# Chairman's

## Letter to Shareholders

### Dear Shareholders,

The global economy continues to be weighed down by an unusual combination of pressures facing the larger developed economies. Japanese leaders continue to work through the economic aftereffects of the March 2011 earthquake and tsunami. Political leaders in Europe and the U.S. have resolved some of the near term fiscal problems, but the financial markets are not convinced that these leaders are able to address more complex longer term fiscal issues. Despite improved earnings and capital increases, the largest banks in these countries continue to be vulnerable to deteriorating mortgage portfolios and sovereign credit exposure, adding another source of uncertainty to the global financial system.

In the U.S., recent economic statistics indicate that the economic recovery may be losing momentum. Consumption, which represents about 70% of the gross domestic product, faces an array of challenges from seemingly intractable declines in housing values, increased energy costs and limited growth in the job market. The failure of Congress and the administration to agree on the debt ceiling increase on a timely basis and the deep divisions between the political parties over fashioning a balanced program to address growing fiscal imbalances that led to the recent S&P ratings downgrade add considerable uncertainty to the domestic economic picture.

On a more positive note, corporate earnings continue to hold up well and the municipal bond market is recovering from recent weakness as states and municipalities implement various programs to reduce their budgetary deficits. In addition, the Federal Reserve System has made it clear that it stands ready to take additional steps should the economic recovery falter. However, there are concerns that the Fed is approaching the limits of its resources to intervene in the economy.

These perplexing times highlight the importance of professional investment management. Your Nuveen investment team is working hard to develop an appropriate response to increased risk, and they continue to seek out opportunities created by stressful markets using proven investment disciplines designed to help your Fund achieve its investment objectives. On your behalf, we monitor their activities to assure that they maintain their investment disciplines.

As always, I encourage you to contact your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

Robert P. Bremner

Chairman of the Board

August 23, 2011

Certain statements in this report are forward-looking statements. Discussions of specific investments are for illustration only and are not intended as recommendations of individual investments. The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

### NASDAQ Premium Income & Growth Fund, Inc. (QQQX)

### Dow 30<sup>SM</sup> Premium & Dividend Income Fund, Inc. (DPD)

### Dow 30<sup>SM</sup> Enhanced Premium & Income Fund, Inc. (DPO)

*The Funds are managed by Keith Hembre, CFA, Managing Director of Nuveen HydePark Group, LLC, and Nuveen Asset Management, LLC, David Friar, Portfolio Manager of HydePark and Nuveen Asset Management, LLC, and James Colon, CFA, Portfolio Manager and Senior Quantitative Analyst of Hyde Park and Nuveen Asset Management, LLC. Here the team talks about their management strategies and the performance of the Funds for the six-months ended June 30, 2011.*

#### **Over this period, what key strategies were used to manage the Funds?**

The NASDAQ Premium Income & Growth Fund (QQQX) pursues a two-part investment strategy; an equity strategy and an option overlay strategy. The core equity strategy is to invest in an optimized portfolio of equities designed to track the price movement of the NASDAQ-100 Stock Index, a market cap weighted index.

The option overlay is designed to provide incremental cash flow and serves as a risk management strategy by lowering the overall beta of the Fund. Index call options are written on approximately 30-50% of the Fund's net asset value.

The Dow 30<sup>SM</sup> Premium & Dividend Income Fund (DPD) pursues a two-part investment strategy, an equity strategy and an option overlay strategy. The core equity strategy is to invest in a portfolio of equities designed to track the price movement of the Dow Jones Industrial Average (DJIA). As the Dow Jones Industrial Average is a price weighted index, this is accomplished by holding an equal number of shares in each index constituent.

The option overlay is designed to provide incremental cash flow and serves as a risk management strategy by lowering the overall beta of the Fund. Call options are written on all the stocks held in the portfolio, generally on a pro-rata basis, between 40%-60% of the notional equity exposure.

Similar to DPD, the Dow 30<sup>SM</sup> Enhanced Premium & Dividend Income Fund (DPO) pursues a two-part investment strategy, an equity strategy and an option overlay strategy. The core equity strategy is to invest in a portfolio of equities designed to track the price movement of the Dow Jones Industrial Average. Total exposure to the equity strategy is augmented by the purchase of other securities or financial instruments, primarily swap contracts, designed to provide additional investment exposure (i.e. leverage) to the return of the DJIA stocks.

The option overlay is designed to provide incremental cash flow and serves as a risk management strategy by lowering the overall beta of the Fund. Call options are written on all

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the individual Performance Overview for your Fund in this report.

\* Six-month returns are cumulative; all other returns are annualized.

\*\* The since inception for QQQX and its comparative index are from 1/30/07, for DPD and its comparative index are from 4/29/05, and for DPO and its comparative index are from 5/30/07.

1. The NASDAQ-100 Index includes 100 of the largest domestic and international nonfinancial securities listed on The Nasdaq Stock Market based on market capitalization. Returns do not include the effects of any sales charges or management fees. It is not possible to invest directly in this index.

2. The Dow Jones Industrial Average tracks the performance of 30 large cap companies. Returns do not include the effects of any sales charges or management fees. It is not possible to invest directly in this average.

the stocks held in the portfolio, generally on a pro-rata basis. The overlay percentage is typically between 40%-60% of the total notional exposure of each of the underlying stocks within the portfolio.

