*Non-income producing security.

(a) *Affiliated Company. See accompanying Notes to Quarterly Portfolio of Investments.*

(b) *Private Placement; these securities may only be resold in transactions exempt from registration under the Securities Act of 1933. As of June 30, 2010, these exemptions had a total value of \$108,674,136 or 48.3% of total net assets.*

(c) *Indicates a fair valued security. Total market value for fair value securities is \$106,833,399 representing 47.4% of total net assets.*

(d) *Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933, as amended.*

(e) *Less than 0.05% of total net assets.*

(f) *Less than 0.0005%.*

(g) *Indicates a security which is considered illiquid. Also see Note 5.*

Common Abbreviations:

AG - Aktiengesellschaft is a German term that refers to a corporation that is limited by shares, i.e., owned by shareholders.

A/S - Aktieselskab is a Danish term for joint stock company

LLC - Limited Liability Company

LP - Limited Partnership

Ltd. - Limited

N.A. - National Association

REIT - Real Estate Investment Trust

Edgar Filing: FIRST OPPORTUNITY FUND INC - Form N-Q

S.A.- Generally designates corporations in various countries, mostly those employing the civil law. This translates literally in all languages mentioned as anonymous company

For Fund compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications for reporting ease. Industries are shown as a percent of total net assets. These industry classifications are unaudited.

See accompanying Notes to Quarterly Portfolio of Investments.

Notes to Quarterly Portfolio of Investments

June 30, 2010 (unaudited)

Note 1. Valuation and Investment Practices

Securities Valuation: Securities for which market quotations are readily available (including securities listed on national securities exchanges and those traded over-the-counter) are valued at the last quoted sales price on the valuation date on which the security is traded. If such securities were not traded on the valuation date, but market quotations are readily available, they are valued at the most recently quoted bid price provided by an independent pricing service or by principal market makers. Securities traded on NASDAQ are valued at the NASDAQ Official Closing Price (NOCP). Where market quotations are not readily available or where the pricing agent or market maker does not provide a valuation or methodology, or provides a valuation or methodology that, in the judgment of the adviser or sub-adviser, does not represent fair value (Fair Value Securities), securities are valued at fair value by a Pricing Committee appointed by the Board of Directors, in consultation with the adviser or sub-adviser. The Fund uses various valuation techniques that utilize both observable and unobservable inputs including multi-dimensional relational pricing model, option adjusted spread pricing, book value, last available trade, discounted future cash flow models, cost, and comparable company approach. In such circumstances, the adviser or sub-adviser makes an initial written recommendation to the Pricing Committee regarding valuation methodology for each Fair Value Security. Thereafter, the adviser or sub-adviser conducts periodic reviews of each Fair Value Security to consider whether the respective methodology and its application is appropriate and recommends methodology changes when appropriate. The Pricing Committee reviews and makes a determination regarding each initial methodology recommendation and any subsequent methodology changes. All methodology recommendations and any changes are reviewed by the entire Board of Directors on a quarterly basis. Due to the inherent uncertainty of the valuation of these investments, these values may differ from the values that would have been used had a ready market for these investments existed and the differences could be material.

The Portfolio of Investments include investments valued at \$106,833,399 (47.4% of total net assets), whose fair values have been estimated by management in the absence of readily determinable fair values.

Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates fair value.

The Financial Accounting Standards Board (FASB) has issued Accounting Standards Codification (ASC) and the Fund follows the provisions of ASC 820, Fair Value Measurements and Disclosures (ASC 820). In accordance with ASC 820, fair value is defined as the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions.

Edgar Filing: FIRST OPPORTUNITY FUND INC - Form N-Q

about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 unadjusted quoted prices in active markets for identical investments

Level 2 significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The valuation techniques used by the Fund to measure fair value during the three months ended June 30, 2010 maximized the use of observable inputs and minimized the use of unobservable inputs. The Fund uses the value of investment securities, as of the end of each reporting period, in determining transfers in/out of Levels 1, 2 or 3.

The following is a summary of the inputs used as of June 30, 2010 in valuing the Fund's investments carried at value:

Investments in Securities at Value	Level 1	Level 2	Level 3	Total
Domestic Common Stocks [^]	\$56,181,231	\$16,373,030	\$ 17,103,131	\$89,657,392

New Accounting Pronouncement: In January 2010, the FASB issued Accounting Standards Update Improving Disclosures about Fair Value Measurements (ASU). The ASU requires enhanced disclosures about a) transfers into and out of Levels 1 and 2, and b) purchases, sales, issuances, and settlements on a gross basis relating to Level 3 measurements. The first disclosure is effective for the first reporting period beginning after December 15, 2009, and for interim periods within those fiscal years. There were no significant transfers in to and out of Levels 1 and 2 during the current period presented.

The second disclosure will become effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Management is currently evaluating the impact this disclosure may have on the Fund's financial statements.

Securities Transactions and Net Investment Income: Securities transactions are recorded on the trade date. Realized gains or losses on sales of securities are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date, or for certain foreign securities, when the information becomes available to the Fund. Interest income including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis, using the effective interest method.

Dividend income from investments in real estate investment trusts (REITs) is recorded at management's estimate of income included in distributions received. Distributions received in excess of this amount are recorded as a reduction of the cost of investments. The actual amount of income and return of capital are determined by each REIT only after its fiscal year-end, and may differ from the estimated amounts. Such differences, if any, are recorded in the Fund's following year.

