QUESTIONS AND ANSWERS ABOUT VOTING

Who is entitled to vote?

Only holders of record of the Company's common stock on March 3, 2010 are entitled to notice of, and to vote at, the meeting or any adjournment or postponement thereof. As of the record date, there were _____ shares of common stock outstanding and entitled to vote at the meeting. Each share of common stock is entitled to one vote on all matters. No other class of securities will be entitled to vote at the meeting. There are no cumulative voting rights.

A complete list of stockholders entitled to vote at the meeting will be open to the examination of any stockholder for any purpose germane to the Annual Meeting for a period of ten days prior to the meeting at the Company's principal executive offices set forth above during ordinary business hours. Such list shall also be open to the examination of any stockholder present at the meeting.

If you hold your shares indirectly in the Rowan Companies, Inc. or the LeTourneau Technologies, Inc. savings plans (the Saving Plans), you have the right to direct the trustee of your plan how to vote as described on the separate instruction card sent to you by the trustee.

Who is soliciting my proxy to vote my shares?

Our Board of Directors is soliciting your proxy, or your authorization for our representatives to vote your shares. Your proxy will be effective for the Annual Meeting and at any adjournment or postponement of that meeting.

Table of Contents

What are the Board of Directors Voting Recommendations regarding the election of directors and proposals?

The Board of Directors recommends that you vote as follows:

Proposal to be Voted Upon		Recommendation
Proposal No. 1	Election of four Class I nominees to the Board of Directors	FOR Each Nominee
Proposal No. 2	Approval of the amendments to the Certificate	FOR
Proposal No. 3	Ratification of the Company's independent auditors	FOR

What constitutes a quorum?

For business to be conducted at the meeting, a quorum constituting a majority of the shares of Rowan common stock issued and outstanding and entitled to vote must be in attendance or represented by proxy.

How do I give voting instructions?

Proxies may be submitted over the Internet, by telephone or by mail. Votes submitted over the Internet or by telephone must be received by 11:59 p.m., Eastern Time, on Wednesday, April 28, 2010. Giving us your proxy means you authorize the persons appointed as proxies to vote your shares at the Annual Meeting in the manner that you have indicated. If you sign and return the enclosed proxy card but do not indicate your vote, the appointed proxies will vote your shares FOR the Board's director nominees, FOR the amendments to the Certificate, and FOR the ratification of the appointment of our independent auditors.

Can I change my vote?

A proxy may be revoked by a stockholder at any time before it is voted by giving notice of the revocation in writing to the Company's Corporate Secretary at 2800 Post Oak Blvd, Suite 5450, Houston, Texas 77056, by submitting another valid proxy by mail, telephone or over the Internet that is later dated and, if mailed, is properly signed, or by voting in person at the meeting.

What are the requirements to elect the directors and approve each of the proposals?

The standard for the election of directors at the Annual Meeting will be majority voting, and a nominee for director will be elected to the Board if the votes cast for such nominee's election exceed the votes cast against such nominee's election.

With respect to the amendments relating to supermajority voting provisions in the Certificate, the affirmative vote of at least 80% of the votes of holders of the shares outstanding and entitled to vote in the election of directors is required. If approved and adopted by the requisite vote of stockholders, the proposed amendment will become effective upon filing of the Certificate of Amendment with the Secretary of State of Delaware.

The ratification of the appointment of independent auditors requires the favorable vote of a majority of the votes cast.

If my shares are held in street name by my broker, will my broker vote my shares for me?

Under New York Stock Exchange rules, the proposal to ratify the appointment of independent auditors is considered a discretionary item. This means that brokerage firms may vote in their discretion on this matter on behalf of clients who have not furnished voting instructions at least 10 days before the date of

Table of Contents

the meeting. In contrast, the election of directors and the amendment of the Certificate to eliminate supermajority voting provisions are non-discretionary items. This means brokerage firms that have not received voting instructions from their clients on these proposals may not vote on them. These so-called broker non-votes will be included in the calculation of the number of votes considered to be present at the meeting for purposes of determining a quorum, but will not be considered in determining the number of votes necessary for approval and will have no effect on the outcome of the vote for directors or the amendments to Certificate. Because the amendments to the Certificate require approval by a percentage of all shares outstanding, broker non-votes will have the effect of a vote against these proposals.

We will post preliminary results of voting at the meeting on our investor relations web site promptly after the meeting.

What happens if I am a registered holder?

If your shares are registered directly in your name, you are the holder of record of these shares and we are sending these proxy materials directly to you. As the holder of record, you have the right to give your proxy directly to us, to give your voting instructions by telephone or over the Internet or to vote in person by ballot at the meeting.

What happens if I abstain or withhold my vote on any proposal?

Abstentions are counted as present in determining whether the quorum requirement is satisfied. Abstentions from voting are not votes cast and will not be taken into account in determining the outcome of any of the proposals.

Does Rowan offer electronic delivery of proxy materials?

Yes. As permitted by Securities and Exchange Commission rules, we are making this proxy statement and our annual report available to stockholders electronically via the Internet on the Company's website at www.rowancompanies.com/investors. On March 15, 2010, we began mailing to our stockholders a notice containing instructions on how to access this proxy statement and our annual report and how to vote online. If you received that notice, you will not receive a printed copy of the proxy materials unless you request it by following the instructions for requesting such materials contained on the notice or set forth in the following paragraph. This notice is not a form for voting.

