NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

NOTE 1 CONDENSED FOOTNOTES

As contemplated by the Securities and Exchange Commission (the Commission) instructions to Form 10-Q, the following footnotes have been condensed and, therefore, do not contain all disclosures required in connection with annual financial statements. Reference should be made to the Company's year-end financial statements and notes thereto contained in its Annual Report on Form 10-K for the fiscal year ended January 1, 2012, as filed with the Commission.

The financial information included in this report has been prepared by the Company, without audit. In the opinion of management, the financial information included in this report contains all adjustments (all of which are normal and recurring) necessary for a fair presentation of the results for the interim periods. Nevertheless, the results shown for interim periods are not necessarily indicative of results to be expected for the full year. The January 1, 2012 consolidated condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States.

As described below in Note 9, the Company has sold its Fabrics Group business segment. The results of operations and related disposal costs, gains and losses for this business are classified as discontinued operations, where applicable.

Certain prior period amounts have been reclassified to conform to the current period presentation.

NOTE 2 INVENTORIES

Inventories are summarized as follows:

	April 1, 2012	January 1, 2012
	<i>(In thousands)</i>	
Finished Goods	\$ 101,993	\$ 98,894

	\$ 171,902	\$ 166,073

NOTE 3 EARNINGS PER SHARE

The Company computes basic earnings per share (EPS) by dividing net income (loss), by the weighted-average common shares outstanding, including participating securities outstanding, during the period as discussed below. Diluted EPS reflects the potential dilution beyond shares for basic EPS that could occur if securities or other contracts to issue common stock were exercised, converted into common stock or resulted in the issuance of common stock that would have shared in the Company's earnings.

Table of Contents

The Company includes all unvested stock awards which contain non-forfeitable rights to dividends or dividend equivalents, whether paid or unpaid, in the number of shares outstanding in our basic and diluted EPS calculations when the inclusion of these shares would be dilutive. Unvested share-based awards of restricted stock are paid dividends equally with all other shares of common stock. As a result, the Company includes all outstanding restricted stock awards in the calculation of basic and diluted EPS when the Company is in an income position. Distributed earnings include common stock dividends and dividends earned on unvested share-based payment awards. Undistributed earnings represent earnings that were available for distribution but were not distributed. The following tables show distributed and undistributed earnings:

	Three Months Ended	
	April 1, 2012	April 3, 2011

The following table presents net income (loss) that was attributable to participating securities.

	Three Months Ended	
	April 1, 2012	April 3, 2011
Net Income (Loss)		0.2

(In millions)

The weighted average shares for basic and diluted EPS were as follows:

	Three Months Ended	
	April 1, 2012	April 3, 2011
Weighted Average Shares Outstanding	63,443	63,246
Participating Securities		1,576
Shares for Basic Earnings Per Share	63,443	64,822
Dilutive Effect of Stock Options		368
Shares for Diluted Earnings Per Share	63,443	65,190

(In thousands)

For the three months ended April 1, 2012 and April 3, 2011, options to purchase 535,000 shares and 219,000 shares of common stock, respectively, were not included in the computation of diluted EPS as their impact would be anti-dilutive. For the three months ended April 1, 2012, 2,009,000 shares of participating securities were excluded from the computation of EPS as their impact would be anti-dilutive.

Table of Contents

NOTE 4 SEGMENT INFORMATION

Based on the quantitative thresholds specified in applicable accounting standards, the Company has determined that it has two reportable segments: (1) the Modular Carpet segment, which includes its InterfaceFLOR, Heuga and FLOR modular carpet businesses, and (2) the Bentley Prince Street segment, which includes its Bentley Prince Street broadloom, modular carpet and area rug businesses. In 2007, the Company sold its former Fabrics Group business segment (see Note 9 for further information). Accordingly, the Company has included the operations of the former Fabrics Group segment in discontinued operations, where applicable.

The accounting policies of the operating segments are the same as those described in the Summary of Significant Accounting Policies contained in the Company's Annual Report on Form 10-K for the fiscal year ended January 1, 2012, as filed with the Commission. Segment amounts disclosed are prior to any elimination entries made in consolidation, except in the case of net sales, where intercompany sales have been eliminated. The chief operating decision maker evaluates performance of the segments based on operating income. Costs excluded from this profit measure primarily consist of allocated corporate expenses, interest/other expense and income taxes. Corporate expenses are primarily comprised of corporate overhead expenses. Thus, operating income includes only the costs that are directly attributable to the operations of the individual segment. Assets not identifiable to any individual segment are corporate assets, which are primarily comprised of cash and cash equivalents, short-term investments, intangible assets and intercompany amounts, which are eliminated in consolidation.

