Notes to Consolidated Financial Statements

(Unaudited)

1. BASIS OF PRESENTATION

References to Brinker, the Company, we, us, and our in this Form 10-Q are references to Brinker International, Inc. and its subsidiaries and predecessor companies of Brinker International, Inc.

Our consolidated financial statements as of March 30, 2011 and June 30, 2010 and for the thirteen week and thirty-nine week periods ended March 30, 2011 and March 24, 2010 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). We are principally engaged in the ownership, operation, development, and franchising of the Chili's Grill & Bar (Chili's) and Maggiano's Little Italy (Maggiano's) restaurant brands. At March 30, 2011, we owned, operated, or franchised 1,571 restaurants in the United States and 30 countries and two territories outside of the United States.

We sold On The Border Mexican Grill & Cantina (On The Border) to OTB Acquisition LLC (OTB Acquisition), an affiliate of San Francisco-based Golden Gate Capital, in June 2010. On The Border has been presented as discontinued operations in the consolidated financial statements for fiscal 2010. See Note 3 for additional disclosure.

At the beginning of fiscal 2011, we began reporting certain labor expenses in a separate caption on the consolidated statements of income titled restaurant labor. Restaurant labor includes all compensation-related expenses, including benefits and incentive compensation, for restaurant team members at the general manager level and below. Labor-related expenses attributable to supervision above the individual restaurant level continue to be included in restaurant expenses. These reclassifications have no effect on our net income or financial position as previously reported.

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and costs and expenses during the reporting period. Actual results could differ from those estimates.

The information furnished herein reflects all adjustments (consisting only of normal recurring accruals and adjustments) which are, in our opinion, necessary to fairly state the interim operating results for the respective periods. However, these operating results are not necessarily indicative of the results expected for the full fiscal year. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to SEC rules and regulations. The notes to the consolidated financial statements (unaudited) should be read in conjunction with the notes to the consolidated financial statements contained in the June 30, 2010 Form 10-K. We believe the disclosures are sufficient for interim financial reporting purposes.

Table of Contents**2. EARNINGS PER SHARE**

Basic earnings per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding for the reporting period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the calculation of diluted earnings per share, the basic weighted average number of shares is increased by the dilutive effect of stock options and restricted share awards determined using the treasury stock method. We had approximately 1.7 million stock options and restricted share awards outstanding at March 30, 2011 and 7.3 million stock options and restricted share awards outstanding at March 24, 2010 that were not included in the dilutive earnings per share calculation because the effect would have been anti-dilutive.

3. SALE OF ON THE BORDER AND DISCONTINUED OPERATIONS

In March 2010, we entered into an agreement with OTB Acquisition for the sale of On The Border for gross proceeds of \$180 million. We recorded a gain upon completion of the sale in June 2010. As part of the sale, we entered into an agreement with OTB Acquisition whereby we provide corporate support services for the new entity through the end of fiscal 2011. The income generated offsets the internal cost of providing the services.

On The Border has been presented as discontinued operations in the consolidated financial statements in fiscal 2010. Discontinued operations include only the revenues and expenses which can be specifically identified with On The Border and exclude any allocation of corporate costs, including general and administrative expenses. The results of On The Border consist of the following (in thousands):

	Thirteen Week Period Ended March 24, 2010	Thirty-Nine Week Period Ended March 24, 2010
Revenues	\$ 80,142	\$ 238,018
Income before income taxes from discontinued operations	6,369	19,249
Income tax expense	1,879	5,784
Net income from discontinued operations	\$ 4,490	\$ 13,465

Table of Contents**4. FAIR VALUE MEASUREMENTS*****(a) Non-Financial Assets Measured on a Non-Recurring Basis***

Included in other gains and charges in the consolidated statement of income for fiscal 2011 is a \$1.1 million charge related to the impairment of long-lived assets held for use associated with two underperforming restaurants that had a carrying value of \$1.4 million. We determined fair value based on projected discounted future operating cash flows of the restaurants over their remaining service life using a discount rate that is commensurate with the risk inherent in our current business model, which reflects our own judgment. Our non-financial assets measured at fair value on a non-recurring basis were as follows (in thousands):

	Fair Value Measurements Using			Total
	Quoted prices in active market for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	
Long-lived assets held for use	\$	\$	\$ 0.3	\$ 0.3

(b) Other Financial Instruments

Our financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and long-term debt. The fair value of cash and cash equivalents, accounts receivable and accounts payable approximates their carrying amounts while the fair value of the 5.75% notes is based on quoted market prices. At March 30, 2011, the 5.75% notes had a carrying value of \$289.5 million and a fair value of \$305.4 million. At June 30, 2010, the 5.75% notes had a carrying value of \$289.4 million and a fair value of \$302.6 million.