If you received a paper copy of this proxy statement by mail and you wish to receive a notice of availability of next year's proxy statement either in paper form or electronically via e-mail, you can elect to receive a paper notice of availability by mail or an e-mail message that will provide a link to these documents on our website. By opting to receive the notice of availability and accessing your proxy materials online, you will save the Company the cost of producing and mailing documents to you, reduce the amount of mail you receive and help preserve environmental resources. To sign up for electronic delivery, please follow the instructions on your proxy card to vote by internet at www.proxyvote.com and, when prompted, indicate that you agree to receive or access stockholder communications electronically in future years.

What is householding?

Securities and Exchange Commission rules now allow us to deliver a single copy of an annual report and proxy statement to any household not participating in electronic proxy material delivery at which two or more stockholders reside, if we believe the stockholders are members of the same family. This rule benefits both you and the Company. We believe it eliminates irritating duplicate mailings that stockholders living at the same address receive and it reduces our printing and mailing costs. This rule applies to any annual reports or proxy statements. Each stockholder will continue to receive a separate proxy card or voting instruction card.

Table of Contents

Your household may have received a single set of proxy materials this year. If you prefer to receive your own copy, or if you have received multiple copies and prefer a single set, please make your request by calling 800-579-1639, using the website www.proxyvote.com, or by e-mail at sendmaterial@proxyvote.com, or in writing to Rowan Companies, Inc., c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717.

If a broker or other nominee holds your shares, you may continue to receive some duplicate mailings. Certain brokers will eliminate duplicate account mailings by allowing stockholders to consent to such elimination, or through implied consent if a stockholder does not request continuation of duplicate mailings. Since not all brokers and nominees may offer stockholders the opportunity this year to eliminate duplicate mailings, you may need to contact your broker or nominee directly to discontinue duplicate mailings to your household.

What if I plan to attend the Annual Meeting?

Attendance at the Annual Meeting will be limited to stockholders as of the record date. Each stockholder may be asked to present valid picture identification, such as a driver's license or passport. Stockholders holding stock in brokerage accounts or by a bank or other nominee are required to show a brokerage statement or account statement reflecting stock ownership as of the record date. Cameras, recording devices and other electronic devices will not be permitted at the Annual Meeting.

How does the Company solicit proxies?

We solicit the proxies and will bear the entire cost of this solicitation. The initial solicitation of proxies may be supplemented by additional mail communications and by telephone, fax, e-mail, Internet and personal solicitation by our directors, officers or other regular employees, or our proxy solicitor. No additional compensation for soliciting proxies will be paid to our directors, officers or other regular employees for their proxy solicitation efforts. We have retained Innisfree M&A Incorporated to assist in the solicitation of proxies at a cost of \$12,500 plus reasonable out-of-pocket expenses. We also reimburse brokerage houses and other custodians, nominees and fiduciaries for their expenses in sending these materials to you.

What do I do if I receive more than one proxy card?

If you hold your shares in more than one account, you will receive a proxy card for each account. To ensure that all of your shares are voted, please sign, date and return the proxy card for each account or use the proxy card to vote by telephone or Internet. Please be sure to vote all of your shares.

Will there be any other business conducted at the Annual Meeting?

The Board of Directors is not aware of any other matters that are to be presented for action at the meeting. However, if any other matters properly come before the meeting, your shares will be voted in accordance with the discretion of the appointed proxies.

Who is the Transfer Agent?

Our Transfer Agent is Wells Fargo Shareowner Services. Director Independence

The Board undertakes its annual review of director independence in January of each year. During the review, the Board considers transactions and relationships between each director or any member of his or her immediate family and the Company and its subsidiaries and affiliates, including the relationships reported below. The purpose of this review is to determine whether any relationships or transactions existed that were inconsistent with a determination that the director is independent. As a result of this review, the Board affirmatively determined that all of the directors are independent of the Company and its management, with the exception of Mr. Ralls, our Chief Executive Officer.

Mr. Peacock, a Class I director of the Company, is Of Counsel to Andrews Kurth LLP, a law firm from which Mr. Peacock retired as a partner in 1997. The Company seeks legal advice from many different law firms and often relies on Andrews Kurth for corporate and securities law matters. During 2009, we paid Andrews Kurth approximately \$578,000 in legal fees, which the Company believes reflected market rates for services rendered. The 2009 fees were a small portion of total legal fees paid by the Company and the Company believes such fees represented less than one-fourth of one percent ($\frac{1}{4}$ of 1%) of the law firm's 2009 revenues. The engagement of Andrews Kurth was approved by the Board of Directors. Mr. Peacock is paid an annual stipend of \$100,000 as Of Counsel to the firm. This is a fixed sum and he does not actively practice law or participate in the earnings of the firm, and is not eligible for bonuses or other incentive payments.

Mr. Lentz, a Class I Director and Chairman of the Board of the Company, was formerly Managing Director of Barclays Capital from September 2008 through March 2009. Barclays Capital (formerly Lehman Brothers Inc.) is an investment banking firm that has provided investment banking services to the Company in the past and continues to advise the Company from time to time. After Mr. Lentz resigned from Barclays Capital in March 2009, Rowan, based on competitive bids, paid fees of \$1.8 million in connection with the July 2009 public offering of \$500 million Senior Notes.

Role of the Board in Risk Oversight

The Board of Directors requires that an annual assessment of risk be performed and has delegated to the Audit Committee oversight of that process. The enterprise risk management assessment is designed to take a portfolio view of risk and to identify potential events that may affect the Company, manage risks to be within the Company's risk profile and to provide reasonable assurance regarding the achievement of Company objectives.

