Proxy Statement

For the 2014 Annual Meeting of Stockholders

General Information Concerning Proxies and Voting at the Annual Meeting

Why did I receive these proxy materials?

We are providing these proxy materials in connection with the solicitation by the board of directors of Taylor Morrison Home Corporation (the Company, TMHC, we, us, or our), a Delaware corporation, of proxies to be voted at our Annual Meeting and at any adjournment or postponement of the Annual Meeting. In accordance with rules of the SEC, we sent a Notice of Internet Availability of Proxy Materials on or about April 14, 2014 and provided access to our proxy materials over the Internet to the holders of record and beneficial owners of our common stock as of the close of business on the Record Date.

The Annual Meeting will be held at the offices of Snell & Wilmer L.L.P., located at One Arizona Center, 400 E. Van Buren St., Phoenix, Arizona 85004, on Wednesday, May 28, 2014 at 1:00 p.m. local time.

What information is included in this Proxy Statement?

The information in this Proxy Statement relates to the proposals to be voted on at the Annual Meeting, the voting process, our board of directors and board committees, the compensation of current directors and certain executive officers for the year ended December 31, 2013, and other information.

Who is entitled to vote?

Holders of our Class A common stock and Class B common stock at the close of business on the Record Date are entitled to receive the Notice of Annual Meeting of Stockholders and this Proxy Statement and vote at the Annual Meeting. As of the close of business on the Record Date, there were 32,857,800 shares of our Class A common stock outstanding and entitled to vote and 89,451,164 shares of our Class B common stock outstanding and entitled to vote.

How many votes do I have?

On any matter that is submitted to a vote of our stockholders, the holders of our common stock are entitled to one vote per share of Class A common stock and Class B common stock held by them on the Record Date. Holders of Class A common stock and Class B common stock will vote together as a single class on all matters submitted to stockholders for a vote in this Proxy Statement and such other matters as may properly come before the Annual Meeting and any adjournments or postponements of the Annual Meeting. Holders of our common stock are not entitled to cumulative voting in the election of directors.

What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Edgar Filing: Taylor Morrison Home Corp - Form DEF 14A

Most stockholders hold their shares through a broker, trust, bank or other nominee rather than directly in their own names.

If on the Record Date your shares were registered directly in your name with our transfer agent, Computershare Limited, then you are a stockholder of record. As a stockholder of record, you may vote in person at the Annual Meeting or vote by proxy. Whether or not you plan to attend the Annual Meeting, we urge you to vote over the Internet, by telephone or by filling out and returning a proxy card to ensure your vote is counted.

Table of Contents

GENERAL INFORMATION

If on the Record Date your shares were held in an account at a brokerage firm, bank, dealer or other similar organization, then you are the beneficial owner of shares held in street name and these proxy materials are being forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct your broker or other agent on how to vote the shares in your account. You are also invited to attend the Annual Meeting. However, since you are not the stockholder of record, you may not vote your shares in person at the Annual Meeting unless you request and obtain a valid legal proxy from your broker or other agent.

What am I voting on?

We are asking you to vote on the following matters in connection with the Annual Meeting:

1. The election of four Class I directors nominated by our board of directors to serve until the 2017 Annual Meeting of Stockholders;
2. An advisory vote to approve the compensation of our named executive officers;
3. An advisory vote on the frequency of future advisory votes to approve the compensation of our named executive officers; and
4. Ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014.

We will also consider any other business that may properly come before the Annual Meeting.

How do I vote?

Vote by Internet

Stockholders of record may submit proxies over the Internet by following the instructions on the Notice of Internet Availability of Proxy Materials or, if printed copies of the proxy materials were requested, the instructions on the printed proxy card. Most beneficial stockholders may vote by accessing the website specified on the voting instructions forms provided by their brokers, trustees, banks or other nominees. Please check your voting instruction form for Internet voting availability.

Vote by Telephone

Stockholders of record may submit proxies using any touch-tone telephone from within the United States by following the instructions on the Notice of Internet Availability of Proxy Materials or, if printed copies of the proxy materials were requested, the instructions on the printed proxy card. Most beneficial owners may vote using any touch-tone telephone from within the United States by calling the number specified on the voting instruction forms provided by their brokers, trustees, banks or other nominees.

Vote by Mail

Stockholders of record may submit proxies by mail by requesting printed proxy cards and completing, signing and dating the printed proxy cards and mailing them in the pre-addressed envelopes that will accompany the printed proxy materials. Beneficial owners may vote by completing, signing and dating the voting instruction forms provided and mailing them in the pre-addressed envelopes accompanying the voting instruction forms.

Edgar Filing: Taylor Morrison Home Corp - Form DEF 14A

If you are a stockholder of record and you return your signed proxy card but do not indicate your voting preferences, the persons named in the proxy card will vote the shares represented by that proxy as recommended by the board of directors. If you are a beneficial owner and you return your signed voting instruction form but do not indicate your voting preferences, please see [What are broker non-votes and how do they affect the proposals?](#) regarding whether your broker, bank or other holder of record may vote your uninstructed shares on a particular proposal.

Vote in Person at the Annual Meeting

All stockholders as of the close of business on the Record Date can vote in person at the Annual Meeting. You can also be represented by another person at the Annual Meeting by executing a proper proxy designating that person. If you

GENERAL INFORMATION

are a beneficial owner, you must obtain a legal proxy from your broker, bank, or other holder of record and present it to the inspector of election with your ballot to be able to vote at the Annual Meeting. Even if you plan to attend the Annual Meeting, we recommend that you also vote either by telephone, by Internet, or by mail so that your vote will be counted if you decide not to attend.

What does it mean if I receive more than one set of materials?

If you receive more than one set of materials, it means that your shares are registered in more than one name or are registered in different accounts. In order to vote all the shares you own, you must either sign and return all of the proxy cards or follow the instructions for any alternative voting procedures on each of the proxy cards or Notices of Internet Availability of Proxy Materials you receive.

What can I do if I change my mind after I vote?

If you are a stockholder of record, you may revoke your proxy at any time before it is exercised at the Annual Meeting by (a) delivering written notice, bearing a date later than the proxy, stating that the proxy is revoked to Taylor Morrison Home Corporation, 4900 N. Scottsdale Road, Suite 2000, Scottsdale, Arizona 85251, Attn: General Counsel, (b) submitting a later-dated proxy relating to the same shares by mail, telephone or the Internet prior to the vote at the Annual Meeting, or (c) attending the Annual Meeting and voting in person. Stockholders of record may send a request for a new proxy card via e-mail to sendmaterial@proxymail.com, or follow the instructions provided on the Notice of Internet Availability of Proxy Materials and proxy card to submit a new proxy by telephone or via the Internet. Stockholders of record may also request a new proxy card by calling 1-800-579-1639.

If you are a beneficial stockholder, you may revoke your proxy or change your vote only by following the separate instructions provided by your broker, trust, bank or other nominee.

What constitutes a quorum at the Annual Meeting?

Transaction of business at the Annual Meeting may occur only if a quorum is present. A quorum will be present if at least a majority of votes represented by the holders of our outstanding Class A common stock and Class B common stock, treated as a single class, are present in person or represented by proxy. If a quorum is not present, it is expected that the Annual Meeting will be adjourned or postponed in order to permit additional time for soliciting and obtaining additional proxies or votes, and, at any subsequent reconvening of the Annual Meeting, all proxies will be voted in the same manner as such proxies would have been voted at the original convening of the Annual Meeting, except for any proxies that have been effectively revoked or withdrawn, as discussed above under the heading **What can I do if I change my mind after I vote?**

Abstentions and broker non-votes are counted as present and entitled to vote for purposes of determining a quorum.

What are the voting requirements to elect directors and approve each of the other proposals described in this Proxy Statement?

With respect to Proposal 1, the election of directors, the four Class I director nominees receiving the largest number of votes will be elected. With respect to Proposals 2 and 4, the affirmative vote of a majority of the shares present in person or by proxy at the Annual Meeting and entitled to vote is required for the proposal to be approved. With respect to Proposal 3, the frequency of the advisory vote to approve named executive officer compensation, we will consider the alternative receiving the greatest number of votes — one year, two years or three years — to be the frequency that stockholders approve. With respect to Proposals 2 and 4, abstentions will have the effect of voting against these proposals, and broker non-votes will have no effect on the outcome of these proposals. With respect to Proposals 1 and 3, abstentions and broker non-votes will have no effect on the outcome of these proposals.

What are broker non-votes and how do they affect the proposals?

A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote the shares on a proposal because the nominee does not have discretionary voting power for a particular item and has not received

Table of Contents

GENERAL INFORMATION

instructions from the beneficial owner regarding voting. Brokers who hold shares for the accounts of their clients have discretionary authority to vote shares if specific instructions are not given with respect to routine items. If your shares are held by a broker on your behalf and you do not instruct the broker as to how to vote your shares on Proposals 1, 2 or 3, the broker may not exercise discretion to vote for or against those proposals because these proposals are considered non-routine by the NYSE. With respect to Proposal 4, the ratification of the appointment of our independent registered public accounting firm, the broker may exercise its discretion to vote for or against that proposal in the absence of your instruction. Broker non-votes are not counted as votes in favor of or against any proposal or, with respect to Proposal 3, any frequency alternative.

Who will pay for the cost of this proxy solicitation?

We will bear the cost of the solicitation of proxies from our stockholders. In addition to solicitation by mail, our directors, officers and employees, without additional compensation, may solicit proxies from stockholders by telephone, by letter, by facsimile, in person or otherwise. Following the original circulation of the proxies and other soliciting materials, we will request brokers, trusts, banks or other nominees to forward copies of the proxy and other soliciting materials to persons for whom they hold shares of our common stock and to request authority for the exercise of proxies. In such cases, we, upon the request of the brokers, trusts, banks and other stockholder nominees, will reimburse such holders for their reasonable expenses. We will also bear the cost of retaining any proxy solicitation firm, should we choose to retain one. We would expect the expenses associated with retaining any such proxy solicitation firm would not exceed \$25,000.

Why did I receive a one-page notice in the mail regarding the Internet availability of proxy materials instead of a full set of proxy materials?

Pursuant to rules adopted by the SEC, we have elected to provide access to our proxy materials over the Internet. Accordingly, we are sending a Notice of Internet Availability of Proxy Materials to our stockholders. All stockholders will have the ability to access the proxy materials on the website referred to in the Notice of Internet Availability of Proxy Materials or request to receive an electronic copy or printed set of the proxy materials. Instructions on how to access the proxy materials over the Internet or to request an electronic copy or printed copy may be found in the Notice of Internet Availability of Proxy Materials. In addition, stockholders may request to receive proxy materials in printed form by mail or electronically by email on an ongoing basis. We encourage stockholders to take advantage of the availability of the proxy materials on the Internet to help reduce the environmental impact and cost of the Annual Meeting.

When will we announce the results of the voting?

Voting results will be announced by the filing of a Current Report on Form 8-K within four business days after the Annual Meeting. If final voting results are unavailable at that time, we will file an amended Current Report on Form 8-K within four business days of the day the final results are available.

What are the requirements for admission to the Annual Meeting?

Only stockholders and persons holding proxies from stockholders may attend the Annual Meeting. If your shares are registered in your name, you must bring a form of identification to the Annual Meeting. If your shares are held in the name of a broker, trust, bank or other nominee that holds your shares, you must bring a legal proxy from that broker, trust, bank or other nominee that confirms you are the beneficial owner of those shares. Attendance at the Annual Meeting without voting or revoking a previously submitted proxy in accordance with the voting procedures will not in and of itself revoke a proxy.

Eller, Keller and Lane have consented to being named as nominees in this Proxy Statement and have agreed to serve if elected. If any nominee becomes unable to serve at the time the election occurs, proxies will be voted for another nominee designated by the board of directors unless the board chooses to reduce the number of directors serving on the board. The board of directors has no reason to believe that any of the nominees will be unable or unwilling to serve as a director if elected.

In connection with our April 2013 initial public offering (IPO), we entered into a Stockholders Agreement, dated as of April 9, 2013 (and as subsequently amended on March 6, 2014), by and among Taylor Morrison Home Corporation and the stockholders of Taylor Morrison Home Corporation named therein (the Stockholders Agreement), which include our Principal Equityholders, as described below. The Stockholders Agreement contains provisions related to the composition of our board of directors and its committees. Among other things, the Stockholders Agreement gives an affiliate of TPG Global, LLC (the TPG Holding Vehicle), an affiliate of Oaktree Capital Management, L.P. (the Oaktree Holding Vehicle) and JHI Holding Limited Partnership (JHI and together with the TPG Holding Vehicle and the Oaktree Holding Vehicle, the Principal Equityholders) the right to nominate a majority of the members of our board of directors. CORPORATE GOVERNANCE

Corporate Governance

We believe that effective corporate governance is critical to our ability to create long-term value for our stockholders. We have adopted and implemented charters, policies, procedures and controls that we believe promote and enhance corporate governance, accountability and responsibility, and create a culture of honesty and integrity of our company. Our Corporate Governance Guidelines, Code of Conduct and Ethics, various other governance-related information and board committee charters are available on the Investor Relations page of our corporate website at www.taylormorrison.com under the category Corporate Governance.

Controlled Company

For purposes of New York Stock Exchange (NYSE) rules, our board of directors has determined that we are a controlled company. Controlled companies under those rules are companies of which more than 50% of the voting power is held by an individual, a group or another company. Together, the Principal Equityholders control more than 50% of the combined voting power of our common stock and are able to elect a majority of our board of directors. Accordingly, we are eligible for certain exemptions from the NYSE rules. Specifically, as a controlled company under NYSE rules, we are not required to have (i) a majority of independent directors, (ii) a nominating and corporate governance committee composed entirely of independent directors or (iii) a compensation committee composed entirely of independent directors. We avail ourselves of all of these exemptions.

Information About Our Board of Directors

Director Independence

Our board of directors consults with the Company's legal counsel to ensure that the board's independence determinations are consistent with all relevant securities and other laws and regulations regarding director independence. To assist in the board's independence determinations, each director completed materials designed to identify any relationships that could affect the director's independence. In addition, through discussions among our directors, a subjective analysis of independence is undertaken by the nominating and corporate governance committee. The board of directors has determined that Ms. Mariucci and Messrs. Eller, Henry and Merritt are independent, as such term is defined by the applicable rules and regulations of the NYSE. Additionally, each of these directors meets the categorical standards for independence established by our board of directors, as set forth in our Corporate Governance Guidelines.

Director Qualifications

The board of directors has delegated to the nominating and corporate governance committee the responsibility of reviewing and recommending nominees for membership of the board of directors. Though we have no formal policy addressing diversity, the nominating and corporate governance committee seeks candidates from diverse professional and personal backgrounds who combine a broad spectrum of experience and expertise with a reputation for integrity. The assessment of these candidates will include an individual's independence, as well as consideration of age, skills, character and experience, and a policy of promoting diversity, in the context of the needs of the Company. Other characteristics, including, but not limited to, the director nominee's material relationships with the Company, time availability, service on other boards of directors and their committees or any other characteristics which may prove relevant at any given time are also reviewed by the nominating and corporate governance committee for purposes of determining a director nominee's qualification.

