**THE COMPANY**

Halcón Resources Corporation is an independent energy company engaged in the acquisition, exploration and development of onshore oil and natural gas properties in the United States. We are active in several emerging liquids-rich resource style plays, including the Utica Shale/Point Pleasant formations in Ohio and Pennsylvania, the Woodbine/Eagle Ford formations in East Texas, the Tuscaloosa Marine Shale (TMS) formation in Louisiana, the Wilcox formation in East Texas and Southwest Louisiana, the Bakken Shale and Three Forks formations in the Williston Basin in North Dakota and Montana and the Mississippi Lime formation in northern Oklahoma. We have also acquired acreage in three other undisclosed locations. We also have mature oil and natural gas reserves located primarily in Wichita, Wilbarger and Starr Counties, Texas, Pontotoc County, Oklahoma, and in several parishes in Louisiana.

As of December 31, 2011, Halcón's estimated net proved reserves were 21.1 million barrels of oil equivalent, or MMBoe, of which approximately 59% were crude oil, 32% were natural gas, and 9% were natural gas liquids. At December 31, 2011, Halcón's proved developed reserves comprised 64% of its total proved reserves. For the year ended December 31, 2011, Halcón's production averaged 4,121 Boe per day, which was 59% oil, 29% natural gas, and 12% natural gas liquids, net to its interest. For the quarter ended March 31, 2012, Halcón's net production averaged 4,055 Boe per day, which was 61% oil, 28% natural gas, and 11% natural gas liquids.

At December 31, 2011 GeoResources' estimated net proved reserves were 29.2 MMBoe, of which approximately 67% were crude oil, 29% were natural gas, and 4% were natural gas liquids. At December 31, 2011 GeoResources' proved developed reserves comprise 69% of its total proved reserves. For the year ended December 31, 2011, GeoResources' net production averaged 5,270 Boe per day, which was 64% oil, 34% natural gas, and 2% natural gas liquids. For the quarter ended March 31, 2012, GeoResources' net production averaged 6,809 Boe per day, which was 65% oil, 32% natural gas, and 3% natural gas liquids.

On a pro forma basis to give effect to our acquisition of GeoResources and our acquisitions of the East Texas Properties described below, Halcón's estimated net proved reserves as of December 31, 2011 were 62.6 MMBoe, of which approximately 67% were crude oil, 26% were natural gas, and 7% were natural gas liquids. Total pro forma combined oil, natural gas and natural gas liquids production for Halcón for the three months ended March 31, 2012 and for the year ended December 31, 2011 was approximately 1.1 MMBoe and 3.6 MMBoe, respectively.

Halcón is a Delaware corporation formerly known as RAM Energy Resources, Inc. Unless specifically incorporated by reference in this prospectus, information that you may find on Halcón's website is not part of this prospectus.

**Recent Developments**

We have recently engaged in several significant transactions:

***GeoResources Merger***

On August 1, 2012, we completed our acquisition of GeoResources. Under the terms of the merger agreement, GeoResources stockholders received \$20.00 per share in cash and 1.932 shares of Halcón common stock for each share of GeoResources common stock they owned. Warrants to purchase shares of GeoResources common stock that were outstanding and unexercised immediately prior to the Merger were assumed by Halcón and converted into warrants to acquire Halcón common stock and cash. In total, we paid approximately \$525.7 million in cash and issued approximately 51.3 million shares of our common stock to the GeoResources stockholders. As a result of the Merger, and after giving effect to our acquisition of the East Texas Assets described below, the former GeoResources stockholders own approximately 24% of our outstanding common stock. The historical financial statements, including the notes thereto, of Halcón and GeoResources and unaudited pro forma condensed combined financial information and the notes thereto are incorporated by reference in this prospectus. See "Where You Can Find More Information; Incorporation by Reference."