Table of Contents**5. OTHER GAINS AND CHARGES**

Other gains and charges consist of the following (in thousands):

	Thirteen Week Periods Ended		Thirty-Nine Week Periods Ended	
	March 30, 2011	March 24, 2010	March 30, 2011	March 24, 2010
Restaurant impairment charges	\$ 0	\$ 0	\$ 1,125	\$ 15,174
Restaurant closure charges	160	4,831	2,698	13,269
Severance and other benefits	990	75	4,643	1,813
Gains on the sale of assets, net	(529)	0	(1,705)	(3,545)
Other gains and charges, net	1,803	(556)	1,557	(1,412)
	\$ 2,424	\$ 4,350	\$ 8,318	\$ 25,299

We recorded impairment charges of \$1.1 million and \$15.2 million in fiscal 2011 and 2010, respectively. The impairment charges, which were associated with underperforming restaurants that continue to operate, were measured as the excess of the carrying amount of property and equipment over the fair value. See Note 4 for fair value disclosures related to the fiscal 2011 charges.

During the first three quarters of fiscal 2011, we recorded \$2.7 million in charges, including \$1.8 million in lease termination charges associated with restaurants closed in prior years. We also incurred \$4.6 million in severance and other benefits resulting organizational changes, \$1.7 million in net gains on the sale of property and a \$1.5 million charge related to litigation.

During the first three quarters of fiscal 2010, we recorded \$13.3 million in charges, including \$5.4 million of long-lived asset impairments, resulting from the decision to close nine company-owned restaurants and \$6.4 million in lease termination charges associated with restaurants closed in prior years. We also incurred \$1.8 million in severance and other benefits resulting from organizational changes.

In fiscal 2010, we recorded \$3.5 million in net gains on the sale of assets, including a \$2.8 million gain from the sale of 21 restaurants to a franchisee.

6. SHAREHOLDERS EQUITY

Our Board of Directors has authorized a total of \$2,635.0 million of share repurchases. Pursuant to our stock repurchase plan, we repurchased approximately 18.0 million shares of our common stock for \$357.0 million during the first three quarters of fiscal 2011. As of March 30, 2011, approximately \$258 million was available under our share repurchase authorizations. Our stock repurchase plan has been and will be used to return capital to shareholders and to minimize the dilutive impact of stock options and other share-based awards. In the future, we may consider additional share repurchases under our plan based on several factors, including our cash position, share price, operational liquidity, proceeds from divestitures and planned investment and financing needs. Repurchased common stock is reflected as a reduction of shareholders' equity.

During the first three quarters of fiscal 2011, we paid dividends of \$41.0 million to common stock shareholders, compared to \$34.4 million in the prior year. Our Board of Directors approved a 27 percent increase in the quarterly dividend from \$0.11 to \$0.14 per share effective with the July dividend payment which was declared in March 2010. Additionally, we declared a quarterly dividend of \$12.2 million in February 2011 which was paid on March 31, 2011.

Table of Contents**7. SUPPLEMENTAL CASH FLOW INFORMATION**

Cash paid for income taxes and interest for the first three quarters of fiscal 2011 and 2010 are as follows (in thousands):

	March 30, 2011	March 24, 2010
Income taxes, net of refunds	\$ 29,002	\$ 5,190
Interest, net of amounts capitalized	15,248	13,647

Non-cash investing activities for the first three quarters of fiscal 2011 and 2010 are as follows (in thousands):

	March 30, 2011	March 24, 2010
Retirement of fully depreciated assets	\$ 50,856	\$ 37,659

