Prospectus dated September 30, 2010

## Structured Investments

**US\$1,000,000**

**Nomura America Finance, LLC**

**Senior Global Medium-Term Notes, Series A**

**Fully and Unconditionally Guaranteed by Nomura Holdings, Inc.**

**Callable Step-Up Notes due June 29, 2026**

Nomura America Finance, LLC is offering the callable step-up notes due June 29, 2026 (the notes ) described below. The notes are unsecured securities, and all payments on the notes are subject to our credit risk and that of the guarantor of the notes, Nomura Holdings, Inc. The notes feature an increasing, or stepped up, interest rate over time unless we redeem them before any such increase.

**We have the right to redeem the notes, in whole or in part, for 100% of the principal amount plus any accrued and unpaid interest on each semi-annual interest payment date, upon five business days prior notice, beginning on June 29, 2012.**

**Issuer:** Nomura America Finance, LLC ( we or us )

**Guarantor:** Nomura Holdings, Inc. ( Nomura )

**Principal Amount:** US\$1,000,000

**Interest Rate:** 5.250% from and including the original issue date to but excluding June 29, 2021;

6.000% from and including June 29, 2021, to but excluding June 29, 2024; and

9.000% from and including June 29, 2024, to but excluding the maturity date

**Interest Payment** Semi-annually, on June 29 and December 29 of each year, commencing December 29, 2011 and ending on the maturity date, subject to the business day convention, as described under Business Day Convention below

**Dates:**

Edgar Filing: NOMURA HOLDINGS INC - Form 424B2

**Trade Date:** June 24, 2011

**Original Issue Date:** June 29, 2011

**Stated Maturity Date:** June 29, 2026, subject to our early redemption right and the business day convention, each as described below

**Business Day Convention:** Following unadjusted, as described under *Description of Debt Securities and Guarantee Business Day Conventions* in the accompanying prospectus

**Day Count Convention:** 30/360, as described under *Description of Debt Securities and Guarantee Common Day Count Conventions* in the accompanying prospectus

PS-1

The fifth business day preceding the applicable interest payment date

**Regular Record Date:**

**Denominations:** \$1,000 and integral multiples thereof

**Early Redemption:** The notes are redeemable at our option on each optional redemption date set forth below, provided that if any such optional redemption date is not a business day, the optional redemption date shall be the following business day. If we exercise our early redemption option, the redemption price payable on the relevant optional redemption date is 100% of the principal amount plus accrued and unpaid interest to such optional redemption date

**Optional Redemption Dates:** Semi-annually on June 29 and December 29 of each year, commencing June 29, 2012, and ending on the maturity date

**Redemption Notice Period:** If we exercise our early redemption option, we will give to the holder notice of our exercise not less than 5 nor more than 45 business days before the applicable optional redemption date

**Business Day Convention:** Following unadjusted, as described under *Description of Debt Securities and Guarantee Business Day Conventions* in the accompanying prospectus

**Program:** Senior Global Medium-Term Notes, Series A

**CUSIP No.:** 65539AAV2

**ISIN No.:** US65539AAV26

**Currency:** U.S. dollars

**Calculation Agent:** Nomura Securities International, Inc.

**Paying Agent and Transfer Agent:** Deutsche Bank Trust Company Americas

**Clearance and** DTC (including through its indirect participants Euroclear and Clearstream, Luxembourg as described under *Legal Ownership and Book-Entry Issuance* in the accompanying prospectus)

**Settlement:**

**Minimum Initial** \$1,000

**Investment Amount:**

**Public Offering Price:** Variable price reoffer

**Listing:** The notes will not be listed on any securities exchange

**Distribution Agent:** Nomura Securities International, Inc.

**Description and Terms** All of the terms appearing on this cover page beginning with **Issuer** and ending with and including **Clearance and Settlement**

**of the Notes to be**

**Incorporated Into the**

**Master Note:**

*Investing in the notes involves certain risks. You should carefully consider the risk factors beginning on page PS-4 of this pricing supplement, under **Risk Factors** in the accompanying prospectus and incorporated by reference into the accompanying prospectus before you invest in the notes.*

We expect delivery of the notes will be made against payment therefor on or about the original issue date specified above.

