Stockholders do not have the right to cumulate votes in the election of directors. Only stockholders of record at the close of business on March 8, 2010 (the Record Date) will be entitled to vote at the Annual Meeting. As of the Record Date, there were 22,006,040 shares of common stock issued and outstanding.

The accompanying proxy is solicited from the holders of record of the common stock on behalf of the board of directors of the Company and is revocable at any time by giving written notice of revocation to the Secretary of the Company prior to the Annual Meeting or by executing and delivering a later-dated proxy by mail prior to the Annual Meeting. Furthermore, the stockholders who are present at the Annual Meeting may revoke their proxies and vote in person.

If your shares are held in a bank or brokerage account, you will receive proxy materials from your bank or broker, which will include a voting instruction form. If you would like to revoke a proxy given to your bank or broker, you must follow their instructions. If you would like to attend the Annual Meeting and vote these shares in person, you must obtain a proxy from your bank or broker. You must request the proxy from your bank or broker; they will not automatically supply one to you.

All shares of the Company s common stock represented by properly executed and unrevoked proxies will be voted by the proxies in accordance with the directions given therein. Where no instructions are indicated, properly executed proxies will be voted FOR the proposals set forth in this Proxy Statement for consideration at the Annual Meeting. The directors expect shares of common stock held by executive officers and directors of the Company will be voted FOR such proposals.

A quorum consisting of at least one-third of shares of common stock issued and outstanding must be present at the meeting for any business to be conducted. PROPOSAL 1

ELECTION OF DIRECTORS

Board of Directors

The Company's third amended and restated certificate of incorporation divides the Company's board of directors into three classes, with each class being elected to a three-year term.

The board of directors has nominated James D. Edwards, John McCartney and James H. Roth as Class III Directors to be voted upon at the 2010 Annual Meeting. H. Eugene Lockhart and George E. Massaro are Class I Directors serving terms ending at the 2011 Annual Meeting. DuBose Ausley and John S. Moody are Class II Directors serving terms ending at the 2012 Annual Meeting.

This Proxy Statement relates only to the solicitation of proxies from the stockholders with respect to the election of the three nominees as Class III Directors and the other matters described herein. The board of directors knows of no reason that Mr. Edwards, Mr. McCartney or Mr. Roth might be unavailable to serve as the Class III Directors, and each has expressed an intention to serve, if elected. If any of Mr. Edwards, Mr. McCartney or Mr. Roth is unable to serve, the shares represented by all valid proxies will be voted **FOR** the election of such substitute nominee as the board of directors may recommend. There are no arrangements or understandings between any of the persons nominated to be a Class III Director and any other person pursuant to which any of such nominees was selected.

The election of a director requires the affirmative vote of a plurality of the shares of common stock present in person or represented by proxy at the Annual Meeting that are voted, provided that a quorum is represented at the meeting. Shares of common stock held by stockholders electing to abstain from voting and broker non-votes will be counted toward the presence of a quorum but will not be considered present and voting. Therefore, abstentions and broker non-votes will have no impact on the election of directors. Properly executed proxies submitted pursuant to this solicitation will be voted **FOR** the election of Mr. Edwards, Mr. McCartney and Mr. Roth as Class III Directors, unless specified otherwise.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE **FOR THE ELECTION OF MR. EDWARDS, MR. MCCARTNEY AND MR. ROTH AS CLASS III DIRECTORS.**

Director Independence

Our Corporate Governance Guidelines require that the board of directors make an annual determination regarding the independence of each of our directors. The board of directors has determined that Messrs. Ausley, Edwards, Lockhart, McCartney and Moody are independent as defined in the applicable listing standards of The NASDAQ Stock Market, Inc. (NASDAQ). In making its determination, the board of directors considered the standards of independence set forth in the NASDAQ Corporate Governance Listing Standards and all relevant facts and circumstances to ascertain whether there was any relationship between a director and the Company that, in the opinion of the board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of the director, or any material relationship with the Company (either directly, or as a partner, stockholder or officer of an organization that has a relationship with the Company).

Board Leadership Structure and Risk Oversight

Board Leadership. At the time of the Company's initial public offering, the Chief Executive Officer (the CEO) served as Chairman of the board, and the board did not have a lead director. At the January 2005 meeting of the Nominating and Corporate Governance Committee, the committee revised the Corporate Governance Guidelines to provide for a lead director position, whenever the Chairman is not an independent director, to be rotated by board meeting and, later, the board concluded that the position would rotate by quarter, among all independent directors. The role of the lead director at that time was to provide for an independent outside director to determine, in consultation with the Chairman, the agenda for each board meeting and to chair executive sessions of the board without the Chairman present.

In May 2008, the board of directors, upon the recommendation of the Nominating and Corporate Governance Committee, amended the Corporate Governance Guidelines to make the position of lead director an annual position, and James D. Edwards was elected lead director by the board to serve for one year or until his replacement was designated. The board also expanded the role of the lead director to include, in addition to reviewing the board agendas in advance of each meeting and chairing executive sessions, working closely with the Chairman of the board in carrying out the following:

Determining the appropriate schedule for the board meetings; and

Assessing the quality, quantity and timeliness of information provided from Company management to the board.

On July 31, 2009, the Company announced that it would be restating its financial statements for the years 2006, 2007, 2008 and the first quarter of 2009, and that Gary E. Holdren, the Chairman and Chief Executive Officer, had resigned. Concurrently, the Company created the position of Non-executive Chairman and announced that board member George E. Massaro, who had served as Chief Operating Officer (the COO) of the Company from 2003 to 2005, had assumed that position and agreed to assist management with the challenges presented by the restatement. As of March 9, 2010, the Company has accomplished certain high priority goals (the High Priority Goals) it had set for itself when it announced the restatement, including the following:

Our new management team was assimilated with our critical stakeholders — our people, clients and investors;

We filed the restated financials promptly and timely filed our second quarter 2009 report on Form 10-Q;

Table of Contents

We renegotiated our bank facility with revised financial covenants;

We conducted a goodwill impairment analysis and recorded an impairment and timely filed our third quarter 2009 report on Form 10-Q;

We divested certain practices, implemented retention programs for key personnel throughout the Company, and made meaningful cost reductions;

We achieved 2009 financial results consistent with the revised guidance provided at the time of the restatement;

We implemented remediation actions to address failures in internal controls identified in connection with the restatement; and

We filed our 2009 annual report on Form 10-K with a finding that we had no material weaknesses and a conclusion that our internal controls were effective.

In light of the progress made by the Company, Mr. Massaro and the board believed that it was an appropriate time to appoint an independent Non-executive Chairman. Mr. Massaro, therefore, effective at the Annual Meeting, will resume his prior position on the board as Vice Chairman. In that role he will continue to devote his energies to addressing the remaining restatement related matters with the objective of allowing our management team to devote necessary time and attention to our clients, our people and the markets we serve.

On March 9, 2010, the board of directors elected to the position of Non-executive Chairman, effective the date of the Annual Meeting, John McCartney, who had served as an independent director and the chairman of the Audit Committee since the Company's initial public offering, and who led the Audit Committee investigation of the events leading up to the financial restatement. In connection with these changes, Mr. McCartney resigned as chairman of the Audit Committee, but will continue to serve as a member of the Audit Committee. Mr. Lockhart, who has deep experience in supervising complex organizations in a variety of industries, has assumed the chairmanship of the Audit Committee. Mr. Lockhart also currently serves as chairman of the audit committee of RadioShack Corporation. Both Messrs. McCartney and Lockhart qualify as independent and audit committee financial experts under the relevant regulations. As Mr. McCartney qualifies as an independent chairman of the board, under the Company's Corporate Governance Guidelines, he will carry out the responsibilities previously handled by the lead director when his appointment as independent Non-executive Chairman is effective. Mr. McCartney's assumption of the role of Non-executive Chairman is subject to his re-election to the board at the Annual Meeting.

In addition, the board, after extended discussion, has concluded that the positions of the Non-executive Chairman and Chief Executive Officer should remain separate because, in the view of the board, the separation of powers is healthy for an organization. The Nominating and Corporate Governance Committee formally adopted this change at its meeting on March 9, 2010 and directed management to implement it by amending our Corporate Governance Guidelines and presenting the amended guidelines for approval at the May 2010 meeting.

Risk Oversight. The board carries out its risk oversight functions by requiring direct reporting to the Audit Committee:

By the General Counsel of matters raised through the whistleblower hotline and other legal developments;

By Crowe Horwath, Huron's internal auditors, of reports of internal audit; and

By the Chief Compliance Officer of compliance efforts and issues raised in implementing and monitoring our compliance program. In addition, in 2010 we reviewed our material compensation policies and practices and reported to the Compensation Committee that we concluded that these policies and practices do not entail risks reasonably likely

Table of Contents

to have a material adverse effect on the Company. A committee comprised of the Chief Compliance Officer, the Chief Financial Officer (the CFO), the General Counsel, the Vice President, Human Resources and the Director of Compensation reviewed the plan elements, potential risks, and various controls in place with respect to Huron's executive, managing director, employee and business developer compensation plans. We concluded that our compensation programs contain many controls and design features that mitigate excessive risk-taking behavior. These features include:

A balance of fixed and variable compensation;

Achievable, but challenging, goals and objectives;

Variable compensation comprised of cash incentives tied to short-term individual, team and company-wide achievements and equity incentives tied to the long-term growth of the Company;

Payouts modified based upon individual performance;

Share ownership and retention requirements;

Multiple controls, including Compensation Committee oversight and approval of (i) annual Company-wide bonus pools based on the achievement of Company and practice plans, and (ii) all equity grants;

Reference to peer group median in setting base and target pay for executive officers and use of a variety of market data for other employees; and

Board Meetings and Committees

The board of directors conducts its business through meetings of the full board, actions taken by written consent in lieu of meetings and by the actions of its committees. During 2009, the board of directors held 31 meetings.

During 2009, all directors attended at least 97% of the meetings of the board of directors and committees on which they served. Although the Company does not have a formal policy regarding director attendance at our annual meetings, we encourage directors to attend. All directors attended the 2009 Annual Meeting of Stockholders.

The board of directors operates in part through its three committees: Audit, Compensation, and Nominating and Corporate Governance. All committee members are independent as defined in the applicable listing standards of NASDAQ, non-employee directors within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934 (the 1934 Act) and outside directors within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code). Each of the committee charters is available on the Company's web site at www.huronconsultinggroup.com.

Audit Committee. The Audit Committee responsibilities include overseeing our accounting and financial reporting processes, overseeing the audits of our financial statements and internal control over financial reporting, and retaining and discharging our auditors. The Audit Committee met 18 times in 2009. The members of the Audit Committee are Messrs. Lockhart (Chairman), Ausley and McCartney. The board of directors

Edgar Filing: Huron Consulting Group Inc. - Form DEF 14A

has determined that each Audit Committee member has sufficient knowledge in financial and auditing matters to serve on the Audit Committee. The board of directors has also determined that each of Messrs. Lockhart and McCartney is an audit committee financial expert, as defined by the applicable securities regulations.

The Report of the Audit Committee for the fiscal year ended December 31, 2009 appears below under the caption

Compensation Committee. The Compensation Committee responsibilities include overseeing our compensation and benefit plans, including all compensation arrangements for executive officers and directors. The Compensation Committee met nine times in 2009. The members of the Compensation Committee are Messrs. Moody (Chairman), Ausley and Lockhart.

Management assists the Compensation Committee in the performance of its duties. Each year, the CEO reviews the performance and compensation of each of the executive officers and makes recommendations to the Compensation Committee with respect to base pay, annual cash incentives and long-term equity incentives. The Compensation Committee may exercise its discretion in modifying any recommended awards to executive officers. In the first half of 2009, the former CEO participated in all of the Compensation Committee's general meetings, in all of the telephonic meetings and in all of the executive sessions, except for those in which the Compensation Committee considered the CEO's performance, compensation and incentives. The Report of the Compensation Committee on Executive Compensation appears below under the caption EXECUTIVE COMPENSATION Compensation Committee Report.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee responsibilities include identifying and recommending to the board of directors appropriate director nominee candidates and providing oversight with respect to corporate governance matters. The Nominating and Corporate Governance Committee met three times in 2009. The members of the Nominating and Corporate Governance Committee are Messrs. Edwards (Chairman), Ausley and Moody.

