CAPITAL PROPERTIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2013 AND 2012

(Unaudited)

1. Description of business:

Capital Properties, Inc. and its wholly-owned subsidiaries, Tri-State Displays, Inc., Capital Terminal Company and Dunellen, LLC (collectively referred to as the Company), operate in two segments, leasing and petroleum storage.

The leasing segment consists of the long-term leasing of certain of its real estate interests in downtown Providence, Rhode Island (upon the commencement of which the tenants are required to construct buildings thereon, with the exception of a parking garage and Parcels 6B and 6C), the leasing of a portion of its building (Steeple Street Building) under short-term leasing arrangements and the leasing of locations along interstate and primary highways in Rhode Island and Massachusetts to Lamar Outdoor Advertising, LLC (Lamar) which has constructed outdoor advertising boards thereon. The Company anticipates that the future development of its remaining properties in and adjacent to the Capital Center area will consist primarily of long-term ground leases. Pending this development, the Company leases these parcels for public parking under short-term leasing arrangements to Metropark, Ltd. (Metropark).

The petroleum storage segment consists of the petroleum storage terminal (the Terminal) containing 1,044,000 shell barrels and the Wilkesbarre Pier (the Pier), both of which are owned by the Company and are collectively referred to as the Facility, located in East Providence, Rhode Island. For the first four months of 2013, the Company operated the Facility for Global Companies, LLC (Global) under a lease which expired April 30, 2013. Effective September 1, 2013, the Company entered into a through-put lease with Atlantic Trading & Marketing, Inc. (ATMI) for 425,000 shell barrels for a term of eight months with automatic three-month extensions unless terminated by either party. In addition, the Company granted ATMI a month-to-month option to lease all or a portion of two additional tanks with a total shell barrel capacity of 220,000 barrels. The Company has the right to terminate this monthly arrangement at any time upon thirty days notice. Under the terms of the ATMI lease, the Company provides terminaling services related to the receipt, storage and delivery at the Terminal s loading rack to customers of ATMI s marketing agent.

The Company is currently marketing the remainder of the Facility for lease to one or more petroleum storage and distribution users.

The principal difference between the two segments relates to the nature of the operations. In the leasing segment, the tenants under long-term land leases incur substantially all of the development and operating costs of the assets constructed on the Company s land, including the payment of real property taxes on both the land and any improvements constructed thereon. In the petroleum storage segment, the Company is responsible for all operating and maintenance expenditures, as well as capital improvements at the Facility.

2. Principles of consolidation and basis of presentation:

The accompanying condensed consolidated financial statements include the accounts and transactions of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

The accompanying condensed consolidated balance sheet as of December 31, 2012, has been derived from audited financial statements and the unaudited interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with United States generally accepted accounting principles (GAAP) have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. It is suggested that these condensed financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company s latest Form 10-K. In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial position as of September 30, 2013, the results of operations for the three and nine months ended September 30, 2013 and 2012, and the cash flows for the nine months ended September 30, 2013 and 2012.

The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

Table of Contents*Environmental incidents:*

The Company accrues a liability when an environmental incident has occurred and the costs are estimable. The Company does not record a receivable for recoveries from third parties for environmental matters until it has determined that the amount of the collection is reasonably assured. The accrued liability is relieved when the Company pays the liability or a third party assumes the liability. Upon determination that collection is reasonably assured or a third party assumes the liability, the Company records the amount as a reduction of expense.

The Company charges to expense those costs that do not extend the life, increase the capacity or improve the safety or efficiency of the property owned or used by the Company.

New accounting standards:

The Company reviews new accounting standards as issued. Although some of these accounting standards may be applicable to the Company, the Company has not identified any standards that it believes merit further discussion. The Company expects that none of the new standards would have a significant impact on its consolidated financial statements.

3. Use of estimates:

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

4. Properties and equipment:

Properties and equipment consists of the following:

	September 30, 2013	December 31, 2012
Properties on lease or held for lease:		
Land and land improvements	\$ 4,701,000	\$ 4,701,000
Building and improvements, Steeple Street	5,545,000	5,545,000
	10,246,000	10,246,000
Petroleum storage facility, on lease (Note 7):		
Land and land improvements	5,561,000	5,561,000
Buildings and structures	1,846,000	1,846,000
Tanks and equipment	14,626,000	14,626,000
	22,033,000	22,033,000

Edgar Filing: CAPITAL PROPERTIES INC /RI/ - Form 10-Q

Office equipment	83,000	83,000
	32,362,000	32,362,000
Less accumulated depreciation:		
Properties on lease or held for lease	731,000	581,000
Petroleum storage facility, on lease	10,833,000	10,349,000
Office equipment	77,000	73,000
	11,641,000	11,003,000
	\$ 20,721,000	\$ 21,359,000

5. Notes payable:

Bank loan:

In 2010, the Company borrowed \$6,000,000 from a bank. The loan bore interest at an annual rate of 6% and had a term of ten years with repayments on a 20-year amortization schedule (monthly principal payments of \$25,000 plus interest) and a balloon payment due in April 2020 when the loan was due to mature. The note contained the customary covenants, terms and conditions and permitted prepayment, in whole or in part, at any time without

Table of Contents

penalty if any prepayment is made from internally generated funds. As collateral for the loan, the Company granted the Bank a mortgage on Parcels 3S and 5 in the Capital Center. In June 2012, the Company made a principal prepayment of \$1,000,000.

