives. Each Portfolio Manager on the Index Fund Management team is authorized to make investment decisions for all portfolios managed by the team. No member of the Portfolio Management team manages assets professionally outside of the team or in an individual capacity in any manner. Denise Krisko manages the team. Each Portfolio Manager has served as manager of each Fund since its inception.

Including the WisdomTree portfolios, as of June 30, 2008, the Index Fund Management team managed 98 other registered investment companies with approximately \$6.34 billion in assets; one pooled investment vehicle with approximately \$0.13 billion in assets and twenty-four other accounts with approximately \$4.32 billion in assets.

Portfolio Manager Fund Ownership

As of December 31, 2008, the dollar range of securities beneficially owned by the following Portfolio Managers in the Trust is as follows:

Portfolio Manager	Dollar Range of Securities Beneficially Owned
Denise Krisko	None
Steve Wetter	None

Portfolio Manager Compensation

As of December 31, 2008, the Sub-Advisor’s Portfolio Managers’ compensation generally consists of base salary, bonus, and various long-term incentive compensation vehicles, if eligible. In addition, Portfolio Managers are eligible for the standard retirement benefits and health and welfare benefits available to all Sub-Advisor employees. In the case of Portfolio Managers responsible for managing the Funds and managed accounts, the method used to determine their compensation is the same for all Funds and investment accounts. A Portfolio Manager’s base salary is determined by the manager’s experience and performance in the role, taking into account the ongoing compensation benchmark analyses performed by Sub-Advisor’s Human Resources Department. A Portfolio Manager’s base salary is

Table of Contents

generally a fixed amount that may change as a result of periodic reviews, upon assumption of new duties, or when a market adjustment of the position occurs. A Portfolio Manager's bonus is determined by a number of factors.

One factor is gross, pre-tax performance of a fund relative to expectations for how the fund should have performed, given its objectives, policies, strategies and limitations, and the market environment during the measurement period. This performance factor is not based on the value of assets held in a fund's portfolio. For each Fund, the performance factor depends on how the Portfolio Manager performs relative to the Fund's benchmark and the Fund's peer group, over one-year and three-year time periods. Additional factors include the Portfolio Manager's contributions to the investment management functions within the sub-asset class, contributions to the development of other investment professionals and supporting staff, and overall contributions to strategic planning and decisions for the investment group. The bonus is paid on an annual basis.

The Portfolio Managers for each Fund manage multiple portfolios for multiple clients. These accounts may include investment companies, separate accounts (assets managed on behalf of individuals and institutions such as pension funds, insurance companies and foundations), and bank collective and common trust accounts. Each Portfolio Manager generally manages portfolios having substantially the same investment style as the relevant Fund. However, the portfolios managed by a Portfolio Manager may not have portfolio compositions identical to those of the Fund(s) managed by the Portfolio Manager due, for example, to specific investment limitations or guidelines present in some portfolio or Funds but not others. The Portfolio Managers may purchase securities for one portfolio and not another portfolio, and the performance of securities purchased for one portfolio may vary from the performance of securities purchased for other portfolios. A Portfolio Manager may place transactions on behalf of other accounts that are directly or indirectly contrary to investment decisions made on behalf of a Fund, or make investment decisions that are similar to those made for a Fund, both of which have the potential to adversely impact the Fund depending on market conditions. For example, a Portfolio Manager may purchase a security in one portfolio while appropriately selling that same security in another portfolio. In addition, some of these portfolios have fee structures that are or have the potential to be higher than the Sub-Advisory fees paid by a Fund. However, the compensation structure for Portfolio Managers generally does not provide any incentive to favor one account over another because that part of a Portfolio Manager's bonus based on performance is not based on the performance of one account to the exclusion of others.

Code of Ethics. The Trust, WisdomTree Asset Management, the Sub-Adviser and the Distributor have adopted Codes of Ethics pursuant to Rule 17j-1 under the 1940 Act. Employees subject to the Codes of Ethics may invest in securities for their personal investment accounts, including securities that may be purchased or held by the Funds. The Codes of Ethics are on public file with, and are available from, the SEC.

Administrator, Custodian and Transfer Agent. The Bank of New York Mellon (BNYM) serves as administrator, custodian and transfer agent for the Funds. BNYM's principal address is One Wall Street, New York, New York 10286. Under the Fund Administration and Accounting Agreement with the Trust, BNYM provides necessary administrative, legal, tax, accounting services, and financial reporting for the maintenance and operations of the Trust and each Fund. In addition, BNYM makes available the office space, equipment, personnel and facilities required to provide such services. Under the custody agreement with the Trust, BNYM maintains in separate accounts cash, securities and other assets of the Trust and each Fund, keeps all necessary accounts and records, and provides other services. BNYM is required, upon the order of the Trust, to deliver securities held by BNYM and to make payments for securities purchased by the Trust for each Fund. Also, under a Delegation Agreement, BNYM is authorized to appoint certain foreign custodians or foreign custody managers for Fund investments outside the United States. Pursuant to a Transfer Agency and Service Agreement with the Trust, BNYM acts as transfer agent for each Fund's authorized and issued shares of beneficial interest, and as dividend disbursing agent of the Trust. As compensation for the foregoing services, BNYM receives certain out of pocket costs, transaction fees and asset-based fees which are accrued daily and paid monthly by the Trust from the Trust's custody account with BNYM.

Table of Contents

Distributor. ALPS Distributors, Inc. (Distributor) is the distributor of shares of the Trust. Its principal address is 1290 Broadway, Suite 1100, Denver, Colorado 80203. The Distributor has entered into a Distribution Agreement with the Trust pursuant to which it distributes shares of each Fund. The Distribution Agreement will continue for two years from its effective date and is renewable annually. Shares are continuously offered for sale by the Funds through the Distributor only in Creation Unit Aggregations, as described in the applicable Prospectus and below in the Creation and Redemption of Creation Units Aggregations section. Shares in less than Creation Unit Aggregations are not distributed by the Distributor. The Distributor will deliver the applicable Prospectus and, upon request, this SAI to persons purchasing Creation Unit Aggregations and will maintain records of both orders placed with it and confirmations of acceptance furnished by it. The Distributor is a broker-dealer registered under the 1934 Act and a member of the Financial Industry Regulatory Authority (FINRA). The Distributor is not affiliated with WisdomTree Investments, WisdomTree Asset Management, nor any stock exchange.

The Distribution Agreement for each Fund will provide that it may be terminated at any time, without the payment of any penalty, on at least sixty (60) days prior written notice to the other party (i) by vote of a majority of the Independent Trustees or (ii) by vote of a majority of the outstanding voting securities (as defined in the 1940 Act) of the relevant Fund. The Distribution Agreement will terminate automatically in the event of its assignment (as defined in the 1940 Act).

The Distributor may also enter into agreements with securities dealers (Soliciting Dealers) who will solicit purchases of Creation Unit Aggregations of shares. Such Soliciting Dealers may also be Authorized Participants (as defined below) or DTC Participants (as defined below).

WisdomTree Asset Management may, from time to time and from its own resources, pay, defray or absorb costs relating to distribution, including payments out of its own resources to the Distributor, or to otherwise promote the sale of shares.

Brokerage Transactions

The Sub-Adviser assumes general supervision over placing orders on behalf of each Fund for the purchase and sale of portfolio securities. In selecting the brokers or dealers for any transaction in portfolio securities, the Sub-Adviser's policy is to make such selection based on factors deemed relevant, including but not limited to, the breadth of the market in the security, the price of the security, the reasonableness of the commission or mark-up or mark-down, if any, execution capability, settlement capability, back office efficiency and the financial condition of the broker or dealer, both for the specific transaction and on a continuing basis. The overall reasonableness of brokerage commissions paid is evaluated by the Sub-Adviser based upon its knowledge of available information as to the general level of commissions paid by other institutional investors for comparable services. Brokers may also be selected because of their ability to handle special or difficult executions, such as may be involved in large block trades, less liquid securities, broad distributions, or other circumstances. The Sub-Adviser does not consider the provision or value of research, products or services a broker or dealer may provide, if any, as a factor in the selection of a broker or dealer or the determination of the reasonableness of commissions paid in connection with portfolio transactions. The Trust has adopted policies and procedures that prohibit the consideration of sales of a Fund's shares as a factor in the selection of a broker or a dealer to execute its portfolio transactions.

Table of Contents

Portfolio turnover may vary from year to year, as well as within a year. High turnover rates are likely to result in comparatively greater brokerage expenses. The overall reasonableness of brokerage commissions is evaluated by the Adviser based upon its knowledge of available information as to the general level of commissions paid by the other institutional investors for comparable services.

