Notes to Condensed Consolidated Financial Statements

April 30, 2012

NOTE REGARDING AMOUNTS AND FISCAL YEAR REFERENCES

In this quarterly report, all amounts related to United States dollars and foreign currency and to the number of Nordson Corporation's common shares, except for per share earnings and dividend amounts, are expressed in thousands.

Unless otherwise noted, all references to years relate to our fiscal year ending October 31.

1. **Significant Accounting Policies.**

Basis of presentation. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended April 30, 2012 are not necessarily indicative of the results that may be expected for the full year. For further information, refer to the consolidated financial statements and footnotes included in our annual report on Form 10-K for the year ended October 31, 2011.

Basis of consolidation. The consolidated financial statements include the accounts of Nordson Corporation and its majority-owned and controlled subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements. Actual amounts could differ from these estimates.

Revenue recognition. Most of our revenues are recognized upon shipment, provided that persuasive evidence of an arrangement exists, the sales price is fixed or determinable, collectibility is reasonably assured, and title and risk of loss have passed to the customer.

A relative selling price hierarchy exists for determining the selling price of deliverables in multiple deliverable arrangements. Vendor specific objective evidence (VSOE) is used, if available. Third-party evidence (TPE) is used if VSOE is not available, and best estimated selling price (BESP) is used if neither VSOE nor TPE is available. Our multiple deliverable arrangements include installation, installation supervision, training, and spare parts, which tend to be completed in a short period of time, at an insignificant cost, and utilizing skills not unique to us, therefore, are typically regarded as inconsequential or perfunctory. Revenue for undelivered items is deferred and included within accrued liabilities in the accompanying balance sheet. Revenues deferred in 2012 and 2011 were not material.

Earnings per share. Basic earnings per share are computed based on the weighted-average number of common shares outstanding during each year, while diluted earnings per share are based on the weighted-average number of common shares and common share equivalents outstanding. Common share equivalents consist of shares issuable upon exercise of stock options computed using the treasury stock method, as well as nonvested (restricted) stock and deferred stock-based compensation. Options whose exercise price is higher than the average market price are excluded from the calculation of diluted earnings per share because the effect would be anti-dilutive. For the three months ended April 30, 2012, and the three and six months ended April 30, 2011, no options for common shares were excluded from the calculation of diluted earnings per share. For the six months ended April 30, 2012, the number of options excluded from the calculation of diluted earnings per share was 150.

2. Recently issued accounting standards.

Edgar Filing: NORDSON CORP - Form 10-Q

2. Recently issued accounting standards. In December 2010, the Financial Accounting Standards Board (FASB) issued guidance that provides requirements for pro forma revenue and earnings disclosures related to business combinations. This guidance requires disclosure of revenue and earnings of the combined business as if the combination occurred at the start of the prior annual reporting period only. We adopted this standard on November 1, 2011, and there was no impact on our consolidated financial statements.

Table of Contents**Nordson Corporation**

In May 2011, the FASB clarified the guidance concerning fair value measurements and disclosures. The guidance requires the disclosure of quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion around the sensitivity of the measurements. We adopted this guidance on February 1, 2012, and there was no material impact on our consolidated financial statements.

In June 2011, the FASB issued an Accounting Standards Update (ASU) that amends current comprehensive income guidance. This ASU eliminates the option to present the components of other comprehensive income as part of the statement of shareholders' equity. Instead, comprehensive income must be reported in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. This guidance will be effective for us beginning in 2013 and is not expected to impact our consolidated financial statements, as it only results in a change in the format of presentation.

In September 2011, the FASB issued guidance amending the way companies test for goodwill impairment. Companies will have the option to first assess qualitative factors to determine the existence of events or circumstances that lead to a determination that it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If, after assessing the totality of events or circumstances, companies determine that it is more likely than not that the fair value of a reporting unit is greater than its carrying amount, then performing the two-step impairment test is unnecessary. This guidance is effective for us beginning in 2013, with early adoption permitted. We do not expect that the adoption will have a significant impact on our consolidated financial statements.

3. Inventories.

3. Inventories. At April 30, 2012 and October 31, 2011, inventories consisted of the following:

Ending balance	\$ (82,189)	\$ (48,490)

Table of Contents**Nordson Corporation****6. Stock-based compensation.**

6. Stock-based compensation. The amended and restated 2004 long-term performance plan, approved by our shareholders in 2008, provides for the granting of stock options, stock appreciation rights, nonvested (restricted) stock, stock purchase rights, stock equivalent units, cash awards and other stock or performance-based incentives. The number of common shares available for grant of awards is 2.5% of the number of common shares outstanding as of the first day of each fiscal year.

Stock Options

Nonqualified or incentive stock options may be granted to our employees and directors. Generally, options granted to employees may be exercised beginning one year from the date of grant at a rate not exceeding 25% per year and expire 10 years from the date of grant. Vesting accelerates upon the occurrence of events that involve or may result in a change of control. Option exercises are satisfied through the issuance of treasury shares on a first-in first-out basis.

We recognized compensation expense related to stock options of \$916 and \$712 in the three months ended April 30, 2012 and 2011, respectively. Amounts for the six months ended April 30, 2012 and April 30, 2011 were \$1,871 and \$1,431, respectively.

The following table summarizes activity related to stock options for the six months ended April 30, 2012:

	Number of Options	Weighted-Average Exercise Price Per Share	Aggregate Intrinsic Value	Weighted Average Remaining Term
Outstanding at October 31, 2011	1,851	\$ 24.22		
Granted	299	\$ 43.73		
Exercised	(146)	\$ 19.55		
Forfeited or expired	(18)	\$ 28.43		
Outstanding at April 30, 2012	1,986	\$ 27.46	\$ 52,509	6.4 years
Vested or expected to vest at April 30, 2012	1,916	\$ 27.12	\$ 51,313	6.3 years
Exercisable at April 30, 2012	1,112	\$ 21.67	\$ 35,841	4.9 years

At April 30, 2012, there was \$9,754 of total unrecognized compensation cost related to nonvested stock options. That cost is expected to be amortized over a weighted average period of approximately 2.0 years.