In December 2012, the Company and the Bank entered into an Amended and Restated Loan Agreement (the *Loan Agreement*) pursuant to which the Company refinanced the \$2,700,000 remaining balance of the 2010 debt to the Bank and borrowed an additional \$3,025,000, which was used to pay part of an extraordinary dividend of \$2.25 per share to shareholders (see Note 9). The existing note to the Bank was amended and now bears interest at the annual rate of 3.34% for the first five years. Thereafter, the note will bear interest on either (a) a floating rate basis at LIBOR plus 215 basis points with a floor of 3.25% or (b) a fixed rate of 225 basis points over the five-year Federal Home Loan Bank of Boston Classic Advance Rate, which the Company will select at that time. The loan has a term of ten years with repayments on a 20-year amortization schedule (monthly principal payments of \$24,000 plus interest) and a balloon payment of \$2,869,000 in December 2022 when the loan matures. The Loan Agreement requires the Company to maintain at the Bank at least \$1,000,000 in cash and marketable securities. The Loan Agreement further contains customary covenants, terms and conditions and permits prepayment, in whole or in part, at any time without penalty if the prepayment is made from internally generated funds. Parcels 3S and 5 in the Capital Center continue to serve as collateral for the loan. Despite the \$3,025,000 increase in the bank loan, the principal and interest payments on an annual basis remain approximately the same due to a reduction in the interest rate.

In connection with the 2010 borrowing, the Company incurred financing fees totaling \$55,000, which were being amortized by the straight-line method, resulting in a balance of \$40,000 at the date of refinancing. In connection with the 2012 borrowing, the Company incurred an additional \$31,000 in financing fees. The total of \$71,000 is being amortized by the straight-line method over the 10-year term of the note (which approximates the effective interest rate method). Amortization of deferred financing fees is included in interest expense on the accompanying consolidated statements of operations and retained earnings.

Dividend Notes:

On December 27, 2012, in connection with the payment of the dividend described in Note 9, the Company issued \$11,787,000 in principal face amount of 5% dividend notes due December 26, 2022 (the *Dividend Notes*). The Dividend Notes are unsecured general obligations of the Company bearing interest at the annual rate of 5% payable semi-annually on June 15 and December 15 to note holders of record on June 1 and December 1 of each year. The Dividend Notes may be redeemed in whole or in part at any time and from time to time at the option of the Company. The Dividend Notes are subject to mandatory redemption in an amount equal to the Net Proceeds from the sale of any real property owned by the Company or any of its subsidiaries. Net Proceeds is defined as the gross cash received by the Company from any such sale reduced by the sum of (a) costs relating to the sale, (b) federal and state income taxes as a result of the sale, and (c) the amount used by the Company to pay in whole or in part financial institution debts secured by a mortgage of the Company's or any subsidiary's real property regardless of whether such mortgage encumbers the property sold. The Company has obligated itself not to grant any mortgages on any of its property located in the Capitol Center District in Providence, Rhode Island, other than Parcels 3S and 5, and to cause its subsidiaries not to grant any such mortgages, in each case without the consent of the holders of two-thirds of the outstanding principal face amount of the Dividend Notes. The Dividend Notes contain other customary terms and conditions.

6. Description of leasing arrangements:*Long-term land leases:*

As of September 30, 2013, the Company had entered into nine long-term land leases, including the Parcel 6A lease discussed below. Of the nine parcels, seven have had improvements constructed thereon.

Under the nine land leases, the tenants are required to negotiate any tax stabilization treaties or other arrangements, appeal any changes in real property assessments, and pay real property taxes assessed on land and improvements under these arrangements. Accordingly, real property taxes payable by the tenants are excluded from leasing revenues and leasing expenses on the accompanying consolidated statements of operations and retained earnings. The real property taxes attributable to the Company's land under these leases totaled \$241,000 and \$889,000, respectively, for the three and nine months ended September 30, 2013, and \$355,000 and \$958,000, respectively, for the three and nine months ended September 30, 2012.

In 2005, a long-term land lease commenced on an undeveloped parcel (Parcel 6) on which two residential buildings were planned. One building containing 96 apartments (120,000 gross square feet) was completed in September 2009. In May 2012, the designee of the holder of the leasehold mortgage on the parcel received title to the premises

Table of Contents

through a foreclosure deed, and the Company entered into three amended and restated leases, each for a portion of the parcel, with single purpose entities formed by the designee of the holder of the leasehold mortgage. Each of the leases has an initial term of approximately 95 years with two renewal terms of fifty years each. The lease for the portion of the parcel on which the improvements have been completed (Parcel 6A) provides for an annual rent of \$300,000 subject to periodic cost-of-living and appraisal adjustments. The portions of the parcel on which construction has not commenced (Parcels 6B and 6C) have different rental terms. With respect to Parcel 6B, commencing July 1, 2012, the annual rent is \$175,000. As to Parcel 6C, there is no rent until July 1, 2015, at which time the annual rent is \$200,000. In each case, the rent is subject to periodic adjustment. The ground leases are non-recourse to each of the tenants. With respect to the Parcel 6B and 6C leases, an affiliate of the leasehold mortgagee has guaranteed the payment by the tenants of rent and real property taxes as well as certain other tenant monetary obligations for a two-year period which commenced on May 18, 2012. Commencing May 18, 2014, the lessees of Parcels 6B and 6C each has the right to terminate its lease at any time during the remaining term of that lease upon thirty days notice.

Under the original Parcel 6 lease which commenced in 2005, the tenant was entitled to a credit for future rents equal to a portion of the real property taxes paid by the tenant through April 2007. In connection with Phase I of the tenant's project, commencing July 1, 2010, the annual rent increased from \$48,000 to \$300,000. As a result of the rent credit, the tenant was not required to make cash payments for Phase I rent until March 2012 when the rent credit was fully utilized. Commencing July 1, 2010, the Company reclassified each month \$25,000 of deferred leasing revenues to leasing revenues. For the nine months ended September 30, 2012, the Company reclassified the remaining \$70,000 of deferred leasing revenues to leasing revenues.

Short-term leases:

The Company leases the undeveloped parcels of land in or adjacent to the Capital Center area for public parking purposes to Metropark under a short-term cancellable lease.