Additional Information Concerning the Trust

Shares. The Trust was established as a Delaware statutory trust on December 15, 2005. The Trust currently is comprised of multiple Funds. Each Fund issues shares of beneficial interest, with \$0.001 par value. The Board may designate additional Funds. The Trust is registered with the SEC as an open-end management investment company.

Each share issued by a Fund has a pro rata interest in the assets of that Fund. Shares have no preemptive, exchange, subscription or conversion rights and are freely transferable. Each share is entitled to participate equally in dividends and distributions declared by the Board of Trustees with respect to the relevant Fund, and in the net distributable assets of such Fund on liquidation.

Each share has one vote with respect to matters upon which a shareholder vote is required consistent with the requirements of the 1940 Act and the rules promulgated thereunder. Shares of all Funds vote together as a single class except that, if the matter being voted on affects only a particular Fund, and, if a matter affects a particular Fund differently from other Funds, that Fund will vote separately on such matter.

Under Delaware law, the Trust is not required to hold an annual meeting of shareholders unless required to do so under the 1940 Act. The policy of the Trust is not to hold an annual meeting of shareholders unless required to do so under the 1940 Act. All shares (regardless of the Fund) have noncumulative voting rights for the Board. Under Delaware law, Trustees of the Trust may be removed by vote of the shareholders.

Following the creation of the initial Creation Unit Aggregation(s) of shares of a Fund and immediately prior to the commencement of trading in such Fund's shares, a holder of shares may be a control person of the Fund, as defined in the 1940 Act. A Fund cannot predict the length of time for which one or more shareholders may remain a control person of the Fund.

Shareholders may make inquiries by writing to the Trust, c/o ALPS Distributors, Inc. at 1290 Broadway, Suite 1100, Denver, Colorado 80203.

Absent an applicable exemption or other relief from the SEC or its staff, beneficial owners of more than 5% of the shares of a Fund may be subject to the reporting provisions of Section 13 of the 1934 Act and the SEC's rules promulgated thereunder. In addition, absent an applicable exemption or other relief from the SEC staff, officers and Trustees of a Fund and beneficial owners of 10% of the shares of a Fund (Insiders) may be subject to the insider reporting, short-swing profit and short sale provisions of Section 16 of the 1934 Act and the SEC's rules promulgated thereunder. Beneficial owners and Insiders should consult with their own legal counsel concerning their obligations under Sections 13 and 16 of the 1934 Act.

Termination of the Trust or a Fund. The Trust or a Fund may be terminated by a majority vote of the Board of Trustees or the affirmative vote of a super majority of the holders of the Trust or such Fund entitled to vote on termination. Although the shares are not automatically redeemable upon the occurrence of any specific event, the Trust's organizational documents provide that the Board will have the unrestricted power to alter the number of shares in a Creation Unit Aggregation. In the event of a termination of the Trust or a Fund, the Board, in its sole discretion, could determine to permit the shares to be redeemable in aggregations smaller than Creation Unit Aggregations or to be individually redeemable. In such circumstance, the Trust may make redemptions in-kind, for cash, or for a combination of cash or securities.

Role of DTC. DTC Acts as Securities Depository for the Shares of the Trust. Shares of each Fund are represented by securities registered in the name of DTC or its nominee and deposited with, or on behalf of, DTC.

DTC, a limited-purpose trust company, was created to hold securities of its participants (DTC Participants) and to facilitate the clearance and settlement of securities transactions among the DTC Participants in such securities through electronic book-entry changes in accounts of the DTC Participants, thereby eliminating the need for physical movement of securities certificates. DTC Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, some of whom (and/or their representatives) own DTC. More specifically, DTC is owned by a number of its DTC Participants and by the NYSE, the AMEX and FINRA. Access to the DTC system is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC Participant, either directly or indirectly (Indirect Participants).

Table of Contents

Beneficial ownership of shares is limited to DTC Participants, Indirect Participants and persons holding interests through DTC Participants and Indirect Participants. Ownership of beneficial interests in shares (owners of such beneficial interests are referred to herein as Beneficial Owners) is shown on, and the transfer of ownership is effected only through, records maintained by DTC (with respect to DTC Participants) and on the records of DTC Participants (with respect to Indirect Participants and Beneficial Owners that are not DTC Participants). Beneficial Owners will receive from or through the DTC Participant a written confirmation relating to their purchase of shares. No Beneficial Owner shall have the right to receive a certificate representing such shares.

Conveyance of all notices, statements and other communications to Beneficial Owners is effected as follows. Pursuant to the Depositary Agreement between the Trust and DTC, DTC is required to make available to the Trust upon request and for a fee to be charged to the Trust a listing of the shares of each Fund held by each DTC Participant. The Trust shall inquire of each such DTC Participant as to the number of Beneficial Owners holding shares, directly or indirectly, through such DTC Participant. The Trust shall provide each such DTC Participant with copies of such notice, statement or other communication, in such form, number and at such place as such DTC Participant may reasonably request, in order that such notice, statement or communication may be transmitted by such DTC Participant, directly or indirectly, to such Beneficial Owners. In addition, the Trust shall pay to each such DTC Participant a fair and reasonable amount as reimbursement for the expenses attendant to such transmittal, all subject to applicable statutory and regulatory requirements.

Share distributions shall be made to DTC or its nominee, Cede & Co., as the registered holder of all shares of the Trust. DTC or its nominee, upon receipt of any such distributions, shall credit immediately DTC Participants' accounts with payments in amounts proportionate to their respective beneficial interests in shares of each Fund as shown on the records of DTC or its nominee. Payments by DTC Participants to Indirect Participants and Beneficial Owners of shares held through such DTC Participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in a street name, and will be the responsibility of such DTC Participants.

The Trust has no responsibility or liability for any aspect of the records relating to or notices to Beneficial Owners, or payments made on account of beneficial ownership interests in such shares, or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other aspect of the relationship between DTC and the DTC Participants or the relationship between such DTC Participants and the Indirect Participants and Beneficial Owners owning through such DTC Participants. DTC may decide to discontinue providing its service with respect to shares of the Trust at any time by giving reasonable notice to the Trust and discharging its responsibilities with respect thereto under applicable law. Under such circumstances, the Trust shall take action to find a replacement for DTC to perform its functions at a comparable cost.

Creation & Redemption of Creation Unit Aggregations

Creation. The Trust issues and sells shares of each Fund only in Creation Unit Aggregations on a continuous basis through the Distributor, without a sales load, at the NAV next determined after receipt, on any Business Day (as defined below), of an order in proper form.

A **Business Day** with respect to each Fund is any day on which the national securities exchange on which the Fund is listed for trading (each a **Listing Exchange**) is open for business. As of the date of this SAI, each Listing Exchange observes the following holidays: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day (observed), Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

Fund Deposit. The consideration for purchase of Creation Unit Aggregations of a Fund generally consists of the in-kind deposit of a designated portfolio of equity securities (the **Deposit Securities**), which constitutes a substantial replication, or a portfolio sampling representation, of the stocks involved in the relevant Fund's underlying Index and an amount of cash (the **Cash Component**) computed as described below. Together, the Deposit Securities and the Cash Component constitute the **Fund Deposit**, which represents the minimum initial and subsequent investment amount for a Creation Unit Aggregation of any Fund.

The Cash Component is sometimes also referred to as the **Balancing Amount**. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit Aggregation and the Deposit

Table of Contents

Amount (as defined below). The Cash Component is an amount equal to the difference between the NAV of the shares (per Creation Unit Aggregation) and the Deposit Amount, which is an amount equal to the market value of the Deposit Securities. If the Cash Component is a positive number (i.e., the NAV per Creation Unit Aggregation exceeds the Deposit Amount), the creator will deliver the Cash Component. If the Cash Component is a negative number (i.e., the NAV per Creation Unit Aggregation is less than the Deposit Amount), the creator will receive the Cash Component. Computation of the Cash Component excludes any stamp duty or other similar fees and expenses payable upon transfer of beneficial ownership of the Deposit Securities, which shall be the sole responsibility of the Authorized Participant.

Each Fund, through the National Securities Clearing Corporation or otherwise makes available on each Business Day, prior to the opening of business on the applicable Listing Exchange (currently 9:30 a.m., Eastern time), the list of the names and the required number of shares of each Deposit Security to be included in the current Fund Deposit (based on information at the end of the previous Business Day) for each Fund.

Such Deposit Securities are applicable, subject to any adjustments as described below, in order to effect creations of Creation Unit Aggregations of a given Fund until such time as the next-announced composition of the Deposit Securities is made available.

