Item 1.01 Entry into a Material Definitive Agreement.

Item 2.01 Completion of Acquisition or Disposition of Assets.

On September 30, 2011, in accordance with the terms of the previously announced Asset Acquisition Agreement, dated August 17, 2011, as amended (the "AA Agreement"), among CNX Gas Company LLC (the "Company"), a Virginia limited liability company and indirect subsidiary of CONSOL Energy Inc., a Delaware company ("CONSOL"), and Noble Energy, Inc., a Delaware company ("Noble Energy"), the Company completed its transfer to Noble Energy of (a) 50% of the Company's undivided interest in certain Marcellus Shale oil and gas assets and properties in West Virginia and Pennsylvania covering approximately 628,000 net acres (the "Conveyed Interests" and, together with the Company's remaining 50% undivided interest in such assets and properties and any other similarly situated oil and gas assets that are jointly acquired by the Company and Noble after the closing, the "Subject Assets") in exchange for approximately \$1.0 billion in cash, payable in three equal installments (with the first installment paid at closing and the following two installments to be paid at the first and second anniversary of closing, respectively) and a commitment by Noble Energy to pay one-third of the Company's working interest share of certain drilling and completion costs with respect to the Subject Assets, up to approximately \$2.1 billion (the "Carried Costs") and (b) 50% of the Company's undivided interest in certain of its existing Marcellus Shale wells and related leases in exchange for \$160 million cash, paid at closing, in each case, subject to certain customary adjustments.

In connection with the closing, the Company and Noble Energy entered into various agreements including a Joint Development Agreement dated September 30, 2011 (the "JDA"). The description of the JDA contained in item 1.01 of CONSOL's Form 8-K filed on August 18, 2011 (the "Noble Energy Transaction 8-K") is incorporated herein by reference. In accordance with the terms of the AA Agreement, the Company and Noble Energy have also formed a gathering company and entered into the gathering arrangements described in the Noble Energy Transaction 8-K to provide gathering lines and facilities to receive and deliver production from the existing Marcellus Shale wells and future wells on the Subject Assets. At the closing, the Company contributed its existing gathering assets valued at approximately \$145 million to the newly formed gathering company and Noble Energy contributed approximately \$72 million in cash to it, which was distributed to the Company. The cash payments made at closing are subject to certain post-closing adjustments, including adjustments for excluded portions of the gathering assets, operational adjustments for the allocation of costs, taxes and revenues among the parties, and adjustments attributable to the components comprising the cash payments. Under the gathering arrangements, in addition to dedicating all gas produced from the existing Marcellus Shale wells and future wells located on the Subject Assets, subject to conflicting dedication allowances and permitted releases from dedication, for the applicable dedication term, (which in the case of Subject Assets that consist of oil, gas and mineral leases, expires on the termination of such leases, and which in the case of Subject Assets that consist of fee interests, expires after a period of 50 years), the Company and Noble Energy are also required to deliver all gas attributable to third party interests in the Subject Assets to the extent permissible under the terms of any applicable joint operating agreement. The gathering company has entered into a master services agreement with the Company pursuant to which the Company will manage the business operations of the gathering company and perform certain other services on behalf of the gathering company.
