Aberdeen Global Income Fund, Inc.

Annual Report

October 31, 2009

Invests primarily in global fixed-income securities

Letter to Shareholders (unaudited)

December 10, 2009

Dear Shareholder,

We present this Annual Report which covers the activities of Aberdeen Global Income Fund, Inc. (the Fund) for the year ended October 31, 2009. The Fund's principal investment objective is to provide high current income by investing primarily in fixed income securities. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective.

Net Asset Value Performance

The Fund's total return based on net asset value (NAV) was 43.04% for the year ended October 31, 2009 and 7.86% per annum since inception, assuming the reinvestment of distributions.

Share Price Performance

The Fund's share price increased by 42.7% over the year, from \$8.20 on October 31, 2008 to \$11.70 on October 31, 2009. The Fund's share price on October 31, 2009 represented a premium of 0.3% to the NAV per share of \$11.67 on that date, compared with a discount of 14.7% to the NAV per share of \$9.61 on October 31, 2008. At the date of this letter, the share price was \$12.47, representing a premium of 5.4% to the NAV per share of \$11.83.

Credit Quality: 69.3% of Securities Rated or Deemed Equivalent to A or Better

As of October 31, 2009, 69.3% of the Fund's portfolio was invested in securities where either the issue or the issuer was rated A or better, or judged by Aberdeen Asset Management Asia Limited (the Investment Manager) to be of equivalent quality.

Distributions

Distributions to common shareholders for the twelve months ended October 31, 2009 totaled \$1.59 per share (including a special distribution of 75 cents per share). Based on the share price of \$11.70 on October 31, 2009, the distribution rate over the twelve months then ended was 13.6% (7.2% excluding the special distribution). Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit.

On December 7, 2009, the Board of Directors (Board) authorized a monthly distribution of 7.0 cents per share, payable on January 15, 2009 to common shareholders of record as of December 31, 2009.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

The Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in-capital. It is the Board's intention that a monthly distribution of at least 7.0 cents per share be maintained for twelve months, beginning with the July 10, 2009 distribution payment. This policy is subject to regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation. The next review is scheduled to take place in March 2010.

Share Repurchase Policy

The Board's policy is generally to buy back Fund shares on the open market when the Fund trades at certain discounts to NAV. During the year ended October 31, 2009 and the fiscal year ended October 31, 2008, the Fund repurchased 31,000 and 283,400 shares, respectively, through this program.

Revolving Credit Facility and Leverage

The Fund has entered into a \$30 million loan facility with The Bank of Nova Scotia. The loan facility with the Bank of Nova Scotia was renewed for another 364 day term on March 5, 2009. The Fund's Board continues to evaluate the use of leverage for the Fund. In December 2008, the Fund's Board authorized the Fund to use reverse repurchase agreements as another form of leverage. The Fund may implement a reverse repurchase agreement program if the Board determines it would be advantageous for the Fund and stockholders to do so.

Portfolio Holdings Disclosure

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's website at <http://www.sec.gov> and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information about the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Fund makes the information on Form N-Q available to shareholders on the Fund's website or upon request and without charge by calling Investor Relations toll-free at 1-866-839-5233.

Proxy Voting

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities, and information regarding how the Fund voted proxies related to portfolio securities during the twelve months ended June 30, 2009, is available: (i) upon request and without charge by calling Investor Relations toll-free at 1-866-839-5233; and (ii) on the SEC's website at <http://www.sec.gov>.

Distribution Disclosure Classification (unaudited)

Your Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. However, under the U.S. Investment Company Act of 1940, as amended (the "1940 Act"), the Fund may be required to indicate the sources of certain distributions to shareholders.

The distributions for the fiscal year ended October 31, 2009, were comprised of 58% net investment income and 42% return of paid-in capital.

In January 2010, a Form 1099-DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment for the 2009 calendar year.

Automatic Dividend Reinvestment and Cash Purchase Plan (unaudited)

Common shareholders are automatically enrolled in the Fund's Automatic Dividend Reinvestment and Cash Purchase Plan (the "Plan"), which allows you to automatically reinvest your distributions in shares of the Fund's common stock at favorable commission rates, unless an election is made to receive distributions in cash. Distributions made under the Plan are taxable to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per transaction, with a maximum of \$10,000 per month, and an aggregate annual limit of \$120,000. Under this arrangement, The Bank of New York Mellon Corporation (the "Plan Agent") will purchase shares for you on the New York Stock Exchange or otherwise on the open market on or before the investment date. The investment date is the 15th day of each month, but if such date is not a business day, the preceding business day.

Aberdeen Global Income Fund, Inc.

Automatic Dividend Reinvestment and Cash Purchase Plan (unaudited) (concluded)

As a participant in the Plan you will benefit from:

Automatic reinvestment the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

Lower costs shares are purchased on your behalf under the Plan at low brokerage rates. Brokerage on share purchases is currently 2 cents per share;

Convenience the Plan Agent will hold your shares in non-certificated form and will provide a detailed plan account statement of your holdings at the end of each month.

Report of the Investment Manager (unaudited)

Share Price Performance

On October 31, 2009, the Fund's share price was \$11.70, which represented a premium of 0.3% to the NAV per share of \$11.67. As of December 10, 2009, the share price was \$12.47, representing a premium of 5.4% to the NAV per share of \$11.83.

Loan Facility and the Use of Leverage

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

The Fund utilizes leverage to seek to increase the yield for its common stockholders. Until March 13, 2008, the Fund had issued Auction Market Preferred Stock (AMPS) for its leverage. The AMPS were redeemed and the leverage for investment purposes now involves borrowing under a loan facility. The amounts borrowed from the line of credit may be invested at higher rates in the Fund's portfolio. However, the cost of leverage could exceed the income earned by the Fund on the proceeds of such leverage. To the extent that the Fund is unable to invest the proceeds from the use of leverage in assets which pay interest at a rate which exceeds the rate paid on the leverage, the yield on the Fund's common stock will decrease. In addition, in the event of a general market decline in the value of assets in which the Fund invests, the effect of that decline will be magnified in the Fund because of the additional assets purchased with the proceeds of the leverage. Non-recurring expenses in connection with the implementation of the loan facility and the redemption of the AMPS will reduce the Fund's performance.

The Fund's leveraged capital structure creates special risks not associated with unleveraged funds having similar investment objectives and policies. The funds borrowed pursuant to the loan facility may constitute a substantial lien and burden by reason of their prior claim against the income of the Fund and against the net assets of the Fund in liquidation. The Fund is not permitted to declare dividends or other distributions in the event of default under the loan facility. In the event of a default under the credit agreement, the lenders have the right to cause a liquidation of the collateral (i.e., sell portfolio securities and other assets of the Fund) and, if any such default is not cured, the lenders may be able to control the liquidation as well. The loan facility has a term of 364 days and is not a perpetual form of leverage; there can be no assurance that the loan facility will be available for renewal on acceptable terms, if at all.

The credit agreement governing the loan facility includes usual and customary covenants for this type of transaction. These covenants impose on the Fund asset coverage requirements, fund composition requirements and limits on certain investments, such as illiquid investments, which are more stringent than those imposed on the Fund by the 1940 Act. The covenants or guidelines could impede the Investment Manager or Investment Adviser from fully managing the Fund's portfolio in accordance with the Fund's investment objective and policies. Furthermore, non-compliance with such covenants or the occurrence of other events could lead to the cancellation of the loan facility. The covenants also included a requirement that the Fund maintain an NAV of no less than \$90 million.

Prices and availability of leverage are extremely volatile in the current market environment. The Fund's Board continues to evaluate the use of leverage for the Fund and will explore other forms of leverage. In December 2008, the Fund's Board authorized the Fund to use reverse repurchase agreements as another form of leverage. The Fund may implement a reverse repurchase agreement program if the Board determines it would be advantageous for the Fund and stockholders to do so. A reverse repurchase agreement involves the

Aberdeen Global Income Fund, Inc.