8. CONTINGENCIES

In connection with the sale of restaurants to franchisees and brand divestitures, we have, in certain cases, guaranteed lease payments. As of March 30, 2011 and June 30, 2010, we have outstanding lease guarantees or are secondarily liable for \$175.5 million and \$208.0 million, respectively. This amount represents the maximum potential liability of future payments under the guarantees. These leases have been assigned to the buyers and expire at the end of the respective lease terms, which range from fiscal 2011 through fiscal 2023. In the event of default, the indemnity and default clauses in our assignment agreements govern our ability to pursue and recover damages incurred. No material liabilities have been recorded as of March 30, 2011. In the third quarter of fiscal 2011, we were released from secondary obligations of approximately \$11.4 million pursuant to the terms of certain On The Border leases.

Certain current and former hourly restaurant team members filed a lawsuit against us in California Superior Court alleging violations of California labor laws with respect to meal and rest breaks. The lawsuit seeks penalties and attorney's fees and was certified as a class action in July 2006. In July 2008, the California Court of Appeal decertified the class action on all claims with prejudice. In October 2008, the California Supreme Court granted a writ to review the decision of the Court of Appeal. We intend to vigorously defend our position. It is not possible at this time to reasonably estimate the possible loss or range of loss, if any.

We are engaged in various other legal proceedings and have certain unresolved claims pending. Reserves have been established based on our best estimates of our potential liability in certain of these matters. Based upon consultation with legal counsel, Management is of the opinion that there are no matters pending or threatened which are expected to have a material adverse effect, individually or in the aggregate, on our consolidated financial condition or results of operations.

GENERAL

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help the reader understand Brinker International, our operations, and our current operating environment. For an understanding of the significant factors that influenced our performance during the quarters ended March 30, 2011 and March 24, 2010, the MD&A should be read in conjunction with the consolidated financial statements and related notes included in this quarterly report.

OVERVIEW

We are principally engaged in the ownership, operation, development, and franchising of the Chili's Grill & Bar (Chili's) and Maggiano's Little Italy (Maggiano's) restaurant brands. At March 30, 2011, we owned, operated, or franchised 1,571 restaurants. We sold On The Border Mexican Grill & Cantina (On The Border) to OTB Acquisition LLC (OTB Acquisition), an affiliate of San Francisco-based Golden Gate Capital, in June 2010. On The Border has been presented as discontinued operations in the consolidated financial statements in fiscal 2010.

We are committed to strategies and initiatives that are centered on long-term sales and profit growth, enhancing the guest experience and team member engagement. These strategies are intended to differentiate our brands from the competition, reduce the costs associated with managing our restaurants and establish a strong presence for our brands in key markets around the world. We will continue to take actions that will allow us to maintain a strong balance sheet and increase our ability to provide results in all operating environments.

Economic conditions have been turbulent over the last year and have provided a challenging operating environment for Brinker and the casual dining industry this quarter. Key economic factors such as total employment, consumer confidence and spending levels have been improving recently; however, economic recovery remains slow. In addition, recent gas price increases and the potential for near term commodity price increases may negatively impact the industry. We anticipate that market conditions will continue to affect our business and consumers will remain cautious as the economy slowly rebounds. Historically, the industry has not experienced a high correlation of fuel prices and sales; however, fuel prices at a certain level may negatively impact consumer behavior regarding casual dining occasions. We will continue to evaluate our business and implement initiatives designed to mitigate risk, improve short-term sales and profitability and provide opportunities for long-term growth.

We are focused on strengthening our business with multidimensional strategies that are designed to drive profitable sales growth and improve the guest experience in our restaurants. We have implemented a team service model at Chili's which has resulted in labor efficiencies and better guest feedback. Additional labor savings were achieved through new food preparation procedures, a component of our kitchen retrofit initiative which was implemented at an accelerated pace in the second quarter. We are implementing new restaurant information systems which we anticipate will increase profits through increased kitchen efficiency and better inventory control. We are also retrofitting our kitchens with better technology and equipment to provide a more consistent, high quality product at a faster pace, while generating substantial labor cost savings. In addition to executing these operational strategies, we have repurchased shares of our common stock in order to return value to our shareholders. It is critical to improve margins and maximize profitability in the current business environment; however, maintaining or improving our market share is a significant priority.