The fair value of each option grant was estimated at the date of grant using the Black-Scholes option-pricing model with the following assumptions:

Six months ended	April 30, 2012	April 30, 2011
Expected volatility	45.4%-46.9%	43.1%-45.1%
Expected dividend yield	1.20%	1.28%
Risk-free interest rate	1.03%-1.23%	1.89%-2.25%
Expected life of the option (in years)	5.4-6.1	5.4-6.3

The weighted-average expected volatility used to value the 2012 and 2011 options were 46.2% and 44.3%, respectively.

Table of Contents**Nordson Corporation**

Historical information was the primary basis for the selection of the expected volatility, expected dividend yield and the expected lives of the options. The risk-free interest rate was selected based upon yields of U.S. Treasury issues with a term equal to the expected life of the option being valued.

The weighted average grant date fair value of stock options granted during the six months ended April 30, 2012 and 2011 was \$17.03 and \$16.80, respectively.

The total intrinsic value of options exercised during the three months ended April 30, 2012 and April 30, 2011 was \$3,977 and \$9,107, respectively. The total intrinsic value of options exercised during the six months ended April 30, 2012 and April 30, 2011 was \$4,677 and \$22,157, respectively.

Cash received from the exercise of stock options was \$2,852 and \$9,282 for the six months ended April 30, 2012 and 2011, respectively. The tax benefit realized from tax deductions from exercises was \$979 and \$6,919 for the six months ended April 30, 2012 and 2011, respectively.

Nonvested Common Shares

We may grant nonvested common shares to our employees and directors. These shares may not be transferred for a designated period of time (generally one to three years) defined at the date of grant. For employee recipients, shares are forfeited on a pro-rata basis in the event employment is terminated as a consequence of the employee recipient's early retirement, disability or death prior to the lapse of any restrictions. Restrictions lapse in the event of a recipient's retirement at or after normal retirement age. Termination for any other reason prior to the lapse of any restrictions results in forfeiture of the shares. For non-employee directors, all restrictions lapse in the event of disability or death of the non-employee director. Termination of service as a director for any other reason within one year of date of grant results in a pro-rata forfeiture of shares.

As shares are issued, deferred share-based compensation equivalent to the fair market value on the date of grant is charged to shareholders equity and subsequently amortized over the restriction period. Tax benefits arising from the lapse of restrictions on the shares are recognized when realized and credited to capital in excess of stated value.

The following table summarizes activity related to nonvested shares during the six months ended April 30, 2012:

	Number of Shares	Weighted-Average Grant Date Fair Value
Nonvested shares at October 31, 2011	81	\$ 34.95
Granted	47	\$ 43.94
Vested	(20)	\$ 35.55
Forfeited	(3)	\$ 43.56
Nonvested shares at April 30, 2012	105	\$ 38.65

As of April 30, 2012, there was \$2,705 of unrecognized compensation cost related to nonvested common shares. The cost is expected to be amortized over a weighted average period of 1.9 years.

The amount charged to expense related to nonvested stock was \$477 and \$336 in the three months ended April 30, 2012 and 2011, respectively. For the six months ended April 30, 2012 and 2011, the amounts were \$887 and \$616, respectively.

Table of Contents**Nordson Corporation**

Directors Deferred Compensation

Non-employee directors may defer all or part of their compensation until retirement. Compensation may be deferred as cash or as share equivalent units. Deferred cash amounts are recorded as liabilities. Additional share equivalent units are earned when common share dividends are declared.

The following table summarizes activity related to director deferred compensation share equivalent units during the six months ended April 30, 2012:

	Number of Shares	Weighted-Average Grant Date Fair Value
Outstanding at October 31, 2011	243	\$ 17.51
Deferrals	1	\$ 50.31
Restricted stock units vested	11	\$ 28.47
Dividend equivalents	1	\$ 47.67
Distributions	(29)	\$ 15.82
Outstanding at April 30, 2012	227	\$ 18.59

The amount charged to expense related to this plan was \$70 and \$59 for the three months ended April 30, 2012 and 2011, respectively. For the six months ended April 30, 2012 and 2011, the amounts were \$126 and \$156, respectively.

Long-Term Incentive Compensation Plan

Under the long-term incentive compensation plan, executive officers and selected other key employees receive common share awards based solely on corporate performance measures over three-year performance periods. Awards vary based on the degree to which corporate performance exceeds predetermined threshold, target and maximum performance levels at the end of a performance period. No payout will occur unless certain threshold performance objectives are exceeded.

The amount of compensation expense is based upon current performance projections for each three-year period and the percentage of the requisite service that has been rendered. The calculations are also based upon the grant date fair value determined using the market price of common shares at the grant date, adjusted for dividends not to be paid. This value was \$42.12 per share for both the executive officers and the selected other key employees for 2012 and \$42.02 per share for both the executive officers and the selected other key employees for 2011. The per share values for 2010 were \$26.10 and \$29.52 for the executive officers group and \$26.10 for the selected other key employees. The amount charged to expense for the three months ended April 30, 2012 and 2011 was \$890 and \$874, respectively. For the six months ended April 30, 2012 and 2011, the amounts were \$1,890 and \$2,319, respectively. The cumulative amount recorded in shareholders' equity at April 30, 2012 was \$6,363.

Table of Contents**Nordson Corporation****7. Warranty accrual.**

7. **Warranty accrual.** We offer warranty to our customers depending on the specific product and terms of the customer purchase agreement. A typical warranty program requires that we repair or replace defective products within a specified time period (generally one year) from the date of delivery or first use. We record an estimate for future warranty-related costs based on actual historical return rates. Based on analysis of return rates and other factors, the adequacy of our warranty provisions are adjusted as necessary. The liability for warranty costs is included in accrued liabilities in the Consolidated Balance Sheet.