Report of the Investment Manager (unaudited) (concluded)

sale of a security, with an agreement to repurchase the same or substantially similar securities at an agreed upon price and date. Whether such a transaction produces a gain for a Fund depends upon the costs of the agreements and the income and gains of the securities purchased with the proceeds received from the sale of the security. If the income and gains on the securities purchased fail to exceed the costs, the Fund's NAV will decline faster than otherwise would be the case. Reverse repurchase agreements, as with any leveraging techniques, may increase the Fund's return; however, such transactions also increase the Fund's risks in down markets.

Interest Rate Swaps

The Fund previously entered into interest rate swap agreements, based on an aggregate notional amount of \$19.4 million, which represented 65% of the total borrowings. On April 17, 2009, the Fund unwound two previously held interest rate swap agreements and entered into two new interest rate swap agreements with an aggregate notional amount of \$14.0 million. On June 26, 2009, the Fund unwound a previously held interest rate swap agreement and entered into a new interest rate swap agreement with an aggregate notional amount of \$7.0 million. As of October 31, 2009, the Fund held interest rate swap agreements with an aggregate notional amount of \$21.0 million which represented 70% of the total borrowings. Under the terms of the agreements currently in effect, the Fund receives a floating rate of interest (three month USD-LIBOR BBA rate) and pays fixed rates of interest for the terms and based upon the notional amounts set forth below:

Remaining Term as of October 31, 2009	Amount (in \$ million)	Fixed Rate Payable (%)
56 months	7.0	3.0125
30 months	7.0	1.8170
18 months	7.0	1.4700

A significant risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case the Fund would bear the risk of loss of the amount expected to be received under the swap agreements. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in place, it will be successful in hedging the Fund's interest rate risk with respect to the loan facility. The implementation of this strategy is at the discretion of the Leverage Committee of the Board.

Economic Review

The first quarter of 2009 saw significant moves by central banks to ease policy either through cutting interest rates sharply in the Euro zone, embarking on unconventional easing in the US and Japan, or both in the case of the UK. Since then the main theme in financial markets has been a rebound in risk assets and as a consequence we have seen a stronger performance from equities, a continued recovery in emerging market debt and a tightening of credit spreads. The US was the worst performing of the major government bond markets with 10 year yields increasing by almost 90 basis points and the yield curve steepening. The UK also saw negative returns with 10 year government yields up by around 50 basis points. The Bank of England's purchase programme was not sufficient to prevent an increase in yields and S&P downgraded the outlook for the AAA rating of UK government debt to negative from stable. Europe saw the best performance as the European Central Bank (ECB) cut rates twice to 1 percent from 1.5 percent at the start of the quarter, although even here 10 year yields increased by around 40 basis points. Investment grade credit spreads fell sharply over the quarter reflecting strong investor demand.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Third quarter economic data were generally better than expected, although still not strong in an absolute sense. 10 year government bond yields fell in all major regions, led by the US. Curves flattened between 10 and 30 years, with the exception of Japan where long-dated bond yields ended the quarter a little higher. In the UK, the Bank of England increased its gilt purchase plan and extended the maturities that are included in the purchase basket, which supported the long-end flattening. There were no rate changes to official rates in the US, Euro zone, UK or Japan, although there were a number of rate cuts in other countries.

Looking ahead, we feel that in the US the scope for lower short term bond yields is limited, whilst long term yields may fall as the market becomes increasingly worried about uncomfortably low inflation.

In Europe, unemployment figures across the region are the key concern, and the ECB is likely to wait until an improvement in the labour market is evident before moving away from its current policy.

In the UK, the general outlook for the gilt market largely remains positive with the short end of the market likely to benefit from official rates kept low for longer. The longer end of the curve is likely to benefit from the extension of the Quantitative Easing Program where there is more scope for the Bank of England to purchase securities, and is also likely to benefit from limited supply and positive seasonal factors. Against this background we expect the yield curve to flatten between 10 and 30 year maturities.

A combination of improving global growth indicators, low inflation, and accommodative global monetary policy should continue to provide support for emerging market debt heading into 2010. Valuations may in some cases be getting stretched, but improving global macro data and renewed inflows into the asset class will bode well for emerging market debt, resulting in a further spread compression. Looking ahead, emerging markets should benefit from a healthier growth outlook vis-à-vis the developed economies, while the outlook in some of the key emerging economies such as China, Brazil and Mexico will provide further support for the asset class.

- (1) Based on average shares outstanding.
- (2) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return does not reflect brokerage commissions.
- (3) Ratios are calculated on the basis of income and expenses applicable to both the common and preferred shares relative to the average net assets of common shareholders. Ratio of net investment income before preferred stock dividends to average net assets of common shareholders is 6.02%, 6.13%, 5.93%, 5.13%, and 5.35%, respectively.
- (4) Includes expenses of both preferred and common stock.
- (5) Asset coverage ratio is calculated by dividing net assets plus the amount of any borrowings, including Auction Market Preferred Stock, for investment purposes by the amount of any borrowings.

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements

Aberdeen Global Income Fund, Inc. (the Fund) was incorporated in Maryland on June 28, 1991, as a closed-end, non-diversified investment company.

The Fund's principal investment objective is to provide high current income by investing primarily in fixed-income securities. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective. The Fund's investments are divided into three categories: Developed Markets, Investment Grade Developing Markets and Sub-Investment Grade Developing Markets. Developed Markets are those countries contained in the Citigroup World Government Bond Index, Luxembourg and Hong Kong Special Administrative Region. Investment Grade Developing Markets are those countries whose sovereign debt is rated not less than Baa3 by Moody's or BBB- by S&P. Sub-Investment Grade Developing Markets are those countries that are not Developed Markets or Investment Grade Developing Markets. Under normal circumstances, at least 60% of the Fund's total assets would be invested in a portfolio of fixed income securities from issuers in Developed Markets or Investment Grade Developing Markets, whether or not denominated in the currency of such country; provided, however, that the Fund will invest at least 40% of its total assets in fixed income securities of issuers in Developed Markets. The Fund may only invest up to 40% of its total assets in fixed income securities of issuers in Sub-Investment Grade Developing Markets whether or not denominated in the currency of such country.

In order to comply with a rule adopted by the Securities and Exchange Commission under the 1940 Act regarding fund names, the Board of Directors has adopted an investment policy that, for as long as the name of the Fund remains Aberdeen Global Income Fund, Inc., it shall be the policy of the Fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in debt securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board of Directors upon 60 days' prior written notice to shareholders. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The financial statements of the Fund are prepared in accordance with accounting principles generally accepted in the United States of America which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The United States dollar is used as both the functional and reporting currency. However, the Australian Dollar, Canadian Dollar and British Pound are the functional currencies for Federal tax purposes.

Securities Valuation:

The Fund's Board of Directors has adopted Valuation and Liquidity Procedures (the Procedures) to be used in determining the value of the assets held by the Fund. The Procedures were reviewed and approved by the Board of Directors on December 9, 2008. In accordance with the Procedures, investments are stated at current fair value. Investments for which market quotations are readily available are valued at the last quoted closing price on the date of determination as obtained from a pricing source. If no such trade price is available, such investments are valued at the last quoted bid price as obtained from a pricing agent or broker selected by the Fund's Manager.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Short-term debt securities which mature in more than 60 days are valued as described above. Short-term debt securities of sufficient credit quality which mature in 60 days or less are valued at amortized cost using a pricing source quote that approximates amortized cost.