### How did the Funds perform over this period?

The performance of the Funds, as well as comparative indexes, is presented in the accompanying table.

### Average Annual Total Returns on Net Asset Value\*

For periods ended 6/30/11

|   | 6-Month | 1-Year | 5-Year | Since Inception** |
|---|---------|--------|--------|-------------------|
| QQQX                                      | 3.88%   | 26.68% | N/A    | 4.96%             |
| Nasdaq 100 Index <sup>1</sup>             | 4.83%   | 33.69% | N/A    | 6.30%             |
| DPD                                       | 7.10%   | 26.29% | 5.39%  | 6.03%             |
| Dow Jones Industrial Average <sup>2</sup> | 8.59%   | 30.37% | 4.96%  | 6.20%             |
| DPO                                       | 9.08%   | 34.23% | N/A    | 1.08%             |
| Dow Jones Industrial Average <sup>2</sup> | 8.59%   | 30.37% | N/A    | 0.68%             |

For the six-month period ended June 30, 2011, DPO outperformed its comparative benchmark, while QQQX and DPD underperformed their benchmarks.

QQQX seeks to dampen the beta of the overall portfolio by selling call options on a percentage of the Fund's net asset value. This strategy provides incremental cash flow to the Fund, but also allows the Fund to participate fully in any equity market rally for those portions of the Fund's assets that are not subject to the call overwrite, typically between 50-70% of the Fund's assets. Those portions of the Fund subject to the overwrite have upside potential capped at the amount of premium received for the option. The downside is buffered by the amount of the cash flow premium received. In flat or declining markets, the option premium can enhance total returns relative to the benchmark. In rising markets, the options can hurt the Funds total return relative to the benchmark. The reporting period was marked by rising markets. As a result, the Fund underperformed for the period.

The equity portfolio of DPD is constructed to substantially replicate the securities in the Dow Jones Industrial Average, its performance is expected to be very similar to this measure.

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

As described previously, the Fund seeks to dampen the beta of the overall portfolio by selling call options on a pro-rata percentage of each name held in the portfolio. The options sold provide incremental cash flow in exchange for giving up the potential upside of each stock above the options strike. The downside is buffered by the amount of the cash flow premium received. In flat or declining markets, the option premium can enhance total returns relative to the benchmark. In rising markets, the options can hurt the Fund's total return relative to the benchmark. During first half of 2011, despite the generally rising market, the option overlay strategy added incrementally to the Fund's total return. However, the Fund's underperformance for the period was attributable to the disparity between the percentage holding of each stock in the Fund versus the DJIA index itself.

DPO seeks to dampen the beta of the overall portfolio by selling call options on a pro-rata percentage of each name held in the portfolio. The options sold provide incremental cash

flow in exchange for giving up the potential upside of each stock above the options strike. The downside is buffered by the amount of the cash flow premium received. In flat or declining markets, the option premium can enhance total returns relative to the benchmark. In rising markets, the options can hurt the Funds total return relative to the benchmark. During the first half of 2011, despite the generally rising market, the option overlay strategy positively contributed to the Fund's outperformance versus the DJIA for the reporting period.

The Fund also invested in swaps that receive the total return of the Dow Jones Industrial Average while paying a floating rate of interest; adding leverage and equity exposure to the Fund.

## **RISK CONSIDERATIONS**

Fund shares are not guaranteed or endorsed by any bank or other insured depository institution, and are not federally insured by the Federal Deposit Insurance Corporation. Past performance is no guarantee of future results. Fund common shares are subject to a

variety of risks, including:

**Investment Risk.** The possible loss of the entire principal amount that you invest.

**Price Risk.** Shares of closed-end investment companies like the Funds frequently trade at a discount to their net asset value (NAV). Your common shares at any point in time may be worth less than your original investment, even after taking into account the reinvestment of Fund dividends and distributions.

**Tax Risk.** The tax treatment of Fund distributions may be affected by new IRS interpretations of the Internal Revenue Code and future changes in tax laws and regulations. This is particularly true for funds employing a managed distribution program.

**Common Stock Risk.** Common stock returns often have experienced significant volatility.

**Call Option Risk.** The value of call options sold (written) by the Funds will fluctuate. The Funds may not participate in any appreciation of their equity portfolios as fully as they would if the Funds did not sell call options. In addition, the Funds will continue to bear the risk of declines in the value of the equity portfolios.

**Derivatives Strategy Risk.** Derivative securities, such as calls, puts, warrants, swaps and forwards, carry risks different from, and possibly greater than, the risks associated with the underlying investments.

**Index Call Option Risk.** Because index options are settled in cash, sellers of index call options, such as the Funds, cannot provide in advance for their potential settlement obligations by acquiring and holding the underlying securities.

## Distribution and Share Price Information

The following information regarding your Fund's distributions is current as of June 30, 2011, and likely will vary over time based on the Fund's investment activities and portfolio investment value changes.

During the six-month reporting period, QQQX did not make any changes to its quarterly distribution to shareholders. Effective January 1, 2011, DPD and DPO began paying distributions to shareholders quarterly, with their first quarterly distributions payable to shareholders during April 2011. DPD and DPO did not make any changes to their subsequent quarterly distributions to shareholders. Some of the important factors affecting the amount and composition of these distributions are summarized below.