The identity and number of shares of the Deposit Securities required for a Fund Deposit for each Fund changes as rebalancing adjustments and corporate action events are reflected from time to time by the Trust with a view to the investment objective of the relevant Fund. The composition of the Deposit Securities may also change in response to adjustments to the weighting or composition of the component securities of the relevant underlying Index.

In addition, the Trust reserves the right to permit or require the substitution of an amount of cash (i.e., a cash in lieu amount) to be added to the Cash Component to replace any Deposit Security that may not be available in sufficient quantity for delivery or that may not be eligible for transfer through the systems of DTC or otherwise (discussed below). The Trust also reserves the right to permit or require a cash in lieu amount where the delivery of the Deposit Security by the Authorized Participant (as described below) would be restricted under the securities laws or where the delivery of the Deposit Security to the Authorized Participant would result in the disposition of the Deposit Security by the Authorized Participant becoming restricted under the securities laws, or in certain other situations. The adjustments described above will reflect changes known to the Trust on the date of announcement to be in effect by the time of delivery of the Fund Deposit, in the composition of the underlying Index being tracked by the relevant Fund or resulting from certain corporate actions.

Procedures for Creation of Creation Unit Aggregations. To be eligible to place orders with the Distributor and to create a Creation Unit Aggregation of a Fund, an entity must be: (i) a Participating Party, i.e., a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC (the Clearing Process), a clearing agency that is registered with the SEC; or (ii) a DTC Participant, and, in each case, must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Unit Aggregations (Participant Agreement) (discussed below). A Participating Party and DTC Participant are collectively referred to as an Authorized Participant. Investors should contact the Distributor for the names of Authorized Participants that have signed a Participant Agreement. All shares of a Fund, however created, will be entered on the records of DTC in the name of Cede & Co. for the account of a DTC Participant.

All orders to create shares must be placed for one or more Creation Unit Aggregations. Except as described herein, all orders to create Creation Unit Aggregations must be received by the Distributor no later than the closing time of the regular trading session on the applicable Listing Exchange (Closing Time) (ordinarily 4:00 p.m., Eastern time) in each case on the date such order is placed in order for creation of Creation Unit Aggregations to be effected based on the NAV of shares of the applicable Fund as next determined on such date after receipt of the order in proper form.

Table of Contents

The date on which an order to create Creation Unit Aggregations (or an order to redeem Creation Unit Aggregations, as discussed below) is placed is referred to as the Transmittal Date. Orders must be transmitted by an Authorized Participant by telephone or other transmission method acceptable to the Distributor pursuant to procedures set forth in the Participant Agreement, as described below. Economic or market disruptions or changes, or telephone or other communication failure, may impede the ability to reach the Distributor or an Authorized Participant.

All orders to create Creation Unit Aggregations shall be placed with an Authorized Participant, as applicable, in the form required by such Authorized Participant. In addition, the Authorized Participant may request the investor to make certain representations or enter into agreements with respect to the order, e.g., to provide for payments of cash, when required. Investors should be aware that their particular broker may not have executed a Participant Agreement and, therefore, orders to create Creation Unit Aggregations of a Fund have to be placed by the investor's broker through an Authorized Participant that has executed a Participant Agreement. In such cases, there may be additional charges to such investor. At any given time, there may be only a limited number of broker-dealers that have executed a Participant Agreement and only a small number of such Authorized Participants may have international capabilities.

Those placing orders for Creation Unit Aggregations of the Funds should ascertain the applicable deadline for cash transfers by contacting the operations department of the broker or depository institution making the transfer of the Cash Component. This deadline is likely to be significantly earlier than the closing time of the regular trading session on the applicable Listing Exchange. Investors should be aware that the Authorized Participant may require orders for Creation Units placed with it to be in the form required by the individual Authorized Participant, which form may not be the same as the form of purchase order specified by the Trust that the Authorized Participant must deliver to the Distributor.

Placement of Creation Orders. For each Fund, the Custodian shall cause the sub-custodian of the Funds to maintain an account into which the Authorized Participant shall deliver, on behalf of itself or the party on whose behalf it is acting, the securities included in the designated Fund Deposit (or the cash value of all or part of such securities, in the case of a permitted or required cash purchase or cash in lieu amount), with any appropriate adjustments as advised by the Trust. Deposit Securities must be delivered to an account maintained at the applicable local sub-custodian(s). Except as described herein, orders to purchase Creation Unit Aggregations must be received by the Distributor from an Authorized Participant on its own or another investor's behalf by the closing time of the regular trading session on the applicable Listing Exchange on the relevant Business Day. However, when a relevant local market is closed due to local market holidays, the local market settlement process will not commence until the end of the local holiday period. Settlement must occur by 2:00 p.m., Eastern time, on the contractual settlement date.

The Authorized Participant must also make available no later than 2:00 p.m., Eastern time, on the contractual settlement date, by means satisfactory to the Trust, immediately-available or same-day funds estimated by the Trust to be sufficient to pay the Cash Component next determined after acceptance of the purchase order, together with the applicable purchase transaction fee. Any excess funds will be returned following settlement of the issue of the Creation Unit Aggregation.

Table of Contents

To the extent contemplated by the applicable Participant Agreement, Creation Unit Aggregations of the Funds will be issued to such Authorized Participant notwithstanding the fact that the corresponding Fund Deposits have not been received in part or in whole, in reliance on the undertaking of the Authorized Participant to deliver the missing Deposit Securities as soon as possible, which undertaking shall be secured by such Authorized Participant's delivery and maintenance of collateral consisting of cash in the form of U.S. dollars in immediately available funds having a value (marked to market daily) at least equal to 110%, which WisdomTree Asset Management may change from time to time of the value of the missing Deposit Securities. Such cash collateral must be delivered no later than 2:00 p.m., Eastern time, on the contractual settlement date. The Participant Agreement will permit the Fund to buy the missing Deposit Securities at any time and will subject the Authorized Participant to liability for any shortfall between the cost to the Trust of purchasing such securities and the value of the collateral.

Cash Purchases. When, in the sole discretion of Trust, cash purchases of Creation Unit Aggregations of Shares are available or specified for a Fund, such purchases shall be effected in essentially the same manner as in-kind purchases thereof. In the case of a cash purchase, the Authorized Participant must pay the cash equivalent of the Deposit Securities it would otherwise be required to provide through an in-kind purchase, plus the same Cash Component required to be paid by an in-kind purchaser. In addition, to offset Trust's brokerage and other transaction costs associated with using the cash to purchase the requisite Deposit Securities, the Authorized Participant must pay a fixed purchase Transaction Fee. The Transaction Fees for in-kind and cash purchases of Creation Units of Shares are described in the Prospectus.

Acceptance of Orders for Creation Unit Aggregations. The Trust reserves the absolute right to reject or revoke acceptance of a creation order transmitted to it by the Distributor in respect of any Fund if: (i) the order is not in proper form; (ii) the investor(s), upon obtaining the shares ordered, would own 80% or more of the currently outstanding shares of any Fund; (iii) the Deposit Securities delivered are not as disseminated through the facilities of the NSCC for that date by the Fund as described above; (iv) acceptance of the Deposit Securities would have certain adverse tax consequences to the Fund; (v) acceptance of the Fund Deposit would, in the opinion of counsel, be unlawful; (vi) acceptance of the Fund Deposit would otherwise, in the discretion of the Trust or WisdomTree Asset Management, have an adverse effect on the Trust or the rights of beneficial owners; or (vii) in the event that circumstances outside the control of the Trust, the Custodian, the Distributor or WisdomTree Asset Management make it for all practical purposes impossible to process creation orders. Examples of such circumstances include acts of God; public service or utility problems such as fires, floods, extreme weather conditions and power outages resulting in telephone, telecopy and computer failures; market conditions or activities causing trading halts; systems failures involving computer or other information systems affecting the Trust, WisdomTree Asset Management, the Distributor, DTC, NSCC, the Custodian or sub-custodian or any other participant in the creation process, and similar extraordinary events. The Distributor shall notify a prospective creator of a Creation Unit and/or the Authorized Participant acting on behalf of the creator of a Creation Unit Aggregation of its rejection of the order of such person. The Trust, the Custodian, a sub-custodian and the Distributor are under no duty, however, to give notification of any defects or irregularities in the delivery of Fund Deposits nor shall any of them incur any liability for the failure to give any such notification.

Table of Contents

All questions as to the number of shares of each security in the Deposit Securities and the validity, form, eligibility and acceptance for deposit of any securities to be delivered shall be determined by the Trust, and the Trust's determination shall be final and binding.