***Acquisition of the East Texas Assets***

In June 2012, one of our wholly owned subsidiaries entered into purchase and sale agreements with private oil and gas companies to acquire operated interests in 20,628 net acres of oil and gas leasehold in East Texas that we believe are prospective in the Woodbine formation. We refer to these interests as the East Texas Assets. As of the date of this

**Table of Contents**

prospectus, we are in the process of closing these acquisitions. The effective date of the transactions is April 1, 2012. Net production attributable to the East Texas Assets was approximately 2,800 Boe/d as of June 1, 2012. In total, we expect to pay approximately \$302.2 million in cash and issue approximately 20.8 million shares of our common stock in connection with our acquisition of the East Texas Assets. The historical statements of revenues and direct operating expenses, including notes thereto, of the East Texas Assets and unaudited pro forma financial information and the notes thereto are incorporated by reference in this prospectus. See *Where You Can Find More Information; Incorporation by Reference*.

***Acquisition of Ohio Properties***

On June 28, 2012, we completed the acquisition of acreage in Eastern Ohio, prospective for the Utica/Point Pleasant formations. Pursuant to the terms of a purchase agreement dated May 8, 2012 between NCL Appalachian Partners, L.P., or NCL, and one of our wholly owned subsidiaries, we acquired a working interest in approximately 27,000 net acres for an adjusted purchase price of approximately \$164 million in cash. We funded the acquisition with cash on hand. No oil or natural gas production or proved reserves were attributable to the acquired properties when the transaction was completed. The effective date of the transaction is June 1, 2012.

***Potential Divestiture of Eagle Ford Properties***

Pursuant to the terms of a non-compete covenant contained in a retention agreement between our current Chairman and Chief Executive Officer, Floyd C. Wilson, and his former employer, Petrohawk Energy Corporation, or Petrohawk, Halcón intends to divest certain oil and gas properties acquired in the GeoResources acquisition that are located in the vicinity of properties owned by Petrohawk at the time of its sale to BHP Billiton. These properties, which we refer to as the Eagle Ford Properties, are currently operated by GeoResources and are located principally in southwest Fayette and northeast Gonzales Counties of Texas. GeoResources' acreage position in the Eagle Ford Shale is approximately 24,000 net acres. To date, GeoResources has drilled and completed nine currently producing wells with two wells currently being completed, and five wells waiting on completion. At present, two dedicated rigs are drilling in this project area. GeoResources' working interests in the Eagle Ford drilling units range from 35% to 55% with an average working interest of approximately 45%. As of December 31, 2011, the Eagle Ford Properties had estimated proved reserves of approximately 1.0 MMBoe, of which 94% are oil and NGLs and 17% are proved developed.

***Amended Credit Facility***

In connection with the closing of our acquisition of GeoResources, we amended our senior revolving credit agreement to provide for a \$1.5 billion revolving credit facility with a borrowing base of \$525.0 million. Prior to this amendment, our \$500.0 revolving credit facility had a borrowing base of \$225.0 million. The borrowing base will be redetermined semi-annually, with Halcón and the lenders each having the right to one interim unscheduled redetermination between any two consecutive semi-annual redeterminations. The adjustment will be based on our oil and natural gas properties, reserves, total indebtedness and other relevant factors consistent with normal oil and gas lending criteria. The borrowing base is subject to a reduction equal to the product of 0.25 multiplied by the stated principal amount (without regard to any initial issue discount) of any notes that we may issue in the future.

Amounts outstanding under our revolving credit facility bear interest at specified margins over the base rate of 0.50% to 1.50% for ABR-based loans or at specified margins over LIBOR of 1.50% to 2.50% for Eurodollar-based loans. These margins will fluctuate based on our utilization of the facility. Borrowings will be secured by (a) first priority liens on at least 80% of the total value of substantially all of our oil and gas properties and assets, (b) all of the assets of, and equity interests in, our participating subsidiaries, and (c) not less than 65% of the voting stock and 100% of the non-voting stock of certain other subsidiaries. Amounts drawn down on the facility will mature on August 1, 2017.

