INVESTMENT PORTFOLIO

AT MARCH 31, 2012 (Unaudited)

The various inputs that are used in determining the fair value of the Fund s investments are summarized into the three broad levels listed below.

- Level 1 quoted prices in active markets for identical securities
- Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Funds own assumptions in determining the fair value of investments)

 A financial instruments level within the fair value hierarchy is based on the lowest level of any input both individually and in aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following table represents each valuation input as presented on the Investment Portfolio:

	Level 1	Other significant observable	Significant unobservable	
	Quoted prices	inputs	inputs	Total

⁽a) All portfolio holdings designated as Level 1 are disclosed individually in the Investment Portfolio. There were no transfers between Levels 1 and 2 during the period ended March 31, 2012.