Securities for which market quotations are not readily available (including investments which are subject to limitations as to their sale) are to be valued at fair value. As a general rule, whether or not the Fund is required to fair value price an asset is dependent on the ready availability of current market quotes or, even if readily available, the reliability of such quotes. Any assets for which market quotations are not readily available or for which available prices are not reliable, shall be determined in a manner that most fairly reflects the asset's (or group of assets) fair value (i.e., the amount that the Fund might reasonably expect to receive for the asset upon its current sale) on the valuation date, based on consideration of all available information.

The Procedures provide that in certain instances, including without limitation, if there is a stale price for a portfolio security, in an emergency situation, or if a significant event occurs after the close of trading of a portfolio security, but before the calculation of the Fund's net asset value, the security may be valued at its fair value.

For the year ended October 31, 2009, there have been no significant changes to the Procedures.

The valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs in determining fair value. The inputs used for valuing the Fund's investments are summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.)

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value each of the Fund's investments as of October 31, 2009. For further information, please refer to the Portfolio of Investments that begins on page 7.

In April 2009, the FASB issued Accounting Standards Codification 820-10-35, Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly (ASC 820-10-35, formerly FAS 157-4). ASC 820-10-35 provides additional guidance for estimating fair value in accordance with FASB Accounting Standards Codification 820, Fair Value Measurements (ASC 820, formerly FAS 157), when the volume and level of activity for the asset or liability have significantly decreased as well as guidance on identifying circumstances that indicate a transaction is not orderly. ASC 820-10-35 is effective for fiscal years and interim periods ending after June 15, 2009. Management has concluded that the adoption of ASC 820-10-35 did not materially impact the financial statement amounts.

Repurchase Agreements:

The Fund may enter into repurchase agreements. It is the Fund's policy that its custodian/counterparty segregates the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. The repurchase price generally equals the price paid by the Fund plus interest negotiated on the basis of current short-term rates. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the counterparty defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the counterparty of the security, realization of the collateral by the Fund may be delayed or limited.

Foreign Currency Translation:

Foreign currency amounts are translated into United States dollars on the following basis:

- (i) market value of investment securities, other assets and liabilities at the exchange rates at the end of the reporting period;
- (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at the end of the reporting period. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the reporting period.

Net exchange gain/(loss) is realized from sales and maturities of portfolio securities, sales of foreign currencies, settlement of

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

securities transactions, dividends, interest, and foreign withholding taxes recorded on the Fund's books. Net unrealized foreign exchange appreciation/(depreciation) includes changes in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. The net realized and unrealized foreign exchange gain/(loss) shown in the composition of net assets represent foreign exchange gain/(loss) for book purposes that have not yet been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

Securities Transactions and Investment Income:

Securities transactions are recorded on the trade date. Realized and unrealized gains/(losses) from security and currency transactions are calculated on the identified cost basis. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are accrued on a daily basis.

Derivative Financial Instruments:

The Fund is authorized to use derivatives to manage currency risk, credit risk and interest rate risk and to replicate or as a substitute for physical securities. Losses may arise due to changes in the value of the contract or if the counterparty does not perform under the contract. The use of derivative instruments involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities.

Contingent Credit Note:

The Fund is a party to International Swap Dealers Association, Inc. Master Agreements (ISDA Master Agreements). These agreements are with select counterparties and they govern transactions, including certain over-the-counter derivative and foreign exchange contracts, entered into by the Funds and the counterparty.

The ISDA Master Agreements maintain provisions for general obligations, representations, agreements, collateral, and events of default or termination. The occurrence of a specified event of termination may give a counterparty the right to terminate all of its contracts and affect settlement of all outstanding transactions under the applicable ISDA Master Agreement.

Interest Rate Swaps:

The Fund engaged in certain interest rate swap transactions to hedge the Fund's leverage facility. An interest rate swap is an agreement between two parties, which involves the exchange of floating and fixed rate interest payments for a specified period of time. Interest rate swaps involve the accrual and exchange of interest payments between the parties. These payments are recorded as realized gain/(loss).

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

During the term of the swap, changes in the value of the swap are recognized as unrealized appreciation or depreciation by marking-to-market the fair market value of the swap. When the swap is terminated, the Fund will record a realized gain/(loss) equal to the difference, if any, between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract. The Fund is exposed to credit risk in the event of non-performance by the counterparty to the swap. However, the Fund does not anticipate non-performance by any counterparty.

Notional amounts of swaps are used to express the extent of involvement in these transactions, although the risk of loss may exceed amounts recognized in the Statement of Assets and Liabilities. These risks include changes in the returns of the underlying instruments, failure of the counterparties to perform under the contracts' terms and the possible lack of liquidity with respect to the contracts.

Forward Foreign Currency Exchange Contracts:

A forward foreign currency exchange contract (Forward Contract) involves an obligation to purchase and sell a specific currency at a future date, at a price set at the time of the contract. The Fund enters into Forward Contracts in connection with security transactions or to hedge the U.S. dollar value of portfolio securities denominated in a particular currency. The Forward Contracts are adjusted by the daily exchange rate of the underlying currency and any gains or losses until the contract settlement date. The Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

Futures Contracts:

Futures contracts are used to manage the interest rate exposure of the Fund more efficiently. A futures contract is an agreement between two parties to buy and sell a security for a set price on a future date. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized appreciation or depreciation. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Use of long futures contracts subjects the Fund to the risk of loss in excess of the amounts on the Statement of Assets and Liabilities up to the notional value of the futures contracts. Use of short futures subjects the Fund to unlimited risk of loss.

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

Options:

When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received). As of October 31, 2009, there were no open option contracts.

Distributions:

It is the Fund's current policy to pay distributions from net investment income supplemented by net realized foreign exchange gains, net realized short-term capital gains and return of capital distributions if necessary, on a monthly basis. The Fund will also declare and pay distributions at least annually from net realized gains on investment transactions and net realized foreign exchange gains, if any. Distributions to common shareholders are recorded on the ex-dividend date.

Income distributions and capital and currency gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments for foreign currencies, loss deferrals and recognition of market discount and premium.

Recent Accounting Pronouncements:

In June 2009, the FASB issued Accounting Standard Codification 105-10, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162 (ASC 105-10, formerly SFAS 168). ASC 105-10 replaces SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles and establishes the FASB Accounting Standards Codification (Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with U.S. GAAP. All guidance contained in the Codification carries an equal level of authority. On the effective date of ASC 105-10, the Codification will supersede all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification will become nonauthoritative. ASC 105-10 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. Management has evaluated this new statement and has determined that it did not have a significant impact on the determination or reporting of the Funds financial statements.

Reclassification of Capital Accounts:

For the year ended October 31, 2009, the Fund increased distributions in excess of net investment income by \$4,382,637, increased accumulated net realized foreign exchange gain by \$4,520,700 and increased accumulated net realized loss on investment transactions by \$138,063. These reclassifications are a result of permanent differences primary attributable to foreign currency transactions, amortization methods on fixed income securities and accounting for swap agreements. Net investment income, net realized loss on investments and net assets were not affected by this change.

Federal Income Taxes:

For Federal income and excise tax purposes, substantially all of the Fund's transactions are accounted for using the functional currencies. Accordingly, only realized currency gains/(losses) resulting from the repatriation of any of the functional currencies (Australian Dollar, Canadian Dollar or British Pound) into U.S. dollars or another functional currency and realized currency gains and losses on non-functional currencies are recognized for U.S. tax purposes.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

The Fund intends to qualify or continue to qualify as a regulated investment company by complying with the provisions available to certain investment companies, as defined in Subchapter M of the Internal Revenue Code, and to make distributions of net investment income and net realized capital gains sufficient to relieve the Fund from all, or substantially all, federal income taxes. Therefore, no federal income tax provision is required.

Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Since tax authorities can examine previously filed tax returns, the Fund's U.S. federal tax returns for each of the four years in the period ended October 31, 2009 are subject to such review.

