MATERIAL FACT

Oi S.A. (Oi or Company , Bovespa: OIBR3, OIBR4; NYSE: OIBR and OIBR.C), pursuant to art. 157, § 4 of Law No. 6,404/76 and CVM Instruction No. 358/02, informs its shareholders and the market in general that it will not participate in the 700MHz spectrum auction which will be held on September 30, 2014.

Oi already possesses a diversified spectrum portfolio to meet the growing demand for mobile data, which allows it to provide competitive voice and data services, in addition to extensive wi-fi and fixed line networks, which ensures an extensive reach of the Company s operations in Brazil. In terms of 4G services, Oi has the 2.5GHz spectrum to serve its clients and meet its coverage obligations through 2017, and it may use 1.8GHz spectrum in the future.

Therefore, and after taking into account that the auctioned spectrum rights may only be fully utilized in 2019, the Company decided to maintain its strategy of investing in network structuring projects that meet its objectives of improving the quality of services and customer satisfaction in fixed and mobile access, as well as to make further investments to extend the coverage and capacity of its mobile network and to expand broadband and pay TV services, under a national multiproduct and convergence strategy.