Creation Transaction Fee. Each Fund imposes a Transaction Fee on investors purchasing or redeeming Creation Units. For this reason, investors purchasing or redeeming through the DTC Process generally will pay a higher Transaction Fee than will investors doing so through the NSCC Process. The Transaction Fee will be limited to amounts that have been determined by WisdomTree Asset Management to be appropriate. The purpose of the Transaction Fee is to protect the existing shareholders of the Funds from the dilutive costs associated with the purchase and redemption of Creation Units. Where a Fund permits an in-kind purchaser to deposit cash in lieu of depositing one or more Deposit Securities, the purchaser may be assessed a higher Transaction Fee to offset the transaction cost to the Fund of buying those particular Deposit Securities. Transaction Fees will differ for each Fund, depending on the transaction expenses related to each Fund's portfolio securities. Every purchaser of a Creation Unit will receive a Prospectus that contains complete disclosure about the Transaction Fee, including the maximum amount of the Transaction Fee charged by the Fund. Investors who use the services of a broker or other such intermediary may be charged a fee for such services.

The following table sets forth the standard and maximum creation transaction fee for each of the Funds.

Name of Fund	Standard Creation Transaction Fee	Maximum Creation Transaction Fee
WisdomTree DEFA Hedged Fund	\$ 13,000	\$ 52,000
WisdomTree Emerging Markets Hedged Fund	\$ 7,000	\$ 12,000

Placement of Redemption Orders. Orders to redeem Creation Unit Aggregations of the Funds must be delivered through an Authorized Participant that has executed a Participant Agreement. Investors other than Authorized Participants are responsible for making arrangements for a redemption request to be made through an Authorized Participant. Except as described herein, an order to redeem Creation Unit Aggregations of is deemed received by the Trust on the Transmittal Date if: (i) such order is received by the Transfer Agent not later than the Closing Time on the Transmittal Date; (ii) such order is accompanied or followed by the requisite number of shares of the Fund specified in such order, which delivery must be made through DTC to the Transfer Agent no later than 10:00 a.m., Eastern time, on the next Business Day following the Transmittal Date; and (iii) all other procedures set forth in the Participant Agreement are properly followed. Deliveries of Fund Securities to redeeming investors generally will be made within three Business Days. Due to the schedule of holidays in certain countries, however, the delivery of in-kind redemption proceeds for the Funds may take longer than three Business Days after the day on which the redemption request is received in proper form. In such cases, the local market settlement procedures will not commence until the end of the local holiday periods. See below for a list of the local holidays in the foreign countries relevant to the Funds.

In connection with taking delivery of shares of Fund Securities upon redemption of shares of the Funds, a redeeming Beneficial Owner, or Authorized Participant action on behalf of such Beneficial Owner must maintain appropriate security arrangements with a qualified broker-dealer, bank or other custody provider in each jurisdiction in which any of the Fund Securities are customarily traded, to which account such Fund Securities will be delivered.

Table of Contents

To the extent contemplated by an Authorized Participant's agreement, in the event the Authorized Participant has submitted a redemption request in proper form but is unable to transfer all or part of the Creation Unit Aggregation to be redeemed to the Funds' Transfer Agent, the Transfer Agent will nonetheless accept the redemption request in reliance on the undertaking by the Authorized Participant to deliver the missing shares as soon as possible. Such undertaking shall be secured by the Authorized Participant's delivery and maintenance of collateral consisting of cash having a value (marked to market daily) at least equal to 110%, which WisdomTree Asset Management may change from time to time, of the value of the missing shares.

The current procedures for collateralization of missing shares require, among other things, that any cash collateral shall be in the form of U.S. dollars in immediately-available funds and shall be held by the Custodian and marked to market daily, and that the fees of the Custodian and any sub-custodians in respect of the delivery, maintenance and redelivery of the cash collateral shall be payable by the Authorized Participant. The Authorized Participant's agreement will permit the Trust, on behalf of the affected Fund, to purchase the missing shares or acquire the Deposit Securities and the Cash Component underlying such shares at any time and will subject the Authorized Participant to liability for any shortfall between the cost to the Trust of purchasing such shares, Deposit Securities or Cash Component and the value of the collateral.

The calculation of the value of the Fund Securities and the Cash Redemption Amount to be delivered upon redemption will be made according to the procedures set forth under Determination of NAV computed on the Business Day on which a redemption order is deemed received by the Trust. Therefore, if a redemption order in proper form is submitted by a DTC Participant not later than Closing Time on the Transmittal Date, and the requisite number of shares of the relevant Fund are delivered prior to the DTC Cut-Off-Time, then the value of the Fund Securities and the Cash Redemption Amount to be delivered will be determined on such Transmittal Date. If, however, a redemption order is submitted by a DTC Participant not later than the Closing Time on the Transmittal Date but either (i) the requisite number of shares of the relevant Fund are not delivered by the DTC Cut-Off-Time, as described above, on such Transmittal Date, or (ii) the redemption order is not submitted in proper form, then the redemption order will not be deemed received as of the Transmittal Date. In such case, the value of the Fund Securities and the Cash Redemption Amount to be delivered will be computed on the Business Day that such order is deemed received by the Trust, i.e., the Business Day on which the shares of the relevant Fund are delivered through DTC to the Custodian by the DTC Cut-Off-Time on such Business Day pursuant to a properly submitted redemption order.

If it is not possible to effect deliveries of the Fund Securities, the Trust may in its discretion exercise its option to redeem such shares in cash, and the redeeming Beneficial Owner will be required to receive its redemption proceeds in cash. In addition, an investor may request a redemption in cash that the Fund may, in its sole discretion, permit. In either case, the investor will receive a cash payment equal to the NAV of its shares based on the NAV of shares of the relevant Fund next determined after the redemption request is received in proper form (minus a redemption transaction fee and additional charge for requested cash redemptions specified above, to offset the Trust's brokerage and other transaction costs associated with the disposition of Fund Securities). A Fund may also, in its sole discretion, upon request of a shareholder, provide such redeemer a portfolio of securities that differs from the exact composition of the Fund Securities but does not differ in NAV.

Redemptions of shares for Fund Securities will be subject to compliance with applicable federal and state securities laws and each Fund (whether or not it otherwise permits cash redemptions) reserves the right to redeem Creation Unit Aggregations for cash to the extent that the Trust could not lawfully deliver specific Fund Securities upon redemptions or could not do so without first registering the Fund Securities under such laws. An Authorized Participant or an investor for which it is acting subject to a legal restriction with respect to a particular stock included in the Fund Securities applicable to the redemption of a Creation Unit Aggregation may be paid an equivalent amount of cash. The Authorized Participant may request the redeeming Beneficial Owner of the shares to complete an order form or to enter into agreements with respect to such matters as compensating cash payment.

Because the Portfolio Securities of a Fund may trade on the relevant exchange(s) on days that the Listing Exchange for the Funds are closed or are otherwise not Business Days for such Fund, stockholders may not be able to redeem their shares of such Fund, or to purchase and sell shares of such Fund on the Listing Exchange for the Fund, on days when the NAV of such Fund could be significantly affected by events in the relevant foreign markets.

Table of Contents

Cash Redemptions. In the event that, in the sole discretion of Trust, cash redemptions are permitted or required by Trust, proceeds will be paid to the Authorized Participant redeeming Shares on behalf of the redeeming investor as soon as practicable after the date of redemption.

Table of Contents

Taxes

The following discussion of certain U.S. federal income tax consequences of investing in the Funds is based on the Code, U.S. Treasury regulations, and other applicable authority, all as in effect as of the date of the filing of this SAI. These authorities are subject to change by legislative or administrative action, possibly with retroactive effect. The following discussion is only a summary of some of the important U.S. federal income tax considerations generally applicable to investments in the Funds. There may be other tax considerations applicable to particular shareholders. Shareholders should consult their own tax advisors regarding their particular situation and the possible application of foreign, state, and local tax laws.

Qualification as a Regulated Investment Company. Each Fund intends to elect to be treated and qualify each year as a RIC under Subchapter M of the Code. In order to qualify for the special tax treatment accorded RICs and their shareholders, each Fund must, among other things:

(a) derive at least 90% of its gross income each year from (i) dividends, interest, payments with respect to securities loans, gains from the sale or other disposition of stock or securities or foreign currencies, or other income (including but not limited to gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities or currencies, and (ii) net income derived from interests in qualified publicly traded partnerships (as defined below);

(b) diversify its holdings so that, at the end of each quarter of its taxable year, (i) at least 50% of the market value of a Fund's total assets consists of cash and cash items, U.S. government securities, securities of other RICs and other securities, with investments in such other securities limited with respect to any one issuer to an amount not greater than 5% of the value of a Fund's total assets and not greater than 10% of the outstanding voting securities of such issuer, and (ii) not more than 25% of the value of a Fund's total assets is invested in (x) the securities (other than those of the U.S. government or other RICs) of any one issuer or two or more issuers that are controlled by a Fund and that are engaged in the same, similar or related trades or businesses or (y) the securities of one or more qualified publicly traded partnerships; and

(c) distribute with respect to each taxable year at least 90% of its investment company taxable income (as that term is defined in the Code without regard to the deduction for dividends paid generally taxable ordinary income and the excess, if any, of net short-term capital gains over net long-term capital losses) and net tax-exempt interest income.