Table of Contents

We plan to leverage our improved business model and elevated guest experience by implementing multiple initiatives that will further enhance guest traffic and sales. We continually evaluate our menu at Chili's to improve quality, freshness and value by introducing new items and improving existing favorites. Our new lunch menu items are focused on value and pace to drive our lunch daypart sales. Additionally, we have introduced new items and promotions to enhance our dinner and happy hour business. We will continue to utilize promotional activities as a tool to drive incremental sales; however, this is only one aspect of our overall sales strategy. We are committed to offering a compelling everyday menu that provides items our guests prefer at a solid value. We intend to remodel a significant number of company-owned restaurants beginning in fiscal 2011, revitalizing Chili's in a way which modernizes the brand and raises guest expectations regarding the quality of the experience. Improvements at Chili's will make the most significant impact on the business; however, our results will also benefit through additional contributions from Maggiano's and our global business. Maggiano's sales trends and traffic continue to improve, driven by new menu items and direct marketing. We believe our unique food and signature drinks, improved service and updated atmosphere will result in stronger brands and sustainable sales and profit growth through increased guest loyalty and traffic.

Global expansion allows further diversification which is intended to enable us to build strength in a variety of markets and economic conditions. This expansion will come through joint venture arrangements, equity investments and franchise relationships, taking advantage of demographic and eating trends that will accelerate in the international market over the next decade. Our growing percentage of franchise operations both domestically and internationally enable us to improve margins as royalty payments impact the bottom line.

The casual dining industry is a competitive business which is sensitive to changes in economic conditions, trends in lifestyles and fluctuating costs. Our priority remains increasing profitable growth over time in all operating environments. We have designed both operational and financial strategies to achieve this goal and in our opinion, improve shareholder value. Success with our initiatives to improve sales trends and operational effectiveness will enhance the profitability of our restaurants and strengthen our competitive position. The effective execution of our financial strategies, including repurchasing shares of our common stock, disciplined use of capital and efficient management of operating expenses will further enhance our profitability and return value to our shareholders. We remain confident in the financial health of our company, the long-term prospects of the industry as well as our ability to perform effectively in a competitive marketplace and a variety of economic environments.

Table of Contents**REVENUES**

Revenues for the third quarter of fiscal 2011 increased to \$717.1 million, a 0.5% increase from the \$713.4 million generated for the same quarter of fiscal 2010. Revenues for the thirty-nine week period ended March 30, 2011 were \$2,043.9 million, a 3.4% decrease from the \$2,115.4 million generated for the same period in fiscal 2010. The changes in revenue were primarily attributable to the change in comparable restaurant sales as well as net changes in capacity at company-owned restaurants as follows:

- (1) Franchise sales are not included in revenues on the consolidated statements of income; however, we generate royalty revenue and advertising fees based on franchise sales, where applicable. We believe including franchise comparable restaurant sales provides investors information regarding brand performance that is relevant to current operations and may impact future restaurant development.
- (2) System-wide comparable restaurant sales are derived from sales generated by company-owned Chili s and Maggiano s restaurants in addition to the sales generated at franchisee restaurants.
- (3) Capacity (as measured by average-weighted sales weeks) for the third quarter and year-to-date periods of fiscal 2010 were impacted by the sale of Macaroni Grill in December 2008 and the closure of company-owned international restaurants which were included in fiscal 2009 average-weighted sales weeks.

Chili s revenues decreased to \$608.4 million, a 0.7% decrease for the third quarter of fiscal 2011 from \$612.6 million in the same quarter of fiscal 2010 primarily due to small decreases in guest check averages and capacity, partially offset by a slight increase in traffic. For the year-to-date period, Chili s revenues decreased to \$1,714.5 million, a 5.2% decrease from \$1,808.1 million in fiscal 2010. The decrease was primarily driven by a decrease in comparable restaurant sales of 3.3% resulting from a decline in guest traffic, partially offset by favorable product mix shift and menu pricing. Revenues were also impacted by a decrease in capacity of 2.5% for the year-to-date period of fiscal 2011 (as measured by average-weighted sales weeks) compared to the respective prior year period, primarily due to the sale of 21 restaurants to a franchisee in December 2009 and three restaurant closures since the third quarter of fiscal 2010.

