Table of Contents**Executive Compensation Advisory Vote**

We are asking stockholders to approve on an advisory basis our named executive officer compensation.

The Company's compensation philosophy and program design is intended to pay for performance, support the Company's business strategy and align executives' interests with those of stockholders and employees. A significant portion of the Company's executive compensation opportunity is related to factors that directly and indirectly influence stockholder value, including stock performance, earnings per share, operational performance, free cash flow performance and return on invested capital. The Company believes that as an executive's responsibilities increase, so should the portion of his or her total pay comprised of annual incentive cash bonuses and long-term incentive compensation, which supports and reinforces the Company's pay for performance philosophy.

For more information on the Company's executive compensation programs, please see Proposal Number 2 Non-Binding Advisory Resolution to Approve the Compensation of the Company's NEOs and Compensation Discussion and Analysis in this proxy statement.

Independent Registered Public Accounting Firm

As a matter of good corporate governance, we are asking our stockholders to ratify the selection of KPMG LLP as our independent registered public accounting firm for 2014. The Company's Audit Committee considers a number of factors when selecting a firm, including the qualifications, staffing considerations, and the independence and quality controls of the firms considered. The Audit Committee has appointed KPMG LLP as the Company's independent registered public accounting firm for 2014. KPMG LLP served as the Company's independent registered public accounting firm for 2013 and is considered to be well-qualified.

Set forth below is summary information with respect to KPMG LLP's fees for services provided in 2013 and 2012.

AGCO CORPORATION
PROXY STATEMENT FOR THE
ANNUAL MEETING OF STOCKHOLDERS

April 24, 2014

INFORMATION REGARDING THE ANNUAL MEETING

INFORMATION REGARDING PROXIES

This proxy solicitation is made by the Board of Directors (the Board) of AGCO Corporation (the Company), which has its principal executive offices at 4205 River Green Parkway, Duluth, Georgia 30096. By signing and returning the enclosed proxy card, you authorize the persons named as proxies on the proxy card to represent you at the meeting and vote your shares.

If you attend the meeting, you may vote by ballot. If you are not present at the meeting, your shares can be voted only when represented by a proxy either pursuant to the enclosed proxy card or otherwise. You may indicate a vote on the enclosed proxy card in connection with any of the listed proposals, and your shares will be voted accordingly. If you indicate a preference to abstain from voting, no vote will be cast. You may revoke your proxy card before balloting begins by notifying the Corporate Secretary in writing at 4205 River Green Parkway, Duluth, Georgia 30096. In addition, you may revoke your proxy card before it is voted by signing and duly delivering a proxy card bearing a later date or by attending the meeting and voting in person. If you return a signed proxy card that does not indicate your voting preferences, the persons named as proxies on the proxy card will vote your shares (i) in favor of all of the ten director nominees described below; (ii) in favor of the non-binding advisory resolution to approve the compensation of the Company's named executive officers (NEOs); (iii) in favor of ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for 2014; and (iv) in their best judgment with respect to any other business brought before the Annual Meeting.

The enclosed proxy card is solicited by the Board, and the cost of solicitation of proxy cards will be borne by the Company. The Company may retain an outside firm to aid in the solicitation of proxy cards, the cost of which the Company expects would not exceed \$25,000. Proxy solicitation also may be made personally or by telephone by officers or employees of the Company, without added compensation. The Company will reimburse brokers, custodians and nominees for their customary expenses in forwarding proxy material to beneficial owners.

This proxy statement and the enclosed proxy card are first being sent to stockholders on or about March 24, 2014. The Company's 2013 Annual Report to its stockholders and its 2013 Annual Report on Form 10-K also are enclosed and should be read in conjunction with the matters set forth herein.

INFORMATION REGARDING VOTING

Only stockholders of record as of the close of business on March 14, 2014, are entitled to notice of and to vote at the Annual Meeting. On March 14, 2014, the Company had outstanding 93,909,208 shares of common stock, each of which is entitled to one vote on each matter coming before the meeting. No cumulative voting rights exist, and dissenters' rights for stockholders are not applicable to the matters being proposed. For directions to the offices of the Company where the Annual Meeting will be held, you may contact our corporate office at (770) 813-9200.

Quorum Requirement

A quorum of the Company's stockholders is necessary to hold a valid meeting. The Company's By-Laws provide that a quorum is present if a majority of the outstanding shares of common stock of the Company entitled to vote at the meeting are present in person or represented by proxy. Votes cast by proxy or in person at the Annual Meeting will be tabulated by the inspector of elections appointed for the meeting, who also will determine whether a quorum is present for the transaction of business. Abstentions and broker non-votes will be treated as shares that are present and entitled to vote for purposes of determining whether a quorum is present. A broker non-vote occurs on an item when a broker or other nominee is not permitted to vote on that item without instruction from the beneficial owner of the shares and no instruction is given.

Table of Contents

Vote Necessary for the Election of Directors

Directors are elected by a plurality of the votes cast in person or by proxy at the Annual Meeting. However, in uncontested elections of directors, such as this election, in the event that a nominee does not receive the affirmative vote of a majority of the votes cast in person or by proxy, he or she is required to tender his or her resignation. See Proposal Number 1 Election of Directors in this proxy statement for a more detailed description of the majority voting procedures in our By-Laws.

Under the New York Stock Exchange (NYSE) rules, if your broker holds your shares in its name, your broker is not permitted to vote your shares with respect to the election of directors if your broker does not receive voting instructions from you. Abstentions and broker non-votes will not affect the election outcome.

Vote Necessary to Adopt the Non-Binding Advisory Resolution to Approve the Compensation of the Company s NEOs

Adoption of the non-binding advisory resolution to approve the compensation of the Company s NEOs requires the affirmative vote of a majority of the votes cast in person or by proxy at the Annual Meeting. Because the stockholder vote on this proposal is advisory only, it will not be binding on the Company or the Board. However, the Compensation Committee will review the voting results and take them into consideration when making future decisions regarding executive compensation as the Compensation Committee deems appropriate.

Under the NYSE rules, if your broker holds your shares in its name, your broker is not permitted to vote your shares with respect to the non-binding advisory resolution to approve the compensation of the Company s NEOs if your broker does not receive voting instructions from you. Abstentions and broker non-votes will not affect the vote on this proposal.

Vote Necessary to Ratify the Appointment of Independent Registered Public Accounting Firm

Ratification of the appointment of KPMG LLP as the Company s independent registered public accounting firm for 2014 requires the affirmative vote of a majority of the votes cast in person or by proxy at the Annual Meeting.

Under the NYSE rules, if your broker holds your shares in its name, your broker is permitted to vote your shares with respect to the ratification of the appointment of KPMG LLP as the Company s independent registered public accounting firm for 2014 even if your broker does not receive voting instructions from you. Abstentions and broker non-votes will not affect the vote on this proposal.

Other Matters

With respect to any other matter that may properly come before the Annual Meeting for stockholder consideration, a matter generally will be approved by the affirmative vote of a majority of the votes cast in person or by proxy at the Annual Meeting unless the question is one upon which a different vote is required by express provision of the laws of Delaware, federal law, the Company s Certificate of Incorporation or the Company s By-Laws, or, to the extent permitted by the laws of Delaware, the Board has expressly provided that some other vote shall be required, in which case such express provisions shall govern.

Important Notice Regarding the Availability of Proxy Materials

As required by rules adopted by the United States Securities and Exchange Commission (SEC), the Company is making this proxy statement and its annual report available to stockholders electronically via the Internet. The proxy statement and annual report to stockholders are available at www.agcocorp.com. The proxy statement is available under the heading SEC Filings in our website s Investors section located under Company, and the annual report to stockholders is available under the heading Annual Reports in our Investors section.

PROPOSAL NUMBER 1

ELECTION OF DIRECTORS

The Company's By-Laws provide for a majority voting standard for the election of directors in uncontested elections. While directors are elected by a plurality vote, in the event that a nominee does not receive the requisite majority vote, he or she is required to tender his or her resignation. In that event, the Governance Committee will determine whether to accept the director's resignation and will submit its recommendation to the Board. In deciding whether to accept a director's resignation, the Board and our Governance Committee may consider any factors that they deem relevant. Our By-Laws also provide that the director whose resignation is under consideration will abstain from the deliberation process with respect to his or her resignation.

In the event that a stockholder proposes a nominee to stand for election with nominees selected by the Board, and the stockholder does not withdraw the nomination prior to the tenth day preceding our mailing the notice of the stockholders meeting (i.e., a contested election), then our By-Laws provide that directors will be elected by a plurality vote.

For this year's Annual Meeting, the Governance Committee has recommended, and the Board has nominated, the ten individuals named below to serve as directors until the Annual Meeting in 2015 or until their successors have been duly elected and qualified. The following is a brief description of the business experience, qualifications and skills of each of the ten nominees for directorship:

Director Qualifications and Skills: Mr. Visser's substantial experience with and knowledge of financial capital markets, particularly in our Europe/Africa/Middle East (EAME) region, including his 15 years of service as Chairman of the Credit Committee of Rabobank Nederland, provides the Board with significant international financial expertise. His tenure with the Board also provides stability in leadership, and he serves as a continued source of regional diversity.

The Board recommends a vote FOR the nominees set forth above.

BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Director Independence

In accordance with the rules of the NYSE, the Board has adopted categorical standards to assist it in making determinations of its directors independence. The Board has determined that in order to be considered independent, a director must not:

be an employee of the Company or have an immediate family member, as that term is defined in the General Commentary to Section 303A.02(b) of the NYSE rules, who is an executive officer of the Company at any time during the preceding three years;

receive or have an immediate family member who receives or solely own any business that receives during any twelve-month period within the preceding three years direct compensation from the Company or any subsidiary or other affiliate in excess of \$120,000, other than for director and committee fees and pension or other forms of deferred compensation for prior service to the Company or, solely in the case of an immediate family member, compensation for services to the Company as a non-executive employee;

be a current partner or current employee of a firm that is the internal or external auditor of the Company or any subsidiary or other affiliate, or have an immediate family member that is a current partner or current employee of such a firm who personally works on an audit of the Company or any subsidiary or other affiliate;

have been or have an immediate family member who was at any time during the preceding three years a partner or employee of such an auditing firm who personally worked on an audit of the Company or any subsidiary or other affiliate within that time;

be employed or have an immediate family member that is employed either currently or at any time within the preceding three years as an executive officer of another company in which any present executive officers of the Company or any subsidiary or other affiliate

Edgar Filing: AGCO CORP /DE - Form DEF 14A

serve or served at the same time on the other company's Compensation Committee; or

be a current employee or have an immediate family member that is a current executive officer of a company that has made payments to or received payments from the Company or any subsidiary or other affiliate for property or services in an amount which, in any of the preceding three years of such other company, exceeds (or in the current year of such other company is likely to exceed) the greater of \$1.0 million or two percent of the other company's consolidated gross revenues for that respective year.

In addition, in order to be independent for purposes of serving on the Audit Committee, a director may not:

accept any consulting, advisory or other compensatory fee from the Company or any subsidiary; or

Table of Contents

be an affiliated person, as that term is used in Section 10A(m)(3)(B)(ii) of the Securities Exchange Act of 1934 (the Exchange Act), of the Company or any of its subsidiaries.

Finally, in order to be independent for purposes of serving on the Compensation Committee, a director may not:

be a current or former employee or former officer of the Company or an affiliate or receive any compensation from the Company other than for services as a director;

receive remuneration from the Company or an affiliate, either directly or indirectly, in any capacity other than as a director, as that term is defined in Section 162(m) of the IRC; or

have an interest in a transaction required under SEC rules to be described in the Company's proxy statement.

These standards are consistent with the standards set forth in the NYSE rules, the IRC and the Exchange Act. In applying these standards, the Company takes into account the interpretations of, and the other guidance available from, the NYSE. In affirmatively determining the independence of any director who will serve on the Compensation Committee, the Board of Directors considers all factors specifically relevant to determining whether such director has a relationship to the Company which is material to that director's ability to be independent from management in connection with the duties of the Compensation Committee member, including, the independence factors set forth in the NYSE rules.

Based upon the foregoing standards, the Board has determined that all of its directors are independent in accordance with these standards except for Mr. Richenhagen and Ms. Srinivasan, and that none of the independent directors has any material relationship with the Company, other than as a director or stockholder of the Company.

Committees of the Board of Directors

The Board has delegated certain functions to five standing committees: an Executive Committee, an Audit Committee, a Compensation Committee, a Governance Committee and a Succession Planning Committee. Each of the committees has a written charter. The Board has determined that each member of the Audit, Compensation and Governance Committees is an independent director under the applicable rules of the IRC, NYSE, and SEC with respect to such committees. The following is a summary of the principal responsibilities and other information regarding each of the committees:

Committee	Principal Responsibilities
<i>Executive Committee</i>	Is authorized, between meetings of the Board, to take such actions in the management of the business and affairs of the Company which, in the opinion of the Executive Committee, should not be postponed until the next scheduled meeting of the Board, except as limited by the General Corporation Law of the State of Delaware, the rules of the New York Stock Exchange, the Company's Certificate of Incorporation or By-Laws, or other applicable law or regulation.
<i>Audit Committee</i>	Assists the Board in its oversight of the integrity of the Company's consolidated financial statements, the Company's compliance with legal and regulatory requirements, the independent registered public accounting firm's qualifications and independence, and the performance of the Company's internal audit function and independent registered public accounting firm.
	Reviews the Company's internal accounting and financial controls, considers other matters relating to the financial reporting process and safeguards of the Company's assets, and produces an annual report of the Audit Committee for inclusion in the Company's proxy statement.

Edgar Filing: AGCO CORP /DE - Form DEF 14A

The Board has determined that Mr. Minnich is an audit committee financial expert, as that term is defined under regulations of the SEC.

The report of the Audit Committee for 2013 is set forth under the caption Audit Committee Report.

Management periodically meets with the Company's Audit Committee and reviews risks and relevant strategies.

Committee	Principal Responsibilities
<i>Compensation Committee</i>	Is charged with executing the Board's overall responsibility for matters related to Chief Executive Officer and other executive compensation, including assisting the Board in administering the Company's compensation programs and producing an annual report of the Compensation Committee on executive compensation for inclusion in the Company's proxy statement.

Has retained Towers Watson to advise on current trends and best practices in compensation.

The report of the Compensation Committee for 2013 is set forth under the caption Compensation Committee Report.

<i>Governance Committee</i>	Assists the Board in fulfilling its responsibilities to stockholders by:
-----------------------------	--

- i identifying and screening individuals qualified to become directors of the Company, consistent with independence, diversity and other criteria approved by the Board, and recommending candidates to the Board for all directorships and for service on the committees of the Board;

- i developing and recommending to the Board a set of corporate governance principles and guidelines applicable to the Company; and

- i overseeing the evaluation of the Board.

<i>Succession Planning Committee</i>	Assists the Board with respect to selecting, developing, evaluating and retaining the Chief Executive Officer, executive officers and key talent; and
--------------------------------------	---

Manages the succession planning process in the event the current Chief Executive Officer cannot continue in the role.

Committee Composition and Meetings

The following table shows the current membership of each committee and the number of meetings held by each committee during 2013. The Company will determine the composition and chair positions of the respective committees for 2014 following the Annual Meeting.

Identification and Evaluation of Director Nominees

With respect to the Governance Committee's evaluation of nominee candidates, including those recommended by stockholders, the committee has no formal requirements or minimum standards for the individuals that are nominated. Rather, the committee considers each candidate on his or her own merits. However, in evaluating candidates, there are a number of factors that the committee generally views as relevant and is likely to consider to ensure the entire Board, collectively, embraces a wide variety of characteristics, including:

career experience, particularly experience that is germane to the Company's business, such as with agricultural products and services, legal, human resources, finance and marketing experience;

experience in serving on other boards of directors or in the senior management of companies that have faced issues generally of the level of sophistication that the Company faces;

contribution to diversity of the Board;

integrity and reputation;

whether the candidate has the characteristics of an independent director;

academic credentials;

other obligations and time commitments and the ability to attend meetings in person; and

current membership on the Company's Board — our Board values continuity (but not entrenchment).

The Governance Committee does not assign a particular weight to these individual factors. Similarly, the committee does not expect to see all (or even more than a few) of these factors in any individual candidate. Rather, the committee looks for a mix of factors that, when considered along with the experience and credentials of the other candidates and existing directors, will provide stockholders with a diverse and experienced Board. The committee strives to recommend candidates who each bring a unique perspective to the Board in order to contribute to the collective diversity of the Board. Although the Company has not adopted a specific diversity policy, the Board believes that a diversity of experience, gender, race, ethnicity and age contributes to effective governance over the affairs of the Company for the benefit of its stockholders. With respect to the identification of nominee candidates, the committee has not developed a single, formalized process. Instead, its members and the Company's senior management generally recommend candidates whom they are aware of personally or by reputation or may utilize outside consultants to assist in the process.

The Governance Committee welcomes recommendations for nominations from the Company's stockholders and evaluates stockholder nominees in the same manner that it evaluates a candidate recommended by other means. In order to make a recommendation, the committee requires that a stockholder send the committee:

a resume for the candidate detailing the candidate's work experience and academic credentials;

Edgar Filing: AGCO CORP /DE - Form DEF 14A

written confirmation from the candidate that he or she (1) would like to be considered as a candidate and would serve if nominated and elected, (2) consents to the disclosure of his or her name, (3) has read the Company's Code of Conduct and that during the prior three years has not engaged in any conduct that, had he or she been a director, would have violated the Code or required a waiver, (4) is, or is not, independent as that term is defined in the committee's charter, and (5) has no plans to change or influence the control of the Company;

the name of the recommending stockholder as it appears in the Company's books, the number of shares of common stock that are owned by the stockholder and written confirmation that the stockholder consents to the disclosure of his or her name. (If the recommending person is not a stockholder of record, he or she should provide proof of share ownership);

personal and professional references for the candidate, including contact information; and

any other information relating to the candidate required to be disclosed in solicitations of proxies for election of directors or as otherwise required, in each case, pursuant to Regulation 14A of the Exchange Act.

The foregoing information should be sent to the Governance Committee, c/o Corporate Secretary, AGCO Corporation, 4205 River Green Parkway, Duluth, Georgia 30096, who will forward it to the chairperson of the committee. The advance notice provisions of the Company's By-Laws provide that for a proposal to be properly brought before a

meeting by a stockholder, such stockholder must disclose certain information and give the Company timely notice of such proposal in written form meeting the requirements of the Company's By-Laws no later than 60 days and no earlier than 90 days prior to the anniversary date of the immediately preceding Annual Meeting of stockholders. The committee does not necessarily respond directly to a submitting stockholder regarding recommendations.