Cash Flow Information:

The Fund invests in securities and distributes dividends from net investment income and net realized gains on investment and currency transactions which are paid in cash or are reinvested at the discretion of shareholders. These activities are reported in the Statements of Changes in Net Assets Applicable to Common Shareholders and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows. Cash includes domestic and foreign currency, but does not include cash at brokers in segregated accounts for financial futures because it is designated as collateral.

Concentration Risk Disclosure:

The Fund may have elements of risk not typically associated with investments in the United States of America due to concentrated investments in a limited number of countries or regions. Such concentrations may subject the Fund to additional risks resulting from political or economic conditions in such countries or regions and the possible imposition of adverse governmental laws or currency exchange restrictions could cause the securities and their markets to be less liquid and their prices to be more volatile than those of comparable U.S. securities.

2. Agreements

Aberdeen Asset Management Asia Limited (the Investment Manager) serves as the investment manager to the Fund and Aberdeen Asset Management Limited (the Investment Adviser)

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

serves as the investment adviser to the Fund, pursuant to a management agreement and an advisory agreement, respectively. The Investment Adviser is an indirect wholly-owned subsidiary of the Investment Manager, which is a direct wholly-owned subsidiary of Aberdeen Asset Management PLC. The Investment Manager has also entered into an agreement with CIBC World Markets, Inc. (the Consultant).

At the Annual Meeting of Shareholders held on March 6, 2009, Shareholders approved a Sub-Advisory Agreement among the Fund, the Investment Manager and Aberdeen Asset Management Investment Services Limited (the Sub-Advisory Agreement). The Sub-Advisory Agreement provides that Aberdeen Asset Management Investment Services Limited (AAMISL or the Sub-Adviser) will manage that portion of all of the assets of the Fund that the Investment Manager allocates to it.

As compensation for its services under the Sub-Advisory Agreement, AAMISL will receive an annual fee paid by the Investment Manager based on average weekly Managed Assets of the Fund at the following annual rates: 0.17% of the Fund's average weekly Managed Assets up to \$200 million; 0.16% of Managed Assets between \$200 million and \$500 million; 0.15% of Managed Assets in excess of \$500 million.

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser and the Consultant, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund.

The management agreement provides the Investment Manager with a fee, payable monthly, at the following annual rates: 0.65% of the Fund's average weekly Managed Assets up to \$200 million, 0.60% of Managed Assets between \$200 million and \$500 million, and 0.55% of Managed Assets in excess of \$500 million. Managed Assets are defined in the management agreement as net assets plus the amount of any borrowings, including Auction Market Preferred Stock (AMPS), for investment purposes. The Investment Manager pays fees to the Investment Adviser and the Consultant for their services rendered. The Fund's Investment Manager informed the Fund that it paid \$256,983 to the Investment Adviser and \$6,000 to the Consultant during the fiscal year ended October 31, 2009.

Aberdeen Asset Management Inc. (AAMI), an affiliate of the Investment Manager and the Investment Adviser, is the Fund's Administrator, pursuant to an agreement under which AAMI receives a fee, payable monthly, at an annual rate of 0.15% of the Fund's average weekly Managed Assets up to \$600 million and 0.125% of the Fund's average weekly Managed Assets in excess of \$600 million. Managed Assets are defined as net assets plus the amount of any borrowings, including AMPS, for investment purposes.

Under terms of an Investor Relations Services Agreement, AAMI serves as the Fund's investor relations services provider. This agreement provides AAMI with a monthly retainer of \$4,000 plus out-of-pocket expenses. During the year ended October 31, 2009, the Fund incurred fees of \$49,895 for the investor relations services of AAMI. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

3. Investment Transactions

Purchases and sales of securities (excluding short-term securities), for the fiscal year ended October 31, 2009, were \$71,854,438 and \$77,449,251, respectively.

4. Tax Information

The tax character of distributions paid during the fiscal years ended October 31, 2009 and October 31, 2008 was as follows:

	October 31, 2009	October 31, 2008
Distributions paid from:		
Ordinary income	\$ 8,284,246	\$ 9,999,121
Tax return of capital	6,016,114	
Total tax character of distributions	\$ 14,300,360	\$ 9,999,121

As of October 31, 2009, the components of accumulated earnings on a tax basis were as follows:

Undistributed ordinary income net	\$
Undistributed long-term capital gains net	
Total undistributed earnings	
Capital loss carryforward	(11,434,397)*
Unrealized appreciation/(depreciation) net	12,477,437**
Total accumulated earnings/(losses) net	\$1,043,040

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

- * On October 31, 2009, the Fund had a net capital loss carryforward of \$11,434,397 of which \$991,667 expires in 2010, \$116,280 expires in 2011, \$275,233 expires in 2014, \$3,271,806 expires in 2015, \$2,330,488 expires in 2016 and \$4,448,923 expires in 2017. This amount will be available to offset like amounts of any future taxable gains.
- ** The difference between book-basis and tax-basis unrealized appreciation or depreciation is attributable to the difference between book and tax amortization methods for premiums and discounts on fixed income securities, differing treatments for foreign currencies, the tax deferral of wash sales and straddles the realization for tax purposes of unrealized gains/(losses) on certain foreign currency contracts, and other timing differences.

The United States Federal income tax basis of the Fund's investments and the net unrealized depreciation as of October 31, 2009 were as follows:

Tax Basis of Investments	Appreciation	Depreciation	Net Unrealized Appreciation
\$127,994,527	\$ 5,414,404	\$ 2,539,347	\$ 2,875,057

5. Common Stock

There are 300 million shares of \$.001 par value common stock authorized. At October 31, 2009, there were 9,005,120 shares issued and outstanding.

On March 1, 2001, the Board of Directors approved a stock repurchase program. The Board of Directors amended the program on December 12, 2007. The stock repurchase program allows the Fund to repurchase up to 10% of its outstanding common stock in the open market during any 12-month period, if and when the discount to NAV is at least 8%. For the fiscal years ending October 31, 2009, and October 31, 2008, the Fund repurchased 31,000 and 283,400 shares, respectively, through this program. The weighted average discount on shares repurchased by the Fund was 21.2% during the fiscal year ended October 31, 2009.

6. Revolving Credit Facility

On March 13, 2008, the Fund entered into a \$30 million revolving credit loan facility with The Bank of Nova Scotia. The revolving credit loan facility was renewed for another 364 day term on March 5, 2009. For the fiscal year ended October 31, 2009, the average interest rate on the loan facility was 2.37% and the average balance of the revolving credit loan facility was \$30 million. The interest expense is accrued on a daily basis and is payable to The Bank of Nova Scotia on a monthly basis.

The amounts borrowed from the line of credit may be invested at higher rates in the Fund's portfolio. However, the cost of leverage could exceed the income earned by the Fund on the proceeds of such leverage. To the extent that the Fund is unable to invest the proceeds from the use of leverage in assets which pay interest at a rate which exceeds the rate paid on the leverage, the yield on the Fund's common stock will decrease. In addition, in the event of a general market decline in the value of assets in which the Fund invests, the effect of that decline will be magnified in the Fund because of the additional assets purchased with the proceeds of the leverage.

The Fund's leveraged capital structure creates special risks not associated with unleveraged funds having similar investment objectives and policies. The funds borrowed pursuant to the loan facility may constitute a substantial lien and burden by reason of their prior claim against the income of the Fund and against the net assets of the Fund in liquidation. The Fund is not permitted to declare dividends or other distributions in the event of default under the loan facility. In the event of a default under the credit agreement, the lenders have the right to cause a liquidation of the collateral (i.e., sell portfolio securities and other assets of the Fund) and, if any such default is not cured, the lenders may be able to control the liquidation as well. The loan facility has a term of 364 days and is not a perpetual form of leverage; there can be no assurance that the loan facility will be available for renewal on acceptable terms, if at all. The loan facility was renewed for another 364 day term on March 5, 2009. Bank loan fees and expenses included in the Statement of Operations include fees for the renewal of the loan facility as well as commitment fees for any portion of the loan facility not drawn upon at any time during the period.