At September 30, 2013, the Company has three tenants occupying 56 percent of the Steeple Street Building under short-term leases of five years or less at a current total annual rental of \$121,000. The Company is recognizing the revenue from these leases on a straight-line basis over the terms of the leases. At September 30, 2013 and December 31, 2012, the excess of straight-line over contractual rentals is \$12,000, which is included in prepaid and other on the accompanying consolidated balance sheets. The Company also reports as revenue from tenants reimbursements for common area costs and real property taxes. The Company is currently marketing the remaining portions of the building for lease.

Lamar lease:

The Company, through a wholly-owned subsidiary, leases 24 outdoor advertising locations containing 45 billboard faces along interstate and primary highways in Rhode Island and Massachusetts to Lamar under a lease which now expires in 2045. In June 2013, Lamar converted billboards at two locations to electronic billboards, which conversions extended the term of the lease for a total of twelve years. The Lamar lease also provides, among other things, for the following: (1) the base rent will increase annually at the rate of 2.75% for each leased billboard location on June 1 of each year, and (2) in addition to base rent, for each 12-month period commencing each June 1, Lamar must pay to the Company within thirty days after the close of the lease year 30% of the gross revenues from each standard billboard and 20% of the gross revenues from each electronic billboard for such 12-month period, reduced by the sum of (a) commissions paid to third parties and (b) base monthly rent for each leased billboard display for each 12-month period. For the lease years ended May 31, 2013 and 2012, the percentage rents totaled \$105,000 and \$84,000, respectively, which amounts are included in leasing revenues on the accompanying consolidated statements of operations and retained earnings for the nine months ended September 30, 2013 and 2012.

7. Petroleum storage facility and environmental incidents:

Exercise of purchase option by Global:

For the period May 1, 1998 to April 30, 2013, the Company and Global were parties to a lease agreement pursuant to which the Company operated the entire Facility for Global. The Company was responsible for labor, insurance, a portion of the real property taxes and other operating expenses, as well as certain capital improvements.

Under the terms of the Option Agreement between the Company and Global dated June 9, 2003 (the Option Agreement), on April 27, 2012, Global preliminarily exercised its option to purchase the Company's Facility. In compliance with the Option Agreement, the Company thereafter provided Global with a calculation of Adjusted Book Value (as that term is defined in the Option Agreement) of the Facility which amounted to \$19,700,000.

Table of Contents

Global then elected to proceed with the determination of Appraised Value (as defined in the Option Agreement). Global and the Company each selected an appraiser and elected to defer selection of a third appraiser until their respective appraisers completed their appraisals and discussed the results. The Company's appraiser arrived at an appraised value of \$46,200,000 for the Facility. Global's appraiser arrived at a value of \$15,400,000 for the Facility. As required by the Option Agreement, the two appraisers then engaged a third appraiser who on May 17, 2013 appraised the Facility at \$35,000,000. Global had ten business days following the receipt of the third appraisal to elect to proceed with a feasibility study of the Facility which it failed to do. As a result, the Option Agreement terminated June 3, 2013.

Under the terms of the Option Agreement, in the event Global elected not to purchase the Facility, Global was required to reimburse the Company for the cost of the Company's appraisal which totaled \$96,000; this amount is recorded as a reduction of leasing expense on the accompanying consolidated statement of operations and retained earnings for the nine months ended September 30, 2013. The payment was received in July 2013.

On May 1, 2012, the Company gave Global notice of non-extension of the Global lease. Global was solely responsible for the removal of its inventory and the cleaning of the tanks prior to May 1, 2013 and the costs associated with these activities, which activities were commenced by Global in late March 2013. The Global lease terminated on April 30, 2013, and the Company took full control of the Facility on that date. Prior to April 30, 2013, Global completed removal of product and the cleaning of the tanks. The final inspection report indicated that two tanks required repairs which the Company is presently undertaking. Upon completion, the Company will bill Global for all costs, including the repairs.

Effective May 1, 2013, the Company became responsible for all real property taxes on the Facility which total \$285,000 for 2013. During the term of its lease, Global had paid a portion of such taxes, which amounted to approximately \$145,000 for the year ended December 31, 2012. In 2013, Global paid \$60,000, its proportionate share of the 2013 taxes. The tax reimbursements are included in petroleum storage facility revenue on the accompanying consolidated statements of operations and retained earnings.

Management has prepared, and the Board has approved, a marketing plan for the Facility. Pursuant to the plan, the Company is marketing the Facility for lease to multiple users for temporary storage and distribution of heating oil and Ultra Low Sulfur Diesel (ULSD). As described in Note 1 above, ATMI leased 42% of the Company's shell barrel capacity as of September 1, 2013, at a monthly rent of approximately \$150,000 and up to 220,000 additional barrels on an as-used basis. The Company is seeking other users for short-term storage. The Company is considering all of its options with respect to the Facility.

On June 14, 2013, the Company severed four employees of the Facility and was paying to such employees, for varying periods depending on each employee's years of service, severance consisting of salary continuation and provision of medical benefits. The severed employees were subject to call back should the Facility reopen. If an employee failed to return, he forfeited the balance of his severance payment. In connection with the ATMI lease, the Company called back all of its former employees and all those employees reported to work. The Company is no longer paying any severance benefits.

Wilkesbarre Pier:

The Pier is a deep-water pier in East Providence, Rhode Island owned by the Company which is integral to the operation of the Terminal. The Pier and the Terminal are connected by two petroleum pipelines which the Company has a permanent right to use.

Pipeline rupture (2011):

On August 31, 2011, while excavating in connection with the construction of a highway for the Rhode Island Department of Transportation (RIDOT), Cardi Corporation (Cardi) ruptured an underground pipeline controlled and used by the Company for the transportation of ULSD from the Wilkesbarre Pier to its Petroleum Storage Facility. At the time, the Company was receiving product from a barge and, as a result of the rupture, approximately 70,000 gallons of ULSD were discharged. Pursuant to the Company s Emergency Response Plan, representatives of the Company took control of the spill site and coordinated the response of various governmental agencies as well as private contractors. Approximately 56,000 gallons of spilled diesel were recovered. On September 6, 2011, the Company turned over the responsibility for the cleanup to Cardi.