Directors may be nominated by the board of directors or by stockholders in accordance with the bylaws of the Company. The Nominating and Corporate Governance Committee will review all candidates for nomination to the board of directors, including those proposed by stockholders as provided below. The Nominating and Corporate Governance Committee reviews the person's judgment, experience, independence, understanding of the Company's business or other related industries, and such other factors as the Nominating and Corporate Governance Committee determines are relevant in light of the needs of the board of directors and the Company. The board of directors believes that its nominees should reflect over time a diversity of experience, gender, race, ethnicity and age. The Nominating and Corporate Governance Committee selects qualified candidates and reviews its recommendations with the board of directors, which will decide whether to invite the candidate to be a nominee for election to the board of directors.

If the Nominating and Corporate Governance Committee receives a nominee recommendation from a stockholder or group of stockholders that has beneficially owned more than 5% of the Company's voting common stock for at least one year as of the date of the recommendation, the name of the candidate, the name(s) of the stockholder(s) who recommended the candidate, and whether the Nominating and Corporate Governance Committee chose to nominate the candidate will be disclosed in the proxy statement, if the consent of both the stockholder and the candidate has been received.

For a stockholder to submit a candidate for consideration by the Nominating and Corporate Governance Committee, a stockholder must notify the Company's Corporate Secretary. In addition, the Company's bylaws permit stockholders to nominate directors at a stockholders' meeting. To make a director nomination at the Annual Meeting, a stockholder must notify the Company's Corporate Secretary within the time periods specified under SUBMISSION OF STOCKHOLDER PROPOSALS below in the Proxy Statement. Notices should be sent to: Corporate Secretary, Huron Consulting Group, 550 West Van Buren Street, 17th Floor, Chicago, Illinois 60607, or corporatesecretary@huronconsultinggroup.com. In either case, the notice must meet all of the requirements contained in the bylaws.

The notice must set forth:

the name, age, business address and residence address of the proposed nominee;

the principal occupation or employment of the proposed nominee;

Diversity of Board Skills and Experience

Huron does not have a formal policy on diversity; however, its board believes that board nominees should reflect over time a diversity of experience, gender, race, ethnicity and age. The Nominating and Corporate Governance Committee, in discussing board composition, has focused on diversity of experience in relation to the development of the business. The Nominating and Corporate Governance Committee seeks candidates from regions where Huron offices are located, with prior management experience, experience on public company boards and regulated industries, particularly in higher education and healthcare, as Huron's consulting work for those industries has grown rapidly.

Individual Contributions of Board Members

John McCartney, recently elected Huron's Non-executive Chairman, effective the date of the Annual Meeting, has served as chairman and vice chairman of the boards of several public and private companies, as well as of an institution of higher education. His deep knowledge of accounting and his prior experience as chief financial officer and chief operating officer of a public company have prepared Mr. McCartney, while serving as chairman of the Audit Committee, to successfully guide Huron through the challenges of the past year, and should enable him to lead us through the resolution of the regulatory and legal proceedings facing Huron. Mr. McCartney is based in Chicago, the location of Huron's principal business offices.

George Massaro, currently Non-executive Chairman and resuming his role as Vice Chairman effective the date of the Annual Meeting, has been uniquely able to contribute to the board deliberations on a multitude of issues because of his former experience as leader of our disputes and investigations practice and Chief Operating Officer of Huron from 2003 to 2005. Moreover, his 30 plus years of experience in public accounting and management of a professional services practice with Arthur Andersen enables him to provide a broad range of business insights as well as contacts in the business community. Beginning in early 2005 through March of 2006, he devoted his efforts to client matters and led our efforts in the Special Investigation of Fannie Mae. In March 2006, he reduced his role to approximately one-third time and continued to devote his efforts to similar client matters through February 2009. Mr. Massaro's collective experience has served the Huron board well as it managed the challenges of the internal investigation last year, the subsequent financial restatement and the ongoing resolution of the various issues that the financial restatement triggered.

James H. Roth, our CEO, has, as a founding member of Huron, guided and grown Huron's higher education consulting practice from a fledgling service offering to its prominent position today. Mr. Roth brings to the board his deep knowledge of the operations of institutions of higher education, including their healthcare and research facilities and their global expansion goals. Named in 2009 by Consulting Magazine as one of the Top 25 Most Influential Consultants, Mr. Roth brings to the board a deep understanding of the Huron organization and the consulting business, in particular, in the areas of higher education and healthcare, which comprise over 60% of Huron's activities today.

DuBose Ausley has served on multiple boards of directors of companies, including telecoms, electric utilities and financial institutions. His experiences serving on the boards of healthcare companies, in particular health plans, as well as institutions of higher education, have allowed him to contribute the client perspective of those two principal areas of Huron's business. As a practicing attorney and former chair of a law firm in the Southeast U.S., he is uniquely sensitive to the legal issues facing public companies, including those kinds of institutions. He also contributes to the board discussions and deliberations his professional legal knowledge as a litigator and his prior experiences as a member of corporate boards dealing with complex issues.

H. Eugene Lockhart brings to Huron's board the know-how and experience he has amassed through his work overseeing and growing companies in which he represents venture capital investors, his experience as chief executive officer of leading corporations, and his service on the boards of companies in such diverse fields as financial services, healthcare and pharmaceuticals. Mr. Lockhart's ample experience serving as chairman of the audit committee of public companies, including currently serving as chairman of the audit committee of RadioShack Corporation, make him particularly able to lead the Company's Audit Committee as the Company continues to achieve its post-restatement goals and resolves the regulatory and legal proceedings. In addition, as the former executive and chairman of some of the most recognized companies in the world, Mr. Lockhart contributes to Huron his wealth of contacts, including his many contacts with investors.

James D. Edwards's experience includes 38 years with Arthur Andersen in the professional services industry and 25 years in various leadership positions, including Managing Partner for all operations in the United States and North and South America from 1987 to 1997, which makes him uniquely suited to understand and successfully address the challenges and opportunities presented to Huron. Mr. Edwards' deep knowledge of accounting and financial consulting services, his many years of experience managing a large segment of a professional services firm, as well as his network of prior Arthur Andersen clients in such diverse fields as real estate, pharmaceuticals, healthcare and risk management, provide Huron's board deliberations a wealth of relevant management experience, knowledge of the consulting industry and contacts throughout the business world.

John S. Moody has devoted the majority of his career to real estate related businesses. He has served on multiple boards of directors, including holding positions as chairman and vice chairman, of companies organized as real estate investment trusts engaged in commercial real estate, as well as forest products. Mr. Moody has opened doors for Huron's Houston office consultants to his many contacts in Texas. In addition, he is the former chief executive officer of a public company which owned Class A office buildings throughout the U.S. That experience, combined with his professional training as a real estate and corporate attorney, and broad experience in the capital markets, inform the board deliberations and enrich its discussions.

Compensation of Directors

During 2009, we paid each of our non-employee directors an annual cash retainer of \$60,000 and \$1,000 for each meeting of the board of directors or any committee of the board that he attended. At the recommendation of the Compensation Committee, the board of directors determined not to adjust its annual retainer and to eliminate the automatic increases of board compensation in the future. On September 22, 2009, the Compensation Committee approved an additional annual cash retainer of \$300,000 for Mr. Massaro, with retroactive effect to August 1, 2009, upon his being named Non-executive Chairman of the board. Mr. Massaro agreed to lead the

Table of Contents

Company following the resignation of the former Chairman of the board and to assist management with the various issues presented by the financial restatement. As discussed above, on March 9, 2010, the board elected Mr. McCartney Non-executive Chairman and Mr. Massaro will resume his role as Vice Chairman, all effective the date of the Annual Meeting. In connection with Mr. Massaro's resuming his prior role as Vice Chairman, the Compensation Committee approved, effective April 1, 2010, an annual supplemental retainer of \$25,000 in addition to the annual board retainer of \$60,000. The Compensation Committee also approved an annual cash retainer, effective the date of the Annual Meeting, of \$175,000, in addition to the annual board retainer of \$60,000, for Mr. McCartney. He will not receive a fee for meetings he attends.

In addition to the annual cash retainer, we also pay an annual fee of \$10,000 to the Chairperson of the Audit Committee and \$7,500 to the Chairpersons of each of the Compensation Committee and Nominating and Corporate Governance Committee, for chairing the committees. All of our directors are reimbursed for out-of-pocket expenses for attending board and committee meetings. In 2005 and 2006, each new non-employee director received a restricted stock award of 15,000 shares. On December 4, 2007, the board of directors, upon the recommendation of the Compensation Committee, established the initial grant of restricted stock to new directors as a number of shares of restricted stock equal to approximately \$400,000, based on the closing stock price on the date immediately preceding the grant date, vesting ratably over the following 12 calendar quarters. Since that date, however, no director has joined the board, and therefore no director has received a restricted stock grant in that amount. In the future, the Compensation Committee expects to make an initial grant of restricted stock to new directors in an amount necessary to attract persons with the skills and experiences it seeks, based on the facts and circumstances of the Company at the time.

In addition, each non-employee director receives an annual grant of restricted stock on the date of the Company's annual meeting. Beginning in 2010, directors are expected to own Huron stock equal to at least three times the annual cash retainer (not including the supplemental retainers paid to the Non-executive Chairman and Vice Chairman). On May 6, 2009, each non-employee director received 3,622 shares, which vest ratably over the following 12 calendar quarters. Each share grant was equivalent to approximately \$170,000, based on the closing stock price on May 5, 2009. At the recommendation of the Compensation Committee, the board of directors determined not to increase the amount of the annual grant of restricted stock and to eliminate automatic increases. Therefore, in 2010, on the date of the Annual Meeting, each non-employee director will be granted a number of shares of restricted stock approximately equal to \$170,000, based on the closing stock price on the date immediately preceding the Annual Meeting. Although eligible to do so, no director has elected to participate in our deferred compensation plan, which is described under the caption EXECUTIVE COMPENSATION 2009 Nonqualified Deferred Compensation .

The Compensation Committee will review board compensation annually and make changes as it deems appropriate.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

Huron operates in a highly competitive and challenging environment and its compensation packages are designed to attract and retain talented executives who can execute the Company's growth strategy. While the Company provides what it considers competitive base salaries, it also believes that a substantial portion of the compensation of each executive should consist of at-risk pay that takes into account both Generally Accepted Accounting Principles (GAAP) and non-GAAP measures, such as:

The Company's growth in revenues before reimbursable expenses (net revenues);

The Company's profitability, measured by diluted earnings per share;

Earnings before interest, taxes, depreciation and amortization (EBITDA); and

Individual performance.

The Company competes against a number of companies for executive talent, including the consulting practices of major accounting firms, small boutique consulting firms and other consulting firms, many of them not public. When initially setting compensation for the executive officers discussed in the 2009 Summary Compensation Table and the other compensation tables for 2009 below, the Compensation Committee relied on publicly available competitive compensation data, along with other factors discussed below. In the second half of 2009, as described below, the Compensation Committee formally adopted a peer group that served as the basis for subsequent compensation decisions.

During the second half of 2009, the Compensation Committee undertook a series of actions to better align executive compensation with the Company's business strategy. These actions represent a significant change in the philosophy and operation of the Company's executive compensation program which are reflected in the decisions made in setting retroactive salaries for certain executives and year-end incentives. For more information on the significant changes in philosophy and practices of the Company's executive compensation program starting in 2010, some of which were applied retroactively in 2009, please see "Changes in 2010 Compensation" below.

Changes in 2010 Compensation

Huron faced some significant challenges in 2009. On July 31, 2009, we announced that we were restating our financial statements for the fiscal years 2006, 2007 and 2008 and the first quarter of 2009 to correct our accounting for certain acquisition-related payments. At the same time, we announced that our former Chairman of the board and CEO had resigned and would leave Huron as of August 31, 2009, that our former CFO had stepped down and would leave Huron by the end of the year, and that our former Chief Accounting Officer had stepped down and was leaving Huron. None of the executives were paid severance or additional compensation in connection with termination of their employment. We announced that George E. Massaro had been appointed Non-executive Chairman of the board of directors, that James H. Roth had been appointed CEO and that James K. Rojas had been appointed CFO.

