#### **CADENCE FINANCIAL CORPORATION REPORTS SECOND QUARTER RESULTS**

STARKVILLE, Miss. (July 23, 2009) Cadence Financial Corporation (NASDAQ: CADE), a \$2.0 billion bank holding company whose principal subsidiary is Cadence Bank, N.A., today reported a net loss applicable to common shareholders of \$14.7 million, or \$1.23 per diluted share, for the second quarter ended June 30, 2009, compared with net income of \$1.9 million, or \$0.16 per diluted share, for the second quarter of 2008. The loss for the 2009 period was due primarily to a higher provision for loan losses and higher non-interest expenses related to increased FDIC insurance premiums and expenses related to other real estate owned (OREO) compared with the second quarter of 2008.

#### ***Second Quarter Results***

Net interest income declined 24.1% to \$10.7 million in the second quarter of 2009 compared with \$14.0 million in the second quarter of 2008. Net margin was 2.21% in the second quarter of 2009 compared with 3.11% in the second quarter of 2008. The decline in the net margin was due to the yield on earning assets declining 147 basis points while the cost of funding declined only 64 basis points. The reduction in net margin was due in part to Cadence intentionally building liquidity during the second quarter by accumulating deposits and investing in short-term assets. The increased liquidity resulted in lower yields on the short-term portfolio that was estimated to cost about 21 basis points in net margin for the second quarter of 2009. Interest income was also reduced by approximately \$602,000 (12 basis points) in the second quarter of 2009 due to waived interest charges associated with loans on non-accrual status compared with \$122,000 (2 basis points) in the second quarter of 2008.

Total interest income declined 20.6% to \$20.4 million in the second quarter of 2009 compared with \$25.7 million in the second quarter of 2008. Interest and fees on loans declined 23.7% due to a 114 basis point decrease in average yields and an \$85.4 million decrease in average loan balances from the second quarter of 2008. Non-performing loans totaled \$72.8 million in the second quarter of 2009 compared with \$10.7 million in the second quarter of 2008. In the second quarter of 2009, interest and dividends on investment securities fell 9.1% to \$4.7 million compared with the second quarter of 2008 due to a 51 basis point decline in yield offset partially by a \$20.0 million increase in the average investment securities portfolio.

**CADE Reports Second Quarter Results**

**Page 2**

**July 23, 2009**

Cadence's provision for loan losses was \$23.0 million in the second quarter of 2009 compared with \$3.3 million in the second quarter of 2008 and \$32.8 million in the first quarter of 2009. The second quarter 2009 provision included \$15.3 million in net charge-offs and a \$7.7 million increase in the allowance for loan losses. At the end of the second quarter of 2009, the allowance for loan losses was \$46.7 million, or 3.8% of total loans, compared with \$15.8 million, or 1.2% of total loans, in the second quarter of 2008. Net interest loss after provision for loan losses was \$12.3 million in the second quarter of 2009 compared with \$10.7 million in net interest income after provision for loan losses in the second quarter of 2008.

The majority of the increase in Cadence's non-performing loans since last year was due to real estate loans in the residential construction and development sectors, reflecting the economy's impact on real estate based loans. In the latest quarter, the growth in non-performing loans was due largely to the middle Tennessee market where Cadence has added staff with the sole focus on managing special assets.

Cadence has taken additional steps to reduce its exposure to real estate loans across its franchise and has achieved a decrease in loans for 1-4 speculative residential construction, land development and lots to builders in addition to lower balances on commercial real estate loans. These higher risk loan categories are down approximately \$13.8 million in the latest three months and down \$91.7 million since the second quarter of 2008. In addition, OREO is down by 13.1% since the first quarter of 2009 to \$16.7 million and is at the lowest point in over a year. The reduction in OREO is due to increased special assets staff that is focused on minimizing losses from non-performing loans and repossessed assets.

Total non-interest income was \$5.2 million in the second quarter of 2009 compared with \$5.1 million in the second quarter of 2008. The increase in non-interest income was due to higher insurance fees and commissions, mortgage loan origination income, and gains on securities; offset partially by lower service charges on deposits, trust department income and other non-interest income. Trust department income was down due to lower fees related to the decline in the market value of equity investments under management, while the increase in mortgage fee income benefited from higher transaction volume due to an increase in home financings compared with the second quarter of 2008.

Non-interest expenses increased 20.2% to \$16.3 million in the second quarter of 2009 compared with \$13.6 million in the second quarter of 2008. The increase was due primarily to other operating expenses that rose 70% to \$6.5 million compared with \$3.8 million in the second quarter of 2008. Second quarter 2009 non-interest expenses increased due to higher costs for FDIC insurance premiums and special assessments, and expenses related to OREO. FDIC insurance premiums and special assessments increased from \$274,000 in the second quarter of 2008 to \$1,225,000 in the second quarter of 2009. OREO related costs increased to \$1,609,000 in the second quarter of 2009 compared with \$222,000 in the same quarter of the prior year. Salary expense was up 1.2% to \$7.8 million and premises expenses were down 1.5% to \$2.0 million compared with the second quarter of 2008. The minimal growth in salary and premises costs are attributable to Cadence's continued focus on cost controls.

Cadence's pre-tax loss for the second quarter of 2009 was \$23.5 million compared with pre-tax income of \$2.3 million in the second quarter of 2008.

Net loss for the second quarter of 2009 was \$14.0 million. Net loss applicable to common shareholders was \$14.7 million, or \$1.23 per diluted share. This compares with net income of \$1.9 million, or \$0.16 per diluted share, in the second quarter of 2008.

Cadence sold \$44 million in senior preferred shares to the U.S. Treasury in mid-January 2009. The preferred shares pay a cumulative annual dividend of 5% for the first five years. Cadence's second quarter 2009 loss applicable to common shareholders included \$652,000 related to the preferred dividend and accretion of the discount recorded in relation to the preferred stock.

**Page 3**

**July 23, 2009**

***Six Month Results***

Net interest income declined 19.4% to \$23.0 million in the first six months of 2009 compared with \$28.6 million in the same period of 2008. The decrease in net interest income was due to a 75 basis point decrease in net margin, partially offset by a 5.8% increase in average earning assets for the first six months of 2009 compared with the same period in 2008. The provision for loan losses was \$55.8 million in the first six months of 2009 compared with \$6.3 million in the first six months of 2008.

Net loss applicable to common stockholders for the first six months of 2009 was \$99.1 million, or \$8.32 per diluted share, compared with net income of \$4.6 million, or \$0.39 per diluted share, in the same period of 2008. The 2009 results include a \$66.8 million (\$5.61 per diluted share) non-cash charge associated with the write-down of goodwill in the first quarter of the year. The goodwill impairment charge was required by FASB Statement 142 (Goodwill and Other Intangible Assets) and was an accounting adjustment that did not affect current operations, cash flows, liquidity, tangible book capital, regulatory capital, regulatory capital ratios and will not affect future operations.

We have filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents we have filed with the SEC for more complete information about us and this offering.