The Company notified the required government agencies and its insurance carriers of the rupture.

Management s estimate of the total cost incurred by the Company in responding to the emergency and repairing the pipeline was \$349,000, which amount was accrued as an expense at September 30, 2011, and the Company determined that no receivable could be recorded at that time. In November 2011, Cardi paid the Company \$89,000,

Table of Contents

which amount was offset against the expense previously recorded. During the fourth quarter of 2011, the Company paid an additional \$14,000 in connection with the pipeline rupture. At December 31, 2011, the Company determined that \$184,000 of the remaining liability was assumed by Cardi. The Company reduced the previously recorded liability and expense by that amount. In February 2012, Cardi paid the \$184,000. In May 2012, Cardi paid the remaining \$90,000.

Environmental incident (2002):

In 2002, during testing of monitoring wells at the Terminal, the Company's consulting engineer discovered free floating phase product in a groundwater monitoring well located on that portion of the Terminal purchased in 2000. Laboratory analysis indicated that the product was gasoline, which is not a product the Company ever stored at the Terminal. The Company commenced an environmental investigation and analysis, the results of which indicate that the gasoline did not come from the Terminal. The Company notified the Rhode Island Department of Environmental Management (RIDEM). RIDEM subsequently identified Power Test Realty Partnership (Power Test), the owner of an adjacent parcel, as a potentially responsible party for the contamination. Getty Properties Corp. is the general partner of Power Test. Power Test challenged that determination and, after an administrative hearing, in October 2008 a RIDEM Hearing Officer determined that Power Test is responsible for the discharge of the petroleum product under the Rhode Island Oil Pollution Control Act, R.I.G.L. Section 46-12.5.1-3 and Rule 6(a) and 12(b) of the Oil Pollution Control Regulations. The RIDEM Decision and Order requires Power Test to remediate the contamination as directed by RIDEM and remanded the proposed penalty to RIDEM for recalculation. In November 2008, Power Test appealed the decision to the Rhode Island Superior Court. In addition, in November 2008, Power Test sought, and received, a stay of the Decision and Order of the Hearing Officer pending a clarification by RIDEM of the amount of the proposed penalty. In October 2009, RIDEM issued a recalculated administrative penalty, and, subsequently, the RIDEM Hearing Officer issued a recommended amended decision, which was affirmed as a final decision by the RIDEM Director in December 2009. In January 2010, Power Test appealed that decision to the Superior Court. In September 2011, the Superior Court affirmed the decision of the RIDEM director. Power Test has appealed that decision to the Rhode Island Supreme Court. The Supreme Court has not yet determined whether it will hear the appeal.

In April 2009, the Company sued Power Test and Getty Properties Corp. in the Rhode Island Superior Court seeking remediation of the site or, in the alternative, the cost of the remediation. On May 1, 2009, Power Test and Getty Properties Corp. removed the action to the United States District Court for the District of Rhode Island (the Court). On May 22, 2009, Power Test and Getty Properties Corp. answered the Complaint and filed a Counterclaim against Dunellen, LLC and Capital Terminal Company alleging that Dunellen, LLC and Capital Terminal Company are responsible for the contamination. Getty Properties Corp. and Power Test joined Getty Petroleum Marketing, Inc., the tenant under a long-term lease with Getty Properties Corp. of the adjacent property, as a defendant. The Company amended its Complaint to add Getty Petroleum Marketing, Inc. as a defendant. Getty Petroleum Marketing, Inc. moved for summary judgment against the Company, Getty Properties Corp. and Power Test. On December 5, 2011, Getty Petroleum Marketing, Inc. filed for bankruptcy under Chapter 11 of the United States Bankruptcy Act. Thereafter, with Bankruptcy Court approval, Getty Petroleum Marketing, Inc. rejected its lease with Getty Properties Corp. On August 24, 2012, the Bankruptcy Court approved a plan to liquidate Getty Petroleum Marketing, Inc. On January 15, 2013, the Court granted Getty Petroleum Marketing, Inc.'s motion for summary judgment against the Company, Getty Properties Corp. and Power Test, dismissing the Company's third-party complaint.

The parties have agreed to stay the litigation pending a determination by the Rhode Island Supreme Court on the Power Test appeal.

There can be no assurance that the Company will prevail in this litigation.

Since January 2003, the Company has not incurred significant costs in connection with this matter, other than ongoing litigation costs, and is unable to determine the costs it might incur to remedy the situation, as well as any costs to investigate, defend and seek reimbursement from the responsible party with respect to this contamination.

Environmental remediation (1994):

In 1994, a leak was discovered in a 25,000 barrel storage tank at the Terminal which allowed the escape of a small amount of fuel oil. All required notices were made to RIDEM. In 2000, the tank was demolished and testing of the groundwater indicated that there was no large pooling of contaminants. In 2001, RIDEM approved a plan pursuant to which the Company installed a passive system consisting of three wells and commenced monitoring the wells.

In 2003, RIDEM decided that the passive monitoring system previously approved was not sufficient and required the Company to design an active remediation system for the removal of product from the contaminated site. The Company and its consulting engineers began the pre-design testing of the site in the fourth quarter of 2004. The

Table of Contents

consulting engineers estimated a total cost of \$200,000 to design, install and operate the system, which amount was accrued in 2004. Through 2006, the Company had expended \$119,000 and has not incurred any additional costs since then. In 2011, RIDEM notified the company to proceed with the next phase of the approval process, notifying the abutters of the proposed remediation system even though RIDEM has not yet taken any action on the Company's proposed plan. As designed, the system will pump out the contaminants which will be disposed of in compliance with applicable regulations. After a period of time, the groundwater will be tested to determine if sufficient contaminants have been removed. While the Company and its consulting engineers believe that the proposed active remediation system will correct the situation, it is possible that RIDEM could require the Company to expand remediation efforts, which could result in the Company incurring costs in excess of the remaining accrual of \$81,000.