In the case of incumbent directors whose terms of office are set to expire, the nominating and corporate governance committee reviews such directors' overall service to our Company during their respective term, including the number of meetings attended, level of participation, quality of performance and any relationships and transactions that might impair such directors' independence. With respect to new director nominees, in addition to the criteria discussed above, the nominating and corporate governance committee also determines whether the nominee is independent, which determination is based upon applicable NYSE rules, applicable SEC rules and regulations, our Corporate Governance Guidelines and the advice of legal counsel, if necessary. To date, the nominating and corporate governance committee has not paid a fee to any third party to assist in the process of identifying or evaluating director candidates.

In addition, for so long as JHI owns 50% of its interest in the TPG and Oaktree Holding Vehicles and such holding vehicles own at least 50% of the shares of common stock owned by such holding vehicles immediately following our IPO and the application of net proceeds therefrom, JHI will be entitled to nominate one director to our board of directors. However, if at any time either of the TPG Holding Vehicle or Oaktree Holding Vehicle certifies to us that they cannot agree on a joint designee for our board of directors, we will take necessary action to expand the board of directors to 14 directors and to permit each of the TPG Holding Vehicle and Oaktree Holding Vehicle to designate an additional director to serve on our board of directors.

Each group of our Principal Equityholders has agreed to vote its shares in favor of the directors nominated by the other and by JHI in accordance with the terms of the Stockholders Agreement. To the extent that either group of our Principal Equityholders is no longer entitled to nominate a board member, our board of directors (upon the recommendation of the nominating and corporate governance committee will nominate a director in its place.

The remaining nominees for our board of directors are recommended by the nominating and corporate governance committee, which may utilize a variety of methods for identifying nominees for director. Candidates may come to the attention of the nominating and corporate governance committee through current board members, professional search firms, stockholders or other persons.

The nominating and corporate governance committee will consider nominees proposed by our stockholders in accordance with the provisions contained in our by-laws. Each notice of nomination submitted in this manner must contain the information specified in our by-laws, including, but not limited to, information with respect to the beneficial ownership of our common stock or derivative securities that have a value associated with our common stock held by the proposing stockholder and its associates and any voting or similar agreement the proposing stockholder has entered into with respect to our common stock. To be timely, the notice must be received at our corporate headquarters not less than 90 days nor more than 120 days prior to the first anniversary of the date of the prior year's annual meeting of stockholders. The foregoing description of our Stockholders Agreement and the advance notice provisions of our by-laws is a summary and is qualified in its entirety by reference to the full text of the Stockholders Agreement and by-laws. Accordingly, we advise you to review our Stockholders Agreement and by-laws for additional stipulations relating to the process for identifying and nominating directors, including advance notice of director nominations and stockholder proposals. CORPORATE GOVERNANCE

Board Structure and Operations

Composition of our Board of Directors

Our amended and restated certificate of incorporation provides that our board of directors will consist of no less than three and not more than 15 members, with the exact number of members to be determined from time to time by the board of directors.

The number of directors on our board is currently fixed at 13, which includes one vacancy that the board of directors does not currently plan to fill and 12 members. In accordance with our amended and restated certificate of incorporation and our amended and restated bylaws, the number of directors on our board will be determined from time to time by our board of directors and may be increased to 14 members as provided in the Stockholders Agreement as described under **Information About Our Board of Directors Process for Identifying and Nominating Directors**. Only a majority of the board of directors may fix the number of directors, provided that Requisite Investor Approval (as defined in the Stockholders Agreement) is required to increase the size of the board of directors further beyond 14, except if such increase is to provide for the minimum number of directors required for us to comply with applicable law and the regulations of the NYSE. For purposes of the Stockholders Agreement, **Requisite Investor Approval** means, in addition to the approval of a majority vote of our board of directors, the approval of a director nominated by the TPG Holding Vehicle so long as it owns at least 50% of our common stock held by it immediately following our IPO and the application of net proceeds therefrom and the approval of a director nominated by the Oaktree Holding Vehicle so long as it owns at least 50% of our common stock held by it immediately following our IPO and the application of net proceeds therefrom.

Each director is to hold office until his or her successor is duly elected and qualified or until his or her earlier death, resignation or removal. Vacancies and newly created directorships on the board of directors may be filled at any time by the remaining directors.

Until the **Triggering Event** (which is the point in time at which the TPG and Oaktree Holding Vehicles no longer beneficially own shares representing 50% or more of the combined voting power of our common stock), any director may be removed with or without cause by holders of a majority of our outstanding shares of common stock. Thereafter, directors may only be removed for cause by the affirmative vote of the holders of at least three-fourths of our outstanding shares of common stock. At any meeting of our board of directors, except as otherwise required by law, a majority of the total number of directors then in office will constitute a quorum for all purposes, provided that, until the Triggering Event, a quorum will require the attendance of one director nominated by each holding vehicle that has the right to designate at least one director for election to the board of directors.

Pursuant to our amended and restated certificate of incorporation, our board of directors is divided into three classes, with staggered three-year terms, with the classes to be as nearly as equal in number as possible. The composition of the board of directors of our indirect subsidiaries Taylor Morrison Holdings, the parent company of our U.S. business, and Monarch Communities, the parent company of our Canadian business, is identical to the current composition of our board of directors. Pursuant to governance agreements entered into by us in connection with the IPO, we contractually control the composition of the boards of directors of Taylor Morrison Holdings and Monarch Communities and their respective committees. See **Certain Relationships and Related Person Transactions Governance Agreements**. As a result, all directors elected to our board of directors will also serve on the boards of Taylor Morrison Holdings and Monarch Communities.

Our board of directors and its committees have supervisory authority over Taylor Morrison Home Corporation, which, through its indirect control of its subsidiary holding partnerships, TMM Holdings Limited Partnership (**TMM**) and TMM Holdings II Limited Partnership (**New TMM**), exercises stewardship over the business and affairs of Taylor Morrison Holdings and its subsidiaries and Monarch Communities and its subsidiaries. Taylor Morrison Home Corporation, New TMM and TMM do not conduct any activities other than direct or indirect ownership and stewardship over Taylor Morrison Holdings and Monarch Communities and their respective subsidiaries. The board of directors of Taylor Morrison Holdings and its committees have supervisory authority over Taylor Morrison Holdings and its subsidiaries and exercise control over the operations and businesses of Taylor Morrison Holdings and its subsidiaries. The board of directors of Monarch Communities and its committees have supervisory authority over Monarch Communities and its subsidiaries and exercise control over the operations and businesses of Monarch Communities and its subsidiaries.

CORPORATE GOVERNANCE

Board Leadership Structure

Our board of directors does not currently have a policy as to whether the role of Chairman of the board of directors and the Chief Executive Officer, or CEO, should be separate. Our board of directors believes that the Company and its stockholders are best served by maintaining the flexibility to determine whether the Chairman and CEO positions should be separated or combined at a given point in time in order to provide appropriate leadership for the Company at that time. The board of directors believes that its current leadership structure, with Mr. Eller, an independent director, serving as Chairman and Ms. Palmer serving as CEO, is appropriate at this time.

In addition, our Corporate Governance Guidelines provide that, in order to maintain the independent integrity of our board of directors, if the Chairman is not an independent director, the board of directors may appoint as Lead Director an independent director or the chairman of our nominating and corporate governance committee.

Board's Role in Risk Oversight

Our board of directors exercises oversight of risk management consistent with its duties to the Company and its subsidiaries. The audit committee, pursuant to its charter, is responsible for discussing with management our major financial, credit, liquidity and other risk exposures, as well as our risk assessment and risk management policies. The audit committee works directly with members of senior management and our internal audit staff to review and assess our risk management initiatives, including our compliance programs, and reports as appropriate to the board. In addition, the audit committee meets as appropriate (i) as a committee to discuss our risk management guidelines, policies and exposures and (ii) with our independent auditors to review our internal control environment and other risk exposures. The compensation committee oversees the management of risks relating to our executive compensation programs and employee benefit plans. In fulfillment of its duties, the compensation committee reviews at least annually our executive compensation programs, meets regularly with management to understand the financial, human resources and stockholder implications of compensation decisions and reports as appropriate to the board of directors.

The board of directors as a whole also engages in the oversight of risk in various ways.

During the course of each year, the board of directors reviews the structure and operation of various departments and functions of our company, including its risk management and internal audit functions. In these reviews, the board of directors discusses with management the risks affecting those departments and functions and management's approaches to mitigating those risks.

The board of directors reviews and approves each year's management operating plan. These reviews cover risks that could affect the management operating plan and measures to cope with those risks.

In its review and approval of annual reports on Form 10-K, the board of directors reviews our business and related risks, including as described in the Business, Risk Factors and Management's Discussion and Analysis sections of the document. The audit committee updates this review quarterly in connection with the preparation of quarterly reports on Form 10-Q.

Management must obtain the approval of the board of directors, acting through an investment committee of the board of directors, before proceeding with any land acquisition above a pre-established threshold. When the board of directors reviews particular transactions and initiatives that require board approval, or that otherwise merit the board of directors' involvement, the board of directors generally includes related risk analysis and mitigation plans among the matters addressed with management.

The day-to-day identification and management of risk is the responsibility of our management. As the market environment, industry practices, regulatory requirements and our business evolve, management and the board of directors intends to respond with appropriate adaptations to risk management and oversight.

Meetings of our Board of Directors

Our board of directors and its committees meet periodically during the year, hold special meetings as needed and act by written consent from time to time as deemed appropriate. During 2013, our board of directors met 11 times. No director attended fewer than 75% of the aggregate of (a) the total number of meetings of the board of directors and (b) the total number of meetings held by all committees of the board of directors on which such director served. of our directors is strongly encouraged, but is not required, to attend our annual meetings of stockholders. We completed our IPO in April 2013 and the Annual Meeting will be our first annual meeting of stockholders as a public company.

Executive Sessions of our Board of Directors

Generally, an executive session of non-management directors is held in conjunction with each regularly scheduled board meeting and at other times as deemed appropriate. Our Chairman presides over each executive session. In addition, because the board of directors includes non-management directors who are not independent as defined by the NYSE rules, the independent directors meet in executive session at least one time each fiscal year. The non-management directors met in executive session four times during 2013 and the independent directors met in executive session once during 2013. Each committee of the board of directors also generally conducts an executive session in conjunction with each regularly scheduled committee meeting and at other times as deemed appropriate.

Committees of our Board of Directors

The board of directors of Taylor Morrison Home Corporation has three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee. Each of the standing committees operates pursuant to a written charter, which is available on the Investor Relations page of our corporate website at www.taylormorrison.com under the category Corporate Governance. The following is a brief description of our committees, including their membership and responsibilities.

Pursuant to the Stockholders Agreement, for so long as the TPG and Oaktree Holding Vehicles are entitled to nominate directors for appointment to our board of directors, the TPG and Oaktree Holding Vehicles will each have the right to appoint a member to each committee of our board of directors, subject to applicable rules and regulations of the NYSE.

Audit Committee

Our audit committee assists the board in fulfilling its fiduciary oversight responsibilities by reviewing: (i) the integrity of financial information provided to stockholders, investors and others; (ii) the performance of our internal audit function and systems of internal controls; and (iii) our compliance with legal and regulatory requirements. The audit committee also has direct responsibility for the appointment, compensation, retention (including termination) and oversight of our independent auditors and is responsible for the preparation of an audit committee report to be included in our annual proxy statement as required by the SEC. The audit committee also reviews and approves related person transactions in accordance with our Related Person Transaction Policy. See Certain Relationships and Related Person Transactions Related Person Transaction Policy. During 2013, the audit committee met nine times.

Under transition rules of the NYSE and pursuant to the Stockholders Agreement, our audit committee must be comprised entirely of independent directors by April 9, 2014. Since March 6, 2014, our audit committee has been comprised of Mr. Henry (chairman), Ms. Mariucci and Mr. Merritt, each of whom has the accounting and financial expertise required by NYSE rules and is independent as defined under the independence requirements of the NYSE and the SEC applicable to audit committee members. Until June 2013, Mr. Kranias served as a member of the audit committee, whereupon he was replaced by Mr. Merritt. Until March 6, 2014, Mr. Keller served as a member of the audit committee, whereupon he was replaced by Ms. Mariucci. In addition, the board of directors has determined that Mr. Henry qualifies as an audit committee financial expert as that term is defined under SEC rules. Information about Mr. Henry's background that qualifies him as an audit committee financial expert is included in Proposal 1: Election of Directors Class III Directors Continuing in Office Until the 2016 Annual Meeting of Stockholders.

Compensation Committee

Our compensation committee reviews and recommends policies relating to compensation and benefits of our directors, employees and certain other persons providing services to our Company, and is responsible for approving the compensation of our CEO and other executive officers. Our compensation committee also administers our omnibus equity incentive plan, our annual bonus plan and other benefit programs. The compensation committee has delegated authority to our CEO to issue equity awards to employees other than to executive officers and certain other senior members of our management. In addition, to the extent compensation is intended to qualify as performance-based compensation for purposes of Section 162(m) of the Internal Revenue Code of 1986, as

Table of Contents**CORPORATE GOVERNANCE**

amended (the Code), all such compensation shall be established, administered and approved by a sub-committee of the compensation committee consisting of two or more members, each of whom shall qualify as an outside director under Section 162(m) of the Code. If at any time the compensation committee includes a member who is not a non-employee director within the meaning of Rule 16b-3 under the U.S. Securities Exchange Act of 1934, as amended (the Exchange Act), and the rules and regulations promulgated thereunder, then either a subcommittee comprised entirely of individuals who are non-employee directors or the board of directors will approve any grants of equity-based compensation made to any individual who is subject to Section 16 of the Exchange Act. The compensation committee has the sole authority to retain and terminate any compensation consultant to assist in the evaluation of employee compensation and to approve the consultant's fees and other terms and conditions of the consultant's retention. During 2013, the compensation committee met three times.

Our compensation committee currently is comprised of Messrs. Shourie (chairman), Houssian and Davis. Because we are a controlled company under the rules of the NYSE, our compensation committee is not required to be fully independent, although if such rules change in the future or we no longer meet the definition of a controlled company under the current rules, we will adjust the composition of the compensation committee accordingly in order to comply with such rules. Mr. Shourie was nominated to the committee by the Oaktree Holding Vehicle and Mr. Davis was nominated to the committee by the TPG Holding Vehicle in accordance with the Stockholders Agreement.

For additional discussion of the processes and procedures the compensation committee has used for the consideration and determination of executive and director compensation, please see Compensation Discussion and Analysis.

Nominating and Corporate Governance Committee

Our nominating and corporate governance committee provides assistance to the board of directors in identifying and recommending individuals qualified to serve as directors of our Company, reviews the composition of the board of directors and periodically evaluates the performance of the board of directors and its committees. The nominating and corporate governance committee also recommends our various committee memberships based upon, among other considerations, a director's available time commitment, background and/or the skill set it deems appropriate to adequately perform the responsibilities of the applicable committee. In addition, the nominating and corporate governance committee develops and recommends corporate governance policies and procedures for us, including our Corporate Governance Guidelines, and monitors and reviews compliance with those policies. During 2013, the nominating and corporate governance committee met three times.

Our nominating and corporate governance committee currently is comprised of Messrs. Lane (chairman), Brady and Eller. Because we are a controlled company under the rules of the NYSE, our nominating and corporate governance committee is not required to be fully independent, although if such rules change in the future or we no longer meet the definition of a controlled company under the current rules, we will adjust the composition of the nominating and corporate governance committee accordingly in order to comply with such rules. Mr. Brady was nominated to the committee by the Oaktree Holding Vehicle and Mr. Lane was nominated to the committee by the TPG Holding Vehicle in accordance with the Stockholders Agreement.