Each Fund has a managed distribution program. The goal of this program is to provide shareholders with relatively consistent and predictable cash flow by systematically converting the Fund's expected long-term return potential into regular distributions. As a result, regular distributions throughout the year are likely to include a portion of expected long-term gains (both realized and unrealized), along with net investment income.

Important points to understand about the managed distribution program are:

Each Fund seeks to establish a relatively stable distribution rate that roughly corresponds to the projected total return from its investment strategy over an extended period of time. However, you should not draw any conclusions about a Fund's past or future investment performance from its current distribution rate.

Actual returns will differ from projected long-term returns (and therefore a Fund's distribution rate), at least over shorter time periods. Over a specific timeframe, the difference between actual returns and total distributions will be reflected in an increasing (returns exceed distributions) or a decreasing (distributions exceed returns) Fund net asset value.

Each distribution is expected to be paid from some or all of the following sources:

net investment income (regular interest and dividends),

realized capital gains, and

unrealized gains, or, in certain cases, a return of principal (non-taxable distributions).

A non-taxable distribution is a payment of a portion of a Fund's capital. When a Fund's returns exceed distributions, it may represent portfolio gains generated, but not realized as a taxable capital gain. In periods when a Fund's return falls short of distributions, the shortfall will represent a portion of your original principal, unless the shortfall is offset during other time periods over the life of your investment (previous or subsequent) when a Fund's total return exceeds distributions.

Because distribution source estimates are updated during the year based on a Fund's performance and forecast for its current fiscal year (which is the calendar year for each Fund), estimates on the nature of your distributions provided at the time distributions are

Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

paid may differ from both the tax information reported to you in your Fund's IRS Form 1099 statement provided at year end, as well as the ultimate economic sources of distributions over the life of your investment.

The following table provides estimated information regarding each Fund's distributions and total return performance for the six months ended June 30, 2011. This information is provided on a tax basis rather than a generally accepted accounting principles (GAAP) basis. This information is intended to help you better understand whether the Fund's returns for the specified time period were sufficient to meet each Fund's distributions.

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this Fund's Performance Overview page.

<sup>1</sup> Current Distribution Rate is based on the Fund's current annualized quarterly distribution divided by the Fund's current market price. The Fund's quarterly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a return of capital for tax purposes.

**Portfolio Allocation (as a % of total investments)<sup>2,3</sup>****2010-2011 Distributions Per Share<sup>4</sup>****Share Price Performance** Weekly Closing Price

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this Fund's Performance Overview page.

<sup>1</sup> Current Distribution Rate is based on the Fund's current annualized quarterly distribution divided by the Fund's current market price. The Fund's quarterly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Fund's cumulative net

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

ordinary income and net realized gains are less than the amount of the Fund's distributions, a return of capital for tax purposes.

**2** Holdings are subject to change.

**3** Excluding investments in derivatives.

**4** Effective January 1, 2011, the Fund began paying distributions to shareholders quarterly, with its first distribution of \$.3090 per share payable April 1, 2011.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

(1) All percentages shown in the Portfolio of Investments are based on net assets.

(2) Investment, or portion of investment, has been pledged as collateral for call options written during and as of the end of the reporting period.

(3) Other Assets Less Liabilities includes Value of derivative instruments as listed in Investments in Derivatives.

(4) For disclosure purposes, Notional Amount is calculated by multiplying the Number of Contracts by the Strike Price by 100.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Non-income producing; issuer has not declared a dividend within the past twelve months.
- (3) Investment, or portion of investment, has been pledged as collateral for call options written during and as of the end of the reporting period.
- (4) Other Assets Less Liabilities includes Value and/or the Net Unrealized Appreciation (Depreciation) of derivative instruments as listed in Investments in Derivatives.
- (5) For disclosure purposes, Notional Amount is calculated by multiplying the Number of Contracts by the Strike Price by 100.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications into sectors for reporting ease.

- (1) All percentages shown in the Portfolio of Investments are based on net assets.
- (2) Non-income producing; issuer has not declared a dividend within the past twelve months.
- (3) Investment, or portion of investment, has been pledged as collateral for call options written during and as of the end of the reporting period.
- (4) Other Assets Less Liabilities includes Value and/or the Net Unrealized Appreciation (Depreciation) of derivative instruments as listed in Investments in Derivatives.
- (5) For disclosure purposes, Notional Amount is calculated by multiplying the Number of Contracts by the Strike Price by 100.

| 4.95                     | 16.67  | 302,657                 | 1.06     | 1.43                         | 0                       |
| 50.23                    | 26.48  | 285,171                 | 1.08     | 2.11                         | 6                       |
| (35.09)                  | (34.33)                                      | 268,628                 | 1.03     | 1.83                         | 12                      |
| (15.38)                  | (1.58)                                       | 475,312                 | 1.03*    | 1.38*                        | 8                       |

(a) Per share Net Investment Income (Loss) is calculated using the average daily shares method.

(b) For the fiscal years ended subsequent to December 31, 2009, Total Return Based on Market Value is the combination of changes in the market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

For the fiscal years ended subsequent to December 31, 2009, Total Return Based on Net Asset Value is the combination of changes in net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

For the fiscal years ended December 31, 2009, and prior, the Fund's Total Returns Based on Market Value and Net Asset Value reflect the performance of the Fund based on a calculation approved by Fund management of IQ Advisors, the Fund's adviser prior to the close of business on October 6, 2010. Total returns based on the calculations described above may have produced substantially different results. Total returns are not annualized.