8. Income taxes:

Deferred income taxes are recorded based upon differences between financial statement and tax basis amounts of assets and liabilities. The tax effects of temporary differences which give rise to deferred tax assets and liabilities were as follows:

	September 30, 2013	December 31, 2012
Gross deferred tax liabilities:		
Property having a financial statement basis in excess of tax basis	\$ 5,300,000	\$ 5,484,000
Insurance premiums and accrued leasing revenues	45,000	125,000
	5,345,000	5,609,000
Deferred tax assets	(128,000)	(219,000)
	\$ 5,217,000	\$ 5,390,000

9. Shareholders equity:

In November 2008, the Company restated its Articles of Incorporation:

To create a new class of common stock of the Company to be designated Class B Common Stock consisting of 3,500,000 shares, \$.01 par value per share;

To increase the number of authorized shares of Class A Common Stock from 6,000,000 to 10,000,000 shares; and

To provide for certain transfer and ownership restrictions as set forth therein.

In December 2008, the Company issued (in the form of a stock dividend) 3,299,956 shares of Class B Common Stock on a one-for-one basis for each share of Class A Common Stock held.

The holders of Class A and Class B Common Stock voted together as a single class on all matters submitted to the shareholders of the Company except for the election of the Board of Directors and except in connection with certain major corporate actions, including a sale of the Company. The holders of Class A Common Stock, voting as a separate class, elected one-third of the Board of Directors. The holders of Class B Common Stock, voting as a separate class, elected the remainder of the Board of Directors.

Class B Common Stock was convertible by the record owner thereof into the same number of shares of Class A Common Stock at any time.

The Class A Common Stock is listed on the Premier QX Tier of the OTCQX. The Class B Common Stock was not listed on any national or regional stock exchange, or on the National Association of Securities Dealers Automated Quotation National Market System or on the OTCQX.

The holders of Class A and Class B Common Stock shared equally in the earnings of the Company and in dividends declared by the Company.

The Company's Restated Articles of Incorporation prohibited any shareholder from acquiring more than a 5% interest in the Company's classes of common stock and prohibited any shareholder or any beneficial owner who, at the time of the filing of the Restated Articles of Incorporation owned 5% or more of the Company's classes of common stock from increasing their aggregate percentage ownership of both classes of common stock. If a shareholder acquired a number of shares that resulted in the limitation being exceeded, shares in excess of the limitation were automatically converted into an equal number of shares of Excess Stock, which class was authorized pursuant to the 2001 Amendment to the Company's Articles of Incorporation. Excess Stock was non-voting and not entitled to dividends. However, the shareholder could designate a qualifying transferee for shares of Excess Stock, at which time such shares would be converted and reissued as Class A or Class B Common shares as the case may be.

Table of Contents

The purpose for creating the Class B Common Stock was to put the Company in the position to qualify to be taxed as a real estate investment trust (REIT). One of the qualifications to be taxed as a REIT is that no more than 50% of the shares of a company can be held by five or fewer individuals during the last half of each taxable year. Currently, the majority shareholder controls 52.3% of the Company s outstanding common stock and three other shareholders each own more than 5% of the Company s outstanding common stock. In order for the Company to qualify to be taxed as a REIT, the major shareholders ownership of the Company s issued and outstanding common stock would need to be reduced below the 50% level.

On January 29, 2013, Board of Directors of the Company approved submitting to the shareholders at the 2013 annual meeting Amended and Restated Articles of Incorporation which, among other things, eliminated (1) the Class B Common shares and automatically converted all Class B Common shares into an equivalent number of Class A Common shares, and (2) all restrictions that existed with respect to the ownership of Class A and Class B Common stock. The Board took this action after concluding that conversion to a REIT was unlikely to occur at any time in the foreseeable future. On April 23, 2013, the shareholders approved the Amended and Restated Articles of Incorporation.

On December 7, 2012, the Company s Board of Directors declared a dividend of \$2.25 per share (\$14,850,000) to shareholders of record as of December 17, 2012. For shareholders owning 100 or more shares, the dividend was payable 20%, or \$.45 per share, in cash and 80%, or \$1.80 per share, in Dividend Notes to be issued by the Company. Shareholders owning less than 100 shares of any class of Company stock where the shares were titled in their names and not held by a broker, received 100% of the dividend in cash unless they elected to receive it 20% in cash and 80% in Dividend Notes. The dividend was paid on December 27, 2012, at which time the Company paid out \$3,063,000 in cash, and issued \$11,787,000 in 5% Dividend Notes described in Note 5. In accordance with GAAP, at December 7, 2012, the Company s retained earnings of \$3,870,000 was reduced to zero and the remaining \$10,980,000 was offset against capital in excess of par. In connection with the declaration of the dividend, the Company s Board of Directors received a solvency opinion from an investment banking firm to the effect that the dividend would not result in the Company s liabilities exceeding its assets and would not render the Company insolvent.

10. Operating segment disclosures:

The Company operates in two segments, leasing and petroleum storage.

The Company makes decisions relative to the allocation of resources and evaluates performance based on each segment s respective income before income taxes, excluding interest expense and certain corporate expenses.

Inter-segment revenues are immaterial in amount.