Board and Executive Leadership Structure

Mr. Richenhagen, who is also the Chief Executive Officer of the Company, serves as Chairman of the Board, and Mr. Shaheen currently serves as Lead Director of the Board. The Company holds executive sessions of its non-management directors at each regular meeting of its Board. The Lead Director presides over executive sessions and at all meetings of the Board in the absence of the Chairman, provides input to the Chairman on setting Board agendas, generally approves information sent to the Board (including meeting schedules to assure sufficient discussion time for all agenda items), ensures that he is available for consultation and direct communication at the request of major stockholders, leads the performance evaluation process of the Chief Executive Officer, and has the authority to call meetings of the independent directors. The Company believes that having the Chief Executive Officer serve as Chairman is important because it best reflects the Board's intent that the Chief Executive Officer function as the Company's overall leader, while the Lead Director provides independent leadership to the directors and serves as an intermediary between the independent directors and the Chairman. The resulting structure sends a message to our employees, customers and stockholders that we believe in having strong, unifying leadership at the highest levels of management, but that we also value the perspective of our independent directors and their many contributions to the Company.

Risk Oversight

The Company's management maintains a risk assessment process that identifies the risks that face the Company that management considers the most significant. The risk assessment process also considers appropriate strategies to mitigate those risks. Management periodically meets with the Company's Audit Committee and reviews such risks and relevant strategies.

Corporate Governance Principles, Committee Charters and Code of Conduct

We provide various corporate governance and other information on the Company's website at www.agcocorp.com. This information, which is also available in printed form to any stockholder of the Company upon request to the Corporate Secretary, includes the following:

our corporate governance principles and charters for the Audit, Compensation, Executive, Governance and Succession Planning Committees of the Board, which are available under the headings Committee Guidelines and Committee Charters, respectively, in the Corporate Governance section of our website's About AGCO section located under Company; and

the Company's Code of Conduct, which is available under the heading Code of Conduct in the Corporate Governance section of our website's About AGCO section located under Company.

In addition, should there be any waivers of or amendments to the Company's Code of Conduct with respect to certain executive officers, those waivers or amendments will be available under the heading Office of Ethics and Compliance in the Corporate Governance section of our website's About AGCO section located under Company.

Compensation Committee Interlocks and Insider Participation

During 2013, Messrs. Armes, Furlan, Minnich, and Shaheen (Chairman) served as members of the Compensation Committee. No member of the Compensation Committee was an officer or employee of the Company or any of its subsidiaries during 2013. None of the Company's executive officers serve on the board of directors of any company of which any director of the Company serves as executive officer.

Director Compensation

The following table provides information concerning the compensation of the members of the Board for the most recently completed year. As reflected in the table, each non-employee director received an annual base retainer of

(1) The Long-Term Incentive Plan provides for annual restricted stock grants of the Company's common stock to all non-employee directors. For 2013, each non-employee director was granted \$120,000 in restricted stock, with the exception of Mr. Johanneson who received a pro rata amount of shares through the date of his retirement from the Board. The shares are restricted as to transferability for a period of three years following the award. In the event a director departs from the Board, the non-transferability period expires immediately. Effective April 24, 2014, the shares granted for Board service will be restricted as to transferability for a period of one year following the award. The 2013 annual grant occurred on April 25, 2013. The total grant on April 25, 2013 was 17,171 shares, or 2,346 shares per director, except for Mr. Johanneson, who was granted 749 shares. The amounts above reflect the aggregate grant date fair value computed in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation-Stock Compensation.

After shares were withheld for income tax purposes, each director held the following shares as of December 31, 2013 related to this grant: Mr. Benson 1,407 shares; Mr. Deml 1,407 shares; Mr. Furlan 1,642 shares; Mr. Johanneson 449 shares; Mr. Minnich 1,759 shares; Mr. Shaheen 1,407 shares; Ms. Srinivasan 2,346 shares; and Mr. Visser 1,642 shares.

Stockholder Communication with the Board of Directors

The Company encourages stockholders and other interested persons to communicate with members of the Board. Any person who wishes to communicate with a particular director or the Board as a whole, including the Lead Director or any other independent director, may write to those directors in care of Corporate Secretary, AGCO Corporation, 4205 River Green Parkway, Duluth, Georgia 30096. The correspondence should indicate the writer's interest in the Company and clearly specify whether it is intended to be forwarded to the entire Board or to one or more particular directors. The Corporate Secretary will forward all correspondence satisfying these criteria.

PROPOSAL NUMBER 2

NON-BINDING ADVISORY RESOLUTION TO APPROVE THE

COMPENSATION OF THE COMPANY'S NEOs

As required under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, the Board is submitting a say-on-pay proposal for stockholder consideration. While the vote on executive compensation is non-binding and solely advisory in nature, the Board and the Compensation Committee will review the voting results and seek to determine the causes of any significant negative voting result to better understand issues and concerns not previously presented. We intend to hold annual say-on-pay votes. At the 2013 Annual Meeting, our stockholders expressed their continued support of our executive compensation programs by approving with a 95% vote our executive compensation for 2012. Stockholders who want to communicate with the Board or management regarding compensation-related matters should refer to "Stockholder Communication with the Board of Directors" in this proxy statement for additional information.

The Board recommends that stockholders vote to approve, on an advisory basis, the compensation paid to the Company's NEOs, as described in this proxy statement.

Compensation Philosophy and Program Design

The Company's compensation philosophy and program design is intended to support the Company's business strategy and align executives' interests with those of stockholders and employees (i.e., pay for performance). A significant portion of the Company's executive compensation opportunity is related to factors that directly and indirectly influence stockholder value, including stock performance, earnings per share, operational performance, free cash flow performance and return on invested capital. The Company believes that as an executive's responsibilities increase, so should the proportion of his or her total pay comprised of annual incentive cash bonuses and long-term incentive (LTI) compensation, which supports and reinforces the Company's pay for performance philosophy.

Best Practices in Executive Compensation

The Compensation Committee regularly reviews best practices related to executive compensation to ensure alignment with the Company's compensation philosophy, business strategy and stockholder focus. The Company's executive compensation programs consist of the following:

Total compensation levels for NEOs generally targeted at the median (or 50th percentile) of the market which provides opportunity for upside compensation levels for excellent performance;

A well-defined peer group of similar and reasonably sized industrial and manufacturing comparators to benchmark NEO and other officer compensation;

An annual incentive compensation plan (IC Plan) that includes a minimum earnings per share threshold that must be met before a payout is earned, a maximum payout level of 200% of target, and multiple performance measures that drive stockholder value and improvement in operational results (e.g., earnings per share, operating cash flow, operating margin as a percentage of sales and quality improvement), which mitigate too heavy of a focus on any one performance measure in particular;

Table of Contents

A long-term incentive plan (LTI Plan) consisting of a performance share plan, which comprises appropriately 75% of an NEO s target LTI award, and a grant of stock-settled stock appreciation rights, which comprises approximately 25% of an NEO s target LTI award. Both LTI vehicles contain a strong performance orientation and align closely with stockholder interests;

A clawback policy, which allows the Company to take remedial action against an executive if the Board determines that an executive s misconduct contributed to the Company having to restate its financial statements;

Stock ownership requirements that encourage executives to own a specified level of stock, which emphasizes the alignment of their interests with those of stockholders;

Modest perquisites for NEOs;

A plan design that mitigates the possibility of excessive risk that could harm long-term stockholder value;

The use of a so-called double trigger change in control provision, under which both a change in control and a change in employment status have to occur; and

A conservative approach to share usage associated with our stock compensation plans. The Compensation Committee has and will continue to take action to structure the Company s executive compensation practices in a fashion that is consistent with its compensation philosophy, business strategy and stockholder focus.

Company Performance

The following table illustrates the Company s strong financial performance over the last three years:

	2011	2012	2013
Revenue as Reported (in millions \$)	\$8,773.2	\$9,962.2	\$10,786.9
Adjusted Operating Margin ⁽¹⁾	7.0%	7.2%	8.4%

(1) Reflects adjustments related to restructuring and other infrequent items made to operating margin results during 2011 and 2012.

AGCO s financial performance aligns with compensation actions taken for NEOs in 2013, including:

Base salary increases ranging from 2.5% to 5.0%;

IC Plan payouts for corporate goal achievement at 146.6% of target; and

LTI Plan payouts at 200% of target for the 2011-2013 performance cycle.

Edgar Filing: AGCO CORP /DE - Form DEF 14A

The Compensation Discussion and Analysis section of this proxy statement and the accompanying tables and narrative provide a comprehensive review of the Company's NEO compensation objectives, programs and rationale. We urge you to read this disclosure before voting on this proposal.

We are asking our stockholders to indicate their support for the Company's NEO compensation as described in this proxy statement. This proposal gives our stockholders the opportunity to express their views on the Company's NEO compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of the Company's NEOs and the philosophy, policies and practices thereof described in this proxy statement. Accordingly, we ask our stockholders to vote **FOR** the following resolution at the Annual Meeting:

RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the Company's named executive officers, as disclosed in the Proxy Statement for the 2014 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the 2013 Summary Compensation Table and the other related tables and accompanying narrative set forth in the Proxy Statement.

The Board recommends a vote FOR

the non-binding advisory resolution to approve the compensation of the Company's NEOs.