Compensation Committee Interlocks and Insider Participation

CORPORATE GOVERNANCE

Anti-Hedging Policy

We have a securities trading policy that sets forth guidelines and restrictions on transactions involving our stock, which are applicable to our employees, including our executive officers and directors. Our policy prohibits hedging, including, among other things, purchases of stock on margin, calls or similar options on Company stock or from selling our stock short. These types of transactions would allow employees to own Company stock without the full risks and rewards of ownership. When that occurs, employees or directors may no longer have the same objectives as the Company's other stockholders and therefore such transactions involving our stock are prohibited.

Table of Contents**DIRECTOR COMPENSATION**

Director Compensation

Directors who are our employees or are employed by our Principal Equityholders are not separately compensated by us for their service on our board of directors. For our other directors, we pay an annual cash retainer for service on our board of directors. The annual cash retainer was paid to such directors in quarterly installments in arrears. We also reimbursed our directors for reasonable travel and other related expenses to attend board and committee meetings.

In addition to cash retainers, our board of directors and Compensation Committee determined that it was important to include an equity component in director compensation because they believe it is important for our directors who receive compensation from us to build and maintain a long-term ownership position in our business, to further align their financial interests with those of our stockholders and to encourage the creation of long-term value. In furtherance of this objective, each non-employee director receives a one-time grant of options to purchase shares of our Class A common stock at the time that the director initially joins our board of directors. The number of shares subject to the grant of options is determined by dividing \$250,000 by the closing price of our Class A common stock on the grant date. These options will vest over three years in equal annual installments on the first three anniversaries of the date of grant and the term of such options is ten years.

We also provide each non-employee director with an annual equity award of restricted stock units (RSUs) with an aggregate grant date value ranging from approximately \$50,000 \$75,000. The amount of the annual award depends on whether the director is also a member of one of our committees. The annual RSU award vests in full on the first anniversary of grant.

On March 6, 2014, the board of directors appointed Anne L. Mariucci to serve as an additional independent member of our board of directors. Ms. Mariucci will be compensated for her service as an independent director. She will receive an annual retainer in the amount of \$40,000 (pro-rated for 2014) paid quarterly in arrears, an annual grant of Company restricted stock units with an aggregate grant date value of \$50,000, vesting in full on the first anniversary of the date of grant, and a one-time grant of Company stock options to purchase Class A common stock with an aggregate grant date value of \$250,000, vesting over three years in equal annual installments on the first three anniversaries of the date of grant.

The following table summarizes the compensation earned by, or awarded or paid to, those of our directors who, for the year ended December 31, 2013, were compensated for their service as directors. None of our other directors (i.e., those not in the table) earned, were awarded or were paid any compensation from us for the year ended December 31, 2013, for their service as directors.

(3) In June 2012, Messrs. Eller and Lane each received an award of 800,000 Class M Units and 400,000 Class M Units, respectively, in TMM. The vesting terms applicable to the previously granted Class M Units (20% on each of the first, second, third, fourth and fifth anniversaries of June 29, 2012) continue to apply to the unvested New TMM Units. There was no incremental grant date fair value recognized for Messrs. Eller s and Lane s New TMM Units in connection with the conversion of the pre-offering equity grants (Class M Units of TMM), as calculated in accordance with ASC 718. The performance condition will be satisfied only if the weighted average price (after reduction for underwriting discount and commissions) at which the Principal Equityholders have actually sold their New TMM Units or shares of Class A common stock, exceeds the gross IPO price per share of the Class A common stock sold in our IPO, it being understood that (i) all sales by the Principal Equityholders through December 31, 2015 will be included (including sales of New TMM Units as part of the synthetic secondary component of the IPO) and (ii) the performance condition will be satisfied the first time prior to December 31, 2015 that the weighted-average price per New TMM Unit (or share of Class A common stock) actually sold by the Principal Equityholders, after reduction for underwriting discount and commissions, exceeds the applicable threshold.

- (4) On April 12, 2013, Mr. Henry received a one-time sign-on equity grant of 11,364 options to purchase shares of the Company's Class A common stock, at a price of \$22.00 per share, the amount in this column reflects the aggregate grant date fair value of the award, calculated in accordance with ASC 718. The assumptions used in the valuation of stock-based awards are discussed in Note 16 to our Audited Consolidated Financial Statements included in our Annual Report on Form 10-K for 2013. On August 19, 2013, Mr. Merritt received a one-time sign-on equity grant of 12,525 options to purchase shares of the Company's Class A common stock, at \$19.96 per share, the amount in this column reflects the aggregate grant date fair value of the award, calculated in accordance with ASC 718. COMPENSATION DISCUSSION AND ANALYSIS

Compensation Discussion and Analysis

This compensation discussion and analysis discusses our executive compensation programs for our named executive officers in respect of our fiscal year ending December 31, 2013 and includes a discussion of our compensation objectives and philosophy and the material elements of compensation earned by, or awarded or paid to, our named executive officers in the year. This section also describes processes we use in reaching compensation decisions and is intended to amplify and provide context for understanding the amounts in the tabular disclosure that follows. We have also highlighted our corporate results in 2013 and how these results led to the executive compensation we paid for the year. In addition, we have identified what we see as certain attributes of our compensation programs for our named executive officers.

Executive Summary

We delivered solid results in 2013, as evidenced by:

Net sales orders (including unconsolidated joint ventures) increased 17.7%;

Homes closed (including unconsolidated joint ventures) increased 56.2%, with an increase in the average selling price of those homes closed of 5.0% to \$382,000;

Homebuilding revenues (excluding unconsolidated joint ventures) increased 65.4%, from \$1.4 billion to \$2.3 billion;

Gross margin remained constant at 21.7%;

General and administrative expenses as a percentage of total revenues decreased slightly from 4.2% to 4.0%; and

Successfully completed our IPO in April 2013.

These strong performance results are reflected in our executive compensation actions, as evidenced by the following highlights:

Named executive officer s bonuses for 2013 performance were earned at 136% of target; and

The value of performance-based equity awards increased commensurate with the increase in stockholder value. Consistent with the pay-for-performance and stockholder alignment focuses of our compensation objectives and philosophy, which are discussed in further detail below in this compensation discussion and analysis, our compensation programs for 2013 have the following attributes:

A balanced mix of short-term cash compensation and long-term compensation (cash and equity-based);

Forfeiture of equity awards upon violation of certain post-employment restrictive covenants;

An appropriate level of severance protection to ensure continuity of service;

No single-trigger change in control parachute payment features in any of our programs;

No gross-ups for any excise or other penalty taxes related to compensation paid;

Clawback of certain cash and equity incentive compensation; and

A modest use of perquisites, which do not make up a material portion of the compensation and benefits provided to our named executive officers.

2014 Annual Meeting of Stockholders Advisory Vote to Approve the Compensation of our Named Executive Officers

Prior to our IPO, we were a privately owned company and as such we were not required to conduct a stockholder advisory vote on our executive compensation programs. Our 2014 Annual Meeting of Stockholders to which this Proxy Statement relates will include our first advisory vote to approve the compensation of our named executive officers (and

advisory vote on the frequency of future advisory votes to approve the compensation of our named executive officers), and as such we have not yet had the opportunity to consider the results of any prior stockholder advisory votes on our executive compensation in the development of our current compensation programs and practices. We recognize that the business and executive compensation environments continue to evolve, and we are committed to having compensation programs and practices that support our business objectives, promote good corporate governance and align executive pay with our performance. See Proposal No. 2: Advisory Vote to Approve the Compensation of our Named Executive Officers (Say on Pay) for additional information.

Our Named Executive Officers for 2013

Our named executive officers for 2013 include our principal executive officer and principal financial officer, as well as the three most highly compensated of those of our executive officers who were serving as such at the end of 2013:

President and Chief Executive Officer of TMHC and Taylor Morrison, Inc. and Director of Taylor Morrison Holdings and Monarch Communities ⁽¹⁾	Sheryl D. Palmer
Vice President and Chief Financial Officer of TMHC and Taylor Morrison, Inc.	C. David Cone
President, West Region of Taylor Morrison, Inc.	Stephen Wethor
President, East Region of Taylor Morrison, Inc.	Louis Steffens
President, Taylor Morrison Home Funding, LLC and Mortgage Funding Direct Ventures	Tawn Kelley

(1) Our business is conducted through several operating companies indirectly held by TMHC. So, our named executive officers hold officer positions at these operating companies as well as at TMHC. The partnerships through which TMHC owns the operating companies, TMM Holdings II Limited Partnership (New TMM) and TMM Holdings Limited Partnership (TMM), generally do not have executive officers.

Following the IPO, the Company assessed the roles and responsibilities of its senior management, and, effective January 1, 2014, it was determined that our executive officers are Sheryl D. Palmer, C. David Cone and Darrell C. Sherman, Vice President, General Counsel and Secretary, as identified above in the section of this Proxy Statement titled Executive Officers.

Background of Compensation Approach

Edgar Filing: Taylor Morrison Home Corp - Form DEF 14A

Our company has a history of nearly 80 years of North American homebuilding operations, originally commencing homebuilding operations in 1936. From July 2007 until July 2011, we were owned by and operated as a subsidiary of Taylor Wimpey plc., a U.K. publicly-listed homebuilding company. Since July 2011, we have been owned by the Principal Equityholders (or their affiliates).

Following a review of our compensation structure, we approved a revised structure for our management team, the primary goals of which were to align the interests of our management team with those of our Principal Equityholders and retain our talent, as we view the continuity of management as vital to the success of our business. To this end, long-term equity compensation was integrated into our compensation structure in 2011, and total target compensation relative to compensation paid by our homebuilding peers was closely scrutinized.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

During 2011, we developed certain additional changes to our compensation structure, which were designed to create a balanced mix between annual cash compensation and the new long-term equity program for our management team and to be more consistent with pay packages being offered by our industry peers. In addition, effective as of January 1, 2012, we implemented a long-term cash-based incentive program to further motivate our management team towards contributing to our long-term goals as well as to function as a retention device.

In 2012, after the decision was made to take our company public, the Compensation Committee retained Pearl Meyer & Partners (Pearl Meyer), the compensation consulting firm, to evaluate our compensation programs and to provide guidance with respect to developing and implementing our compensation philosophy and programs as a public company. Our IPO was consummated on April 12, 2013. Base salary and annual cash incentive bonuses for 2013 were set prior to the consummation of the IPO, but, with the expectation of such consummation, several changes were made to our equity-based compensation approach, which are described in this compensation discussion and analysis. Such changes were designed to provide our employee equityholders with some opportunity for liquidity in respect of awards they received before the IPO, allowing for continued alignment with our Principal Equityholders by having them retain interests in the Principal Equityholders holding vehicles, and grant new awards tied to the equity of TMHC to align our officers' interests to those of the holders of our Class A common stock.

Compensation Objectives and Philosophy

Our compensation program reflects our philosophy to pay all of our executives, including our named executive officers, in ways that support our primary objectives of:

Encouraging a results-driven culture through a pay-for-performance structure;

Balancing long-term and short-term compensation and cash and equity-based compensation to ensure our executives are focused on the appropriate short-term financial budget goals and long-term strategic objectives;

Aligning executives' interests with stockholder interests in creating long-term value for our owners;

Attracting, retaining and motivating key talent; and

Aligning total compensation levels with those paid by our direct competitors in the homebuilding sector as well as companies of comparable size and scope in other industries.

Our compensation structure is centered on a pay-for-performance philosophy, and this pay-for-performance focus is designed to align the interests of our executives, our Principal Equityholders and our other stockholders, motivate our executives to achieve our targeted financial and other performance objectives, and reward them for their achievements when those objectives are met. To help achieve these objectives, a significant portion of our executive officers' compensation is at-risk and provided in the form of variable or performance-based compensation with significant upside potential for strong performance, as well as downside exposure for underperformance. We believe this is appropriate given our executive officers' ability to influence our overall performance.

We recognize the need for long-term incentives to retain talent where short-term goals may be more difficult to achieve. To that end, we seek to provide a balance between short-term and long-term incentives as well as between cash compensation and equity-based compensation to encourage the focus on long-term strategic objectives. Having a long-term compensation component is also consistent with the long time horizon inherent in the homebuilding industry for the realization of revenue from any specific development project. In light of such objectives, we have determined that a significant portion of total compensation would be delivered in the form of long-term equity-based compensation, a portion of which vests based on continued service over four to five years and another portion of which vests upon a multi-tiered return that is achieved by our Principal Equityholders.

Edgar Filing: Taylor Morrison Home Corp - Form DEF 14A

The overall level of total compensation for our executive officers is intended to be reasonable in relation to and competitive with the compensation paid by similarly situated peer leaders in the homebuilding industry, subject to variation for factors such as the individual's experience, performance, duties, scope of responsibility, prior contributions and future potential contributions to our business. With these principles in mind, we structure our compensation program as a competitive total pay package which we believe allows us to attract, retain and motivate executives with the skill and knowledge we require and ensure the stability of our management team which is vital to the success of our business. However, in setting named executive officer compensation levels, we do not have a policy of setting compensation levels within a fixed range of benchmarks of our peer companies.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS****Establishing and Evaluating Executive Compensation***Role of the Independent Compensation Consultant*

As noted above, Pearl Meyer has been retained by the Compensation Committee, and provides the Compensation Committee with market data on executive compensation levels and practices at our selected competitors and also advises on trends and best practices in the areas of executive compensation and governance, assists the Compensation Committee in its review and evaluation of our compensation policies and practices, reviews our compensation discussion and analysis, and also provides independent advice on director compensation. Pearl Meyer does not provide, and is prohibited from providing, other services to the Company or our management, except at the direction of the Compensation Committee. We do not have any other relationships with Pearl Meyer, and the Compensation Committee has determined that Pearl Meyer is independent and has no conflicts of interest with us. The Compensation Committee has the sole authority to retain or terminate advisors to the Compensation Committee that assist in the evaluation of the compensation to our named executive officers and directors.

Process Role of Officers and Compensation Committee

The Compensation Committee is responsible for all compensation decisions for our named executive officers. Taylor Morrison, Inc.'s Vice President of Human Resources works with Ms. Palmer to establish Compensation Committee meeting agendas and provide various types of information, including interim progress against performance targets, information about other homebuilding companies or other topics requested by the Compensation Committee to assist the Compensation Committee in making its decisions.

The Compensation Committee, after consultation with Ms. Palmer as to officers other than herself, reviewed and determined base salary, annual cash incentive bonuses and long-term incentive compensation levels for each executive officer. Ms. Palmer recommended to the Compensation Committee annual cash incentive bonus performance targets and evaluated actual performance relative to those targets, excluding any targets or performance evaluation applicable to her own compensation. The Compensation Committee, after taking into account Ms. Palmer's recommendations, reviewed and approved annual base salaries, annual bonus performance targets and the amount of annual bonuses payable to each named executive officer based on achievement of annual performance targets, and long-term incentive compensation awards. Ms. Palmer's compensation levels are established by the Compensation Committee in its sole discretion. While Ms. Palmer may discuss her compensation with the Compensation Committee, she does not have any formal role or authority in the determination of her compensation.