The following financial information is used for making operating decisions and assessing performance of each of the Company s segments for the three and nine months ended September 30, 2013 and 2012:

	Three Months Ended September 30		Nine Months Ended September 30

11. Related party transaction:

The Company and Providence and Worcester Railroad Company (the Railroad) have a common controlling shareholder. The Company has the right to use certain pipelines located in the right of way of the Railroad which were constructed by Getty Oil Company (Eastern Operations), Inc. (GettyEO). Pursuant to an agreement between the Railroad and GettyEO dated August 6, 1975, the Railroad has the right to relocate any portion of the pipelines located within the Railroad s right of way. The Company supported the extension of Waterfront Drive, so-called, up to Dexter Road and adjacent to the Company s Terminal, which road was constructed on the Railroad right of way. The road was completed in November 2012. The State of Rhode Island s plans for the Waterfront Drive extension required a relocation of a portion of the pipelines which the Railroad had the right to relocate. RIDOT entered into an agreement with the Railroad (the RIDOT Agreement) to reimburse the Railroad for reasonable costs incurred by it in relocating the pipelines, which were originally estimated to be \$159,000. Any substantial change to the estimate requires the approval of RIDOT.

In May 2011, the Company entered into an agreement with the Railroad to act as the Railroad s agent with respect to the relocation of the pipelines. The Company, without receiving compensation, is obligated under the agreement to select, direct and supervise all subcontractors subject to the Railroad s approval. Upon the Railroad s receipt of invoices from the contractors, the Railroad requires the Company to verify the accuracy of the invoices and submit a check to the Railroad covering the amount of the invoices. The Railroad pays the invoices, using the funds advanced by the Company. The Railroad is then obligated to submit the invoices to RIDOT for reimbursement. Any reimbursements received by the Railroad from RIDOT are required to be paid to the Company in a timely manner. Any shortfall in RIDOT s reimbursement is borne by the Company.

The costs incurred to relocate the pipeline totaled \$219,000, which amount the Railroad submitted to RIDOT in February 2012. In March and December 2012, RIDOT reimbursed the Railroad a total of \$198,000, which the

Railroad in turn paid to the Company. RIDOT has retained the remaining \$21,000 pending its audit of the project, which amount is included in prepaid and other on the accompanying consolidated balance sheets. The Company believes the remaining \$21,000 will ultimately be paid.

In May 2012, the Company and Railroad entered into a License Agreement licensing to the Company track facilities which may be installed in connection with a railcar-loading/unloading facility upon Railroad's right-of-way. The License Agreement continues through December 31, 2015, and thereafter may be extended for additional three-year periods unless cancelled by the Company upon 30-days written notice prior to termination.

12. Fair value of financial instruments:

The Company believes that the fair values of its financial instruments, including cash, receivables and payables, approximate their respective book values because of their short-term nature. The fair value of the bank note payable approximates its book value and was determined using borrowing rates currently available to the Company for loans with similar terms and maturities. Based upon an opinion obtained by the Company from an investment banking firm, the fair value of the dividend notes payable approximates their book value. The fair values described herein were determined using significant other observable inputs (Level 2) as defined by GAAP, which included statistics for the issuance, rating and trading of corporate debt securities issued by other companies.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD LOOKING STATEMENTS

Certain portions of this report, and particularly the Management's Discussion and Analysis of Financial Condition and Results of Operations, contain forward-looking statements within the meaning of Sections 27A of the Securities Act of 1933, as amended, and Sections 21E of the Securities Exchange Act of 1934, as amended, which represent the Company's expectations or beliefs concerning future events. The Company cautions that these statements are further qualified by important factors that could cause actual results to differ materially from those in the forward-looking statements, including, without limitation, the following: the ability of the Company to generate adequate amounts of cash; the collectability of the accrued leasing revenues when due over the terms of the long-term land leases; the commencement of additional long-term land leases; changes in economic conditions that may affect either the current or future development on the Company's parcels; the marketing of the petroleum storage facility for lease; and exposure to contamination, remediation or similar costs associated with the operation of the petroleum storage facility. The Company does not undertake the obligation to update forward-looking statements in response to new information, future events or otherwise.

1. Overview:

Critical accounting policies:

The Company believes that its revenue recognition policy for long-term leases with scheduled rent increases (leasing segment) meets the definition of a critical accounting policy which is discussed in the Company's Form 10-K for the year ended December 31, 2012. There have been no changes to the application of this accounting policy since December 31, 2012.

Segments:

The Company operates in two segments, leasing and petroleum storage.

The leasing segment consists of the long-term leasing of certain of its real estate interests in downtown Providence, Rhode Island (upon the commencement of which the tenants have been required to construct buildings thereon, with the exception of a parking garage and Parcels 6B and 6C), the leasing of a portion of the Steeple Street Building under short-term leasing arrangements and the leasing of locations along interstate and primary highways in Rhode Island and Massachusetts to Lamar Outdoor Advertising, LLC (Lamar) which has constructed outdoor advertising boards thereon. The Company anticipates that the future development of its remaining properties in and adjacent to the Capital Center area will consist primarily of long-term ground leases. Pending this development, the Company leases these parcels for public parking under short-term leasing arrangements to Metropark, Ltd. (Metropark).

The petroleum storage segment consists of the petroleum storage terminal (the Terminal) containing 1,044,000 shell barrels and the Wilkesbarre Pier (the Pier), both of which are owned by the Company and are collectively referred to as the Facility, located in East Providence, Rhode Island. For the first four months of 2013, the Company operated the Facility for Global Companies, LLC (Global) under a lease which expired April 30, 2013. Effective September 1, 2013, the Company entered into a through-put lease with Atlantic Trading & Marketing, Inc. (ATMI) for 425,000 shell barrels for a term of eight months with automatic three-month extensions unless terminated by either party. In addition, the Company granted ATMI a month-to-month option to lease all or a portion of two additional tanks with a

total shell barrel capacity of 220,000 barrels. The Company has the right to terminate this monthly arrangement at any time upon thirty days' notice. Under the terms of the ATMI lease, the Company provides terminaling services related to the receipt, storage and delivery at the Terminal's loading rack to customers of ATMI's marketing agent.

