United Rentals Announces First Quarter 2012 Results

GREENWICH, Conn. April 17, 2012 United Rentals, Inc. (NYSE: URI) today announced financial results for the first quarter 2012. Total revenue was \$656 million and rental revenue was \$523 million, compared with \$523 million and \$434 million, respectively, for the same period last year. Adjusted EBITDA¹ was \$231 million and adjusted EBITDA margin was 35.2% for the first quarter 2012, an increase of \$86 million and 7.5 percentage points over last year.

On a GAAP basis, the company reported first quarter 2012 net income of \$13 million, or \$0.17 per diluted share, compared with a net loss of \$20 million, or \$0.34 per diluted share, for the same period in 2011. Adjusted EPS² for the quarter was \$0.36 per diluted share, compared with a loss of \$0.32 per diluted share the prior year.

First Quarter 2012 Highlights³

Rental revenue increased 20.5%, reflecting year-over-year increases of 6.3% in rental rates and 18.4% in the volume of equipment on rent. The company has reaffirmed its standalone outlook for an increase in rental rates of approximately 5% for the full year.

Time utilization was 62.3%, an increase of 1.2 percentage points from the same period last year, and a first quarter record for the company. The company has reaffirmed its standalone outlook for an increase in time utilization for the full year of approximately 0.5 percentage points.

Edgar Filing: RSC Holdings Inc. - Form 425

The size of the company's fleet increased by \$264 million since year-end 2011, measured on an original equipment cost (OEC) basis, and was 16.2% larger, on average, in the first quarter 2012 compared to the same period last year.

The company generated \$76 million of proceeds from used equipment sales at a gross margin of 38.2%, compared with \$32 million of proceeds at a gross margin of 43.8% for the same period last year.

CEO Comments

Michael Kneeland, chief executive officer of United Rentals, said, "Our performance surpassed all prior first quarters, with record time utilization, record fleet growth, and record adjusted EBITDA, both dollars and margin. Once again, we drove profitable growth faster than the construction recovery. Both core areas of our business—general rentals and specialty operations—realized higher rates year-over-year on a fleet that was about \$600 million larger on average. These results speak volumes about the effectiveness of our strategy and the ongoing secular shift toward renting."

¹ Adjusted EBITDA is a non-GAAP measure that excludes the impact of the following special items: RSC merger related costs, restructuring charge and stock compensation expense, net. See table below for amounts.

² Adjusted EPS is a non-GAAP measure that excludes the impact of the following special items: RSC merger related costs, restructuring charge, loss on retirement of subordinated convertible debentures and RSC merger related interest expense. See table below for amounts.

³ Rental rate, time utilization and OEC calculations are based on the American Rental Association metrics criteria; comparisons to 2011 are based on a recast of these metrics on the same basis.

Kneeland continued, Current market dynamics create a favorable environment for our combination with RSC. We expect to complete the transaction on April 30, and move immediately into integration mode. The benefits are substantial, including more than \$200 million in cost synergies, an unparalleled branch footprint, and significant penetration into the industrial sector.

Free Cash Flow and Fleet Size

For the first quarter 2012, free cash usage (negative flow) was \$89 million, after total rental and non-rental capital expenditures of \$426 million. By comparison, free cash flow for the first quarter 2011 was \$70 million after total rental and non-rental capital expenditures of \$120 million. The company has reaffirmed its standalone outlook for full year 2012 free cash usage in the range of \$50 million to \$100 million. Additionally, the company updated its standalone outlook for net rental capital expenditures of between \$700 million and \$750 million, after gross purchases of approximately \$1.0 billion.

The size of the rental fleet was \$4.31 billion of original equipment cost at March 31, 2012, compared with \$4.05 billion at December 31, 2011. The age of the rental fleet was 47.3 months on an OEC-weighted basis at March 31, 2012, compared with 50.3 months at December 31, 2011.

Return on Invested Capital (ROIC)

Return on invested capital was 7.7% for the 12 months ended March 31, 2012, an increase of 3.4 percentage points from the same period last year. The company's ROIC metric uses after-tax operating income for the trailing 12 months divided by the averages of stockholders' equity (deficit), debt⁴ and deferred taxes, net of average cash. To mitigate the volatility related to fluctuations in the company's tax rate from period to period, the federal statutory tax rate of 35% is used to calculate after-tax operating income.