The Credit Agreement contains customary financial and other covenants, including minimum coverage of interest expenses of not less than 2.5 to 1.0 and minimum working capital levels, measured by the ratio of current assets plus the unused commitment under the Credit Agreement to current liabilities, of not less than 1.0 to 1.0. In addition, we are subject to covenants limiting certain corporate activities, dividends and other restricted payments, transactions with affiliates, incurrence of debt, changes of control, asset sales, liens on properties and swap agreements.

***Issuance of Senior Notes due 2020***

On July 16, 2012, pursuant to a purchase agreement dated June 29, 2012, we issued and sold to certain financial institutions, as initial purchasers, under an indenture an aggregate principal amount of \$750 million of 9.75% senior notes due 2020 in accordance with a private placement conducted pursuant to Rule 144A under the Securities Act of 1933, as amended. The initial purchasers purchased the notes at a purchase price of 98.646% of the principal amount of the notes. The notes are guaranteed by certain of our subsidiaries and will be exchanged for similar notes registered under the Securities Act.

**RISK FACTORS**

An investment in our common stock involves significant risks. Before purchasing any of our common stock, you should carefully consider and evaluate all of the information included and incorporated by reference or deemed to be incorporated by reference in this prospectus or the applicable prospectus supplement, including the risk factors incorporated by reference herein from our Annual Report on Form 10-K for the year ended December 31, 2011 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2012, as updated by annual, quarterly and other reports and documents we file with the SEC after the date of this prospectus and that are incorporated by reference herein or in the applicable prospectus supplement. Additionally, you should consider the risk factors incorporated by reference herein from GeoResources Annual Report on Form 10-K for the year ended December 31, 2011, which is also incorporated by reference into this prospectus. Our business, results of operations or financial condition could be adversely affected by any of these risks or by additional risks and uncertainties not currently known to us or that we currently consider immaterial. If any of these risks were to materialize, our business, results of operations, cash flows and financial condition could be materially adversely affected. In that case, the trading price of our common stock could decline and you could lose all or part of your investment.

**USE OF PROCEEDS**

This prospectus relates to the offer and sale from time to time of up to an aggregate of 1,184,966 shares of common stock for the account of the selling stockholders referred to in this prospectus. We will not receive any of the proceeds from the sale of any shares of common stock by the selling stockholders. Any proceeds that we receive from the exercise of the Warrants will be used for general corporate purposes.

## **Table of Contents**

### **DESCRIPTION OF HALCÓN CAPITAL STOCK**

The following summary is a description of the material terms of Halcón's capital stock. This summary is not meant to be complete and is qualified by reference to the applicable provisions of the Delaware General Corporation Law (the "DGCL"), Halcón's certificate of incorporation, as amended, and Halcón's amended and restated bylaws. You are urged to read those documents carefully. Copies of our certificate of incorporation, including any amendments thereto, and our amended and restated bylaws are incorporated by reference in this prospectus. See "Where You Can Find More Information; Incorporation by Reference."

#### **Authorized Capital Stock**

Halcón's authorized capital stock consists of 366,666,666 shares of common stock, par value of \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. As of August 1, 2012, Halcón had approximately 211.8 million shares of common stock and no shares of preferred stock outstanding.

Selected provisions of Halcón's organizational documents are summarized below, however, you should read the organizational documents, which are filed as exhibits to Halcón's periodic filings with the SEC and incorporated herein by reference, for other provisions that may be important to you. In addition, you should be aware that the summary below does not give full effect to the terms of the provisions of statutory or common law which may affect your rights as a Halcón stockholder.

#### **Common Stock**

*Voting rights.* Each share of common stock is entitled to one vote in the election of Halcón directors and on all other matters submitted to a vote of Halcón stockholders. Halcón stockholders do not have the right to cumulate their votes in the election of directors.

