Earnings Release for the Fiscal Year Ended March 31, 2014

1. Information on Consolidated Results

(1) Operating Results

i. Business Overview

In the mobile telecommunications market, besides the intense competition that we engage in with other Japanese telecommunications carriers due to active movement of subscribers using the Mobile Number Portability (MNP) system, we are also facing competition with new players offering a wide variety of Internet-based services that transcend the scope of traditional telecommunications businesses.

In this new competitive landscape, we have been taking steps to reinforce our competitiveness in the mobile business by thoroughly improving our offerings and developing attractive services in our new business fields, based on our medium-term business plan: Medium-Term Vision 2015: Shaping a Smart Life.

In the fiscal year ended March 31, 2014, we strived to boost our comprehensive strengths by focusing on the four key areas of devices (handsets), network, services and billing plans and sales channel, with the goal of being chosen by a large number of customers and garnering their usage over a long period of time.

Furthermore, in order to propel the expansion of our new businesses going forward, we pursued collaboration and alliances with external partners to provide new services in such fields as healthcare and learning.

Meanwhile, to accelerate the initiatives mentioned above, we endeavored to strengthen our managerial foundation through structural reforms, stepping up cost-cutting efforts and shifting management resources to new business domains.

Furthermore, in April 2014, we unveiled a new billing structure that offers unlimited domestic voice calls for a flat monthly rate and enables users to share packet-data quota among family members, and introduced new discount packages that offer privileges to long-term users and young users of up to age 25, with the goal of allowing customers to utilize our services at affordable rates for a long period of time by selecting a plan appropriate for their individual needs in different stages of life.

For the fiscal year ended March 31, 2014, operating revenues decreased by ¥8.9 billion from the previous fiscal year to ¥4,461.2 billion due mainly to a decrease in mobile communications services revenues by ¥212.7 billion as a result of the impacts of penetration of the Monthly Support discount program, despite increases in equipment sales and other operating revenues of ¥113.9 billion and ¥89.9 billion respectively, driven by our active sales promotion of smartphones and the expansion of profit in our new business fields.

Operating expenses increased by ¥9.1 billion from the previous fiscal year to ¥3,642.0 billion due mainly to the increase in depreciation expense related to our upgrade of equipment for our Xi network and an increase in cost related to our expansion of profit in new business fields, despite our efforts to promote cost reduction with the goal of further strengthening our management structure.

As a result of the foregoing, operating income was below ¥840.0 billion, the forecast for the fiscal year ended March 31, 2014, and decreased by ¥18.0 billion from the previous fiscal year to ¥819.2 billion. Net income attributable to NTT DOCOMO, INC. was ¥464.7 billion (a decrease of ¥26.3 billion from the previous fiscal year) due to the ¥39.5 billion decrease of equity in net income of affiliates.

Going forward , we will continue to take measures that greater enrich the lives of our customers and aim to become a Partner for a Smart Life, to be chosen by customers and to receive their patronage for a long period of time.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2014**

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

ii. Segment Results

Mobile phone business

<<Devices>>

We have made efforts to enhance the lineup of smartphones specific to DOCOMO that are available for customers to choose and are matched to the taste of each individual customer.

Introduction of iPhone*¹

We started carrying Apple Inc.'s iPhone to respond to the diverse needs of our customers, and launched dmarket and various other DOCOMO-proprietary services on the iPhone in an attempt to allow a greater number of users to utilize these services.

Performance Enhancement of Android Smartphones

We endeavored to evolve our Android smartphones with enrichment of a number of features in order to realize further convenience of our customers, e.g., implementation of a quad-core CPU*² that enables the smooth operation of applications and a large-capacity battery that enables more than 3-day continuous usage without recharging and improvement of various operability.

Smartphones Targeting Broader User Segments

We released smartphones equipped with designs and features for broad user segments, including the elderly and children, such as the Raku-Raku SMARTPHONE equipped with a large touch-panel and the Smartphone for Junior preinstalled with a rich set of safety/ security functions for young users.

*1: TM and © 2014 Apple Inc. All rights reserved. iPhone is a trademark of Apple Inc. The iPhone trademark is used under a license from AIPHONE CO., LTD.

*2: A Central Processing Units, or CPUs, are embedded inside PCs, smartphones and other devices to perform complicated numerical calculations, information processing, mechanical control and other tasks.

<<Network>>

We aimed to provide a robust LTE*¹ network that utilizes DOCOMO's technical strengths in pursuit of breadth, speed and convenience.

Expansion of Xi LTE*¹ Service Areas

We increased the total number of Xi LTE base stations to 55,300 stations across Japan as of March 31, 2014 (an increase of 30,900 stations compared to the number a year ago) and realized broader area coverage than before. We took meticulous efforts to expand the LTE service areas, to areas such as subway/Shinkansen bullet train stations, commercial facilities, schools and the Mt. Fuji*² area, which was recently registered as a World Heritage site, so as our customers are able to use their mobile phones in various locales.

Xi LTE Speed Enhancement

We commenced high-speed service that offers maximum download speed of 150Mbps*³ in Tokyo, Nagoya and Osaka metropolitan areas, while expanding the service areas of maximum 112.5Mbps downlink speed service to all 47 prefectures of Japan.

Operation of Quad-Band LTE*

We started operating Quad-Band LTE service that allows us to realize large-capacity transmission for comfortable access through efficient utilization of four different spectrum bands.

Installation of 6-Sector Base Stations*⁵

In order to improve the communication quality in urban centers and other areas of high usage, we moved ahead with the installation of 6-sector base stations that realize capacity effectively worth six base stations with a single site.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

- *1: Abbreviation for Long Term Evolution. A mobile communications system specified by the international standard development organization, 3GPP (3rd Generation Partnership Project).
- *2: Service provided during the climbing season in July-August 2013.
- *3: A communications speed measurement unit that represents what volume of data can be transmitted in one second. The bigger the number, the faster the communications speed.
- *4: The four spectrum bands of 800MHz, 1.5GHz, 1.7GHz and 2GHz are used for the provision of service. Service areas are constructed utilizing 2GHz and 800MHz bands for building coverage, the 1.5GHz band for delivering speed and the 1.7GHz for even faster transmission speeds in metropolitan areas.
- *5: Base stations equipped with a technology that divides an area ordinarily covered by a single base station into six smaller sectors. This technology enables meticulous tuning based on the varying characteristics of each area.

