Disclaimer

Non-GAAP Financial Measures

This presentation may include certain non-GAAP measures intended to supplement, not substitute for, comparable GAAP measures found in the Appendix of this presentation. Numbers in this presentation may not sum due to rounding.

Forward-Looking Statements

This presentation may include forward-looking statements within the meaning of the federal securities laws, including the Private Securities

statements by the use of forward-looking terminology such as believes, expects, could, may, might, will, shall or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends or forward-looking statements by discussions of strategy, plans or intentions. In particular, statements pertaining to our capital resources, plans and intentions. Forward-looking statements involve numerous risks and uncertainties and you should not rely on them as predictions of future results. They may be incorrect or imprecise and we may not be able to realize them. Neither we nor CBS Corporation ("CBS") guarantee that they will happen at all). The following factors, among others, could cause actual results and future events to differ materially from those stated or implied and general economic conditions; competition; government regulation; our inability to increase the number of digital advertising spots; our inability to obtain and renew key municipal concessions on favorable terms; decreased government compensation for the removal of lawful permanent residents; health and safety laws and regulations; seasonal variations; future acquisitions and other strategic transactions; time and resource constraints; charges in connection with the separation and incremental costs as a stand-alone public company; dependence on our management; our ability to issue additional shares of stock without stockholder approval; certain provisions of Maryland law may limit the ability of our directors to take action against our directors and officers are limited; we may not realize the expected benefits from the separation of our business; our financial condition; the terms of the credit agreement and the indenture governing our debt restrict our current and future operations; our initiatives in response to changes in our business, the industries in which we operate, the economy and governmental regulation; our indebtedness; hedging transactions; establishing an operating partnership; asset impairment charges for goodwill; diverse risks associated with our use of the CBS mark and logo; our current financial information may not be a reliable indicator of our future results; cash availability; our investments in real estate investment trusts ("REITs"), including positions taken by the IRS; our failure to qualify, or remain qualified, to be taxed as a REIT; the reduced tax rates available for some dividends; REIT distribution requirements; availability of external sources of capital; our REIT requirements may cause us to liquidate investments or forgo otherwise attractive opportunities; our ability to contribute certain assets to a REIT; our ability to fail to qualify to be taxed as a REIT; our ability to hedge effectively; paying the cash portion of the earnings and profits as a REIT; cash; failure to meet the REIT income tests as a result of receiving non-qualifying rental income; even if we qualify to be taxed as a REIT, we may recognize gains in the assets held before electing to be treated as a REIT; the IRS may deem the gains from sales of our outdoor advertising assets as operating history as a REIT; a substantial amount of our common stock will enter the market as a result of the exchange offer and our common stock will fluctuate and the final per-share values used in determining the exchange ratio may not be indicative of the value of our stock at a reduced discount or may not receive any discount in the exchange offer; participating CBS stockholders will experience a split-off of fractional shares of our common stock, if any) for shares of CBS Class B common stock that are accepted in the exchange offer; the exchange offer; if the split-off, including the exchange offer, together with certain related transactions, does not qualify as a transaction for tax purposes, CBS stockholders could be subject to significant tax liabilities and, in certain circumstances, we could be required to indemnify our stockholders; matters agreement; we may not be able to engage in desirable strategic or capital-raising transactions following the split-off, and we may not be able to engage in significant strategic or capital-raising transactions; if the exchange offer is not fully subscribed, CBS may continue to control our operations; other factors described in our filings with the Securities and Exchange Commission (the "SEC"), including but not limited to those described in the SEC on June 11, 2014. All forward-looking statements in this presentation apply as of the date of this presentation or as of the date of any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or facts.

Additional Information

CBS Outdoor has filed a Registration Statement on Form S-4 (File No. 333-196652) with the SEC. The terms and conditions of the exchange offer are described in the Schedule TO filed by CBS Corporation with the SEC. The prospectus, which is included in the Registration Statement on Form S-4, describes the separation and related matters. CBS Corporation has delivered the prospectus to its stockholders. **INVESTORS AND SECURITY HOLDERS SHOULD READ THE PROSPECTUS AND ANY OTHER RELEVANT DOCUMENTS FILED WITH THE SEC BY CBS CORPORATION AND CBS OUTDOOR MEDIA GROUP.** CBS Outdoor or their respective directors or officers or any dealer manager appointed with respect to the exchange offer make no representation or warranty as to the accuracy or completeness of this presentation. This presentation is for informational purposes only and is neither an offer to sell nor an offer to buy any securities, nor is it a recommendation made solely by means of the prospectus. Investors may obtain a free copy of the prospectus and other related documents filed with the SEC and those documents may also be obtained for free, as applicable, from CBS at www.cbscorporation.com or CBS Outdoor at www.cbsoutdoor.com.