(c) Ratios do not reflect the effect of custodian fee credits earned on the Fund's net cash deposit with the custodian bank, where applicable.

(d) For the period January 30, 2007 (commencement of operations) through December 31, 2007.

(e) For the period May 30, 2007 (commencement of operations) through December 31, 2007.

(f) For the six months ended June 30, 2011.

\* Annualized.

\*\* Rounds to less than \$.01 per share.

\*\*\* Represents distributions paid From and in excess of net investment income for the six months ended June 30, 2011.

See accompanying notes to financial statements.

## 1. General Information and Significant Accounting Policies

### General Information

The funds covered in this report and their corresponding New York Stock Exchange ( NYSE ) symbols are NASDAQ Premium Income & Growth Fund Inc. (QQQX), Dow 30<sup>SM</sup> Premium & Dividend Income Fund Inc. (DPD) and Dow 30<sup>SM</sup> Enhanced Premium & Income Fund Inc. (DPO) (each a Fund and collectively, the Funds ). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end registered investment companies.

Effective January 1, 2011, the Funds' adviser, Nuveen Asset Management, a wholly owned subsidiary of Nuveen Investments, Inc. ( Nuveen ), changed its name to Nuveen Fund Advisors, Inc. (the Adviser ).

After the close of business on October 6, 2010, for Dow 30<sup>SM</sup> Premium & Dividend Income (DPD) and Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO), and after the close of business on October 28, 2010, for NASDAQ Premium Income & Growth (QQQX), the Adviser assumed the role of investment adviser for the Funds from IQ Investment Advisers LLC ( IQ Advisors ) following a vote by shareholders of each Fund. The transition from IQ Advisors to the Adviser did not result in any change to the Funds' investment objectives or principal investment strategies.

NASDAQ Premium Income & Growth's (QQQX) investment objective is high current income and capital appreciation. The Fund pursues its investment objective principally through a two-part strategy. First, the Fund will invest, under normal circumstances, substantially all of its net assets in a portfolio of investments (the NASDAQ Investment Portfolio ) designed to closely track the performance, before fees and expenses, of the NASDAQ 100 Index. Second, in attempting to generate premium income and reduce the volatility of the Fund's returns, with the intent of improving the Fund's risk-adjusted returns, the Fund will write (sell) call options on the Index, which are fully collateralized by the NASDAQ Investment Portfolio. Under normal circumstances, the notional value of the written options is not expected to exceed 50% of the Fund's net assets.

Dow 30<sup>SM</sup> Premium & Dividend Income's (DPD) investment objective is to provide a high level of current income, with a secondary objective of capital appreciation. The Fund pursues its investment objective principally through a two-part strategy. First, the Fund will invest, under normal circumstances, substantially all of its net assets (including the proceeds of any borrowings for investment purposes) in the thirty stocks included in the Dow Jones Industrial Average<sup>SM</sup> ( DJIA ) (the Stocks ) in approximately the amounts such Stocks are weighted in the DJIA and/or in other securities or financial instruments that are intended to correlate with the DJIA (the Other Instruments ). Second, the Fund will write (sell) covered call options on some or all of the Stocks or Other Instruments.

Dow 30<sup>SM</sup> Enhanced Premium & Income's (DPO) investment objective is to provide a high level of premium and dividend income and the potential for capital appreciation. Under normal circumstances, the Fund will purchase all of the thirty common stocks included in the DJIA, weighted in approximately the same proportions as in the DJIA ( Dow Stocks ). The Fund will also purchase other securities or financial instruments, primarily swap contracts, designed to provide additional investment exposure (i.e., leverage) to the return of the Dow Stocks ( Additional Dow Exposure ). The Dow Stocks and the Additional Dow Exposure are collectively referred to as Total Dow Exposure. The Fund also will engage in certain option strategies, primarily consisting of writing (selling) covered call options on some or all of the Dow Stocks ( Options ). The Options will be written on approximately 50% (or less) of the Total Dow Exposure at the time they are written. As a result, generally 50% (or more) of the Fund's Total Dow Exposure will have the potential for full capital appreciation. The portion of the Total Dow Exposure subject to the Options will be limited in the amount of capital appreciation that may be obtained.

### Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States ( U.S. GAAP ).

#### *Investment Valuation*

Common stocks and other equity-type securities are valued at the last sales price on the securities exchange on which such securities are primarily traded and are generally classified as Level 1 for fair value measurement purposes. Securities primarily traded on the NASDAQ National Market ( NASDAQ ) are valued, except as indicated below, at the NASDAQ Official Closing Price and are generally classified as Level 1. However, securities traded on a securities exchange or NASDAQ for which there were no transactions on a given day or securities not listed on a securities exchange or NASDAQ are valued at the quoted bid price. Prices of certain American Depositary Receipts ( ADR ) held by the Fund that trade in the United States are valued based on the last traded price, official closing price, or the most recent bid price of the underlying non-U.S.-traded stock, adjusted as appropriate for the underlying-to-ADR conversion ratio and foreign exchange rate, and from time-to-time foreign currencies may also be adjusted further to take into account material events that may take place after the close of the local non-U.S. market but before the close of the NYSE. These securities generally represent a transfer from a Level 1 to a Level 2 security.