<<Services>>

With a focus on our dmarket service, we provided more convenient services to entice even more customers to choose us.

Enrichment of dmarket Stores

Aiming to have broad segments of users enjoy our dmarket services, we launched a number of new stores on dmarket . In the fiscal year ended March 31, 2014, we launched dcreators (an online market where various handmade items can be put up for sale or purchased), dfashion (a fashion e-commerce site), dkids (an education content service targeting families with infants) and dtravel (a travel service that provides customers with comprehensive support).

Expansion of dmarket User Base

We took efforts to prove more attractive services for each store on dmarket. As of March 31, 2014, the cumulative subscriptions to dvideo, dhits, danime store and dkids, services which deliver content for a fixed monthly subscription fee, grew to 7.69 million.

Provision of docomo mail

We began providing a mail service which is easy to use for our smartphone customers, and commenced docomo mail cloud-based email service, after renovating the conventional sp-mode mail service for smartphones in pursuit of improved ease of use. We also added a function that allows users to access their mobile phone mail address from PCs or other devices.

Use of docomo ID

We enhanced the functionality of docomo ID, an account identification used for user authentication, so that even customers who do not have mobile phone subscription contract with DOCOMO can utilize dmarket and other services via various Internet-enabled devices.

Provision of Service Packages

Based on the concept of affordable and worry-free use, we introduced service packages to offer an assortment of services that enjoy good reviews by customers. As of March 31, 2014, the Osusume Pack, which bundles the Sugotoku-Contents and other recommended services that allow customers to utilize their smartphones in various convenient ways, garnered 2.92 million subscriptions, and the Anshin Pack, which combines the Mobile Phone Protection & Delivery and various other services designed to ensure worry-free use of smartphones, garnered 4.46 million subscriptions.

Introduction of Petfit

As part of our endeavors to enrich our M2M* offerings that can provide useful solutions for customers everyday activities, we started a new service called Petfit, which allows users to check their pet's health condition or location via smartphones or other devices using a tag with built-in communications capabilities.

*: Abbreviation for Machine-to-Machine. A system that provides automatic communication between machines with built-in communications capability such as vehicles, vending machines and information appliances and the server or other network equipment.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

<<Billing Plan and Sales Channel>>

In response to the proliferation of smartphones, we have endeavored to deploy channels and provide rates reflective of changes in what customers desire and in how they use their smartphones.

Various Discount Services

We launched various discount programs and campaigns, such as the Arigato 10 Years Smartphone Discount program for customers who have used DOCOMO for over 10 years, and a student discount program that offers discounts on basic monthly charges and other privileges to students purchasing a new smartphone, as well as their families.

Reinforcement of Customer Contact Points

To ensure smooth customer service at docomo Shops, we increased the number of customer counters and introduced tablet devices that can accept changes to customers' contract details, etc., during the time before customers are guided to the counter. We also introduced a reservation service* which a customer can use when visiting My Shop, the docomo Shop which a customer has registered as their preferred DOCOMO store, increased the procedures that can be completed online and reinforced our call centers' capabilities for handling smartphone-related inquiries.

*: Some stores are not offering this service. Also, depending on how busy a store is on a particular day, service may not be offered in the normal timely manner that is expected.

Announcement of New Billing Plan

In April 2014, we announced the introduction of a new billing plan called Kake-hodai & Pake-aeru to allow customers to utilize our smartphones and feature phones at affordable rates for a long period of time by selecting plans appropriate for their needs in different stages of life.

<Overview of New Billing Plan>

Zutto DOCOMO
Discount

A service that offers graduated discounts based on the length of subscription

Offers discounts on data communication charges to all family members based on the subscription length of the longest user in the family

U25 Ouen Discount

A service that offers helpful discounts not only to students but to all customers of age 25 or younger

Provides a discount of ¥500/month on phone bill

Also offers free bonus packets of 1GB

Kake-hodai

Unlimited domestic voice calling for a flat monthly rate to any destination, including to other DOCOMO phones or to users of other mobile/fixed-line networks, with no restrictions on the number of calls or their duration

Pake-aeru

Allows packet data-quota sharing among family members or among multiple devices owned by a single user

Allows waste-free data usage through the sharing of a data quota among family members after selecting a plan suited for the family's total packet consumption

Additional packets can be purchased on an as-needed basis in months of heavy usage

<<Initiatives for Corporate Marketing>>

Through our smartphones and cloud services, we provide solutions that create new value for business users, addressing the unique challenges of our corporate clients. The following is a summary of the principal new initiatives undertaken during the fiscal year ended March 31, 2014:

Release of Business Smartphone

We released a smartphone for corporate users, the F-04F, equipped with easy-to-use basic communications features including telephone and email as well as advanced security functions.

Introduction of Business Plus

We started offering Business Plus, a package of cloud-based enterprise services including groupware^{*}, network address book, attendance management, and other features.

*: Software designed to help improve the productivity of business operations. Groupware generally comes with email/schedule-sharing and other capabilities.

<<Global Business Expansion>>

We have taken steps to ensure that customers are able to use our mobile phones worry-free in foreign countries and promoted global expansion of services in new businesses fields through investments and alliances. The following is a summary of the principal actions undertaken during the fiscal year ended March 31, 2014:

Launch of Global 1day Pake Service

We started offering a new one-day (24-hour) flat-rate data communications billing plan for customers traveling overseas, the Global 1day Pake service, which provides users with more inexpensive packet access defined for each country/region.

Launch of LTE-based International Roaming Service

We commenced LTE-based international roaming service that can be applied with Global 1day Pake and other billing plans, to enable high-speed data access using LTE connections even when traveling abroad.

Reinforcement of New Businesses in Europe

We acquired all of the shares of fine trade gmbh, an Austria-based e-commerce trading solution provider, making it a wholly-owned subsidiary with the aim of providing various payment options in the online retail market for consumer goods in Europe.

The total number of smartphones sold in the fiscal year ended March 31, 2014 reached 13.78 million units, and the total number of cellular subscriptions as of March 31, 2014 was 63.11 million (an increase of 1.57 million compared to the number as of March 31, 2013.) Our cellular churn rate for the fiscal year ended March 31, 2014 increased by 0.05 points from the previous fiscal year to 0.87%.