PROPOSAL NUMBER 3

RATIFICATION OF COMPANY'S INDEPENDENT REGISTERED

PUBLIC ACCOUNTING FIRM FOR 2014

The Company's independent registered public accounting firm is appointed annually by the Audit Committee. The Audit Committee examines a number of factors when selecting a firm, including the qualifications, staffing considerations, and the independence and quality controls of the firms considered. The Audit Committee has appointed KPMG LLP as the Company's independent registered public accounting firm for 2014. KPMG LLP served as the Company's independent registered public accounting firm for 2013 and is considered to be well-qualified.

In view of the difficulty and expense involved in changing independent registered public accounting firms on short notice, should the stockholders not ratify the selection of KPMG LLP as the Company's independent registered public accounting firm for 2014 under this proposal, it is contemplated that the appointment of KPMG LLP for 2014 will be permitted to stand unless the Board finds other compelling reasons for making a change. Disapproval by the stockholders will be considered a recommendation that the Board select another independent registered public accounting firm for the following year.

Representatives of KPMG LLP are expected to be present at the Annual Meeting and will be given the opportunity to make a statement, if they desire, and to respond to appropriate questions.

The Board recommends a vote FOR

the ratification of the Company's independent registered public accounting firm for 2014.

OTHER BUSINESS

The Board does not know of any matters to be presented for action at the Annual Meeting other than the election of directors, the non-binding advisory resolution to approve the compensation of the Company's NEOs, and the ratification of the Company's independent registered public accounting firm for 2014. If any other business should properly come before the Annual Meeting, the persons named in the accompanying proxy card intend to vote thereon in accordance with their best judgment.

COMPENSATION DISCUSSION AND ANALYSIS

Introduction

This Compensation Discussion and Analysis describes our compensation philosophy, the compensation programs provided to our NEOs and the decision-making process followed in setting pay levels for our NEOs during 2013. This discussion should be read in conjunction with the tables and related narratives that follow. Our NEOs are:

Andrew H. Beck, Senior Vice President Chief Financial Officer

André M. Carioba Senior Vice President and General Manager, South America

Gary L. Collar, Senior Vice President and General Manager, Asia/Pacific

Martin H. Richenhagen, Chairman of the Board, President and Chief Executive Officer

Hans-Bernd Veltmaat, Senior Vice President Chief Supply Chain Officer

At the 2013 Annual Meeting, our stockholders expressed their continued support of our executive compensation programs by approving the non-binding advisory vote on our executive compensation. More than 95% of votes cast supported our executive compensation policies and practices. During 2013, we reviewed our executive compensation programs in conjunction with business results and stockholder support of our executive compensation programs. Following that review, we continue to believe that our executive compensation programs are designed to support the company and business strategies in concert with our compensation philosophy.

Consistent with our commitment to executive compensation best practices, the following executive compensation practices are in place:

The financial performance objectives in our annual and long-term incentive plans are reviewed and approved annually by the Compensation Committee (the Committee);

Our annual and long-term incentive plans consist of multiple performance objectives, thus mitigating more focus on any one objective in particular;

The vesting period for our NEOs' stock-settled stock appreciation rights is 48 months, and the performance periods for performance shares are between 36 and 60 months;

Our NEOs (and directors) are subject to stock ownership requirements;

Compensation levels for our NEOs generally are targeted at median levels of market competitiveness;

Our compensation programs support a conservative approach to share usage associated with our stock compensation plans;

The design of our compensation programs attempt to mitigate the possibility of excessive risk that could harm the long-term value of AGCO; and

We have a clawback provision in place that can require the return of any bonus or incentive compensation.

Compensation Philosophy and Governance

It is AGCO's practice to compensate executive officers through a combination of cash and equity compensation, retirement programs and other benefits. Our primary objectives are to provide compensation programs that:

Align with stockholder interests;

Reward performance;

Attract and retain quality management;

Encourage executive stock ownership;

Are competitive with companies of similar revenue size, industry and complexity;

Mitigate excessive risk taking; and

Are substantially consistent among our locations worldwide.

Table of Contents

AGCO's compensation philosophy was updated and approved by the Committee in July 2013. The philosophy is intended to articulate the Company's principles and strategy for total compensation and specific pay program elements. It is closely aligned with our business strategy and reflects performance attributes and, as such, ties executives' interests to those of our stockholders and employees.

AGCO's compensation philosophy defines total compensation to consist of:

Base Salary;

Annual Cash Incentive Bonuses;

Long-Term Incentives; and

Benefits and Certain Perquisites.

Each element of total compensation is summarized in the chart below:

Component	Philosophy	Strategy/Competitive Positioning
Base Salary	Establishes the foundation of total compensation and supports attraction and retention of qualified staff	Generally targeted at median levels of other industrial companies of similar size and complexity
Annual Management Incentive Plan (IC Plan)	Facilitates alignment of management with corporate objectives in order to achieve outstanding performance and meet specific AGCO financial goals	Target award opportunities competitive with median levels of other industrial companies of similar size and complexity, with minimum and maximum award opportunities ranging from 50% to 200% of target, respectively
Long-Term Incentives (LTI Plan)	Engages management in achieving longer-term performance goals and to make decisions in the best interests of stockholders	Target award opportunities competitive with median levels of other industrial companies of similar size and complexity
Retirement Benefits	Supports the attraction and retention of key executives	Competitive with general market practices; consist generally of the same account-based plans that are available to all local executives (such as the 401(k) in the U.S.) as well as non-qualified benefits
Certain Perquisites	Supports the attraction and retention of key executives	Require executives to remain employed with the Company until attaining age 50 and 10 years of service in order to vest in the non-qualified benefits Minimal use, as appropriate

Table of Contents

We believe that as an executive's responsibilities increase, so should the proportion of his or her total pay comprised of annual incentive cash bonuses and long-term incentive compensation. As illustrated below, on average over 70% of our 2013 NEO compensation was variable or at risk and tied to AGCO's performance with the greatest portion associated with long-term incentives:

When establishing the compensation and performance criteria, goals are set that we believe reflect key areas of performance that support our long-term success. We consider factors such as our current performance compared to industry peers, desired levels of performance improvement, and industry trends and conditions when determining performance expectations within our compensation plans.

Compensation Consultant Independence

The Committee approves all compensation for executive officers, including the structure and design of the compensation programs. The Committee is responsible for retaining and terminating compensation consultants and determining the terms and conditions of their engagement, including fees. Since 2005, the Committee has engaged Towers Watson, an internationally recognized human resources consulting firm, to advise the Committee (and at times management) with respect to the Company's compensation programs and to perform various related studies and projects, including market analysis and compensation program design. A Towers Watson representative reports directly to the Committee as its compensation advisor.

The Committee annually reviews the role of its compensation advisor and believes that the advisor is fully independent for purposes of providing on-going recommendations regarding executive compensation. In addition, and in conjunction with the recent SEC requirements that public companies formally review advisor independence, the Committee concluded that the compensation advisor is independent and provides candid, direct and objective advice to the Committee. To ensure independence:

The Committee directly hired and has the authority to terminate the compensation advisor;

The compensation advisor reports directly to the Committee and the chairperson;

The compensation advisor meets regularly and as needed with the Committee in executive sessions that are not attended by any of the Company's officers;

The compensation advisor and the team at Towers Watson have direct access to all members of the Committee during and between meetings;

No regular member of the Towers Watson executive compensation team owns any stock of AGCO, other than perhaps investments in mutual funds or other funds that are managed without the member's input; and

The executive compensation advisor and team at Towers Watson do not have any personal or business relationships with any member of the Committee or executive officer of AGCO.

Towers Watson provides the Committee with an annual update on its services and related fees. The Committee determines whether Towers Watson's services are performed objectively and free from the influence of management. With the full knowledge of the Committee, AGCO has retained a distinct and separate unit of Towers Watson for other services, including broad-based employee retirement and benefit services, and specific projects within multiple countries for various Company subsidiaries.

Table of Contents

The Committee also closely examines the safeguards and steps Towers Watson takes to ensure that its executive compensation consulting services are objective, for example:

Towers Watson has separated its executive compensation consulting services into a single, segregated business unit within Towers Watson;

Towers Watson associates are subject to a comprehensive Code of Conduct and Ethics, which addresses issues including conflicts of interest and associates' ownership and trading of client company stock, among other areas;

The compensation advisor receives no direct incentives based on other services Towers Watson provides to AGCO;

The compensation advisor is not the Towers Watson client relationship manager for AGCO; and

Neither the compensation advisor nor any member of the advisor's team participates in any activities related to the administrative services provided to AGCO by other Towers Watson business units.

For these reasons, the Committee does not believe that Towers Watson's services for AGCO's employee retirement and benefit plans, or its specific projects, compromise its compensation advisor's ability to provide the Committee with perspective and advice that is independent and objective.

The total amount of fees for consulting services provided to the Committee in 2013 by its compensation advisor was approximately \$225,000. The total amount of fees paid by AGCO to Towers Watson in 2013 for all other services, excluding Committee services, was approximately \$1,650,000. These other services primarily related to actuarial services for the Company's defined benefit plans and pension administration services.

Competitive Analyses

We perform competitive analyses with respect to cash compensation, long-term equity incentives and executive retirement programs. These analyses are conducted regularly and include a comparison to nationally recognized compensation surveys, as well as a comparison to a peer group of other industrial companies. These competitive analyses provide us with information regarding ranges and median compensation levels, as well as the types of compensation practices followed at other companies. The analyses are used to review, monitor and establish appropriate and competitive compensation guidelines, determine the appropriate mix of compensation between programs and establish the specific compensation levels for our executives.