32 Nuveen Investments

Prices of fixed-income securities and total return swaps are provided by a pricing service approved by the Fund's Board of Directors. These securities are generally classified as Level 2. When price quotes are not readily available for fixed-income securities and total return swaps the pricing service establishes a security's fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity, provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

The values of exchange-traded options are based on the mean of the closing bid and ask prices. Exchange-traded options are generally classified as Level 1. Options traded in the over-the-counter market are valued using an evaluated mean price and are generally classified as Level 2.

Euro dollar time deposits are valued at contract amount plus interest, which approximates market value. These securities are generally classified as Level 1.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds' Board of Directors or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund's net asset value (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of an issue of securities would appear to be the amount that the owner might reasonably expect to receive for them in a current sale. A variety of factors may be considered in determining the fair value of such these securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Funds' Board of Directors or its designee.

Refer to Footnote 2 – Fair Value Measurements for further details on the leveling of securities held by the Funds as of the end of the reporting period.

### *Investment Transactions*

Investment transactions are recorded on a trade date basis. Realized gains and losses from investment transactions are determined on the specific identification method, which is the same basis for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At June 30, 2011, the Funds had no outstanding when-issued/delayed delivery purchase commitments.

### *Investment Income*

Dividend income is recorded on the ex-dividend date or, for foreign securities, when information is available. Interest income, which reflects the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Interest income also reflects paydown gains and losses, if any.

### *Professional Fees*

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders.

### *Income Taxes*

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its investment company taxable income to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. In any year when a Fund realizes net capital gains, each Fund may choose to distribute all or a portion of its net capital gains to shareholders, or alternatively, to retain all or a portion of its net capital gains and pay federal corporate income taxes on such retained gains.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Notes to

## Financial Statements (Unaudited) (continued)

### Distributions to Shareholders

Distributions to shareholders are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Each Fund makes quarterly cash distributions of a stated dollar amount per share. Subject to approval and oversight by the Funds' Board of Directors, each Fund seeks to maintain a stable distribution level designed to deliver the long-term return potential of the Fund's investment strategy through regular quarterly distributions (a Managed Distribution Program). Total distributions during a calendar year generally will be made from a Fund's net investment income, net realized capital gains and net unrealized capital gains in the Fund's portfolio, if any. The portion of distributions paid attributed to net unrealized gains, if any, is distributed from the Fund's assets and is treated by shareholders as a non-taxable distribution (Return of Capital) for tax purposes. In the event that total distributions during a calendar year exceed the Fund's total return on net asset value, the difference will reduce net asset value per share. If the Fund's total return on net asset value exceeds total distributions during a calendar year, the excess will be reflected as an increase in net asset value per share. The final determination of the source and character of all distributions for the fiscal year are made after the end of the fiscal year and are reflected in the financial statements contained in the annual report as of December 31 each year.

The actual character of distributions made by the Funds during the fiscal year ended December 31, 2010, is reflected in the accompanying financial statements.

The distributions made by the Funds during the six months ended June 30, 2011, are provisionally classified as being From and in excess of net investment income, and those distributions will be classified as being from net investment income, net realized capital gains and/or a return of capital for tax purposes after the fiscal year end. For purposes of calculating Undistributed (Over-distribution of) net investment income as of June 30, 2011, the distribution amounts provisionally classified as From and in excess of net investment income were treated as being entirely from net investment income. Consequently, the financial statements at June 30, 2011, reflect an over-distribution of net investment income.

### Options Transactions

Each Fund is subject to equity price risk in the normal course of pursuing its investment objectives and is authorized to purchase and write (sell) call and put options on securities, futures, swaps (swaptions) or currencies. The purchase of options involves the risk of loss of all or a part of the cash paid for the options (the premium). The market risk associated with purchasing options is limited to the premium paid. The counterparty credit risk of purchasing options, however, needs to take into account the current value of the option, as this is the performance expected from the counterparty. When the Fund purchases an option, an amount equal to the premium paid (the premium plus commission) is recognized as a component of Call and/or Put options purchased, at value on the Statement of Asset and Liabilities. When a Fund writes an option, an amount equal to the net premium received (the premium less commission) is recognized as a component of Call options written, at value on the Statement of Assets and Liabilities and is subsequently adjusted to reflect the current value of the written option until the option expires or the Fund enters into a closing purchase transaction. The changes in the value of options purchased during the fiscal period are recognized as a component of Change in net unrealized appreciation (depreciation) of call and/or put options purchased on the Statement of Operations. The changes in values of the options written during the reporting period are recognized as a component of Change in net unrealized appreciation (depreciation) of options written on the Statement of Operations. When an option is exercised or expires or the Fund enters into a closing purchase transaction, the difference between the net premium received and any amount paid at expiration or on executing a closing purchase transaction, including commission, is recognized as a component of Net realized gain (loss) from options purchased and/or written on the Statement of Operations. The Fund, as writer of an option, has no control over whether the underlying instrument may be sold (called) or purchased (put) and as a result bears the risk of an unfavorable change in the market value of the instrument underlying the written option. There is also the risk the Fund may not be able to enter into a closing transaction because of an illiquid market.

During the six months ended June 30, 2011, NASDAQ Premium Income & Growth (QQQX) wrote calls options on a broad equity index, while investing in a portfolio of equities, and Dow 30<sup>SM</sup> Premium & Dividend Income (DPD) and Dow 30<sup>SM</sup> Enhanced Premium Income (DPO) wrote covered call options on individual stocks held in their portfolios to enhance returns while foregoing some upside potential. The Funds did not purchase call or put options during the six months ended June 30, 2011.