Mobile communications services decreased by ¥212.7 billion, due mainly to the decrease in voice revenues and the impacts of increasing penetration of the Monthly Support discount program. Equipment sales revenues grew by ¥113.9 billion due mainly to a steady increase in the number of smartphone handsets sold.

As a result of the foregoing, operating revenues and operating income from the mobile phone business for the fiscal year ended March 31, 2014, were ¥4,235.9 billion (a decrease of ¥39.3 billion from the previous fiscal year) and ¥835.5 billion (a decrease of ¥32.9 billion from the previous fiscal year), respectively.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2014**

Number of subscriptions by services and other operating data are as follows:

<Number of subscriptions by services>

	Year ended March 31, 2013	Thousand subscriptions Year ended March 31, 2014	Increase (Decrease)	
Cellular services	61,536	63,105	1,569	2.6%
Cellular (Xi) services	11,566	21,965	10,399	89.9
Cellular (FOMA) services	49,970	41,140	(8,830)	(17.7)
packet flat-rate services	38,704	40,148	1,444	3.7

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

All other businesses

Our undertakings in all other businesses also include efforts aimed at expanding new business fields through the rollout of new services in such fields as healthcare and learning or the making of investments and the formation of alliances. The principal actions undertaken in all other businesses during the fiscal year ended March 31, 2014, are summarized below:

docomo Healthcare, Inc.

We launched a new healthcare support service dubbed Watashi Move (WM). We also commenced services that provide users with advice based on acquired health data, Karada no Kimochi and Karada no Tokei WM, and released a wristband-type wearable device, Move Band.

Nihon Ultmarc Inc.

With the goal of creating new services that link customers with medical care, we made an investment in Nihon Ultmarc Inc., a company that operates Japan's largest medical database and possesses special resources in this field, making it into a subsidiary.

ABC HOLDINGS Co., Ltd.

With a focus on cuisine and dining, we transformed ABC HOLDINGS Co., Ltd. into a subsidiary with the goal of creating new lesson styles that enrich customers' lifestyles and provide convenience, and expanding the business of cooking classes in the future.

MAGASseek Corporation

We commenced the dfashion fashion e-commerce site, in which users can make payments for purchased items together with their monthly phone bill or use docomo Points as a payment option.

As a result, because of the expansion of profit in our new business fields, operating revenues from all other businesses for the fiscal year ended March 31, 2014 were ¥225.3 billion (an increase of ¥30.4 billion from March 31, 2013). Operating expenses from all other businesses were ¥241.6 billion (an increase of ¥15.5 billion) and operating loss from all other businesses was of ¥16.3 billion.

Results of operations are as follows:

<Results of operations>

	Billions of yen			
	Year ended March 31, 2013	Year ended March 31, 2014	Increase (Decrease)	
Operating revenues from all other businesses	¥ 195.0	¥ 225.3	¥ 30.4	15.6%
Operating income (loss) from all other businesses	(31.1)	(16.3)	14.9	47.8

Fiscal Year Ended March 31, 2014

iii. CSR Activities

In accordance with our medium-term business plan, Medium-Term Vision 2015, we are working to provide a stable, high quality network and services and to engage in the persistent creation of new value as a Partner for a Smart Life for our customers.

We believe it is the corporate social responsibility (CSR) of DOCOMO to contribute to the realization of a society that enables people to lead abundant lives with comfort, safety, and security by resolving various social issues and surpassing the confines of countries, regions, and generations. Accordingly, we have positioned CSR at the core of our corporate management.

<Realizing a Safe, Secure Society>

Use of Safe, Secure Services by Young People

We have enhanced the Anshin-mode (safe-mode) function of our service for the safe and secure use of smartphones by young people and have enabled the application of our filtering service to Internet access via Wi-Fi provided by other companies as well as through the DOCOMO network. We also launched Smartphone for Junior 2 SH-03F designed for the safe and secure use of content and applications by young people. Approximately 6,900 sessions of the Mobile Safety Class were conducted for young people, guardians, and educators nationwide this period to explain precautionary items, manners and other facets of using mobile phones safely and securely.

Services that Seniors Can Use with Confidence

We launched Raku-Raku Smartphone 2 and the Raku-Raku Smartphone Premium, which are designed to enable seniors to operate them easily and with confidence. We also began offering Tsunagari-Hotto Support, an application to reassure seniors, and enabled the status of smartphone use (pedometer, battery charge remaining, etc.) to be conveniently emailed to a family member designated in advance through normal use of the smartphone.

Services that are Easy for Anyone to Use

The eligibility of application for Hearty Discounts has been expanded to enable people with disabilities or suffered from intractable diseases to use services with assurance as well. Approximately 70 sessions of the our Mobile Useful Class were also conducted this fiscal year to explain to people with disabilities how to use mobile phones conveniently.

Manners when Using a Smartphone

We produced a logo and animated video stressing the danger of using a smartphone while walking and posted these in various advertisements and on the Internet. We also enhanced the features of the Anshin-mode function and provided a function that will prevent use of a smartphone while walking.

<Initiatives in Global Environmental Protection>

Designing Environmentally Friendly Communications Equipment

We have made steady progress on steps to reduce electricity usage while working to enhance network equipment by developing and introducing energy-saving LTE compact base stations and Green base stations that use renewable energy.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

Consideration for the Environment in docomo Shops

We have begun to install LED lighting in docomo Shops. We achieved a reduction of approximately 40% in the use of paper resources for catalogs this period compared to last period. This was achieved by working to provide a digital catalog while at the same time computerizing production and ordering to eliminate catalog waste. We have also developed and equipped docomo Shops with equipment for the safe and proper deletion of smartphone personal information no longer needed by customers as well as by crushing them for recycling.

Activities Directed at Preservation of the Natural Environment (Biodiversity)

We have rolled out activities to establish docomo Woods in 50 locations throughout the 47 prefectures nationwide as a locally rooted activity that will preserve the natural environment and protect biodiversity. This activity was held 50 times during the current fiscal year, with roughly 2,600 employees participating alongside local volunteer groups and others.

<For the Recovery of Disaster-stricken Areas>

Activities to Provide Aid Along with Customers

A Disaster Charity Site enabling donations via DOCOMO cell phones was set up five times this period, donations were solicited by roughly 38,000 customers, and approximately 35 million yen was donated to the Izu-Oshima typhoon and other areas stricken by natural disasters. DOCOMO-only Goods made from timber from thinning forests were sold on dshopping and via other venues and a portion of the proceeds was used for forest conservation as one part of the initiative directed at assisting in the recovery of Minamisanriku in Miyagi Prefecture.