In 2009, the management team of the Company met to conduct a thorough assessment of potential risk facing the Company. Risks were rated as to severity and likelihood of threat, and management discussed what mitigation efforts were in place to assess each risk. To the extent the management team believed that mitigation efforts were not in place for a significant risk, an initiative to address such risk was assigned to the appropriate management representative. In January 2010, management presented the complete risk assessment to the Audit Committee, and the Committee reviewed the report and asked for modifications where it deemed necessary. The Audit Committee then provided a complete report to the Board of Directors.

The Compensation Committee is responsible for risks relating to employment policies and the Company's compensation and benefits systems. To assist it in satisfying these oversight responsibilities, the Committee has retained its own compensation consultant and meets regularly with management to understand the financial, human resources and stockholder implications of compensation decisions being made.

Director Selection Process

The Nominating and Corporate Governance Committee of the Board of Directors is responsible for, among other things, the selection and recommendation to the Board of Directors of nominees for election as directors. Working closely with the full Board, the Nominating and Corporate Governance Committee develops criteria for open Board positions, taking into account such factors as it deems appropriate,

Table of Contents

which may include: the current composition of the Board; the range of talents, experiences and skills that would best complement those already represented on the Board; the desire for a substantial majority of independent directors; and the need for financial, industry, international or other specialized expertise. Applying these criteria, the Committee considers candidates for Board membership suggested by its members and other Board members, as well as management and stockholders. The Committee may also consider retaining a third-party executive search firm to identify and review candidates.

Once the Committee has identified a prospective nominee (including prospective nominees recommended by stockholders), it makes an initial determination as to whether to conduct a full evaluation. In making this determination, the Committee takes into account the information provided to the Committee with the recommendation of the candidate, as well as the Committee's own knowledge and information obtained through inquiries to third parties to the extent the Committee deems appropriate. The preliminary determination is based primarily on the need for additional Board members and the likelihood that the prospective nominee can satisfy the criteria that the Committee has established. If the Committee determines, in consultation with the Chairman of the Board and other directors as appropriate, that additional consideration is warranted, it may gather additional information about the prospective nominee's background and experience and report its findings to the Committee. The Committee then evaluates the prospective nominee against the specific criteria that it has established for the position.

If the Committee decides, on the basis of its preliminary review, to proceed with further consideration, members of the Committee, as well as other members of the Board as appropriate, interview the nominee. After completing this evaluation and interview, the Committee makes a recommendation to the full Board, which makes the final determination whether to nominate or appoint the new director after considering the Committee's report.

A stockholder who wishes to recommend a prospective nominee for the Board should notify the Company's Secretary or any member of the Nominating and Corporate Governance Committee in writing with whatever supporting material the stockholder considers appropriate. The Committee will also consider whether to nominate any person nominated by a stockholder pursuant to the provisions of the Bylaws relating to stockholder nominations as described in *Stockholder Nominations for Director* below.

Stockholder Nominations for Director

Stockholders may nominate candidates for election as directors if they follow the procedures and comply with the deadlines specified in our Bylaws, as may be amended from time to time. A copy of our Bylaws is available to any stockholder who makes a written request to the Corporate Secretary. Stockholders may submit in writing recommendations for consideration by the Committee to our Corporate Secretary at 2800 Post Oak Blvd, Suite 5450, Houston, Texas 77056.

Recommendations should contain a detailed discussion of the qualifications of each recommended candidate and any other material information the stockholder wants the Committee to consider. Director nominees should have the highest professional and personal integrity, values and ethics, and must be committed to representing the interests of all stockholders of the Company. They must also meet the criteria set by the Committee. Director nominees must have sufficient time to carry out their duties effectively. They must have mature judgment developed through business experience and/or educational background and must meet criteria of independence and expertise that satisfy applicable NYSE and legal regulations. Each individual nominee must have the potential to contribute to the effective functioning of the Board of Directors as a whole.

On February 5, 2009, the Company and Steel Partners II, L.P. ("Steel") entered into a letter agreement (as amended, the "Agreement"), pursuant to which Steel agreed not to seek to nominate any candidates to stand for election to the Board of Directors of the Company or engage in the solicitation of proxies with respect to the election or removal of directors or any other matter to be voted on at the 2009 Annual Meeting. The Company agreed to nominate a Steel designee for election to Class III of the Board at the 2009 Annual Meeting and to recommend the election and solicit proxies for the election of the Steel designee. Lawrence J. Ruisi was designated as the Steel designee. The Company also agreed that either

Table of Contents

Mr. Ruisi or Mr. Quicke would serve on the Audit Committee and the other would serve on the Compensation Committee, effective promptly following the 2009 Annual Meeting.

At the 2009 Annual Meeting, Mr. Ruisi was elected by the stockholders. Immediately following the 2009 Annual Meeting, Mr. Quicke joined the Compensation Committee and Mr. Ruisi joined the Audit Committee. Under the Agreement, the Company's obligations with respect to Mr. Ruisi's Board membership and the Committee memberships of Mr. Quicke and Mr. Ruisi were to cease if Steel's beneficial ownership fell below 5% of the outstanding Company shares. Steel's ownership did fall below 5% in mid-2009 and accordingly, Mr. Ruisi resigned from the Board and the Audit Committee in July 2009; however, the Board asked Mr. Quicke to remain on the Compensation Committee and Mr. Quicke agreed.

Stockholder Proposals

Stockholder proposals intended for inclusion in our proxy materials for an Annual Meeting must be provided to us on a timely basis and satisfy the conditions set forth in Rule 14a-8 under the Securities Exchange Act of 1934 (the Exchange Act). Related Party Transaction Policy

Our Board of Directors has adopted a policy whereby all transactions with related parties must be made in compliance with the Sarbanes-Oxley Act and our Code of Business Conduct and Ethics. Such transactions must have a legitimate business purpose, and must be on terms no less favorable to us than could be obtained from unrelated third parties. Our Audit Committee is responsible for reviewing all related person transactions and potential conflict of interest situations involving employees and directors. Each of the transactions discussed below was reviewed by the Audit Committee and approved by the Board of Directors.

