On February 21, 2012, Kraft Foods Inc. issued a press release relating to the presentation made by Kraft Foods executives at the Consumer Analyst Group of New York 2012 Conference. A copy of the press release is being furnished as Exhibit 99.1 to this Current Report on Form 8-K.

The presentation will be available via a live audio webcast within the Investor Center section of our Web site, www.kraftfoodscompany.com. An archived rebroadcast and the presentation slides will be available for one year following the webcast. The presentation slides, including Regulation G reconciliations, used in the presentation are being furnished as Exhibit 99.2 to this Current Report on Form 8-K.

NON-GAAP FINANCIAL MEASURES

We report our financial results in accordance with accounting principles generally accepted in the United States (GAAP).

Our top-line measure is organic net revenues, which excludes the impacts of acquisitions, divestitures (including the Starbucks CPG business), currency and accounting calendar changes (including the 53rd week of shipments). We use organic net revenues and corresponding ratios as non-GAAP financial measures. Management believes this measure better reflects revenues on a going-forward basis and provides improved comparability of results because it excludes the volatility of currency, and the one-time impacts of acquisitions, divestitures and accounting calendar changes from net revenues.

We use Operating EPS and Operating EPS on a constant currency basis, defined as diluted EPS attributable to Kraft Foods from continuing operations excluding costs related to: the Integration Program; acquisition-related costs, including transaction advisory fees, U.K. stamp taxes and the impact of the Cadbury inventory revaluation; acquisition-related financing fees; the impact of a deferred tax charge resulting from the recently enacted U.S. health care legislation; and spin-off-related costs, including transaction fees and other costs associated with the proposed spin-off of the North American grocery business. In addition, Operating EPS on a constant currency basis excludes the year-over-year currency impact on our results. Management believes these measures better reflect earnings per share on a going-forward basis and provides improved comparability of results because it excludes certain impacts related to the Cadbury acquisition and the proposed spin-off of the North American grocery business, as well as other one-time impacts from earnings per share.

See the attached schedules to the press release for supplemental financial data and corresponding reconciliations of the non-GAAP financial measures referred to above to the most comparable GAAP financial measures for the twelve months ended Dec. 31, 2011 and 2010. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our results prepared in accordance with GAAP. In addition, the non-GAAP measures we use may differ from non-GAAP measures used by other companies. Because GAAP financial measures on a forward-looking basis are neither accessible nor deemed to be significantly different from the non-GAAP financial measures, and reconciling information is not available without unreasonable effort, with regard to the non-GAAP financial measures in our Outlook, we have not provided that information.