Foreign Currency Translation: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The books and records of the Fund are maintained in US dollars. Foreign currencies, investments and other assets and liabilities denominated in foreign currencies are translated into US dollars at the exchange rate prevailing at the end of the period, and purchases and sales of investment securities, income and expenses transacted in foreign currencies are translated at the exchange rate on the dates of such transactions. Foreign currency gains and losses result from fluctuations in exchange rates between trade date and settlement date on securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received.

Repurchase Agreements: The Fund may enter into repurchase agreement transactions with United States financial institutions. It is the Fund's policy that its custodian take possession of the underlying collateral securities, the value of which exceed the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. The value of the collateral at the time of the execution must be at least equal to 102% of the total amount of the repurchase obligations, including interest. If the seller defaults, and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited. The Fund had no outstanding repurchase agreements as of June 30, 2010.

Note 2. Unrealized Appreciation/(Depreciation)

On June 30, 2010, based on cost of \$277,449,619 for federal income tax purposes, aggregate gross unrealized appreciation for all securities in which there is an excess of value over tax cost was \$13,519,059 and aggregate gross unrealized depreciation for all securities in which there is an excess of tax cost over value was \$64,096,416, resulting in net unrealized depreciation of \$50,577,357.

Note 3. Transactions With Affiliated Companies

Transactions during the period with companies in which the Fund owned at least 5% of the voting securities were as follows:

Name of Affiliate	Beginning			Ending			Market Value
	Share			Share			
	Balance as of 4/1/10	Purchases	Sales	Balance as of 6/30/10	Dividend Income	Realized Gains (Losses)	
Broadway Financial Corporation	129,280	-	(32,300)	96,980	\$ 1,293	(11,386)	\$ 169,715
CCF Holding Company	340,815	-	-	340,815	-	-	34,081
Perpetual Federal Savings Bank	165,930	-	-	165,930	24,890	-	2,074,125
Redwood Financial, Inc.	40,650	-	-	40,650	-	-	518,287
River Valley Bancorp	89,993	-	-	89,993	18,899	-	1,143,811
Third Century Bancorp	110,500	-	-	110,500	-	-	442,000
TOTAL					\$ 45,082	\$ (11,386)	\$ 4,382,019

Note 4. Credit Default Swaps

The Fund may enter into credit default swap contracts for hedging purposes, to gain market exposure or to add leverage to its portfolio. When used for hedging purposes, the Fund would be the buyer of a credit default swap contract. In that case, the Fund would be entitled to receive the par (or other agreed-upon) value of a referenced debt obligation, index or other investment from the counterparty to the contract in the event of a default by a third party, such as a U.S. or foreign issuer, on the referenced debt obligation. In return, the Fund would pay to the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, the Fund would have spent the stream of payments and received no benefit from the contract. When the Fund is the seller of a credit default swap contract, it receives the stream of payments but is obligated to pay upon default of the referenced debt obligation. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total assets, the Fund would be subject to investment exposure on the notional amount of the swap.

In addition to the risks applicable to derivatives generally, credit default swaps involve special risks because they are difficult to value, are highly susceptible to liquidity and credit risk, and generally pay a return to the party that has paid the premium only in the event of an actual default by the issuer of the underlying obligation, as opposed to a credit downgrade or other indication of financial difficulty. Credit default swaps are marked to market periodically using quotations from pricing services. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of the swap agreement.

Credit default swap contracts entered into by the Fund as of June 30, 2010, were as follows:

Edgar Filing: FIRST OPPORTUNITY FUND INC - Form N-Q

Swap	Referenced	Notional Amount	Rates paid by	Termination	Upfront		Unrealized Gain/(Loss)

TOTAL						\$ 208,978	\$ 1,510,812

Note 5. Illiquid Securities

As of June 30, 2010, investments in securities included issues that are considered illiquid. Illiquid securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale, and may be revalued under methods approved by the Board of Directors as reflecting fair value.

The Fund may invest, without limit, in illiquid securities. The Fund may not be able to readily dispose of such securities at prices that approximate those at which the Fund could sell such securities if they were more widely traded and, as a result of such illiquidity, the Fund may have to sell other investments or engage in borrowing transactions if necessary to raise cash to meet its obligations. Limited liquidity can also affect the market price of securities, thereby adversely affecting the Fund's net asset value and ability to make dividend distributions.

Edgar Filing: FIRST OPPORTUNITY FUND INC - Form N-Q

Illiquid securities as of June 30, 2010 are as follows:

Description	Acquisition Date	Cost	Market Value	
			Market Value	Assets
Affinity Financial Corp.	3/24/2005	\$ 1,000,000	\$ -	0.0%

Item 2 - Controls and Procedures.

- (a) The Registrant's Principal Executive Officer and Principal Financial Officer concluded that the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (17 CFR 270.30a-3(c))) were effective as of a date within 90 days of the filing date of this report (the Evaluation Date), based on their evaluation of the effectiveness of the Registrant's disclosure controls and procedures as of the Evaluation Date.
- (b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940 (17 CFR 270.30a-3(d))) that occurred during the Registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3 Exhibits.

- (a) Certification of Principal Executive Officer and Principal Financial Officer of the Registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940 (17 CFR 270.30a-2(a)) is attached hereto as Exhibit 99CERT.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Registrant First Opportunity Fund, Inc.