The Company employs an individual who is related to one of our named executive officers (NEOs). Since October 2008, Mr. Matt G. Keller has served as a marketing manager and is the brother of Mr.

Buvens, one of our NEOs and our Executive Vice President, Legal. S&N is owned and operated by the family of Mr. Buvens brother-in-law. Mr. Buvens has no role in purchases by the Company from S&N. In 2009 and 2008, amounts paid to S&N were approximately \$2.7 million (approximately 7.5% of S&N sales) and \$1.5 million (approximately 6% of S&N sales).

COMPENSATION DISCUSSION AND ANALYSIS

Our Compensation Committee

In 2009, our Compensation Committee (the Committee) was composed of four independent board members: P. Dexter Peacock, Chairman, Sir Graham Hearne, John J. Quicke and H. E. Lentz. Mr. Peacock, with input from the other Committee members, directs the agenda for each meeting of the Committee and seeks input from management and the Committee's independent compensation consultant.

Typically, the Company gathers information requested by the Committee and management makes recommendations with respect to certain compensation matters and ensures that the Committee members receive materials in advance of a meeting. Mr. Peacock usually invites the Company's CEO, the Vice President, Human Resources and the Vice President, Finance & CFO to attend the Committee meetings. During each Committee meeting, members of management are excused to permit the Committee to meet alone with its advisors and in executive session.

Our NEOs are all corporate officers of the parent company. Employees of our Manufacturing Division have compensation and benefit plans that are similar but not identical to our corporate employees and Drilling Division employees.

Objectives of Our Compensation Program

The Committee's goals in setting compensation for our NEOs are to:

Provide a direct relationship between executive pay and Company performance, both on a short-term and a long-term basis;

Emphasize financial and/or operational performance measures that contribute to value creation over the longer term;

Align management's interests with those of our stockholders;

Support our strategic plan and motivate our executives to fulfill that plan;

Ensure that our compensation levels are competitive with peer companies in order to retain and motivate our executives; and

Ensure that a significant portion of compensation of our senior management is performance-based and therefore at risk of forfeiture since those officers have the greatest ability to affect the Company's performance.

Table of Contents**Role of the Compensation Consultant**

Each year, the Committee retains a compensation consultant to assist in the continual development and evaluation of compensation policies and the Committee's determinations of compensation awards. The Committee's consultant attends Compensation Committee meetings, meets with the Committee without management present and provides third-party data, advice and expertise on proposed executive and director compensation and plan designs. At the direction of the Committee, the consultant reviews management recommendations and advises the Committee on the matters included in the materials, including the consistency of proposals with the Committee's compensation philosophy and comparisons to programs at other companies. At the request of the Committee, the consultant also prepares its own analysis of compensation matters, including positioning of programs in the competitive market and the design of plans consistent with Committee's compensation philosophy.

For the first half of 2009, the Committee engaged Hewitt Associates (Hewitt) as its compensation consultant. Hewitt did not provide other services to the Company. In the second half of 2009, the Committee engaged Cogent Compensation Partners (Cogent) for advice on all executive compensation matters going forward. Cogent does not provide other services to the Company.

Comparative Information Utilized by the Committee

The Committee believes it is imperative to ensure that our compensation program is in line with the market in which we compete for talent. In 2009, the Committee reviewed data from two groups of companies—a direct peer group and a broader energy group. For both of the groups, Hewitt gathered data from both publicly available and other sources of compensation survey information, reviewed raw data and performed regression analyses, where necessary, in assessing market compensation data to provide appropriate comparisons based on company size, complexity and performance, and individual role and job content.

In 2009, the Committee utilized the following direct peer group:

Atwood Oceanics, Inc.	Noble Corporation
Diamond Offshore Drilling, Inc.	Patterson-UTI Energy, Inc.
ENSCO International Incorporated	Pride International, Inc.
Helmerich & Payne, Inc.	Transocean Inc.
Nabors Industries Ltd.	Unit Corporation

The broader energy group consisted of 21 oil and gas and energy services companies, with median revenue of approximately \$2.0 billion. The Committee used this group data as a point of reference, but typically based its decisions with reference to the direct peer group.

Ameron International Corporation	El Paso Corporation	Noble Energy, Inc.
Baker Hughes Incorporated	Equitable Resources Inc.	Pioneer Natural Resources
BJ Services Company	Exterran Holdings, Inc.	Plains Exploration & Production
Cabot Oil & Gas, Inc.	FMC Technologies Inc.	Pride International, Inc.
Cameron International Corporation	Forest Oil Corporation	Schlumberger Limited
Chicago Bridge & Iron Company	Newfield Exploration Corporation	Southwestern Energy Company
Cimarex Energy Company	Noble Corporation	St. Mary Land & Exploration Co.

The Committee reviews comparator groups annually and updates the groups as appropriate to ensure the Committee is reviewing size-appropriate companies against which the Company competes for talent and

Table of Contents

stockholder investment. The Committee reviews comparative information for each component of compensation (including base salary, short- and long-term compensation and other benefits). The Committee has deliberately not set a percentile target for compensation but rather subjectively considers each individual situation, including experience, tenure in current position and individual performance.