Following is a reconciliation of the product warranty liability for the six months ended April 30, 2012 and 2011:

	April 30, 2012	April 30, 2011
Beginning balance	\$ 6,723	\$ 5,242
Accruals for warranties	2,513	2,881
Warranty payments	(3,000)	(2,648)
Currency effect	(114)	172
Ending balance	\$ 6,122	\$ 5,647

8. Operating segments.

8. **Operating segments.** We conduct business across three primary business segments: Adhesive Dispensing Systems, Advanced Technology Systems, and Industrial Coating Systems. Effective November 1, 2011, the Industrial Coating Systems segment includes our fuel cell product line that had previously been reported in the Advanced Technology Systems segment. This reclassification more closely reflects the change in management of this product line and its related growth opportunities. Prior year results have been reclassified to reflect the segment change.

The composition of segments and measure of segment profitability is consistent with that used by our chief operating decision maker. The primary measure used by the chief operating decision maker for purposes of making decisions about allocating resources to the segments and assessing performance is operating profit, which equals sales less cost of sales and certain operating expenses. Items below the operating profit line of the Consolidated Statement of Income (interest and investment income, interest expense and other income/expense) are excluded from the measure of segment profitability reviewed by our chief operating decision maker and are not presented by operating segment. The accounting policies of the segments are generally the same as those described in Note 1, Significant Accounting Policies, of our annual report on Form 10-K for the year ended October 31, 2011.

Table of Contents**Nordson Corporation****10. Severance and restructuring costs.**

10. Severance and restructuring costs. In 2011, we announced a restructuring of the Georgia operations of our Adhesive Dispensing Systems segment in order to optimize operations and better serve our customers. The restructuring involves the expansion of our facility in Duluth and construction of a new facility in Swainsboro, where operations from our existing Swainsboro facility, as well as facilities in Norcross and Dawsonville, are being transferred. Severance costs and other termination fees associated with this action will occur through the third quarter of 2012 and are estimated to be approximately \$2,540. Of the total expense amount, \$257 was recorded in the three months ended April 30, 2012, \$687 was recorded in the three months ended January 31, 2012, and \$1,557 was recorded in 2011. Payments of \$1,682 were made in the six months ended April 30, 2012. In addition, \$2,916 of expenses related to production inefficiencies and moving costs were incurred in the three and six months ended April 30, 2012. Of this amount, \$2,040 is recorded in cost of sales, and \$876 is recorded in severance and restructuring costs.

In order to optimize Adhesive Dispensing Systems segment operations in Germany, a restructuring initiative was launched that will result in severance costs of approximately \$200. Of that amount, \$42 was recorded in the three months ended April 30, 2012, \$124 was recorded in the three months ended January 31, 2012, and \$32 was recorded in 2011. Payments of \$165 were made in the six months ended April 30, 2012.

In order to optimize Industrial Coating Systems operations in Ohio, a restructuring initiative was undertaken in 2012 that will result in approximately \$640 of severance costs. Of that amount, \$561 was recorded in the three and six months ended April 30, 2012. The remainder is expected to be recorded in the three months ended July 31, 2012. Payments of \$120 were made in the six months ended April 30, 2012.

11. Fair value measurements.

11. Fair value measurements. The inputs to the valuation techniques used to measure fair value are classified into the following categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The following table presents the classification of our financial assets and liabilities measured at fair value on a recurring basis at April 30, 2012:

	Total	Level 1	Level 2	Level 3
Assets:				
Rabbi trust (a)	\$ 13,745	\$	\$ 13,745	\$
Forward exchange contracts (b)	1,006		1,006	
Total assets at fair value	\$ 14,751	\$	\$ 14,751	\$
Liabilities:				
Deferred compensation plans (c)	\$ 5,721	\$ 5,721	\$	\$
Forward exchange contracts (b)	618		618	
Total liabilities at fair value	\$ 6,339	\$ 5,721	\$ 618	\$

Edgar Filing: NORDSON CORP - Form 10-Q

- (a) We maintain a rabbi trust that serves as an investment to shadow our deferred compensation plan liability. The investment assets of the trust consist of life insurance policies for which we recognize income or expense based upon changes in cash surrender value.
- (b) We enter into foreign currency forward contracts to reduce the risk of foreign currency exposures resulting from receivables, payables, intercompany receivables, intercompany payables and loans denominated in foreign currencies. The maturities of these contracts are usually less than 90 days. Foreign exchange contracts are valued using market exchange rates.
- (c) Executive officers and other highly compensated employees may defer up to 100% of their salary and incentive compensation into various non-qualified deferred compensation plans. Deferrals can be allocated to various market performance measurement funds. Changes in the value of compensation deferred under these plans are recognized each period based on the fair value of the underlying measurement funds.

12. Financial instruments.

12. Financial instruments. We operate internationally and enter into intercompany transactions denominated in foreign currencies. Consequently, we are subject to market risk arising from exchange rate movements between the dates foreign currencies are recorded and the dates they are settled. We regularly use foreign currency forward contracts to reduce our risks related to most of these transactions. These contracts usually have maturities of 90 days or less and generally require us to exchange foreign currencies for U.S. dollars at maturity, at rates stated in the contracts. These contracts are not designated as hedging instruments.