Table of Contents**NOTE 5 LONG-TERM DEBT***7 5/8% Senior Notes*

As of both April 1, 2012, and April 3, 2011, the Company had outstanding \$275 million in 7 5/8% Senior Notes due 2018 (the 7 5/8% Senior Notes). The estimated fair value of the 7 5/8% Senior Notes as of April 1, 2012, and April 3, 2011, based on then current market prices, was \$296.7 million and \$291.5 million, respectively.

11 3/8% Senior Secured Notes

As of April 1, 2012, and April 3, 2011, the Company had outstanding \$8.0 million in 11 3/8% Senior Secured Notes due 2013 (the 11 3/8% Senior Secured Notes). The estimated fair value of the 11 3/8% Senior Secured Notes as of both April 1, 2012, and April 3, 2011, based on then current market prices, was \$8.1 million.

9.5% Senior Subordinated Notes

As of both April 1, 2012 and April 3, 2011, the Company had outstanding \$11.5 million in 9.5% Senior Subordinated Notes due 2014 (the 9.5% Senior Subordinated Notes). The estimated fair value of the 9.5% Senior Subordinated Notes as of both April 1, 2012 and April 3, 2011, based on then current market prices, was \$11.5 million. On April 9, 2012, subsequent to the end of the first quarter of 2012, the Company redeemed all of the outstanding 9.5% Senior Subordinated Notes at a price equal to 100% of the principal amount of the notes, plus accrued interest through the redemption date.

Credit Facilities

The Company maintains a domestic revolving credit agreement (the Facility) that provides a maximum aggregate amount of \$100 million of loans and letters of credit available to us at any one time (subject to a borrowing base) with an option for us to increase that maximum aggregate amount to \$150 million (upon the satisfaction of certain conditions, and subject to a borrowing base). The Company is presently in compliance with all covenants under the Facility and anticipates that it will remain in compliance with the covenants for the foreseeable future. As of April 1, 2012, there were zero borrowings and \$4.1 million in letters of credit outstanding under the Facility. As of April 1, 2012, the Company could have incurred \$69.7 million of additional borrowings under the Facility.

Interface Europe B.V. (the Company's modular carpet subsidiary based in the Netherlands) and certain of its subsidiaries maintain a Credit Agreement with The Royal Bank of Scotland N.V. (RBS). Under this Credit Agreement, RBS provides a credit facility, until further notice, for borrowings and bank guarantees of 20 million. As of April 1, 2012, there were no borrowings outstanding under this facility, and the Company could have incurred 20 million (approximately \$26.6 million) of additional borrowings under the facility.

Other non-U.S. subsidiaries of the Company have an aggregate of the equivalent of \$18.9 million of lines of credit available. As of April 1, 2012 there were no borrowings outstanding under these lines of credit.

NOTE 6 STOCK-BASED COMPENSATION*Stock Option Awards*

In accordance with accounting standards, the Company measures the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. That cost will be recognized over the period in which the employee is required to provide the services the requisite service period (usually the vesting period) in exchange for the award. The grant date fair value for options and similar instruments will be estimated using option pricing models. Under accounting standards, the Company is required to select a valuation technique or option pricing model that meets the criteria as stated in the standard. The Company uses the Black-Scholes model. Accounting standards require that the Company estimate forfeitures for stock options and reduce compensation expense accordingly. The Company has reduced its stock compensation expense by the assumed forfeiture rate and will evaluate experience against this forfeiture rate going forward.

During the first three months of 2012 and 2011, the Company recognized stock option compensation costs of \$0.2 million and \$0.3 million, respectively. The remaining unrecognized compensation cost related to unvested awards at April 1, 2012, approximated \$0.4 million, and the weighted average period of time over which this cost will be recognized is approximately one and one-half years.