Following the restatement, with the leadership of the new management team, we implemented a number of strategic decisions, including the divestiture of certain non-core consulting units, a reduction in the number of our employees, a reduction of corporate overhead costs and the refocusing of our remaining practice groups. In connection with these changes, the Compensation Committee undertook a review of the philosophy and practices of our executive compensation program with a goal of designing a strong, clear, straight-forward compensation program that:

Is aligned with the interests of long-term stockholders;

Table of Contents

Incentivizes executive officers to achieve financial, operational and strategic objectives that promote the creation of long-term stockholder value; and

Provides significant amounts of performance-based equity awards at the executive officer level and time-based equity awards to managing directors below the executive officer level that encourage behavior consistent with the changes in our strategy and operations and that support retention of our managing directors.

In particular, the Compensation Committee:

Revised its executive compensation philosophy to improve transparency in how compensation decisions will be made;

Beginning in 2010, replaced the discretionary annual cash incentive program of the past with a formal annual incentive program (the Annual Incentive Plan) based on the achievement of specific performance measures that will clearly communicate annual performance expectations to employees and our stockholders;

Beginning in 2010, replaced the annual time-based equity awards for the executive officers with a blend of performance-based restricted stock units and time-based restricted stock, in order to better focus executives on those metrics that will be the most important in driving increased, long-term stockholder value;

Reviewed and entered into new senior management agreements with each of the executive officers with key changes, including severance payable upon termination at levels that are below market and, in the case of the CEO, the elimination of gross up provisions for excise taxes upon a change of control and the reduction of the change of control severance payable;

Adopted a new compensation plan for managing directors that creates a clear link between individual and practice performance expectations and each individual's compensation, and that incorporates equity grants as an integral component of total compensation for all managing directors; and

Below the executive officer level, granted significant equity to high performers, primarily at the managing director level, in the form of a one-time retention grant with a two- to four-year vesting, depending on the size of the grant.

In support of these changes, the committee:

Adopted a peer group similar to Huron in the nature of business, scale of operations and competition for talent. The peer group selected consisted of the following sixteen publicly traded companies: Watson Wyatt, FTI Consulting, Gartner Inc., HIS Inc., First Advantage, Navigant Consulting, CBIZ Inc., Maximus Inc., Resources Connection, Korn/Ferry International, ICF International, Corporate Executive Board, Heidrick & Struggles International, Duff & Phelps Corp., CRA International and LECG Corp.;

Retained Semler Brossy Consulting Group, LLC (Semler Brossy) to provide independent executive compensation advice;

Reviewed a competitive pay analysis of all executive positions using the peer group; and

Edgar Filing: Huron Consulting Group Inc. - Form DEF 14A

Established base salary and annual incentive and long-term incentive target levels for each executive officer, based on Compensation Committee discretion within a 10 percent range of the median of similar positions in the peer group to be competitive with the market. If individual or Company performance, or both, is below target, actual total compensation received for the year will fall short of the median of the peer group; however, if performance exceeds target, actual pay can exceed the median of the peer group.

With our new compensation philosophy and practices, equity is an increasingly critical tool we will use to align the interests of our executives and key employees to those of our stockholders and to retain our most productive employees. For this reason we are seeking approval from our stockholders to increase the number of shares of common stock that can be issued under our 2004 Omnibus Stock Plan (the Omnibus Plan) and make a number of other changes to that plan. See PROPOSAL 2 APPROVAL OF AMENDMENT AND RESTATEMENT OF THE COMPANY S 2004 OMNIBUS STOCK PLAN below for more information.

Management Participation in Setting Executive Compensation

Until his resignation at the end of July 2009, the former CEO participated in all of the Compensation Committee s general meetings, in all of the telephonic meetings and in all of the executive sessions of the Compensation Committee, except for those in which the Compensation Committee considered his performance, compensation and incentives. In connection with these meetings, early in 2009, the former CEO made recommendations to the Compensation Committee regarding each element of compensation for each of the executive officers who reported to him, taking into account the Company s overall performance, each individual s scope of responsibility, compensation data available about competitors of the Company, individual performance, and the former CEO s assessment, based on his business judgment and experience, of the individual s current and future potential contribution, as well as the individual s contribution relative to the other executive officers. The Compensation Committee reviewed and approved or revised these recommendations based on its independent evaluation of those same factors and including a review of wealth accumulation and internal pay equity prepared by the Vice President, Human Resources. The Company s Human Resources and Legal departments supported the CEO s and Compensation Committee s work by providing publicly available data and analysis.

Huron did not have a formula in early 2009 for determining any specific element of the compensation package or for allocating between cash and non-cash components or the short-term and long-term components of compensation. Rather, decisions were made by our Compensation Committee, based, in part, on the recommendations of the former CEO.

In the second half of 2009, Semler Brossy assisted the Vice President, Human Resources in developing executive compensation recommendations for 2010 to present to the Compensation Committee. Also, in the second half of 2009, the Non-executive Chairman and the current CEO participated in meetings of the Compensation Committee, generally to the same extent as our former CEO, and provided to the Compensation Committee their assessment of the individual performance of the executive officers in connection with the Compensation Committee s final determinations on annual bonuses for 2009 and executive compensation in 2010. None of the executive officers played a role in determining compensation for the former or current CEO.

Huron Compensation Program Elements

Compensation in 2009 for the Company s executive officers had three components: base salary, annual cash incentive and long-term equity incentive. Consistent with the Company s pay-for-performance philosophy, a significant portion of each executive s total compensation is at risk if either the established performance goals are not met or the executive does not remain employed by the Company.

Base Salary. Base salaries are considered as part of the annual performance review process at the beginning of each year. In making base salary decisions for the executive officers in early 2009, other than the former CEO, the Compensation Committee primarily considered the former CEO s assessment of the scope of each executive s responsibilities, contribution and performance, as well as the base salary of each executive officer at the time (other than the former CEO) relative to the others. The former CEO s base salary was established by contract on January 29, 2007 when he entered into a five-year contract with the Company that specified his base salary for each year of the contract.

Table of Contents

In 2009, the Compensation Committee determined to make no changes to the base salaries of the executive officers, and the former CEO declined to take the base salary increase he was entitled to by his senior management agreement. In making this decision, the Compensation Committee considered the recommendations of management and the general economic climate.

The current COO's compensation was set by contract on January 2, 2007 when he entered into a three-year senior management agreement in connection with the acquisition of Wellspring Partners. By the terms of that agreement his base salary was set at \$750,000 annually and he was not eligible for an annual bonus. When he was appointed to the position of COO on May 6, 2009, no adjustment was made to his compensation. In 2010 the COO entered into an amended and restated senior management agreement with the Company that established his total compensation at approximately the median of the peer group established by the Compensation Committee with the advice of Semler Brossy. His base salary was negotiated to remain at \$750,000 annually, which is higher than the median of the peer group. His target annual incentive was therefore negotiated at \$150,000 or 20% of base salary, which is lower than the median of the peer group.

The 2009 base salaries of the current CEO and the current CFO, which are included in the 2009 Summary Compensation Table, were established by the former CEO before they were promoted to their current positions. The CEO and CFO were paid base salaries in 2009 at these pre-existing levels, which have since been retroactively adjusted. In making the decisions as to their new base salaries and to be competitive with the market, the Compensation Committee set each at approximately the median of the peer group established by the Compensation Committee with the advice of Semler Brossy.

Annual Cash Incentive. The annual cash incentive for executive officers is designed to reward Company financial performance and individual contribution. The Company does not have a separate incentive pool for executives. Rather, there is a single incentive pool for the entire Company. The incentive pool is funded based on achievement of financial plans and other factors described below. Once the pool for incentives is established after the end of the year, the Compensation Committee makes decisions to allocate the pool to the individual executives as described below.

At the beginning of 2009, the Compensation Committee established a target bonus pool for 2009 annual cash incentives for all employees, including executive officers. Target incentives were set to create a significant variable opportunity for each executive, thereby encouraging strong performance. For 2009, the actual amount earned by an executive could be more or less than the target, based upon the performance of the Company and the executive, as determined in the discretion of the Compensation Committee, following the end of the year.

The target incentive for the former CEO was set by his contract at 100% of base salary. Other than the CEO, the Compensation Committee set 2009 target amounts at the beginning of the year for all other executive officers at 100% of base salary to equally incentivize them. As explained above, when the current COO was named on May 6, 2009, no change was made to his contractual compensation arrangements and he was not eligible for an annual incentive in 2009. The target incentive of the current CEO was initially set based on the position he held at the start of 2009, and the current CFO's target incentive was initially set when he was hired in June of 2009. The target incentives for the current CEO and the CFO were changed from 67% to 110% and 100% to 80% of base salary, respectively, as part of the adjustments made to their total compensation package by the committee with retroactive effect to July 30, 2009.

The Compensation Committee establishes individual goals annually for the CEO, no later than 90 days following the end of the prior year. The 2009 goals for the former CEO's annual cash incentive consisted of the following:

A subjective analysis of Company financial performance relative to its financial plan and other factors;

Retention of top performing managing directors;

Successful completion and integration of accretive acquisitions;

Table of Contents

Adequately addressing underperforming individuals or areas of the Company's business; and

Increases in sales to significant clients.

These goals were substantially revised following the restatement as described below.

In August 2009, the Compensation Committee set the 2009 goals for the current CEO as follows:

Stabilize the Company in the aftermath of the uncertainty created by the restatement;

Retain key managing directors;

Generate a significant bonus pool for employees; and

Deliver financial results to stockholders consistent with revised guidance provided at the time of the restatement.

Annual incentives for calendar year 2009 performance were not based on pre-established metrics of Company performance. Instead, the Compensation Committee examined a variety of performance factors to determine appropriate payouts, including the CEO goals enumerated above and accomplishment of the High Priority Goals described under the caption PROPOSAL 1 ELECTION OF DIRECTORS Board Leadership Structure and Risk Oversight. In evaluating the executive officers, the Compensation Committee gave extra weight to the performance of the Company in the second half of 2009, when it was critical for the new executive team to stabilize the Company and reassure employees and stockholders after the announcement of the restatement. In addition, in sizing the annual incentives, the Compensation Committee was strongly influenced by the annual incentive levels (as a percentage of target) being paid to the practice groups in aggregate, which are based on revenue and EBITDA performance, and which on average were approximately 75% of target. The Compensation Committee approved incentive payouts of 75% of target, which it viewed as appropriate, given the challenges the new management team faced as a result of the restatement, and the successful accomplishment of its goals as a team. The committee gave less weight to individual performance and focused on the accomplishments of the group, because the effectiveness of the executive team working together was critical for the Company's performance in the second half of 2009.

Long-Term Equity Incentive. The long-term equity incentive for executive officers is designed to focus management on increasing stockholder value and to provide a vehicle to share the benefits of the Company's growth with those who create it. Many of Huron's competitors are partnerships, and Huron believes its ability to offer a publicly traded equity interest in the Company creates a competitive advantage when recruiting executives and managing directors, as well as a retention incentive to those who are currently with the Company.

Restricted stock is granted annually to executive officers, practice leaders and managing directors in the practices who are expected to contribute to the Company's successful execution of its long-term goals and objectives.

2009 Equity Awards for Executive Officers. In determining long-term equity incentive awards made early in 2009, the Compensation Committee reviewed and considered a number of factors:

The total equity pool recommended by the former CEO;

The former CEO's recommendation of amounts to grant to each of the executive officers;

The Company's performance in 2008;

The performance of each individual in the prior year and each individual's anticipated future contributions to the business; and

Internal pay equity and each executive's prior and outstanding grants, with an objective of providing wealth accumulation consistent with the performance of the Company.

Table of Contents

The Compensation Committee did not assign a weighting to any of the specific factors considered but used its discretion in determining individual grants for each executive officer.