Table of Contents

Maggiano's revenue increased to \$91.6 million, an 8.7% increase for the third quarter of fiscal 2011 from \$84.3 million in the same quarter of fiscal 2010 primarily driven by a 3.4% increase in comparable restaurant sales and changes to the banquet billing and compensation structure. For the year-to-date period, Maggiano's revenue increased to \$281.2 million, an 8.4% increase from \$259.5 million in fiscal 2010 primarily driven by a 3.3% increase in comparable restaurant sales and changes to the banquet billing and compensation structure. The increases in comparable restaurant sales resulted from increases in guest traffic and menu prices, partially offset by unfavorable product mix shifts. Revenues were also slightly impacted by an increase in capacity of 0.7% and 0.2% for the third quarter and year-to-date periods of fiscal 2011 (as measured by average-weighted sales weeks) compared to the respective prior year periods. The increase in capacity was primarily due to one restaurant opening in the third quarter of fiscal 2010.

Royalty and franchise revenues increased 3.6% to \$17.1 million in the third quarter of fiscal 2011 compared to \$16.5 million in the prior year. For the year-to-date period, royalty and franchise revenues increased slightly to \$48.2 million compared to \$47.9 million in fiscal 2010. The increase is primarily due to the net addition of seven domestic and 20 international franchised restaurants since March 24, 2010. Royalty revenues are recognized based on the sales generated by our franchisees and reported to us. Our franchisees generated approximately \$401.2 million in sales for the third quarter of fiscal 2011, an increase of 1.8% over prior year. For the year-to-date period, our franchisees generated approximately \$1,147.3 million in sales, an increase of 2.2% over prior year.

COSTS AND EXPENSES

Cost of sales, as a percent of revenues, decreased to 27.2% and 26.9% for the third quarter and year-to-date period of fiscal 2011 from 28.5% and 28.9% for the respective prior year periods. Cost of sales was positively impacted in the third quarter and year-to-date periods primarily due to changes made to value offerings at Chili's. While third quarter commodity pricing remained flat, year-to-date commodity pricing decreased in chicken, ribs and oils.

Restaurant labor, as a percent of revenues, decreased to 31.8% for the third quarter of fiscal 2011 from 32.4% in the prior year and to 32.2% for the year-to-date period from 32.6% in the prior year. The decrease was primarily driven by lower labor expenses resulting from the team service and food preparation initiatives at Chili's, partially offset by higher restaurant manager incentive compensation. Restaurant labor includes all compensation-related expenses, including benefits and incentive compensation, for restaurant team members at the general manager level and below.

Restaurant expenses, as a percent of revenues, increased to 22.7% for the third quarter of fiscal 2011 from 22.4% in the prior year primarily due to increased advertising expense, partially offset by lower utilities expense and a decrease in insurance expenses due to favorable claims experience. Restaurant expenses, as a percent of revenues, increased to 24.0% for the year-to-date period from 23.4% in the prior year. The increase was primarily driven by the receipt of a \$3.3 million credit card class action lawsuit settlement in fiscal 2010 and current year changes to Maggiano's banquet billing and compensation structure.

Depreciation and amortization decreased \$1.4 million for the third quarter of fiscal 2011 and \$6.1 million for the year-to-date period of fiscal 2011 compared to the same periods of the prior year primarily driven by an increase in fully depreciated assets and restaurant closures. These decreases were partially offset by an increase in depreciation due to asset replacements and investments in existing restaurants.

Table of Contents

General and administrative expenses increased \$3.5 million, or 11.0%, for the third quarter of fiscal 2011 compared to the same period of fiscal 2010. The increase was primarily due to higher professional fees and performance based compensation. General and administrative expenses decreased \$2.5 million, or 2.5%, for the year-to-date period of fiscal 2011 as compared to the same period of fiscal 2010. The decrease was primarily due to reduced salary and stock-based compensation expenses resulting from lower headcount driven by organizational changes, partially offset by increased performance based compensation and consulting expenses.