The Company is currently marketing the remainder of the Facility for lease to one or more petroleum storage and distribution users.

The principal difference between the two segments relates to the nature of the operations. In the leasing segment, the tenants under the long-term land leases incur substantially all of the development and operating costs of the assets constructed on the Company's land, including the payment of real property taxes on both the land and any improvements constructed thereon. In the petroleum storage segment, since April 30, 2013, the Company is responsible for all operating and maintenance expenditures, as well as capital improvements at the Facility.

Table of Contents**2. Liquidity and capital resources:**

As a result of the issuance of Dividend Notes and the refinancing of the bank loan in late December 2012, the Company's financial position has changed significantly. Additionally, the expiration of the Global lease on April 30, 2013, impacted the operating cash generated by the petroleum storage segment; however, the through-put lease entered into effective September 1, 2013, with ATMI has mitigated that impact.

Bank loan:

In December 2012, the Company and the Bank entered into an Amended and Restated Loan Agreement pursuant to which the Company refinanced the \$2,700,000 balance of the 2010 debt to the Bank and borrowed an additional \$3,025,000, which was used to pay part of an extraordinary dividend of \$2.25 per share to shareholders. (See below). The existing note to the Bank was amended and now bears interest at an annual rate of 3.34% for the first five years. Thereafter, the note will bear interest on either (a) a floating rate basis at LIBOR plus 215 basis points with a floor of 3.25% or (b) a fixed rate of 225 basis points over the five-year Federal Home Loan Bank of Boston Classic Advance Rate, which the Company will select at that time. The loan has a term of ten years with repayments on a 20-year amortization schedule (monthly payments of \$24,000 plus interest) and a balloon payment of \$2,869,000 in December 2022 when it matures. The note further contains the customary covenants, terms and conditions and permits prepayment, in whole or in part, at any time without penalty if the prepayment is made from internally generated funds. Parcels 3S and 5 in the Capital Center continue to serve as collateral for the loan. Despite the \$3,025,000 increase in the bank loan, the principal and interest payments on an annual basis remain approximately the same due to a reduction in the interest rate.

Dividend Notes:

On December 7, 2012, the Board of Directors of the Company declared an extraordinary dividend of \$2.25 per share on its Class A and Class B common stock to shareholders of record on December 17, 2012. On December 27, 2012, the Company paid out \$3,063,000 in cash and issued \$11,787,000 in principal face amount of 5% dividend notes due December 26, 2022 (the Dividend Notes). The Dividend Notes are unsecured general obligations of the Company bearing interest at the annual rate of 5% payable semi-annually on June 15 and December 15 to note holders of record on June 1 and December 1 of each year. The Dividend Notes may be redeemed in whole or in part at any time and from time to time at the option of the Company. The Dividend Notes are subject to mandatory redemption in an amount equal to the Net Proceeds from the sale of any real property owned by the Company or any of its subsidiaries. Net Proceeds means the gross cash received by the Company from any such sale reduced by the sum of (a) costs relating to the sale, (b) federal and state income taxes as a result of the sale, and (c) the amount used by the Company to pay in whole or in part financial institution debts secured by a mortgage of the Company's or any subsidiary's real property regardless of whether such mortgage encumbers the property sold. The Company has obligated itself not to grant any mortgages on any of its property located in the Capitol Center District in Providence, Rhode Island, other than Parcels 3S and 5, and to cause its subsidiaries not to grant any such mortgages, in each case without the consent of the holders of two-thirds of the outstanding principal face amount of the Dividend Notes. The Dividend Notes contain other customary terms and conditions. The interest payments on an annual basis total \$590,000.

Petroleum storage facility:

As reported in Note 7 of the Notes to Consolidated Financial Statements in Item 1 hereof, the Global lease expired April 30, 2013 and the Global Option Agreement terminated on June 3, 2013.

Management has prepared, and the Board has approved, a marketing plan for the Facility. Pursuant to the plan, the Company is marketing the Facility for lease to multiple users for temporary storage and distribution of heating oil and

Ultra Low Sulfur Diesel (ULSD). As described above, ATMI leased 42% of the Company's shell barrel capacity as of September 1, 2013, at a monthly rent of approximately \$150,000. The Company is seeking other users for short-term storage. Management cannot presently determine whether the Company will be able to find additional users for the terminal and if so, the amount of the revenue that will be generated. The Company is considering all of its options with respect to the Facility.

During the first nine months of 2013, the Company's operating activities provided \$942,000 of cash which was \$1,406,000 less than the cash provided by operating activities for the nine months ended September 30, 2012, principally due to the expiration of the Global lease on April 30, 2013. Cash and cash equivalents at September 30, 2013 increased \$727,000 from year-end. During the nine months ended September 30, 2013, the Company did not pay a dividend or purchase any properties and equipment.

Table of Contents

While the Facility was vacant, the Company incurred expense of approximately \$75,000 per month with respect to the Facility exclusive of severance payments and depreciation. On June 14, 2013, the Company severed four employees of the Facility and was paying to such employees, for varying periods depending on each employee's years of service, severance consisting of salary continuation and provision of medical benefits. The severed employees were subject to call back should the Facility reopen. If an employee failed to return, he forfeited the balance of his severance payment. In connection with the ATMI lease, the Company called back all of its former employees and all those employees reported to work. The Company is no longer paying any severance benefits.

Historically, the Company has had adequate liquidity to fund its operations. Even if portions of the Facility are not leased for an extended period of time (which the Company does not believe will be the case), the Company believes that it will have adequate liquidity from other operations to pay its expenses and other obligations, including debt service on the bank loan and the dividend notes and ordinary capital expenditures.