The average notional amount of call option written during the six months ended June 30, 2011, were as follows:

|  | NASDAQ*<br>Premium<br>Income &<br>Growth<br>(QQQX) | Dow 30 <sup>SM</sup> **<br>Premium &<br>Dividend<br>Income<br>(DPD) | Dow 30 <sup>SM</sup> **<br>Enhanced<br>Premium &<br>Income<br>(DPO) |
|--|--|---|---|
| Average notional amount of call options written*** | \$ (140,125,000)                                   | \$ (82,136,777)   | \$ (193,969,872)  |

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

\* The Fund wrote call options on a broad equity index.

\*\* The Fund wrote call options on individual stocks.

\*\*\* The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

Refer to Footnote 3 Derivative Instruments and Hedging Activities and Footnote 5 Investment Transactions for further details on options activity.

34 Nuveen Investments

*Swap Contracts*

Each Fund is authorized to enter into swap contracts consistent with their investment objectives and policies to reduce, increase or otherwise alter its risk profile or to alter its portfolio characteristics (i.e. duration, yield curve positioning and credit quality).

Each Fund is subject to equity price risk in the normal course of pursuing its investment objectives and may enter into a total return swap contracts to manage its exposure to the market or certain sectors of the market, or to create exposure to certain securities to which it is otherwise not exposed. Total return swap contracts involve commitments to pay interest in exchange for a market-linked return, both based on specified notional amounts. To the extent the total return of the security or index underlying the transaction exceeds or falls short of offsetting the interest rate obligation, the Fund will receive a payment from or make a payment to the counterparty.

Total return swap contracts are valued daily. The Funds accrue daily the periodic payments expected to be paid and received on each swap contract and recognize the daily change in the market value of the Funds' contractual rights and obligations under the contracts. The net amount recorded on these transactions for each counterparty is recognized on the Statement of Assets and Liabilities as a component of Unrealized appreciation or depreciation on total return swaps with the change during the fiscal period recognized on the Statement of Operations as a component of Change in net unrealized appreciation (depreciation) of swaps. Income received or paid by a Fund is recognized as a component of Net realized gain (loss) from swaps on the Statement of Operations, in addition to the net realized gains or losses recognized upon the termination of the swap contract, and are equal to the difference between the Funds' basis in the swap and the proceeds from (or cost of) the closing transaction. The amount of the payment obligation is based on the notional amount of the swap contract. Payments received or made at the beginning of the measurement period, if any, are recognized as a component of Total return swap premiums paid and/or received on the Statement of Assets and Liabilities.

During the six months ended June 30, 2011, Dow 30<sup>SM</sup> Enhanced Premium & Income (DPO) entered into total return swap contracts that receive the total return of the Dow Jones Industrial Average while paying a floating rate of interest; adding leverage and equity exposure to the Fund. The average notional amount of total return swap contracts outstanding during the six months ended June 30, 2011, were as follows:

|  |  |
|--|--|
|  | <b>Dow 30<sup>SM</sup><br/>Enhanced<br/>Premium<br/>&amp;<br/>Income<br/>(DPO)</b> |
| Average notional amount of total return swaps outstanding* | \$ 92,318,130  |

\* The average notional amount is calculated based on the outstanding contracts at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

Refer to Footnote 3 Derivative Instruments and Hedging Activities for further details on swap activity.

*Market and Counterparty Credit Risk*

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities. Futures contracts, when applicable, expose a Fund to minimal counterparty credit risk as they are exchange traded and the exchange's clearing house, which is counterparty to all exchange traded futures, guarantees the futures contracts against default.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the predetermined threshold amount.

*Zero Coupon Securities*

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

### *Custodian Fee Credit*

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

Nuveen Investments 35

Notes to

**Financial Statements** (Unaudited) (continued)*Indemnifications*

Under the Funds' organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

*Use of Estimates*

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

**2. Fair Value Measurements**

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 Quoted prices in active markets for identical securities.

Level 2 Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of June 30, 2011:

| <b>NASDAQ Premium Income &amp; Growth (QQQX)</b>               | <b>Level 1</b> | <b>Level 2</b> | <b>Level 3</b> | <b>Total</b>   |

| Total Return Swaps*  |                | 2,822,789    |    | 2,822,789      |
| Total                | \$ 316,515,708 | \$ 6,628,774 | \$ | \$ 323,144,482 |

\* Represents net unrealized appreciation (depreciation) as reported in the Fund's Portfolio of Investments.

During the six months ended June 30, 2011, the Funds recognized no significant transfers to or from Level 1, Level 2 or Level 3.

### 3. Derivative Instruments and Hedging Activities

The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes. For additional information on the derivative instruments in which each Fund was invested during and at the end of the reporting period, refer to the Portfolios of Investments, Financial Statements and Footnote 1 - General Information and Significant Accounting Policies.

The following tables present the fair value of all derivative instruments held by the Funds as of June 30, 2011, the location of these instruments on the Statement of Assets and Liabilities, and the primary underlying risk exposure.