In October of 2009, based on a review by its independent advisor, the Committee approved changes to the definition of its competitive market. These changes included removing Nabors Industries from the direct peer group since, in the opinion of the consultant; Nabors' pay policies are not considered typical market practices. Additionally, the Committee decided not to use the broader energy group after 2009. In 2010, the Committee will instead use a reference group of energy industry companies with similar size and business characteristics in order to achieve better statistical validity in its market comparisons. No compensation decisions were made in 2009 based on the updated direct peer group or the reference group.

No Compensation Adjustments in 2009; Discontinuance of Profit Sharing Plan

In 2009, given industry conditions, management of the Company suggested, and the Committee and the Board agreed, that no adjustments to base salary, short-term incentive targets or long-term incentive targets should be made for any of the Company's officers. In addition, the Company discontinued its broad-based profit sharing plan for the foreseeable future.

Role of CEO in Compensation Decisions

In 2009, our CEO performed the following functions in our compensation decision process:

Recommended that no changes be made to base salaries, short-term or long-term incentive targets given the drilling industry and financial market conditions;

Recommended changes to the short-term and long-term plans to ensure more direct alignment with strategic initiatives and long-term stockholder value;

With the management team, developed short-term and long-term goals to be considered by the Committee for the 2009 AIP and the long-term incentive plan;

Approved other elements of compensation or personnel matters including:

- o Changes in pay or title to employees below the NEOs;
- o Levels of equity awards for executives below the NEO level and for key non-officer employees under the 2009 Plan; and
- o Agreements or arrangements relating to the terms of employment, continued employment or termination of employment with respect to employees below the officer level.

After review of the CEO's recommendations and a review of all relevant compensation data presented to the Committee, the Committee made its own assessment and recommendations to the Board of Directors regarding the compensation package for each NEO.

Elements of Compensation

An executive's compensation consists of:

Base salary paid in cash;

Annual incentive paid in cash;

Annual award under long-term incentive plan;

Perquisites; and

Benefits.

Table of Contents

The balance among these components is established annually by the Committee and is designed to recognize past performance, retain key employees and encourage future performance. When conducting its annual deliberations, the Committee reviews each component against both historical and recent comparative statistics as well as anticipated trends in compensation with reference to the comparator groups.

Base Salary. The base salaries for NEOs are reviewed annually by the Committee. For each NEO, the Committee reviews pay information for such position among our comparator companies to ensure the NEO salaries remain competitive. The Committee does not target a specific percentile of the market data since it feels the competitive conditions and the circumstances of the individual need to be considered, such as tenure in the position, responsibilities of the position as well as the individual's performance. There is no specific weighting given to each factor.

For the NEOs below the CEO, the Committee also receives a recommendation from the CEO as to suggested salary adjustments. The Committee considers those recommendations and receives a performance review of each member of management from the CEO. Utilizing all of this information, the Committee then determines what, if any, salary adjustment will be made. In 2009, no adjustments were made to base salaries of the NEOs.

Annual Incentive Compensation. In 2009, the NEOs participated in a targeted bonus plan (the 2009 Bonus Plan). Each participant in the 2009 Bonus Plan has an incentive target that is a percentage of base salary. Awards are generally based on performance of our Drilling Division, which provides the large majority of the Company's earnings. Approximately 320 employees participated in the 2009 Bonus Plan. The plan used five financial and operational metrics, as described below, each based on the Drilling Division's performance. The bonus pool could be as low as zero or as high as 200% of target depending on the achievement of the metrics shown below.

Metric	Percent of Possible Bonus Pool	Percent of Metric Achieved in 2009	Funding of Bonus Pool
Achievement of budgeted EBITDA for 2009(1)	25%	36%	9%
Actual costs compared to 2009 budget(2)	25%	200%	50%
Safety performance(3)	20%	200%	40%
Capital projects(4):			
<i>Newbuild construction</i>	15%	200%	30%
<i>Other capital projects</i>	5%	100%	5%
Contracted non-productive time(5)	10%	61%	6%
Total:	100%		140%

- (1) Our 2009 Drilling Division EBITDA (earnings before interest, taxes, depreciation and amortization) was 87.3% of our budget, which resulted in an achievement of 36% of the allocation of this metric.
- (2) Actual costs are Drilling operations' costs plus selling, general and administrative costs, excluding insurance costs and reimbursables. Our 2009 actual costs were 89.4% of budget, which resulted in an achievement of 200% of the allocation of this metric.
- (3) Safety performance is derived from Drilling Division internal incident reporting by comparing the trailing total recordable incident rate (TRIR) with Company goals. The target metric for safety was set as a 20% improvement over 2008 TRIR results, or a 2.0 TRIR. In 2009, the Drilling Division had record safety results, with a TRIR of 1.53, a 42% improvement over 2008, which resulted in an achievement of 200% of the allocation of this metric.

Table of Contents

- (4) Of the 20% capital projects goal, 15% is based on construction of our newbuild offshore jack-up rigs remaining on time and on budget. As of December 31, 2009, our newbuild projects are 1.2% under budget and remain on schedule, which resulted in an achievement of 200% of the allocation of this portion of the metric. The remaining 5% of this capital projects goal is determined by other capital expenditure projects and adherence to schedule, budget, work readiness upon leaving the ship yard, use of our project software and certain other qualitative factors. The results of these capital projects were at target, or 100% of the allocation of this portion of the metric.
- (5) Contracted non-productive time refers to any period when one of our rigs is on location and under contract but not operational due to equipment failure or other unplanned stoppage. In an effort to reduce non-productive time, the target for this metric was set at a 25% reduction from the 2008 level, and the threshold was set at a 10% reduction. We were able to reduce non-productive downtime by 13%, which resulted in an achievement of 6.1% of the allocation of this metric.