The Committee performed an external market review in 2013 that examined the competitiveness of the Company's NEOs' total compensation. The analysis reviewed the dollar value of the compensation, as well as the mix of compensation between base salary, annual cash incentive bonus and LTI pay. The Committee's goal is to provide base salary, target total cash compensation (e.g., base salary plus target bonus opportunity) and target total direct compensation (e.g., target total cash plus target LTI opportunity) for each NEO within plus or minus 20% of the market median, which reflects an average of published survey data and peer proxy statements.

Table of Contents

Target total cash compensation and target total direct compensation positioning for each of the Company’s NEOs versus the external market in 2013 are summarized below:

Target Total Cash Compensation

Executive	Competitive Market Range		
Mr. Beck	t		
Mr. Carioba		t	
Mr. Collar		t	
Mr. Richenhagen		t	
Mr. Veltmaat			t
	Low To Median	Near Median	High To Median

Target Total Direct Compensation

Executive	Competitive Market Range		
Mr. Beck	t		
Mr. Carioba		t	
Mr. Collar		t	
Mr. Richenhagen		t	
Mr. Veltmaat			t
	Low To Median	Near Median	High To Median

The Committee uses the external market review to help it make informed decisions regarding NEO compensation. For the Chief Executive Officer, the Committee recognizes the critical nature of this role, his higher level of responsibility within the Company and his more pervasive influence over our performance and, therefore, provides market competitive levels of compensation that differ from levels of compensation paid to other NEOs. Mr. Richenhagen, as Chief Executive Officer of the Company, is placed in his own level based purely on median market information and benchmarking.

The Company’s Senior Vice Presidents (SVPs) are grouped into two tiers. All of the General Managers, the Chief Financial Officer and the Chief Supply Chain Officer are grouped together in the first tier, and the Company’s other functional SVPs are grouped together in the second tier. It is our philosophy to compensate SVPs within each tier similarly, including each of the General Managers and the Chief Financial Officer, even though market data might suggest otherwise. The Committee, in recognition of the collaborative efforts of the General Managers operating not only their respective businesses, but also our worldwide business, sets the compensation of all General Managers at similar levels. In Mr. Beck’s case, the Committee’s view is that the Chief Financial Officer should not be paid significantly more than the General Managers, which is consistent with our compensation philosophy and reinforced by the internal grouping of the Company’s executives. However, in recognition that Mr. Beck’s total direct compensation was slightly below market median, he was given a slightly larger LTI award in 2013. In the case of Mr. Veltmaat, whose target total cash and total direct compensation are slightly above median levels, the pay positioning of his role is targeted to approximate the upper end of the grade range due to the criticality of his role within the organization.

Table of Contents

As part of its regular process, the Committee reviewed our peer group in July 2013 to ensure that the included companies are viable comparators for determining that total compensation for NEOs aligns with market. The Company's peer group consists of 20 organizations. No changes were made in 2013 to the composition of the peer group, which is shown below:

Cummins, Inc.	Joy Global Inc.	SPX Corporation
Danaher Corporation	Meritor Inc.	Stanley Black & Decker
Dover Corporation	Navistar International Corporation	Terex Corporation
Eaton Corporation	Oshkosh Corporation	Textron Inc.
Flowserve Corporation	PACCAR Inc.	The Timken Company
Illinois Tool Works Inc.	Parker Hannifin Corporation	TRW Automotive Holdings Corp
Ingersoll-Rand Company Limited	Rockwell Automation	

The Committee believes that the companies in the current peer group reflect AGCO's size and closely align with our business and the markets in which we serve and operate. The Committee will continue to review the composition of the peer group and make updates as needed.

Base Salary

In April 2013, the Committee provided base salary increases to our NEOs based upon individual and Company performance. Base salary increases for NEOs ranged from 2.5% to 5.0% and were commensurate with the Company's performance and individual contribution level. The base salary for Martin Richenhagen, Chief Executive Officer, was set at \$1,281,500, reflecting a 5.0% increase in 2013.

Annual Cash Incentive Bonuses

Incentive compensation is based on AGCO's performance, as well as the contribution of executive officers through the leadership of their respective regional or functional areas. For NEOs with a regional focus, their goals are established primarily for operational performance in their geographic area or other quantitative objectives based on their specific responsibilities. Incentive compensation opportunities are expressed as a percentage of the executive officer's base salary. The annual award opportunities for the NEOs in 2013 are shown in the chart below:

Name	Opportunity as a Percentage of Base Salary			Portion Attributable To:	
	Minimum Award	Target Award	Maximum Award	Corporate Goals	Regional / Functional Goals
Mr. Beck	50%	100%	200%	100%	0%
Mr. Carioba	45%	90%	180%	50%	50%
Mr. Collar	45%	90%	180%	50%	50%
Mr. Richenhagen	70%	140%	280%	100%	0%
Mr. Veltmaat	45%	90%	180%	70%	30%

Mr. Richenhagen's annual incentive compensation for 2013 is deductible under Section 162(m) of the IRC.

Under the IC Plan, graduated award payments of 50% of target are made if a minimum of approximately 80% of the target goal is met, increasing to the maximum payout of 200% of target when approximately 140% of the target goal is met. The corporate objectives are set at the beginning of each year and approved by the Committee. However, unless a threshold of approximately 60% of the adjusted earnings per share (EPS) target goal is reached, no awards are paid regardless of performance relative to the other target goals. For the year ended December 31, 2013, the corporate objectives were based on targets for EPS, free cash flow, operating margin as a percentage of sales, and a quality improvement measurement. The calculation of these measures and corporate weightings are as follows:

EPS: Diluted and adjusted to exclude restructuring expenses and other infrequent items (40% weight). EPS equals adjusted net income (excluding restructuring expenses and other infrequent items) divided by the diluted weighted average number of common and common equivalent shares outstanding.

Free Cash Flow: Operating cash flow minus capital expenditures (30% weight).

Table of Contents

Operating Margin as a Percentage of Sales: The percentage calculated when income from operations is divided by net sales (20% weight). This measure also excludes certain infrequent items.

Quality Improvement: Customer satisfaction index (which measures the operational quality of products upon delivery) and repair frequency (10% weight).

In addition to corporate goals, the plan engages participants to focus on regional and functional goals to provide incentives for behaviors linked to business drivers, such as growth in market share. For participants with direct regional responsibility, the corporate portion is a minimum of 50% of the total target award. For these participants, regional goals are also 50%, except for our Chief Executive Officer and Chief Financial Officer, who are measured solely on corporate goals. For participants with direct functional responsibility, the corporate portion is 70% of the total target award and functional or individual goals are 30%. Goal setting is based on internal planning informed by external factors. The regional and functional goals drive alignment with corporate goals and the Company's overall performance. Although goals differ by region and function, examples of these goals for 2013 are as follows:

Regional Goals	Functional Goals
Income Contributed	New Product Introduction
Operating Margin as a Percentage of Sales	Productivity / Efficiency
Market Share	Inventory Turnover

For 2013, targets for each of the measures and AGCO's performance are summarized below:

Measure ⁽¹⁾	Weight	Bonus Objective	Performance ⁽²⁾	Percent Achieved	Earned Award
Earnings Per Share	40%	\$5.65	\$6.01	106%	46.00%
Free Cash Flow	30%	\$170	\$397	> 140%	60.00%
Operating Margin as a Percentage of Sales	20%	8.3%	8.4%	101%	20.60%
Quality Improvement					20.00%
- Customer Satisfaction Index	10%	+ 2 pts	+ 5 pts	> 140%	
- Repair Frequency		-10.0%	-19.6%	> 140%	

(1) Dollar amounts stated in millions, except per share amounts.

(2) Adjusted to exclude certain infrequent items as permitted by the IC Plan.

For 2013, the Committee determined that the Company not only met the minimum performance level for EPS to warrant an incentive payout, but performed above the target level on all four performance measures. As a result, the corporate portion of bonuses paid to NEOs reflects 146.6% of target.

The IC Plan also provides for payment of a pro rata portion of the participant's bonus upon a change of control, as well as additional bonus payments to certain participants terminated without cause within two years of a change of control. This is further explained in Severance Benefits and Change of Control.

In 2013, the Committee made several refinements to the IC plan effective for the 2013 plan year. The target award opportunity for Mr. Richenhagen was increased from 130% to 140% of base salary to better align with market competitive levels. Additionally, the minimum

payout opportunity for the IC Plan was increased from 40% to 50% of target, and the performance level to achieve the maximum payout opportunity was decreased from 150% to 140% of target. These changes were made to more closely align our IC Plan with competitive market practices.

Long-term Incentives

We provide performance- and retention-based equity opportunities to the NEOs. LTI represents a significant component of total compensation and weighs heavily in the overall pay mix for executives. The overarching principles of the LTI Plan are:

LTI is performance-based and is intended to engage executives in achieving longer-term goals and to make decisions in the best interests of stockholders;

Table of Contents

Target award opportunities are generally competitive with median levels of other companies of similar size, industry and complexity;

Realizable gains are intended to vary with Company performance and stock price growth; and

Performance goals are aligned with stockholder interests and support the long-term success of AGCO, and awards are deductible under Section 162(m) of the IRC.

