announced

on

March 2, 2012 that it intends to remarket its 8% senior notes due 2014, beginning on March 12, 2012

This remarketing provides an opportunity for debt investors to invest in Autoliv, as well as an opportunity for Autoliv to lower its cost of borrowing

The total amount to be raised in the remarketing is expected to be approximately \$108 million. The maturity of the notes will be April 30, 2014

The remarketing of senior notes issued as part equity units is required as a result of the March 2009 transaction

In March 2009, Autoliv offered and sold 6.6MM Corporate Units, each with a \$25 stated principal amount. Each unit consisted of

A 5-year 8% Senior Notes instrument

A 3-year forward contract (under which stock is issued)

Autoliv must attempt to remarket the 5-year debt in year 3; however, the 3-year forward contract must be settled by April 30, 2012

Morgan Stanley is acting as the re-marketing agent

Reconciliation of Non-U.S. GAAP Measures to U.S. GAAP

In this document we sometimes refer to non-U.S. GAAP measures that we and securities analysts use in measuring Autoliv's performance. We believe that these measures assist investors and management in analyzing trends in the Company's business for the reasons given below. Investors should not consider these non-U.S. GAAP measures as substitutes, but rather as additions, to financial reporting measures prepared in accordance with U.S. GAAP. It should be noted that these measures, as defined, may not be comparable to similarly titled measures used by other companies.