2010 Equity Awards for Executive Officers. On January 11, 2010, the Compensation Committee approved equity awards under the Omnibus Plan with respect to each of the current named executive officers as follows:

Executive Officer	Time-Based Award \$(1)	Performance-Based Award \$(2)	Total Award Value \$(3)
James H. Roth	800,000	1,600,000	2,400,000
James K. Rojas		1,000,000	1,000,000
David M. Shade		1,100,000	1,100,000
Mary M. Sawall	250,000	500,000	750,000
Natalia Delgado	250,000	500,000	750,000

- (1) Time-based restricted stock awards vest in four equal annual installments beginning on the first anniversary of the date of grant.
- (2) Performance-based restricted stock units will be earned based on the achievement of specific financial goals described below. If performance-based restricted stock units are earned, one-third will vest on December 31, 2010 and the remaining two-thirds will vest on December 31, 2012.
- (3) The market price of the Company's common stock used for determining the number of shares subject to the time-based vesting awards was the closing price on January 10, 2010, the day prior to the Compensation Committee action, and for the performance-based awards was the closing price on February 17, 2010, the day preceding the date that the performance measures were established by the Compensation Committee.

After reviewing competitive data provided by Semler Brossy, the Compensation Committee approved the award amounts set forth above, which were generally equal to two times the median equity grant made to individuals holding equivalent positions at the Company's peer group. The 2010 equity awards were approved by the Compensation Committee to recognize the success of the executive team in addressing the challenges of 2009 and the considerable effort they expended, and to begin to migrate to performance-based long-term incentives. In addition, the committee sized the grants to be consistent with the significant retention program grants made in late 2009 to key managing directors, in which the executive officers did not participate. Consistent with the Compensation Committee's intent to establish a performance-based long-term incentive plan for executive officers, in general, one-third of equity grants vest over time, and two-thirds vest upon the achievement of certain performance goals and the passage of time, as described below. Because sizeable time-vested restricted grants were made in 2009 to Mr. Rojas when he rejoined the Company and to Mr. Shade on January 1, 2009 to incentivize him with regard to integration of the healthcare practices that we had acquired, the Compensation Committee did not make additional time-vested grants to them and, therefore, 100% of the equity grants to Messrs. Rojas and Shade made in January 2010 were performance-based.

The Compensation Committee established two performance metric targets that will determine if the performance-based grants are earned: 2010 EBITDA percentage adjusted for restructuring and restatement costs and the year-end total debt to EBITDA ratio. The Compensation Committee has established a threshold and maximum for each performance metric. The actual performance shares earned will be calculated pro rata based on actual results if performance exceeds or falls below the target. The adjusted EBITDA percentage was selected because the level of EBITDA percentage, for a professional services firm like Huron, reflects on the quality of management and the target was set at a level the Compensation Committee believes is challenging but achievable. The total debt to EBITDA ratio was chosen because of the identified need to strengthen our balance sheet and it is a key metric in the Company's bank covenants. The target total debt to EBITDA level of 1.6 requires improvement from 2009 but is also achievable in the view of the Compensation Committee. The Compensation Committee set a one-year performance period, consistent with their view of 2010 as a transitional

year, to encourage the executives to focus on implementing their business strategy and corporate reforms in the wake of the restatement. The number of shares earned can vary from 0% to 125% of target based on the actual results that the Company achieves. The following table shows the 2010 performance targets:

	25%	100%	125%
Total Debt/EBITDA	2.5	1.6	1.3
Adjusted EBITDA Percentage	16.00%	18.00%	19.00%

Other Compensation

Generally, perquisites are not a significant component of compensation for Huron executives. The Company provides to all of its managing directors and executive officers enhanced disability and life insurance benefits and reimbursement of all or a portion of the cost of an executive physical examination. In addition, the Company makes available to its managing directors and executive officers a Nonqualified Deferred Compensation Plan (the "DCP"). More information on the perquisites provided is described in Footnote 5 to the 2009 Summary Compensation Table, and more information on the DCP is set forth under the caption "2009 Nonqualified Deferred Compensation".

Senior Management Agreement of the Chief Executive Officer

The compensation of the former CEO was governed by the terms of the amended and restated senior management agreement entered into on January 29, 2007 and subsequently amended on December 12, 2008 to make changes necessary to comply with Section 409A of the Code.

The compensation of the current CEO was established when he was the Company's Vice President, Health and Education Consulting and was not changed during 2009. In early 2010, the current CEO entered into an amended and restated senior management agreement and at that time his compensation was adjusted retroactive to July 30, 2009. The current CEO's amended and restated senior management agreement is described in detail under the caption "Employment and Severance Agreements".

Senior Management Agreements of Executive Officers Other Than the Chief Executive Officer

On December 30, 2008, Ms. Delgado entered into a senior management agreement with the Company. On February 9, 2009, Messrs. Burge and Broadhurst and Ms. Sawall entered into amended and restated senior management agreements, which incorporated their previous respective senior management agreements and the most recent amendments to those agreements into one document. No substantive amendments were made to the terms of those agreements. On March 2, 2010, Messrs. Shade and Rojas and Mmes. Delgado and Sawall entered into amended and restated senior management agreements primarily to make severance terms, other than the amounts, consistent for the executive officers. The term of each agreement is one year. These amended and restated senior management agreements currently in effect are described in detail under the caption "Employment and Severance Agreements" below.

Stock Ownership Guidelines

In 2010, the Compensation Committee adopted stock ownership guidelines for executive officers and directors. Under the new guidelines, the CEO will be expected to own stock equal to three times salary, the CFO and COO will be expected to own stock equal to two times their salary, and all other executive officers will be expected to own stock equal to one times their respective salaries. Until this stock ownership target is achieved, executive officers will be required to retain 60% of the net after tax proceeds from the exercise of stock options or vesting of restricted stock.

Table of Contents**Regulatory Limitations**

Section 162(m) of the Code generally limits the deductibility for federal income tax purposes of compensation in excess of \$1 million to the CEO or any of the next three most highly paid executive officers of a publicly held corporation (other than the CFO). Compensation exceeding \$1 million may be deducted for federal income tax purposes if compensation is paid pursuant to a performance-based, nondiscretionary plan that is approved by stockholders. The Compensation Committee will exercise its discretion in determining whether to conform compensation plans payable to the executive officers to the deductibility requirements of Section 162(m). We expect that the future cash-based and performance-based equity incentives will be eligible for deduction pursuant to Section 162(m) of the Code if the proposal to amend and restate the Omnibus Plan is approved by the Company's stockholders at the upcoming Annual Meeting. For more information on this proposal, including a more detailed discussion on the eligibility of payments for deduction under our incentive plans, see PROPOSAL 2 APPROVAL OF AMENDMENT AND RESTATEMENT OF THE COMPANY'S 2004 OMNIBUS STOCK PLAN below.

Roth senior management agreement

On January 12, 2010, the Company entered into an Amended and Restated Senior Management Agreement, effective as of July 30, 2009 (the Roth Agreement), with James H. Roth, CEO of the Company. As described in more detail below, the Roth Agreement reflects certain changes commensurate with Mr. Roth's appointment as CEO of the Company and appointment to the board of directors of the Company and, among other changes, (i) provides that Mr. Roth may be terminated upon written notice by the Company, (ii) increases Mr. Roth's base salary and annual target bonus, (iii) establishes a special equity grant for Mr. Roth in 2010 and renders him eligible for a long-term incentive award in 2011, (iv) expands the circumstances under which benefits are payable to Mr. Roth in the event of certain terminations or resignations, including upon a change of control, and increases the amount of certain benefits, and (v) enhances certain covenants and representations and warranties of Mr. Roth under the Roth Agreement, including the addition of a non-competition provision. The Roth Agreement supersedes and replaces the senior management agreement previously entered into by the Company and Mr. Roth. Set forth below is a brief description of the material terms of the Roth Agreement.

Term of Agreement. The Roth Agreement covers a term beginning on July 30, 2009, and continuing for three years from that date. Following the expiration of that initial three-year term, the Roth Agreement will be automatically renewed every 12 months, unless Mr. Roth or the Company provides 60 days notice to the other that such automatic renewal shall cease. The Roth Agreement may be earlier terminated by Mr. Roth or the Company pursuant to its terms.

Base Salary. The Roth Agreement provides for an annual base salary of \$800,000.

Annual Target Bonus. Each calendar year Mr. Roth will be eligible for an annual target bonus in an amount determined by the Compensation Committee based on performance and the Company's compensation policies, which target bonus will not be less than 110% of Mr. Roth's base salary. The actual amount of such annual bonus to be paid to Mr. Roth will be based on performance (the targets for which will be established within the first 90 days of the year to which such target bonus relates).

Long-term Incentives. In 2011, Mr. Roth will be eligible for a long-term incentive award with an aggregate value of not less than 130% and up to 150% of his base salary at the sole discretion of the Compensation Committee. Such award may be cash- or equity-based and may be subject to both time- and performance-based criteria, all at the discretion of the Compensation Committee.

Equity Awards. Mr. Roth will generally be eligible to participate in the Company's equity plans, with the amount and terms of any equity awards being in the sole discretion of the Compensation Committee and based on performance and the Company's compensation policies. Subject to the terms and conditions established by the Compensation Committee, Mr. Roth received a special equity grant with a total aggregate value of \$2,400,000, as described under the caption "Compensation Discussion and Analysis" above.

Other Benefits. Mr. Roth will be eligible to participate in the Company's various health and welfare benefit plans for its similarly-situated management employees.

Post-Termination Payments. If Mr. Roth's employment is terminated by the Company without Cause (as defined in the Roth Agreement), or he resigns for Good Reason (as defined in the Roth Agreement), Mr. Roth will be entitled to: (i) severance pay in an amount equal to the sum of his annual base salary and then-prevailing target bonus ("Severance Pay"), (ii) continuation of medical, dental, and vision benefits for 12 months upon the

same terms as exist from time to time for active similarly-situated executives of the Company, (iii) a cash payment equal to the annual bonus he would have earned for the year of termination or resignation based on performance, prorated based upon the number of days employed in the year of termination or resignation, and (iv) pro rata vesting of any outstanding equity awards granted to Mr. Roth prior to 2010. The receipt of such benefits is conditioned upon Mr. Roth's compliance with the covenants, representations and warranties contained in the Roth Agreement, as well as the execution and acceptance of the terms and conditions of a general release in the standard form used by the Company.

Change of Control. If (i) Mr. Roth's employment is terminated by the Company without Cause or if he resigns for a CoC Good Reason (as defined in the Roth Agreement) within two years following a Change of Control (as defined in the Roth Agreement) or (ii) Mr. Roth reasonably demonstrates that his termination by the Company (or an event which, had it occurred after a Change of Control, would have constituted a CoC Good Reason) prior to a Change of Control was attributable to, or intended to facilitate, a Change of Control or was at the request of a third party acting to effect a Change of Control, and a Change of Control actually occurs within 12 months of such termination or resignation (each of (i) and (ii), a *Qualifying Termination*), then Mr. Roth will be entitled to: (a) cash equal to his target bonus for the year of termination or resignation, prorated based on the number of days employed in the year of termination or resignation, (b) cash equal to two times the sum of his annual base salary and target bonus for the year of termination or resignation, and (c) continuation of medical, dental and vision benefits for two years following the date of such termination or resignation upon the same terms as exist for him immediately prior to the termination or resignation date. In addition, in the case of a *Qualifying Termination* that occurs prior to a Change of Control, Mr. Roth will be provided with a cash payment equal to the difference between (i) the amount of the premium paid by him for continuation of medical benefits under COBRA between the *Qualifying Termination* and the date of the Change of Control and (ii) the amount of the premium that Mr. Roth would have paid for medical coverage during such period had his coverage been continued during such period upon the same terms as existed for him immediately prior to the termination or resignation date. All of Mr. Roth's outstanding equity grants that were awarded at or prior to the time of the Change of Control will fully vest upon the occurrence of a *Qualifying Termination*. The receipt of the benefits described in this paragraph is conditioned on Mr. Roth's compliance with covenants, warranties and representations in the Roth Agreement and his execution and acceptance of the terms of a general release of the Company. The payments in clauses (a) and (b) of this paragraph shall be in lieu of any Severance Pay and any other plan or agreement providing for severance payments or benefits. Further, Mr. Roth will not be entitled to payments and benefits under both the Change of Control provisions of the Roth Agreement and the provisions of the Roth Agreement governing compensation after termination unrelated to a Change of Control.

