The positive trend in crop, beef cattle and milk prices continues.

Operating results from the agribusiness segments amounted to a profit of Ps. 65 million compared to a loss of Ps. 5 million in the first semester of the previous fiscal year.

This season's planted area will increase by 20% to 184,000 hectares, including 100% of planted areas by Brasilagro.

Cresud increased its holding in Brasilagro to 35.75%, thus augmenting its exposure to a regional portfolio of farms with high potential for development.

Cresud's agribusiness activities in the international sphere have shown improved results due to the good performance of summer crops in Bolivia.

Cresud distributed dividends for Ps. 69 million, which were paid in the month of January.