*Dividends, distributions and stock splits.* Holders of Halcón common stock are entitled to receive dividends if, as and when such dividends are declared by Halcón's board of directors out of assets legally available therefor after payment of dividends required to be paid on shares of preferred stock, if any. Halcón's existing debt arrangements restrict its ability to pay cash dividends.

*Liquidation.* In the event of any dissolution, liquidation, or winding up of Halcón's affairs, whether voluntary or involuntary, after payment of debts and other liabilities and making provision for any holders of its preferred stock who have a liquidation preference, Halcón's remaining assets will be distributed ratably among the holders of common stock.

*Fully paid.* All shares of Halcón common stock outstanding are fully paid and nonassessable.

*Other rights.* Holders of Halcón common stock have no redemption or conversion rights and no preemptive or other rights to subscribe for Halcón's securities.

#### **Preferred Stock**

Halcón's board of directors has the authority to issue up to 1,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, dividend rates, conversion rates, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting any series or the designation of that series, which may be superior to those of the common stock, without further vote or action by the stockholders.

The particular terms of any issue of preferred stock will be described in the prospectus supplement relating to the issue. The form of the certificate of designation fixing the rights, preferences, privileges and restrictions of any particular series of shares of preferred stock will be filed with the SEC in connection with any offering of such shares of preferred stock, which form will be filed either as an exhibit to the registration statement of which this prospectus is a part or be incorporated by reference from a current report on Form 8-K that we file with the SEC, and you should read those documents for the complete terms of that preferred stock described in the prospectus supplement relating to the issue and for provisions that may be important to you. See "Where You Can Find More Information; Incorporation by Reference" below for information on how to obtain copies of these documents.

## **Table of Contents**

One of the effects of undesignated preferred stock may be to enable Halcón's board of directors to render more difficult or to discourage an attempt to obtain control of Halcón by means of a tender offer, proxy contest, merger or otherwise, and as a result to protect the continuity of Halcón management. The issuance of shares of the preferred stock by the Halcón board of directors may adversely affect the rights of the holders of Halcón common stock. For example, preferred stock issued by Halcón may rank superior to the common stock as to dividend rights, liquidation preference or both, may have full or limited voting rights and may be convertible into shares of common stock. Accordingly, the issuance of shares of Halcón preferred stock may discourage bids for Halcón common stock or may otherwise adversely affect the market price of Halcón common stock.

As of August 1, 2012, Halcón had no shares of preferred stock outstanding.

## **Delaware Anti-Takeover Law and Certain Charter and Bylaw Provisions**

Halcón's certificate of incorporation, bylaws and the Delaware General Corporation Law, referred to as the DGCL, contain certain provisions that could discourage potential takeover attempts and make it more difficult for stockholders to change management or receive a premium for their shares.

*Delaware law.* Under Section 203 of the DGCL, a corporation is prohibited from engaging in any business combination with a stockholder who, together with its affiliates or associates, owns (or who is an affiliate or associate of the corporation and within a three-year period did own) 15% or more of the corporation's outstanding voting stock (which we refer to as an interested stockholder) for a three-year period following the time the stockholder became an interested stockholder, unless:

prior to the time the stockholder became an interested stockholder, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

the interested stockholder owned at least 85% of the voting stock of the corporation, excluding specified shares, upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder; or

at or subsequent to the time the stockholder became an interested stockholder, the business combination is approved by the board of directors of the corporation and authorized by the affirmative vote, at an annual or special meeting, and not by written consent, of at least 66 2/3% of the outstanding voting shares of the corporation, excluding shares held by that interested stockholder.

A business combination generally includes:

mergers and consolidations with or caused by an interested stockholder;

sales or other dispositions of 10% or more of the assets of a corporation to an interested stockholder;

specified transactions resulting in the issuance or transfer to an interested stockholder of any capital stock of the corporation or its subsidiaries; and

other transactions resulting in a disproportionate financial benefit to an interested stockholder.