The credit agreement governing the loan facility includes usual and customary covenants for this type of transaction. These covenants impose on the Fund asset coverage requirements, fund composition requirements and limits on certain investments, such as illiquid investments, which are more stringent than those imposed on the Fund by the 1940 Act. The covenants or guidelines could impede the Investment Manager or Investment Adviser from fully managing the Fund's portfolio in accordance with the Fund's investment objective and policies. Furthermore, non-compliance with such covenants or the occurrence of other events could lead to the cancellation of the loan facility. The covenants also included a requirement that the Fund maintain an NAV of no less than \$90 million.

Notes to Financial Statements (concluded)

7. Reimbursement of Costs by Investment Manager

In 2009, the Fund filed a non-routine proxy to consider approval of a new sub-advisory agreement among the Fund, Investment Manager and Sub-Adviser. The Fund and the Investment Manager agreed to each bear equal responsibility with respect to the costs of soliciting proxies associated with the non-routine item. The expenses related to the 2009 non-routine proxy are included within the Statement of Operations in the applicable expense categories and the aggregate reimbursement is reported separately. The Investment Manager reimbursed the Fund for \$25,586.

8. Subsequent Events

Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through December 28, 2009, the date the Financial Statements were issued. Based on this evaluation, no adjustments were required to the Financial Statements as of October 31, 2009. However, the following are details relating to subsequent events that occurred since October 31, 2009.

The Fund declared monthly distributions of 7 cents per share payable on December 11, 2009 and January 15, 2010 to common shareholders of record as of November 30, 2009 and December 31, 2009, respectively.

At a meeting of the Fund's Board held on December 7, 2009, the Board approved a reduction of the Administration fee paid to AAMI as disclosed in Note 2. Effective February 1, 2010, the annual fee rate will be 0.125% of the Fund's average weekly Managed Assets up to \$1 billion, 0.10% of the Fund's weekly Managed Assets between \$1 billion and \$2 billion, and 0.075% of the Fund's average weekly Managed Assets in excess of \$2 billion. The Board also approved an amended Investor Relations Services Agreement that includes enhanced investor relation services for the Fund that will take effect on March 1, 2010. The fee that will be paid to AAMI for investor relations services is approximately \$65,000 per annum.

Based on Management's evaluation, no other adjustments were required to the Financial Statements and no other subsequent events required recognition or disclosure in the Financial Statements as of October 31, 2009 through December 28, 2009.

9. Change in Independent Registered Public Accounting Firm, (unaudited)

PricewaterhouseCoopers LLP (PwC), 300 Madison Avenue, New York, New York 10017, an independent registered public accounting firm, was the independent registered public accounting firm for the Fund for the fiscal year ended October 31, 2008. At the meetings held on June 9, 2009, the Audit Committee and the Board of Directors engaged KPMG LLP to replace PwC as the independent registered public accounting firm for the Fund.

The reports of the financial statements, previously issued by PwC for the Fund for each of the two most recent fiscal years ended October 31, did not contain an adverse opinion or disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles. For the past two most recent fiscal years and through the date of the auditor change, there were no disagreements between the Fund and PwC on any matters of accounting principles or practices, financial statement disclosures, auditing scope or procedures, or any other matter which, if not resolved to the satisfaction of PwC, would have caused PwC to make reference to the subject matter of the disagreements in connection with the issuance of PwC's reports on the financial statements of such periods.

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders of

Aberdeen Global Income Fund, Inc.

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of the Aberdeen Global Income Fund, Inc. (the Fund), as of October 31, 2009, and the related statements of operations, changes in net assets, and cash flows and the financial highlights for the year then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit. The statement of changes in net assets for the year ended October 31, 2008, and the financial highlights for each of the years in the four-year period ended October 31, 2008, were audited by other auditors. Those auditors expressed an unqualified opinion on the statement of changes in net assets and financial highlights in their report dated December 23, 2008.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2009, by correspondence with custodians and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights of the Aberdeen Global Income Fund, Inc. present fairly, in all material respects, the financial position of the Fund as of October 31, 2009, and the results of its operations, its changes in net assets, its cash flows and the financial highlights for the year then ended, in conformity with U.S. generally accepted accounting principles.

Considerations in Approving Renewal of Management Agreement and Investment Advisory Agreement (FCO)

At an in-person meeting of the Board of Directors (the **Board**) of the Aberdeen Global Income Fund, Inc. (**Fund**) held in September, 2009, the Board of Directors, including all of the Directors who are not considered to be interested persons as such term is defined under the Investment Company Act of 1940, as amended, of the Fund (**Independent Directors**), considered and approved for an additional twelve-month term the continuation of the Fund's management agreement with Aberdeen Asset Management Asia Limited (**Investment Manager**) and the investment advisory agreement among the Fund, the Investment Manager and Aberdeen Asset Management Limited (**Investment Adviser**) (collectively, **Agreements**). The Investment Adviser is an affiliate of the Investment Manager. The Investment Manager and the Investment Adviser are sometimes each referred to as an **Adviser** and, collectively, as the **Advisers**.

The Independent Directors were advised by separate independent legal counsel throughout the process. In advance of the meeting, the Independent Directors received a memorandum from their independent legal counsel discussing the legal standards for their consideration of the

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

proposed continuation of the Agreements. At the meeting, the Directors reviewed a report prepared by the Advisers in response to a request submitted by the Independent Directors independent legal counsel on behalf of such Directors, and discussed this report with representatives of the Advisers. The Independent Directors also consulted in executive sessions with counsel to the Independent Directors regarding the renewal of the Agreements. The Directors also considered the recommendation of the Contract Review Committee of the Board (the Committee), consisting solely of Independent Directors, that the Agreements be renewed, noting that the Committee also had discussed, with representatives of management and separately in executive session with independent counsel at which no representatives of management were present, among other factors, the nature, extent and quality of the management and advisory services provided to the Fund by the Advisers, the level of the management and advisory fees, the costs of the services provided and the profits realized by the Advisers and their affiliates, the Fund's expense ratio, Fund performance, the Fund's and Advisers' compliance programs any economies of scale with respect to the management of the Fund, and any ancillary benefits received by the Advisers and their affiliates as a result of their relationship with the Fund, and various other matters included within the report of the Advisers.

In considering whether to approve the renewal of the Agreements, the Directors received a variety of information provided by the Advisers relating to the Fund, the Agreements and the Advisers, including comparative performance, fee and expense information of a peer group of funds selected by an independent third-party provider of investment company data, performance information for

Aberdeen Global Income Fund, Inc.

Supplemental Information (unaudited) (continued)

relevant benchmark indices and other information regarding the nature, extent and quality of services provided by the Advisers under their respective Agreements. The Board's materials also contained information as to the profitability of the Advisers and their affiliates from their relationship with the Fund. The Committee and the Board of Directors, including the Independent Directors, also considered other matters such as (i) the Advisers' financial results and financial condition, (ii) the Fund's investment objective and strategies and the Advisers' investment personnel and operations, (iii) the procedures employed to determine the value of the Fund's assets, (iv) the allocation of the Fund's brokerage, if any, including, if applicable, allocations to brokers affiliated with the Advisers and the use, if any, of soft commission dollars to pay Fund expenses and to pay for research and other similar services, and (v) possible conflicts of interest. Throughout the process, the Directors were afforded the opportunity to ask questions of and request additional information from management.