Announced Merger with RSC Holdings

On December 15, 2011, the company entered into a definitive merger agreement with RSC Holdings, Inc. (RSC), pursuant to which the company agreed to acquire RSC in a cash-and-stock transaction that ascribed a total enterprise value of \$4.2 billion to RSC. The cash portion of the merger consideration and transaction fees and expenses will be paid with the net proceeds from the company's wholly owned subsidiary URI Financing Escrow Corporation's recent senior secured notes and senior notes offerings.

After paying the cash portion of the merger consideration, the company will use the net proceeds from the sale of the senior secured notes and senior notes to repay and discharge certain of RSC's indebtedness and pay related transaction fees and expenses. In connection with the proposed transaction, the company will assume all of RSC's remaining debt, which totaled \$947 million as of March 31, 2012.

The proposed transaction remains subject to approval by United Rentals' stockholders and RSC's stockholders and other customary closing conditions. United Rentals and RSC will each hold special meetings on April 27, 2012, at which their respective stockholders will vote on whether to approve the merger and related matters. Subject to receipt of these stockholder approvals and satisfaction of certain other closing conditions, the company anticipates that the proposed transaction will close on April 30, 2012.

⁴ The company's ROIC calculation excludes the impact of \$2.8 billion of RSC merger related indebtedness as the transaction has not yet closed.

Conference Call

United Rentals will hold a conference call tomorrow, Wednesday, April 18, 2012, at 11:00 a.m. Eastern Time. The conference call will be available live by audio webcast at unitedrentals.com, where it will be archived until the next earnings call, and by calling 866-261-7147.

Non-GAAP Measures

Free cash flow, earnings before interest, taxes, depreciation and amortization (EBITDA), adjusted EBITDA, and adjusted earnings per share (adjusted EPS) are non-GAAP financial measures as defined under the rules of the SEC. Free cash flow represents net cash provided by operating activities, less purchases of rental and non-rental equipment plus proceeds from sales of rental and non-rental equipment. EBITDA represents the sum of net income (loss), provision (benefit) for income taxes, interest expense, net, interest expense-subordinated convertible debentures, depreciation of rental equipment and non-rental depreciation and amortization. Adjusted EBITDA represents EBITDA plus the sum of the RSC merger related costs, the restructuring charge and stock compensation expense, net. Adjusted EPS represents EPS plus the sum of the RSC merger related costs, the restructuring charge, the loss on the retirement of subordinated convertible debentures and the RSC merger related interest expense. The company believes that: (i) free cash flow provides useful additional information concerning cash flow available to meet future debt service obligations and working capital requirements; (ii) EBITDA and adjusted EBITDA provide useful information about operating performance and period-over-period growth; and (iii) adjusted EPS provides useful information concerning future profitability. However, none of these measures should be considered as alternatives to net income, cash flows from operating activities or earnings per share under GAAP as indicators of operating performance or liquidity. Information reconciling forward-looking free cash flow and Adjusted EBITDA to GAAP financial measures is unavailable to the company without unreasonable effort.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995, known as the PSLRA. These statements can generally be identified by the use of forward-looking terminology such as believe, expect, may, will, should, seek, on-track, plan, project, forecast, intend or anticipate, or the negative thereof or comparable terminology, or by discussions of vision, strategy or outlook. These statements are based on current plans, estimates and projections, and, therefore, you should not place undue reliance on them. No forward-looking statement can be guaranteed, and actual results may differ materially from those projected. Factors that could cause actual results to differ materially from those projected include, but are not limited to, the following: (1) a slowdown in the recovery of North American construction and industrial activities, which decreased during the economic downturn and significantly affected our revenues and profitability, may further reduce demand for equipment and prices that we can charge; (2) a decrease in levels of infrastructure spending, including lower than expected government funding for stimulus-related construction projects; (3) our highly leveraged capital structure, which requires us to use a substantial portion of our cash flow for debt service and can constrain our flexibility in responding to unanticipated or adverse business conditions; (4) restrictive covenants in our debt agreements, which could limit our financial and operation flexibility; (5) noncompliance with covenants in our debt agreements, which could result in termination of