Process Factors Considered in Setting Compensation

The Compensation Committee believes that compensation decisions for our named executive officers are complex and require consideration of many factors, including the overall competitive market environment, industry compensation levels, the officer's individual performance and the Company's performance.

Market Data (Competitors and General Industry). As mentioned above, the Compensation Committee does not benchmark compensation for our executives based on compensation paid by our competitors or companies in other industries and only reviews such information to better assess the range of compensation needed to attract, retain and motivate executive talent in our highly competitive industry. Nevertheless, in establishing compensation packages for our named executive officers, the Compensation Committee reviews and considers the compensation levels of executives at public homebuilding companies as a factor, amongst other factors, in establishing targeted compensation. This review covers compensation data for a group of our competitors within the homebuilding industry (as available in such companies' public filings) and the most directly-relevant published survey sources available with respect to all direct pay elements, including salary, cash incentives and equity.

COMPENSATION DISCUSSION AND ANALYSIS

Additionally, in 2013 the Compensation Committee reviewed compensation data at the following 13 publicly-traded homebuilding companies in connection with setting compensation for Ms. Palmer and Mr. Cone:

PulteGroup Inc.	Toll Brothers, Inc.	The Ryland Group, Inc.
D.R. Horton, Inc.	KB Home	Meritage Homes Corporation
Lennar Corporation	Hovnanian Enterprises, Inc.	MDC Holdings Inc.
NVR, Inc.	Standard Pacific Corp.	Beazer Homes USA Inc.
		M/I Homes, Inc.

In connection with setting compensation, the Compensation Committee will review the annual proxy statements of publicly traded homebuilders for compensation levels and trends as well as data on pay for executives and use such information to guide our decisions.

Individual Performance. As mentioned above, in addition to considering market data, the Compensation Committee considers each executive officer's individual performance in determining executive compensation levels, including the nature and scope of the executive's responsibilities and the executive's prior performance and expected future contributions. The Compensation Committee's review of individual performance is general and subjective in nature. Specific individual performance goals (such as goals tied to an officer's job function, role or personal performance) are not systematically established or measured.

Company Performance. The Compensation Committee also considers our performance, financial plans and budget in setting officer compensation levels for any given year taking into account general economic challenges as well as any specific challenges facing our business.

Key Elements of Executive Compensation Program

The primary elements of our compensation structure are base salary, annual cash incentive bonuses, long-term incentives (including equity-based awards and long-term cash awards), and certain employee benefits and perquisites. In the past, we have also given our executive officers certain investment opportunities, though no such opportunities

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

Our executive compensation program also provides for commissions where appropriate, cash severance payments and benefits and accelerated vesting of equity awards in the event of certain terminations of employment following a change in ownership of our business. The Compensation Committee believes it is important for key members of our senior management team and directors to build and maintain a long-term ownership position in our company, to further align their financial interests with those of our Principal Equityholders and public stockholders and to encourage the creation of long-term value. Prior to our offering, we provided our executives with the opportunity to make a direct investment in TMM alongside our Principal Equityholders. We believe that this investment opportunity resulted in our management team having, together with other interests, a desirable level of direct ownership in the business and a sufficient level of capital at risk thereby reinforcing our goal of aligning interests of management and owners.

Base Salary

The base salary component of executive officer compensation is intended to provide a stable level of minimum compensation to each officer commensurate with the executive's role, experience and duties. The Compensation Committee annually reviews and approves base salaries for our executive officers based on several factors, including the individual's experience, responsibilities, performance, expected future contribution, our expected financial performance and salaries of similarly situated executives of our public peers in the homebuilding industry and in the general industry.

The Compensation Committee, in consultation with Ms. Palmer (except as to her own compensation), determined that there would be no changes to the base salaries of our named executive officers for 2013. The base salaries of our named executive officers for 2013 were as follows: Ms. Palmer \$700,000, Mr. Cone \$400,000, Mr. Wethor \$450,000, Mr. Steffens \$475,000, and Ms. Kelley \$425,000.

Annual Cash Incentive Bonuses

The second component of executive officer compensation is annual cash incentive bonuses based on company performance. Tying a portion of total compensation to annual company performance permits us to adjust the performance measures each year to reflect changing objectives and those that may be of special importance for a particular year. Through this program, we seek to provide an appropriate amount of short-term cash compensation that is at-risk and tied to the achievement of certain short-term performance goals.

Target Amounts. The target annual cash incentive bonuses for 2013 set by the Compensation Committee for each of our named executive officers did not change from fiscal year 2012 and were as follows:

Name	2013 Target Annual Bonus as a Percentage of Base Salary
Sheryl D. Palmer	150%
C. David Cone	100%
Stephen Wethor	135%
Louis Steffens	135%
Tawn Kelley	135%

The actual 2013 annual cash incentive bonus amounts was calculated based on a combination of objective performance measures and using the following formula:

$$\begin{array}{ccccccc} & & \text{Target} & & \text{Business} & & \\ & & & & & & \\ \text{Annual} & & & & & & \text{Bonus} \\ & & & & & & \\ & & & & & & \\ & & & & & & \\ \text{Salary} & \times & \text{Bonus} & \times & \text{Unit} & = & \\ & & & & & & \text{Payout} \\ & & \text{Percentage} & & \text{Multiplier} & & \end{array}$$

Business Unit Multiplier. Our Business Unit Multiplier is an aggregated measure of the attainment of specific financial and operational performance goals for the relevant business unit, or, for some officers, for the Company as a whole, expressed in our tables below as a

Edgar Filing: Taylor Morrison Home Corp - Form DEF 14A

percentage. These performance goals are based on corporate and business objectives and are not tied to individual performance. Nevertheless, the goal itself varies among the officers, as described below. To determine the Business Unit Multiplier, specific criteria and corresponding goals are set for each officer. Each goal (1) has an associated threshold, target, and stretch percentage attainment level (typically, 25-50%, 75-100% and 125-150%, respectively), with straight-line interpolation for attainment between levels, and (2) is

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

weighted to reflect the Compensation Committee's assessment of the goals' importance in relation to our overall business objectives. Specifically, the percentage attainment of each goal is applied to the weighting factor (itself a percentage), and these numbers are totaled to set the Business Unit Multiplier.

Establishing Performance Goals for 2013 Annual Bonus Plan. Bonus plan goals for 2013 were established by the Compensation Committee in consultation with Ms. Palmer. The target payout level was designed to be achievable with strong management performance and the stretch level was designed to encourage and reward our named executive officers for outstanding performance.

The approach to goal setting for 2013 bonuses involved a process of reviewing, among other things, our prior year's financial performance and our short-term and long-term strategic objectives. We also took into account the need for setting goals that are challenging yet reasonably achievable so as to provide a competitive pay package necessary for the retention of our talent.

Achievement of Corporate Performance Goals. The 2013 bonus program performance goals applicable to Ms. Palmer, Mr. Cone and Ms. Kelley were subject to overall company results. Messrs. Wethor and Steffens were subject to overall results of their respective regions.

Ms. Palmer's, Mr. Cone's and Ms. Kelley's 2013 bonus was based 100% on corporate performance. The applicable corporate performance goals were as follows:

Corporate Performance (\$ in thousands)						
Performance Goals	Weight	Threshold	Target	Stretch	Actual Attainment	Actual Attainment

COMPENSATION DISCUSSION AND ANALYSIS

The actual cash incentive bonuses approved for our named executive officers in respect of 2013 were as follows: Ms. Palmer \$1,417,418, Mr. Cone \$539,969, Mr. Wethor \$850,500, Mr. Steffens \$867,097, and Ms. Kelley \$774,518.

Long-Term Incentives Equity-Based

Philosophy. As mentioned above, we believe that equity awards are an important component of our executive compensation program. Equity compensation aligns our executives', our Principal Equityholders' and our other public stockholders' interests by linking rewards with achievement of return to our Principal Equityholders and other public stockholders based on our long-term growth plan. Our equity compensation program is designed to foster a long-term commitment to us by our named executive officers, provide a balance to the short-term cash components of our compensation program, and to reinforce our pay-for-performance structure.

Overview. Our named executive officers' equity-based compensatory interests in our business consist of the following:

Options to purchase our Class A common stock, granted under the 2013 Equity Plan in connection with our IPO;

Restricted stock units, each representing the right to receive, upon satisfaction of vesting conditions, one share of our Class A common stock, granted under the 2013 Equity Plan in connection with our IPO;

New TMM Units (and a corresponding number of shares of our Class B common stock) that are subject to time-based vesting conditions, which were converted from profits interests in TMM granted before the IPO, with the original vesting schedule continuing to apply;

Profits interests in the TPG Holding Vehicle, which vest based on the return received by such vehicle in respect of the New TMM Units it holds and were converted from profits interests in TMM granted before the IPO, with the original vesting terms continuing to apply; and

Profits interests in the Oaktree Holding Vehicle, which vest based on the return received by such vehicle in respect of the New TMM Units it holds and were converted from profits interests in TMM granted before the IPO, with the original vesting terms continuing to apply.
A more detailed discussion of the terms of these interests follows.

Equity Awards Before our IPO

Before our IPO, our equity-based compensation program consisted of interests in TMM, structured as profits interests that allowed employees receiving grants to share in the future appreciation of TMM, subject to certain vesting conditions. Vesting conditions included both time-based vesting (based on continued employment) and performance-based vesting (based on the return achieved by our Principal Equityholders). These interests were called Class M Units and represented an ownership interest in TMM providing the holder with the opportunity to receive a return based on the appreciation of TMM's equity value from the date of grant. These Class M Units were issued as an upfront grant designed to provide a long-term incentive over a five-year period. The awards were structured so that if TMM's equity value were to appreciate, the executive would share in the growth in value from the date of grant solely with respect to the vested portion of the executive's Class M Units; however, if TMM's equity were not to appreciate in value or decrease in value in the future, then the Class M Units would have no value.

Conversion of Class M Units in Connection with our IPO

In connection with the IPO and the related reorganization transactions:

Edgar Filing: Taylor Morrison Home Corp - Form DEF 14A

all outstanding Class M Units in TMM that were subject only to time-based vesting conditions were converted into vested and unvested New TMM Units; and

all outstanding Class M Units that were subject to performance-based vesting conditions were converted into invested equity interests of the TPG and Oaktree Holding Vehicles, in each case, where the amounts of interests received were calculated based on our pre-IPO value (using the price paid by the underwriters for shares of our Class A common stock in the IPO).

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

The time-vesting Class M Units of TMM were converted into New TMM Units in order to crystallize the built-up appreciation in the Class M Units measured at the time of our offering. In converting an individual's built-up appreciation in the time-vesting M Units into New TMM Units, the Company used the underwriter's discounted price, but then in turn granted each holder of time-vesting Class M Units an award of RSUs to provide them with a right to earn back the underwriter's profit on the transaction. Meanwhile, in order to retain a portion of the originally structured alignment of the positions of management with our Principal Equityholders, the performance-vesting Class M Units continued in effect, but were converted into profits interests in each of the respective TPG and Oaktree Holding Vehicles. In this Proxy Statement we collectively refer to the performance-vesting Class M units of the TPG and Oaktree Holding Vehicles as Holding Vehicle Performance Units.

The New TMM Units and Holding Vehicle Performance Units retained the vesting schedule of, and relevant performance condition applicable for, the outstanding unvested Class M Units they replaced. Both the vested and unvested New TMM Units and Holding Vehicle Performance Units are entitled to receive distributions, if any, from New TMM and/or the TPG and Oaktree Holding Vehicles, as applicable, but distributions (other than tax distributions) in respect of unvested New TMM Units are only delivered to the holder when, as, and if such units ultimately vest. The vesting and other terms applicable to replaced Class M Units are contained in individual rollover award agreements and subject to the terms of the applicable plan documents.

Individuals who received the above-mentioned New TMM Units in connection with the reorganization transactions also received a number of shares of our Class B common stock equal to the number of New TMM Units they received. Each share of Class B common stock paired with a New TMM Unit will be vested or unvested to the same extent as the New TMM Unit with which it is paired. There are no voting rights associated with the New TMM Units, whether vested or unvested, but each share of Class B common stock carries one vote, including both vested and unvested shares of Class B common stock.

Liquidity in Respect of New TMM Units and Holding Vehicle Performance Units

Our named executive officers had the opportunity to elect to sell a portion of their vested New TMM Units in connection with our IPO. For those who made this election, vested New TMM Units were exchanged for shares of our Class A common stock on a one-for-one basis and the Company sold such shares of our Class A common stock to the underwriters in our IPO. The sale price per share was the price per share paid to the Company by the underwriters of our IPO.

Following the IPO management will generally obtain liquidity by exchanging vested New TMM Units (including any units that were vested at the time of the IPO but not sold by the officer at that time) for shares of our Class A common stock on a one-for-one basis, and selling such shares of Class A common stock. Management was restricted from making any such exchanges during the initial six-month period following our offering.

Liquidity for Holding Vehicle Performance Units will occur any time TPG or Oaktree exchange New TMM Units for shares of our Class A common stock (and then sell such shares of Class A common stock), through distribution of the proceeds from such sale through the distribution waterfall of the respective entity, as applicable; provided, that Holding Vehicle Performance Units will not receive any such distributions until such units are vested.

Equity Awards (IPO Equity Grants)

In connection with our IPO, the Compensation Committee adopted the 2013 Equity Plan, pursuant to which we are permitted to grant awards of non-qualified options, incentive (qualified) stock options, stock appreciation rights, restricted stock, RSUs, other stock-based awards, performance compensation awards (including cash bonus awards), other cash-based awards or any combination of the foregoing. Equity grants are expected to typically occur annually as one of the major elements of compensation of our management team with exceptions for promotions or new hires.

At the time of the IPO, we granted awards for an aggregate of 782,451 shares of our Class A common stock to our named executive officers under the 2013 Equity Plan. The awards consisted of:

stock options for 677,500 shares of Class A common stock in the aggregate, at a per share exercise price of \$22.00, which will expire on the tenth anniversary of the date of grant, and

RSUs representing the right to receive 104,951 shares of Class A common stock in the aggregate.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

For stock options, the exercise price per share was equal to the offering price of a share our Class A common stock in the IPO. The stock options will generally vest in four equal installments of 25% on each of the second, third, fourth and fifth anniversaries of the date of grant, subject to continued employment on the applicable vesting date and shall otherwise be on terms consistent with the 2013 Equity Plan.

The RSUs are subject to both time-based and performance-based vesting conditions. They generally vest in four equal installments of 25% on each of the first four anniversaries of the date of grant, subject to continued employment on the applicable vesting date and satisfaction of the performance condition. The performance condition will be satisfied if the weighted average price at which the Principal Equityholders have previously sold their New TMM Units or shares of Class A common stock (after reduction for underwriting discount and commissions) exceeds the gross IPO price per share of the Class A common stock sold in our IPO. The performance condition is fully satisfied, if, as of any date on which the Principal Equityholders sell their units or stock, the price threshold is exceeded. If the performance condition has not been met as of December 31, 2015, all of the RSUs will be forfeited. The RSUs shall otherwise be on terms consistent with the terms of the 2013 Equity Plan.