In addition to the materials requested by the Directors in connection with their consideration of the renewal of the Agreements, the Directors receive materials in advance of each regular quarterly meeting that provide information relating to the services provided by the Advisers. In this regard, the Board reviews reports of the Advisers which include, among other things, a portfolio review and Fund performance reports.

In approving (or, in the case of the Committee, recommending) the renewal of the Agreements, the Committee and the Board of Directors reached, among others, the following conclusions:

Nature, Extent and Quality of Services. The Committee and the Board were satisfied with the nature, quality and extent of services provided by the Advisers. In reaching this conclusion, the Committee and the Board reviewed, among other things, the Advisers' investment experience, including the growth and development of their Far East operations as well as the Aberdeen Group's global investment management activities, including in emerging markets, and the Aberdeen Group's growth in Australia. The Board (and the Committee) received information regarding the Advisers' compliance with applicable laws and SEC and other regulatory inquiries or audits of the Fund and the Advisers. The Committee and the Board also considered the background and experience of the Advisers' senior management personnel and the qualifications, background and responsibilities of the portfolio managers primarily responsible for the day-to-day portfolio management services for the Fund. The Committee and the Board also considered the allocation of responsibilities among the Advisers. In addition, the Committee and the Board considered the financial condition of the Advisers and whether they had the financial wherewithal to provide a high level and quality of service to the Fund. The Committee and the Board also considered information received from the Fund's Chief Compliance Officer regarding the Advisers' compliance policies and procedures. The Committee and the Board also considered the Advisers' brokerage policies and practices. Management also reported to the Committee and the Board on, among other things, its business plans and organizational changes. The Committee and the Board also noted that the Board reviewed and assessed the quality of the services the Fund receives from the Advisers throughout the year, and received detailed portfolio review and performance reports on a regular basis. The Committee and the Board determined that the advisory services provided were extensive in nature and of high quality.

Fees and Expenses. The effective annual management fee rate paid by the Fund to the Investment Manager for investment management services was within a reasonable range relative to the effective advisory fee rates of a peer group consisting of all closed-end funds included in the world bond fund Morningstar category as compiled by Strategic Insight (SI), an independent third-party provider of mutual fund data (the Peer Group), including Aberdeen Asia-Pacific Income Fund, Inc., another U.S. registered closed-end fund managed by the Investment Manager and First Trust/Aberdeen Global Opportunity Income Fund, a U.S. registered closed-end fund sub-advised by Aberdeen Asset Management Inc., an affiliate of the Advisers and administrator to the Fund (AAMI). The SI data indicated that the Fund's effective management fee rate (computed based on average managed assets for the six months ended April 30, 2009, and which reflects both the advisory fee and the administration fee) was below the Peer Group's median and average fee rates, respectively. The Committee and the Board noted that, among other information, the SI data also indicated that the Fund's annualized expense ratio based on average managed assets, which includes the Fund's assets attributable to its common stock plus borrowings for investment purposes, including leverage, for the six months ended April 30, 2009 was above the average and median expense ratios, respectively, of the Peer Group. The data also indicated that the Fund's annualized expense ratio based on average net assets, excluding the principal amount of borrowings, for the six months ended April 30, 2009 was above the average and median expense ratios of its Peer Group. The Committee and the Board also took into account the management fee structure, including that management fees for the Fund were based on the Fund's total Managed Assets, whether attributable to common stock, preferred stock or bank borrowings. The Committee and the Board also considered that

Aberdeen Global Income Fund, Inc.

Supplemental Information (unaudited) (continued)

the compensation paid to the Investment Adviser is paid by the Investment Manager and not the Fund, and, accordingly that the retention of the Investment Adviser does not increase the fees or expenses otherwise incurred by the Fund's shareholders. The Committee and the Board also noted that the Investment Manager would be reimbursing certain Fund expenses. The Committee and the Board also took into account management's discussion of the Fund's expenses, including the factors that impacted the Fund's expenses, as well as certain actions taken by the Board during the past year to reduce the Fund's operating expenses. The Board noted that the expense information in the SI report did not fully reflect such potential cost savings. The Committee also noted the impact of leverage on the total expenses of the Fund. The Committee and the Board also received information from management regarding the fees charged by the Advisers to other U.S. and non-U.S. clients investing primarily in an asset class similar to that of the Fund, including, two segregated accounts with a global mandate. The Board considered the fee comparisons in light of differences required to manage the different types of accounts. The Committee and the Board also noted that the SI report indicated that the Fund's effective management fee rate was above the effective management fee rate paid by one Aberdeen-managed fund in its Peer Group, and below the effective management fee rate paid by another Aberdeen-managed fund in its Peer Group. The Committee and the Board concluded that the fee paid by the Fund was reasonable, given the differences in the funds' sizes, investment objectives and restrictions, and diversification requirements.

Performance. The Committee and the Board received and reviewed, among other performance data, information compiled by SI as to the Fund's total return, as compared to the funds in the Fund's Morningstar category (the Morningstar Group). The SI report indicated that the Fund ranked 5th out of 12 for the year-to-date period ended April 30, 2009, 10th out of 12 for the one-year period ended April 30, 2009, 8th out of 8 for the three-year period ended April 30, 2009 and 5th out of 6 for the five-year period ended April 30, 2009. The Committee and the Board also received performance information from management that compared the Fund's return to comparable non-U.S. investment companies in its Lipper category, which indicated that the Fund had outperformed the average of such group of funds for the year-to-date and was below the average for the one-year period, three-year and five-year periods ended June 30, 2009.

The Committee and the Board received and considered information for each of the last five fiscal years regarding the Fund's total return on a gross and net basis and relative to the Fund's benchmark, the Fund's share performance and premium/discount information and the impact of foreign currency movements on the Fund's performance. The Committee and the Board also received and reviewed information as to the Fund's total return for each of the last five fiscal years as compared with the total returns of each of the funds in the Morningstar Group, and other Aberdeen-managed funds and two segregated accounts with global bond mandates. The Committee and the Board considered management's discussion of the factors contributing to differences in performance, including differences in the investment strategies of each of these other funds and accounts. The Committee and the Board also reviewed information as to the Fund's discount/premium ranking relative to the Morningstar Group. The Committee and the Board also noted that the Fund underperformed its benchmark for the one-, three-, and five-year periods ended April 30, 2009. The Board took into account management's discussion of the Fund's performance, including the factors that contributed to the Fund's underperformance relative to its benchmark, including market conditions. In considering the Fund's performance relative to its Peer Group and other comparable funds, the Committee and the Board took into account the peer group in which the Fund was placed and the differences in investment strategies among the funds. Taking into account the investment style and processes of the Advisers, as well as the peer group in which the Fund was placed for comparative purposes, the Committee and the Board concluded that overall performance results supported renewal of the Agreements.

Economies of Scale. The Board determined that the management fee structure was reasonable and reflects economies of scale being shared between the Fund and the Advisers. This determination was based on factors including that the Fund's management fee schedule provides breakpoints at higher asset levels, and that profitability of the Investment Manager and the Investment Adviser were determined to be reasonable based upon the Board's review of the Peer Group data and other information provided to the Committee and the Board.

Profitability; Ancillary Benefits. The Committee and the Board considered information indicating the costs and profitability of the Advisers and their affiliates in providing services to the Fund, as well as any ancillary benefits. In addition, the Committee and the Board received information with respect to management's allocation methodologies used in preparing this profitability data. The Board noted that AAMI, an affiliate of the Advisers, provides administrative and investor relations services to the Fund, for which it receives fees. The Committee and the Board determined that in light of the nature, extent and quality of services provided

Supplemental Information (unaudited) (concluded)

to the Fund, the profitability of the Advisers and its affiliates from their relationship with the Fund was reasonable, and any ancillary benefits received by the Advisers and their affiliates as a result of their relationship with the Fund were reasonable.

