**Section 8 Other Events**

**Item 8.01. Other Events.**

Federal healthcare legislation was recently signed into law. The healthcare legislation includes a provision that reduces the deductibility, for federal income tax purposes, of retiree healthcare costs to the extent an employer's postretirement healthcare plan receives federal subsidies that provide retiree prescription drug benefits equivalent to Medicare prescription drug benefits. Although this change does not take effect immediately, Exelon Corporation (Exelon), Exelon Generation Company, LLC (Generation), Commonwealth Edison Company (ComEd) and PECO Energy Company (PECO) (collectively, the Registrants) are required to recognize the full accounting impact in their financial statements in the period in which the legislation is signed. As a result, in the first quarter of 2010, Exelon expects to record total non-cash after-tax charges of approximately \$65 million for income tax expense to establish deferred tax liabilities. Of this total, Generation, ComEd and PECO expect to record charges of \$24 million, \$11 million and \$9 million, respectively. These charges will be excluded from the Registrants' 2010 adjusted (non-GAAP) operating earnings.

The reduction of these income tax deductions is also estimated to increase Exelon's total annual income tax expense by approximately \$10 million to \$15 million. Of this total, Generation's, ComEd's and PECO's annual income tax expense is estimated to increase \$5 million to \$8 million, \$3 million to \$4 million and \$1 million to \$2 million, respectively.