Other gains and charges for the third quarter of fiscal 2011 included charges of \$1.5 million related to litigation and \$1.0 million of severance and other benefits resulting from organizational changes. Other gains and charges for the year-to-date period of fiscal 2011 included charges of \$4.6 million in severance and other benefits, \$2.7 million in lease termination and other charges related to previously closed restaurants, \$1.7 million in net gains on the sale of property, \$1.5 million related to litigation and \$1.1 million related to the impairment of long-lived assets held for use associated with underperforming restaurants.

Other gains and charges for the third quarter of fiscal 2010 included \$4.0 million in lease termination charges associated with restaurants closed in prior periods. Other gains and charges for the year-to-date period of fiscal 2010 included charges of \$15.2 million related to the impairment of long-lived assets held for use associated with 15 underperforming restaurants, \$5.4 million primarily related to long-lived asset impairments resulting from the decision to close nine company-owned restaurants, \$6.4 million in lease termination charges associated with restaurants closed in prior years and \$1.8 million of severance and other benefits. These charges were partially offset by net gains of \$3.5 million primarily related to the sale of 21 restaurants to a franchisee and land sales.

Interest expense increased to \$7.2 million for the third quarter of fiscal 2011 and \$21.4 million for the year-to-date period of fiscal 2011 compared to \$6.5 million for the third quarter and \$20.3 million for the year-to-date period of the prior year due to higher average interest rates, partially offset by the impact of a lower average borrowing base.

INCOME TAXES

The effective income tax rate increased to 27.5% for the third quarter of fiscal 2011 compared to 19.7% for the third quarter of the prior year primarily due to the resolution of certain tax positions resulting in a positive impact in the prior year. Excluding the impact of special items and resolved tax positions, the effective income tax rate from continuing operations decreased to 27.1% for the third quarter of fiscal 2011 compared to 27.5% for the prior year period primarily driven by tax credits from workforce programs.

The effective income tax rate increased to 22.5% for the year-to-date period of fiscal 2011 compared to 19.7% for the same period of the prior year primarily due to an increase in earnings, partially offset by the resolution of certain tax positions resulting in a positive impact in the prior year greater than the current year. Excluding the impact of special items and resolved tax positions, the effective income tax rate from continuing operations increased to 27.4% for the year-to-date period of fiscal 2011 compared to 27.1% the same period of prior year primarily due to an increase in earnings.

Table of Contents***LIQUIDITY AND CAPITAL RESOURCES****Cash Flows**Cash Flow from Operating Activities – Continuing Operations*

During the first three quarters of fiscal 2011, net cash flow provided by operating activities of continuing operations was \$188.2 million compared to \$222.6 million in the prior year. The decrease was driven by significant changes in working capital during the fiscal year. The settlement of liabilities associated with the On The Border brand and cash paid for taxes in the current year negatively impacted operating cash flow in comparison to the prior year. Cash paid for taxes in the prior year was positively impacted by the recognition of losses related to the Macaroni Grill divestiture and changes in the treatment of certain expenses.

Working capital decreased to a deficit of \$151.2 million at March 30, 2011 from a surplus of \$51.2 million at June 30, 2010 primarily due to purchases of treasury stock and quarterly dividend payments in the first nine months of fiscal 2011, partially offset by the timing of income tax and operational payments.

Investments in equity method investees	(1,921)	
Decrease in restricted cash		29,749
	\$ (42,117)	\$ 17,715

Net cash used in investing activities of continuing operations for the first nine months of fiscal 2011 increased to approximately \$42.1 million compared to \$17.7 million provided by investing activities in the prior year. Capital expenditures increased to \$48.9 million for the first nine months of fiscal 2011 compared to \$31.6 million for the same period of fiscal 2010 driven primarily by increases in asset replacements. Capital spending also includes investments in information technology infrastructure and ongoing remodel investments. We estimate that our capital expenditures during fiscal 2011 will be approximately \$80 million and will be funded entirely by cash from operations.

During the first nine months of fiscal 2010, we sold 21 Chili's restaurants to a franchisee for \$19.0 million. We also dissolved our wholly-owned captive insurance company which allowed us to access \$29.7 million of cash that was previously pledged as collateral and classified as restricted.