our credit facilities and acceleration of outstanding borrowings; (6) inability to access the capital that our business may require; (7) inability to collect on contracts with customers; (8) incurrence of impairment charges; (9) the potential consequences of litigation and other claims relating to our business, including certain claims that our insurance may not cover; (10) an increase in our loss reserves to address business operations or other claims and any claims that exceed our established levels of reserves; (11) incurrence of additional costs and expenses in connection with litigation, regulatory or investigatory matters; (12) increases in our maintenance and replacement costs as we age our fleet, and decreases in the residual value of our equipment; (13) inability to sell our new or used fleet in the amounts, or at the prices, we expect; (14) challenges associated with past or future acquisitions, such as undiscovered liabilities and integration issues; (15) management turnover and inability to attract and retain key personnel; (16) our rates and time utilization being less than anticipated; (17) our costs being more than anticipated, the inability to realize expected savings and the inability to obtain key equipment and supplies; (18) disruptions in our information technology systems; (19) competition from existing and new competitors; (20) labor difficulties and labor-based legislation affecting labor relations and operations generally; (21) United Rentals and RSC may be unable to obtain stockholder approvals required for the proposed transaction; (22) the length of time necessary to consummate the proposed transaction between United Rentals and RSC may be longer than anticipated; (23) problems may arise in successfully integrating the businesses of United Rentals and RSC; (24) the proposed transaction between United Rentals and RSC may involve unexpected costs; and (25) the businesses may suffer as a result of uncertainty surrounding the proposed transaction between United Rentals and RSC. For a more complete description of these and other possible risks and uncertainties, please refer to our Annual Report on Form 10-K for the year ended December 31, 2011, as well as to our subsequent filings with the SEC. The forward-looking statements contained herein speak only as of the date hereof, and we make no commitment to update or publicly release any revisions to forward-looking statements in order to reflect new information or subsequent events, circumstances or changes in expectations.

ADJUSTED EARNINGS PER SHARE GAAP RECONCILIATION

We define Earnings (loss) per share adjusted as the sum of (i) earnings (loss) per share GAAP, as reported plus the after-tax impacts of (ii) RSC merger related costs, (iii) restructuring charge, (iv) loss on retirement of subordinated convertible debentures and (v) RSC merger related interest expense. Management believes adjusted earnings (loss) per share provides useful information concerning future profitability. However, adjusted earnings (loss) per share is not a measure of financial performance under GAAP. Accordingly, adjusted earnings (loss) per share should not be considered an alternative to GAAP earnings (loss) per share. The table below provides a reconciliation between earnings (loss) per share GAAP, as reported, and earnings (loss) per share adjusted.

- (1) Reflects transaction costs associated with the proposed acquisition of RSC.
- (2) Primarily reflects branch closure charges due to continuing lease obligations at vacant facilities.
- (3) Reflects interest recorded on \$2,825 million of new debt issued in March 2012 in connection with the proposed merger.

UNITED RENTALS, INC.

EBITDA AND ADJUSTED EBITDA GAAP RECONCILIATION

(In millions)

EBITDA represents the sum of net income (loss), provision (benefit) for income taxes, interest expense, net, interest expense-subordinated convertible debentures, depreciation of rental equipment, and non-rental depreciation and amortization. Adjusted EBITDA represents EBITDA plus the sum of the RSC merger related costs, restructuring charge, and stock compensation expense, net. These items are excluded from adjusted EBITDA internally when evaluating our operating performance and allow investors to make a more meaningful comparison between our core business operating results over different periods of time, as well as with those of other similar companies. Management believes that EBITDA and adjusted EBITDA, when viewed with the Company's results under GAAP and the accompanying reconciliation, provide useful information about operating performance and period-over-period growth, and provide additional information that is useful for evaluating the operating performance of our core business without regard to potential distortions. Additionally, management believes that EBITDA and adjusted EBITDA permit investors to gain an understanding of the factors and trends affecting our ongoing cash earnings, from which capital investments are made and debt is serviced. However, EBITDA and adjusted EBITDA are not measures of financial performance or liquidity under GAAP and, accordingly, should not be considered as alternatives to net income (loss) or cash flow from operating activities as indicators of operating performance or liquidity. The table below provides a reconciliation between net income (loss) and EBITDA and adjusted EBITDA.

UNITED RENTALS, INC.**FREE CASH FLOW GAAP RECONCILIATION****(In millions)**

We define free cash (usage) flow as (i) net cash provided by operating activities less (ii) purchases of rental and non-rental equipment plus (iii) proceeds from sales of rental and non-rental equipment. Management believes that free cash flow provides useful additional information concerning cash flow available to meet future debt service obligations and working capital requirements. However, free cash flow is not a measure of financial performance or liquidity under GAAP. Accordingly, free cash flow should not be considered an alternative to net income (loss) or cash flow from operating activities as an indicator of operating performance or liquidity.