The Roth Agreement further provides that, if any amount, right or benefit paid or payable to Mr. Roth under the Roth Agreement or any other plan, program or arrangement would constitute an *excess parachute payment* under Section 280G of the Code, subject to the excise tax imposed by Section 4999 of the Code, then the amount of payments payable to Mr. Roth under the Roth Agreement will be reduced to the extent necessary so that no portion of such payments is subject to such excise tax.

Rojas senior management agreement

On March 2, 2010, the Company entered into an Amended and Restated Senior Management Agreement, effective as of October 1, 2009, with James K. Rojas, CFO of the Company (the *Rojas Agreement*). As described in more detail below, the *Rojas Agreement* reflects certain changes commensurate with Mr. Rojas's appointment as CFO of the Company and, among other changes, (i) provides for pro rata vesting of outstanding equity awards granted prior to 2010 upon his termination without Cause (as defined in the *Rojas Agreement*) or resignation for Good Reason (as defined in the *Rojas Agreement* and summarized below) and (ii) increases the amount that Mr. Rojas is entitled to be paid upon his termination without Cause following a Change of Control (as defined in the *Rojas Agreement*) or resignation for CoC Good Reason (as defined in the *Rojas Agreement* and summarized below). The *Rojas Agreement* supersedes and replaces the senior management agreement previously entered into by the Company and Mr. Rojas. Set forth below is a brief description of the material terms of the *Rojas Agreement*.

Table of Contents

Term of Agreement. The Rojas Agreement covers a term beginning on October 1, 2009, and continuing for one year from that date. Following the expiration of that initial one-year term, the Rojas Agreement will be automatically renewed every 12 months, unless Mr. Rojas or the Company provides 60 days notice to the other that such automatic renewal shall cease. The Rojas Agreement may be earlier terminated by Mr. Rojas or the Company pursuant to its terms.

Base Salary. The Rojas Agreement entitles Mr. Rojas to an annual base salary. The amount of such base salary is not specified in the Rojas Agreement. The CEO of the Company will review Mr. Rojas' s compensation annually, based on Mr. Rojas' s performance and the Company' s other compensation policies. Mr. Rojas' s base salary may not be reduced without his consent unless such reduction is part of a comparable overall reduction for members of senior management of the Company.

Annual Bonus. Each calendar year Mr. Rojas will be eligible for an annual bonus in an amount determined by the Compensation Committee based on the Company' s and Mr. Rojas' s performance and the Company' s compensation policies.

Equity Awards. Mr. Rojas will generally be eligible to participate in the Company' s equity plans, with the amount and terms of any equity awards being in the sole discretion of the Compensation Committee based on the Company' s and Mr. Rojas' s performance and the Company' s compensation policies.

Other Benefits. Mr. Rojas will be eligible to participate in the Company' s various health and welfare benefit plans for its similarly-situated key management employees.

Post-Termination Payments. If Mr. Rojas' s employment is terminated by the Company without Cause or he resigns for Good Reason, in either case, Mr. Rojas will be entitled to: (i) severance pay in an amount equal to six months base salary (*Severance Pay*), (ii) pro rata vesting of any outstanding equity awards granted to Mr. Rojas prior to 2010 and (iii) continuation of medical benefits for six months upon the same terms as exist from time to time for active similarly-situated executives of the Company. The receipt of such benefits is conditioned upon Mr. Rojas' s compliance with the covenants, representations, warranties and agreements contained in the Rojas Agreement, as well as the execution and acceptance of the terms and conditions of a general release in the standard form used by the Company.

Good Reason is defined in the Rojas Agreement to mean a resignation, not in connection with a Change of Control, following a change in Mr. Rojas' s primary location of employment to a location that is more than 75 miles from Chicago, Illinois.

Change of Control. If (i) Mr. Rojas' s employment is terminated by the Company without Cause or if he resigns for a CoC Good Reason, in either case, within two years following a Change of Control or (ii) Mr. Rojas reasonably demonstrates that his termination by the Company (or an event which, had it occurred after a Change of Control, would have constituted a CoC Good Reason) prior to a Change of Control was attributable to, or intended to facilitate, a Change of Control or was at the request of a third party acting to effect a Change of Control, and a Change of Control actually occurs within 12 months of such termination or resignation (each of (i) and (ii), a *Qualifying Termination*), then Mr. Rojas will be entitled to: (a) cash equal to the target amount of his annual bonus (the *Target Bonus*) for the year of termination or resignation, prorated based on the number of days employed in the year of termination or resignation, (b) cash equal to two times the sum of his annual base salary and Target Bonus, if any, for the year of termination or resignation and (c) continuation of medical benefits for two years following the date of such termination or resignation upon the same terms as exist for him immediately prior to the termination or resignation date. In addition, in the case of a Qualifying Termination that occurs prior to a Change of Control, Mr. Rojas will be provided with a cash payment equal to the difference between (i) the amount of the premium paid by him for continuation of medical benefits under COBRA between the date of the Qualifying Termination and the date of the Change of Control and (ii) the amount of the premium that Mr. Rojas would have paid for medical coverage during such period had his coverage been continued during

such period upon the same terms as existed for him immediately prior to the termination or resignation date. All of Mr. Rojas' outstanding equity grants that were awarded at or prior to the time of the Change of Control will fully vest upon the occurrence of a Qualifying Termination. The receipt of the benefits described in this paragraph is conditioned on Mr. Rojas' compliance with covenants, warranties, representations and agreements in the Rojas Agreement, as well as his execution and acceptance of the terms and conditions of a general release in the standard form used by the Company.

CoC Good Reason is defined in the Rojas Agreement to mean certain adverse changes in anticipation of, or within two years following, a Change of Control including: (a) any material breach of the Rojas Agreement by the Company, (b) any material adverse change in Mr. Rojas' status, responsibilities or position with the Company, (c) any material reduction in his base salary or Target Bonus, other than in connection with an across-the-board reduction in base salaries applicable in like proportions to all similarly-situated executives of the Company and any direct or indirect parent of the Company, (d) assignment of duties to Mr. Rojas that are materially inconsistent with his position and the responsibilities described in the Rojas Agreement or (e) requiring Mr. Rojas to be principally based at any location that is greater than 75 miles from Chicago, Illinois.

The Rojas Agreement further provides that if any amount, right or benefit paid or payable to Mr. Rojas under the Rojas Agreement or any other plan, program or arrangement would constitute an excess parachute payment under Section 280G of the Code, subject to the excise tax imposed by Section 4999 of the Code, then the amount of payments payable to Mr. Rojas under the Rojas Agreement will be reduced to the extent necessary so that no portion of such payments is subject to such excise tax.

The receipt of such benefits is conditioned upon Mr. Shade's compliance with the covenants, representations, warranties and agreements contained in the Shade Agreement, as well as the execution and acceptance of the terms and conditions of a general release in the standard form used by the Company.

All of Mr. Shade's outstanding equity grants that were awarded at or prior to the time of the Change of Control will fully vest upon the occurrence of a *Qualifying Termination*. The receipt of the benefits described in this paragraph is conditioned on Mr. Shade's compliance with covenants, warranties, representations and agreements in the Shade Agreement, as well as his execution and acceptance of the terms of a general release in the standard form used by the Company.

Change of Control. If (i) Ms. Sawall's employment is terminated by the Company without Cause or if she resigns for a CoC Good Reason (as defined in the Sawall Agreement and summarized below), in either case, within two years following a Change of Control or (ii) Ms. Sawall reasonably demonstrates that her termination by the Company (or an event which, had it occurred after a Change of Control, would have constituted a CoC Good Reason) prior to a Change of Control was attributable to, or intended to facilitate, a Change of Control or was at the request of a third party acting to effect a Change of Control, and a Change of Control actually occurs within 12 months of such termination or resignation (each of (i) and (ii), a "Qualifying Termination"), then Ms. Sawall will be entitled to: (a) cash equal to the target amount of her annual bonus (the "Target Bonus") for the year of termination or resignation, prorated based on the number of days employed in the year of termination or resignation, (b) cash equal to the sum of her annual base salary and Target Bonus, if any, for the year of termination or resignation and (c) continuation of medical benefits for one year following the date of such termination or resignation upon the same terms as exist for her immediately prior to the termination or resignation date. The Delgado Agreement supersedes and replaces the senior management agreement previously entered into by the Company and Ms. Delgado. Set forth below is a brief description of the material terms of the Delgado Agreement.

Table of Contents

Term of Agreement. The Delgado Agreement covers a term beginning on January 1, 2010, and continuing for one year from that date. Following the expiration of that initial one-year term, the Delgado Agreement will be automatically renewed every 12 months, unless Ms. Delgado or the Company provides 60 days notice to the other that such automatic renewal shall cease. The Delgado Agreement may be earlier terminated by Ms. Delgado or the Company pursuant to its terms.

Base Salary. The Delgado Agreement entitles Ms. Delgado to an annual base salary. The amount of such base salary is not specified in the Delgado Agreement. The CEO of the Company will review Ms. Delgado's compensation annually, based on her performance and the Company's other compensation policies. Ms. Delgado's base salary may not be reduced without her consent unless such reduction is part of a comparable overall reduction for members of senior management of the Company.

Annual Bonus. Each calendar year Ms. Delgado will be eligible for an annual bonus in an amount determined by the Compensation Committee based on the Company's and Ms. Delgado's performance and the Company's compensation policies.

Equity Awards. Ms. Delgado will generally be eligible to participate in the Company's equity plans, with the amount and terms of any equity awards being in the sole discretion of the Compensation Committee based on the Company's and Ms. Delgado's performance and the Company's compensation policies.

Other Benefits. Ms. Delgado will be eligible to participate in the Company's various health and welfare benefit plans for its similarly-situated key management employees.

Post-Termination Payments. If Ms. Delgado's employment is terminated by the Company without Cause or she resigns for Good Reason, in either case, Ms. Delgado will be entitled to: (i) severance pay in an amount equal to six months base salary (Severance Pay), (ii) pro rata vesting of any outstanding equity awards granted to Ms. Delgado prior to 2010 and (iii) continuation of medical benefits for six months upon the same terms as exist from time to time for active similarly-situated executives of the Company. The receipt of such benefits is conditioned upon Ms. Delgado's compliance with the covenants, representations, warranties and agreements contained in the Delgado Agreement, as well as the execution and acceptance of the terms and conditions of a general release in the standard form used by the Company.

Good Reason is defined in the Delgado Agreement to mean a resignation, not in connection with a Change of Control (as defined in the Delgado Agreement), following a change in Ms. Delgado's primary location of employment to a location that is more than 75 miles from New York, New York.

Change of Control. If (i) Ms. Delgado's employment is terminated by the Company without Cause or if she resigns for a CoC Good Reason (as defined in the Delgado Agreement and summarized below), in either case, within two years following a Change of Control or (ii) Ms. Delgado reasonably demonstrates that her termination by the Company (or an event which, had it occurred after a Change of Control, would have constituted a CoC Good Reason) prior to a Change of Control was attributable to, or intended to facilitate, a Change of Control or was at the request of a third party acting to effect a Change of Control, and a Change of Control actually occurs within 12 months of such termination or resignation (each of (i) and (ii), a Qualifying Termination), then Ms. Delgado will be entitled to: (a) cash equal to the target amount of her annual bonus (the Target Bonus) for the year of termination or resignation, prorated based on the number of days employed in the year of termination or resignation, (b) cash equal to the sum of her annual base salary and Target Bonus, if any, for the year of termination or resignation and (c) continuation of medical benefits for one year following the date of such termination or resignation upon the same terms as exist for her immediately prior to the termination or resignation date. In addition, in the case of a Qualifying Termination that occurs prior to a Change of Control, Ms. Delgado will be provided with a cash payment equal to the difference between (i) the amount of the premium paid by her for continuation of medical benefits under COBRA between the date of the Qualifying Termination and the date of the Change of Control and (ii) the amount of the premium that Ms. Delgado would

have paid for medical coverage during such period had her coverage been continued during such period upon the same terms as existed for her immediately prior to the termination or resignation date. All of Ms. Delgado's outstanding equity grants that were awarded at or prior to the time of the Change of Control will fully vest upon the occurrence of a Qualifying Termination. The receipt of the benefits described in this paragraph is conditioned on Ms. Delgado's compliance with covenants, warranties, representations and agreements in the Delgado Agreement, as well as the execution and acceptance of the terms of a general release in the standard form used by the Company.