Employee Participation in Activities

Interested employees were solicited and dispatched to areas stricken by the Great East Japan Earthquake to participate in volunteer activities. A total of around 340 employees participated in 20 trips this period. A total of approximately 62 million yen was donated for recovery from the Great East Japan Earthquake, representing a combination of donations from the company and employee-requested donations.

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

iv. Trend of Capital Expenditures

The principal capital investments made during the fiscal year ended March 31, 2014 are summarized below.

<< Expansion of Telecommunications Facilities >>

Expansion of Network Facilities

We increased significantly the installations of base stations to further improve the area coverage of our Xi LTE service. Also, in order to accommodate the growth of data traffic* resulting from the expanded uptake of smartphones, we worked on the capacity buildup of servers, switches and other equipment.

Actions for the Launch of New Services

We strived to reinforce our cloud infrastructure to ensure compatibility with docomo ID authentication and docomo mail service.

*: The total volume of transmissions which occurred by means of data communication.

<<Initiatives Aimed for Efficiency and Cost Reduction >>

Efficient Use of Capital Expenditure

We pursued cost efficiency improvement toward the goal of further strengthening our management foundation through the integration and/or capacity expansion of equipment, the improvement of the efficiency of construction and the reduction of equipment procurement costs.

Efficient Service Area Construction

We also structured our service areas and achieved quality improvement in an efficient manner, choosing the best equipment among various options taking into consideration the surrounding environment and geography, data transmission volume and other factors when establishing base stations.

As a result of the above measures, the total capital expenditures for the fiscal year ended March 31, 2014, decreased by 6.7% from the previous fiscal year to ¥703.1 billion.

<Capital expenditures >

	Billions of yen			
	Year ended March 31, 2013	Year ended March 31, 2014	Increase (Decrease)

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

v. Prospects for the Fiscal Year Ending March 31, 2015

While Competition in Japan's mobile telecommunications market is expected to remain intense in such areas as acquisition of subscribers and further improvement of service offerings, we undertake various initiatives to strengthen our competitive edge, most importantly with the introduction of a new billing plan. Under this competitive market, we expect to post an increase in operating revenues and a decrease in operating income for the fiscal year ending March 31, 2015 due mainly to a decrease in voice revenues and an increase in cost for quality enhancements of Xi LTE services, and despite of an increase in packet communications revenues due to the expansion of the smartphone user base and an increase in revenues from new business fields.

Our operating revenues for the fiscal year ending March 31, 2015 are expected to be ¥4,590.0 billion, an increase of ¥128.8 billion from the previous fiscal year, reflecting growth in packet revenues driven by accelerating the migration to Xi smartphones, equipment sales revenues by promoting smartphones sales, and other operating revenues from sources such as dmarket, offsetting a decrease in mobile communications services revenues, which was due mainly to a decrease in voice revenues and the growing impact of the Monthly Support discount program. Our operating expenses are expected to be ¥3,840.0 billion, an increase of ¥198.0 billion from the previous fiscal year. Although we continue efforts aimed at further cost efficiency, operating expenses are expected to increase primarily caused by the growth in the number of Xi LTE base stations for quality enhancements, actions aimed for expanding future revenues, and an increase in cost of equipment sold driven by the growth in handset sales. Accordingly, operating income is estimated to be ¥750.0 billion, a decrease of ¥69.2 billion from the previous fiscal year.

	Billions of yen			
	Year ended March 31, 2014 (Actual results)	Year ending March 31, 2015 (Forecasts)	Increase (Decrease)	
Operating revenues	¥4,461.2	¥ 4,590.0	¥ 128.8	2.9%

Income before income taxes and equity in net income (losses) of affiliates	833.0	758.0	(75.0)	(9.0)
Net income attributable to NTT DOCOMO, INC.	464.7	480.0	15.3	3.3
Capital expenditures	703.1	690.0	(13.1)	(1.9)
Adjusted free cash flows excluding the effects of irregular factors, the effect of transfer of receivables, and changes in investments for cash management purposes*	257.2	280.0	22.8	8.9
EBITDA*	1,572.2	1499.0	(73.2)	(4.7)
EBITDA margin*	35.2%	32.7%	(2.5) point	

ROCE before tax effect*	14.3%	13.1%	(1.2) point
ROCE after tax effect*	8.8%	8.4%	(0.4) point

* EBITDA and EBITDA margin, as we use them, are different from EBITDA as used in Item 10(e) of Regulation S-K and may not be comparable to similarly titled measures used by other companies. For an explanation of our definition of free cash flows excluding irregular factors and changes in investments for cash management purposes, EBITDA, EBITDA margin, ROCE before tax effect and ROCE after tax effect, see 5. (3) Reconciliations of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures on page 32. Notes:

1. The mobile telecommunications market in Japan is characterized by rapid changes in the market environment due to technical innovations, market entry by new competitors and other factors. To respond to such changes, our corporate group may introduce new billing plans or other measures that could potentially have a significant impact on our revenues and income. The timing of introduction of such measures will be decided after comprehensively taking into consideration our operational circumstances and the actions of our competitors, and therefore, is not necessarily decided beforehand. Such measures, depending on the timing of implementation, may significantly affect our results forecasts to be made at the time of our first-half results announcement. Providing such prospects on a half-year basis, therefore, may not be adequate or useful as information to be disclosed to investors. Accordingly, we will provide prospects for the full year only, and report progress vis-à-vis the projected full-year forecasts by disclosing actual results on a quarterly basis.
2. The forecasts of NTT DOCOMO, INC. shareholders' equity to be used in the ROCE calculation for the fiscal year ending March 31, 2015 are based on the assumption that DOCOMO will repurchase up to 320 million shares for up to ¥500,000 million, as resolved at the board of directors' meeting held on April 25, 2014.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2014****(2) Financial Review****i. Financial Position**

	Billions of yen				
	March 31, 2013	March 31, 2014		Increase (Decrease)	
Total assets	¥ 7,169.7	¥ 7,508.0	¥	338.3	4.7%
NTT DOCOMO, INC. shareholders equity	5,368.5	5,643.4		274.9	5.1
Liabilities	1,759.2	1,814.5		55.4	3.1
Including: Interest bearing liabilities	253.8	230.3		(23.4)	(9.2)
Shareholders equity ratio (1)	74.9%	75.2%		0.3 point	
Market equity ratio (2)*	82.2%	89.9%		7.7 point	
Debt ratio (3)	4.5%	3.9%		(0.6) point	

- Notes: (1) Shareholders equity ratio = NTT DOCOMO, INC. shareholders equity / Total assets
Shareholders equity ratio ended March 31, 2013 has been revised due to the reinstatement of equity method for an investee.
- (2) Market equity ratio = Market value of total share capital** / Total assets
- (3) Debt ratio = Interest bearing liabilities / (NTT DOCOMO, INC. shareholders equity + Interest bearing liabilities)

* See 5. (3) Reconciliations of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures on page 32.