Table of Contents

There were no stock options granted during the first three months of fiscal 2012 or 2011. The following table summarizes stock options outstanding as of April 1, 2012, as well as activity during the three months then ended:

	Shares	Weighted Average Exercise Price
Outstanding at January 1, 2012	592,500	\$ 9.12
Granted		
Exercised	23,500	5.59
Forfeited or canceled	34,000	11.72
Outstanding at April 1, 2012	535,000	\$ 8.85
Exercisable at April 1, 2012	419,200	\$ 7.80

At April 1, 2012, the aggregate intrinsic value of in-the-money options outstanding and options exercisable was \$2.7 million and \$2.6 million, respectively (the intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option).

Cash proceeds and intrinsic value related to total stock options exercised during the first three months of 2012 and 2011 are provided in the following table:

	Three Months Ended	
	April 1, 2012	April 3, 2011
	<i>(In thousands)</i>	
Proceeds from stock options exercised	\$ 131	\$ 1,468
Intrinsic value of stock options exercised	\$ 179	\$ 2,744

The Company did not recognize any significant tax benefit with regard to stock options in either period presented.

Restricted Stock Awards

During the three months ended April 1, 2012 and April 3, 2011, the Company granted restricted stock awards for 557,500 and 468,000 shares of common stock. Awards of restricted stock (or a portion thereof) vest with respect to each recipient over a two to five-year period from the date of grant, provided the individual remains in the employment or service of the Company as of the vesting date. Additionally, awards (or a portion thereof) could vest earlier upon the attainment of certain performance criteria, in the event of a change in control of the Company, or upon involuntary termination without cause.

Compensation expense related to restricted stock grants was \$1.3 million and \$7.3 million for the three months ended April 1, 2012, and April 3, 2011, respectively. Accounting standards require that the Company estimate forfeitures for restricted stock and reduce compensation expense accordingly. The Company has reduced its expense by the assumed forfeiture rate and will evaluate experience against this forfeiture rate going forward.

The following table summarizes restricted stock activity as of April 1, 2012, and during the three months then ended:

	Shares	Weighted Average Grant Date Fair Value
Outstanding at January 1, 2012	1,749,000	\$ 15.08

Forfeited or canceled	56,000	15.11
Outstanding at April 1, 2012	2,009,000	\$ 14.80

As of April 1, 2012, the unrecognized total compensation cost related to unvested restricted stock was \$15.7 million. That cost is expected to be recognized by the end of 2015.

During the quarters ended April 1, 2012 and April 3, 2011, the Company recognized tax benefits of \$0.2 million and \$1.8 million, respectively, with regard to restricted stock.

NOTE 8 RESTRUCTURING CHARGES

2012 Restructuring Charge

In March of 2012, the Company committed to a new restructuring plan in its continuing efforts to reduce costs across its worldwide operations and more closely align its operations with reduced demand levels in certain markets. The plan primarily consists of ceasing manufacturing and warehousing operations at its facility in Shelf, England. In connection with this restructuring plan, the Company incurred a pre-tax restructuring and asset impairment charge in the first quarter of 2012 in an amount of \$16.3 million. The expected charge is comprised of employee severance expenses of \$5.4 million, other related exit costs of \$1.6 million, and a charge for impairment of assets of approximately \$9.3 million. Approximately \$7 million of the charge will result in future cash expenditures, primarily severance expense. The restructuring plan is expected to be substantially completed in the second quarter of 2012.

A summary of these restructuring activities is presented below:

	Total Restructuring Charge	Costs Incurred in 2012	Balance at April 1, 2012
		<i>(In thousands)</i>	
Workforce Reduction	5,356	377	4,979
Fixed Asset Impairment	9,364	9,364

2011 Restructuring Charge

In the fourth quarter of 2011, the Company committed to a restructuring plan intended to reduce costs across its worldwide operations and more closely align its operations with reduced demand in certain markets. As a result of this plan, the Company incurred pre-tax restructuring and asset impairment charges of \$6.2 million in the fourth quarter of 2011. The majority of this charge (\$5.4 million) relates to the severance of approximately 110 employees in Europe, Asia and the United States. The remainder of the charge (\$0.8 million) relates to contract termination and fixed asset impairment costs. Approximately \$5.4 million of this charge will result in cash expenditures, primarily severance expenses. Actions and expenses related to this plan were substantially completed by the end of 2011.