In considering the Agreements, the Committee and the Board considered a variety of factors, including those factors discussed above. The Board did not identify any factor as all-important or all-controlling and instead considered these factors collectively in light of the Fund's surrounding circumstances, and each Director may have attributed different weight to the various factors. Based on their deliberations and their evaluation of the information provided to them, the Committee and the Board, including a majority of the Independent Directors, concluded that approval of the renewal of the Agreements was in the best interests of the Fund and its shareholders. Accordingly, the Board, and the Independent Directors voting separately, approved the renewal of the Agreements.

Aberdeen Global Income Fund, Inc.

Automatic Dividend Reinvestment and Cash Purchase Plan (unaudited)

Common shareholders are automatically enrolled in the Plan. Under the Plan, all distributions, net of any applicable withholding tax, will automatically be reinvested by the Plan Agent in additional shares of common stock of the Fund unless an election is made to receive distributions in cash. Generally, shareholders who do not participate in the Plan will receive all distributions in cash paid by check in United States dollars mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent. A shareholder whose shares are held by a broker or nominee that is unable to participate in the Plan may be required to have his shares re-registered in his own name to participate in the Plan.

The Plan Agent serves as agent for the shareholders in administering the Plan. Distributions payable to Plan participants will be promptly invested. If the Fund declares a distribution payable in stock to shareholders who are not Plan participants, then Plan participants will receive that distribution in newly-issued shares of common stock on identical terms and conditions.

In every other case, Plan participants will receive shares on the following basis: if, on payable date, the market price of the Fund's common stock plus any brokerage commission is equal to or exceeds NAV, Plan participants will receive newly-issued shares of the Fund's common stock valued at the greater of NAV or 95% of the then-current market price. If, on the other hand, the NAV, plus any applicable brokerage commission, exceeds the market price at such time, the Plan Agent will buy shares of common stock in the open market. If the market price plus any applicable brokerage commission exceeds the NAV as last determined before the Plan Agent has completed its purchases, the Plan Agent will suspend making open market purchases and shall invest the balance available in newly issued shares valued at the greater of NAV or 95% of the then-current market value. All reinvestments are in full and fractional shares carried to four decimal places.

There is no direct charge to participants for reinvesting distributions, except for brokerage commissions. The Plan Agent's fees for the handling of the reinvestment of distributions are paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant pays a pro-rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases. Purchases and sales may be made through a broker affiliated with the Plan Agent. The automatic reinvestment of distributions does not relieve participants of any federal income tax that may be payable on such distributions.

The Plan also allows participants to make voluntary cash investments by sending additional funds by a check drawn on a U.S. bank, in U.S. dollars, payable to the Plan Agent. Additional voluntary cash investments must be in an amount of at least \$100, with a maximum of \$10,000 per month, with an aggregate annual limit of \$120,000 for the purchase of shares of the Fund's common stock on the open market. Voluntary cash investments will be invested on or before the 15th day of the month, and in no event more than 45 days after such date except where temporary curtailment or suspension of purchases is necessary to comply with applicable provisions of the federal securities law. Cash investments may be commingled with the funds held by the Plan Agent for other shareholders of the Fund, and the average price (including brokerage commissions) of all shares purchased by the Plan Agent will be the price per share allocable to each participant. In the event a participant's voluntary cash investment check is returned unpaid for any reason, the participant will be charged a \$20.00 return fee.

Participants in the Plan may withdraw some or all of their shares from the Plan upon written notice or pursuant to telephonic procedures established by the Plan Agent and will receive stock certificates for all full shares. The Plan Agent will convert any fractional shares to cash at the then-current market price, less a sales fee, and send a check to the participant for the proceeds. The sales fee payable will be the lesser of \$10 or the net proceeds from the sale of the fractional share. If the transaction fee and commissions exceed the proceeds from the sale of the fractional share, participants will receive a transaction advice instead of a check. If, by giving proper notice to the Plan Agent, participants request cash in lieu of shares upon any withdrawal from the Plan, the Plan Agent will sell the shares and send the participant the proceeds, less a sales fee of \$10 plus brokerage commissions of \$0.10 per share.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

The Fund or the Plan Agent reserves the right to amend or terminate the Plan either in full or partially upon 90 days' written notice to each Plan participant.

All questions concerning the Plan should be directed to the Plan Agent, The Bank of New York Mellon Corporation, Shareholder Relations Department, 480 Washington Blvd., Jersey City, NJ 07310 or by calling 1-866-221-1606.

Item 2 Code of Ethics.

- (a) As of October 31, 2009, the Registrant had adopted a Code of Ethics that applies to its principal executive officer, principal financial officer, principal accounting officer, or persons performing similar functions.

- (b) For purposes of this Item, the term Code of Ethics means written standards that are reasonably designed to deter wrongdoing and promote:
 - (1) Honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
 - (2) Full, fair, accurate, timely, and understandable disclosure in reports and documents that a registrant files with, or submits to, the Commission and in other public communications made by the registrant;
 - (3) Compliance with applicable governmental laws, rules, and regulations;
 - (4) The prompt internal reporting of violations of the code to an appropriate person or persons identified in the code; and
 - (5) Accountability for adherence to the code.

- (c) During the period covered by this report, there were no material changes to the Code of Ethics referred to in 2(b) above.
- (d) During the period covered by this report, there were no waivers to the provisions of the Code of Ethics referred to in 2(b) above.
- (e) Not applicable.

(f) A copy of the Code of Ethics has been filed with this Form N-CSR as Item 12(a)(1). Copies of the Code of Ethics may be requested free of charge by calling toll free on 1-866-839-5233.

Item 3 Audit Committee Financial Expert.

The Board of Directors of the Registrant has designated Neville Miles, John Sheehy and Peter Sacks as Audit Committee Financial Experts. Mr. Miles, Mr. Sheehy and Mr. Sacks are all considered by the Board to be independent directors as interpreted under this Item 3.

Item 4 Principal Accountant Fees and Services.

(a) (d) Below is a table reflecting the fee information requested in Items 4(a) through (d):

Fiscal	(a)	(b)	(c) ¹	(d)
<u>Year Ended</u>	<u>Audit Fees</u>	<u>Audit-Related Fees</u>	<u>Tax Fees</u>	<u>All Other Fees</u>
October 31, 2009	\$77,500	Nil	\$6,000	Nil
October 31, 2008	\$102,000	Nil	\$7,600	Nil

¹ The Tax Fees are for the completion of the Registrant's federal and state tax returns.

(e) Below are the Registrant's Pre-Approval Policies and Procedures:
 (1) Audit Committee Pre-Approval Policies and Procedures

Refer to Exhibit A.

(2) None of the services described in each of paragraphs (b) through (d) of this Item involved a waiver of the pre-approval requirement by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

(f) Not applicable.

(g) Non-Audit Fees

	Fiscal Year Ended	Fiscal Year Ended
	October 31, 2009	October 31, 2008
Registrant	Nil	\$205,900
Registrant's Investment Manager	\$20,000	Nil

For the fiscal year ended October 31, 2009, KPMG billed \$20,000 for tax consulting and tax compliance services to the Registrant's Investment Manager and Investment Adviser. For the fiscal year ended October 31, 2008 PwC UK billed Aberdeen PLC \$325,800 for audit-related services in connection with a SAS 70 review of Aberdeen PLC, which included the Investment Manager and Investment Adviser operations.

- (h) The Registrant's Audit and Valuation Committee of the Board of Directors has considered whether the provision of non-audit services that were rendered to the Registrant's investment adviser (not including any subadviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence and has concluded that it is.

Item 5 Audit Committee of Listed Registrants.

- (a) The Registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended.