Gains and losses on foreign exchange contracts are recorded in Other net on the Consolidated Statement of Income together with the transaction gain or loss from the hedged balance sheet position. For the three months ended April 30, 2012, we recognized gains of \$988 on foreign exchange contracts and losses of \$1,291 from the change in fair value of balance sheet positions. For the three months ended April 30, 2011, we recognized gains of \$6,239 on foreign exchange contracts and losses of \$5,086 from the change in fair value of balance sheet positions. For the six months ended April 30, 2012, we recognized gains of \$12 on foreign exchange contracts and losses of \$139 from the change in fair value of balance sheet positions. For the six months ended April 30, 2011, we recognized losses of \$4,551 on foreign exchange contracts and gains of \$6,340 from the change in fair value of balance sheet positions. We do not use financial instruments for trading or speculative purposes.

We had the following outstanding foreign currency forward contracts at April 30, 2012:

	Sell		Buy	
	Notional Amounts	Fair Market Value	Notional Amounts	Fair Market Value
Euro	\$ 3,379	\$ 3,398	\$ 84,784	\$ 84,453
British pound			25,509	26,038
Japanese yen	4,677	4,761	10,715	10,882
Others	4,459	4,464	32,447	32,578
Total	\$ 12,515	\$ 12,623	\$ 153,455	\$ 153,951

The carrying amounts and fair values of financial instruments at April 30, 2012, other than receivables and accounts payable, are shown in the table below. The carrying values of receivables and accounts payable approximate fair value due to the short-term nature of these instruments.

	Carrying Amount	Fair Value
Cash and cash equivalents	\$ 57,537	\$ 57,537
Notes payable	4	4
Long-term debt, including current maturities	342,144	344,766
Foreign exchange contracts (net)	388	388

We used the following methods and assumptions in estimating the fair value of financial instruments:

Cash, cash equivalents and notes payable are valued at their carrying amounts due to the relatively short period to maturity of the instruments.

Long-term debt is valued by discounting future cash flows at currently available rates for borrowing arrangements with similar terms and conditions, which are considered to be Level 2 inputs under the fair value hierarchy.

Edgar Filing: NORDSON CORP - Form 10-Q

Foreign exchange contracts are estimated using observable marker-based inputs, which are considered to be Level 2 inputs under the fair value hierarchy.

Table of Contents**Nordson Corporation****13. Income taxes.**

13. Income taxes. We record our interim provision for income taxes based on our estimated annual effective tax rate, as well as certain items discrete to the current period. The effective tax rates for the three and six-month periods ended April 30, 2012 were 30.5% and 30.7%, respectively. During the three months ending January 31, 2012, we recorded tax expense of \$325 related to an adjustment of deferred taxes resulting from a tax rate reduction in Japan.

The effective tax rates for the three and six-month periods ended April 30, 2011 were 29.8% and 29.7%, respectively. In December 2010, Congress passed and the President signed the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010, which provided retroactive reinstatement of a research credit. As a result, we recorded an additional tax benefit related to 2010 of \$200 in the three months ended April 30, 2011, and \$1,242 in the three months ended January 31, 2011. Additionally, in the three month period ended April 30, 2011 we recorded a \$549 tax benefit related to prior years for deductions associated with the Company's Employee Stock Ownership Plan.

14. Contingencies.

14. Contingencies. We are involved in pending or potential litigation regarding environmental, product liability, patent, contract, employee and other matters arising from the normal course of business, including the environmental matter discussed below. After consultation with legal counsel, we do not expect that resolutions of these matters will result in a material effect on our financial condition, quarterly or annual results of operations or cash flows.

We have voluntarily agreed with the City of New Richmond, Wisconsin and other Potentially Responsible Parties to share costs associated with the remediation of the City of New Richmond municipal landfill (the Site) and the construction of a potable water delivery system serving the impacted area down gradient of the Site. At April 30, 2012 and October 31, 2011 our accrual for the ongoing operation, maintenance and monitoring obligation at the Site was \$795. The liability for environmental remediation represents management's best estimate of the probable and reasonably estimable undiscounted costs related to known remediation obligations. The accuracy of our estimate of environmental liability is affected by several uncertainties such as additional requirements that may be identified in connection with remedial activities, the complexity and evolution of environmental laws and regulations, and the identification of presently unknown remediation requirements. Consequently, our liability could be greater than our current estimate. However, we do not expect that the costs associated with remediation will have a material adverse effect on our financial condition or results of operations.

15. Subsequent events.

15. Subsequent events. Effective June 4, 2012 we entered into a \$250,000 unsecured credit facility with a U.S. bank. This facility has a 364-day term and contains events of default and covenants related to limitations on indebtedness and the maintenance of certain financial ratios that are consistent with our existing revolving credit facility. There was no balance outstanding under this facility as of the filing date of this Form 10-Q.

On May 18, 2012, we entered into a definitive agreement to purchase 100% of the outstanding shares of EDI Holdings, Inc., a Chippewa Falls, Wisconsin provider of slot coating and flat polymer extrusion dies for plastic processors and web converters. The purchase price is \$200,000, subject to adjustment as provided in the purchase agreement. On June 2, 2012, we entered into a definitive agreement to purchase 100% of the outstanding shares of Xaloy Superior Holdings, Inc., a New Castle, Pennsylvania manufacturer of melt delivery components for injection and extrusion machinery in the global plastic processing industry. The purchase price is \$200,000, subject to adjustment as provided in the purchase agreement. These acquisitions will be financed with availability under our existing revolving credit facility and the new credit facility described above. Both transactions are expected to close during our third quarter pending customary closing conditions and regulatory reviews.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is Management's discussion and analysis of certain significant factors affecting our financial condition and results of operations for the periods included in the accompanying condensed consolidated financial statements.

Results of Operations

Sales

Worldwide sales for the three months ended April 30, 2012 were \$315,193, a decrease of \$3,731, or 1.2%, from sales of \$318,924 for the comparable period of 2011. Sales volume increased 0.3%, and unfavorable effects of currency translations decreased sales by 1.5%. The sales volume increase consisted of 3.0% from acquisitions offset by a 2.7% decrease in organic volume. Sales decreases in our Adhesive Dispensing Systems and Industrial Coating Systems segments were partially offset by increases in our Advanced Technology Systems segment. Sales decreases in Europe, Japan, the Americas and Asia Pacific were partially offset by increases in the United States.