Table of Contents

In general, for purposes of the 90% of gross income requirement described in (a) above, income derived from a partnership will be treated as qualifying income only to the extent such income is attributable to items of income of the partnership that would be qualifying income if realized directly by a Fund. However, 100% of the net income derived from an interest in a qualified publicly traded partnership (generally, a partnership (x) interests in which are traded on an established securities market or are readily tradable on a secondary market or the substantial equivalent thereof, (y) that derives at least 90% of its income from the passive income sources specified in Code section 7704(d), and (z) that derives less than 90% of its income from the qualifying income described in (a)(i) of the prior paragraph) will be treated as qualifying income. In addition, although in general the passive loss rules of the Code do not apply to RICs, such rules do apply to a RIC with respect to items attributable to an interest in a qualified publicly traded partnership.

Taxation of the Funds. If a Fund qualifies as a RIC, that Fund will not be subject to federal income tax on income and gains that are distributed in a timely manner to its shareholders in the form of dividends.

If a Fund fails to qualify for any taxable year as a RIC, all of its taxable income (including its net capital gains) will be subject to tax at corporate income tax rates without any deduction for distributions to shareholders, and all distributions from earnings and profits, including any distributions of net long-term capital gains and net tax-exempt income, would be taxable to shareholders as dividend income. In addition, a Fund could be required to recognize unrealized gains, pay substantial taxes and interest and make substantial distributions before requalifying as a RIC that is accorded special tax treatment.

Each Fund intends to distribute at least annually to its shareholders substantially all of its investment company taxable income and its net capital gains. Investment company taxable income that is retained by a Fund will be subject to tax at regular corporate rates. If a Fund retains any net capital gain, that gain will be subject to tax at corporate rates, but the Fund may designate the retained amount as undistributed capital gains in a notice to its shareholders who (i) will be required to include in income for federal income tax purposes, as long-term capital gain, their shares of such undistributed amount, and (ii) will be entitled to credit their proportionate shares of the tax paid by the Fund on such undistributed amount against their federal income tax liabilities, if any, and to claim refunds on a properly-filed U.S. tax return to the extent the credit exceeds such liabilities. For federal income tax purposes, the tax basis of shares owned by a shareholder of that Fund will be increased by an amount equal to the difference between the amount of undistributed capital gains included in the shareholder's gross income and the tax deemed paid by the shareholder under clause (ii) of the preceding sentence.

If a Fund fails to distribute in a calendar year an amount at least equal to the sum of 98% of its ordinary income for such year and 98% of its capital gain net income for the one-year period ending October 31 of such year, plus any retained amount from the prior year, the Fund will be subject to a nondeductible 4% excise tax on the undistributed amount. For these purposes, a Fund will be treated as having distributed any amount on which it has been subject to corporate income tax for the taxable year ending within the calendar year. A dividend paid to shareholders in January of a year generally is deemed to have been paid by a Fund on December 31 of the preceding year if the dividend was declared and payable to shareholders of record on a date in October, November, or December of that preceding year. Each Fund intends to declare and pay dividends and distributions in the amounts and at the times necessary to avoid the application of the 4% excise tax, although there can be no assurance that it will be able to do so.

Fund Distributions. Distributions are taxable whether shareholders receive them in cash or reinvest them in additional shares. Moreover, distributions on the Funds' shares are generally subject to federal income tax as described herein to the extent they do not exceed the Funds' realized income and gains, even though such dividends and distributions may economically represent a return of a particular shareholder's investment. Such distributions are likely to occur in respect of shares purchased at a time when a Fund's net asset value reflects gains that are either unrealized, or realized but not distributed. Such realized gains may be required to be distributed even when a Fund's net asset value also reflects unrealized losses.

Distributions by the Funds of investment income are generally taxable as ordinary income. Taxes on distributions of capital gains are determined by how long a Fund owned the investments that generated those gains, rather than how long a shareholder has owned his or her Fund shares. Distributions of net capital gains from the sale of investments that the Funds owned for more than one year and that are properly designated by the Funds as capital gain dividends (Capital Gain Dividends) will be taxable as long-term capital gains. Distributions from capital gains are generally made after applying any available capital loss carryovers. Long-term capital gain rates applicable to individuals have been temporarily reduced in general, to 15%, with lower rates applying to taxpayers in the 10% and 15% rate brackets for taxable years beginning before January 1, 2011. Distributions of gains from the sale of investments that the Fund owned for one year or less will be taxable as ordinary income.

Table of Contents

In determining its net capital gain for Capital Gain Dividend purposes, a RIC generally must treat any net capital loss or any net long-term capital loss incurred after October 31 as if it had been incurred in the succeeding year. Treasury Regulations permit a RIC, in determining its taxable income, to elect to treat all or a part of any net capital loss, any net long-term capital loss or any foreign currency loss incurred after October 31 as if it had been incurred in the succeeding year.

For taxable years beginning before January 1, 2011, distributions of investment income designated by a Fund as derived from qualified dividend income will be taxed in the hands of individuals at the rates applicable to long-term capital gain, provided holding period and other requirements are met at both the shareholder and Fund level. In order for some portion of the dividends received by a Fund shareholder to be qualified dividend income, the Fund making the distribution must meet holding period and other requirements with respect to some portion of the dividend-paying stocks in its portfolio and the shareholder must meet holding period and other requirements with respect to the Fund's shares. A dividend will not be treated as qualified dividend income (at either the Fund or shareholder level) (1) if the dividend is received with respect to any share of stock held for fewer than 61 days during the 121-day period beginning on the date that is 60 days before the date on which such share becomes ex-dividend with respect to such dividend (or, in the case of certain preferred stock, 91 days during the 181-day period beginning 90 days before the ex-dividend date), (2) to the extent that the recipient is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property, (3) if the recipient elects to have the dividend income treated as investment income for purposes of the limitation on deductibility of investment interest, or (4) if the dividend is received from a foreign corporation that is (a) not eligible for the benefits of a comprehensive income tax treaty with the United States (with the exception of dividends paid on stock of such a foreign corporation that is readily tradable on an established securities market in the United States) or (b) treated as a passive foreign investment company.

In general, distributions of investment income designated by a Fund as derived from qualified dividend income will be treated as qualified dividend income by a shareholder taxed as an individual, provided the shareholder meets the holding period and other requirements described above with respect to a Fund's shares. If the aggregate qualified dividends received by a Fund during any taxable year are 95% or more of its gross income (excluding net long-term capital gain over net short-term capital loss), then 100% of a Fund's dividends (other than dividends properly designated as Capital Gain Dividends) will be eligible to be treated as qualified dividend income.

Dividends of net investment income received by corporate shareholders of a Fund will qualify for the 70% dividends received deduction generally available to corporations to the extent of the amount of qualifying dividends received by the Funds from domestic corporations for the taxable year. A dividend received by a Fund will not be treated as a qualifying dividend (1) if the stock on which the dividend is paid is considered to be debt-financed (generally, acquired with borrowed funds), (2) if it has been received with respect to any share of stock that the Fund has held for less than 46 days during the 91-day period beginning on the date that is 45 days before the date on which the share becomes ex-dividend with respect to such dividend (91 days during the 181-day period beginning 90 days before the ex-dividend date in the case of certain preferred stock) or (3) to the extent that the Fund is under an obligation (pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property. Moreover, the dividends received deduction may be disallowed or reduced (1) if the corporate shareholder fails to satisfy the foregoing requirements with respect to its shares of a Fund or (2) by application of the Code.

To the extent that a Fund makes a distribution of income received by the Fund in lieu of dividends (a substitute payment) with respect to securities on loan pursuant to a securities lending transaction, such income will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends received deduction for corporate shareholders.

If a Fund makes distributions to a shareholder in excess of the Fund's current and accumulated earnings and profits in any taxable year, the excess distribution will be treated as a return of capital to the extent of the shareholder's tax basis in its shares, and thereafter as capital gain. A return of capital is not taxable, but reduces a shareholder's tax basis in its shares, thus reducing any loss or increasing any gain on a subsequent taxable disposition by the shareholder of its shares.