Cash and cash commitments:

At September 30, 2013, the Company had cash of \$3,405,000. Effective January 1, 2013, the Federal Deposit Insurance Corporation (FDIC) reduced the insurance on all non-interest bearing bank accounts to a maximum of \$250,000. The Company periodically evaluates the financial stability of the financial institution at which the Company's funds are held. In connection with the December 2012 Amended and Restated Loan Agreement, the Company is required to maintain unencumbered liquid assets (cash and marketable securities) of \$1,000,000 at the Bank.

Under the terms of the Company's long-term land leases, appraisals of the premises are periodically required at various stated intervals to provide the basis for recalculating the annual rent. An appraisal of Parcel 5 has been completed and, commencing April 1, 2013, the annual rent increased from \$344,000 to \$540,000.

At September 30, 2013, the Company has three tenants occupying 56% of the Steeple Street Building under short-term leases (five years or less) at a current total annual rental of \$121,000. The Company is currently marketing the remaining portions of the building for lease.

In June 2012, the Company prepaid \$1,000,000 on its bank loan payable. Further prepayments will depend on the Company's level of available cash.

In light of the extraordinary dividend paid in December 2012, at each of the quarterly Board meetings held in 2013, the Board of Directors voted to omit the regular quarterly dividend of \$0.03 per share. The Board will review the declaration of future dividends on a quarterly basis. The declaration of future dividends will depend on future earnings, financial performance, and the Company's success, or lack thereof, in marketing the Terminal for short-term storage and distribution of heating oil and ULSD. From April 30, 2013, when the Facility became idle to September 1, 2013 when the lease with ATMI commenced, monthly cash outlays to maintain the Facility had been approximately \$75,000, exclusive of severance payments.

3. Results of operations:

Three months ended September 30, 2013 compared to three months ended September 30, 2012:

Leasing segment:

	2013	2012	Difference
Leasing revenues	\$ 1,111,000	\$ 1,051,000	\$ 60,000
Leasing expense	197,000	257,000	\$ (60,000)
	\$ 914,000	\$ 794,000	

Leasing revenue increased due to scheduled increases in rentals under long-term land leases and increases under short-term leases. Leasing expense decreased principally due to a decrease in real property taxes resulting from a reassessment of the downtown Providence parcels.

Petroleum storage segment:

	2013	2012	Difference
Petroleum storage facility revenues	\$ 163,000	\$ 996,000	\$ (833,000)
Petroleum storage facility expense	764,000	662,000	\$ 102,000
	\$ (601,000)	\$ 334,000	

Table of Contents

Petroleum storage facility revenues decreased due to the expiration of the Global lease on April 30, 2013, offset in part by revenue from the new lease with ATMI which commenced September 1, 2013, at a monthly rent of \$150,000. Petroleum storage facility expense increased principally due to an increase in repairs and maintenance which included the epoxy coating of two tank bottoms at a total cost of \$90,000.

General:

For the three months ended September 30, 2013, general and administrative expense decreased \$14,000 principally due to a decrease in professional fees.

Interest expense:

For the three months ended September 30, 2013, bank loan interest expense is \$49,000 as compared to \$42,000 for the three months ended September 30, 2012. In June 2012, the Company made a principal prepayment of \$1,000,000, thereby reducing the interest expense.

For the three months ended September 30, 2013, the interest expense, dividend notes is \$147,000. See *Dividend Notes* above.

Nine months ended September 30, 2013 compared to nine months ended September 30, 2012:*Leasing segment:*

	2013	2012	Difference
Leasing revenues	\$ 3,385,000	\$ 3,154,000	\$ 231,000
Leasing expense	629,000	797,000	\$ (168,000)
	\$ 2,756,000	\$ 2,357,000	

Leasing revenue increased due to scheduled increases in rentals under long-term land leases and increases under short-term leases. Leasing expense decreased principally due to a decrease in real property taxes resulting from a reassessment of the downtown Providence parcels.

Petroleum storage segment:

	2013	2012	Difference
Petroleum storage facility revenues	\$ 1,502,000	\$ 2,957,000	\$ (1,455,000)
Petroleum storage facility expense	1,938,000	1,729,000	\$ 209,000
	\$ (436,000)	\$ 1,228,000	

Petroleum storage facility revenues decreased due to the expiration of the Global lease on April 30, 2013, offset in part by revenue from the new lease with ATMI which commenced September 1, 2013, at a monthly rent of \$150,000. Petroleum storage facility expense increased due to increases in professional fees in connection with the Global

Option Agreement (see Note 7 to Notes to Consolidated Financial Statements herein), repairs and maintenance which included the epoxy coating of two tank bottoms at a total cost of \$90,000, and insurance costs. In both years, the Company received reimbursement for costs expended in a prior year, which reimbursements were recorded as a reduction of expense. In 2013, the Company was reimbursed \$96,000 for costs incurred for the appraisal of the Facility in accordance with the Global Option Agreement (see Note 7 to Notes to Consolidated Financial Statements herein). In 2012, the Company was reimbursed \$90,000 for costs associated with a pipeline breach.

General:

For the nine months ended September 30, 2013, general and administrative expense increased \$87,000 principally due to legal and consulting fees incurred in connection with the marketing of the Facility.

Interest expense:

For the nine months ended September 30, 2013, bank loan interest expense is \$148,000 as compared to \$164,000 for the nine months ended September 30, 2012, resulting from the decrease in the interest rate on the refinanced loan. In June 2012, the Company made a principal prepayment of \$1,000,000, hereby reducing the interest rate. See *Bank Loan* above.

For the nine months ended September 30, 2013, the interest expense, dividend notes is \$443,000. See *Dividend Notes* above.

Item 4. Controls and Procedures

As required by Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the Exchange Act), the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. This evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's principal executive officer and the Company's principal financial officer. Based upon that evaluation, the principal executive officer and the principal financial officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms.

There was no significant change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting. The Company continues to enhance its internal controls over financial reporting, primarily by evaluating and enhancing process and control documentation. Management discusses with and discloses these matters to the Audit Committee of the Board of Directors and the Company's auditors.