** Market value of total share capital = Closing share price multiplied by the number of outstanding shares (excluding treasury stock) as of the end of the fiscal period.

ii. Cash Flow Conditions

For the fiscal year ended March 31, 2014, net cash provided by operating activities was ¥1,000.6 billion, an increase of ¥68.2 billion (7.3%) from the previous fiscal year. This was due mainly to a decrease in commissions paid to resellers and a decrease in the amount of income taxes paid, in addition to an increase in cash inflows from customers in relation to collections of installment receivables for customers handset purchases.

Net cash used in investing activities was ¥703.6 billion, an increase of ¥1.6 billion (0.2%) from the previous fiscal year. This was due mainly to a decrease in cash inflow resulting from the redemption of short-term investments for cash management purpose, despite a decrease in purchases of property, plant and equipment as a result of efficient network construction, a decrease in cash outflows from purchases of short-term investments and a decrease in cash

outflows resulting from purchases of long-term bailment for consumption to a related party.

Net cash used in financing activities was ¥269.8 billion, an increase of ¥8.8 billion (3.4%) from the previous fiscal year, due mainly to an increase in cash outflows by repayments of short-term debt and dividends paid.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2014**

As a result of the foregoing, the balance of cash and cash equivalents was ¥526.9 billion as of March 31, 2014, an increase of ¥33.2 billion (6.7%) from the previous fiscal year end.

	Billions of yen		Increase	
	Year ended March 31, 2013	Year ended March 31, 2014	(Decrease)	
Net cash provided by operating activities	¥ 932.4	¥ 1,000.6	¥ 68.2	7.3%
Net cash used in investing activities	(701.9)	(703.6)	(1.6)	(0.2)
Net cash provided by (used in) financing activities	(261.0)	(269.8)	(8.8)	(3.4)
Free cash flows (1)	230.5	297.1	66.6	28.9
Free cash flows excluding the effects of irregular factors (2), the effect of transfer of receivables (3), and changes in investments for cash management purposes (4)*	225.6	257.2	31.6	14.0
Liabilities to cash flow ratio (5)	24.7%	23.0%	(1.7) point	
Interest coverage ratio (6)	558.4	634.1	75.7	

- Notes: (1) Free cash flows = Net cash provided by operating activities + Net cash used in investing activities
(2) Irregular factors = Effects of uncollected revenues due to bank closures at the end of the fiscal period
(3) Effect of transfer of receivables = Effect caused by the uncollected amounts of transferred receivables of telephone charges to NTT FINANCE CORPORATION
(4) Changes in investments for cash management purposes = Changes by purchases, redemption at maturity and disposals of financial instruments held for cash management purposes with original maturities of longer than three months
(5) Liabilities to cash flow ratio = Interest bearing liabilities / Net cash provided by operating activities (excluding irregular factors and effect of transfer of receivables)
(6) Interest coverage ratio = Net cash provided by operating activities (excluding irregular factors and effect of transfer of receivables) / Interest paid**

* See 5. (3) Reconciliations of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures on page 32.

** Interest paid is disclosed on Supplemental disclosures of cash flow information in 4. (4) Consolidated Statements of Cash Flows on page 26.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

(3) Profit Distribution

i. Basic Policies for Profit Distribution

Believing that providing adequate returns to shareholders is one of the most important issues in corporate management, we plan to pay dividends by taking into account our consolidated results and consolidated dividend payout ratio based on the principle of stable dividend payments, while striving to strengthen our financial position and secure internal reserves. We will also continue to take a flexible approach regarding share repurchases. We intend to keep the repurchased shares as treasury stock and in principle to limit the amount of such treasury stock to approximately 5% of our total issued shares, and will consider retiring any treasury stock held in excess of this limit in a lump around the end of the fiscal year or at other appropriate times.

In addition, we will allocate internal reserves to active research and development efforts, capital expenditures and other investments in response to the rapidly changing market environment. We will endeavor to boost our corporate value by introducing new technologies, offering new services and expanding our business fields through alliances with new partners.

ii. Dividend

We paid ¥3,000 per share as an interim dividend for the six months ended September 30, 2013 and plans to pay a year-end dividend of ¥30 per share.

Additionally, we conducted 1:100 stock split that took effect on October 1, 2013. If adjusted to reflect the number of shares prior to the stock split, the total annual dividend amount will be equivalent to ¥6,000 per share, consisting of an interim dividend of ¥3,000 and a year-end dividend of ¥3,000.

iii. Prospect for the next fiscal year

We expect to pay a total dividend of ¥60 per share for the year ending March 31, 2015, consisting of an interim dividend of ¥30 per share and a year-end dividend of ¥30 per share.

(4) Special Note Regarding Forward-Looking Statements

This earnings release contains forward-looking statements such as forecasts of results of operations, management strategies, objectives and plans, forecasts of operational data such as the expected number of subscription, and the expected dividend payments. All forward-looking statements that are not historical facts are based on management's current plans, expectations, assumptions and estimates based on the information currently available. Some of the projected numbers in this earnings release were derived using certain assumptions that are indispensable for making such projections in addition to historical facts. These forward-looking statements are subject to various known and unknown risks, uncertainties and other factors that could cause our actual results to differ materially from those contained in or suggested by any forward-looking statement. Potential risks and uncertainties include, without limitation, the following:

- (1) Changes in the market environment in the telecommunications industry, such as intensifying competition from other businesses or other technologies caused by Mobile Number Portability, development of appealing new handsets, new market entrants, mergers among other service providers and other factors, or the expansion of the areas of competition could limit the acquisition of new subscriptions and retention of existing subscriptions by our corporate group or may lead to ARPU diminishing at a greater than expected rate, an increase in our costs or an inability to reduce expenses as expected.
- (2) If current and new services, usage patterns, and sales schemes proposed and introduced by our corporate group cannot be developed as planned, or if unanticipated expenses arise the financial condition of our corporate group could be affected and our growth could be limited.
- (3) The introduction or change of various laws or regulations inside and outside of Japan, or the application of such laws and regulations to our corporate group could restrict our business operations, which may adversely affect our financial condition and results of operations.
- (4) Limitations in the amount of frequency spectrum or facilities made available to us could negatively affect our ability to maintain and improve our service quality and level of customer satisfaction and could increase our costs.
- (5) Other mobile service providers in the world may not adopt the technologies and the frequency bands that are compatible with those used by our corporate group's mobile communications system on a continuing basis, which could affect our ability to sufficiently offer international services.

