Subject: Fourth Quarter and Full Year Earnings Results

Today we announced our earnings results for our fourth quarter and full fiscal year 2010, and I am pleased to tell you that we delivered solid returns to our shareholders. As you know, we have been focused on conducting business as usual, and I am happy to say that your commitment to Airgas and our customers is evident in the numbers we released today.

Earnings Highlights

The economic recovery seems to be gaining momentum, and has led to improving business conditions and demand from our customers. Our sales per day have increased for two consecutive quarters, and our fourth quarter earnings per share, excluding unusual items, are up from last year and last quarter. In addition to these increases, Airgas achieved record free cash flow in our 2010 fiscal year. We can all be proud of the results that our Company has achieved. Thank you for all you have done to contribute to our success.

Outlook

Based on our solid performance, we are more confident than ever about our ability to continue building on our track record of success in producing strong returns and creating meaningful value for all Airgas shareholders. We also are well-positioned to capitalize on the substantial investments we have made in our infrastructure and Core Strategy II as the economy continues to improve.

New Customers and other Notable Accomplishments

I have been making the rounds in the field, and I have been pleased to learn that many companies are choosing Airgas as their supplier of choice. We are energized, and we are focused on growing our business. Well done.

We are also pleased to have signed agreements with a number of new customers and extended agreements with some existing partners. In fact, since January alone, notable agreements we have announced include: a 15-year supply and sponsorship agreement with XCOR Aerospace; three separate supply agreements with Premier Purchasing Partners, L.P., the group purchasing unit of Premier Inc.; a five-year services agreement with the University of Pennsylvania Health System; new supply agreements with Case Western Reserve University and Utilities Service Alliance (USA); and two-year extensions of our supply agreements with Goodrich Corporation and Illinois Tool Works. As always, we are committed to our business partners and look forward to enhancing these, and future, business relationships.

Edgar Filing: AIRGAS INC - Form DEFA14A

Other notable accomplishments in our fiscal year included the launch of a number of new products, including a hydrogen fuel cell marketing agreement with Nuvera®, new lines of analytical regulators and gas monitoring solutions, and our AiRx™ Diesel Exhaust Fluid. We were pleased to be added to the S&P 500 index, and upgraded to an investment grade credit rating. In addition, Airgas was included

on this year's FORTUNE 500 list. And we are particularly proud of the Compressed Gas Association's (CGA) Fleet Safety Awards in the large fleet category for best vehicle safety records in Bulk Gas Transportation and in Cylinder Gas Transportation, as well as the CGA Environmental Recognition Program Award for Green Distribution Centers.

Air Products Update

As we've discussed before, our Board of Directors unanimously believes that Air Products' unsolicited proposals grossly undervalue our Company. Air Products' proposal does not reflect the value inherent in our future prospects, our extraordinary track record of creating stockholder value, and our position as the largest and most valuable packaged gas business in the world. The proposal also does not reflect our substantial recent investments and the significant opportunities for our business as the economy recovers.

In addition, Air Products' unsolicited takeover attempt is extremely opportunistic, as we believe it is a transparent effort to obtain the future value of Airgas at a bargain basement price. We believe that Air Products has essentially said as much itself, declaring the timing of their proposals to be excellent.

Looking ahead, we expect that Air Products may try other tactics such as submitting shareholder proposals or launching what's known as a proxy contest, by proposing candidates for election to Airgas' Board of Directors at our upcoming Annual Meeting. What's most important is for us to not be distracted. Let's all stay focused on running our business.

A Bright Future

Airgas is a strong company with bright prospects for growth and continued shareholder value creation. We are focused on delivering outstanding results for our shareholders and remain confident that the continued execution of our strategic plan is the best path forward for our company.

Rest assured that we are working to preserve and enhance the shareholder value that we all have created through the years. I urge you again to maintain your focus on our customers, and continue to provide them with the outstanding service they have come to expect from us at Airgas. We will continue to keep you apprised of developments. Thank you for your hard work and dedication to Airgas.