Table of ContentsCash Flow from Financing Activities – Continuing Operations

	Thirty-Nine Week Periods Ended	
	March 30, 2011	March 24, 2010
Net cash used in financing activities (in thousands):		
Purchases of treasury stock	\$ (358,983)	\$ (2,852)
Payments of dividends	(40,996)	(34,426)
Proceeds from issuances of treasury stock	26,851	1,111
Payments on long-term debt	(10,846)	(140,792)
Other	243	131
	\$ (383,731)	\$ (176,828)

Net cash used in financing activities of continuing operations for the first nine months of fiscal 2011 increased to approximately \$383.7 million compared to \$176.8 million in the prior year primarily due to higher purchases of treasury stock and dividend payments, partially offset by lower debt payments in the current year.

Pursuant to our stock repurchase plan, we repurchased approximately 4.5 million shares of our common stock for \$107.1 million during the third quarter of fiscal 2011 and a total of 18.0 million shares for approximately \$357.0 million year-to-date. The share repurchases were funded using proceeds from the On The Border divestiture in June 2010 as well as cash flow from operations.

We paid dividends of \$41.0 million to common stock shareholders in the first nine months of fiscal 2011 compared to \$34.4 million in dividends paid in same period of fiscal 2010. Our Board of Directors approved a 27 percent increase in the quarterly dividend from \$0.11 to \$0.14 per share effective with the first quarter 2011 payment. Additionally, we declared a quarterly dividend in February 2011 which was paid on March 31, 2011. We will continue to target a 40 percent dividend payout ratio to provide additional return to shareholders. We received \$26.9 million of proceeds from issuances of treasury stock related to stock option exercises in the first nine months of fiscal 2011.

During the third quarter, we paid our required quarterly installment of \$5.0 million on our five-year term loan agreement bringing the outstanding balance to \$190.0 million as of March 30, 2011. The term loan bears interest at LIBOR plus an applicable margin, which is a function of our credit rating at such time, but is subject to a maximum of LIBOR plus 3.25%, and expires in June 2015. Based on our current credit rating, we are paying interest at a rate of LIBOR plus 2.75% (3.00% as of March 30, 2011).

As of March 30, 2011, we have an undrawn \$200 million revolving credit facility, which expires in June 2015. The revolving credit facility bears interest at LIBOR plus an applicable margin, which is a function of our credit rating at such time, but is subject to a maximum of LIBOR plus 3.25%. Based on our current credit rating, the revolving credit facility carries an interest rate of LIBOR plus 2.75% (3.00% as of March 30, 2011). We are in compliance with all financial debt covenants.

Standard and Poor's (S&P) had reaffirmed our debt rating of BBB- (investment grade) with a stable outlook in fiscal 2010. In December 2010, Moody's reaffirmed our corporate family rating of Ba1 (non-investment grade) and our senior unsecured note rating of Ba2 (non-investment grade) with a stable outlook. Our balance sheet is a primary focus as we have committed to reducing our leverage allowing us to retain the investment grade rating from S&P and ultimately regain our investment grade rating from Moody's.

Table of Contents

In November 2010, our Board of Directors authorized a \$325 million increase to our existing share repurchase program, bringing the total \$2,635.0 million. As of March 30, 2011, approximately \$258 million was available under our share repurchase authorizations. Our stock repurchase plan has been and will be used to return capital to shareholders and to minimize the dilutive impact of stock options and other share-based awards. Subsequent to the end of the quarter, we repurchased approximately 1.1 million shares for \$26.0 million. We intend to repurchase additional shares within our authorization with excess free cash flow over time as business results permit. Repurchased common stock is reflected as a reduction of shareholders' equity.

We have evaluated ways to monetize the value of our owned real estate and determined that the alternatives considered are more costly than other financing options currently available due to a combination of the income tax impact and higher effective borrowing rates.

Cash Flow Outlook

We believe that our various sources of capital, including future cash flow from operating activities of continuing operations and availability under our existing credit facility are adequate to finance operations as well as the repayment of current debt obligations. We are not aware of any other event or trend that would potentially affect our liquidity. In the event such a trend develops, we believe that there are sufficient funds available under our credit facility and from our internal cash generating capabilities to adequately manage our ongoing business.