The notes will be our unsecured obligations. We are not a bank, and the notes will not constitute deposits insured by the U.S. Federal Deposit Insurance Corporation or any other governmental agency or instrumentality.

PS-2

Nomura Securities International, Inc. has agreed to purchase the notes from us at 96.50% of the principal amount, resulting in aggregate proceeds to us of \$965,000. The agent's commission is equal to 3.50%, or \$35,000 in the aggregate. Nomura Securities International, Inc. proposes to offer the notes from time to time for sale in negotiated transactions, or otherwise, at varying prices to be determined at the time of each sale. Nomura Securities International, Inc. may also use all or a portion of its commissions on the notes to pay selling concessions or fees to other dealers. No agent or dealer participating in the initial offering of the notes to the public may sell the notes in such offering at a price less than 96.50% or more than 100.00% of the principal amount, resulting in an aggregate price to the public of between \$965,000 and \$1,000,000. We, in our sole discretion, may decide to sell an additional amount of the notes on a date subsequent to the trade date but prior to the original issue date.

The price at which you purchase the notes includes the agent's commission, as set forth above, and includes the costs and profits that we (or one of our affiliates) expect to incur in the hedging of our market risk under the notes. See *Plan of Distribution* in the accompanying prospectus and *Additional Risk Factors Specific to Your Notes The Inclusion in the Purchase Price of the Notes of a Selling Concession and of Our Cost of Hedging Our Market Risk Under the Notes Is Likely to Adversely Affect the Value of the Notes Prior to the Maturity Date* below.

To the extent the distribution agent resells notes to a broker or dealer less a concession equal to the entire underwriting discount, such broker or dealer may be deemed to be an underwriter of the notes as such term is defined in the Securities Act of 1933, as amended.

We may use this pricing supplement in the initial sale of the notes. In addition, Nomura Securities International, Inc. or another of our affiliates may use this pricing supplement in market-making transactions in the notes after their initial sale. ***Unless we inform or our agent informs the purchaser otherwise in the confirmation of sale, this pricing supplement is being used in a market-making transaction.***

Nomura Securities International, Inc. is our affiliate and, as such, has a conflict of interest in this offering within the meaning of FINRA Rule 5121. Nomura Securities International, Inc. is not permitted to sell notes in this offering to any account over which it exercises discretionary authority without the prior specific written approval of the account holder.

Nomura Securities International, Inc. and/or its affiliates have performed, and in the future may provide, investment banking and advisory services for us from time to time for which they have received, and expect to receive, customary fees and commissions. Nomura Securities International, Inc. and its affiliates may, from time to time, engage in transactions with, and perform services for, us in the ordinary course of business.

**Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these securities or passed upon the accuracy or adequacy of this pricing supplement. Any representation to the contrary is a criminal offense.**

**Nomura**

## ADDITIONAL RISK FACTORS SPECIFIC TO YOUR NOTES

*An investment in your notes is subject to the risks described below, as well as the risks described under "Risk Factors" in the accompanying prospectus, dated September 30, 2010. You should carefully consider whether the notes are suited to your particular circumstances. Your notes are not secured debt.*

*Please note that in this section entitled "Additional Risk Factors Specific to Your Notes," references to "holders" mean those who own notes registered in their own names, on the books that we, Nomura or the trustee maintain for this purpose, and not those who own beneficial interests in notes registered in street name or in notes issued in book-entry form through The Depository Trust Company ( "DTC" ) or another depository. Owners of beneficial interests in the notes should read the section entitled "Legal Ownership and Book-Entry Issuance" in the accompanying prospectus.*

*This pricing supplement should be read together with the accompanying prospectus, dated September 30, 2010. The information in the accompanying prospectus is supplemented by, and to the extent inconsistent therewith replaced and superseded by, the information in this pricing supplement. We urge you to read all of the following information about some of the risks associated with the notes, together with the other information in this pricing supplement and the accompanying prospectus before investing in the notes.*

### **You Are Subject to Nomura's Credit Risk, and the Value of Your Notes May Be Adversely Affected by Negative Changes in the Market's Perception of Nomura's Creditworthiness**

By purchasing the notes, you are making, in part, a decision about Nomura's ability to pay you the amounts you are owed pursuant to the terms of your notes. Substantially all of our assets consist of loans to and other receivables from Nomura and its subsidiaries. Our obligations under your notes are also guaranteed by Nomura. Therefore, as a practical matter, our ability to pay you amounts we owe on the notes is directly or indirectly linked solely to Nomura's creditworthiness. In addition, the market's perception of Nomura's creditworthiness generally will directly impact the value of your notes. If Nomura becomes or is perceived as becoming less creditworthy following your purchase of notes, you should expect that they will decline in value in the secondary market, perhaps substantially. If you sell your notes in the secondary market in such an environment, you may incur a substantial loss.