The following table summarizes the mix, performance measurements and general terms for each form of equity awarded to our NEOs for 2013 under our LTI Plan:

	Performance Share Plan (PSP)	Stock-Settled Stock Appreciation Rights (SSARs)
LTI Mix Description	75%	25%
Performance Measurements	Performance shares that are earned on the basis of AGCO's performance versus pre-established goals for a three-year cycle 50% Cumulative Earnings Per Share	SSARs provide the right to receive share appreciation over the grant price, payable in whole shares of AGCO common stock Stock price appreciation
Vesting Period	50% Average Return on Invested Capital (ROIC) Vest in full at the end of the three-year cycle	Vest in equal installments over four years
Restrictions / Expiration	Number of shares earned depends on performance Converted to AGCO common stock upon vesting	Expire seven years from the grant date
Competitive Positioning	Target award levels set at median level of market competitiveness Threshold and outstanding performance levels intended to range from 25 th to 75 th percentile of market competitiveness, respectively	Median level of market competitiveness

In January 2013, the Compensation Committee approved long-term incentive awards for 2013 eligible plan participants. Long-term incentive awards for 2013 are summarized in the table below under the caption 2013 Grants of Plan-Based Awards.

For grants under the PSP, cumulative EPS and average ROIC were chosen as performance measures because we believe that they are meaningful measures of our performance and have a strong correlation to generating stockholder value over the long-term. We established three levels of performance for each measure: *threshold*, representing the minimum level of performance that warrants a payout; *target*, representing a level of performance where median target compensation levels are appropriate; and *outstanding*, representing a maximum realistic performance level where increased compensation levels are appropriate. The cumulative EPS and ROIC goals are linked within a performance award matrix which is used to determine the number of shares earned in various combinations of performance. The award opportunity levels are expressed as multiples of the executive's target award opportunity.

Table of Contents

The matrix of award opportunities is illustrated below:

		Cumulative Earnings Per Share (EPS)			
		Below Threshold	Threshold	Target	Outstanding
Average	Outstanding	100.0%	116.5%	150.0%	200.0%
	Target	50.0%	66.6%	100.0%	150.0%
ROIC	Threshold	16.5%	33.3%	66.6%	116.5%
	Below Threshold	0.0%	16.5%	50.0%	100.0%

If the actual performance of the goal falls in between the established goals for threshold, target and outstanding performance, the associated payout factor will be calculated using a straight-line interpolation between the two goals. The Committee has the discretion to exclude restructuring and certain other infrequent items from the calculation of cumulative EPS or average ROIC in order to ensure the LTI Plan is equitable and executive decisions and actions are not inhibited by their projected impact on the Plan.

For the awards granted in 2011 under the PSP, the Committee determined that, based on the Company's performance for the three-year PSP performance cycle (2011-2013), the Company achieved outstanding on both the cumulative EPS and average ROIC goals, thus producing a 200% payout as shown in the chart below. The information provided below includes adjustments made by the Committee in accordance with the LTI Plan for certain infrequent items.

Measure	Threshold	Target	Outstanding	Actual	Earned Award
Cumulative EPS	\$ 8.17	\$ 9.00	\$ 10.42	\$ 16.26	200%
Average ROIC	9.3%	10.2%	11.8%	14.2%	200%

The target award and actual number of shares received by the NEOs for the three-year performance cycle covering 2011-2013 are shown below:

Name	Three-Year Performance Cycle (2011-2013)	
	Target Award	Actual Award
Mr. Beck	11,700 shares	23,400 shares
Mr. Carioba	10,100 shares	20,200 shares
Mr. Collar	10,100 shares	20,200 shares
Mr. Richenhagen	68,000 shares	136,000 shares
Mr. Veltmaat	5,600 shares	11,200 shares

In 2013, the Committee established award opportunities for executives covering a new three-year PSP performance cycle (2013-2015), as well as a new grant of SSARs. The Committee's strategy is to regularly evaluate the size of award levels by taking into consideration market trends, the industry's cyclical and other volatility factors. New targets covering the 2013 three-year PSP performance period also were established for cumulative EPS and average ROIC.

We consider the target goals for PSP awards for uncompleted cycles to be confidential. Historically, the Committee has established target goals for our executive officers that the Committee believed at the time were reasonably achievable. If the Company is able to meet the objectives set out in our strategic plans, the Committee believes that each executive officer should be able to earn a target level award for achieving those goals in each of our open performance share cycles.

In 2010, the Committee also established the Margin Growth Improvement Plan (MGIP), which is a supplemental, one-time PSP that focuses exclusively on the achievement of aggressive operating margin goals. The Committee believes that operating margin improvement is critical in sustaining and driving strong financial results and

Table of Contents

stockholder returns. The MGIP covers a five-year period (2011-2015) and can pay out after 2013, 2014 and/or 2015 if certain operating margin goals are met. Awards under the MGIP were granted during 2011 and actual award payouts can range from 0-300% of target depending on the achievement of operating margin goals. As of December 31, 2013, the Company had not reached the minimum performance level required to earn a payout from the MGIP.

The Committee approves all grants of stock-based compensation to the Chief Executive Officer and all other executive officers. The Chief Executive Officer, with the assistance of the Senior Vice President – Global Business Services, assists the Committee with recommendations for award levels for all other executive officers based on external competitive analyses. Our policy is that SSARs are awarded with exercise prices at or above the fair market value of the Company's common stock on the date of the grant.

Clawback of Incentive Compensation

We have a Compensation Adjustment and Recovery Policy. Pursuant to the policy, if the Board learns of any misconduct by an officer of AGCO or one of its subsidiaries that contributed to our having to restate our published financial statements, it shall take, or direct to take, such action as it deems reasonably necessary to remedy the misconduct, prevent its recurrence and, if appropriate, based on all relevant facts and circumstances, take remedial action against the individual in violation of the policy. In determining whether remedial action is appropriate, the Board shall take into account such factors as it deems relevant, including whether the misconduct reflected negligence, recklessness or intentional wrongdoing. Remedial action may include dismissal and initiating legal action against the officer.

In addition, the Board will, to the full extent permitted by governing law, in all appropriate cases, direct us to seek reimbursement of any bonus or incentive compensation awarded to an officer, or effect the cancellation of unvested, restricted or deferred equity awards previously granted to an officer, if: (1) the amount of the bonus or incentive compensation was calculated based upon the achievement of financial results that were subsequently reduced as part of a restatement; (2) the officer engaged in intentional wrongdoing that contributed to the restatement; and (3) the amount of the award would have been lower had the financial results been properly reported.

In determining what action to take or to require to take, the Board may consider, among other things, penalties or punishments imposed by third parties, such as law enforcement agencies, regulators or other authorities, the impact upon us in any related proceeding or investigation of taking remedial action against an officer, and the cost and likely outcome of taking remedial action. The Board's power to determine the appropriate remedial action is in addition to, and not in replacement of, remedies imposed by such authorities.

Without by implication limiting the foregoing, following a restatement of the Company's financial statements, we also shall be entitled to recover any compensation received by the Chief Executive Officer and Chief Financial Officer that is required to be recovered by Section 304 of the Sarbanes-Oxley Act of 2002.

The policy further specifies that the authority vested in the Board under the policy may be exercised by any committee thereof. In addition, this policy will be evaluated after the SEC issues final rules implementing the clawback provisions set forth in the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Share Ownership and Retention Requirements

Share ownership by directors and executive officers emphasizes the alignment of their interests with those of stockholders. The Company's stock ownership program requires (i) non-employee directors to own common stock, or other equity equivalents, equal in value to four times the value of the annual retainer, (ii) the Chief Executive Officer to own common stock, or other equity equivalents, equal in value to five times annual salary, and (iii) all other executive officers to own common stock, or other equity equivalents, equal in value to three times their respective annual salaries. Once the minimum ownership level is achieved, an individual will remain qualified if he or she continues to hold at least the number of shares that is initially required regardless of the change in market value of the underlying stock. Any person becoming a director or executive officer has four-years from his or her election to comply with the stock ownership requirements. The Company's directors and NEOs all currently meet these requirements.

Table of Contents

Hedging and Pledging Policy

We have a Hedging and Pledging Policy. Board members and officers are prohibited from, directly or indirectly, (1) pledging a significant number of the Company's equity securities, or (2) hedging with respect to any of the Company's equity securities. For these purposes, (a) pledging includes the intentional creation of any form of pledge, security interest, deposit, lien or other hypothecation, including the holding of shares in a margin account, that entitles a third-party to foreclose against, or otherwise sell, any equity securities, whether with or without notice, consent, default or otherwise, but does not include either the involuntary imposition of liens, such as tax liens or liens arising from legal proceedings, or customary purchase and sale agreements, such as Rule 10b5-1 plans, and (b) significant means the lesser of 1% of the Company's outstanding equity securities and 50% of the equity securities of the Company owned by the board member or officer. Also for these purposes, hedging includes any instrument or transaction, including put options and forward-sale contracts, through which the board member or officer offsets or reduces exposure to the risk of price fluctuations in a corresponding equity security. Equity securities include common stock, voting preferred stock and options and other securities exercisable for, or convertible into, settled in, or measured by reference to, any other equity security determined on an as-exercised and as-converted basis. The equity securities attributable to a board member or officer for these purposes shall include equity securities attributable to the board member or officer under either Section 13 or Section 16 of the Securities Exchange Act of 1934. In addition, equity securities that are pledged shall not be counted toward board member and officer ownership requirements.

Compensation Risk Assessment

AGCO regularly reviews compensation plans and practices to ensure they are appropriately structured and aligned with business objectives, and not designed to encourage executives to take unwarranted risks. Specifically, the overall design of the compensation philosophy and plans mitigate risks because: (1) the financial performance objectives of the short and long-term incentive plans are reviewed and approved annually by the Board; (2) the plans consist of multiple performance objectives, thus lessening the focus on any one in particular; (3) short and long-term incentive payouts are capped for all participants (NEOs are capped at 200% of the target opportunity); and (4) the Company has in place a clawback provision that can require the return of bonus and other incentive compensation.