Once the Committee approved the calculation of the achievement of the metrics as shown above, the Committee funded the 2009 Bonus Plan pool at 140%. For three of our officers, Messrs. Ralls, Buvens and Wells, given their responsibilities regarding our Manufacturing Division, 10% of their target bonuses are determined with reference to the Manufacturing Division bonus plan, which employed market segment and company-wide targets for revenues and margins, cost control and profitability, cash flow, safety and inventory reduction among others. Taking into account the Manufacturing Division's 2009 performance, which achieved an average 158% payout versus target, the bonus allocation for Messrs. Ralls, Buvens and Wells increased from 140% to 141.8%.

The Committee then approved the 2009 bonus for our CEO, taking into account the Board's evaluation of Mr. Ralls' performance in 2009, and approved the bonuses to be paid to our NEOs. The CEO then allocated the remaining bonus pool among the Company's operating and corporate groups based on each group's performance.

Long-Term Incentive Compensation. In 2009, awards were made by determining a dollar amount of targeted compensation to be delivered to the NEO (based on a multiple of base salary), and then granting equity awards that have a calculated value equal to that amount on the date of grant. In 2009, the Committee determined to provide the long-term incentive value by awarding 50% of the target amount in shares of restricted stock and 50% in stock appreciation rights (SARs). Such awards were made under the stockholder-approved 2009 Plan:

Restricted Stock: 50% of the targeted value was delivered in shares of restricted stock that vest in equal installments over a three-year period. Dividends accrue from the date of grant and are paid at the time of vesting. The value of restricted stock granted was determined by the fair market value (defined in the 2009 Plan as the volume weighted average price of the Company's common stock on the day of grant, or \$17.39 per share), discounted by 4% to reflect the time-based restrictions on the stock.

SARs: 50% of the targeted value was delivered in SARs that vest in equal installments over a three-year period. The value of the SARs granted was based on a Black-Scholes valuation that provided a 55.23% value compared to fair market value on the date of grant.

Effective January 1, 2009, W. Matt Ralls became the Chief Executive Officer of the Company. In the first few months of 2009, Mr. Ralls and the management team developed the Company's strategic plan, which included many strategic initiatives that the management team and the Board of Directors believed were critical to enhance long-term stockholder value. As described below under "2009 Adoption of Strategic Equity Scorecard Approach," the Committee has devised a new long-term incentive approach to ensure that management remains focused on achieving the Company's strategic objectives. Due to the timing of Mr. Ralls' hiring, and the adoption of the strategic plan, this new approach was not in place for 2009 awards.

Table of Contents

Annual LTIP awards are expected to be made in March of each year. Any equity awards to newly hired executive officers below the NEO level are recommended by the CEO and approved by the Committee at the next regularly scheduled Committee meeting on or following the hire date. Since 2003, all option grants have had market-based exercise prices.

The Committee believes that the design of the Company's compensation program is generally appropriate and competitive. The Committee made significant changes to the 2009 Annual Incentive Plan (AIP) and the long-term incentive program during 2009, as described below, in light of economic and industry conditions.

Clawback Provision of 2009 Plan

Our 2009 Plan contains a clawback provision that provides that, if within five years of the grant or payment of an award under the 2009 Plan, (1) the Company's reported financial or operating results are subject to a material negative restatement or (2) a participant engages in conduct which is fraudulent, negligent or not in good faith, and which disrupts, damages, impairs or interferes with the business, reputation or employees of the Company or its affiliates (as determined in the sole discretion of the Committee), then in each case the Committee may, in its discretion, seek to recoup all or a portion of such grant or payment.

2009 Adoption of Strategic Equity Scorecard Approach

In 2009, the Committee revised the long-term incentive compensation program for the Company in order to more closely align executive behavior with the strategic long-term objectives of the Company. The Committee believes that the offshore drilling industry presents unique challenges in designing a long-term incentive program, such as:

Highly capital intensive;

Long lead times on capital decisions;

Very cyclical demand;

Tied to volatile commodity prices and demands;

Current managers live with capital decisions made by previous management teams; and

Values depend heavily on the stage of the industry cycle.

Despite these challenges, retaining and motivating managers through the cycle is critical to creating stockholder value over time. Due to the challenging cyclical nature of the drilling industry and the resulting stock price volatility, traditional long-term incentive equity approaches fall short of providing meaningful performance linkage for the Company and the executive. Traditional incentive-based awards, such as restricted stock, lack a sufficient motivational performance component, and performance-based equity relies too heavily on long-term goal setting or market-based results. Traditional performance-based awards also fail to measure significant progress towards multi-year strategic objectives and tend to focus only on the completion of long-term goals. The Committee considered traditional approaches to granting equity, but in 2009, chose the scorecard approach, which it believes is truly suited to the Company's current situation and the long-term benefit of its stockholders.

Scorecard Approach. The scorecard approach allows the Company to reward executives for decisions that maximize the long-term health of the Company and that translate into long-term stockholder value creation. The scorecard provides a meaningful tool for the Company to communicate critical strategic objectives. This requires the executive to be accountable in the long-term for decisions made in the short-term.

The Company has adopted and implemented what it considers to be a true long-term approach to granting long-term incentives. The Committee will use the scorecard to measure financial and operational results and then determine the executives' long-term incentive grant value based on

Table of Contents

Company-wide results. The scorecard approach permits the Committee to use a process whereby the target long-term incentive grant value is adjusted based on the Company's performance against annual strategic objectives.