### **Because Nomura Is a Holding Company, Your Right to Receive Payments on Nomura's Guarantee of the Notes Is Subordinated to the Liabilities of Nomura's Other Subsidiaries**

The ability of Nomura to make payments, as guarantor, on the notes, depends upon Nomura's receipt of dividends, loan payments and other funds from subsidiaries. In addition, if any of Nomura's subsidiaries becomes insolvent, the direct creditors of that subsidiary will have a prior claim on its assets, and Nomura's rights and the rights of Nomura's creditors, including your rights as an owner of the notes, will be subordinate to that prior claim.

Nomura's subsidiaries are subject to various laws and regulations that may restrict Nomura's ability to receive dividends, loan payments and other funds from its subsidiaries. In Japan, Nomura Securities Co., Ltd., as a securities company, is required to maintain an adjusted capital ratio at specified levels. In the United States, Nomura Securities International, Inc. is subject to certain minimum net capital requirements and capital adequacy requirements. In the United Kingdom, Nomura International plc is regulated by the U.K. Financial Services Authority and is subject to the capital requirements of that authority. In addition, certain of Nomura's other subsidiaries are subject to securities and banking regulations and capital adequacy requirements promulgated by the regulatory and exchange authorities of the countries in which those subsidiaries operate. As a result, Nomura's ability to receive funds from those subsidiaries may be limited, and Nomura's ability to pay on its guarantee of the notes may also be limited.

PS-4

**The Price at Which You Purchase Your Notes May Be Higher than the Price Paid by Other Investors**

The agent proposes to offer the notes from time to time for sale at market prices prevailing at the time of sale, at prices related to then-prevailing prices or at negotiated prices. Accordingly, there is a risk that the price you pay for the notes will be higher than the prices paid by other investors depending on the date and time you make your purchase, from whom you purchase the notes, any related transaction cost (such as any brokerage commission), whether you hold your notes in a brokerage account, a fiduciary or fee-based account or another type of account, and other factors beyond our control.

**The Inclusion in the Purchase Price of the Notes of a Selling Concession and of Our Cost of Hedging Our Market Risk Under the Notes Is Likely to Adversely Affect the Value of the Notes Prior to the Maturity Date**

The price at which you purchase the notes includes a selling concession (including a broker's commission), as well as the costs that we (or one of our affiliates) expect to incur in the hedging of our market risk under the notes. Such hedging costs include the expected cost of undertaking this hedge, as well as the profit that we (or our affiliates) expect to realize in consideration for assuming the risks inherent in providing the hedge. As a result, assuming no change in market conditions or any other relevant factors, the price, if any, at which you may be able to sell your notes prior to maturity will likely be less than your original purchase price.

**The Notes Are Subject to Early Redemption at Our Option**

Prospective purchasers should be aware that we have the right to redeem the notes on any optional redemption date, beginning on the first optional redemption date. It is more likely that we will redeem the notes prior to their stated maturity date to the extent that the interest payable on the notes is greater than the interest that would be payable on other instruments of comparable maturity, terms and credit rating trading in the market. If the notes are redeemed prior to their stated maturity date, you may have to re-invest the proceeds in a lower interest rate environment and may not receive the total amount of interest that you would have received if the notes had not been redeemed prior to maturity.

**There May Not Be an Active Trading Market for the Notes Sales in the Secondary Market May Result in Significant Losses**

The notes will not be listed on any securities exchange, and there may be little or no secondary market for the notes. Nomura Securities International, Inc. and other affiliates of ours currently intend to make a market for the notes, but they are not required to do so. Nomura Securities International, Inc. or any other affiliate of ours may stop any such market-making activities at any time. Even if a secondary market for the notes develops, it may not provide significant liquidity or trade at prices advantageous to you. We expect that transaction costs in any secondary market would be high. As a result, the difference between bid and ask prices for your notes in any secondary market could be substantial.