The provisions of Section 203 of the DGCL do not apply to a corporation if, subject to certain requirements, the certificate of incorporation or bylaws of the corporation contain a provision expressly electing not to be governed by the provisions of the statute or the corporation does not have voting stock listed on a national securities exchange or held of record by more than 2,000 stockholders.

## Edgar Filing: HALCON RESOURCES CORP - Form S-3ASR

Because Halcón's certificate of incorporation and bylaws do not include any provision to opt-out of Section 203 of the DGCL, the statute will apply to business combinations involving Halcón.

**Table of Contents**

*Charter and bylaw provisions.* Delaware law permits any Delaware corporation to classify its board of directors into as many as three (3) classes as equally as possible with staggered terms of office. After initial implementation of a classified board, one class will be elected at each annual meeting of the stockholders to serve for a term of three (3) years (depending upon the number of classes into which directors are classified) or until their successors are elected and take office. Halcón's certificate of incorporation and bylaws provide for a classified board of directors divided into three (3) classes, with the number of directors in each class as nearly equal as possible and each class serving for a term of three (3) years or until their successors are elected and qualified. Under Delaware law, stockholders of a corporation with a classified board of directors may only remove a director for cause unless the certificate of incorporation provides otherwise. Halcón's certificate of incorporation does not so provide and, accordingly, stockholders may only remove a director for cause. Further, Halcón's bylaws provide that a majority vote of the holders of the outstanding shares entitled to vote at the meeting is required to effect such removal. The likely effect of the classification of the board of directors and the limitations on the removal of directors is an increase in the time required for the stockholders to change the composition of the board of directors. For example, because only approximately one-third of the directors may be replaced by stockholder vote at each annual meeting of stockholders, stockholders seeking to replace a majority of the members of the Halcón board of directors will need at least two annual meetings of stockholders to effect this change.

**Transfer Agent and Registrar**

The transfer agent and registrar for Halcón common stock is Continental Stock Transfer & Trust Company, 17 Battery Place, New York, NY 10004. Its phone number is (212) 509-4000.

**Table of Contents****SELLING STOCKHOLDERS**

The shares of common stock that may be offered by the selling stockholders are issuable upon exercise of the Warrants. We are registering the shares of common stock in order to permit the selling shareholders to offer the shares for resale from time to time.

No offer or sale under this prospectus may be made by a stockholder unless that holder is listed in the table below, in a supplement to this prospectus or in an amendment to the related registration statement. We will supplement or amend this prospectus to include additional selling stockholders upon request and upon provision of all required information to us, subject to the terms of a registration rights agreement between us and the holders of the Warrants. This prospectus will not cover subsequent sales of common stock purchased from a selling stockholder named in this prospectus.

The following table sets forth the maximum number of shares of our common stock to be sold by the selling stockholders, assuming the exercise of all Warrants held by or for the benefit of each selling stockholder for shares of our common stock. The table also sets forth the name of each selling stockholder, the nature of any position, office, or other material relationship which the selling stockholder has had, within the past three years, with us or with any of our predecessors or affiliates, and the number of shares of our common stock to be owned by such stockholders after completion of the offering.

Each of those selling stockholders that are identified as a registered broker-dealer or as an affiliate of a broker-dealer have represented to us, among other things, that (i) it acquired the securities to be resold under the registration statement of which this prospectus is a part in the ordinary course of business and (ii) it does not have any agreements, understandings or arrangements with any persons, either directly or indirectly, to dispose of such securities.

We prepared the table based on information supplied to us by the selling stockholders. We have not sought to verify such information. Additionally, the selling stockholders may have sold or transferred some or all of their shares of our common stock in transactions exempt from the registration requirements of the Securities Act since the date on which the information in the table was provided to us. Other information about the selling stockholders may also change over time.

Except as otherwise indicated, each selling stockholder has sole voting and dispositive power with respect to such shares.

