(the Underwriter). The Option Shares were sold at a price to the public of \$40.00 per share.

The Company's total net proceeds from the sale of the Option Shares, after Underwriter's discounts, were approximately \$33,012,291.00.

The foregoing summary of the Underwriting Agreement is qualified by reference to the full text of the Underwriting Agreement, which was filed as Exhibit 1.1 to the Company's Current Report on Form 8-K filed on August 16, 2012, which is incorporated herein by reference.

Private Letter Ruling

In connection with our conversion to a real estate investment trust, or REIT, for federal income tax purposes, we are required to distribute to our shareholders, on or prior to December 31, 2013, all of our earnings and profits, or E&P, as determined for federal income tax purposes, accumulated through the end of 2012, or our pre-REIT E&P, if we elect REIT status for the taxable year beginning January 1, 2013. We expect to distribute all of our pre-REIT E&P in a one-time special distribution, the special E&P distribution, in the fourth quarter of 2012. However, our board of directors may determine to pay the special E&P distribution at another time, but no later than December 31, 2013.

The special E&P distribution will be composed of cash or shares of our common stock, at each shareholder's election, subject to a cap on the total amount of cash equal to 20% of the aggregate amount of the special E&P distribution. We received a private letter ruling from the Internal Revenue Service, or the IRS, on August 22, 2012, confirming that both the cash and stock components of the special E&P distribution will be treated as a taxable distribution, which will reduce our E&P. Pursuant to the IRS ruling, if we pay the special E&P distribution in 2012, the value of the shares paid in the special E&P distribution for federal income tax purposes will be their fair market value on the date of distribution.

The conversion rate of our 3.75% convertible senior notes will be adjusted in connection with the special E&P distribution pursuant to the anti-dilution provisions of the indenture governing the notes, which will result in additional shares of our common stock becoming issuable upon conversion of the notes. The IRS ruling provides that such adjustment will result in a deemed taxable distribution to the holders of the notes (which will reduce our E&P) in an amount equal to the number of additional shares of our common stock to which each holder will be entitled to receive as a result of the adjustment multiplied by the fair market value, as of the date of the adjustment, of such additional shares.

In addition, the IRS ruling permits us to make a second distribution in 2013 using the same cash/stock election procedure and cash cap described above in the event that we fail to distribute all of our pre-REIT E&P in the special E&P distribution.

Further details, including a description of the tax consequences of the special E&P distribution, will be provided in the election form and accompanying materials that will be mailed to stockholders in connection with the special E&P distribution.