A summary of these restructuring activities is presented below:

	Restructuring Charge	Costs Incurred in 2011	Costs Incurred in 2012	Balance at April 1, 2012

NOTE 9 DISCONTINUED OPERATIONS

In 2007, the Company sold its Fabrics Group business segment. All activity related to this business has been included in discontinued operations, where applicable. Assets and liabilities of this business segment have been reported in assets and liabilities held for sale, where applicable.

Discontinued operations had no net sales and no net income or loss in either of the three-month periods ended April 1, 2012 and April 3, 2011.

NOTE 10 SUPPLEMENTAL CASH FLOW INFORMATION

Cash payments for interest amounted to \$0.8 million and \$0.9 million for the three month periods ended April 1, 2012, and April 3, 2011, respectively. Income tax payments amounted to \$3.0 million and \$5.4 million for the three month periods ended April 1, 2012, and April 3, 2011, respectively.

NOTE 11 RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In September 2011, the Financial Accounting Standards Board (FASB) issued an accounting standard regarding the performance of a company s annual goodwill impairment evaluation. This standard allows companies to assess qualitative factors to determine if it is more likely than not that goodwill might be impaired and whether it is necessary to perform the two-step goodwill impairment test. This standard is effective for fiscal years beginning after December 31, 2011. At this time, we do not expect adoption of this standard to have any significant impact on our consolidated financial statements.

In June 2011, the FASB amended an accounting standard regarding the presentation of comprehensive income. This amendment will require companies to present the components of net income and other comprehensive income either as one continuous statement or as two consecutive statements. It eliminates the option to present components of other comprehensive income as part of the statement of changes in shareholders equity. The amended guidance, which must be applied retroactively, was to be effective for interim and annual periods ending after December 31, 2012, with earlier adoption permitted. In December of 2011, the FASB issued an amendment to this statement which defers the requirements of this standard. As this amendment only effects presentation, there is not expected to be any impact on the Company s consolidated financial statements.

NOTE 12 INCOME TAXES

Accounting standards require that all tax positions be analyzed using a two-step approach. The first step requires an entity to determine if a tax position is more-likely-than-not to be sustained upon examination. In the second step, the tax benefit is measured as the largest amount of benefit, determined on a cumulative probability basis, that is more-likely-than-not to be realized upon ultimate settlement. In the first three months of 2012, the Company increased its liability for unrecognized tax benefits by \$0.2 million. As of April 1, 2012, the Company had accrued approximately \$7.9 million for unrecognized tax benefits.

NOTE 13 SHARE CONVERSION

On March 5, 2012, the number of issued and outstanding shares of Class B Common Stock constituted less than 10% of the aggregate number of issued and outstanding shares of the Company s Class A Common Stock and Class B Common Stock (that is, on that date, 6,459,556 shares of an aggregate of 65,372,375 shares), as the cumulative result of varied transactions that caused the conversion of shares of Class B Common Stock into shares of Class A Common Stock. Accordingly, in accordance with the respective terms for the Class B Common Stock and the Class A Common Stock in Article V of the Company s Articles of Incorporation (the Articles), the Class A Common Stock and Class B Common Stock are now, irrevocably from March 5, 2012, a single class of Common Stock in all respects, with no distinction whatsoever between the voting rights or any other rights and privileges of the holders of Class A Common Stock and the holders of Class B Common Stock. The Company intends to eliminate future uses of (or references to) the terms Class A and Class B in connection with the Common Stock, except for historical purposes or to facilitate transition by certain stock listing or administrative services organizations who are accustomed to the old designations for the Common Stock

NOTE 14 SUPPLEMENTAL CONDENSED CONSOLIDATING GUARANTOR FINANCIAL STATEMENTS

The Guarantor Subsidiaries, which consist of the Company s principal domestic subsidiaries, are guarantors of the Company s 11 3/8% Senior Secured Notes due 2013, its 9.5% Senior Subordinated Notes due 2014, and its 7 5/8% Senior Notes due 2018. These guarantees are full and unconditional. The Supplemental Guarantor Financial Statements are presented herein pursuant to requirements of the Commission.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our discussions below in this Item 2 are based upon the more detailed discussions about our business, operations and financial condition included in our Annual Report on Form 10-K for the fiscal year ended January 1, 2012, under Item 7 of that Form 10-K. Our discussions here focus on our results during the quarter ended, or as of, April 1, 2012, and the comparable period of 2011 for comparison purposes, and, to the extent applicable, any material changes from the information discussed in that Form 10-K or other important intervening developments or information since that time. These discussions should be read in conjunction with that Form 10-K for more detailed and background information.