CoC Good Reason is defined in the Delgado Agreement to mean certain adverse changes in anticipation of, or within two years following, a Change of Control including: (a) any material breach of the Delgado Agreement by the Company, (b) any material adverse change in Ms. Delgado's status, responsibilities or position with the Company, (c) any material reduction in her base salary or Target Bonus, other than in connection with an across-the-board reduction in base salaries applicable in like proportions to all similarly-situated executives of the Company and any direct or indirect parent of the Company, (d) assignment of duties to Ms. Delgado that are materially inconsistent with her position and the responsibilities described in the Delgado Agreement or (e) requiring Ms. Delgado to be principally based at any location that is further than 75 miles from New York, New York.

The Delgado Agreement further provides that if any amount, right or benefit paid or payable to Ms. Delgado under the Delgado Agreement or any other plan, program or arrangement would constitute an excess parachute payment under Section 280G of the Code, subject to the excise tax imposed by Section 4999 of the Code, then the amount of payments payable to Ms. Delgado under the Delgado Agreement will be reduced to the extent necessary so that no portion of such payments is subject to such excise tax.

- (2) The value realized on vesting equals the market value of Huron stock measured as the closing price of the stock on the vesting date multiplied by the number of shares received on vesting or, if the markets are not open on the date of vesting, the value realized equals the market value of Huron stock measured as the closing price of the stock on the day after the vesting date multiplied by the number of shares received on vesting.
- (3) Shares acquired on vesting for Gary Holdren include 50,000 restricted stock units which vested on January 1, 2009. On January 29, 2007, Mr. Holdren received 250,000 restricted stock units which vest over five years, 20% annually. Under the terms of his Restricted Stock Unit Agreement (the "RSU Agreement"), restricted stock units that had become vested were settled on March 1, 2010, six months after his employment terminated, and unvested restricted stock units were forfeited at the termination of his employment.

The executive contributions in 2009, which are also reflected in the aggregate balance as of December 31, 2009, were included in the 2009 Summary Compensation Table in the executives respective salary and bonus. - (1) Contributions in 2009 represent the value of 50,000 restricted stock units deferred pursuant to the terms of the RSU Agreement as described below. The negative aggregate earnings in 2009 are due to the Company's lower stock price at the end of the year. The aggregate balance as of 12/31/2009 represents the value of 100,000 restricted stock units deferred in 2008 and 2009 based on the closing stock price on 12/31/2009 of \$23.04.

The Company maintains the DCP, which became effective July 1, 2006. The DCP permits managing directors and executive officers to elect to defer up to 75% of their base salary and 100% of their annual cash incentive into a deferred compensation account and to choose from a number of generally available investment vehicles. Earnings are credited based on earnings of the investment options selected by the participant. Huron does not match any amounts deferred or otherwise contribute to the DCP except to make restoration payments to the accounts of participants who forego 401k match as a result of participation in the DCP. Deferral elections for base salary and any bonus must be made in the calendar year prior to earning such base salary or within 30 days of becoming eligible for the plan. Independent directors may also defer up to 100% of their retainer and meeting fees into the DCP. The plan was amended effective January 1, 2009 to comply with Section 409A of the Code.

Payments from the plan automatically begin upon termination of employment or separation from service as a director. Key employees, including executive officers, must wait six months after termination to receive payment from the plan. Participants may elect payment in a lump sum or annual installments for up to 15 years. Upon proof of financial hardship and approval from the Compensation Committee, a participant may be allowed an early distribution. Participants may also elect to receive payments prior to termination through a scheduled distribution.

Gary Burge contributed \$40,000 from his base salary to the DCP in 2009 and is scheduled to receive a lump-sum distribution from the plan on July 1, 2010 (six months after his last day of employment). Gary Holdren did not elect to contribute to the DCP in 2009. He elected to receive annual installment distributions of his account balance for 10 years after termination of employment and received his first installment payment on March 1, 2010 (six months after his last day of employment). In addition, pursuant to his RSU Agreement, Mr. Holdren deferred settlement of 50,000 restricted stock units that vested on January 1, 2009, as part of a January 2007 restricted stock unit award of 250,000 share units. The value of the restricted stock units deferred in 2009 is based on the closing price of Huron stock on January 2, 2009, the first trading day after the stock units vested on January 1, 2009. These shares, and 50,000 additional shares that had vested on January 1, 2008, settled and were transferred to Mr. Holdren on March 1, 2010, six months after his last day of employment. The remaining 150,000 shares were forfeited at termination of his employment on August 31, 2009.

Termination Without Cause or Resignation for Good Reason

If any of our executives with a senior management agreement is terminated by us without cause or resigns for good reason, as defined in his or her senior management agreement, upon executing a general release and waiver, the Company is obligated to pay severance and continuation of benefits in varying amounts. The senior management agreements on December 31, 2009 do not provide for acceleration of equity in the event of termination without cause or resignation for good reason. However, the Compensation Committee approved in September 2009 acceleration on a pro rata basis of unvested equity granted prior to January 1, 2010 for all executive officers upon termination without Cause or resignation for Good Reason, and this has been incorporated into amended and restated senior management agreements with executive officers that were signed after December 31, 2009.

The following severance benefit is payable to each of our named executive officers upon termination without Cause or resignation for Good Reason, except in the case of a change of control, as of December 31, 2009:

James H. Roth	Six months salary as severance payable in a lump sum and six months continuation of medical insurance. Pursuant to the senior management agreement Mr. Roth entered into in early 2010 with an effective date of July 30, 2009, he will receive twelve months of base salary and his then-current target bonus, pro rata bonus in the year of termination, based on actual results, 12 months continuation of medical, dental and vision insurance coverage and pro rata acceleration of all unvested equity granted prior to January 1, 2010. Severance amounts are payable in a lump sum.
James K. Rojas	Six months salary as severance payable in a lump sum and six months continuation of medical insurance.
David M. Shade	Six months salary as severance payable in a lump sum and six months continuation of medical insurance.
Mary M. Sawall	Six months salary as severance payable in a lump sum and six months continuation of medical insurance.
Natalia Delgado	Six months salary as severance payable in a lump sum and six months continuation of medical insurance.
Daniel P. Broadhurst	Six months salary as severance payable in a lump sum and six months continuation of medical insurance. Mr. Broadhurst ceased to be an executive officer on January 27, 2009, when he resigned his position as COO to become the Vice President of our Accounting and Financial Consulting and Corporate Consulting segments.

Termination of Employment Due to Death or Disability

If any of our executives dies or becomes disabled, his or her estate is entitled to receive three months salary as severance and continuation of medical insurance for three months. The provision entitling the former executive or his or her estate to three months salary as severance in the event of death or disability was eliminated when the executives entered into amended and restated senior management agreements effective July 30, 2009 for Mr. Roth, October 1, 2009 for Mr. Rojas and January 1, 2010 for Mr. Shade, Ms. Sawall and Ms. Delgado. In addition, all unvested equity will accelerate if any of our executives dies or becomes disabled.

Termination Following Change of Control

The Company provides each of our executive officers with change of control severance benefits if his or her employment is terminated without cause following a change of control or if the executive resigns in the two-year period following a change of control for good reason as defined in the agreement. The executive will receive:

1. A lump-sum payment equal to two times for Mr. Roth, Mr. Shade and Mr. Rojas and one time for Ms. Sawall and Ms. Delgado, respectively, base salary and target bonus in the year of termination;
 2. A lump-sum payment of the pro rata bonus, calculated based on the target bonus in the year of termination through the date of termination;
 3. Two years' continuation of medical, dental and vision coverage for Mr. Rojas; two years' continuation of medical coverage for Mr. Shade and Mr. Rojas; and one year's continuation of medical benefits for Ms. Sawall and Ms. Delgado; and
 4. Acceleration of all outstanding equity grants that were granted prior to the change of control.
- All executives are subject to a cutback in benefits to eliminate any excise tax.

A change of control occurs if:

any person becomes a beneficial owner of 40% or more of the Company's outstanding securities;

there is a consummation of a merger or consolidation with any person unless (a) the voting securities of the Company outstanding immediately prior to the transaction continue to represent 60% of the combined voting power of the securities; (b) the merger is a recapitalization in which no person other than existing security holders becomes a beneficial owner representing 40% or more of the outstanding securities; (c) the merger does not represent a sale of all or substantially all of the assets;

the stockholders approve a plan of complete liquidation or dissolution; or

there is a disposition or sale of the Company's assets other than a sale or disposition in which at least 60% of the voting power is retained in substantially the same proportion as immediately prior to the sale.

Restrictive Covenants on Termination

No severance or benefits are paid if an executive is terminated for cause or resigns other than for good reason as defined in the executive's senior management agreement. Executives are subject to a confidentiality and non-disclosure covenant and, for a period of 12 to 24 months following termination of employment for any reason, may not directly or indirectly solicit, induce or encourage any employee of the Company or any client of the Company to leave, alter or cease his or her relationship with it. In addition, executives may not, for a period of 12 to 24 months following termination for any reason, provide services that are the same as or similar to those offered by the Company to any client of the Company that he or she obtained as a client for the Company, to whom he or she provided services within the 12 months preceding termination of employment, or to whom he or she submitted a proposal during the six months prior to termination of employment.

For a period of 12 to 24 months following the termination of his employment for any reason, Mr. Roth may not: (i) provide services that are the same as or similar to those offered by the Company at the time of his termination to any client of the Company; (ii) directly or indirectly solicit, induce or encourage any client of the Company to leave, alter, or cease his or her relationship with it; or (iii) directly or indirectly solicit, induce

or encourage any employee of the Company to leave, alter, or cease his or her relationship with it. Further, for a period of 12 to 24 months following the termination of his employment for any reason, Mr. Roth may not, directly or indirectly, provide services that are competitive with those of the Company to any person, firm or other business entity.

Certain Relationships and Related Transactions

It is the responsibility of the Audit Committee to review and approve, ratify or disapprove of proposed transactions or courses of dealings with respect to which executive officers or directors or members of their immediate families have an interest (including all transactions required to be disclosed pursuant to the SEC's related person disclosure requirements). In addition, it is the policy of management and board members to discuss at a meeting of the board of directors, or the appropriate board committee, those transactions requiring disclosure pursuant to the SEC's related person disclosure requirements between Huron and a board member or a principal stockholder and members of their immediate families.

In addition, Huron has a Code of Business Conduct and Ethics (the "Ethics Code"), a copy of which is posted on our web page at www.huronconsultinggroup.com, that applies to directors and employees and their family members. The Ethics Code, among other things, has a policy governing conflicts of interest generally and, in particular, prohibiting certain business arrangements with the Company and clients of the Company, entering into relationships that may be perceived as impairing the ability of the individual or Huron from performing his or its duties, as the case may be, in an impartial manner, and use of corporate property for improper personal gain. Any exceptions require disclosure and approval by the Chief Compliance Officer and, in the case of officers and directors, by the Audit Committee of the board of directors. The Ethics Code also prohibits Huron from making any personal loans or guaranteeing any personal obligations of board members and executive officers.

Table of Contents**PROPOSAL 2****APPROVAL OF AMENDMENT AND RESTATEMENT OF THE COMPANY S****2004 OMNIBUS STOCK PLAN**

In 2004, we adopted the Omnibus Plan. The Omnibus Plan was approved by stockholders on October 12, 2004 and authorized for issuance up to 2,141,000 shares for stock-based incentive compensation to eligible employees, executive officers, independent contractors and outside directors. On May 2, 2006, stockholders approved the amendment of the Omnibus Plan in order to authorize for issuance up to 2,100,000 additional shares. As of December 31, 2009, we had issued a total of 3,318,949 shares of common stock under the Omnibus Plan, and a total of 51,978 shares are issuable pursuant to outstanding options. As part of our strategy to refocus the Company and retain key employees after the financial restatement in 2009, we granted 779,308 shares of restricted stock to our executive officers, managing directors and other employees between November 1, 2009 and March 8, 2010, as follows:

	Number of Shares
Executives	54,876
Non-Executive Managing Directors	632,150
Non-Managing Directors	92,282
Total	779,308

We also reserved 246,228 shares, in connection with the 2010 executive equity-based grants described under the caption EXECUTIVE COMPENSATION Compensation Discussion and Analysis Huron Compensation Program Elements 2010 Equity Awards for Executive Officers, the maximum number of performance shares that may be earned based on achievement of the performance metrics disclosed. Adding back forfeitures and shares withheld to cover taxes due on the lapse of restricted shares, as of March 8, 2010, we had approximately 348,216 shares of common stock remaining available for grant under the Omnibus Plan. We expect to use these shares to make annual grants to our independent directors and grants at the time of hire to select new managing directors throughout the year.