In 2013, each of our named executive officers received the following stock option and RSU grants:

Named Executive Officer	Stock Options	RSUs
Sheryl D. Palmer	200,000	48,179
C. David Cone	175,000	10,745
Stephen Wethor	110,000	18,814
Louis Steffens	125,000	18,350
Tawn Kelley	67,500	8,863

Equity Awards (Post-IPO)

Following our IPO, all equity awards issued to our named executive officers will be made pursuant to the terms of the 2013 Equity Plan. Awards granted under the 2013 Equity Plan are subject to the terms and conditions established by the Compensation Committee in the applicable award agreement and need not be the same for each participant. To date, all stock options granted under the 2013 Equity Plan have a term of ten years. We anticipate that nonqualified stock options will generally vest ratably over a four-year period in annual installments on each of the first four anniversaries of the date of grant, subject to continued employment through the applicable vesting date. Stock options are granted at an exercise price equal to the fair market value (the closing price on the NYSE) of our Class A common stock on the grant date. Generally, stock options and/or RSUs will be granted to our eligible employees, including our named executive officers, during the annual award process. Equity grants shall be made in accordance with our Policy and Procedures for the Granting of Equity-Based Compensation Awards. For annual grants, it is expected that such awards will be made on the date of the annual stockholder meeting, with such grants being approved at the Compensation Committee's regularly scheduled meeting occurring immediately prior to the date of the Company's annual stockholder meeting. We currently do not intend to make any equity awards to our executive officers in 2014.

Long-Term Cash Incentive Plan

Consistent with our pay-for-performance compensation structure, we adopted a long-term cash incentive plan (the Cash LTIP) for the benefit of our executive officers, including our named executive officers. The Cash LTIP is designed to motivate and reward management for the achievement of multi-year performance goals by offering participants an opportunity to receive cash payments based on the achievement of such goals. While awards under our Cash LTIP were made in 2012, no additional awards were made in 2013 to our named executive officers.

Employee Benefits and Perquisites

We provide a number of benefit plans to all eligible employees, including our named executive officers. These benefits include programs such as medical, dental, life insurance, business travel accident insurance, short-and long-term disability coverage, a 401(k) defined contribution plan for employees in the United States and home purchase rebate program providing employees with a 5% rebate on purchases of homes built by us.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

Employees in the United States who have been with us on or before December 31, 2010, including certain of our named executive officers, were eligible to accrue pension benefits under a cash balance pension plan which was frozen to new accruals and participants as of December 31, 2010. Under this plan, prior to 2011, our predecessor contributed a specified percentage of each employee's salary each quarter (generally based on the participant's age) to the participant's account balance, and employees vested in their accounts after five years of service. For further information on pension benefits for our named executive officers, see the Pension Benefits table.

Perquisites for our named executive officers are limited to monthly auto allowances and, solely for Ms. Palmer, certain commuting expenses for her travel from her residence in Las Vegas, Nevada to our offices in Scottsdale, Arizona. Auto allowances may be available to our other employees either in an executive role or those employees whose positions require regular driving for business as an essential job function. While perquisites help to provide competitive total compensation packages to the named executive officers in a cost-efficient manner by providing a benefit with a high perceived value at a relatively low cost, we do not generally view perquisites as a material component of our executive compensation program. In the future, we may provide additional or different perquisites or other personal benefits in limited circumstances, such as where we believe doing so is appropriate to assist an individual in the performance of his or her duties, to make our executive officers more efficient and effective and for recruitment, motivation and/or retention purposes.

Commissions

During 2013, Ms. Kelley earned certain commission payments totaling approximately \$282,488, consistent with the terms of Ms. Kelley's employment agreement originally established in 2009 at the time her company was acquired by our predecessor. Such commissions are based on certain percentage of net profit dollars earned on each joint venture closing in a given year and are generally payable within 30 days of the end of each calendar month. In the event Ms. Kelley's employment were to terminate, she would be entitled to outstanding commissions only for joint venture closings that occur prior to her departure date.

Employment Agreements, Severance Protection and Restrictive Covenant Agreements

Each of our named executive officers is party to an employment agreement with us, which specifies the terms of the individual's employment including certain compensation levels and are intended to assure us of the executive's continued employment and provide stability in our senior management team.

Each of the employment agreements between us and Ms. Kelley and Messrs. Cone, Wethor, Steffens and their employment under their respective agreements will continue in effect until terminated by us or by the named executive officer. The term of Ms. Palmer's employment agreement (dated July 13, 2011, and amended as of May 17, 2012), continues for three years through July 13, 2014, subject to automatic successive one-year extensions thereafter unless either party gives at least 90 days' prior notice that the term will not be extended.

Ms. Palmer (subject also to the additional considerations described below) and Messrs. Wethor, Cone and Steffens are each party to a restrictive covenant agreement, which includes an 18-month post-employment non-compete and non-solicit of customers and employees in connection with certain terminations of employment; however, if termination is without cause by us or the executive resigns for good reason, the covenants apply only through the duration of the period in which the executive is receiving severance. Ms. Kelley is party to a similar restrictive covenant agreement, but hers will apply only during a post-employment period in which she is also receiving severance.

Pursuant to the employment agreements, we provide salary continuation and other benefits in the event of certain terminations of employment. A portion of the New TMM Units held by our named executive officers are also subject to accelerated vesting upon certain terminations of employment following a sale of New TMM (generally, a transaction where (1) more than 80% of the common units are acquired by a third party that is unrelated to the partnership, (2) the buyer acquires the right to replace the general partner of New TMM, or (3) all or substantially all of the assets are sold (including due to the sale of more than 80% of the equity of the subsidiaries holding such assets)). All options and RSUs held by our named executive officers are subject to accelerated vesting upon certain terminations of employment that occur within the 24-month period following a change in control of the Company. These payments and benefits are designed to provide financial security in the event of certain corporate transactions and/or termination of employment, as well as consideration for the executive's compliance with certain post-employment restrictive covenants. We believe these provisions help retain our executives who are critical to the success and operation of our

COMPENSATION DISCUSSION AND ANALYSIS

business while also protecting important business objectives through restrictive covenants. See *Potential Payments upon Termination or Change in Control* for a discussion of severance and change of control payments payable to our named executive officers pursuant to their employment agreements.

In May 2012, we amended Ms. Palmer's employment agreement to provide her with an opportunity to receive a special retirement bonus of \$1,000,000 if she voluntarily terminates her employment with us after May 15, 2013 and does not resume employment in the homebuilding industry in any capacity for five years. If Ms. Palmer resumes employment in the homebuilding industry within five years, she will be required to repay the bonus to us. The purpose of providing this bonus was twofold: to retain Ms. Palmer's services through at least May 15, 2013 and to incentivize her not to directly compete with us, which could cause significant harm to our business.

Other Program Attributes

Equity Ownership

The Compensation Committee believes it is important for key members of our senior management team and directors to build and maintain a long-term ownership position in our company, to further align their financial interests with those of our stockholders and to encourage the creation of long-term value. Our compensation structure for these individuals provides for a significant percentage of compensation to be equity-based, which places a substantial portion of compensation at risk over a long-term period. At this time, we do not have specific requirements or mandated levels of equity ownership for our executive officers or our non-employee directors because, in our view, our equity-based compensation programs and previously offered investment opportunities have to date resulted in management having a desirable level of direct ownership in our business.

Clawback Policies

Our equity-based awards provide that all vested equity-based awards will be forfeited by our executives automatically upon a breach by them of any of the post-employment restrictive covenants (e.g. non-competes) to which they are subject. The executive would also be responsible for damages suffered by us in connection with any such breach. We view this recovery of awards feature as a necessary element of our equity-based program as it deters competitive activities that would likely cause significant harm to our business.

In addition, if the equity plan participant receives an amount in excess of what should have been received under the terms of the award due to material noncompliance by the Company with any financial reporting requirement under the U.S. securities laws, any mistake in calculations or other administrative error, then the award will be cancelled and the individual must promptly repay any excess value to the Company.

In March 2014, the Compensation Committee approved a bonus clawback policy which applies to incentive annual cash bonus compensation earned by certain covered employees (including our named executive officers) after April 1, 2014 (i.e. beginning with fiscal 2014 cash bonus payments). Under our bonus clawback policy, we may recover all or part of any incentive annual cash bonus compensation awarded or paid to these employees in the event that we determine that our financial results must be restated to correct an accounting error due to material financial restatement, where our board of directors determines that fraud or misconduct led to the need for such restatement and where cash bonuses paid for the years subject to restatement would have been materially lower.

In addition, we reserve the right to adopt any additional clawback policies as may be necessary to protect our compensation policies and objectives and as may be required by law, including mandates required by the Dodd-Frank Act.

Accounting Matters

Each element of the compensation paid to our executives is expensed in our financial statements as required by U.S. generally accepted accounting principles. The financial statement impact of various compensation awards is an important factor that the Compensation Committee considers in determining the amount, form, and design of each pay component for our named executive officers, but it is only one of many factors considered in setting such compensation.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

Certain Tax Matters

Our Compensation Committee's general policy is that compensation should qualify as tax deductible to the Company for federal income tax purposes whenever possible, to the extent consistent with our overall compensation goals. Under Section 162(m) of the U.S. tax code, compensation paid to certain of our named executive officers (other than our chief financial officer) in excess of \$1 million per year is generally not deductible unless the compensation is performance-based as described in the regulations under Section 162(m). As a newly public company, we are permitted a transition period before the provisions of Section 162(m) become applicable to us (this transition period could last until the first meeting at which directors are elected that occurs following December 31, 2016), although in general we have structured our compensation programs in a manner intended to comply with Section 162(m). Of course, we believe it important that our Compensation Committee retain flexibility and authority to adjust compensation as needed to address particular circumstances, or unexpected, unusual or non-recurring events, or to attract and retain key executive talent, even if this results in the payment of non-deductible compensation. Accordingly, our Compensation Committee may make payments that are not fully deductible if, in its judgment, such payments are necessary to achieve our compensation objectives and in the best interests of the Company and its stockholders.

Compensation Committee Report

The Compensation Committee reviewed and discussed the Compensation Discussion and Analysis contained in this Proxy Statement with our management. Based on our reviews and discussion with management, the Compensation Committee recommended to the board of directors, and the board of directors approved, that the Compensation Discussion and Analysis be included in this Proxy Statement for the Taylor Morrison Home Corporation 2014 Annual Meeting of Stockholders and incorporated by reference into our Annual Report on Form 10-K for the year ended December 31, 2013.

- (1) The amounts reported in this column for 2011 reflect the second half of the transaction and success bonuses earned in fiscal 2011 contingent upon the executive remaining employed for the six-month period following the acquisition by our Principal Equityholders in July 2011, which were payable pursuant to special transaction and success bonus arrangements entered into in 2009, as approved by our former parent, Taylor Wimpey plc. These bonuses were designed to reward such executive officers for their efforts and contributions towards the consummation of a sale of Taylor Wimpey plc's North American business and to provide an incentive to such executives to remain employed with us through and following the sale. The amount of each executive's transaction and success bonus was set at a number of months of such individual's 2009 base salary (generally 12 months) as determined by our former parent, Taylor Wimpey plc.
- (2) The amounts reported in this column for 2011 and 2012 reflect the aggregate grant date fair value of the Class M Units of TMM computed in accordance with the Financial Accounting Standards Board Accounting Standards Codification topic 718, Stock Compensation (ASC 718). These values have been determined based on the assumptions set forth in Note 16 to our Audited Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2013. Additional information regarding the awards is set forth in the tables and notes under Grants of Plan-Based Awards and Outstanding Equity and Equity-Based Awards at Fiscal Year End.
- (3) The stock-based compensation amounts shown in this column reflect the aggregate grant date fair value, assuming no risk of forfeiture, of RSU awards granted during 2013, calculated in accordance with ASC 718. We determine the value of RSU awards using the closing price of our Class A common stock on the date of grant.
- (4) The stock-based compensation amounts shown in this column reflect the aggregate grant date fair value, assuming no risk of forfeiture, of stock option awards granted during 2013 calculated in accordance with ASC 718. We use the Black-Scholes option pricing model to estimate the fair value of stock options granted, which requires the input of both subjective and objective assumptions. The assumptions used in the valuation of stock-based awards are discussed in Note 16 to our Audited Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2013.

Edgar Filing: Taylor Morrison Home Corp - Form DEF 14A

- (5) The amounts reported in this column were paid under our annual cash incentive bonus program for the applicable year, which is described above, see Compensation Discussion and Analysis Key Elements of Executive Compensation Program Annual Cash Incentive Bonuses.
- (6) These amounts do not represent realized compensation; rather, they represent an actuarial adjustment to the present value of accumulated benefits under our Taylor Morrison Cash Balance Pension Plan, from the pension plan measurement date used for financial statement reporting purposes with respect to our audited financial statements for the applicable fiscal year, to the pension plan measurement date used for financial statement reporting purposes with respect to our audited financial statements for the applicable fiscal year. See below under the heading Pension Benefits for additional details. For 2013, the change in actuarial present value of the accumulated benefits for the following named executive officers were as follows: Ms. Palmer \$(6,653); Mr. Wethor \$(7,506); Mr. Steffens \$(9,537); and Ms. Kelley \$(3,035).

- (1) For the New TMM Units and Holding Vehicle Performance Units in this table, the Grant Date is the date on which the pre-offering equity grants (Class M Units in TMM) were converted into these awards. The original grants of the Class M Units in TMM were made on dates in 2011 and 2012.
 - (2) Under our annual cash incentive bonus program, each named executive officer is eligible to receive an annual cash incentive bonus for the fiscal year, the amount of which will vary depending on the degree of attainment of certain performance metrics, as described in Compensation Discussion and Analysis Key Elements of Executive Compensation Program Annual Cash Incentive Bonuses. This column shows the potential amount of the bonus if performance metrics were attained at certain threshold, target or stretch (maximum) levels. For performance between threshold and target, or target and stretch (maximum), the bonus amount is determined using straight line interpolation.
 - (3) Represents the number of stock options granted in 2013 under the 2013 Equity Plan. For a description of the material terms of these awards, see Compensation Discussion and Analysis Key Elements of Executive Compensation Program Long-Term Incentives Equity-Based Equity Awards (IPO Equity Grants).
 - (4) The amount in this column is the closing price of a share of our Class A common stock on the date our IPO closed. The exercise price for the options was the offering price to the public in the IPO, which we determined was the fair market value of our Class A common stock on the date of grant.
 - (5) The amounts shown in this column reflect the aggregate grant date fair value, assuming no risk of forfeiture, of RSU and stock option awards granted during 2013, calculated in accordance with ASC 718. We determine the value of RSU awards using the closing price of our Class A common stock on the date of grant. We use the Black-Scholes option pricing model to estimate the fair value of stock options granted, which requires the input of both subjective and objective assumptions. The assumptions used in the valuation of stock-based awards are discussed in Note 16 to our Audited Consolidated Financial Statements included in our Annual Report on Form 10-K for 2013.
 - (6) Represents the full number of RSUs granted in 2013 under the 2013 Equity Plan and in connection with our IPO. As described in Compensation Discussion and Analysis Key Elements of Executive Compensation Program Long-Term Incentives Equity-Based Equity Awards (IPO Equity Grants), if the performance condition applicable to these RSUs is met, they will vest in full subject to only ongoing service. There are no threshold, target or maximum levels of vesting or payout.
 - (7) Represents the number of Holding Vehicle Performance Units that were received upon conversion of pre-offering equity grants (performance-vesting Class M Units of TMM). The Holding Vehicle Performance Units are subject to the term of either the OCM TMM II, L.P. 2013 Class M Unit Plan or the TPG TMM II, L.P. 2013 Class M Unit Plan.
 - (8) There was no incremental fair value recognized in connection with the conversion of the pre-offering equity grants (Class M Units of TMM), as calculated in accordance with ASC 718.
 - (9) Represents the number of New TMM Units that were received upon conversion of pre-offering equity grants (time-vesting Class M Units of TMM). Our named executive officers had the opportunity to elect to sell all or any portion of their vested New TMM Units in connection with our IPO, see Compensation Discussion and Analysis Key Elements of Executive Compensation Program Long-Term Incentives Equity-Based Liquidity in Respect of New TMM Units and Holding Vehicle Performance Units. Ms. Palmer, Mr. Wethor, Mr. Steffens and Ms. Kelley sold 41,164, 14,202, 33,961, and 9,879 vested new TMM Units, respectively, in connection with our IPO.
- See Compensation Discussion and Analysis Key Elements of Executive Compensation Program Employment Agreements, Severance Protection and Restrictive Covenant Agreements for additional details regarding the employment agreements with our named executive officers and see Compensation Discussion and Analysis Key Elements of Executive Compensation Program Long-Term Incentives Equity-Based for a discussion of the material terms of the equity awards reflected in the Summary Compensation Table and the Grants of Plan-Based Awards table.