Scorecard Process. The process for the strategic scorecard is:

In the first quarter of the year, the Company and the Committee agree on the top strategic priorities that will be included in the scorecard (typically three to five goals);

These priorities are outlined on a scorecard;

At the end of the year, the Committee evaluates the CEO's assessment of Company performance against these objectives and progress toward long-term priorities, with measurable criteria for each objective;

The Committee then determines a grade for each priority and an overall grade for the Company on the strategic objectives;

The overall Company grade is applied to the target long-term incentive value for all participants (the highest grade would equate to 125% of target value, the lowest grade would equate to 75% of target value); and

The CEO determines individual allocation to participants based on individual performance.

2009 Goals. In 2009, the following strategic objectives were agreed upon by the Company and the Committee:

Grow and Diversify the Rig Fleet

Grow the Earnings Power of the Fleet

Enhance Leadership Development

Maximize Stockholder Value from Manufacturing Division

Enhance Tone at the Top

In March 2010, the Committee assessed performance against each of these strategic objectives and subjectively determined a grade for each priority and an overall Company grade. This grade was then used to set the long-term incentive value for participants' 2010 restricted stock portion of the long-term incentive award.

Stock Ownership Guidelines

We believe it is important for our officers and directors to build and maintain a significant personal investment in our common stock. In January 2006, the Board of Directors approved these stock ownership guidelines for our NEOs, and in October 2007, the Board approved the stock ownership guideline for non-management directors:

Position	Value to be Retained
CEO	Five times base salary
Other NEOs	Three times base salary
Non-management Directors	Five times annual retainer

To facilitate implementation of these guidelines, an officer is required to retain 35% of available shares received pursuant to equity grants (including outstanding restricted stock and any restricted stock award, performance awards or stock option grants made after January 2006) until his ownership guideline is met, at which time the retention level is reduced to 15%. The retention requirement does not apply once an officer reaches 200% of the applicable ownership guideline or upon the age of 60. Available shares are shares remaining after payment of taxes, fees, commissions and any exercise price payments. For our non-management directors, the individual has five years to meet the guideline and ownership of RSUs counts toward such retention.

Perquisites

The Company provides NEOs with perquisites and other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program. Executives are provided with the following benefits as a supplement to their other compensation:

Use of Company vehicle or vehicle allowance: In the past, the Company has provided the NEOs with a vehicle for use for travel to and from the office and business-related events. The Company provided vehicles historically based on distance likely traveled and the individual's need to transport employees, customers, vendors, investors and others for business purposes. The Company paid for all maintenance, insurance and gasoline for such vehicles. In 2008, we began phasing out many of our vehicles and most of our officers have elected instead to receive a car allowance of \$15,000 per year. In 2009, all of our NEOs other than Mr. Keller elected to receive the car allowance. Mr. Ralls does not use a Company vehicle and does not receive a car allowance.

Use of club membership: The Company pays for the initiation fee and monthly membership fees for certain golf or social clubs for certain of the NEOs. The Company has encouraged certain members of management to belong to a golf or social club so that they have an appropriate entertainment forum for business purposes.

Use of Company entertainment facilities and airplanes: In 2009, the Company held sporting and other entertainment event tickets to entertain customers and vendors and for Company team-building. Sometimes, our employees are permitted to bring family members while entertaining third parties. For some of these events, Company-owned aircraft were used for travel. None of the NEOs or their family members used Company-owned aircraft for personal travel in 2009.

Executive physical program: At our expense, each of the NEOs is encouraged to have a complete and professional personal physical exam periodically.

Supplemental retirement plan: Each of the NEOs receives incremental retirement benefits under the Company's supplemental retirement plan. This plan was amended in July 2009 to include cash balance and Savings Plan benefits on compensation in excess of IRS limits.

Benefits

The NEOs also participate in the Company's other benefit plans on the same terms as other employees. These plans include a defined contribution plan, for which the Company matches up to 100% of the first 6% of eligible salary contributed by the employee, a defined benefit pension plan, and medical, dental and term life insurance.

Employment Contracts and Severance Arrangements

We do not have any employment agreements or severance arrangements with our NEOs, other than related to a change in control as described below. For pension and benefit restoration plan (SERP) benefits payable as of December 31, 2010 upon a voluntary termination, involuntary termination or a change of control, please see the Potential Post-Employment Payment Table on page 33.

In December 2007, the Committee and the Board approved change in control agreements (CIC Agreements) with each of the executive officers, including the NEOs. In December 2008, the Company entered into a CIC Agreement with our new CEO, W. Matt Ralls. The CIC Agreements provide that, in the event the employment of the executive officer is terminated or modified under certain circumstances following a change in control of the Company (so-called double trigger agreements), the Company will pay the executive officer:

A multiple of the sum of the executive officer's base salary and calculated bonus;

A calculated payment under the then current short-term incentive bonus opportunity;

Table of Contents

An amount equal to any forfeited account balance or accrued benefit under tax qualified plans maintained by the Company; and

Any accrued but unused vacation pay.

The multiple of base salary and calculated bonus used for the change in control payment calculation is 2.99 for the chief executive officer, 2.0 for the other NEOs and 1.0 for all other executive officers. The CIC Agreements also provide for a parachute tax gross-up, medical coverage for a transition period and outplacement services. A supplement to the CIC Agreements provides that equity awards held by the officer will generally become fully vested and exercisable upon a change in control. Options will be exercisable until the earlier of the second anniversary of the change in control or the expiration of the original exercise period, and performance shares will be paid out at the target value of the award, with proration based on the timing of the change in control within the performance period. The Committee has committed not to include excise tax gross up provisions in future contractual arrangements with new NEOs.