#### NASDAQ Premium Income & Growth (QQQX)

| Underlying Risk Exposure                                       | Derivative Instrument | Location on the Statement of Assets and Liabilities |       |                                |              |

**6. Income Tax Information**

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing certain gains and losses on investment transactions. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At June 30, 2011, the cost and unrealized appreciation (depreciation) of investments (excluding investments in derivatives), as determined on a federal income tax basis, were as follows:

|   | <b>NASDAQ<br/>Premium<br/>Income &amp;<br/>Growth<br/>(QQQX)</b> | <b>Dow 30<sup>SM</sup><br/>Premium &amp;<br/>Dividend<br/>Income<br/>(DPD)</b> | <b>Dow 30<sup>SM</sup><br/>Enhanced<br/>Premium &amp;<br/>Income<br/>(DPO)</b> |
|---|--|--|--|
| Cost of investments                                       | \$ 229,616,461   | \$ 142,838,023   | \$ 316,771,469   |
| Gross unrealized:   |  |  |  |
| Appreciation  | 59,323,426   | 47,703,215   | 39,674,078   |
| Depreciation  | (10,938,003)   | (8,535,614)  | (33,930,487)   |
| Net unrealized appreciation (depreciation) of investments | \$ 48,385,423  | \$ 39,167,601  | \$ 5,743,591   |

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

Permanent differences, primarily due to return of capital distributions, foreign currency reclasses, net operating losses and tax basis earning and profits adjustments resulted in reclassifications among the Funds' components of net assets at December 31, 2010, the Funds' last tax year-end, as follows:

|  | <b>NASDAQ<br/>Premium<br/>Income &amp;<br/>Growth<br/>(QQQX)</b> | <b>Dow 30<sup>SM</sup><br/>Premium &amp;<br/>Dividend<br/>Income<br/>(DPD)</b> | <b>Dow 30<sup>SM</sup><br/>Enhanced<br/>Premium &amp;<br/>Income<br/>(DPO)</b> |
|--|--|--|--|
| Paid-in surplus  | \$ (24,026,179)  | \$ (12,117,505)  | \$ (24,185,138)  |
| Undistributed (Over-distribution of) net investment income | 24,026,179   | 12,117,505   | 24,185,138   |
| Accumulated net realized gain (loss)                       |  |  |  |

The tax components of undistributed net ordinary income and net long-term capital gains at December 31, 2010, the Funds' last tax year end, were as follows:

|   | <b>NASDAQ<br/>Premium<br/>Income<br/>&amp;<br/>Growth<br/>(QQQX)</b> | <b>Dow 30<sup>SM</sup><br/>Premium<br/>&amp;<br/>Dividend<br/>Income<br/>(DPD)</b> | <b>Dow 30<sup>SM</sup><br/>Enhanced<br/>Premium<br/>&amp;<br/>Income<br/>(DPO)</b> |
|---|--|--|--|
| Undistributed net ordinary income         | \$   | \$   | \$   |
| Undistributed net long-term capital gains |  |  |  |

The tax character of distributions paid during the Funds' last tax year ended December 31, 2010, was designated for purposes of the dividends paid deduction as follows:

|  | <b>NASDAQ<br/>Premium<br/>Income &amp;<br/>Growth<br/>(QQQX)</b> | <b>Dow 30<sup>SM</sup><br/>Premium &amp;<br/>Dividend<br/>Income<br/>(DPD)</b> | <b>Dow 30<sup>SM</sup><br/>Enhanced<br/>Premium &amp;<br/>Income<br/>(DPO)</b> |
|--|--|--|--|
| Distributions from net ordinary income*        | \$   | \$ 4,102,297   | \$ 17,310,225  |
| Distributions from net long-term capital gains |  |  |  |
| Return of capital                              | 23,314,917   | 10,625,600   | 10,867,638   |

\* Net ordinary income consists of net taxable income derived from dividends and interest, and current year earnings and profits attributable to realized gains.

At December 31, 2010, the Funds' last tax year end, the Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

|                   | <b>NASDAQ<br/>Premium<br/>Income &amp;<br/>Growth<br/>(QQQX)</b> | <b>Dow 30<sup>SM</sup><br/>Premium &amp;<br/>Dividend<br/>Income<br/>(DPD)</b> | <b>Dow 30<sup>SM</sup><br/>Enhanced<br/>Premium &amp;<br/>Income<br/>(DPO)</b> |
|-------------------|--|--|--|
| Expiration:       |  |  |  |
| December 31, 2015 | \$ 4,607,477   | \$   | \$   |
| December 31, 2017 | 14,092,780   | 7,972,909  | 70,689,942   |
| December 31, 2018 | 4,114,782  |  |  |
| Total             | \$ 22,815,039  | \$ 7,972,909   | \$ 70,689,942  |

During the Funds' last tax year ended December 31, 2010, the following Funds utilized their capital loss carryforwards as follows:

| <b>Dow 30<sup>SM</sup><br/>Premium</b> | <b>Dow 30<sup>SM</sup><br/>Enhanced</b> |
|--|---|
|--|---|

|                                     | &<br>Dividend<br>Income<br>(DPD) | Premium &<br>Income<br>(DPO) |
|-------------------------------------|----------------------------------|------------------------------|

**7. Management Fees and Other Transactions with Affiliates**

Each Fund’s management fee consists of two components – a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