Forward-Looking Statements

This report contains statements which may constitute forward-looking statements within the meaning of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. Important factors currently known to management that could cause actual results to differ materially from those in forward-looking statements include risks and uncertainties associated with economic conditions in the commercial interiors industry as well as the risks and uncertainties discussed under the heading Risk Factors included in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended January 1, 2012, which discussion is hereby incorporated by reference. The Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results over time.

2012 Restructuring Charge

In March of 2012, we committed to a new restructuring plan in our continuing efforts to reduce costs across our worldwide operations and more closely align our operations with reduced demand levels in certain markets. The plan primarily consists of ceasing manufacturing and warehousing operations at our facility in Shelf, England. In connection with this restructuring plan, we incurred a pre-tax restructuring and asset impairment charge in the first quarter of 2012 in an amount of \$16.3 million. The expected charge is comprised of employee severance expenses of \$5.4 million, other related exit costs of \$1.6 million, and a charge for impairment of assets of approximately \$9.3 million. Approximately \$7 million of the charge will result in future cash expenditures, primarily severance expense. The restructuring plan is expected to be substantially completed in the second quarter of 2012, and is expected to yield annualized cost savings of approximately \$9 million.

2011 Restructuring Charge

In the fourth quarter of 2011, we committed to a restructuring plan intended to reduce costs across our worldwide operations and more closely align our operations with reduced demand in certain markets. As a result of this plan, we incurred pre-tax restructuring and asset impairment charges of \$6.2 million in the fourth quarter of 2011. The majority of this charge (\$5.4 million) relates to the severance of approximately 110 employees in Europe, Asia and the United States. The remainder of the charge (\$0.8 million) relates to contract termination and fixed asset impairment costs. Approximately \$5.4 million of this charge will result in cash expenditures, primarily severance expenses. Actions and expenses related to this plan were substantially completed by the end of 2011.

Discontinued Operations

In 2007, we sold our Fabrics Group business segment. In accordance with applicable accounting standards, we have reported the results of operations for the former Fabrics Group business segment as discontinued operations, where applicable.

Our discontinued operations had no net sales and no net income or loss in either of the three-month periods ended April 1, 2012 and April 3, 2011.

Table of Contents

General

During the quarter ended April 1, 2012, we had net sales of \$232.8 million, compared with net sales of \$245.4 million in the first quarter last year. Fluctuations in currency exchange rates negatively impacted 2012 first quarter sales by 1% (approximately \$3 million), compared with the prior year period.

During the first quarter of 2012, including the \$16.3 million restructuring charge described above, we had a net loss of \$5.9 million, or \$0.09 per share, compared with net income of \$9.8 million, or \$0.15 per share, in the first quarter last year.

Results of Operations

The following table presents, as a percentage of net sales, certain items included in our Consolidated Condensed Statements of Operations for the three-month periods ended April 1, 2012, and April 3, 2011, respectively:

	Three Months Ended	
	April 1, 2012	April 3, 2011
Net sales	100.0%	100.0%
Cost of sales	67.3	64.6
Gross profit on sales	32.7	35.4
Selling, general and administrative expenses	25.5	26.7
Restructuring charge	7.0	
Operating income	0.2	8.8
Interest/Other expense	3.0	2.7
Income (loss) before tax expense	(2.8)	6.1
Income tax expense (benefit)	(0.3)	2.1
Net income (loss)	(2.5)	4.0

Below we provide information regarding net sales for each of our operating segments, and analyze those results for the three-month periods ended April 1, 2012, and April 3, 2011, respectively.