Sales of the Adhesive Dispensing Systems segment for the three months ended April 30, 2012 were \$154,698, a decrease of \$4,734, or 3.0% from the comparable period of 2011. Sales volume decreased 0.9%, and unfavorable currency translation effects decreased sales by 2.1%. The sales volume decrease consisted of a decline in organic volume of 2.6%, partially offset by 1.7% added growth from an acquisition. Sales volume decreases in Europe and the United States were partially offset by increases in the Americas, Asia Pacific and Japan regions. The decrease in organic sales volume was primarily due to softness in some durable goods end markets and to the timing of customers' buying patterns associated with some of our larger dollar nonwoven systems, partially offset by increases in consumer non-durable end markets.

Advanced Technology Systems segment sales for the three months ended April 30, 2012 were \$114,998 compared to \$112,603 in the comparable period of 2011, an increase of \$2,395, or 2.1%. Volume increased 2.8%, and currency translation effects decreased sales by 0.7%. The sales volume increase consisted of 6.1% from an acquisition partially offset by a decline in organic volume of 3.3%. Within the segment, volume increases in the United States were partially offset by decreases in our other four regions. Advanced Technology Systems segment sales were impacted by softness in some non-dispense product lines, primarily test and inspection and surface treatment product lines, where demand was impacted by softness in printed circuit board end markets.

Effective November 1, 2011, the Industrial Coating Systems segment includes our fuel cell product line that had previously been reported in the Advanced Technology Systems segment. This reclassification more closely reflects the change in management of this product line and its related growth opportunities. Prior year results have been reclassified to reflect the segment change.

Sales of the Industrial Coating Systems segment for the three months ended April 30, 2012 were \$45,497, a decrease of \$1,392, or 3.0%, from sales of \$46,889 for the three months ended April 30, 2011. Volume decreased 1.8%, and currency translation effects decreased sales by 1.2%. Sales volume increases in Europe were offset by decreases in our other four regions. Sales volume within this segment was negatively impacted by softness in some durable goods end markets and the timing of customer order patterns for some large engineered systems.

Table of Contents**Nordson Corporation**

On a geographic basis, sales in the United States increased 8.0% for the three months ended April 30, 2012 from the three months ended April 30, 2011. The change in sales volume consisted of 6.5% from acquisitions and 1.5% organic volume. Sales in the Americas region were down 0.9%, with volume increasing 2.4% and unfavorable currency effect reducing sales by 3.3%. The change in sales volume consisted of 2.1% from acquisitions and 0.3% organic volume. The European sales decrease of 6.8% consisted of a 1.9% volume decline and unfavorable currency effects of 4.9%. The decrease in sales volume consisted of 5.3% from organic volume partially offset by 3.4% from acquisitions. Sales in Japan for the three months ended April 30, 2012 decreased 0.5% from the comparable period of the prior year. The decrease consisted of a 1.8% decline in sales volume partially offset by favorable currency effects of 1.3%. The change in sales volume consisted of 0.2% from acquisitions offset by a decline in organic volume of 2.0%. Asia Pacific sales decreased 3.6%. Sales volume declined 4.1%, partially offset by favorable currency effects which added 0.5%. The change in sales volume consisted of 0.4% from acquisitions and negative 4.5% organic volume.

Worldwide sales for the six months ended April 30, 2012 were \$591,029, an increase of \$1,143, or 0.2%, from sales of \$589,886 for the comparable period of 2011. Of the increase, 1.0% related to volume, which was offset by unfavorable currency effects of 0.8%. The sales volume increase consisted of 3.2% from acquisitions offset by a 2.2% decrease in organic volume. Sales increases in our Advanced Technology segment were partially offset by decreases in our Adhesive Dispensing Systems and Industrial Coating Systems segments. By geography, year-to-date sales increases in the United States, the Americas and Japan were partially offset by decreases in Europe and Asia Pacific.

Sales of the Adhesive Dispensing Systems segment for the six months ended April 30, 2012 were \$293,870, a decrease of \$2,538, or 0.9% from the comparable period of 2011. Sales volume increased 0.2%, and unfavorable currency translation effects decreased sales by 1.1%. The sales volume increase was the result of 1.8% from an acquisition partially offset by a 1.6% decline in organic volume. Volume increases in Japan, the Americas and Asia Pacific were offset by decreases in the United States and Europe. Sales volume was negatively impacted by the timing of customers' buying patterns associated with some of our larger dollar systems.

Advanced Technology Systems segment sales for the six months ended April 30, 2012 were \$215,105 compared to \$209,235 in the comparable period of 2011, an increase of \$5,870, or 2.8%. Volume increased 3.2%, and currency translation effects decreased sales by 0.4%. The sales volume increase consisted of 6.5% from an acquisition partially offset by a decline in organic volume of 3.3%. Within the segment, volume increases in the United States and the Americas were partially offset by decreases in Europe, Japan and Asia Pacific. Advanced Technology Systems segment sales were impacted by softness in some non-dispense product lines.

Sales of the Industrial Coating Systems segment for the six months ended April 30, 2012 were \$82,054, a decrease of \$2,189, or 2.6%, from the six months ended April 30, 2011. Volume decreased 1.9%, and currency translation effects decreased sales by 0.7%. Sales volume decreases in Europe, Japan and Asia Pacific were partially offset by increases in the United States and the Americas. The sales decrease was driven by lower system orders in consumer durable markets.