- (6) Our domestic and international investments, alliances and collaborations, as well as investments in new business fields may not produce the returns or provide the opportunities we expect.
- (7) Malfunctions, defects or imperfection in our products and services or those of other parties may give rise to problems.
- (8) Social problems that could be caused by misuse or misunderstanding of our products and services may adversely affect our credibility or corporate image.
- (9) Inadequate handling of confidential business information including personal information by our corporate group, contractors and others may adversely affect our credibility or corporate image.
- (10) Owners of intellectual property rights that are essential for our business execution may not grant us a license or other use of such intellectual property rights, which may result in our inability to offer certain technologies, products and/or services, and our corporate group may also be held liable for damage compensation if we infringe the intellectual property rights of others. In addition, the illicit use by a third party of the intellectual property rights owned by our corporate group could reduce our license revenues actually obtained and may inhibit our competitive superiority.
- (11) Events and incidents caused by natural disasters, social infrastructure paralysis such as power shortages, proliferation of harmful substances, terror or other destructive acts, the malfunctioning of equipment, software bugs, deliberate incidents induced by computer viruses, cyber attacks, equipment misconfiguration, hacking, unauthorized access and other problems could cause failure in our networks, distribution channels and/or other factors necessary for the provision of service, disrupting our ability to offer services to our subscribers, and such incidents may adversely affect our credibility or corporate image or lead to a reduction of revenues and/or increase of costs.
- (12) Concerns about adverse health effects arising from wireless telecommunications may spread and consequently adversely affect our financial condition and results of operations.
- (13) Our parent company, NIPPON TELEGRAPH AND TELEPHONE CORPORATION (NTT), could exercise influence that may not be in the interests of our other shareholders.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

2. Condition of the Corporate Group

We primarily engage in mobile telecommunications services as a member of the NTT group, with NIPPON TELEGRAPH AND TELEPHONE CORPORATION (NTT) as the holding company.

NTT DOCOMO, INC. (the Company), its 194 subsidiaries and 35 affiliates constitute the NTT DOCOMO group (DOCOMO) and operate its business.

The segments of DOCOMO and the corporate position of each group company are as follows:

[Segment Information]

Business Segment	Main Business Areas
Mobile phone business	Cellular (Xi and FOMA) services, international services, satellite mobile communications services, and sales of handsets and equipment for each service, etc.
All other businesses	Credit services, home shopping services, music software sales, Internet access service for hotel facilities, mobile advertisement business, etc.

[Position of Each DOCOMO Company]

- (1) The Company engages in mobile phone and other businesses in Japan.
- (2) 25 subsidiaries of the Company, each of which is entrusted with certain services by the Company, operate independently to maximize their expertise and efficiency. These subsidiaries are entrusted with part of the services provided by, or give assistance to, the Company.
- (3) There are 169 other subsidiaries and 35 affiliates, including entities engaged in the research of overseas mobile communications markets and technologies and overseas units established for the purpose of global business expansion or new business deployment.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

The following chart summarizes the description above:

20

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2014****3. Management Policies****(1) Basic Management Policies**

Under the corporate philosophy of creating a new world of communications culture, we are expanding our core business centered on FOMA 3G and Xi LTE services, as well as developing more diverse mobile multimedia services both for daily life and business. We are also taking steps to maximize our corporate value to heighten the trust and value that shareholders and customers place in us.

(2) Target Management Indicators

As Japan's mobile telecommunications market continues to mature, our group regards EBITDA margin as an important management indicator from the perspective of profitability, to further enhance its management effectiveness. We also consider ROCE an important management indicator in terms of efficiency in its invested capital (NTT DOCOMO, INC. shareholders' equity + Interest bearing liabilities). The group will exert its utmost efforts to achieve EBITDA margin of at least 35% and ROCE of at least 20% and attempt to maximize its corporate value.

Notes:

$$\text{EBITDA margin} = \text{EBITDA} / \text{Operating revenues}$$
$$\text{EBITDA} = \text{Operating income} + \text{Depreciation and amortization} + \text{Losses on sale or disposal of property, plant and equipment}$$
$$\text{ROCE} = \text{Operating income} / (\text{NTT DOCOMO, INC. shareholders' equity} + \text{Interest bearing liabilities})$$

NTT DOCOMO, INC. shareholders' equity and interest bearing liabilities are the average of the amounts at the end of the current fiscal year and the previous fiscal year.

(3) Medium- and Long-Term Management Strategies

We developed our Medium-Term Vision 2015 "Shaping a Smart Life" to present the clear steps and initiatives to be implemented in the period between the fiscal year ended March 31, 2012 and the fiscal year ending March 31, 2016. For details concerning the Medium-Term Vision 2015, please see our earnings release for the fiscal year ended March 31, 2012 (announced on April 27, 2012). No changes have been made to the descriptions contained in said earnings release, which can be obtained via the following URL:

(NTT DOCOMO, INC. home page) <http://www.nttdocomo.co.jp/english/corporate/ir/index.html>

(4) Issues to be Addressed by the Group

We are making progress on improving competitiveness in the mobile phone business and accelerating initiatives in new business under the theme of Partner for a Smart Life .

In the fiscal year ended March 31, 2013, we enriched our dmarket portal that offers a wide variety of convenient content and pursued collaboration and alliances with external partners to provide new services in various sectors such as healthcare and learning. We also worked to strengthen our managerial foundation through structural reforms such as achieving greater reductions in costs and shifting management resources to new business fields in order to accelerate these initiatives.