Furthermore, if you sell your notes, you will likely be charged a commission for secondary market transactions, or the price will likely reflect a dealer discount.

If you sell your notes before the maturity date, you may have to do so at a substantial discount from the issue price and as a result you may suffer substantial losses.

**The Market Value of Your Notes May Be Influenced by Many Unpredictable Factors**

In addition to our and Nomura's creditworthiness, a number of other economic and market factors will influence the value of the notes. The following factors, which are beyond our control, may influence the market value of your notes:

supply and demand for the notes, including inventory positions with Nomura Securities International, Inc. or any other market-maker;

the time to maturity of the notes;

interest and yield rates in the market generally and expectations about future interest and yield rates; and

economic, financial, political, regulatory or judicial events that affect the debt markets generally.

These factors may influence the market value of your notes if you sell your notes before maturity. If you sell your notes prior to maturity, you may receive less than the principal amount of your notes.

**Non-U.S. Investors May Be Subject to Certain Additional Risks**

The notes will be denominated in U.S. dollars. If you are a non-U.S. investor who purchases the notes with a currency other than U.S. dollars, changes in rates of exchange may have an adverse effect on the value or price of, or income on, your investment.

The accompanying prospectus contains a general description of certain U.S. tax considerations relating to the notes under *United States Taxation*. If you are a non-U.S. investor, you should consult your tax advisors as to the consequences, under the tax laws of the country where you are resident for tax purposes, of acquiring, holding and disposing of the notes and receiving payments of principal or other amounts under the notes.

**Certain Considerations for Insurance Companies and Employee Benefit Plans**

Any insurance company or fiduciary of a pension plan or other employee benefit plan that is subject to the prohibited transaction rules of the Employee Retirement Income Security Act of 1974, as amended, which we call ERISA, or the Internal Revenue Code of 1986, as amended, including an IRA or a Keogh plan (or a governmental plan to which similar prohibitions apply), and that is considering purchasing the notes with the assets of the insurance company or the assets of such a plan, should consult with its counsel regarding whether the purchase or holding of the notes could become a prohibited transaction under ERISA, the Internal Revenue Code or any substantially similar prohibition in light of the representations a purchaser or holder in any of the above categories is deemed to make by purchasing and holding the notes. This is discussed in more detail under *Employee Retirement Income Security Act* below.

**ADDITIONAL INFORMATION**

You should read this pricing supplement together with the prospectus dated September 30, 2010 relating to our Senior Global Medium-Term Notes, Series A, of which these notes are a part. In the event of any conflict, this pricing supplement will control.

This pricing supplement, together with the documents listed below, contains the terms of the notes and supersedes all prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, brochures or other educational materials you may have received from us. You should carefully consider, among other things, the matters set forth under *Risk Factors* in the accompanying prospectus dated September 30, 2010. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the notes. You may access the prospectus on the SEC website at [www.sec.gov](http://www.sec.gov) as follows:

Our central index key, or CIK, on the SEC website is 0001383951.

The information in this pricing supplement supplements the information contained in the accompanying prospectus. **To the extent the information in this pricing supplement conflicts with the accompanying prospectus, the information in this pricing supplement controls.**

PS-7

---

**SUPPLEMENTAL DISCUSSION OF U.S. FEDERAL INCOME TAX CONSEQUENCES**

You should carefully consider, among other things, the matters set forth under **United States Taxation** in the accompanying prospectus. The following discussion summarizes for U.S. holders (as defined in the accompanying prospectus) certain U.S. federal income tax consequences of the purchase, beneficial ownership, and disposition of the notes. This summary supplements the section **United States Taxation** in the accompanying prospectus and is subject to the limitations and exceptions set forth therein.

You should consult your own tax advisor concerning the U.S. federal income tax consequences to you of acquiring, owning, and disposing of the notes, as well as any tax consequences arising under the laws of any state, local, foreign, or other tax jurisdiction and the possible effects of changes in U.S. federal or other tax laws.

Nomura America Finance, LLC believes that the original issue price of each note is \$1,000 and the disclosure herein assumes that this position will be respected for U.S. federal income tax purposes.