Net Sales by Business Segment

Net sales by operating segment and for our Company as a whole were as follows for the three-month periods ended April 1, 2012, and April 3, 2011, respectively:

Net Sales By Segment	Three Months Ended		Percentage Change
	04/01/12	04/03/11	
	<i>(In thousands)</i>		
Modular Carpet	\$ 210,016	\$ 219,280	(4.2%)
Bentley Prince Street	22,744	26,122	(12.9%)
Total	\$ 232,760	\$ 245,402	(5.2%)

Modular Carpet Segment. For the quarter ended April 1, 2012, net sales for the Modular Carpet segment decreased \$9.3 million (4.2%) versus the comparable period in 2011. On a geographic basis, in the Americas, sales were essentially level with the prior year period. Europe sales declined slightly in U.S. Dollars (down 3%) but were up 2% in local currencies. Asia-Pacific sales declined 17%. In the Americas, the corporate

Edgar Filing: INTERFACE INC - Form 10-Q

office market segment remained even versus the first quarter of 2011. The largest gaining segment in the Americas was residential (up 52%), largely due to the continued roll-out of our FLOR retail stores. In addition, the hospitality segment in the Americas experienced an increase of 40%. These increases were offset by declines in the government (down 20%) and healthcare (down 12%) market segments. In Europe, sales were down in all segments except for corporate office (up 3% in U.S. Dollars, 8% in local currency). The government segment in Europe experienced the greatest decline in sales (down 23% in U.S. dollars, 19% in local currencies). In Asia-Pacific, we experienced declines in all commercial market segments. The largest sales decline in Asia-Pacific was seen in the education market segment (down 63%) due to the curtailment of government stimulus programs that had been in place in 2011, particularly in Australia.

Table of Contents

Bentley Prince Street. For the quarter ended April 1, 2012, net sales for this segment decreased \$3.4 million (12.9%) versus the comparable period in 2011. This decrease was led by a decline in the corporate office market of 13%, primarily due to the premium nature of Bentley Prince Street's products vis-à-vis the uncertain macroeconomic environment. The government market segment (down 34%) as well as the hospitality market segment (down 47%) also contributed to the sales decline. These declines were somewhat offset by gains in the healthcare (up 21%) and education (up 7%) market segments.

Cost and Expenses

Company Consolidated. The following table presents, on a consolidated basis for our operations, our overall cost of sales and selling, general and administrative expenses for the three-month periods ended April 1, 2012, and April 3, 2011, respectively:

	Three Months Ended		Percentage Change
	04/01/12	04/03/11	
	<i>(In thousands)</i>		
Cost and Expenses			
Cost of sales	\$ 156,557	\$ 158,474	(1.2%)
Selling, general and administrative expenses	59,368	65,400	(9.2%)
Total	\$ 215,925	\$ 223,874	(3.6%)

For the quarter ended April 1, 2012, our costs of sales decreased by \$1.9 million (1.2%) versus the comparable period in the prior year. Currency negatively impacted cost of sales by approximately \$2 million (1%) in the 2012 first quarter. Given this currency impact, the cost of sales in the first quarter of 2012 is essentially level with that of the 2011 first quarter. On a percentage of sales basis, however, cost of sales increased to 67.3% in the first three months of 2012 versus 64.6% in the corresponding period of 2011. The increase was due to (1) a 5-6% increase in raw materials prices for the first quarter of 2012 versus that of 2011, as well as (2) lower absorption of fixed manufacturing costs associated with lower production volumes. We expect improvement in costs of sales on a percentage of sales basis as the benefits of our recent restructuring actions (discussed above) are realized.

For the quarter ended April 1, 2012, our selling, general, and administrative expenses decreased \$6.0 million (9.2%) versus the comparable period in 2011. Fluctuations in currency exchange rates accounted for approximately \$1.0 million (1%) of the decline. The primary components of this decrease were (1) a \$4.3 million reduction in administrative costs due to the lower levels of non-cash incentive compensation in the first three months of 2012 versus 2011 as well as the realization of savings from our 2011 restructuring actions (discussed above), and (2) a \$0.5 million reduction in marketing costs. Due to these reductions, as a percentage of net sales, selling, general and administrative expenses improved to 25.5% for the first three months of 2012 versus 26.7% in the corresponding period of 2011.