For the fiscal year ended October 31, 2009, the audit committee members were:

Neville J. Miles

John T. Sheehy

Total assets are as of October 31, 2009 and have been translated to U.S. dollars at a rate of £1.00 = \$1.6484.

There are 12 accounts (with assets under management totaling approximately \$1,491.48 million) managed by Kevin Daly with respect to which part of the advisory fee is based on the performance of the account. The investment strategies of these 12 accounts are significantly different from those of the Registrant, so the performance fee should not create any conflict between that of the Portfolio Manager (and consequently, the Investment Manager and the Investment Adviser) and the interest of the Registrant.

(3) The following is a description of the compensation structure for portfolio managers employed by Aberdeen Asset Management PLC or its subsidiaries, including the Registrant's Investment Manager and its Investment Adviser (the Aberdeen Group) as of October 31, 2009.

Aberdeen recognizes the importance of compensation in attracting and retaining talent and has structured remuneration to include an attractive base salary, a discretionary bonus that is directly linked to one's contribution to the overall success of Aberdeen and a long term incentive plan for key staff members comprised of a mixture of cash, options, and shares. Overall compensation packages are designed to be competitive relative to investment management industry standards.

The compensation policy has been designed to deliver additional rewards through appropriate incentive schemes, both annual and long term. These are directly linked to performance at both a corporate and an individual level. The policy seeks to reward performance in a manner which aligns the interests of clients, shareholders and executives.

Each Aberdeen member recognizes that any remuneration policy must be sufficiently flexible to take into account any changes in the business environment. In accordance with this need for flexibility, Aberdeen takes into account the overall competitiveness of the total remuneration package of all senior executives including some portfolio managers. When justified by performance, the at risk performance elements will form the most significant element of total remuneration for executive officers and senior employees.

Base Salary

The base salary is determined by prevailing market conditions and the compensation for similar positions across the industry. Aberdeen uses industry compensation surveys as a tool in determining each portfolio manager's base salary.

Annual Bonus

Aberdeen's policy is to recognize corporate and individual achievements each year through an appropriate bonus scheme. The aggregate incentive compensation pool each year is determined by the Board of the parent company, Aberdeen PLC, and is dependent on each member of Aberdeen's overall performance and profitability. The pool is comprised of a base level plus an agreed proportion of each member of Aberdeen's profitability.

Staff performance is reviewed formally once a year, with some areas undertaking mid-term reviews. The review process looks at all of the ways in which an individual has contributed to Aberdeen, and specifically, in the case of portfolio managers, to the relevant investment team. Discretionary bonuses are based on a combination of both the team and the individual's performance along with the Company's overall performance. Overall participation in team meetings, generation of original research ideas and contribution to presenting the team externally are also evaluated. The AAMI Remuneration Committee has made a decision to refrain from setting a cap on the percentage of bonus compared to an employee's base salary. AAMI wishes to provide incentives to Portfolio Managers to perform in the long term by awarding a major part of their bonus as deferred shares. Last year, for Senior Portfolio Managers, AAMI chose to defer 80% of their bonus as shares.

In the calculation of a portfolio manager's bonus, Aberdeen takes into consideration investment matters (which include the performance of funds, adherence to the company investment process, and quality of company meetings) as well as more subjective issues such as team participation and effectiveness at client presentations. Each Fund's performance is judged against the benchmark as established in the relevant Fund's most recent shareholder report. Portfolio manager performance on investment matters is judged over all of the accounts the portfolio manager contributes to and is documented in the appraisal process. A combination of the team's and individual's performance is considered.

Although performance is taken into account in setting a portfolio manager's compensation, Aberdeen also recognizes that fund performance can often be driven by factors outside one's control, such as (irrational) markets, and as such pays attention to the effort by portfolio managers to ensure integrity of our core process by sticking to disciplines and processes set, regardless of momentum and hot themes. Short-termining is thus discouraged and trading-oriented managers will thus find it difficult to thrive in the Aberdeen Group's environment. Additionally, if any of the aforementioned undue risks were to be taken by a portfolio manager, not only would the portfolio manager be in breach of Aberdeen's Code of Ethics, but any such trend would be identified via Aberdeen's dynamic compliance monitoring system.

Long Term Incentives

As part of an effective remuneration package, a long term incentive plan is used to structure the package so as to retain, motivate, and reward key staff members with a view to improving performance and thereby increasing the value of Aberdeen for the benefit of shareholders. Long-term incentive plans can be either cash or share based and typically vest over a three year period.

Aberdeen offers a meritocracy and a very flat management structure. The culture of the company is entrepreneurial, and enthusiastic, hard-working and talented employees are given plenty of opportunity to prove themselves and obtain a high level of job satisfaction.

Aberdeen does not tie in portfolio managers with long-term and restrictive contractual obligations, however. Aberdeen aims to retain key individuals primarily through the provision of competitive compensation and other benefits. It is the policy of the Aberdeen Group to mitigate the effects of any individual leaving the company by ensuring that portfolios are managed on a team basis.

¹ The Registrant's stock repurchase program was announced on March 19, 2001 and further amended by the Fund's Board of Directors on December 12, 2007. Under the

terms of the current program the Registrant is permitted to repurchase up to 10% of its outstanding common stock in the open market during any 12 month period if and when the discount to net asset value is at least 8%.

Item 10 Submission of Matters to a Vote of Security Holders.

In December 2008, the Registrant's Board of Directors adopted amendments to the Registrant's Amended and Restated Bylaws dated as of December 12, 2007 ("Bylaws") pertaining to certain corporate governance matters. Many of these amendments reflect recent changes to the Maryland general corporation law; other amendments were also approved to conform the Bylaws to those of the other closed-end funds managed by the Investment Manager. The amended Bylaws include:

Updates to the procedures required for shareholders to call a special meeting of shareholders, including provisions that (a) clarify which shareholders may call a special meeting; (b) establish procedures to fix a record date; (c) establish procedures to set the date, time and place of special shareholders' meetings; (d) address revocation of requests for special shareholders' meetings; and (e) allow for verification of the validity of a shareholder request for a special meeting.

Enhancements to the advance notice provisions of the Bylaws. These amendments require shareholders to notify the Secretary of the Registrant of Director nominations and other shareholder proposals to be brought at an annual meeting, beginning with the 2010 annual meeting of shareholders, not earlier than the 150th day and not later than 5:00 p.m., Eastern Time, on the 120th day prior to the first anniversary of the date of the preceding year's proxy statement.

Additionally, the enhanced advance notice provisions (a) expand the information required to be provided by the shareholder making the proposal or nomination, including information regarding hedging activities and investment strategies of such shareholder and the shareholder's affiliates; and (b) require shareholders to update or correct any previously-submitted information.

Clarification that only those individuals nominated in compliance with the advance notice provisions of the Bylaws are eligible to serve as Directors, and that individuals must meet the substantive qualification requirements at both the time of nomination and at the time of election.

Item 11 - Controls and Procedures.

- (a) It is the conclusion of the Registrant's principal executive officer and principal financial officer that the effectiveness of the Registrant's current disclosure controls and procedures (such disclosure controls and procedures having been evaluated within 90 days of the date of this filing) provide reasonable assurance that the information required to be disclosed by the Registrant has been recorded, processed, summarized and reported within the time period specified in the Commission's rules and forms and that the information required to be disclosed by the Registrant has been accumulated and communicated to the Registrant's principal executive officer and principal financial officer in order to allow timely decisions regarding required disclosure.
- (b) There have been no changes in the Registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12 - Exhibits.

(a)(1) Code of Ethics pursuant to Item 2(f) of this Form N-CSR.

(a)(2) Certifications pursuant to Rule 30a-2(a) under the Investment Company Act of 1940, as amended.

(a)(3) Not applicable.

(b) Certifications pursuant to Rule 30a-2(b) under the Investment Company Act of 1940, as amended.