Sale or Exchange of Shares. A sale or exchange of shares in the Funds may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of shares will be treated as long-term capital gain or loss if the shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of shares will be treated as short-term capital gain or loss. However, any loss realized upon a taxable disposition of shares held for six months or less will be treated as long-term, rather than short-term, to the extent of any long-term capital gain distributions received (or deemed received) by the shareholder with respect to the shares. All or a portion of any loss realized upon a taxable disposition of shares will be disallowed if other substantially identical shares of a Fund are purchased within 30 days before or after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

Backup Withholding. The Funds (or financial intermediaries, such as brokers, through which a shareholder holds Fund shares) generally are required to withhold and to remit to the U.S. Treasury a percentage of the taxable distributions and sale or redemption proceeds paid to any shareholder who fails to properly furnish a correct taxpayer identification number, who has under-reported dividend or interest income, or who fails to certify that he, she or it is not subject to such withholding. The backup withholding tax rate is 28% for amounts paid through 2010. This

Edgar Filing: WisdomTree Trust - Form 485BPOS

rate will expire and the backup withholding rate will be 31% for amounts paid after December 31, 2010, unless Congress enacts legislation providing otherwise.

Federal Tax Treatment of Certain Fund Investments. Transactions of the Funds in options, futures contracts, hedging transactions, forward contracts, swap agreements, participation certificates, straddles and foreign currencies may be subject to various special and complex tax rules, including mark-to-market, constructive sale, straddle, wash sale and short sale rules. These rules could affect whether gains and losses recognized by a Fund are treated as ordinary income or capital gain, accelerate the recognition of income to a Fund, or defer a Fund's ability to recognize losses. These rules may in turn affect the amount, timing or character of the income distributed to shareholders by a Fund.

The Funds' transactions in foreign currencies, foreign currency-denominated debt obligations and certain foreign currency options, futures contracts, and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned.

Certain of a Fund's hedging activities (including transactions in foreign currencies or foreign-currency denominated instruments) may produce a difference between its book income and its taxable income. If a Fund's book income exceeds its taxable income, the distribution (if any) of such excess generally will be treated as (i) a dividend to the extent of the Fund's remaining earnings and profits, (ii) thereafter, as a return of capital to the extent of the recipient's basis in its shares, and (iii) thereafter, as gain from the sale or exchange of a capital asset. If a Fund's book income is less than its taxable income, the Fund could be required to make distributions exceeding book income to qualify as a RIC that is accorded special tax treatment.

Foreign Investments. Income received by a Fund from investments in foreign countries (including, for example, dividends, interest or gains from stock or securities of non-U.S. issuers) may be subject to withholding and other taxes imposed by such countries. Tax treaties between such countries and the U.S. may in some cases reduce or eliminate such taxes. If as of the end of a Fund's taxable year more than 50% of a Fund's assets consist of the securities of foreign corporations, that Fund may elect to permit shareholders to claim a credit or deduction on their income tax returns for their pro rata portions of qualified taxes paid by that Fund during that taxable year to foreign countries in respect of foreign securities the Fund has held for at least the minimum period specified in the Code. In such a case, shareholders will include in gross income from foreign sources their pro rata shares of such taxes. A shareholder's ability to claim a foreign tax credit or deduction in respect of foreign taxes paid by a Fund may be subject to certain limitations imposed by the Code, which may result in the shareholder not getting a full credit or deduction for the amount of such taxes. Shareholders who do not itemize on their federal income tax returns may claim a credit, but not a deduction, for such foreign taxes.

Investment in PFICs. Equity investments by a Fund in certain passive foreign investment companies (PFICs) could potentially subject the Fund to a U.S. federal income tax (including interest charges) on distributions received from the PFICs or on proceeds received from dispositions of shares in the PFICs. This tax cannot be eliminated by making distributions to Fund shareholders. However, a Fund may elect to avoid the imposition of that tax. For example, a Fund may make an election to mark the gains (and to a limited extent losses) of a PFIC to the market as though it had sold and repurchased its holdings in the PFIC on the last day of the Fund's taxable year. A Fund may also, in certain circumstances, elect to treat a PFIC as a qualified electing fund (i.e., make a QEF election), in which case the Fund will be required to include as income its share of the company's income and net capital gains annually, regardless of whether it receives any distribution from the company. Such gains and losses are treated as ordinary income and loss. The mark-to-market and QEF elections may accelerate the recognition of income (without the receipt of cash) and increase the amount required to be distributed by a Fund to avoid taxation. Making either of these elections therefore may require a Fund to liquidate other investments (including when it is not advantageous to do so) to meet its distribution requirement, which also may accelerate the recognition of gain and affect a Fund's total return. Dividends paid by PFICs will not be eligible to be treated as qualified dividend income.

Additional Tax Information Concerning REITs. Each Fund may invest in REITs. Investments in REIT equity securities may require a Fund to accrue and distribute income not yet received. To generate sufficient cash to make the requisite distributions, a Fund may be required to sell securities in its portfolio (including when it is not advantageous to do so) that it otherwise would have continued to hold. A Fund's investments in REIT equity securities may at other times result in a Fund's receipt of cash in excess of the REIT's earnings; if a Fund distributes these amounts, these distributions could constitute a return of capital to Fund shareholders for federal income tax purposes. Dividends received by a Fund from a REIT generally will not constitute qualified dividend income.

A Fund may invest in REITs that hold residual interests in real estate mortgage investment conduits (REMICs) or which are, or have certain wholly-owned subsidiaries that are, taxable mortgage pools (TMPs). Under certain Treasury guidance, a portion of a Fund's income from a REIT that is attributable to the REIT's residual interest in a REMIC or equity interests in a TMP (referred to in the Code as an "excess inclusion") will be subject to federal income tax in all events. This guidance provides that excess inclusion income of a RIC, such as a Fund, must generally be allocated to shareholders of the RIC in proportion to the dividends received by such shareholders, with the same consequences as if the shareholders held the related REMIC residual interest or TMP interests directly. In general, excess inclusion income allocated to shareholders (i) cannot be offset by net operating losses (subject to a limited exception for certain thrift institutions), (ii) will constitute unrelated business taxable income to entities (including a qualified pension plan, an individual retirement account, a 401(k) plan, a Keogh plan or other tax-exempt entity) subject to tax on unrelated business income, thereby potentially requiring such an entity that is allocated excess inclusion income, and otherwise might not be required to file a tax return, to file a tax return and pay tax on such income (see "Taxes - Tax-Exempt Shareholders" below),

Edgar Filing: WisdomTree Trust - Form 485BPOS

and (iii) in the case of a foreign shareholder, will not qualify for any reduction in U.S. federal withholding tax. No Fund intends to invest a substantial portion of its assets in REITs which generate excess inclusion income.

Table of Contents

Tax-Exempt Shareholders. Under current law, income of a RIC that would be treated as UBTI if earned directly by a tax-exempt entity generally will not be attributed as UBTI to a tax-exempt entity that is a shareholder in the RIC. Notwithstanding this blocking effect, a tax-exempt shareholder could realize UBTI by virtue of its investment in a Fund if shares in that Fund constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of Code Section 514(b). A tax-exempt shareholder may also recognize UBTI if a Fund recognizes excess inclusion income derived from direct or indirect investments in REMICs or TMPs.

In addition, special tax consequences apply to charitable remainder trusts (CRTs) that invest in RICs that invest directly or indirectly in residual interests in REMICs or TMPs. Under legislation enacted in December 2006, a CRT (as defined in Section 664 of the Code) that realizes any UBTI for a taxable year must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI as a result of investing in a Fund that recognizes excess inclusion income. Rather, if at any time during a taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a share in a Fund that recognizes excess inclusion income, then a Fund will be subject to a tax on that portion of its excess inclusion income for the taxable year that is allocable to such shareholders at the highest federal corporate income tax rate. The extent to which this IRS guidance remains applicable in light of the December 2006 legislation is unclear. To the extent permitted under the 1940 Act, each Fund may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder's distributions for the year by an amount of the tax that relates to that shareholder's interest in a Fund. The Funds have not yet determined whether such an election will be made. CRTs are urged to consult their tax advisors concerning the consequences of investing in the Funds. The Funds do not intend to invest directly or indirectly in residual interests in REMICs.

Non-U.S. Shareholders. In general, dividends other than Capital Gain Dividends paid by a Fund to a shareholder that is not a U.S. person within the meaning of the Code (a foreign person) are subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate) even if they are funded by income or gains (such as portfolio interest, short-term capital gains, or foreign-source dividend and interest income) that, if paid to a foreign person directly, would not be subject to withholding.