## **FORWARD-LOOKING STATEMENTS**

The information discussed in this prospectus, our filings with the SEC and our public releases include forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. All statements, other than statements of historical facts, included in or incorporated by reference into this prospectus that address activities, events or developments that we expect or anticipate will or may occur in the future are forward-looking statements. These forward-looking statements may be, but are not always, identified by their use of terms and phrases such as may, expect, estimate, project, plan, believe, intend, achievable, anticipate, will, continue, potential, similar terms and phrases. Although we believe that the expectations reflected in these forward-looking statements are reasonable, they do involve certain assumptions, risks and uncertainties. Actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including, among others:

volatility in commodity prices for oil and natural gas;

our ability to successfully identify and acquire oil and natural gas properties, prospects and leaseholds, including undeveloped acreage in new and emerging resource plays;

our ability to successfully integrate acquired oil and natural gas businesses and operations;

our ability to profitably deploy our capital;

management's ability to execute our plans to meet our goals;

exploration and development risks;

our ability to attract and retain key members of senior management and key technical employees;

competition, including competition for acreage in resource play areas;

**Table of Contents**

the possibility that our industry may be subject to future regulatory or legislative actions (including any additional taxes and changes in environmental regulation);

the presence or recoverability of estimated oil and natural gas reserves and the actual future production rates and associated costs;

our ability to replace oil and natural gas reserves;

environmental risks;

drilling and operating risks;

the cost and availability of goods and services, such as drilling rigs, fracture stimulation services and tubulars;

general economic conditions, whether internationally, nationally or in the regional and local market areas in which we do business, may be less favorable than expected, including the possibility that economic conditions in the United States will worsen and that capital markets are disrupted, which could adversely affect demand for oil and natural gas and make it difficult to access financial markets;

social unrest, political instability, armed conflict, or acts of terrorism or sabotage in oil and natural gas producing regions, such as the Middle East or our markets; and

other economic, competitive, governmental, legislative, regulatory, geopolitical and technological factors that may negatively impact our business, operations or pricing.

Finally, our future results will depend upon various other risks and uncertainties, including, but not limited to, those detailed in the section entitled *Risk Factors* included in our Annual Report on Form 10-K for the year ended December 31, 2011, in our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2012, and in GeoResources' Annual Report on Form 10-K for the year ended December 31, 2011. All forward-looking statements are expressly qualified in their entirety by the cautionary statements in this paragraph and elsewhere in this document. Other than as required under the securities laws, we do not assume a duty to update these forward-looking statements, whether as a result of new information, subsequent events or circumstances, changes in expectations or otherwise.

**Item 15. Indemnification of Officers And Directors**

Article Seventh of our certificate of incorporation and Article VII of our bylaws provide for indemnification of our officers and directors, as well as our employees and agents, to the extent authorized by the Delaware General Corporation law, or DGCL. Pursuant to Section 145 of the DGCL, we generally have the power to indemnify our current and former directors, officers, employees and agents against expenses and liabilities that they incur in connection with any suit to which they are, or are threatened to be made, a party by reason of their serving in such positions so long as they acted in good faith and in a manner they reasonably believed to be in, or not opposed to, our best interests, and with respect to any criminal action, they had no reasonable cause to believe their conduct was unlawful. The statute expressly provides that the power to indemnify or advance expenses authorized thereby is not exclusive of any rights granted under any charter provision, bylaw, agreement, vote of stockholders or disinterested directors, or otherwise, both as to actions in such person's official capacity and as to action in another capacity while holding such office.

We also have the power to purchase and maintain insurance for such directors and officers. Section 145 authorizes a corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or enterprise, against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would otherwise have the power to indemnify him.

We have also entered into individual indemnification agreements with our directors and executive officers. These agreements indemnify those directors and officers to the fullest extent permitted by law against inordinate risks of claims and actions against them arising out of their service to and activities on behalf of Halcón.

shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer, or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