(1) This column represents the number of shares of our Class A common stock underlying unexercisable options at December 31, 2013. These options vest and become exercisable ratably in four equal installments of 25% on each of the second, third, fourth and fifth anniversaries of April 12, 2013, subject to continued employment on the applicable vesting date.

(2) Calculated using the NYSE closing price of \$22.45 per share of our Class A common stock on December 31, 2013, the last business day of 2013 on which there were sales of shares.

(3) Includes the number of shares of our Class A common stock represented by unvested RSUs. These RSUs are subject to both time-based and performance-based vesting conditions. They will generally vest in four equal installments of 25% on each of the first, second, third and fourth anniversaries of April 12, 2013, subject to continued employment on the applicable vesting date and satisfaction of the performance condition. The performance condition shall be satisfied only if the weighted average price (after reduction for underwriting discount and commissions) at which the Principal Equityholders have actually sold their New TMM Units or shares of Class A common stock, exceeds the gross IPO price per share of the Class A common stock sold in our IPO,

Edgar Filing: Taylor Morrison Home Corp - Form DEF 14A

it being understood that (i) all sales by the Principal Equityholders through December 31, 2015 will be included (including sales of New TMM Units as part of the synthetic secondary component of the IPO) and (ii) the performance condition will be satisfied the first time prior to December 31, 2015 that the weighted-average price per New TMM Unit (or share of Class A common stock) actually sold by the Principal Equityholders, after reduction for underwriting discount and commissions, exceeds the applicable threshold. We have assumed for purposes of this disclosure that the performance condition would have been satisfied if the Principal Equityholders sold their New TMM Units or shares of Class A common stock as of December 31, 2013. For a description of the material terms of these awards, see Compensation Discussion and Analysis Key Elements of Executive Compensation Program Long-Term Incentives Equity-Based Equity Awards (IPO Equity Grants).

- (5) The value of the unvested New TMM Units is calculated using the NYSE closing price of \$22.45 per share of our Class A common stock on December 31, 2013.
- (6) Represents the aggregate number of unvested Holding Vehicle Performance Units granted. Holding Vehicle Performance Units will vest in full or partially vest based on the cash return received by the Principal Equityholders as of the date of determination, subject to and conditioned on the holder's continuous employment through the applicable vesting date.
- (7) There was no public market for the Holding Vehicle Performance Units as of December 31, 2013. The value of the unvested Holding Vehicle Performance Units is calculated using the NYSE closing price of \$22.45 per share of our Class A common stock on December 31, 2013 (the last business day of 2013 on which there were sales of shares) and assumes that the Principal Equityholders sold their remaining equity interests in the Company without any transaction costs or offering discount.

The following table provides information concerning the vesting of equity awards during 2013 on an aggregated basis for each of our named executive officers. - (1) As of December 31, 2013, each participating named executive officer is fully vested in his or her respective retirement plan benefit. Pursuant to the terms of the Taylor Morrison Cash Balance Pension Plan, a year of service is credited once a participant has worked 1,000 hours in that year. Mr. Cone does not participate in the Taylor Morrison Cash Balance Pension Plan as he began employment with us on October 15, 2012 and the plan was frozen as of December 31, 2010.
- (2) These amounts represent the actuarial present value of the total retirement benefit that would be payable to each respective named executive officer under the Taylor Morrison Cash Balance Pension Plan as of December 31, 2013. The following key actuarial assumptions and methodologies were used to calculate the present value of accumulated benefits under the Taylor Morrison Cash Balance Pension Plan: a discount rate of 4.80% and 2013 Static Mortality Table for Annuitants.

Overview of Pension Benefits

Pension benefits are provided to our named executive officers under the following plan, The Taylor Morrison Cash Balance Pension Plan (the Pension Plan) (for our officers in the United States). Effective December 31, 2010, the Pension Plan was frozen as to new participants and future accruals. Ms. Palmer was the only named executive officer eligible for early retirement under the Pension Plan for 2013.

The following table is an overview of the current terms and provisions of the frozen Pension Plan and the Supplemental Pension Plan.

	Pension Plan
Purpose	To provide a retirement benefit for eligible employees in recognition of their contributions to the overall success of our business
Eligibility	U.S. salaried and hourly employees, including the named executive officers. The Pension Plan was frozen effective December 31, 2010. Employees hired January 1, 2011 or later are not eligible to participate in the Pension Plan.
Retirement Date & Early Retirement Date	<i>Normal Retirement:</i> The first day of the month coinciding with or next following the participant's 65 th birthday, or if later the participant's fifth anniversary of joining the Pension Plan.

Pension Formula

Early Retirement: The first day of the month coinciding with or next following the date that participant attains age 50, and has completed at least five years of service with us.

Normal Retirement: Quarterly credits based on the employee's age and eligible compensation (including regular compensation for services, commissions, bonuses, leave cash-outs, deferred compensation, but excluding separation payments), with the size of our contributions increasing based on the participant's age. Our contributions range from 2% to 4% of eligible compensation, plus 1% of eligible compensation over the social security wage base. As of December 31, 2010, the Pension Plan was frozen with regard to pay credits.

Early Retirement: Same as normal retirement, however, if the participant elects to receive payments as of the early retirement date, the benefit will be equal to the actuarial equivalent of the normal retirement benefit.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

	Pension Plan
Form of Benefit	<p><i>Normal Retirement:</i> Paid as a monthly pension commencing on the participant's retirement date and continuing for the participant's life, with survivor benefits following the participant's death continuing to the participant's spouse during the spouse's life at a rate equal to 50% of the rate at which such benefits were payable to the participant (i.e., a joint and 50% survivor annuity). A participant who is unmarried at the time benefits become payable under the Pension Plan shall be entitled to a monthly pension continuing for the participant's life. However, the form of distribution of such benefit shall be determined pursuant to the provisions of the pension plan (i.e., one lump-sum cash payment, monthly pension payable over the life of the participant, etc.).</p> <p><i>Early Retirement:</i> Same as normal retirement.</p>
Potential Payments upon Termination of Employment or Change in Control	

The following summaries and tables describe and quantify the potential payments and benefits that we would provide to our named executive officers in connection with termination of employment and/or change in control. In determining amounts payable, we have assumed in all cases that the termination of employment and/or change in control occurred on December 31, 2013. The amounts that would actually be paid to our executive officers upon a termination of employment will depend on the circumstances and timing of termination or change in control.

Severance Benefits

Ms. Palmer. If Ms. Palmer resigns for good reason or if we terminate her employment without cause (including our election not to renew her employment agreement), Ms. Palmer will be entitled to receive the following payments and benefits, subject to her execution of a release of claims against us and her continued compliance with her post-employment restrictive covenants:

cash severance equal to two and a half times her base salary, payable in equal installments over a thirty-month period in accordance with our standard payroll practices;

a prorated annual bonus for the fiscal year in which her employment terminates, payable in a lump sum and based on actual performance for the year (determined by the board of directors of Taylor Morrison Holdings following completion of the performance year and paid at the same time as other executives participating in the applicable plan); and

the employer's portion of Ms. Palmer's COBRA premiums for up to thirty months following her date of termination of employment or such shorter period if she becomes eligible to receive comparable coverage under another employer plan.

Solely in the event that a qualifying termination occurs within the twenty-four month period following a change in control, in addition to the severance payments and benefits described above, Ms. Palmer will be entitled to receive a cash payment equal to two and a half times her target bonus for the then current fiscal year payable in equal installments over the thirty-month period.

In 2012, we also amended Ms. Palmer's employment agreement to provide her with an opportunity to receive a special retirement bonus in the amount of \$1,000,000, if, after May 15, 2013, she voluntarily terminates her employment from the homebuilding industry and does not resume employment in the industry in any capacity for a period of five years following such departure. The special retirement bonus is payable in equal installments over the period that the first \$1,000,000 in cash severance would have otherwise been payable if Ms. Palmer resigned for good reason or if we had terminated her employment without cause. In the event that Ms. Palmer resumes employment in the home building industry within such five-year period, she will be required to repay the special retirement bonus to us. The purpose of providing Ms. Palmer this retirement bonus is twofold: retention of her services through at least May 15, 2013 and to deter her from directly competing with us for a period of five years following any such departure which could cause significant harm our business.

COMPENSATION DISCUSSION AND ANALYSIS

Termination of Ms. Palmer for cause generally means (i) a material breach by Ms. Palmer of her employment agreement, any equity agreement or any of our policies (subject to up to a 15-day period to cure such breach or failure if reasonably susceptible to cure); (ii) Ms. Palmer's gross negligence or willful misconduct, which is injurious to us; or (iii) Ms. Palmer's commission of a felony or other crime involving dishonesty, fraud, breach of any fiduciary obligation to the board of directors of Taylor Morrison Holdings or any equity holder, or unethical business conduct.

Resignation by Ms. Palmer for good reason generally means (i) any material diminution in the nature or status of Ms. Palmer's duties and responsibilities, (ii) any material diminution in Ms. Palmer's base salary or bonus opportunity, other than a decrease in base salary or bonus opportunity that applies to a similarly situated class of employees, or (iii) a change of the Ms. Palmer's principal place of business to a location more than 50 miles from its then present location; provided, that Ms. Palmer provides us with written notice of any fact or circumstance believed by her to constitute good reason within 90 days of the occurrence of such fact or circumstance, and subject to a 30 day period to cure such fact or circumstance.

A change in control generally includes: an acquisition in excess of 80% of the stock of our predecessor (which includes a merger and sale or transfer of equity interests), an acquisition in excess of 80% of the equity interests in our subsidiaries, the acquisition of the power to replace a majority of the members of the board of directors of Taylor Morrison Holdings or the sale of all or substantially all of our and our subsidiaries assets.

Messrs. Cone, Wethor and Steffens and Ms. Kelley. The employment of Messrs. Cone, Wethor and Steffens and Ms. Kelley may be terminated by us or by the executive at any time, with or without cause. Pursuant to each such executive's employment agreement, the executive is entitled to receive severance benefits upon termination by us without cause or upon resignation for good reason. Upon an eligible termination, the terminated executive will be entitled to continued payment of base salary for 12 months, payable in 26 equal installments in accordance with our standard payroll practices, a prorated annual bonus for the year of termination payable in a lump sum at the same time as annual bonuses are otherwise paid to our other employees, and company-paid COBRA premiums for continued participation in our welfare plans for up to one year or such shorter period if the executive becomes eligible for coverage under another group program. The executive's entitlement to these severance payments and benefits is generally conditioned on continued compliance with obligations not to solicit our employees, customers or suppliers and execution of a general release of all claims against us.

Resignation for good reason includes a change in control combined with either: (i) a material and adverse change in the executive's level, scope of duties and responsibilities or total compensation; or (ii) a relocation of more than 50 miles of the executive's principal place of employment; provided that, in each case, notice of resignation is delivered to us within 30 days of such occurrence (20 days in the case of Mr. Cone).

Termination for cause generally includes any of the following actions by the executive: (i) conviction, guilty plea or confession to any felony, act of fraud, theft or embezzlement; (ii) malfeasance, negligence or intentional failure to perform duties that is not cured after 5 days of receipt of notice from us; or (iii) failure to comply with our employment policies a failure to comply with executive's agreement or deviation from any of our employee policies or directives of the board of directors of Taylor Morrison Holdings.

Change in control generally includes: the sale of all of the assets of the employer entity; sale of 50% or more of any parent entity that controls the employer; or merger of the employer entity or its controlling parent entity.

Each executive (including Mr. Cone) is also subject to a restrictive covenants agreement in which he or she has agreed, among other things, not to compete with us for 18 months following termination of employment by us (other than for cause) or by the executive for good reason, provided that we are paying the executive severance and, except with respect to Ms. Kelley, upon voluntary termination of employment.

Change in Control Benefits

We do not provide our named executive officers with any single-trigger change in control payments or benefits. If a change in control were to have occurred on December 31, 2013, and our named executive officers remained employed by us, there would have been no payments due to our named executive officers under any of our plans. Each named executive officer's Holding Vehicle Performance Units will only become vested upon receipt by our Principal Equityholders of the relevant returns described above, whether or not in connection with a change in control. See Compensation Discussion and Analysis Key Elements of Executive Compensation Program Long-Term Incentives-Equity-Based Liquidity in Respect of New TMM Units and Holding Vehicle Performance Units.

Table of Contents**COMPENSATION DISCUSSION AND ANALYSIS**

Each named executive officer's New TMM Units that are subject only to time-based vesting conditions will become 100% vested in connection with any termination by us without cause or by the executive for good reason (each as defined in the relevant award agreement) that occurs within 24 months following a change in control. A change in control is generally defined as: (i) a sale of 80% or more of the equity of New TMM or a subsidiary if such subsidiary holds substantially all of the assets of New TMM and its subsidiaries; (ii) a sale of substantially all of the assets of New TMM and its subsidiaries; or (iii) a transfer pursuant to which the acquirer has power to replace New TMM's general partner.

Each named executive officer's outstanding stock options shall become immediately exercisable and outstanding RSU awards will become 100% vested in connection with a termination by us without cause or by the executive for good reason (each as defined in the relevant award agreement) that occurs within 24 months following a change in control (as defined in the 2013 Equity Plan).

No named executive officer has any right to receive a gross up for any excise tax imposed by Section 4999 of the U.S. Internal Revenue Code, or any other U.S. federal, state and local income tax.