For the purpose of determining the amount of original issue discount ( **OID** ) on the notes, notwithstanding the fact that the interest rate on the notes is scheduled to step-up over the term of the notes, the stated redemption price at maturity should not take into account the interest rate step-ups, because Treasury regulations generally deem an issuer to exercise a call option in a manner that minimizes the yield on the debt instrument for purposes of determining whether a debt instrument is issued with **OID**. We have determined that the yield on the notes would be minimized if we call the notes immediately before the increase in the interest rate on June 29, 2021, and therefore the notes should be treated for **OID** purposes as fixed-rate notes that will mature prior to the step up in interest rate for the notes. This assumption is made solely for U.S. federal income tax purposes of determining whether the note is issued with **OID** and is not an indication of our intention to call or not to call the notes at any time. Accordingly, the notes should not be considered as issued with **OID** for the initial interest rate period.

If we do not call the notes prior to the step up in the interest rate on June 29, 2021 then, solely for **OID** purposes, the notes will be deemed to mature and be reissued at their adjusted issue price on June 29, 2021. This deemed issuance should not give rise to taxable gain or loss to holders. The analysis set forth in the prior paragraph should also apply to the step up in interest rate on June 29, 2024 and thus any notes deemed reissued at such time should have a maturity date for **OID** purposes of June 29, 2024. Accordingly, the notes should not be considered issued with **OID** for the interest rate period beginning on June 29, 2021.

If we do not call the notes prior to the step up in the interest rate on June 29, 2024 then, solely for **OID** purposes, the notes will be deemed to mature and be reissued at their adjusted issue price on June 29, 2024. This deemed issuance should not give rise to taxable gain or loss to holders and the notes deemed reissued at such time should not be considered as issued with **OID**.

Under this approach, the coupon on a note will be taxable to a U.S. holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. holder's normal method of accounting for tax purposes (regardless of whether we call the notes).

Upon the disposition of a note by sale, exchange, redemption or retirement (i.e., if we exercise our right to call the notes or otherwise) or other disposition, a U.S. holder will generally recognize taxable gain or loss equal to the difference, if any, between (i) the amount realized on the disposition (other than amounts attributable to accrued but unpaid interest, which would be treated as such) and (ii) the U.S. holder's adjusted tax basis in the note. A U.S. holder's adjusted tax basis in a note generally will equal the cost of the note (net of accrued interest) to the U.S. holder. Capital gain of individual taxpayers from the sale, exchange, redemption, retirement or other disposition of a note held for more than one year may be eligible for reduced rates of taxation. The deductibility of a capital loss realized on the sale, exchange, redemption, retirement or other disposition of a note is subject to significant limitations.

Depending on the purchase price of your notes, you may be subject to the rules governing market discount, acquisition premium, or amortizable bond premium described in greater detail in the accompanying prospectus under *United States Taxation United States Holders Market Discount*, *United States Taxation United States Holders Original Issue Discount Acquisition Premium*, and *United States Taxation United States Holders Debt Securities Purchased at a Premium*. The rules regarding market discount and the purchase of debt securities at a premium are complex and therefore individuals are urged to consult their tax advisors regarding these rules.

PS-9

---

**EMPLOYEE RETIREMENT INCOME SECURITY ACT**

*This section is only relevant to you if you are an insurance company or the fiduciary of a pension plan or an employee benefit plan (including a governmental plan, an IRA or a Keogh Plan) proposing to invest in the notes.*