On a geographic basis, sales in the United States increased 7.5% for the six months ended April 30, 2012 from the six months ended April 30, 2011. The change in sales volume consisted of 6.7% from acquisitions and 0.8% organic volume. Sales in the Americas region were up 0.2%, with volume increasing 3.6% offset by unfavorable currency effects of 3.4%. The change in sales volume consisted of 2.3% from acquisitions and 1.3% organic volume. The European sales decrease of 5.5% consisted of 2.1% volume and 3.4% from unfavorable currency effects. The decrease in sales volume consisted of 5.7% from organic volume partially offset by 3.6% from acquisitions. Sales in Japan for the six months ended April 30, 2012 increased 8.7% from the comparable period of the prior year. The increase consisted of volume of 4.8% and favorable currency effects of 3.9%. The change in sales volume consisted of 0.2% from acquisitions and 4.6% organic volume. Asia Pacific sales decreased 3.2%, with volume decreasing 3.8% partially offset by favorable currency effects of 0.6%. The change in sales volume consisted of 0.4% from acquisitions and negative 4.2% organic volume.

Cost of sales, including those costs classified as restructuring, for the three months ended April 30, 2012 were \$125,537, up from \$121,172 in 2011. Cost of sales, including those costs classified as restructuring, for the six months ended April 30, 2012 were \$232,027, up from \$225,963 in 2011. The gross margin percentage was 60.2% for the three months ended April 30, 2012, as compared to 62.0% for the comparable period of 2011 and was 60.7% for the six months ended April 30, 2012, as compared to 61.7% for the comparable period of 2011. Cost of goods sold restructuring of \$2,040 in 2012 were costs associated with the transfer of production and start-up activities related to our United States Adhesive Dispensing Systems plant consolidation initiative that resulted in decreases in the gross margin percentage of 0.6% and 0.3% for the three and six months ended April 30, 2012, respectively. Other decreases in gross margin percentages in 2012 were primarily due to systems/parts mix for certain product lines in the Adhesive Dispensing Systems and Industrial Coating Systems segments. The year-to-date gross margin percentage in 2012 was negatively impacted by increased charges for short-term inventory purchase accounting valuation adjustments.

Selling and administrative expenses, excluding severance and restructuring costs, for the three months ended April 30, 2012 were \$111,063, compared to \$105,324 for the comparable period of 2011. This represented an increase of \$5,739 or 5.4%. Selling and administrative expenses for the six months ended April 30, 2012 were \$223,111, compared to \$205,971 for the comparable period of 2011. This represented an increase of \$17,140, or 8.3%. The increases were largely due to higher compensation expenses and the first year effect of 2011 acquisitions. Selling and administrative expenses for the three and six months ended April 30, 2011 included impairment charges of \$1,322 related to the write-down of two of our facilities in Georgia related to a decision to consolidate operations and reduce the number of facilities there.

Selling and administrative expenses, excluding severance and restructuring costs, for the three months ended April 30, 2012 as a percent of sales increased to 35.2% from 33.0% for the comparable period of 2011. For the six months ended April 30, 2012, these expenses as a percent of sales increased to 37.7% from 34.9% for the comparable period of 2011. The increases were primarily the result of selling and administrative expenses increasing at a higher rate than sales.

In connection with the Adhesive Dispensing System initiative described above, and a 2012 Industrial Coating Systems initiative, severance and restructuring costs of \$1,736 and \$2,547 were recorded in the three and six months, respectively, ended April 30, 2012. Approximately \$120 of expenses related to these initiatives is expected to be incurred during the third quarter of 2012.

Operating profit as a percentage of sales was 24.4% for the three months ended April 30, 2012, down from 29.0% for the comparable period of 2011. Operating profit as a percentage of sales was 22.6% for the six months ended April 30, 2012, down from 26.8% for the comparable period of 2011. The decreases were primarily due to selling and administrative expenses increasing at a higher rate than sales and to severance and restructuring costs in the current year.

Operating profit as a percent of sales for the Adhesive Dispensing Systems segment decreased to 33.3% for the three months ended April 30, 2012 from 37.4% in 2011 and to 33.6% for the six months ended April 30, 2012 from 35.7% for the comparable period of 2011. Operating profit for the three and six months ended April 30, 2012 included \$3,215 and \$4,026 of severance and restructuring costs. Operating profit for the three and six months ended April 30, 2011 included impairment losses of \$1,322 on two facilities that were written down to fair value.

For the Advanced Technology Systems segment, operating profit as a percent of sales for the three months ended April 30, 2012 was 24.9% compared to 29.8% for the three months ended April 30, 2011. For the six months ended April 30, 2012 operating profit as a percent of sales was 20.8%, down from 27.2% last year. The decreases were due to selling and administrative expenses increasing at a higher rate than sales. Operating margin for the six months ended April 30, 2012 was negatively impacted by higher charges related to short-term purchase accounting valuation adjustments and expenses associated with the termination of a pension plan.

Nordson Corporation

Operating profit for the Industrial Coating Systems segment was 11.8% of sales for the three months ended April 30, 2012, compared to 16.3% for the three months ended April 30, 2011. For the six months ended April 30, 2012, operating profit was 7.9% of sales, compared 12.7% in the same period of 2011. The decreases were due to selling and administrative expenses increasing at a higher rate than sales.

Interest and Other Income (Expense)

Interest expense for the three months ended April 30, 2012 was \$2,161, up 61.5% from \$1,338 for the three months ended April 30, 2011. Interest expense for the six months ended April 30, 2012 was \$4,129, up 51.1% from \$2,733 for the six months ended April 30, 2011. The increases were due to higher borrowing levels resulting primarily from an acquisition in the fourth quarter of 2011.

Other income was \$137 for the three months ended April 30, 2012, and \$1,791 in the comparable period of the prior year. Included in those amounts were foreign exchange losses of \$302 in 2012 and foreign exchange gains of \$1,153 in 2011. Other income for the six months ended April 30, 2012 was \$1,129, compared to \$2,727 for the six months ended April 30, 2011. Included in those amounts were foreign exchange losses of \$127 in 2012 and foreign exchange gains of \$1,789 in 2011.