Tax Considerations

Section 162(m) of the IRC generally limits to \$1 million the U.S. federal tax deductibility of compensation paid in one year to any employee. Performance-based compensation is not subject to the limits on deductibility of Section 162(m), provided that such compensation meets certain requirements, including stockholder approval of material terms of compensation.

The Committee attempts to provide NEOs with compensation programs that will preserve the tax deductibility of compensation paid by the Company, to the extent reasonably practicable and to the extent consistent with the Company's other compensation objectives. The Committee believes, however, that stockholder interests are best served by not restricting the Committee's discretion and flexibility in structuring compensation programs, even though such programs may result in certain non-deductible compensation expenses.

Retirement Benefits

We believe that offering competitive retirement benefits is important to attract and retain top executives. Our U.S.-based executives participate in a non-qualified executive defined benefit plan in addition to a traditional defined contribution 401(k) plan. For our Company's 401(k) plan, AGCO generally contributed approximately \$11,475 to each eligible executive's 401(k) account during 2013, which was the maximum contribution match allowable under the plan.

For U.S. executives, we maintain an Executive Nonqualified Pension Plan (ENPP), which is designed to provide competitive retirement benefits that will attract and retain our executives. The ENPP provides U.S.-based executive officers with retirement income for a period of 15 years based on a percentage of the average of their highest three non-consecutive years of base salary and bonus during their final 10 years of employment (referred to as their three-year average compensation), reduced by the executive officer's social security benefits and 401(k) employer-matching contributions, as if the executive had made the maximum contribution. The benefit paid to the executive officers is 3% of their three-year average compensation multiplied by credited years of service, with a maximum annual benefit of 60% of their three-year average compensation. Benefits under the ENPP vest if the participant has attained age 50 with

Table of Contents

at least ten years of service (five years of which must include tenure as an executive officer), but are not payable until the participant reaches age 65 or upon termination of services because of death or disability, adjusted to reflect payment prior to age 65.

For executives not based in the U.S., AGCO has taken steps in recent years to align certain features of its pension or retirement plans, recognizing that benefit formulas are driven by local market competition and trends. Additional details regarding retirement benefits are provided in the tables below under the captions 2013 Summary Compensation Table and 2013 Pension Benefits Table.

Severance Benefits and Change of Control

Reasonable severance benefits are necessary to attract top executives. The levels of severance benefits provided to executives are designed to take into account the difficulty executives may have to find comparable employment.

Employment agreements with the executives provide severance benefits when the termination is without cause or for termination with good reason. The severance benefit depends on whether the termination involved a change of control. For terminations without cause or for good reason that do not involve a change of control, the severance benefit allows for the executives to receive his or her base salary for a period of up to two years and a pro rata portion of the bonus to which the executive would have been entitled for the year of termination had the executive remained employed for the entire year. Specifically for the NEOs, Messrs. Carioba, Collar and Veltmaat may receive their respective base salaries and bonus amounts for one year upon termination. In addition, upon termination, the Company is obligated to reimburse Mr. Collar for expenses to relocate to the United States. Mr. Beck may receive his base salary and bonus amount for two years upon termination. Mr. Richenhagen will be eligible for a severance benefit that allows him to receive his base salary for two years upon termination and a bonus equal to two times the average of the prior two completed years and the current year's trend. Consistent with the severance benefits provided to other NEOs, Mr. Richenhagen's severance benefit would be reduced or terminated at the time he found new employment. The Company also continues health and life insurance benefits during the time the severance benefits are paid for U.S.-based executives. A terminated U.S.-based executive also is entitled to receive any vested benefits under the ENPP payable beginning at age 65.

We also believe it is important to provide certain additional benefits upon a change of control in order to protect the executive's retirement benefits and potential income that would be earned associated with our equity incentive plans. In addition, it is our belief that the interests of stockholders will be best served if the interests of the Company's senior management are in alignment. By providing certain change of control benefits, we believe executives will not be reluctant to consider potential change of control transactions that may be in the best interests of stockholders.

The Board has approved post-employment compensation to NEOs for terminations that occur within two years of a change of control. In such case, the executive would receive a lump-sum payment equal to (i) one or two times his or her base salary in effect at the time of termination, (ii) a pro-rata portion of his or her bonus or other incentive compensation earned for the year of termination and (iii) a bonus equal to one or two times the three year average of his or her awards received during the prior two completed years and the current year's trend (except that for Mr. Richenhagen, the lump sum payment would equal (i) three times his base salary in effect at the time of termination, (ii) a pro-rata portion of his bonus earned for the year of termination and (iii) a bonus equal to three times the three year average of Mr. Richenhagen's awards received during the prior two completed years and the current year's trend), and the executive would also be entitled to receive specific retirement benefits and the acceleration of vesting of outstanding equity awards. Upon a change of control, our equity incentive plan allows for all unearned awards to become fully vested and exercisable, and all performance goals applicable to an award will be deemed automatically satisfied with respect to the greater of the target level of compensation expected to be attained pursuant to such award or the level of performance dictated by the trend of the Company's actual performance, so that all of such compensation shall be immediately vested and payable.

All benefits under the ENPP that have been earned based on years of service also become vested. Any executives terminated upon a change of control and loss of job would also be entitled to the severance benefits described above and receive a gross-up for excise taxes due on any payments. There is no gross-up for ordinary income taxes associated with payouts from a change of control. An excise tax gross-up would be equitable and is necessary to offset the potential differences among executives for varying levels of stock holdings.

Table of Contents

For purposes of these benefits, a change of control occurs, in general, when either (i) one or more persons acquire common stock of the Company that, together with other stock owned by the acquirers, amounts to more than 50% of the total fair market value or total voting power of the stock, (ii) one or more persons acquire during a 12-month period stock of the Company that amounts to 30% or more of the total voting power of the stock, (iii) a majority of the members of the Board of the Company are replaced in any 12-month period by directors who are not endorsed by a majority of the directors then in office, or (iv) with some exceptions, one or more persons acquire assets from the Company that have a total fair market value equal to or greater than 40% of the aggregate fair market value of all of the Company's assets.

Perquisites and Other Benefits

We believe that cash and incentive compensation should be the primary focus of compensation and that perquisites should be modest. Perquisites are periodically reviewed for executives to ensure conformity with this policy. The primary perquisites available to executives are the use of a leased automobile and the reimbursement of dues associated with a social or country club. The Company does not allow executive officers the use of our leased aircraft for personal use. Supplemental life and disability insurance is also provided for executives. The life insurance generally provides for a death benefit of six times the executive officer's base salary.

For executives on international assignments, additional expatriate benefits are designed to compensate the employee for differences in costs of living and taxation between the executive's home country and host country. In addition, additional financial assistance is provided to the assignee for expenses such as relocation, children's education, tax preparation and home leave travel.

Executives also participate in our other benefit plans on the same general terms as other employees. These plans may include medical, dental and disability insurance coverage.

Post-Employment Compensation

Each of the NEOs is covered by an employment agreement with AGCO. These agreements provide post-employment compensation and benefits in the event of certain types of termination of employment, including death, disability, involuntary termination without cause, or termination for good reason by the executive. For further detail on the post-employment compensation and benefits each NEO is entitled to in the event of certain types of termination, please refer to the tables below under the caption Other Potential Post-Employment Payments.

Summary

Overall, we believe our executive compensation programs accomplish the objectives for which they have been designed and are in concert with the compensation philosophy. We believe the competitive compensation that is provided to our executives is reasonable based on competitive market practices and has enabled us to attract and retain a strong management team generating strong business results. We further believe that our short-term and long-term incentive programs appropriately reward AGCO's executives for their achievement of performance goals and that these programs sufficiently align the interests of the executives with those of the stockholders.

SUMMARY OF 2013 COMPENSATION

The following table provides information concerning the compensation of the NEOs for the Company's three most recently completed years ended December 31, 2011, 2012 and 2013.

In the column **Salary**, we disclose the amount of base salary paid to the NEO during the year. In the columns **Stock Awards** and **SSAR Awards**, we disclose the award of stock or SSARs measured in dollars and calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, **Compensation-Stock Compensation** (ASC 718). For SSARs, the ASC 718 aggregate grant date fair value per share is based on certain assumptions that the Company explains in Note 10 to our Consolidated Financial Statements, which are included in our Annual Report on Form 10-K for the year ended December 31, 2013. For awards of stock, the ASC 718 aggregate grant date fair value per share is equal to the closing price of the Company's common stock on the date of grant. Please also refer to the table below under the caption **2013 Grants of Plan-Based Awards**.

In the column **Non-Equity Incentive Plan Compensation**, we disclose amounts earned under our IC Plan. The amounts included with respect to any particular year are dependent on whether the achievement of the relevant performance measure was satisfied during the year.

In the column **Change in Pension Value and Non-Qualified Earnings**, we disclose the aggregate change in the actuarial present value of the NEO's accumulated benefit under all defined benefit and actuarial benefit plans (including supplemental plans) in 2013.

In the column **All Other Compensation**, we disclose the sum of the dollar value of all perquisites and other personal benefits, or property, unless the aggregate amount of such compensation is less than \$10,000.