Set forth below are the actual payments that would be made to each listed executive under the CIC Agreements in the event his employment is terminated or modified following a change in control of the Company. The payments listed below assume a termination date of December 31, 2009.

Director Compensation					

In 2009, the Committee reviewed all aspects of non-management director compensation. Although the Committee believes non-management director compensation was below market, given the 2009 drilling industry and financial market conditions, the Committee determined not to make any adjustments at that time.

Indemnification Agreements

The Company has entered into an indemnification agreement with each of our NEOs and non-management directors (as well as certain other officers of the Company). These agreements provide for us to, among other things, indemnify the individual against certain liabilities that may arise by reason of his or her status or service as a director or officer, to advance expenses incurred as a result of certain proceedings and to cover him or her under our directors and officers liability insurance policy. These agreements are intended to provide indemnification rights to the fullest extent permitted under Delaware law and under our governing documents.

Accounting for Stock-Based Compensation

On January 1, 2006, the Company began accounting for stock-based compensation including its LTIP awards, in accordance with the requirements of SFAS No. 123R, now codified as FASB ASC Topic 718.

Limitation of Deductions

Section 162(m) of the Internal Revenue Code generally limits the deductibility of executive compensation paid to the Company's NEOs to \$1 million per year for federal income tax purposes, but contains an exception for certain performance-based compensation. In making compensation decisions, the Committee considers the potential deductibility of proposed compensation to its executive officers and will continue to do so in the future. However, the Committee may elect to approve non-deductible compensation arrangements if the Committee believes that such arrangements are in the best interests of the Company and its stockholders.

PROPOSAL NO. 2

**APPROVAL OF AMENDMENTS TO THE COMPANY'S RESTATED CERTIFICATE OF
INCORPORATION**

Subject to stockholder approval, the Board has approved amendments to the Company's Restated Certificate of Incorporation (Certificate) that would remove all supermajority voting requirements. The Board approved these amendments in the interest of allowing stockholders to take certain actions by a majority vote rather than a supermajority vote. The Board believes that these amendments are consistent with evolving standards of good governance and reflect the views of many of the Company's stockholders.

The Certificate contains the following supermajority provisions, by Article number:

Fourth. Requires a vote of at least two-thirds (2/3) of the outstanding shares of the affected preferred stock to amend, alter or repeal any of the provisions of the Certificate that adversely affect the rights of such preferred stockholders.

Eighth. Requires a vote of at least 80% of the outstanding shares normally entitled to vote in the election of directors to adopt, alter, amend or repeal the Bylaws.

Tenth. Requires a vote of at least 80% of the outstanding shares normally entitled to vote in the election of directors to approve certain transactions involving a Related Person (as defined in the Certificate).

Table of Contents

Sixteenth. Requires a vote of at least 80% of the outstanding shares entitled to vote in the election of directors to amend or repeal Articles Eighth, Tenth, Fourteenth (provides for a staggered Board) and Fifteenth (prohibits stockholder action by written consent) of the Certificate.

Information about the Four Amendments to the Certificate

The following summary does not contain all the information that may be important to you. The complete text of the Certificate of Amendment setting forth the Articles as they are proposed to be amended (the Amendment) is included in Appendix A to this Proxy Statement. The following summary is qualified in its entirety by reference to the text of the Amendment. You are urged to read the Certificate of Amendment in its entirety.

Adoption of majority vote standard for preferred stock amendments. The Board has approved an amendment to Article Fourth of the Certificate to replace the supermajority vote of the affected preferred stock required to amend, alter or repeal any of the provisions of the Certificate that adversely affect the rights of such preferred stockholders. The new provision in the Amendment will require the vote of holders of the majority of such shares of preferred stock outstanding.

Adoption of majority vote standard for stockholder amendments to the Amended and Restated Bylaws. The Board has approved an amendment to Article Eighth of the Certificate to replace the supermajority voting provision for stockholder amendments to the Bylaws. The new provision in the Amendment will require the vote of holders of a majority of the outstanding shares normally entitled to vote in the election of directors to adopt, alter, amend or repeal the Bylaws.

Adoption of majority vote standard for approving certain related person transactions. The Board has approved an amendment to Article Tenth to replace the supermajority voting provision for approving certain transactions involving a Related Person. The new provision in the Amendment will require the vote of holders of a majority of the outstanding shares normally entitled to vote in the election of directors to approve these transactions.

Removal of supermajority vote standard for certain amendments to Certificate. The Board has approved the removal of Article Sixteenth of the Certificate. A supermajority vote would no longer be required to amend Articles Eighth (described above), Tenth (described above), Fourteenth (provides for a staggered Board) and Fifteenth (prohibits stockholder action by written consent) or to add any article imposing cumulative voting in the election of directors.

Amendment of Bylaws

Subject to approval of the proposed Amendment by the stockholders, the Board has approved an amendment to the Company's Bylaws to eliminate the supermajority voting requirement contained in Article X of the Bylaws. After giving effect to this amendment of the Bylaws, the vote of holders of a majority of the outstanding shares normally entitled to vote in the election of directors will be required to adopt, alter, amend or repeal the Bylaws, and the Bylaws will be consistent with Article Eighth of the Certificate, as amended.

Voting Requirements

The affirmative vote of at least 80% of the votes of holders of the shares outstanding and entitled to vote in the election of directors is required to approve each of the proposed amendments. If approved and adopted by the requisite vote of stockholders, the proposed Amendment will become effective upon filing of the Certificate of Amendment with the Secretary of State of Delaware.