Calculations of Benefits to Which Executives Would be Entitled

Assuming no change in control had occurred and termination of employment occurred on December 31, 2013, the dollar value of the payments and other benefits to be provided to each of the named executive officers are estimated to be as follows:

Estimated Payments and Benefits upon Termination without Cause Assuming No Change in Control had Occurred

Name	Salary Continuation	Prorated Bonus ⁽³⁾	Continued Benefits ⁽⁴⁾	Other Compensation	TOTAL
Sheryl D. Palmer ⁽¹⁾	\$ 1,750,000 ⁽²⁾	\$ 1,050,000	\$ 55,952		\$ 2,855,952
C. David Cone	\$ 400,000 ⁽⁵⁾	\$ 400,000	\$ 22,381		\$ 822,381
Stephen Wethor	\$ 450,000 ⁽⁵⁾	\$ 607,500	\$ 22,381		\$ 1,079,881
Louis Steffens	\$ 475,000 ⁽⁵⁾	\$ 641,250	\$ 22,381		\$ 1,138,631
Tawn Kelley	\$ 425,000 ⁽⁵⁾	\$ 573,750	\$ 22,381	\$ 30,183 ⁽⁶⁾	\$ 1,051,314

- (1) In the case of Ms. Palmer, these amounts are payable also if she terminates her employment with us for good reason.
- (2) If Ms. Palmer's employment is terminated without cause or she resigns for good reason, her base severance amount is two and a half times her base salary (\$700,000). In the event Ms. Palmer voluntarily terminates employment in connection with her retirement from the homebuilding industry, in lieu of the salary continuation, prorated bonus and continued benefits payments set forth above, we will pay her a special retirement bonus equal to \$1,000,000, which is payable in equal installments.
- (3) Pursuant to their respective employment agreements, each of our named executive officers is entitled to a prorated annual bonus for the fiscal year in which employment terminates. For purposes of this table, we have calculated the bonuses assuming that each named executive officer would have received his or her respective target bonus amount. The annual target bonus percentages for 2013 for the named executive officers were as follows: Ms. Palmer 150%, Mr. Cone 100%, Mr. Wethor 135%, Mr. Steffens 135%, and Ms. Kelley 135%.
- (4) These amounts reflect the estimated COBRA premiums for the executives and their respective eligible dependents enrolled (if any) in any then existing group health plans for one year (or in the case of Ms. Palmer, 30 months) as required by their respective employment agreements and assumes that the executive does not become eligible for other health coverage.
- (5) Pursuant to their respective employment agreements, Messrs. Cone, Wethor and Steffens and Ms. Kelley are entitled to an amount equal to one times the named executive officer's base salary.
- (6) The amount reflected in this table represents the outstanding commissions owed to Ms. Kelley based on 25% of net profit dollars earned on each joint venture closing in 2013.

Assuming a change in control and termination of employment occurred on December 31, 2013, the dollar value of the payments and other benefits to be provided to each of the named executive officers are estimated to be as follows:

Estimated Payments and Benefits upon Termination without Cause or for Good Reason in Connection with a Change in Control

Name	Salary Continuation	Prorated Bonus ⁽¹⁾	Continued Benefits ⁽²⁾	Other Compensation	Equity Value ⁽³⁾	Vesting of Options & RSU Awards ⁽⁴⁾	TOTAL
Sheryl D. Palmer	\$ 1,750,000 ⁽⁵⁾	\$ 1,050,000	\$ 55,952	\$ 2,625,000 ⁽⁶⁾	\$ 12,097,232	\$ 1,171,619	\$ 18,749,803

- Pursuant to their respective employment agreements, each of our named executive officers is entitled to a prorated annual bonus for the fiscal year in which employment terminates. For purposes of this table, we have calculated the bonuses assuming that each named executive officer would have received their respective target bonus amount. The annual target bonus percentage for 2013 for the named executive officers were as follows: Ms. Palmer 150%, Mr. Cone 100%, Mr. Wethor 135%, Mr. Steffens 135%, and Ms. Kelley 135%.
- These amounts reflect the estimated COBRA premiums for the executives and their respective eligible dependents enrolled (if any) in any then existing group health plans for one year (or in the case of Ms. Palmer, 30 months) as required by their respective employment agreements.
- Values in this column reflect values relating to both the New TMM Units and the Holding Vehicle Performance Units, and have been calculated using the NYSE closing price of our Class A common stock on December 31, 2013, which was \$22.45. In accordance with the terms of the New TMM Unit awards, the vesting of all of the individual's New TMM Units (and corresponding shares of our Class B common stock that have voting, but not economic rights) subject only to time-based vesting conditions would have accelerated and become vested as of the date of termination of employment and change in control. The value of our named executive officers' unvested New TMM Units included in the figures reported in this column are as follows: Ms. Palmer \$7,120,691, Mr. Cone \$1,727,842, Mr. Wethor \$2,721,322, Mr. Steffens \$2,721,322 and Ms. Kelley \$1,313,234. To calculate the values of the Holding Vehicle Performance Units, we have assumed that the Principal Equityholders sold their remaining equity interests in the Company without any transaction costs or offering discount as of December 31, 2013. The value of our named executive officers' Holding Vehicle Performance Units represented by the figures in this column are as follows: Ms. Palmer \$4,976,541, Mr. Cone \$955,516, Mr. Wethor \$1,894,092, Mr. Steffens \$1,894,092 and Ms. Kelley \$914,967.
- Represents the in-the-money value of unvested stock options and unvested RSUs associated with the acceleration of the vesting of equity awards. In the case of RSUs, the value was based on the NYSE closing price of our Class A common stock on December 31, 2013, which was \$22.45 and, in the case of options, was based on the difference between such closing price and the exercise price of the option. We have assumed for purposes of this disclosure that return to our Principal Equityholders in connection with any such change in control would have been sufficient to satisfy the RSUs' performance condition. The value of our named executive officers' unvested stock options represented by the figures in this column are as follows: Ms. Palmer \$90,000, Mr. Cone \$78,750, Mr. Wethor \$49,500, Mr. Steffens \$56,250 and Ms. Kelley \$30,375. The value of our named executive officers' unvested RSUs represented by the figures in this column are as follows: Ms. Palmer \$1,081,619, Mr. Cone \$241,225, Mr. Wethor \$422,374, Mr. Steffens \$411,958 and Ms. Kelley \$198,974.
- If Ms. Palmer's employment is terminated without cause or she resigns for good reason within the 24-month period following a change in control, her base severance amount is two and a half times her base salary (\$1,750,000). In the event Ms. Palmer voluntarily terminates employment in connection with her retirement from the homebuilding industry, in lieu of the salary continuation, prorated bonus and continued benefits payments, and other compensation set forth in the chart above, we will pay her a special retirement bonus equal to \$1,000,000 which is payable in equal installments. None of Ms. Palmer's unvested equity awards by their terms would vest upon her retirement from the homebuilding industry following a change in control.
- This amount reflects two and a half times an amount equal to 150% of Ms. Palmer's base salary, as payable pursuant to her employment agreement, to the extent she is terminated either by us without cause or she resigns for good reason during the 24 month period following a change in control. This amount would be payable in equal installments over a 30-month period.
- Pursuant to their respective employment agreements, Messrs. Cone, Wethor, and Steffens and Ms. Kelley are entitled to an amount equal to one times the named executive officer's base salary.
- The amount reflected in this table represents the outstanding commissions owed to Ms. Kelley based on 25% of net profit dollars earned on each joint venture closing in 2013.

PROPOSAL 2: ADVISORY VOTE TO APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS (SAY ON PAY)

Proposal 2: Advisory Vote to Approve the Compensation of our Named Executive Officers (Say on Pay)

Pursuant to Section 14A of the Exchange Act, we are asking our stockholders to vote to approve, on a nonbinding, advisory basis, the compensation of our named executive officers, commonly referred to as the say-on-pay vote. In accordance with the requirements of the SEC, we are providing our stockholders with an opportunity to express their views on our named executive officers' compensation. Although this advisory vote is nonbinding, our board of directors and compensation committee will review and consider the voting results when making future decisions regarding our named executive officer compensation and related executive compensation programs.

As described in more detail in the Compensation Discussion and Analysis, our executive compensation program is designed to have the following attributes:

A balanced mix of short-term cash compensation and long-term compensation (cash and equity-based);

Forfeiture of equity awards upon violation of certain post-employment restrictive covenants;

An appropriate level of severance protection to ensure continuity of service;

No single-trigger change in control parachute payment features in any of our programs;

No gross-ups for any excise or other penalty taxes related to compensation paid;

Clawback of certain cash and equity incentive compensation; and

A modest use of perquisites, which do not make up a material portion of the compensation and benefits provided to our named executive officers.

We encourage stockholders to read the Compensation Discussion and Analysis in this Proxy Statement, which describes the processes our compensation committee used to determine the structure and amounts of the compensation of our named executive officers in 2013 and how our executive compensation philosophy, policies and procedures operate and are designed to achieve our compensation objectives. The compensation committee and our board of directors believe that our executive compensation strikes the appropriate balance between utilizing responsible, measured pay practices and effectively incentivizing our named executive officers to dedicate themselves fully to value creation for our stockholders. In addition, we are also asking our stockholders to vote, on a nonbinding basis, on the frequency of future advisory votes to approve the compensation of our named executive officers. Our board of directors is recommending that we conduct future advisory votes on the compensation of our named executive officers every year. See Proposal 3: Advisory Vote on the Frequency of Future Advisory Votes to Approve the Compensation of our Named Executive Officers (Say on Frequency).

Accordingly, we ask our stockholders to vote FOR the following resolution at the Annual Meeting:

RESOLVED, that the stockholders approve, on an advisory basis, the compensation of our named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, the compensation tables and any other related disclosure in this Proxy Statement.

Edgar Filing: Taylor Morrison Home Corp - Form DEF 14A

The proposal will be approved by the affirmative vote of a majority of the shares of our common stock present in person or by proxy at the Annual Meeting and entitled to vote. Abstentions will have the effect of voting against the proposal and broker non-votes will have no effect on the outcome of the proposal.

The Board of Directors Recommends a Vote FOR the Advisory Resolution to Approve the Compensation of our Named Executive Officers.

PROPOSAL 3: ADVISORY VOTE ON THE FREQUENCY OF FUTURE ADVISORY VOTES TO APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS (SAY ON FREQUENCY)

Proposal 3: Advisory Vote on the Frequency of Future Advisory Votes to Approve the Compensation of our Named Executive Officers (Say on Frequency)

Pursuant to Section 14A of the Exchange Act, we are asking our stockholders to vote, on a nonbinding, advisory basis, on the frequency of future advisory votes to approve the compensation of our named executive officers as reflected in Proposal 2 above. Stockholders may indicate whether they prefer that we conduct future advisory votes to approve the compensation of our named executive officers every one, two or three years.

The board of directors has determined that holding an advisory vote to approve the compensation of our named executive officers every year is the most appropriate policy at this time.

Stockholders will be able to specify one of four choices for this proposal on the proxy card: one year, two years, three years, or abstain. Although this advisory vote on the frequency of future advisory votes to approve the compensation of our named executive officers is nonbinding, the board of directors and the compensation committee will carefully review and consider the voting results when determining the frequency of future advisory votes to approve the compensation of our named executive officers.

The voting frequency option that receives the highest number of votes cast by stockholders will be deemed the frequency for the advisory vote on executive compensation that has been selected by stockholders. Abstentions and broker non-votes will have no effect on the outcome of this proposal.

The Board of Directors Recommends a Vote to Conduct Future Advisory Votes to Approve the Compensation of our Named Executive Officers Every Year.

Proposal 4: Ratification of the Appointment of Deloitte & Touche LLP as our Independent Registered Public Accounting Firm

The audit committee has appointed Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2014. Deloitte & Touche LLP has served as our independent public accounting firm, and the accounting firm of our accounting predecessors, since 2007. We expect that representatives of Deloitte & Touche LLP will be present at the Annual Meeting, will have an opportunity to make a statement if they so desire, and will be available to respond to appropriate questions.

Our board of directors is submitting the appointment of Deloitte & Touche LLP to our stockholders for ratification as a matter of corporate practice. If our stockholders fail to ratify the appointment, the audit committee may reconsider whether to retain Deloitte & Touche LLP. Even if the appointment is ratified, the audit committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of us and our stockholders.

The following table provides information regarding the fees billed by Deloitte & Touche LLP for the fiscal years ended December 31, 2013 and 2012. All fees described below paid to Deloitte & Touche LLP were pre-approved by the audit committee.

PROPOSAL 4: RATIFICATION OF THE APPOINTMENT OF DELOITTE & TOUCHE LLP AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Audit Committee Review and Pre-Approval of Independent Registered Public Accounting Firm s Services

Our audit committee s policy is to pre-approve all audit and non-audit services (including the fees and terms thereof) to be performed by our independent registered public accounting firm. The audit committee s authority to pre-approve such services is set forth in the charter of the audit committee, which is available on the Investor Relations page of our corporate website www.taylormorrison.com under the category Corporate Governance. The proposal will be approved by the affirmative vote of the majority of the shares of our common stock present in person or by proxy at the Annual Meeting and entitled to vote. Abstentions will have the effect of voting against the proposal and broker non-votes will have no effect on the outcome of the proposal.

Security Ownership of Certain Beneficial Owners, Directors and Management

The following table sets forth certain information known to us, based on filings made under Section 13(d) and 13(g) of the Exchange Act, regarding the beneficial ownership of our Class A common stock as of April 1, 2014 by

each person who is known by us to be the beneficial owner of more than 5% of any class or series of our capital stock;

each of our directors and each executive officer who has been deemed a named executive officer pursuant to SEC rules; and

all of our directors and executive officers as a group.

Except as set forth in the footnotes below, the number of shares of Class A common stock and percentage of voting power included in the table below assumes the exchange of all vested New TMM Units and an equal number of shares of Class B common stock for shares of Class A common stock. Subject to the assumption in the preceding sentence, the amounts and percentages of Class A common stock and Class B common stock beneficially owned are reported on the basis of the regulations of the SEC governing the determination of beneficial ownership of securities. Under these rules, a person is deemed to be a beneficial owner of a security if that person has or shares voting power, which includes the power to vote or to direct the voting of such security, or investment power, which includes the power to dispose of or to direct the disposition of such security. A person is also deemed to be a beneficial owner of any securities of which that person has a right to acquire beneficial ownership within 60 days. Under these rules, more than one person may be deemed to be a beneficial owner of the same securities. Except as otherwise indicated, the persons named below have sole voting and investment power, or share voting and investment power with their spouses, with respect to the beneficially owned shares listed below.

Except as set forth in the footnotes below, the percentages included in the following table are based on 32,857,800 shares of Class A common stock and 89,451,164 New TMM Units and shares of Class B common stock outstanding as of April 1, 2014:

Pursuant to such stockholders agreement, the Oaktree Holding Vehicle and the TPG Holding Vehicle have agreed, among other things, to vote their shares of common stock for each other's board nominees as well as one board nominee of JHI, although JHI is not subject to any such voting requirements. As a result, the Oaktree Holding Vehicle and the TPG Holding Vehicle may be deemed to have shared beneficial ownership of the common stock owned by the other, and JHI may be deemed to have beneficial ownership of the common stock owned by both the Oaktree Holding Vehicle and the TPG Holding Vehicle. If the Oaktree Holding Vehicle and the TPG Holding Vehicle are deemed to be members of a group, such investors may be deemed to beneficially own 87,191,246 shares of Class A common stock, or 71.3%.

New TMM Limited Partnership Agreement

In connection with the Reorganization Transactions, Taylor Morrison Home Corporation, the TPG and Oaktree Holding Vehicles, JHI and certain members of our management and our board entered into the limited partnership agreement of New TMM (the "New TMM LPA"). As a result of the Reorganization Transactions and in accordance with the terms of the New TMM LPA, New TMM, through TMM and its subsidiaries, exercises stewardship over the business and affairs of Taylor Morrison Holdings and its subsidiaries and Monarch Communities and its subsidiaries. New TMM does not conduct any activities other than direct or indirect ownership and stewardship over Taylor Morrison Holdings and Monarch Communities and their respective subsidiaries.