The U.S. Employee Retirement Income Security Act of 1974, as amended ( ERISA ) and the U.S. Internal Revenue Code of 1986, as amended (the Code ), prohibit certain transactions ( prohibited transactions ) involving the assets of an employee benefit plan that is subject to the fiduciary responsibility provisions of ERISA or Section 4975 of the Code (including individual retirement accounts, Keogh plans and other plans described in Section 4975(e)(1) of the Code) (a Plan ) and certain persons who are parties in interest (within the meaning of ERISA) or disqualified persons (within the meaning of the Code) with respect to the Plan; governmental plans may be subject to similar prohibitions unless an exemption applies to the transaction. The assets of a Plan may include assets held in the general account of an insurance company that are deemed plan assets under ERISA or assets of certain investment vehicles in which the Plan invests. Each of Nomura and certain of its affiliates may be considered a party in interest or a disqualified person with respect to many Plans, and, accordingly, prohibited transactions may arise if the notes are acquired by or on behalf of a Plan unless those notes are acquired and held pursuant to an available exemption. In general, available exemptions are: transactions effected on behalf of that Plan by a qualified professional asset manager (prohibited transaction exemption 84-14) or an in-house asset manager (prohibited transaction exemption 96-23), transactions involving insurance company general accounts (prohibited transaction exemption 95-60), transactions involving insurance company pooled separate accounts (prohibited transaction exemption 90-1), transactions involving bank collective investment funds (prohibited transaction exemption 91-38) and transactions with service providers under Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code where the Plan receives no less and pays no more than adequate consideration (within the meaning of Section 408(b)(17) of ERISA and Section 4975(f)(10) of the Code). The person making the decision on behalf of a Plan or a governmental plan shall be deemed, on behalf of itself and the plan, by purchasing and holding the notes, or exercising any rights related thereto, to represent that (a) the plan will receive no less and pay no more than adequate consideration (within the meaning of Section 408(b)(17) of ERISA and Section 4975(f)(10) of the Code) in connection with the purchase and holding of the notes, (b) none of the purchase, holding or disposition of the notes or the exercise of any rights related to the notes will result in a nonexempt prohibited transaction under ERISA or the Code (or, with respect to a governmental plan, under any similar applicable law or regulation), and (c) neither Nomura nor any of its affiliates is a fiduciary (within the meaning of Section 3(21) of ERISA) or, with respect to a governmental plan, under any similar applicable law or regulation) with respect to the purchaser or holder in connection with such person's acquisition, disposition or holding of the notes, or as a result of any exercise by Nomura or any of its affiliates of any rights in connection with the notes, and no advice provided by Nomura or any of its affiliates has formed a primary basis for any investment decision by or on behalf of such purchaser or holder in connection with the notes and the transactions contemplated with respect to the notes.

*If you are an insurance company or the fiduciary of a pension plan or an employee benefit plan (including a governmental plan, an IRA or a Keogh plan), and propose to invest in the notes, you should consult your legal counsel.*

**SUPPLEMENTAL PLAN OF DISTRIBUTION**

We have agreed to sell to Nomura Securities International, Inc. (the agent), and the agent has agreed to purchase from us, the aggregate principal amount of the notes specified on the front cover of this pricing supplement. The agent has agreed to purchase the notes from us at 96.50% of the principal amount, resulting in aggregate proceeds to us of \$965,000. The agent's commission is equal to 3.50%, or \$35,000 in the aggregate. The agent proposes to offer the notes from time to time for sale in negotiated transactions, or otherwise, at varying prices to be determined at the time of each sale. The agent may also use all or a portion of its commissions on the notes to pay selling concessions or fees to other dealers. No agent or dealer participating in the initial offering of the notes to the public may sell the notes in such offering at a price less than 96.50% or more than 100.00% of the principal amount, resulting in an aggregate price to the public of between \$965,000 and \$1,000,000. We estimate that our share of the total offering expenses, excluding underwriting discounts and commissions, will be approximately \$22,500.

To the extent the agent resells notes to a broker or dealer less a concession equal to the entire underwriting discount, such broker or dealer may be deemed to be an underwriter of the notes as such term is defined in the Securities Act of 1933, as amended.

In the future, the agent may repurchase and resell the notes in market-making transactions. For more information about the plan of distribution, the distribution agreement (of which the terms agreement forms a part) and possible market-making activities, see *Plan of Distribution* in the accompanying prospectus.

The agent is our affiliate and, as such, has a conflict of interest in this offering within the meaning of FINRA Rule 5121. The agent is not permitted to sell notes in this offering to any account over which it exercises discretionary authority without the prior specific written approval of the account holder.

The agent and/or its affiliates have performed, and in the future may provide, investment banking and advisory services for us from time to time for which they have received, and expect to receive, customary fees and commissions. The agent and its affiliates may, from time to time, engage in transactions with, and perform services for, us in the ordinary course of business.

We expect delivery of the notes will be made against payment therefor on or about the original issue date specified on the cover page of this pricing supplement.