Income Taxes

The effective tax rates for the three and six-month periods ending April 30, 2012 were 30.5% and 30.7%, compared to 29.8% and 29.7% for the comparable periods ending April 30, 2011.

During the three months ending January 31, 2012, we recorded tax expense of \$325 related to an adjustment of deferred taxes resulting from a tax rate reduction in Japan.

In December 2010, Congress passed and the President signed the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010, which provided retroactive reinstatement of a research credit. As a result, we recorded an additional tax benefit related to 2010 of \$200 in the three months ended April 30, 2011, and \$1,242 in the three months ended January 31, 2011. Additionally, in the three month period end April 30, 2011 we recorded a \$549 tax benefit related to prior years for deductions associated with the Company's Employee Stock Ownership Plan.

Net Income

Net income for the three months ended April 30, 2012 was \$52,111, or \$0.80 per share on a diluted basis, compared to \$65,242, or \$0.95 per share on a diluted basis in the same period of 2011. This represents a 20.1% decrease in net income and a 15.8% decrease in earnings per share. For the six months ended April 30, 2012, net income was \$90,449, or \$1.38 per share on a diluted basis, compared to \$111,139, or \$1.61 per share for the six months ended April 30, 2011. This represents an 18.6% decrease in net income and a 14.3% decrease in earnings per share. The percentage decrease in earnings per share is less than the percentage decrease in net income due to a lower number of shares outstanding in the current year.

Foreign Currency Effects

In the aggregate, average exchange rates for 2012 used to translate international sales and operating results into U.S. dollars compared unfavorably with average exchange rates existing during 2011. It is not possible to precisely measure the impact on operating results arising from foreign currency exchange rate changes, because of changes in selling prices, sales volume, product mix and cost structure in each country in which we operate. However, if transactions for the three months ended April 30, 2012 were translated at exchange rates in effect during the same period of 2011, sales would have been approximately \$4,800 higher while third-party costs and expenses would have been approximately \$2,900 higher. If transactions for the six months ended April 30, 2012 were translated at exchange rates in effect during the same period of 2011, sales would have been approximately \$4,800 higher and third party costs would have been approximately \$2,700 higher.

Table of Contents**Nordson Corporation****Financial Condition**

During the six months ended April 30, 2012, cash and cash equivalents increased \$20,129. Cash provided by operations during this period was \$98,969, compared to \$112,062 for the six months ended April 30, 2011. Cash of \$113,570 was generated from net income adjusted for non-cash income and expenses as compared to \$131,387 last year. The decrease was primarily due to lower net income. Changes in operating assets and liabilities used \$14,601 of cash in the current year, compared to \$19,325 in 2011.

Cash used in investing activities was \$11,713 for the six months ended April 30, 2012, compared to \$24,327 in the comparable period of the prior year. Current year capital expenditures were \$14,370, up from \$10,714 from 2011. Significant expenditures in the current year include the previously announced expansion of our Duluth, Georgia facility and production equipment for our new facility in Swainsboro, Georgia. Cash of \$2,213 was received in the six months ended April 30, 2012 related to the sale of UV Curing graphic arts and lamps product lines that occurred in June 2010. In the six months ended April 30, 2011, cash of \$21,296 was used for the acquisition of Micromedics, Inc., and cash proceeds of \$7,552 were received from the maturity of bank certificates of deposit that had been classified as short-term marketable securities.

Cash used in financing activities was \$66,143 for the six months ended April 30, 2012, compared to \$65,056 for the six months ended April 30, 2011. In the current year, cash proceeds of \$22,992 were generated from net short-term and long-term borrowings. Cash of \$2,852 was also provided by the issuance of common stock related to stock option exercises. These amounts were offset by \$74,352 used for the repurchase of common shares and \$16,191 for dividend payments.

The following is a summary of significant changes in balance sheet captions from the end of 2011 to April 30, 2012. Receivables decreased \$5,126 due to lower sales in the second quarter of 2012 compared to the fourth quarter of 2011. Inventories increased \$13,022 due to the higher level of business activity expected in the third quarter of 2012. Property, plant and equipment net increased \$10,727 primarily due to our previously announced expansion of our Duluth, Georgia facility and production equipment and a capital lease asset related to a new leased facility in Swainsboro, Georgia. The increase of \$6,038 in income taxes payable was primarily due to the timing of required tax payments. The \$21,722 decrease in accrued liabilities is primarily due to payments of annual incentive compensation in the first quarter and a donation to the Nordson Corporation Foundation. The increase of \$7,285 in customer advanced payments can be traced to a higher level of engineered system orders that require partial payment in advance. Current maturities of long-term debt increased and long-term debt decreased as a result of the reclassification from long-term to current of our \$50,000 Prudential Senior note due in February 2013. The long-term debt decrease of \$26,979 reflects the reclassification mentioned above, partially offset by increased borrowing to support our share repurchase program. The increase of \$4,256 in long-term deferred income taxes was primarily due to amortization of goodwill for tax purposes and Micromedics purchase accounting adjustments. The \$4,860 increase in other long-term liabilities is largely due to a capital lease obligation related to our new Swainsboro, Georgia facility.

In September 2011, the board of directors approved a program that allowed for the repurchase of up to \$100,000 of common shares. This program was completed in April 2012, and the board of directors approved an additional repurchase program of up to \$100,000. Uses for repurchased shares include the funding of benefit programs including stock options, nonvested stock and 401(k) matching. During 2012, we repurchased 1,589 shares within these programs for a total amount of \$73,529, using working capital and proceeds from borrowings under our credit facilities.