See the disclosure under the caption 2010 Plan Benefits for allocation of restricted stock awards under the Omnibus Plan.

We have granted or committed to grant our current allocation of equity under the Omnibus Plan in the normal course of granting annual awards and pursuant to retention packages given to key employees throughout the Company in the wake of the financial restatement. We do not currently have enough shares available for issuance under the Omnibus Plan to make equity grants to executive officers and managing directors in 2011, and we may not have sufficient shares to attract and retain new senior talent. As a result, the board of directors has adopted, subject to stockholder approval, an amendment and restatement of the Omnibus Plan (the Amended and Restated Plan) to increase the number of shares available under the Omnibus Plan by 650,000 shares (to a total of 998,216 available for issuance, or 4.54% of our currently outstanding shares of common stock) and to make certain other changes. Based on our current plans and growth expectations, we believe that the additional 650,000 shares requested in this proposal will be sufficient for the Company s needs for one year and that we will propose a new equity plan for stockholder approval at the Company s 2011 annual meeting of stockholders.

Background of the Changes

Our business involves the delivery of professional services and is highly labor-intensive. Our success depends largely on our ability to attract, develop, motivate and retain highly skilled professionals. Equity compensation is an increasingly crucial component of our business model. The past year was a challenging one for Huron, but we have taken a hard look at our operations and made changes that have allowed us to emerge a stronger Company. We are determined to continue to grow the Company and deliver value to our stockholders, our clients and our people.

Table of Contents

Huron's business is to improve our clients' performance by helping them solve complex business problems. Consistent with this business strategy, we employ highly talented and marketable professionals at every level of the organization. Our executive officers and managing directors have spent many years developing their professional skills and market presence. These talented professionals distinguish Huron from its competition, and our ability to compensate them with equity gives us an edge against some of our competitors. A strong, clear, straight-forward compensation program, comprised of cash and equity, is key to how we attract, retain and motivate these individuals. During the second half of 2009, we redesigned our executive compensation plan and our managing director compensation plan to better align compensation for our most senior employees with our business strategy and the interests of stockholders. The intent of these changes is to:

Drive desired financial, operational and strategic objectives that create sustainable long-term stockholder value;

Tie our managing directors to us and to the success of our Company; and

Incentivize our executive officers to accomplish the business strategy by giving them significant performance-based equity opportunities.

Key changes to our executive officer compensation include:

Articulation of a clearer and more transparent compensation philosophy that addresses all elements of compensation (base, bonus and long-term incentive) and specifies how each of those components functions to encourage superior performance;

Establishment of an incentive program with target payouts tied to achieving specified targets and including a mix of short-term and long-term incentives;

A long-term incentive component that combines time- and performance-based equity grants to reward executives for long-term value creation. (We expect to grant up to two-thirds of all equity grants to named executive officers in the form of stock options and/or performance-based restricted stock);

Adoption of share ownership requirements for executive officers and directors; and

Utilization of independent compensation consultants to provide expert objective counsel to the Compensation Committee regarding executive compensation.

Specific actions consistent with these changes were taken in late 2009 and 2010. With the advice of its independent compensation consultants, the Compensation Committee adopted a formal peer group and targeted compensation at the median, within a 10 percent range, for equivalent positions in the peer group. Within this range, the Compensation Committee used its discretion when setting the compensation for each executive officer. If management achieves our stretch goals, actual pay may substantially exceed the median. Executive base salaries and target incentives were adjusted to reflect the Compensation Committee's assessment of where the Company was positioned in the market. The Compensation Committee has also implemented the incentive plan for executive officers with revenue, EBITDA and key strategic objectives as performance measures. The committee designed the equity component of the incentive plan to include performance shares, and those shares will be earned based on achieving targeted adjusted EBITDA and total debt to EBITDA. This is described more fully under the caption

EXECUTIVE COMPENSATION Compensation Discussion and Analysis . Grants under this plan were made to executive officers in January 2010.

Highlights of changes to our managing director compensation plan include:

Edgar Filing: Huron Consulting Group Inc. - Form DEF 14A

Increased transparency in the link between pay and performance to motivate results that drive our business strategy and fulfill stockholder commitments, including actual revenue generation, providing excellent client service, collaboration with others in maximizing opportunities for the Company as a whole and mentoring of more junior consultants, among other factors;

Establishment of an integrated compensation plan that includes annual and equity-based long-term incentives for all managing directors based on their contributions to the business;

Table of Contents

Clarification of performance expectations and creation of a consistent structure for each element of pay: salary, short-term cash incentive and long-term equity incentive; and

A focus on wealth creation over time with every managing director eligible for a target annual equity grant.

Changes in the Amended and Restated Plan

In response to our new compensation approach, to make changes to the Omnibus Plan incorporating improved governance features and to clarify the application of certain provisions of the Omnibus Plan, our board of directors has made a number of changes to the Omnibus Plan as part of the Amended and Restated Plan. The significant changes accomplished by the Amended and Restated Plan and for which we are seeking your approval are to:

Increase the number of additional shares of common stock authorized under the Omnibus Plan by 650,000, which we believe will be sufficient for the Company's needs for the next year, based on our current plans and growth expectations;

Require that any performance-based award may not become exercisable or vested prior to the first anniversary of the date on which it is granted and that any retention award may not become vested prior to the third anniversary of the date on which it is granted; except, in each case, in the event of the participant's death, disability, retirement or a change of control;

Require that the exercise price of any options to purchase common stock or stock appreciation rights issued in the future may not be below fair market value (as defined in the Amended and Restated Plan) on the date of grant;

Prohibit the ability to reprice outstanding options or stock appreciation rights without the approval of stockholders;

Expand the business criteria upon which Section 162(m) performance-based compensation awards may be based and clarify the individual limitations on awards that can be granted during a specified period;

Require stockholder approval to amend the Amended and Restated Plan if, except in specified circumstances, the amendment would materially increase the benefits accruing to a participant, increase the aggregate number of shares of common stock that may be issued or modify the requirements as to eligibility for participation in the Amended and Restated Plan;

Empower the Compensation Committee to administer future awards made to non-employee directors;

Incorporate provisions for cash incentive awards (including individual limits on the amount of an award that can be paid during a specified period) so that such awards may be eligible for the exemption from the \$1 million limit on tax-deductible compensation contained in Section 162(m) of the Code;

Provide for acceleration of unvested equity awards to employees who lose their jobs as a result of a change of control; and

Bring greater clarity to how various other provisions in the Amended and Restated Plan and related equity award agreements will be interpreted.

Reasons for the Changes

Edgar Filing: Huron Consulting Group Inc. - Form DEF 14A

We cannot incorporate all of the changes in our compensation approach described above without your approval of additional shares of equity under the Omnibus Plan. As discussed, the restatement and subsequent changes in leadership required us to look at our core talent and award sizeable retention equity grants throughout the Company, particularly in our Financial Consulting, Legal Consulting and Higher Education groups. Early in 2010, the Compensation Committee approved significant grants primarily to high potential managing directors in

Table of Contents

our healthcare practices to encourage and reward integration of the Wellspring and Stockamp acquisitions. The Compensation Committee also made equity awards to our new executive team in a combination of time-based restricted stock and performance-based units, with the performance-based units scheduled to be earned only upon the achievement of specific performance metrics disclosed above. The grants will focus the new executive team on key priorities for 2010. As a result of these actions, our pool of shares has been nearly depleted. In order to execute our strategy, we need to hire additional talent in our core practices. To do this, we will need additional equity so that we can build compensation packages that attract and retain the senior talent we need and focus it on delivering long-term value for our stockholders. As we have noted above, we do not currently have sufficient shares to make grants to executive officers and managing directors in 2011, and we may not have sufficient shares to attract the new talent we need to execute our growth strategy and to build the Company.

In addition, to enable the Company to grant performance-based compensation in the future that is exempt from the \$1 million limit on tax-deductible compensation contained in Section 162(m) of the Code, certain provisions of the Omnibus Plan must be periodically resubmitted to, and reapproved by, our stockholders. Stockholder approval of the Amended and Restated Plan will constitute approval for purposes of Section 162(m) and will allow us to grant cash and equity-based compensation that is exempt from the \$1 million limit on tax-deductible compensation.

For the reasons discussed above, we believe that it is in the best interests of the Company, its stockholders and its employees to increase the number of shares of common stock available for issuance under the Omnibus Plan and to make other changes to the Omnibus Plan included in the Amended and Restated Plan. Accordingly, the board of directors has adopted the Amended and Restated Plan, subject to stockholder approval. In connection with our request, we want you to know that:

We have changed our practices to ensure they are aligned with stockholder interests, including phasing in share ownership requirements for executive officers and directors, implementing severance arrangements for executive officers that are less favorable to them than the norm for these arrangements, and providing change of control benefits to executive officers with a double trigger and no tax gross ups;

We commit that any equity awards to executive officers will include up to two-thirds performance-based awards, including stock options and performance-based restricted stock; and

We commit that the majority of grants made below the executive officer level will be determined based on the performance of each individual, his or her practice group, and/or the Company during the immediately preceding year.

The approval of the Amended and Restated Plan requires the affirmative vote of the holders of a MAJORITY of the total shares of common stock present in person or represented by proxy and entitled to vote on Proposal 2, provided that a quorum is represented at the meeting. Abstentions will have the same effect as a vote against ratification. Broker non-votes will not be considered shares entitled to vote with respect to approval of Proposal 2 and will not be counted as votes for or against Proposal 2. Validly executed proxies submitted in response to this solicitation will be voted FOR the approval of Proposal 2, unless specified otherwise.

We appreciate your support as we all work to improve the performance of our Company.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR APPROVAL OF AMENDMENT AND RESTATEMENT OF THE COMPANY S 2004 OMNIBUS STOCK PLAN.

The summary of the Amended and Restated Plan set forth below is qualified in its entirety by the full text of the Amended and Restated Plan. A copy of the Amended and Restated Plan, marked to show the changes from the Omnibus Plan, as amended through the date hereof, is included as Appendix A to this Proxy Statement.

Table of Contents

If the Amended and Restated Plan is not approved by stockholders, the Omnibus Plan will continue in existence in its current state, and the board of directors will be forced to consider other alternatives to continue to attract, motivate and retain employees. We expect that, if the Amended and Restated Plan is not approved, our cash compensation requirements will increase significantly in 2010 and beyond.

Description of the Amended and Restated Plan

There are several types of awards that may be granted under the Amended and Restated Plan:

stock options (including both incentive stock options, or ISOs, within the meaning of Section 422 of the Code and nonqualified stock options, or NQSOs, which are options that do not qualify as ISOs);

stock appreciation rights;

restricted stock;

phantom stock;

stock bonus awards;

other equity-based awards valued in whole or in part by reference to, or otherwise based on, our common stock; and

cash incentive awards.

As of March 8, 2010, a total of 348,216 shares of common stock are available for grant under the Omnibus Plan, subject to equitable adjustment upon certain corporate transactions or events. If this proposal is approved by stockholders, the number of shares available under the Amended and Restated Plan would increase to 998,216. Shares subject to an award that remain unissued upon the cancellation, surrender, exchange, forfeiture or termination of the award will again become available for award under the Amended and Restated Plan, as shall any shares subject to an award that are retained as payment of the exercise price or tax withholding obligations with respect to an award, and any previously owned shares surrendered to us as payment of the exercise price of an option or to satisfy tax withholding obligations. In addition, to the extent an award is paid or settled in cash, the number of shares previously subject to the award shall again be available for issuance pursuant to the Amended and Restated Plan.