The holders of New TMM Units, including Taylor Morrison Home Corporation, will generally incur U.S. federal, state and local income taxes on their proportionate share of any net taxable income of New TMM. Net profits and net losses of New TMM are generally allocated to its members pro rata in accordance with the percentages of their respective New TMM Units, though certain non pro rata adjustments may be made to reflect tax depreciation, amortization and other allocations. To the extent permitted under the Revolving Credit Facility, the New TMM LPA provides for cash distributions to its limited partners if the taxable income of New TMM gives rise to taxable income for its limited partners. In accordance with the New TMM LPA and assuming New TMM is permitted to do so under the Revolving Credit Facility, New TMM will make cash distributions to the extent feasible to the holders of the New TMM Units, including Taylor Morrison Home Corporation, for purposes of funding their tax obligations in respect of the income of New TMM that is allocated to them. Generally, these tax distributions are computed based on our estimate of the net taxable income of New TMM allocable to such holder of New TMM Units multiplied by an assumed tax rate equal to the greater of (x) the highest effective marginal combined U.S. federal, state and local income tax rate prescribed for an individual or corporate resident in San Francisco, California and (y) the highest combined provincial and federal income tax rate applicable to an individual or (if higher) a corporation that is a resident of Canada and is subject to tax in the province of Canada that has the highest income tax rate (in each case taking into account the nondeductibility of certain expenses and the character of our income). In addition, to the extent permitted under the Revolving Credit Facility, New TMM may make distributions to Taylor Morrison Home Corporation without pro rata distributions to other limited partners in order to pay (i) consideration, if any, for redemption, repurchase or other acquisition of equity interests of New TMM to the extent such cash is used to redeem, repurchase or otherwise acquire our Class A common stock, (ii) operating, administrative and other similar costs incurred by Taylor Morrison Home Corporation, and (iii) other payments related to (a) legal, tax, accounting and other professional fees and expenses, (b) judgments, settlements, penalties, fines or other costs and expenses in respect of any claims involving Taylor Morrison Home Corporation and (c) other fees and expenses related to the maintenance of our existence or any securities offering, investment or acquisition transaction authorized by our board of directors.

The New TMM LPA provides that, subject to certain exceptions, any time Taylor Morrison Home Corporation issues a share of our Class A common stock or any other equity security, the net proceeds received by Taylor Morrison Home Corporation with respect to such issuance, if any, will be concurrently invested in New TMM and New TMM will issue to Taylor Morrison Home Corporation one New TMM Unit or other economically equivalent equity interest. Conversely, if at any time, any shares of our Class A common stock are redeemed, repurchased or otherwise acquired, New TMM will redeem, repurchase or otherwise acquire an equal number of New TMM Units held by Taylor Morrison Home Corporation, upon the same terms and for the same price, as the shares of our Class A common stock are redeemed, repurchased or otherwise acquired.

Under the New TMM LPA, the members have agreed that the Principal Equityholders and/or one or more of their respective affiliates are permitted to engage in business activities or invest in or acquire businesses that may compete with our business or do business with any customer of ours.

Under the New TMM LPA, New TMM is required to indemnify all of its partners, including Taylor Morrison Home Corporation, against any and all losses and expenses related thereto incurred by reason of the fact that such person was a partner of New TMM. In the event that losses are incurred as a result of a member's fraud or willful misconduct, such member is not entitled to indemnification under the New TMM LPA.

New TMM may be dissolved only upon the voluntary agreement of its general partner and the Principal Equityholders or as otherwise required by the laws of the Cayman Islands. Upon dissolution, New TMM will be liquidated and the proceeds from any liquidation will be applied and distributed in the following manner: (a) first, to creditors (including to the extent permitted by law, creditors who are members) in satisfaction of the liabilities of New TMM, (b) second, to establish cash reserves for contingent or unforeseen liabilities and (c) third, to the members in proportion of their interests in New TMM (other than to members holding unvested New TMM Units to the extent that their units do not vest as a result of the event causing the dissolution).

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Due to the nature of the New TMM LPA, it is not the type of agreement that is typically entered into with or available to unaffiliated third parties.

Exchange Agreement

In connection with the closing of the IPO, Taylor Morrison Home Corporation, the TPG and Oaktree Holding Vehicles, JHI and certain members of our management and board of directors and other existing and future holders of our New TMM Units (and corresponding Class B common stock) entered into an exchange agreement under which, from time to time, they (or certain transferees thereof) have the right to exchange their New TMM Units (along with a corresponding number of our Class B common stock) for shares of our Class A common stock on a one-for-one basis, subject to customary conversion rate adjustments for stock splits, stock dividends and reclassifications.

Stockholders Agreement

In connection with the IPO we terminated our then existing stockholders agreement among the general partner of TMM, TMM and certain of TMM's limited partners and entered into a the Stockholders Agreement with the TPG and Oaktree Holding Vehicles and JHI. The Stockholders Agreement contains provisions related to the composition of the board of directors of TMHC and the committees of the board of directors. See [Corporate Governance](#) [Composition of our Board of Directors](#). The stockholders agreement also provides that we do not have any interest or expectancy in the business opportunities of the Principal Equityholders and of their officers, directors, agents, stockholders, members, partners, affiliates and subsidiaries and that each such party will not have any obligation to offer us those opportunities. The TPG and Oaktree Holding Vehicles agree in the Stockholders Agreement to vote for each other's board nominees. In addition, the Stockholders Agreement provides that Requisite Investor Approval must be obtained before we are permitted to take the any of the following actions:

any change of control of Taylor Morrison Home Corporation;

issuance of any equity securities of Taylor Morrison Home Corporation, subject to limited exceptions (which include issuances pursuant to approved compensation plans);

hiring and termination of our Chief Executive Officer; and

certain changes to the size of our board of directors.

For the definition of [Requisite Investor Approval](#), see [Corporate Governance](#) [Board Structure and Operations](#) [Composition of our Board of Directors](#).

Registration Rights Agreement

In connection with the IPO, we terminated the then existing registration rights agreement among TMM and certain of its limited partners and entered into a new registration rights agreement with the TPG and Oaktree Holding Vehicles and certain members of our management and our board of directors. The registration rights agreement provides the TPG and Oaktree Holding Vehicles with certain demand registration rights,

including shelf registration rights, in respect of any shares of our Class A common stock held by them, subject to certain conditions. In addition, in the event that we register additional shares of Class A common stock for sale to the public, we will be required to give notice of such registration to the TPG and Oaktree Holding Vehicles, JHI and the members of management and our board of directors party to the agreement of our intention to effect such a registration, and, subject to certain limitations, include shares of Class A common stock held by them in such registration. We undertake in the registration rights agreement to file a shelf registration statement as soon as we meet the applicable eligibility criteria and to use commercially reasonable efforts to have the shelf registration statement declared effective as soon as practicable and to remain effective in order to register the exchange of New TMM Units together with shares of Class B common stock for shares of Class A common stock by certain members of our management and our board of directors from time to time. We are required to bear the registration expenses, other than underwriting discounts and commissions and transfer taxes, associated with any registration of shares pursuant to the agreement. The agreement includes customary

indemnification provisions in favor of the TPG and Oaktree Holding Vehicles, JHI and the members of management and our board party to the agreement, any person who is or might be deemed a control person (within the meaning of the Securities Act and the Exchange Act) and related parties against certain losses and liabilities (including reasonable costs of investigation and legal expenses) arising out of or based upon any filing or other disclosure made by us under the securities laws relating to any such registration.

Governance Agreements

In connection with the IPO, we entered into governance agreements setting forth certain matters with respect to the management of Taylor Morrison Holdings and Monarch Communities. Taylor Morrison Home Corporation entered into one such agreement with the TPG and Oaktree Holding Vehicles, JHI and Taylor Morrison Holdings and one such agreement with the TPG and Oaktree Holding Vehicles, JHI and Monarch Communities. Each governance agreement provides that the composition of the board of directors of the applicable company will each generally be identical to that of the board of directors of Taylor Morrison Home Corporation and that the Principal Equityholders will have the right to nominate representatives to the committees of such board of directors on the same basis as set forth in the Stockholders Agreement described above. Each governance agreement also provides affiliates of the Principal Equityholders with approval rights over certain actions on the same basis as set forth in the Stockholders Agreement.

Management Services Agreements

In connection with our 2011 acquisition by affiliates of the Principal Equityholders (the Acquisition), such affiliates entered into management services agreements with TMM, Taylor Morrison Holdings and Monarch Communities relating to the provision of certain management, advisory and consulting services. In consideration of financial and structural advice and analysis made in connection with the Acquisition, Taylor Morrison Holdings and Monarch Communities paid a one-time transaction fee of \$13.7 million to the Principal Equityholders, and also reimbursed the Principal Equityholders for third-party, out-of-pocket expenses incurred in connection with the Acquisition, including fees, expenses and disbursements of lawyers, accountants, consultants and other advisors. In addition, as compensation for ongoing services provided by affiliates of the Principal Equityholders under the management services agreements, Taylor Morrison Holdings and Monarch Communities, Inc. agreed to pay to affiliates of the Principal Equityholders an annual aggregate management fee of \$5.0 million.

In connection with the IPO, the management services agreement with affiliates of TPG and Oaktree was terminated in exchange for an aggregate payment of \$29.8 million split equally between TPG and Oaktree.

In addition, in conjunction with the formation of TMM and in connection with the Acquisition, an affiliate of JH Investments Inc. entered into a management services agreement and the JHI Partnership Services Agreement with TMM Holdings relating to the provision of certain services to TMM. In consideration of the services provided under the Services Agreement, TMM made a one-time grant to the JH Investments Inc. affiliate of certain partnership interests in TMM, subject to certain terms, conditions and restrictions contained in a Class J Unit award agreement and the TMM limited partnership agreement. In connection with the IPO, the management services agreement and the JHI Partnership Services Agreement among JHI and TMM were terminated.

Purchases of New TMM Units from the Principal Equityholders and Certain Members of Our Management

We used approximately \$475.3 million of the net proceeds from the IPO, together with \$7.2 million of cash on hand, to purchase 11,286,361 New TMM Units (at a price of \$20.68 per New TMM Unit, the price paid by the underwriters for shares of our Class A common stock in the IPO) held by the TPG Holding Vehicle, 11,286,361 New TMM Units (at a price of \$20.68 per New TMM Unit) held by the Oaktree Holding Vehicle, 604,449 New TMM Units (at a price of \$20.68 per New TMM Unit) held by JHI and 156,630 New TMM Units (at a price \$20.68 per New TMM Unit) held by certain members of our management. Taylor Morrison Home Corporation and the TPG and Oaktree Holding Vehicles, on the one hand, and JHI, on the other hand, each entered into a put/call agreement with customary conditions to Taylor Morrison Home Corporation's obligation to close the acquisition, including the absence of a material adverse change in the business and affairs of New TMM and its subsidiaries. The purchase of the New TMM Units from members of our management occurred at the closing of the IPO. The purchase of the New TMM Units from the TPG and Oaktree Holding Vehicles and JHI occurred on April 15, 2013.

Indemnification of Directors and Officers

We entered into customary indemnification agreements with our executive officers and directors that provide, in general, that we will provide them with customary indemnification in connection with their service to us or on our behalf.

Real Estate Acquisitions

From time to time, we may engage in transactions with entities that are affiliated with one or more of the Principal Equityholders through either lending or equity ownership arrangements. Transactions with related parties are executed in the normal course of operations and at arm's length and in compliance with our Related Person Transaction Policy described below, including review and approval by our audit committee. Real estate acquisitions from affiliates of TPG, Oaktree and JHI amounted to \$16.0 million, \$19.6 million and \$19.0 million, respectively, since the beginning of 2013.

Other Transactions

Taylor Morrison Home Corporation, through its subsidiaries, builds, sells and finances the purchase of homes in the ordinary course of business. One of our subsidiaries, Taylor Morrison Home Funding, LLC (TMHF), is a provider of consumer credit in the form of mortgage loans to our customers and to the public at large by providing loans that shortly thereafter are resold to third party lenders. In 2013, Louis Steffens, then an executive officer, purchased a Taylor Morrison home for approximately \$465,532 and Kathleen Owen, then an executive officer, had a mortgage loan of approximately \$386,000 initially funded by TMHF, which loan was promptly sold to Wells Fargo Bank, N.A., the current lender. Transactions with our executive officers are concluded in the ordinary course of business, on substantially the same arms-length terms as those prevailing at the time for comparable transactions with non-related parties (other than as relates to the application of customary employee discounts that are made available to all of our employees generally), and, with respect to loans initially made by TMHF, did not involve more than normal risk of collectability or other unfavorable features. These transactions were in compliance with our Related Person Transaction Policy described below, including review and approval or ratification by our audit committee. CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Marblehead Joint Venture

In April 2014, one of our subsidiaries formed a joint venture with affiliates of Oaktree and TPG to acquire and develop Marblehead, a coastal residential development in San Clemente, California consisting of 195.5 coastal acres. The acquisition of the Marblehead site from LV Marblehead, a subsidiary owned by Lehman Brothers Holdings Inc., occurred on April 8, 2014. Our subsidiary has made an initial capital investment of approximately \$46 million in the joint venture and is a minority capital partner and also the operating partner responsible for land development and homebuilding on the Marblehead site, for which we will be entitled to receive an incrementally greater return on our capital investment if the Marblehead project achieves certain economic performance thresholds. The joint venture operating agreement governing our partnership with Oaktree and TPG permits Oaktree and TPG, among other things, to make or approve certain major decisions relating to the project and to remove our subsidiary as the operating partner in certain situations, including for failure to meet certain performance conditions. The terms of our joint venture arrangements with Oaktree and TPG were negotiated on an arm's length basis and the Marblehead acquisition and joint venture arrangements with TPG and Oaktree were approved in compliance with our Related Person Transaction Policy described below, including review and approval by our audit committee.

Related Person Transaction Policy

We have adopted a written Related Person Transaction Policy, which sets forth our policy with respect to the review, approval, ratification and disclosure of all related person transactions by our audit committee. In accordance with our Related Person Transaction Policy, our audit committee has overall responsibility for the implementation and compliance with this policy.

For the purposes of our Related Person Transaction Policy, a "related person transaction" is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) in which we were, are or will be a participant and in which any related person (as defined in our Related Person Transaction Policy) had, has or will have a direct or indirect material interest, in excess of \$120,000. A "related person transaction" does not include any employment relationship or transaction involving an executive officer and any related compensation resulting solely from that employment relationship which has been reviewed and approved by our board of directors or compensation committee.

Our Related Person Transaction Policy requires that notice of a proposed related person transaction be provided to our legal department prior to entering into such transaction. If our legal department determines that such transaction is a related person transaction, the proposed transaction will be submitted to our audit committee for consideration at its next meeting. Under our Related Person Transaction Policy, only our audit committee will be permitted to approve those related person transactions that are in, or not inconsistent with, our best interests. In the event we become aware of a related person transaction that has not been previously reviewed, approved or ratified under our Related Person Transaction Policy and that is ongoing or is completed, the transaction will be submitted to our audit committee so that it may determine whether to ratify, rescind or terminate the related person transaction.

Our Related Person Transaction Policy also provides that our audit committee will review certain previously approved or ratified related person transactions that are ongoing to determine whether the related person transaction remains in our best interests and the best interests of our stockholders.