RECENT ACCOUNTING PRONOUNCEMENTS

We reviewed all significant newly issued accounting pronouncements and concluded that they either are not applicable to our operations or that no material effect is expected on our financial statements as a result of future adoption.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes in our quantitative and qualitative market risks since the prior reporting period.

Item 4. CONTROLS AND PROCEDURES

Based on their evaluation of our disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 under the Securities Exchange Act of 1934 [the Exchange Act]), as of the end of the period covered by this report, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures are effective.

There were no changes in our internal control over financial reporting during our third quarter ended March 30, 2011, that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

FORWARD-LOOKING STATEMENTS

We wish to caution you that our business and operations are subject to a number of risks and uncertainties. We have identified certain factors in Part I, Item 1A "Risk Factors" in our Annual Report on Form 10-K for the year ended June 30, 2010 and below in Part II, Item 1A "Risk Factors" in this report on Form 10-Q, that could cause actual results to differ materially from our historical results and from those projected in forward-looking statements contained in this report, in our other filings with the SEC, in our news releases, written or electronic communications, and verbal statements by our representatives. We further caution that it is not possible to see all such factors, and you should not consider the identified factors as a complete list of all risks and uncertainties.

Table of Contents

You should be aware that forward-looking statements involve risks and uncertainties. These risks and uncertainties may cause our or our industry's actual results, performance or achievements to be materially different from any future results, performances or achievements contained in or implied by these forward-looking statements. Forward-looking statements are generally accompanied by words like believes, anticipates, estimates, predicts, expects, and other similar expressions that convey uncertainty about future events or outcomes.

The risks related to our business include:

The effect of competition on our operations and financial results.

The impact of the global economic crisis on our business and financial results in fiscal 2011 and the material affect of a prolonged recession on our future results.

The impact of the current economic crisis on our landlords or other tenants in retail centers in which we or our franchisees are located, which in turn could negatively affect our financial results.

The risk inflation may increase our operating expenses.

The effect of potential changes in governmental regulation on our ability to maintain our existing and future operations and to open new restaurants.

Increases in energy costs and the impact on our profitability.

Increased costs or reduced revenues from shortages or interruptions in the availability and delivery of food and other supplies.

Our ability to consummate successful mergers, acquisitions, divestitures and other strategic transactions that are important to our future growth and profitability.

The inability to meet our business strategy plan and the impact on our profitability in the future.

The importance of the success of our franchisees to our future growth.

The general decrease in sales volumes during winter months.

Unfavorable publicity relating to one or more of our restaurants in a particular brand tainting public perception of the brand.

Dependence on information technology and any material failure of that technology impairing our ability to efficiently operate our business.

Edgar Filing: BRINKER INTERNATIONAL INC - Form 10-Q

Outsourcing of certain business processes to third-party vendors that subject us to risk, including disruptions in business and increased costs.

The impact of disruptions in the financial markets on the availability and cost of credit and consumer spending patterns.

Failure to protect the integrity and security of individually identifiable data of our guests and teammates possibly exposing us to litigation and damage our reputation.

Identification of material weakness in internal control may adversely affect our financial results.

Other risk factors may adversely affect our financial performance, including, pricing, consumer spending and consumer confidence, changes in economic conditions and financial and credit markets, credit availability, increased costs of food commodities, increased fuel costs and availability for our team members, customers and suppliers, health epidemics or pandemics or the prospects of these events, consumer perceptions of food safety, changes in consumer tastes and behaviors, governmental monetary policies, changes in demographic trends, availability of employees, terrorist acts, energy shortages and rolling blackouts, and weather and other acts of God.

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

Information regarding legal proceedings is incorporated by reference from Note 8 to our consolidated financial statements set forth in Part I of this report.

Item 1A. RISK FACTORS

There has been no material change in the risk factors set forth in Part I, Item 1A, Risk Factors in our Annual Report on Form 10-K for the year ended June 30, 2010.

The above risks and other risks described in this report and our other filings with the SEC could have a material impact on our business, financial condition or results of operations. It is not possible to predict or identify all risk factors. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also impair our operations. Therefore, the risks identified are not intended to be a complete discussion of all potential risks or uncertainties.