In the fiscal year ending March 31, 2015, we will work to enhance our comprehensive strengths by further accelerating existing efforts, particularly in the four areas of devices (handsets) , networks , services , and billing pla and sales channels .

In Devices (handsets) , we will endeavor to expand the number of smartphone users and promote the use of a second devices, such as a handset plus a tablet, and will target further expansion of packet revenues.

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

In **Networks**, we will concentrate resources in LTE directed at building an area of greatest strength by use of Quad-Band LTE, and will work to increase LTE base stations by 40,000. We will launch VoLTE* this summer and offer high-quality voice calls. Furthermore, LTE-Advanced will also be made available for commercial use by the end of this fiscal year.

In **Services**, we will aim for the rapid achievement of 10 million subscriptions of dmarket that deliver content for a fixed monthly subscription fee, along with expansion in variety for dmarket and attractive market enhancements. We will also utilize the relationships we have built with overseas carriers up to this point to target the expansion of profit opportunities overseas through the expansion of initiatives in new business fields of the domestic market. We will strive to maximize the synergistic benefits of intra-group alliances and concentration of services through such initiatives and will work to achieve one trillion yen in revenues from new business fields during fiscal 2015.

In **Billing Plans and Sales Channels**, we will offer unlimited domestic voice calls for a flat monthly rate plan to simplify use for long-term users and customers aged 25 and under. In June 2014, we will launch a new billing plan called **Kake-hodai & Pake-aeru** (unlimited domestic voice calling to any destination including other mobile/fixed-line networks and packet data-quota sharing among family members or among multiple devices owned by a single user). We will polish up docomo Shops, call centers, and other channels that we take pride in and will endeavor to ensure proliferation of the new billing plan.

Through these initiatives, we will strive to expand base stations for smartphone users, improve the churn rate, and promote packet use during fiscal 2014. Moreover, we will endeavor to take the lead in the differentiation of services and expansion of revenues and profits in new business fields, while putting the mobile phone business on a new path of growth.

We will strengthen our management foundation through the structural reform. We will further improve customer service by restructuring the group in July 2014, and by putting a locally-based structure into place in the form of specialist groups. At the same time, we will work to improve the efficiency of business operations and speed up decision-making. We will also achieve major cost savings through proper control of **Monthly Support**, sales and network expenses, and other costs.

We are working to ensure that we will be a **Partner for a Smart Life** that customers will choose, continue to use, and remain with long into the future.

Considering shareholder returns as one of the most important issues in our corporate management, we will strive to continue stable dividend payments while taking into consideration our consolidated financial results and consolidated dividend payout ratio.

*: An abbreviation for **Voice over LTE**. This is a voice IP service which leverages LTE technology.

* Names of companies, products, etc., contained in this release are the trademarks or registered trademarks of their respective organizations.

The impacts on Other income (expense), Income before income taxes and equity in net income (losses) of affiliates, Income taxes, Equity in net income (losses) of affiliates, Net income and Net income attributable to NTT DOCOMO, INC. in the consolidated statement of income for the fiscal year ended March 31, 2013 were ¥(8,316) million, ¥(8,316) million, ¥(2,569) million, ¥1,140 million, ¥(4,607) million and ¥(4,607) million, respectively.

The impact on Basic and Diluted earnings per share attributable to NTT DOCOMO, INC. for the fiscal year ended March 31, 2013 was ¥(1.11).

The impacts on Unrealized holding gains (losses) on available-for-sale securities, net of applicable taxes, Unrealized gains (losses) on cash flow hedges, net of applicable taxes, Foreign currency translation adjustment, net of applicable taxes, Pension liability adjustment, net of applicable taxes, Total other comprehensive income (loss) Comprehensive income and Comprehensive income attributable to NTT DOCOMO, INC. in the consolidated statements of comprehensive income were ¥(48,825) million, ¥(14) million, ¥(4,928) million, ¥(726) million, ¥(54,493) million, ¥(59,100) million and ¥(59,100) million, respectively.

Equity in net losses of affiliates

Equity in net income (losses) of affiliates for the fiscal year ended March 31, 2014, includes the impairment charges of ¥51,244 million, recognized on Tata Teleservices Limited (TTSL) in India.

v. Subsequent Event**Decision to exercise option for sale of stake in TTSL**

On April 25, 2014, DOCOMO's board of directors resolved to exercise option for the sale of DOCOMO's entire stake (1,248,974,378 shares, or about 26.5% of outstanding shares) in TTSL, a DOCOMO-affiliated company accounted for by the equity method, as soon as the conditions for such exercise are met.

DOCOMO, TTSL and Tata Sons Limited, Tata Group's holding company, concluded a shareholder agreement when DOCOMO entered into a business alliance with TTSL in March 2009. Under the agreement, DOCOMO holds the right to require that its TTSL shares be acquired for 50% of the acquisition price, which amounts to 72,500 million Indian rupees (or ¥125,400 million*) or a fair market price, whichever is higher, in the event that TTSL fails to achieve certain specified performance targets (the above-mentioned option).

Table of Contents

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

In the event that TTSL fails to achieve these performance targets by the end of the fiscal year ended March 31, 2014, DOCOMO plans to exercise the above-mentioned right in or before June 2014. DOCOMO expects to sell its TTSL shares in accordance with the agreement. It is uncertain how the option will be performed, however, and DOCOMO is not able to predict how events will unfold. An estimate of this financial effect cannot be made due to these uncertainties. DOCOMO may recognize gain or loss upon disposition of TTSL shares or if the transaction as described above will not be carried out.

* 1 rupee = ¥1.73 as of March 31, 2014

Resolution of share repurchase up to prescribed maximum limit

On April 25, 2014, the board of directors resolved that DOCOMO may repurchase up to 320 million outstanding shares of its common stock at an amount in total not exceeding ¥500,000 million during the period from April 26, 2014 through March 31, 2015.