Cost and Expenses by Segment. The following table presents the combined cost of sales and selling, general and administrative expenses for each of our operating segments:

Cost of Sales and Selling, General and	Three Months Ended		Percentage Change
	04/01/12	04/03/11	
	<i>(In thousands)</i>		
Administrative Expenses (Combined)			
Modular Carpet	\$ 192,617	\$ 193,395	(0.4%)
Bentley Prince Street	23,308	26,279	(11.3%)
Corporate Expenses and Eliminations		4,200	(100.0%)
Total	\$ 215,925	\$ 223,874	(3.6%)

Interest Expense

For the three-month period ended April 1, 2012, interest expense remained level with the three-month period ended April 3, 2011 at \$6.7 million. There were no significant changes in borrowings between the first quarter of 2012 and 2011.

Table of Contents

Liquidity and Capital Resources

General

At April 1, 2012, we had \$63.1 million in cash. At that date, we had no borrowings and \$4.1 million in letters of credit outstanding under our domestic revolving credit facility, and no borrowings outstanding under our European credit facility. As of April 1, 2012, we could have incurred \$69.7 million of additional borrowings under our domestic revolving credit facility, and 20 million (approximately \$26.6 million) of additional borrowings under our European credit facility. In addition, we could have incurred an additional \$18.9 million of borrowings under our other credit facilities in place at other non-U.S. subsidiaries.

Analysis of Cash Flows

Our primary sources of cash during the three months ended April 1, 2012 were (1) \$31.9 million due to a reduction of accounts receivable, and (2) \$2.1 million due to an increase of accounts payable and accruals. Our primary uses of cash during this period were (1) \$10.4 million for capital expenditures, (2) \$4.3 million for increases in prepaids and other current assets, and (3) \$3.8 million due to increased inventory levels.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our discussion below in this Item 3 is based upon the more detailed discussions of our market risk and related matters included in our Annual Report on Form 10-K for the fiscal year ended January 1, 2012, under Item 7A of that Form 10-K. Our discussion here focuses on the quarter ended April 1, 2012, and any material changes from (or other important intervening developments since the time of) the information discussed in that Form 10-K. This discussion should be read in conjunction with that Form 10-K for more detailed and background information.

At April 1, 2012, we recognized a \$7.9 million increase in our foreign currency translation adjustment account compared to January 1, 2012, primarily because of the weakening of the U.S dollar against certain foreign currencies.

Sensitivity Analysis. For purposes of specific risk analysis, we use sensitivity analysis to measure the impact that market risk may have on the fair values of our market sensitive instruments.

To perform sensitivity analysis, we assess the risk of loss in fair values associated with the impact of hypothetical changes in interest rates and foreign currency exchange rates on market sensitive instruments. The market value of instruments affected by interest rate and foreign currency exchange rate risk is computed based on the present value of future cash flows as impacted by the changes in the rates attributable to the market risk being measured. The discount rates used for the present value computations were selected based on market interest and foreign currency exchange rates in effect at April 1, 2012. The values that result from these computations are compared with the market values of these financial instruments at April 1, 2012. The differences in this comparison are the hypothetical gains or losses associated with each type of risk.

As of April 1, 2012, based on a hypothetical immediate 150 basis point increase in interest rates, with all other variables held constant, the market value of our fixed rate long-term debt would experience a net decrease of approximately \$16.5 million. Conversely, a 150 basis point decrease in interest rates would result in a net increase in the market value of our fixed rate long-term debt of approximately \$31.5 million.

As of April 1, 2012, a 10% decrease or increase in the levels of foreign currency exchange rates against the U.S. dollar, with all other variables held constant, would result in a decrease in the fair value of our financial instruments of \$9.8 million or an increase in the fair value of our financial instruments of \$8.0 million, respectively. As the impact of offsetting changes in the fair market value of our net foreign investments is not included in the sensitivity model, these results are not indicative of our actual exposure to foreign currency exchange risk.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was performed under the supervision and with the participation of our management, including our President and Chief Executive Officer and our Senior Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Act), pursuant to Rule 13a-14(c) under the Act. Based on that evaluation, our President and Chief Executive Officer and our Senior Vice President and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report.

There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are subject to various legal proceedings in the ordinary course of business, none of which is required to be disclosed under this Item 1.

ITEM 1A. RISK FACTORS

The specific risk factor under the heading The estate of our former Chairman currently has sufficient voting power to elect a majority of our Board of Directors, set forth in Part I, Item IA in our Annual Report on Form 10-K for fiscal year 2011, is no longer applicable. For a discussion of risk factors, see that Item in our 2011 Form 10-K.