On December 9, 2011 we entered into a \$500,000 unsecured multicurrency credit facility with a group of banks. This facility has a five-year term and includes a \$40,000 subfacility for swing-line loans. It may be increased from \$500,000 to \$750,000 under certain conditions. This facility contains customary events of default and covenants related to limitations on indebtedness and the maintenance of certain financial ratios. It replaced our existing revolving loan agreement that was scheduled to expire in 2012. Balances outstanding under the prior facility were transferred to the new facility. At April 30, 2012, \$215,275 was outstanding under this facility, compared to \$192,200 outstanding at October 31, 2011 under the prior facility. We were in compliance with all debt covenants at April 30, 2012, and the amount we could borrow under the facility would not have been limited by any debt covenants.

In 2008, we entered into a \$50,000 Senior Note Purchase Agreement with Prudential Investment Management, Inc. The Note bears interest at a rate of 4.98 percent, matures on February 22, 2013 and is unsecured. The Agreement contains customary events of default and covenants related to limitations on indebtedness and the maintenance of certain financial ratios. We were in compliance with all covenants at April 30, 2012.

On June 30, 2011, we entered into a \$150,000 three-year Private Shelf Note agreement with New York Life Investment Management LLC. Borrowings under the agreement may be up to 12 years, with an average life of up to 10 years and are unsecured. The interest rate on each borrowing can be fixed or floating and is based upon the market rate at the borrowing date. This agreement contains customary events of default and covenants related to limitations on indebtedness and the maintenance of certain financial ratios. At April 30, 2012 and October 31, 2011, \$75,000 was outstanding under this facility at a fixed rate of 2.21 percent per annum. We were in compliance with all covenants at April 30, 2012, and the amount we could borrow would not have been limited by any debt covenants.

Critical Accounting Policies

Our condensed consolidated financial statements and accompanying notes have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. The preparation of these financial statements requires management to make estimates, judgments and assumptions that affect reported amounts of assets, liabilities, revenues and expenses. On an ongoing basis, we evaluate the accounting policies and estimates used to prepare financial statements. Estimates are based on historical experience and assumptions believed to be reasonable under current facts and circumstances. Actual amounts and results could differ from these estimates used by management.

Certain accounting policies that require significant management estimates and are deemed critical to the results of operations or financial position were discussed in Item 7 of the 10-K for the year ended October 31, 2011. There were no material changes in these policies during the three months ended April 30, 2012.

Outlook

Current order rates are encouraging and exceed the levels of 2011 and the first half of 2012. However, global economic uncertainty remains, primarily within Europe. In addition, the availability of credit remains an issue for some of our smaller customers.

We will continue to look for strategic acquisition opportunities. We will also continue to develop new applications and markets for our technologies and move forward with additional lean and other operational initiatives to enhance our financial performance.

For the third quarter of 2012, sales are expected to increase 8% to 12% compared to the same period a year ago, including an estimated 4% unfavorable effect associated with currency translation. Diluted earnings per share are expected in the range of \$0.96 to \$1.04.

Safe Harbor Statements Under The Private Securities Litigation Reform Act Of 1995

This Form 10-Q, particularly Management's Discussion and Analysis, contains forward-looking statements within the meaning of the Securities Act of 1933, as amended, the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Such statements relate to, among other things, income, earnings, cash flows, changes in operations, operating improvements, businesses in which we operate and the U.S. and global economies. Statements in this 10-Q that are not historical are hereby identified as forward-looking statements and may be indicated by words or phrases such as anticipates, supports, plans, projects, expects, believes, should, would, could, management is of the opinion, use of the future tense and similar words or phrases.

In light of these risks and uncertainties, actual events and results may vary significantly from those included in or contemplated or implied by such statements. Readers are cautioned not to place undue reliance on such forward-looking statements. These forward-looking statements speak only as of the date made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Factors that could cause actual results to differ materially from the expected results are discussed in Item 1A, Risk Factors in our 10-K for the year ended October 31, 2011.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Information regarding our financial instruments that are sensitive to changes in interest rates and foreign currency exchange rates was disclosed in our 10-K for the year ended October 31, 2011. The information disclosed has not changed materially in the interim period since then.

ITEM 4. CONTROLS AND PROCEDURES

Our management with the participation of the principal executive officer (President and Chief Executive Officer) and principal financial officer (Senior Vice President, Chief Financial Officer) has reviewed and evaluated our disclosure controls and procedures (as defined in the Securities Exchange Act Rule 13a-15(e)) as of April 30, 2012. Based on that evaluation, our management, including the principal executive and financial officers, has concluded that our disclosure controls and procedures were effective as of April 30, 2012 in ensuring that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and is accumulated and communicated to management, including the principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in our internal controls over financial reporting that occurred during the three months ended April 30, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in pending or potential litigation regarding environmental, product liability, patent, contract, employee and other matters arising from the normal course of business, including the environmental matter discussed below. After consultation with legal counsel, we do not expect that resolutions of these matters will result in a material effect on our financial condition, quarterly or annual results of operations or cash flows.

We have voluntarily agreed with the City of New Richmond, Wisconsin and other Potentially Responsible Parties to share costs associated with the remediation of the City of New Richmond municipal landfill (the Site) and the construction of a potable water delivery system serving the impacted area down gradient of the Site. At April 30, 2012 and October 31, 2011 our accrual for the ongoing operation, maintenance and monitoring obligation at the Site was \$795. The liability for environmental remediation represents management's best estimate of the probable and reasonably estimable undiscounted costs related to known remediation obligations. The accuracy of our estimate of environmental liability is affected by several uncertainties such as additional requirements that may be identified in connection with remedial activities, the complexity and evolution of environmental laws and regulations, and the identification of presently unknown remediation requirements. Consequently, our liability could be greater than our current estimate. However, we do not expect that the costs associated with remediation will have a material adverse effect on our financial condition or results of operations.

ITEM 1A. RISK FACTORS

Information regarding our risk factors was disclosed in our 10-K for the year ended October 31, 2011. The information disclosed has not changed materially in the interim period since then.