Effective for taxable years beginning before January 1, 2008, and assuming certain certification requirements were complied with, a RIC generally was not required to withhold any amounts (i) with respect to distributions attributable to U.S.-source interest income that would be treated as portfolio interest and accordingly would not be subject to U.S. federal income tax if earned directly by an individual foreign person, and (ii) with respect to distributions of net short-term capital gains in excess of net long-term capital losses, in each case to the extent such distributions were properly designated by the RIC. Pending legislation would extend the exemption from withholding for interest-related and short-term capital gain distributions. At the time of this filing, it is unclear whether the legislation will be enacted and, if enacted, what the term of the extension will be. Even if such legislation is enacted, depending on the circumstances, the Funds may make such designations with respect to all, some or none of their potentially eligible dividends or treat such dividends, in whole or in part, as ineligible for this exemption from withholding. Moreover, in the case of shares held through an intermediary, the intermediary may withhold even if a Fund makes a designation with respect to a payment.

A beneficial holder of shares who is a foreign person is not, in general, subject to U.S. federal income tax on gains (and is not allowed a U.S. income tax deduction for losses) realized on a sale of shares of a Fund or on Capital Gain Dividends unless (i) such gain or dividend is effectively connected with the conduct of a trade or business carried on by such holder within the United States or (ii) in the case of an individual holder, the holder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale or the receipt of the Capital Gain Dividend and certain other conditions are met.

In order for a foreign investor to qualify for an exemption from backup withholding, the foreign investor must comply with special certification and filing requirements. Foreign investors in the Funds should consult their tax advisors in this regard. Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder's U.S. federal income tax liability, provided the appropriate information is furnished to the Internal Revenue Service.

A beneficial holder of shares who is a foreign person may be subject to state and local tax and to the U.S. federal estate tax in addition to the federal income tax consequences referred to above. If a shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by the shareholder in the United States.

Creation and Redemption of Creation Units. An Authorized Participant who exchanges securities for Creation Units generally will recognize a gain or a loss. The gain or loss will be equal to the difference between the market value of the Creation Units at the time and the sum of the exchanger's aggregate basis in the securities surrendered plus the amount of cash paid for such Creation Units. A person who redeems Creation Units will generally recognize a gain or loss equal to the difference between the exchanger's basis in the Creation Units and the sum of the aggregate market value of any securities received plus the amount of any cash received for such Creation Units. The Internal Revenue Service, however, may assert that a loss realized upon an exchange of securities for Creation Units cannot be deducted currently under the rules

Edgar Filing: WisdomTree Trust - Form 485BPOS

governing wash sales, or on the basis that there has been no significant change in economic position.

Any capital gain or loss realized upon the creation of Creation Units will generally be treated as long-term capital gain or loss if the securities exchanged for such Creation Units have been held for more than one year. Any capital gain or loss realized upon the redemption of Creation Units will generally be treated as long-term capital gain or loss if the shares comprising the Creation Units have been held for more than one year. Otherwise, such capital gains or losses will be treated as short-term capital gains or losses.

In some circumstances, a redemption of Creation Units may be treated as resulting in a distribution to which section 301 of the Code applies, potentially causing amounts received by the shareholder in the redemption to be treated as dividend income rather than as a payment in exchange for Creation Units. The rules for determining when a redemption will be treated as giving rise to a distribution under section 301 of the Code and the tax consequences of Code section 301 distributions are complex.

Persons purchasing or redeeming Creation Units should consult their own tax advisors with respect to the tax treatment of any creation or redemption transaction.

Section 351. The Trust on behalf of each Fund has the right to reject an order for a purchase of shares of the Trust if the purchaser (or group of purchasers) would, upon obtaining the shares so ordered, own 80% or more of the outstanding shares of a given Fund and if, pursuant to Section 351 of the Code, that Fund would have a basis in the securities different from the market value of such securities on the date of deposit. The Trust also has the right to require information necessary to determine beneficial share ownership for purposes of the 80% determination.

Tax Shelter Reporting Regulations. Under U.S. Treasury regulations, if a shareholder recognizes a loss of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the Internal Revenue Service a disclosure statement on Form 8886. Direct shareholders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all RICs. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer's treatment of the loss is proper. Shareholders should consult their tax advisors to determine the applicability of these regulations in light of their individual circumstances.

General Considerations. The federal income tax discussion set forth above is for general information only. Prospective investors should consult their tax advisors regarding the specific federal income tax consequences of purchasing, holding and disposing of shares of the Funds, as well as the effect of state, local and foreign tax law and any proposed tax law changes.

Table of Contents

Determination of NAV

The NAV of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding.

Stocks held by a Fund are valued at their market value when reliable market quotations are readily available. Certain short-term debt instruments which may be used to manage a Fund's cash are valued on the basis of amortized cost. The values of any foreign securities held by a Fund are converted into U.S. dollars using an exchange rate deemed appropriate by the Fund.

When reliable market quotations are not readily available, securities are priced at their fair value, which is the price a security's owner might reasonably expect to receive upon its sale. A Fund also will use fair-value pricing if the value of a security it holds has been materially affected by events occurring before the NAV Calculation Time but after the close of the primary markets or exchanges on which the security is traded. This most commonly occurs with foreign securities, which may trade on foreign exchanges that close many hours before the Fund's pricing time. Intervening events might be company-specific (e.g., earnings report, merger announcement); country-specific (e.g., natural disaster, economic or political news, act of terrorism, interest rate change); or global. Intervening events include price movements in U.S. markets that are deemed to affect the value of foreign securities. Fair-value pricing also may be used for domestic securities if, for example, (i) trading in a security is halted and does not resume before the Fund's pricing time or if a security does not trade in the course of a day, or (ii) the Fund holds enough of the security that its price could affect the Fund's NAV. Since the International Funds invest in securities listed on foreign exchanges that trade on weekends or other days when the Funds do not price their shares, the NAV of these Funds may change on days when shareholders will not be able to purchase or redeem the Fund's shares.

Fair-value prices are determined by the Funds according to procedures adopted by the Board of Trustees. When fair-value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from a Fund in Creation Units. Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV.

Fund shares are purchased or sold on a national securities exchange at market prices, which may be higher or lower than NAV. No secondary sales will be made to brokers or dealers at a concession by the Distributor or by a Fund. Purchases and sales of shares in the secondary market, which will not involve a Fund, will be subject to customary brokerage commissions and charges. Transactions in Fund shares will be priced at NAV only if you purchase or redeem shares directly from a Fund in Creation Units.

Dividends and Distributions

Each Fund pays out dividends, if any, to investors at least annually. Each Fund distributes its net realized capital gains, if any, to investors annually. The Funds may occasionally be required to make supplemental distributions at some other time during the year. Distributions in cash may be reinvested automatically in additional whole shares only if the broker through whom you purchased shares makes such option available. Your broker is responsible for distributing the income and capital gain distributions to you.

Table of Contents

The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income.

Financial Statements

The audited financial statements, including the financial highlights appearing in the Trust's annual report to shareholders for the fiscal year ended March 31, 2008 have been filed electronically with the Securities and Exchange Commission. You may request a copy of the Trust's Annual Report at no charge by calling 866-909-9473 or through the Trust's website at www.wisdomtree.com. Financial Highlights are not yet available for the Funds because they had not commenced operations as of the date of this SAI.

Miscellaneous Information

Counsel. Morgan, Lewis & Bockius LLP, 1111 Pennsylvania Avenue, NW Washington DC 2004 is counsel to the Trust.

Independent Registered Public Accounting Firm. Ernst & Young LLP, with offices located at 5 Times Square, New York, New York 10036, serves as the independent auditor of the Trust.

Item 24. Persons Controlled by or under Common Control with Registrant

Not applicable.

Item 25. Indemnification

Reference is made to Article IX of the Registrant's Trust Instrument included as Exhibit (a)(1) to this Registration Statement with respect to the indemnification of the Registrant's trustees and officers, which is set forth below:

Section 1. LIMITATION OF LIABILITY.

All Persons contracting with or having any claim against the Trust or a particular Series shall look only to the assets of the Trust or Assets belonging to such Series, respectively, for payment under such contract or claim; and neither the Trustees nor any of the Trust's officers, employees, or agents, whether past, present, or future, shall be personally liable therefor. Every written instrument or obligation on behalf of the Trust or any Series shall contain a statement to the foregoing effect, but the absence of such statement shall not operate to make any Trustee or officer of the Trust liable thereunder. Provided they have exercised reasonable care and have acted

Table of Contents

under the reasonable belief that their actions are in the best interest of the Trust, the Trustees and officers of the Trust shall not be responsible or liable for any act or omission or for neglect or wrongdoing of them or any officer, agent, employee, Investment Adviser, or independent contractor of the Trust, but nothing contained in this Trust Instrument or in the Delaware Act shall protect any Trustee or officer of the Trust against liability to the Trust or to Shareholders to which he would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office.

