Table of Contents**NTT DOCOMO, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)****4. Segment reporting:**

DOCOMO's chief operating decision maker (CODM) is its board of directors. The CODM evaluates the performance and makes resource allocations of its segments based on the information derived from DOCOMO's internal management reports. Accounting policies used to determine segment profit or loss and segment assets are consistent with those used to prepare the consolidated financial statements in accordance with U.S. GAAP. There were no transactions between the operating segments.

DOCOMO has five operating segments, which consist of mobile phone business, credit services business, home shopping services business, internet connection services business for hotel facilities, and miscellaneous businesses. The mobile phone business includes mobile phone services (Xi services and FOMA services), satellite mobile communications services, international services and the equipment sales related to these services. Credit services business primarily includes DCMX services. Home shopping services business includes home shopping services provided primarily through TV media. Internet connection services business for hotel facilities includes high-speed internet connection services for hotel facilities, which are provided in many countries in the world, mainly Asia and Europe. The miscellaneous businesses primarily includes advertisement services, development, sales and maintenance of IT systems.

Due to its quantitative significance, only the mobile phone business qualifies as a reportable segment and therefore is disclosed as such. The remaining four operating segments are each quantitatively insignificant and therefore combined and disclosed as all other businesses.

5. Contingencies:

Litigation

DOCOMO is involved in litigation and claims arising in the ordinary course of business. Management believes that no litigation or claims outstanding, pending or threatened against DOCOMO would have a materially adverse effect on its results of operations, cash flows or financial position.

Guarantees

DOCOMO enters into agreements in the normal course of business that provide guarantees for counterparties. These counterparties include subscribers, related parties, foreign wireless telecommunications service providers and other business partners.

DOCOMO provides subscribers with guarantees for product defects of cellular phone handsets sold by DOCOMO, but DOCOMO is provided with similar guarantees by the handset vendors and no liabilities were recognized for these guarantees.

Though the guarantees or indemnifications provided in transactions other than those with the subscribers are different in each contract, the likelihood of almost all of the performance of these guarantees or indemnifications are remote and amount of payments DOCOMO could be claimed for is not specified in almost all of the contracts. Historically, DOCOMO has not made any significant guarantee or indemnification payments under such agreements. DOCOMO estimates the fair value of the obligations related to these agreements is not significant. Accordingly, no liabilities were recognized for these obligations.

Table of Contents**NTT DOCOMO, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)****6. Fair value measurements:**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value according to observability. The inputs are described as follows:

Level 1 - quoted prices in active markets for identical assets or liabilities

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability

Level 3 - unobservable inputs for the asset or liability

DOCOMO also distinguishes assets and liabilities measured at fair value every period on a recurring basis from those measured on a nonrecurring basis in certain circumstances.

(1) Assets and liabilities measured at fair value on a recurring basis

DOCOMO's assets and liabilities measured at fair value on a recurring basis include available-for-sale securities and derivatives.

DOCOMO's assets and liabilities that were measured at fair value on a recurring basis at March 31, 2013 and June 30, 2013 were as follows:

DOCOMO's assets that were measured at fair value on a nonrecurring basis for the three months ended June 30, 2012 and 2013 were as follows:

Receivables held for sale are classified as Level 2. DOCOMO measures the fair value of the receivables held for sale by discounting, at LIBOR-based discount rates, estimated future cash flows while taking into account factors such as default probabilities and loss severity of similar trade receivables.