Notes to

**Financial Statements** (continued)

The annual fund-level fee for each Fund, payable monthly, is calculated according to the following schedule:

| Average Daily Managed Assets        | NASDAQ Premium Income & Growth (QQQX)   |
|-------------------------------------|---|
|                                     | Dow 30 <sup>SM</sup> Premium & Dividend Income (DPD)<br>Dow 30 <sup>SM</sup> Enhanced<br>Premium & Income (DPO) |
|                                     | Fund-Level Fee Rate   |
| For the first \$500 million         | 0.7000%   |
| For the next \$500 million          | 0.6750  |
| For the next \$500 million          | 0.6500  |
| For the next \$500 million          | 0.6250  |
| For managed assets over \$2 billion | 0.6000  |

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

| Complex-Level Managed Asset Breakpoint Level* | Effective Rate at Breakpoint Level |
|---|------------------------------------|
| \$55 billion                                  | .2000%                             |
| \$56 billion                                  | .1996                              |
| \$57 billion                                  | .1989                              |
| \$60 billion                                  | .1961                              |
| \$63 billion                                  | .1931                              |
| \$66 billion                                  | .1900                              |
| \$71 billion                                  | .1851                              |
| \$76 billion                                  | .1806                              |
| \$80 billion                                  | .1773                              |
| \$91 billion                                  | .1691                              |
| \$125 billion                                 | .1599                              |
| \$200 billion                                 | .1505                              |
| \$250 billion                                 | .1469                              |
| \$300 billion                                 | .1445                              |

\* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen funds that constitute eligible assets. Eligible assets do not include assets attributable to investments in other Nuveen funds and assets in excess of \$2 billion added to the Nuveen Fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of June 30, 2011, the complex-level fee rate for each of these Funds was .1774%.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Adviser has entered into sub-advisory agreements with Nuveen HydePark Group, LLC (HydePark) a subsidiary of Nuveen, under which HydePark manages the investment portfolios of the Funds. HydePark is compensated for its services to the Funds from the management fees paid to the Adviser.

The Funds pays no compensation directly to those of its directors who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors has adopted a deferred compensation plan for independent directors that enables directors to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised funds.

**8. Subsequent Events***Fair Value Measurements and Disclosures*

On May 12, 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2011-04 (ASU No. 2011-04) modifying Topic 820, Fair Value Measurements and Disclosures. At the same time, the International Accounting Standards Board (IASB) issued International Financial Reporting Standard (IFRS) 13, Fair Value Measurement. The objective of the FASB and IASB is convergence of their guidance on fair value measurements and disclosures. Specifically, ASU No. 2011-04 requires reporting entities to disclose i) the amounts of any transfers between Level 1 and Level 2, and the reasons for

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

the transfers, ii) for Level 3 fair value measurements, a) quantitative information about significant unobservable inputs used, b) a description of the valuation processes used by the reporting entity and c) a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs if a change in those inputs might result in a significantly higher or lower fair value measurement. The effective date of ASU No. 2011-04 is for interim and annual periods beginning after December 15, 2011. At this time, management is evaluating the implications of this guidance and the impact it will have on the financial statement amounts and footnote disclosures, if any.

40 Nuveen Investments

# Reinvest Automatically, Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

## **Nuveen Closed-End Funds Automatic Reinvestment Plan**

Your Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares.

By choosing to reinvest, you will be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

### **Easy and convenient**

To make recordkeeping easy and convenient, each month you will receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

### **How shares are purchased**

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

**Flexible**

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

**Call today to start reinvesting distributions**

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

# Glossary of Terms

## Used in this Report

- ¢ **Average Annual Total Return:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
  
- ¢ **Current Distribution Rate:** Market yield is based on the Fund's current annualized quarterly distribution divided by the Fund's current market price. The Fund's quarterly distributions to its shareholders may be comprised of ordinary income, net realized capital gains and, if at the end of the calendar year the Fund's cumulative net ordinary income and net realized gains are less than the amount of the Fund's distributions, a tax return of capital.
  
- ¢ **Net Asset Value (NAV):** A Fund's NAV per common share is calculated by subtracting the liabilities of the Fund from its total assets and then dividing the remainder by the number of common shares outstanding. Fund NAVs are calculated at the end of each business day.

### **Quarterly Portfolio of Investments and Proxy Voting Information**

You may obtain (i) each Fund's quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at [www.nuveen.com](http://www.nuveen.com).

You may also obtain this and other Fund information directly from the Securities and Exchange Commission (SEC). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at (202) 942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to [publicinfo@sec.gov](mailto:publicinfo@sec.gov) or by writing to the SEC's Public References Section at 100 F Street NE, Washington, D.C. 20549.

### **CEO Certification Disclosure**

Each Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

### **Share Information**

Each Fund intends to repurchase shares of its own common stock in the future at such times and in such amounts as is deemed advisable. During the period covered by this report, the Funds did not repurchase any of their common shares. Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

# Nuveen Investments:

## Serving Investors for Generations

Since 1898, financial advisors and their clients have relied on Nuveen Investments to provide dependable investment solutions through continued adherence to proven, long-term investing principles. There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board of Directors or Trustees implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act") (17 CFR 240.13a-15(b) or 240.15d-15(b)).

## Edgar Filing: NASDAQ Premium Income & Growth Fund Inc. - Form N-CSRS

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

### ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

- (a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.
- (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: See Ex-99.CERT attached hereto.
- (a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed filed for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: See Ex-99.906 CERT attached hereto.