Non-GAAP Reconciliations

Non-GAAP Financial Measures

In addition to the results prepared in accordance with generally accepted accounting principles in the United States (GAAP) accompanying tables include non-GAAP measures as described below. We calculate revenues on a constant dollar basis as re exchange rates between periods. We provide constant dollar revenues to understand the underlying growth rate of revenue excl between periods, which are not under management s direct control. Our management believes constant dollar revenues are use

level of growth of our business period to period. We calculate Adjusted OIBDA as operating income before depreciation, amortization and restructuring charges. We calculate Adjusted OIBDA margin by dividing Adjusted OIBDA by total revenues. Our operating performance. Adjusted OIBDA and Adjusted OIBDA margin are among the primary measures we use for managing our business as each is an important indicator of our operational strength and business performance. Our management believes users are best served if the information that is made available to them allows them to align their analysis and evaluation of our operating results along the same lines that our management uses in managing our business. Our management also believes that the presentations of Adjusted OIBDA and Adjusted OIBDA margin, as supplemental measures, provide users with an important perspective on our operating performance and also make it easier to compare our results to other companies. Our management believes that these supplemental measures provide users with an important perspective on our operating performance and also make it easier to compare our results to other companies that have different financing and capital structures or tax rates. We calculate FFO in accordance with the definition of FFO for Real Estate Investment Trusts ("NAREIT"). FFO reflects net income adjusted to exclude gains and losses from the sale of real estate assets, the amortization of direct lease acquisition costs, as well as the same adjustments for our equity based investments, as applicable. We calculate FFO by adding back direct lease acquisition costs as such costs are generally amortized over a period ranging from four weeks to one year and therefore not expensed when paid for maintenance capital expenditures since these are routine uses of cash that are necessary for our operations. In addition, we adjust FFO for real estate depreciation and amortization, deferred income taxes, stock-based compensation expense, accretion expense, the noncash portion of debt financing costs. We believe that adjusting for these items provides a better measure of our operating performance. We use FFO for management planning and forecasting future periods, and each is an important indicator of our operational strength and business performance. Our management believes users are best served if the information that is made available to them allows them to align their analysis and evaluation of our operating performance with the information that our management uses in managing, planning and executing our business strategy. Our management also believes that the presentations of Adjusted OIBDA, Adjusted OIBDA margin, FFO, AFFO, and net income per average share, as supplemental measures, are useful in evaluating our business because adjusting results to reflect items that have been excluded highlights trends in our business that may not otherwise be apparent when relying solely on GAAP financial measures. It is our management's belief that these presentations provide users with an important perspective on our operating performance and also make it easier to compare our results to other companies. We calculate Adjusted Weighted Average Shares on an adjusted basis of 120,000,000 shares to give effect to 23,000,000 shares issued on April 2, 2014 and the shares outstanding as of March 31, 2014, for basic and diluted earnings per share ("EPS"). We also present FFO, AFFO and net income per share. Our management believes that these presentations are useful in evaluating our business because they allow users to evaluate our per share results on a comparable basis to the stock in connection with our initial public offering, which increased our outstanding shares of common stock. We calculate operating income per related per adjusted weighted average share amounts, for the three months ended March 31, 2013, on a comparable basis by adjusting for interest expense incurred in the first quarter of 2013 on the disposition of most of our billboards in Salt Lake City in exchange for billboards in Salt Lake City associated with operating as a stand-alone public company incurred in the first quarter of 2014 and \$12.4 million of interest expense incurred in the first quarter of 2014 on the issuance of our senior notes, which were also incurred in the first quarter of 2014. Our management believes these adjusted weighted average share amounts they allow users to compare our operating performance for the first quarter of 2013 against the operating performance of the first quarter of 2013 as a result of our separation from CBS. Since adjusted weighted average shares, Adjusted OIBDA, Adjusted OIBDA margin, FFO, AFFO, and constant dollar revenues and, on a comparable basis for 2013, operating income, net income, Adjusted OIBDA, FFO and AFFO are not measures calculated in accordance with GAAP, they should not be considered in isolation of, or as a substitute for, weighted average shares, operating income, net income and revenues, and the related weighted average per share amounts, the most directly comparable measures of our operating performance. These measures, as we calculate them, may not be comparable to similarly titled measures employed by other companies. These measures represent funds available for discretionary use and are not necessarily a measure of our ability to fund our cash needs.

About CBS Outdoor Americas Inc.

CBS Outdoor Americas Inc. (NYSE: CBSO) is one of the largest lessors of advertising space on out-of-home advertising structures and sites across the U.S., Canada and Latin America. Our portfolio primarily consists of billboard displays, which are predominantly located in densely populated major metropolitan areas and along high-traffic expressways and major commuting routes. In addition, we have a number of exclusive multi-year contracts that allow us to operate advertising displays in municipal transit systems where our customers are able to reach millions of commuters on a daily basis. We have displays in all of the 25 largest markets in the U.S. and over 180 markets in the U.S., Canada and Latin America, including in some of the most heavily trafficked locations, such as the Bay Bridge in San Francisco, Sunset Boulevard in Los Angeles and Grand Central Station and Times Square in New York City.