Section 2. INDEMNIFICATION.

(a) Subject to the exceptions and limitations contained in subsection (b) below:

- (i) every Person who is, or has been, a Trustee or an officer, employee, or agent of the Trust (Covered Person) shall be indemnified by the Trust or the appropriate Series (out of Assets belonging to that Series) to the fullest extent permitted by law against liability and against all expenses reasonably incurred or paid by him in connection with any claim, action, suit, or proceeding in which he becomes involved as a party or otherwise by virtue of his being or having been a Covered Person and against amounts paid or incurred by him in the settlement thereof; provided that the transfer agent of the Trust or any Series shall not be considered an agent for these purposes unless expressly deemed to be such by the Trustees in a resolution referring to this Article.
- (ii) as used herein, the words claim, action, suit, or proceeding shall apply to all claims, actions, suits, or proceedings (civil, criminal, or other, including appeals), actual or threatened, and the words liability and expenses shall include attorneys fees, costs, judgments, amounts paid in settlement, fines, penalties, and other liabilities.

(b) No indemnification shall be provided hereunder to a Covered Person:

- (i) who has been adjudicated by a court or body before which the proceeding was brought (A) to be liable to the Trust or its Shareholders by reason of willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office or (B) not to have acted in good faith in the reasonable belief that his action was in the best interest of the Trust; or
- (ii) in the event of a settlement, unless there has been a determination that such Covered Person did not engage in willful misfeasance, bad faith, gross negligence, or reckless disregard of the duties involved in the conduct of his office (A) by the court or other body approving the settlement, (B) by at least a majority of those Trustees who are neither Interested Persons of the Trust nor are parties to the matter based on a review of readily available facts (as opposed to a full trial-type inquiry), or (C) by written opinion of independent legal counsel based on a review of readily available facts (as opposed to a full trial-type inquiry).

(c) The rights of indemnification herein provided may be insured against by policies maintained by the Trust, shall be severable, shall not be exclusive of or affect any other rights to which any Covered Person may now or hereafter be entitled, and shall inure to the benefit of the heirs, executors, and administrators of a Covered Person.

(d) To the maximum extent permitted by applicable law, expenses in connection with the preparation and presentation of a defense to any claim, action, suit, or proceeding of the character described in subsection (a) of this Section shall be paid by the Trust or applicable Series from time to time prior to final disposition thereof on receipt of an undertaking by or on behalf of such Covered Person that such amount will be paid over by him to the Trust or applicable Series if it is ultimately determined that he is not entitled to indemnification under this Section, provided that either (i) such Covered Person has provided appropriate security for such undertaking, (ii) the Trust is insured against losses arising out of any such advance payments, or (iii) either a majority of the Trustees who are neither Interested Persons of the Trust nor parties to the matter, or independent legal counsel in a written opinion, has determined, based on a review of readily available facts (as opposed to a full trial-type inquiry) that there is reason to believe that such Covered Person will not be disqualified from indemnification under this Section.

Table of Contents

- (e) Any repeal or modification of this Article IX by the Shareholders, or adoption or modification of any other provision of this Trust Instrument or the By-laws inconsistent with this Article, shall be prospective only, to the extent that such repeal, modification, or adoption would, if applied retrospectively, adversely affect any limitation on the liability of any Covered Person or indemnification available to any Covered Person with respect to any act or omission that occurred prior to such repeal, modification, or adoption.

Reference is made to Article VI of the Registrant's By-Laws included as Exhibit (b) to this Registration Statement with respect to the indemnification of the Registrant's trustees and officers, which is set forth below:

Section 6.2. Limitation of Liability.

The Declaration refers to the Trustees as Trustees, but not as individuals or personally; and no Trustee, officer, employee or agent of the Trust shall be held to any personal liability, nor shall resort be had to their private property for the satisfaction of any obligation or claim or otherwise in connection with the affairs of the Trust; provided, that nothing contained in the Declaration or the By-Laws shall protect any Trustee or officer of the Trust from any liability to the Trust or its Shareholders to which he would otherwise be subject by reason of willful misfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be provided to trustees, officers and controlling persons of the Trust, pursuant to the foregoing provisions or otherwise, the Trust has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933, as amended, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Trust of expenses incurred or paid by a trustee, officer or controlling person of the Trust in connection with the successful defense of any action, suit or proceeding or payment pursuant to any insurance policy) is asserted against the Trust by such trustee, officer or controlling person in connection with the securities being registered, the Trust will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Item 26. Business and Other Connections of the Investment Adviser

WisdomTree Asset Management, Inc. (WTAM), 380 Madison Avenue, 21st Floor, New York, NY 10017, a wholly-owned subsidiary of WisdomTree Investments, Inc., is a registered investment adviser and serves as manager for all funds of the Registrant. The description of WTAM under the caption of Management-Investment Adviser in the Prospectus and under the caption Management of the Trust in the Statement of Additional Information constituting Parts A and B, respectively, of this Registration Statement are incorporated herein by reference.

Each of the directors and officers of WTAM will also have substantial responsibilities as directors and/or officers of WisdomTree Investments, Inc., 380 Madison Avenue, 21st Floor, New York, NY 10017. To the knowledge of the Registrant, except as set forth below, none of the directors or executive officers of WTAM is or has been at any time during the past two fiscal years engaged in any other business, profession, vocation or employment of a substantial nature.

Name	Position with WisdomTree Asset	Principal Business(es) During the
	Management, Inc.	Last Two Fiscal Years
Jonathan Steinberg	President, (Principal Executive Officer) and Trustee	Chief Executive Officer of WisdomTree Investments (formerly, Index Development Partners, Inc.); Director of WisdomTree Investments, Inc.; President of the WisdomTree Funds since 2005
Amit Muni	Treasurer (Principal Financial and Accounting Officer), Assistant Secretary	Chief Financial Officer and Assistant Secretary of WisdomTree Investments, Inc. (formerly, Index Development Partners, Inc.) since March 2008; International Securities Exchange Holdings, Inc. (ISE), Controller and Chief Accounting Officer, 2003 to 2008; Instinet Group, Inc., Vice President Finance, 2000 to 2003.
Richard Morris	Deputy General Counsel, Chief Legal	Secretary and Chief Legal Officer of the WisdomTree Funds since 2005; Deputy General Counsel of WisdomTree

Edgar Filing: WisdomTree Trust - Form 485BPOS

Officer

Investments, Inc. (formerly, Index Development Partners, Inc.) since 2005; Senior Counsel at Barclays Global Investors, N.A. from 2002 to 2005; Counsel at Barclays Global Investors, N.A. from 2000 to 2001.

Table of Contents

WTAM, with the approval of the Registrant's board of trustees, selects the sub-adviser for the funds of the Registrant. Mellon Capital Management Corporation serves as sub-adviser for the funds.

Name	Position with Sub Advisors	Principal Business(es) During the
		last Two Fiscal Years
Steve Wetter	Vice President, Senior Portfolio Manager	Portfolio Management, Index Fund Management
Denise Krisko	Managing Director, Equity Index Strategies, East Coast	Head of Index Management

Item 27. Principal Underwriters

(a) The Trust's distributor, ALPS Distributors, Inc. (the Distributor), acts as distributor for the Registrant and the following investment companies: Accessor Funds, AARP Funds, Agile Funds, Ameristock Mutual Funds, Inc., DIAMONDS Trust, Drake Funds, Financial Investors Trust, Financial Investors Variable Insurance Trust, First Funds, Firsthand Funds, Forward Emerald Funds, Henssler Funds, Inc., Holland Balanced Fund, Laudus Trust, Milestone, Nasdaq 100 Trust, PowerShares Exchange-Traded Funds Trust, SPDR Trust, MidCap SPDR Trust, Select Sector SPDR Trust, Stonebridge Funds, Inc., Utopia Funds, W. P. Stewart Funds, Wasatch Funds, and Westcore Trust.

(b) To the best of Registrant's knowledge, the directors and executive officers of the Distributor are as follows:

Name	Position(s) and Office(s) with the Distributor
Edmund J. Burke	President
Thomas Carter	Managing Director - Sales and Finance; Treasurer
Jeremy O. May	Managing Director - Operations and Client Service; Secretary
Diana Adams	Vice President, Controller
Tane Tyler	Chief Legal Officer, Assistant Secretary
Phil Perrone	Chief Compliance Officer
