**Certain Year-End Updates Related to Status as a Foreign Issuer**

**Foreign Private Issuer Status**

Amarin Corporation plc is currently classified as a foreign private issuer, as such term is defined in Rule 405 under the U.S. Securities Act of 1933, as amended. As such, we are currently exempt from certain provisions applicable to U.S. public companies including: the rules under the Securities Exchange Act of 1934, as amended, or Exchange Act, requiring the filing with the SEC of quarterly reports on Form 10-Q and current reports on Form 8-K; the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations in respect of a security registered under the Exchange Act; the provisions of Regulation FD aimed at preventing issuers from making selective disclosures of material information; and the sections of the Exchange Act requiring insiders to file public reports of their stock ownership and trading activities and establishing insider liability for profits realized from any short-swing trading transaction (a purchase and sale, or sale and purchase, of the issuer's equity securities within less than six months).

A foreign private issuer may lose this status if a majority of its directors are U.S. citizens or residents and it fails to meet additional requirements. As previously disclosed, we believe that we will lose our status as a foreign private issuer effective as of January 1, 2011. As a result, beginning January 1, 2011, we anticipate that future annual filings with the U.S. Securities and Exchange Commission will be made on Forms 10-K (including our annual report for the year ending December 31, 2010) rather than on Form 20-F. In addition, we plan commencing on January 1, 2011 to expand our reporting consistent with that of a domestic (U.S.) filer, including quarterly reports on Form 10-Q and Section 16 reporting.

**Passive Foreign Investment Company Status**

As previously disclosed in our filings with the U.S. Securities and Exchange Commission, including disclosure in our Annual Report on Form 20-F for the fiscal year ended December 31, 2009, Amarin Corporation plc and certain of our subsidiaries may be classified as a passive foreign investment company, or PFIC for U.S. federal income tax purposes. For U.S. Holders who seek to make a qualified electing fund election, or a QEF election, with respect to our ordinary shares or ADSs, we will, for our fiscal years starting after December 31, 2010, make available an information statement that will contain the necessary information required for making a QEF election and permit such U.S. Holders access to certain information in the event of an audit by the U.S. tax authorities. For any taxable year that Amarin Corporation plc has a net operating loss for U.S. federal income tax purposes and does not have any net capital gain, a U.S. Holder would not have an income inclusion for such year as a result of a QEF election.

The tests for determining PFIC status for a taxable year depend upon the relative values of certain categories of assets and the relative amounts of certain kinds of income. The application of these factors depends upon our financial results, which are beyond our ability to predict or control, and which may be subject to legal and factual uncertainties, including uncertainties in interpreting this law for companies such as Amarin which are developing, but not yet selling, pharmaceutical products.

While we cannot provide any assurance that we are, are not, or will or will not be, a PFIC for the fiscal year ended December 31, 2010 or for future periods, given inherent uncertainties in interpreting this law and the status of development for AMR101, and the most recent available information regarding our 2010 financial position and results of operations, we believe it prudent to assume that we may be classified as a PFIC for the fiscal year ended December 31, 2010 and may also so qualify in future years. Consequently, investors should give serious consideration to making a QEF or mark-to-market election, as described above and in our Annual Report on Form 20-F for the year ended December 31, 2009.

Whether or not U.S. Holders of our ordinary shares or ADSs make a timely QEF election or mark-to-market election may affect the U.S. federal income tax consequences to U.S. Holders with respect to the acquisition, ownership and disposition of Amarin ordinary shares or ADSs and any dividends such U.S. Holders may receive. Please refer to our Annual Report on Form 20-F for the fiscal year ended December 31, 2009, for a summary of the U.S. federal income tax implications of the filing of a QEF election in respect to our ordinary shares or ADSs.

The PFIC tax rules and the related elections are very complex and may result in varying tax consequences to U.S. Holders depending on the particular circumstances of such U.S. Holders. This summary is based upon the U.S. Internal Revenue Code of 1986, as amended, regulations promulgated under the Code, administrative rulings and judicial decisions. Changes in the laws may alter the tax treatment of ordinary shares and ADSs, possibly with retroactive effect.

This summary is general in nature. This is not intended to constitute a complete analysis of all of the U.S. tax consequences relating to the acquisition, ownership and disposition of Amarin securities. **U.S. Holders are urged to consult their own tax advisors regarding the PFIC tax rules and the related elections that may be available to such holders to determine the U.S. federal income tax consequences of acquiring, owning and disposing of Amarin securities. Amarin does not provide tax, legal or accounting advice to its shareholders.**