The Omnibus Plan, as it may be amended from time to time (including by the Amended and Restated Plan), is administered by the Compensation Committee. Our executive officers, employees, outside directors and third-party consultants, numbering approximately 2,000 in total as of March 8, 2010, were eligible to receive awards under the Omnibus Plan at the discretion of the Compensation Committee. The Compensation Committee has the responsibility for interpreting the Omnibus Plan and determining all of the terms and conditions of awards made under the Omnibus Plan, including when they will become exercisable or otherwise vest, subject to the terms and conditions of the Amended and Restated Plan if it is approved by the Company's stockholders. The Compensation Committee has the authority to accelerate the exercisability and/or vesting of any outstanding award at such times and under such circumstances as it deems appropriate, subject to the terms and conditions of the Amended and Restated Plan. The Amended and Restated Plan may be further amended by our board of directors, subject to stockholder approval where necessary, to satisfy legal or regulatory requirements; provided that no amendment may be made without stockholder approval if the amendment would materially increase the benefits accruing to a participant under the Amended and Restated Plan, increase the aggregate number of shares of common stock that may be issued under the Amended and Restated Plan (other than equitable adjustments as provided) or modify the requirements for eligibility for participation in the Amended and Restated Plan. The Amended and Restated Plan terminates not later than the tenth anniversary of its initial adoption. Awards granted before the termination of the Amended and Restated Plan may extend beyond that date in accordance with their terms.

Table of Contents

Under the Amended and Restated Plan, the maximum number of shares of stock that may be granted to any individual during any calendar year may not exceed 500,000 shares (subject to equitable adjustment as provided). The maximum number of shares of stock to which incentive stock options relate that may be granted under the Amended and Restated Plan is 325,000 (subject to equitable adjustment as provided). The limit on cash incentive awards under the Amended and Restated Plan is \$10,000,000 during any 12-month performance period.

The Amended and Restated Plan is intended to permit the grant of performance-based compensation within the meaning of Section 162(m) of the Code, which generally limits the deduction that we may take for compensation of our CEO and our next four highest paid executive officers. Under Section 162(m), certain compensation, including compensation based on the attainment of performance goals, will not be subject to this limitation if certain requirements are met. The exercisability or payment of awards that are intended to qualify as performance-based compensation may be based upon one or more of the following business criteria as established by the Compensation Committee:

return on total stockholder equity;

earnings or book value per share of Company common stock;

net income (before or after taxes);

earnings before all or any interest, taxes, depreciation and/or amortization (EBIT, EBITA or EBITDA);

return on assets, capital or investment;

market share;

cost reduction goals;

earnings from continuing operations;

levels of expense, costs or liabilities;

department, division or business unit level performance;

operating profit;

sales or revenues;

stock price appreciation;

total stockholder return (TSR);

implementation or completion of critical projects or processes;

adjusted EBITDA (e.g., EBITDA adjusted for restructuring and restatement costs);

days sales outstanding;

financial coverage ratios;

other non-GAAP financial measures; and

any combination of the foregoing.

Where applicable, these business criteria may be expressed in terms of attaining a specified level of the particular criteria or the attainment of a percentage increase or decrease in the particular criteria and may be applied to one or more of the Company, an affiliate of the Company, or a department, division or strategic business unit of the Company and/or one or more affiliates of the Company. The business criteria also may be applied to the performance of the Company relative to a market index, a group of other companies or a combination thereof, as determined by the Compensation Committee. The business criteria may be subject to:

a threshold level of performance below which no payment will be made (or no vesting will occur);

Table of Contents

levels of performance at which specified payments will be made (or specified vesting will occur); and

a maximum level of performance above which no additional payment will be made (or at which full vesting will occur).

Each of the business criteria will be determined, where applicable, in accordance with generally accepted accounting principles and will be subject to certification by the Compensation Committee. The Compensation Committee has the authority to make equitable adjustments to the business criteria to account for:

unusual or non-recurring events affecting the Company or any of its affiliates or the financial statements of the Company or any of its affiliates;

changes in applicable laws or regulations (including tax laws, accounting principles or other laws or provisions affecting reported results);

items of gain, loss or expense determined to be extraordinary or unusual in nature or infrequent in occurrence or related to the disposal of a segment of a business or related to a change in accounting principles;

asset write-downs;

litigation or claim judgments or settlements;

accruals for reorganization or restructuring programs; and

acquisitions or divestitures.

U.S. Federal Income Tax Consequences. The following summary describes the typical U.S. federal income tax consequences of awards granted under the Amended and Restated Plan based upon provisions of the Code, as in effect on March 24, 2010, and applicable guidance thereunder, all of which are subject to change (possibly with retroactive effect). This is not intended to be a complete analysis and discussion of the federal income tax treatment of awards under the Amended and Restated Plan and does not discuss estate or gift taxes or the income tax laws of any municipality, state or foreign country. We generally will be entitled to withhold any required taxes in connection with the exercise or payment of any award and may require the participant to pay such taxes as a condition to exercise or payment of an award.

Stock Options. ISOs and NQSOs are treated differently for federal income tax purposes. ISOs are intended to satisfy the requirement of Section 422 of the Code. NQSOs need not satisfy such requirements.

A participant is generally not taxed on the grant or the exercise of an ISO. The difference between the exercise price and the fair market value of the shares on the exercise date, however, will be a preference item for purposes of the alternative minimum tax, and thus a participant could be subject to the alternative minimum tax as a result of the exercise of an ISO. If a participant holds the shares acquired upon exercise of an ISO for at least two years following the stock option grant date and at least one year following exercise, the difference between the amount realized on the disposition of the shares and the participant's basis in the shares (usually the exercise price) will be treated as long-term capital gain (or loss, if applicable).

If a participant disposes of shares acquired pursuant to exercise of an ISO before satisfying the one- and two-year holding periods described above (a disqualifying disposition), then the participant will generally recognize ordinary income in the year of the disqualifying disposition equal to the excess, if any, of the fair market value of the shares on the date of exercise over the exercise price, and any excess of the amount realized on the disposition over the fair market value on the date of exercise will be taxed as long- or short-term (as applicable) capital gain. If, however, the fair market value of the shares on the date of the disqualifying disposition is less than on the date of exercise, the employee will

recognize ordinary income equal only to the difference between the amount realized on the disqualifying disposition and the exercise price.

Table of Contents

We are not entitled to an income tax deduction on the grant or exercise of an ISO or on the participant's disposition of the shares after satisfying the holding period requirements described above. If a disqualifying disposition occurs, we will be entitled to a deduction in the year of the disqualifying disposition in an amount equal to the ordinary income recognized by the participant upon the disqualifying disposition.

A recipient generally will not realize any taxable income upon the grant of an NQSO. Upon exercise of an NQSO, the participant will realize ordinary income in an amount generally measured by the excess, if any, of the fair market value of the shares on the date of exercise over the exercise price. We will generally be entitled to a deduction in the same amount as the ordinary income realized by the participant. Upon the sale of shares acquired upon exercise of an NQSO, the participant will realize short-term or long-term capital gain or loss, depending upon the length of time the shares are held. Such gain or loss will be measured by the difference between the sale price of the shares and the participant's basis in the shares (usually the fair market value of the shares on the date of exercise of the NQSO). Special rules will apply in cases where a participant pays the exercise or purchase price of the award or applicable withholding tax obligations under the Amended and Restated Plan by delivering previously owned shares or by reducing the number of shares otherwise issuable pursuant to the award. The surrender or withholding of such shares will in certain circumstances result in the recognition of income with respect to such shares or a carryover basis in the shares acquired and may constitute a disposition for purposes of applying the ISO holding periods discussed above.

Stock Appreciation Rights. A participant generally will not realize any taxable income upon the grant of a stock appreciation right. Upon the exercise of such right, the participant will recognize ordinary income in an amount equal to the amount of cash and/or the fair market value, at the date of such exercise, of the shares received by the participant as a result of such exercise. We will generally be entitled to a deduction in the same amount as the ordinary income realized by the participant.

Restricted Stock. The federal income tax consequences of a grant of restricted stock depend upon whether or not the participant elects to be taxed at the time of the grant of such shares under Section 83(b) of the Code (an 83(b) Election). If no 83(b) Election is made, the participant will not recognize taxable income at the time of the grant of the restricted stock, assuming that the stock is then subject to a substantial risk of forfeiture under rules under the Code. When the restrictions on the shares lapse (that is, when the shares are no longer subject to a substantial risk of forfeiture), the participant will recognize ordinary taxable income in an amount equal to the fair market value of the shares at that time. If the 83(b) Election is made, the participant will recognize taxable income at the time of the grant of restricted stock in an amount equal to the fair market value of such shares at that time, determined without regard to any of the restrictions. If the shares are forfeited before the restrictions lapse, the participant will be entitled to no deduction on account thereof.

The participant's tax basis in the restricted stock is the amount recognized by him or her as income attributable to such shares. Gain or loss recognized by the participant on a subsequent disposition of any such shares is capital gain or loss if the shares are otherwise capital assets.

We will be entitled to a tax deduction in the same amount, and at the same time, as the income is recognized by the participant.

Other Awards. Participants generally will not have taxable income upon the grant of any other stock awards, provided that there are restrictions on such awards that constitute a substantial risk of forfeiture under applicable rules under the Code. Participants will generally recognize ordinary income when the restrictions on awards lapse or on the date of grant if there are no such restrictions. At that time, the participant will recognize taxable income equal to the cash or the then fair market value of the shares issuable in payment of such award, and such amount will be the tax basis for any shares received. In the case of an award that does not constitute property at the time of grant (such as an award of units), participants will generally recognize ordinary income when the award is paid or settled. In either case, we generally will be entitled to a tax deduction in the same amount, and at the same time, as the income is recognized by the participant.

Policy on Audit Committee Pre-Approval of Audit and Non-Audit Services of Independent Auditor

The Audit Committee is responsible for appointing, setting compensation and overseeing the work of the independent auditor. The Audit Committee has established a policy regarding pre-approval of all audit and non-audit services provided by the independent auditor.

The Audit Committee, on a periodic basis, determines certain services that have the general pre-approval of the committee. The Audit Committee must separately pre-approve any services not receiving such general pre-approval. Requests for such approval must be submitted by both the auditor and the CFO and must include a joint statement as to whether, in their view, the request is consistent with the SEC's rules on auditor independence. No services are undertaken that are not pre-approved. The Audit Committee will establish pre-approved fee levels for all services to be provided by the auditor. On a periodic basis, the CFO and the auditor report to the Audit Committee regarding the actual spending for such projects and services compared to the approved amounts.

Report of the Audit Committee

The primary purpose of the Audit Committee is to assist the board of directors in its general oversight of the Company's financial reporting process. The Audit Committee conducted its oversight activities for Huron in accordance with the duties and responsibilities outlined in the Audit Committee charter.

Huron's management is responsible for the preparation, consistency, integrity and fair presentation of the financial statements, accounting and financial reporting principles, systems of internal control and procedures designed to ensure compliance with accounting standards, applicable laws and regulations. Huron's independent auditors, PricewaterhouseCoopers LLP, are responsible for performing an independent audit of the financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States of America.

The Audit Committee, with the assistance and support of the Huron finance department and management of Huron, has fulfilled its objectives, duties and responsibilities as stipulated in the Audit Committee charter and has provided adequate and appropriate independent oversight and monitoring of Huron's systems of internal control for the fiscal year ended December 31, 2009.

These activities included, but were not limited to, the following during the fiscal year ended December 31, 2009:

Reviewed and discussed with management and the independent auditors the audited financial statements, the quarterly financial statements, and the quarterly and annual earnings press releases for the year ended December 31, 2009. Management has the primary responsibility for such financial statements and press releases.

Discussed with the independent auditors the matters requiring discussion by Statement on Auditing Standards No. 61 Communication with Audit Committees.

Received the written disclosures and the letter from the independent auditors in accordance with the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence.

In reliance on the committee's review and discussions of the matters referred to above, the Audit Committee recommended to the board of directors that the audited financial statements be included in Huron's Annual Report on Form 10-K for the fiscal year ended December 31, 2009 for filing with the Securities and Exchange Commission.