DOCOMO Earnings Release

Fiscal Year Ended March 31, 2014

(2) Definition and Calculation Methods of ARPU and MOU

i. Definition of ARPU and MOU

a. ARPU (Average monthly Revenue Per Unit):

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per subscription basis. ARPU is calculated by dividing various revenue items included in operating revenues from our mobile communications services and a part of other operating revenues by the number of active subscriptions to our wireless services in the relevant periods. We believe that our ARPU figures provide useful information to analyze the average usage per subscription and the impacts of changes in our billing arrangements. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations.

b. MOU (Minutes of Use): Average monthly communication time per subscription.

ii. ARPU Calculation Methods

Aggregate ARPU = Voice ARPU + Packet ARPU + Smart ARPU

- Voice ARPU : Voice ARPU Related Revenues (basic monthly charges, voice communication charges) / No. of active subscriptions
- Packet ARPU : Packet ARPU Related Revenues (basic monthly charges, packet communication charges) / No. of active subscriptions
- Smart ARPU : A part of other operating revenues (revenues from content, collection of charges, mobile phone insurance service, advertising and others) / No. of active subscriptions

iii. Active Subscriptions Calculation Methods

Sum of No. of active subscriptions for each month ((No. of subscriptions at the end of previous month + No. of subscriptions at the end of current month) / 2) during the relevant period

Note: Subscriptions and revenues for communication module services, Phone Number Storage, Mail Address Storage and docomo Business Transceiver are not included in the ARPU and MOU calculations.

Table of Contents**DOCOMO Earnings Release****Fiscal Year Ended March 31, 2014****(3) Reconciliations of the Disclosed Non-GAAP Financial Measures to the Most Directly Comparable GAAP Financial Measures**

The reconciliations for the year ending March 31, 2015 (Forecasts) are provided to the extent available without unreasonable efforts.

i. EBITDA and EBITDA margin

	Billions of yen		
	Year ending March 31, 2015 (Forecasts)	Year ended March 31, 2013	Year ended March 31, 2014
a. EBITDA	¥1,499.0	¥ 1,569.3	¥ 1,572.2
Depreciation and amortization	(715.0)	(700.2)	(718.7)
Loss on sale or disposal of property, plant and equipment	(34.0)	(31.9)	(34.3)
Operating income	750.0	837.2	819.2
Other income (expense)	8.0	(3.8)	13.9
Income taxes	(270.0)	(323.1)	(308.0)
Equity in net income (losses) of affiliates	(7.0)	(29.6)	(69.1)
Less: Net (income) loss attributable to noncontrolling interests	(1.0)	10.3	8.8
b. Net income attributable to NTT DOCOMO, INC.	480.0	491.0	464.7
c. Operating revenues	4,590.0	4,470.1	4,461.2
EBITDA margin (=a/c)	32.7%	35.1%	35.2%
Net income margin (=b/c)	10.5%	11.0%	10.4%

Notes: EBITDA and EBITDA margin, as we use them, are different from EBITDA as used in Item 10(e) of regulation S-K and may not be comparable to similarly titled measures used by other companies.

Year ended March 31, 2013 have been revised due to the reinstatement of equity method for an investee.

ii. ROCE after tax effect

	Billions of yen		
	Year ending March 31, 2015 (Forecasts)	Year ended March 31, 2013	Year ended March 31, 2014
a. Operating income	¥ 750.0	¥ 837.2	¥ 819.2
b. Operating income after tax effect {=a*(1-effective tax rate)}	481.5	518.2	507.1
c. Capital employed	5,740.2	5,470.7	5,748.0
ROCE before tax effect (=a/c)	13.1%	15.3%	14.3%
ROCE after tax effect (=b/c)	8.4%	9.5%	8.8%

Notes: Capital employed = Two period ends average of (NTT DOCOMO, INC. shareholders equity + Interest bearing liabilities)

NTT DOCOMO, INC. shareholders equity for the fiscal year ending March 31, 2015 is based on the assumption that DOCOMO will repurchase up to 320 million shares for up to 500,000 million yen, as resolved at the board of directors meeting held on April 25, 2014.

Interest bearing liabilities = Current portion of long-term debt + Short-term borrowings + Long-term debt

The effective tax rate for the year ended March 31, 2013 and 2014 were 38.1%.

The effective tax rate for the year ending March 31, 2015 (Forecasts) is 35.8%.

Year ended March 31, 2013 have been revised due to the reinstatement of equity method for an investee.

iii. Free cash flows excluding irregular factors and effect by transfer of receivables and changes in investments for cash management purposes

	Billions of yen		
	Year ending March 31, 2015 (Forecasts)	Year ended March 31, 2013	Year ended March 31, 2014
Free cash flows excluding irregular factors and effect by transfer of receivables and changes in investments for cash management purposes	¥ 280.0	¥ 225.6	¥ 257.2
Irregular factors (1)		147.0	
Effect of transfer of receivables (2)		(242.0)	
Changes in investments for cash management purposes (3)		99.9	39.9
Free cash flows	280.0	230.5	297.1

Edgar Filing: NTT DOCOMO INC - Form 6-K

Net cash used in investing activities	(690.0)	(701.9)	(703.6)
Net cash provided by operating activities	970.0	932.4	1,000.6

- Notes: (1) Irregular factors represent the effects of uncollected revenues due to a bank closure at the end of the fiscal period.
- (2) Effect of transfer of receivables represents the effect caused by the uncollected amounts of transferred receivables of telephone charges to NTT FINANCE CORPORATION. Net cash provided by operating activities includes the effect caused by the uncollected amounts of transferred receivables of telephone charges to NTT FINANCE CORPORATION for cash management purposes except for the year ended March 31, 2013.
- (3) Changes in investments for cash management purposes were derived from purchases, redemption at maturity and disposals of financial instruments held for cash management purposes with original maturities of longer than three months. Net cash used in investing activities includes changes in investments for cash management purposes for the year ended March 31, 2013 and 2014. The effect of changes in investments for cash management purposes is not taken into account when we forecasted net cash used in investing activities for the year ending March 31, 2015 due to the difficulties in forecasting such effect.

iv. Market equity ratio

	Billions of yen		
	Year ending	Year ended	Year ended
	March 31, 2015 (Forecasts)	March 31, 2013	March 31, 2014
a. NTT DOCOMO, INC. shareholders equity	¥	5,368.5	¥ 5,643.4
b. Market value of total share capital		5,892.5	6,750.9
c. Total assets		7,169.7	7,508.0
Shareholders equity ratio (=a/c)		74.9%	75.2%
Market equity ratio (=b/c)		82.2%	89.9%

Notes: Market value of total share capital = Closing share price multiplied by the number of outstanding shares (excluding treasury stock) as of the end of the fiscal period Year ended March 31,2013 have been revised due to the reinstatement of equity method for an investee.

Market equity ratio for the year ending March 31, 2015 is not forecasted because it is difficult to estimate the market value of total share capital in the future.