The Company currently has employment agreements with Messrs. Beck, Collar, Carioba, Richenhagen and Veltmaat. The employment contracts provide for current base salaries at the following annualized rates per annum: Mr. Beck \$495,000; Mr. Collar \$455,000; Mr. Carioba 1,082,558 Brazilian Reals (which is equivalent to approximately \$458,355 based on the exchange rate as of December 31, 2013); Mr. Richenhagen \$1,281,500; and Mr. Veltmaat \$560,500. Messrs. Beck, Collar, Carioba, Richenhagen and Veltmaat's employment contracts continue in effect until terminated in accordance with their terms. Actual amounts paid in the year vary slightly due to timing of pay periods. In addition to the specified base salary, the employment contracts provide that each executive officer shall be entitled to participate in benefit plans and other arrangements generally available to senior executive officers of the Company.

(1) *Stock Awards for 2011*

In 2011, awards were granted under a three-year performance cycle under the PSP and under a three- to five-year cycle under the margin growth incentive plan for a performance period commencing in 2011 and ending in 2015. The amounts above reflect the aggregate grant date fair value computed in accordance with ASC 718 in relation to both the 2011 three-year performance cycle and the margin growth incentive plan at the probable outcome of the performance conditions, or target level, at the date of grant. The actual amounts that were earned under the 2011-2013 three-year performance cycle and that will be earned under the three- to five-year cycle margin growth incentive plan were and are dependent upon the achievement of pre-established performance goals. Assuming the maximum level of performance conditions (which were actually achieved related to the three-year performance cycle under the PSP), the following would be the value of the award on the date of grant: Mr. Beck \$2,445,786; Mr. Carioba \$2,278,458; Mr. Collar \$2,278,458; Mr. Richenhagen \$9,555,840; and Mr. Veltmaat \$1,400,448.

Stock Awards for 2012

In 2012, awards were granted under a three-year performance cycle under the PSP. The amounts above reflect the aggregate grant date fair value computed in accordance with ASC 718 in relation to the 2012 three-year performance cycle at the probable outcome of the performance conditions, or target level, at the date of grant. The actual amounts that will be earned under the 2012-2014 three-year performance cycle are dependent upon the achievement of pre-established performance goals. Assuming the maximum level of performance conditions, the following would be the value of the award on the date of grant: Mr. Beck \$2,032,896; Mr. Carioba \$1,662,316; Mr. Collar \$1,662,316; Mr. Richenhagen \$9,740,960; and Mr. Veltmaat \$1,662,316.

Stock Awards for 2013

In 2013, awards were granted under a three-year performance cycle under the PSP. The amounts above reflect the aggregate grant date fair value computed in accordance with ASC 718 in relation to the 2013 three-year performance cycle at the probable outcome of the performance conditions, or target level, at the date of grant. The actual amounts that will be earned under the 2013-2015 three-year performance cycle are dependent upon the achievement of pre-established performance goals. Assuming the maximum level of performance conditions, the following would be the value of the award on the date of grant: Mr. Beck \$1,975,350; Mr. Carioba \$1,560,020; Mr. Collar \$1,560,020; Mr. Richenhagen \$10,383,250; and Mr. Veltmaat \$1,560,020.

- (2) SSARs were awarded on January 26, 2011, January 25, 2012 and January 23, 2013. The SSARs vest over four years from the date of grant, or 25% per year. The amounts above reflect the aggregate grant date fair value computed in accordance with ASC 718.

(3) *Non-Equity Incentive Plan Compensation for 2011.* All annual incentive awards for 2011 were performance-based. These payments were earned in 2011 and paid in February and March 2012 under the IC Plan. In addition, during 2011, Mr. Carioba received a performance bonus under a state-mandated, local profit sharing plan in Brazil.

Non-Equity Incentive Plan Compensation for 2012. All annual incentive awards for 2012 were performance-based. These payments were earned in 2012 and paid in February and March 2013 under the IC Plan. In addition, during 2012, Mr. Carioba received a performance bonus under a state-mandated, local profit sharing plan in Brazil and Mr. Richenhagen received a discretionary bonus of \$300,000 on May 15, 2012.

Non-Equity Incentive Plan Compensation for 2013. All annual incentive awards for 2013 were performance-based. These payments were earned in 2013 and paid in February and March 2014 under the IC Plan. In addition, during 2013, Mr. Carioba received a performance bonus under a state-mandated, local profit sharing plan in Brazil.

(4) The change in each officer's pension value is the change in the Company's obligation to provide pension benefits (at a future retirement date) from the beginning of the year to the end of the year. The obligation shown in the Pension Benefits Table is the value today of a benefit that will be paid at the officer's normal retirement age, based on the benefit formula and his or her current salary and service. The values shown in the Summary Compensation Table represent the change in the pension obligation since the prior year.

Change in pension values during the year may be due to various sources such as:

Service accruals: The benefits payable from the pension plans increase as participants earn additional years of service. Therefore, as each executive officer earns an additional year of service during the year, the benefit payable at retirement increases. Each of the NEOs who participate in a pension plan earned an additional year of benefit service during 2012.

Compensation increases/decreases since prior year: The benefits payable from the pension plans are related to salary. As executive officers' salaries increase (decrease), then the expected benefits payable from the pension plans will increase (decrease) as well.

Aging: The amounts shown above are present values of retirement benefits that will be paid in the future. As the officers approach retirement, the present value of the liability increases due to the fact that the executive officer is one year closer to retirement than he was at the prior measurement date.

Changes in assumptions: The amounts shown in the 2013 Pension Benefits Table are present values of retirement benefits that will be paid in the future. The discount rate used to determine the present value is updated each year based on current economic conditions. This assumption does not impact the actual benefits paid to participants. The discount rate increased from 2012 to 2013, which resulted in a decrease in the present value of the officers' benefits.

Plan amendments: The Company periodically amends the retirement programs in order to remain competitive locally and/or align with our global benefits strategy. There were no such amendments during 2013.

While Mr. Beck's pension annuity value increased due to service and compensation changes, the increase in the discount rate (as described under changes in assumptions) resulted in a net decrease of \$73,158 in the present value of his benefit. As a result, the change in his pension value is reported as \$0 during 2013.

Edgar Filing: AGCO CORP /DE - Form DEF 14A

The pension benefits and assumptions used to calculate these values are described in more detail under the caption Pension Benefits.

Table of Contents

- (5) The amount shown as All Other Compensation includes the following perquisites and personal benefits for the year ended December 31, 2013:

Name	Defined		Car Lease			Total
	Club Membership	Contribution Match	Life Insurance ^(a)	and Maintenance ^(b)	Other ^(c)	
	(\$)	(\$)	(\$)	(\$)	(\$)	(\$)

Hans-Bernd Veltmaat	7,416	11,475	7,650	19,451		45,992

- (a) These amounts represent the value of the benefit to the executive officer for life insurance policies funded by the Company.
- (b) These amounts represent car lease payments made by the Company for cars used by executives and/or their family members, as well as payments for related gas and maintenance costs.
- (c) Mr. Beck's wife accompanied Mr. Beck when the Company's corporate aircraft was used for attendance at a corporate function at no incremental cost. The amount for Mr. Carioba includes meal expenses \$2,913, as well as commercial airfare related to attendance by Mr. Carioba's wife at corporate functions \$6,140. In addition, Mr. Carioba's wife accompanied Mr. Carioba when the Company's corporate aircraft was used for attendance at a corporate function at no incremental cost. The amount for Mr. Collar includes benefits he received as an expatriate as follows: cost of living adjustment \$39,079; housing allowance \$86,933; tax equalization payments \$280,526; relocation and storage expenses \$36,052; tax preparation fees \$1,250; and home leave allowance related to travel costs for Mr. Collar and his wife to fly back to the United States as well as to attend certain corporate functions \$37,322. Mr. Richenhagen's wife and son accompanied Mr. Richenhagen when the Company's corporate aircraft was used for attendance at corporate functions at no incremental cost. Mr. Veltmaat's wife accompanied Mr. Veltmaat when the Company's corporate aircraft was used for attendance at a corporate function at no incremental cost.
- (6) Mr. Carioba, as a Brazil-based employee, is paid in Brazilian Reais. In calculating the dollar equivalent for disclosure purposes, we converted payments into U.S. dollars based on the average exchange rate in effect for the year or for certain items, using the average exchange rate in effect for the month in which the payment was made.

Table of Contents**2013 GRANTS OF PLAN-BASED AWARDS**

In this table, we provide information concerning each grant of an award made to an NEO in the most recently completed year. This includes the awards under the Company's IC Plan, as well as PSP awards and SSARs under the LTI Plan, each of which is discussed in greater detail under the caption Compensation Discussion and Analysis. The Threshold, Target and Maximum columns reflect the range of estimated payouts under the IC Plan and the range of number of shares to be awarded under the PSP. In the third- and second-to-last columns, we report the number of shares of common stock underlying SSARs granted in the year and corresponding per share exercise price. In all cases, the exercise price was equal to the closing market price of the Company's common stock on the date of grant. In the last column, we report the aggregate ASC 718 grant date fair value of all SSAR awards made in 2013.

- (2) The amounts shown represent the number of shares the executive would receive if the Threshold, Target and Maximum levels of performance are reached.

Table of Contents**OUTSTANDING EQUITY AWARDS AT YEAR-END 2013**

The following table provides information concerning unexercised SSARs and stock that has not been earned or vested for each NEO outstanding as of the end of the Company's most recently completed year. Each outstanding award is represented by a separate row that indicates the number of securities underlying the award.

For SSAR awards, the table discloses the exercise price and the expiration date. For stock awards, the table provides the total number of shares of stock that have not vested (or have not been earned) and the aggregate market value of shares of stock that have not vested (or have not been earned).
