2. Basis of Preparation of the Unaudited Interim Condensed Consolidated Financial Statements and Changes in Significant Accounting Policies and Practices

a) Basis of preparation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in conformity with the International Accounting Standard No. 34, *Interim Financial Reporting* (IAS 34), and using the same accounting policies applied in preparing the annual financial statements, except as explained below.

The unaudited interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Company's audited annual consolidated financial statements as of December 31, 2012 and 2013, and for the three year period ended December 31, 2013 as included in the Company's Annual Report on Form 20-F for the year ended December 31, 2013 (the 2013 Form 20-F).

The preparation of these unaudited interim condensed consolidated financial statements in accordance with IAS 34 requires the use of critical estimates and assumptions that affect the amounts reported for certain assets and liabilities, as well as certain income and expenses. It also requires that management exercise judgment in the application of the Company's accounting policies.

The Mexican peso is the functional and reporting currency of the Parent Company in Mexico and the ones used in these unaudited interim condensed consolidated financial statements.

c) New standards, interpretations and amendments thereof

The accounting policies adopted in the preparation of the unaudited interim condensed consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended December 31, 2013, except for the standards/interpretations which became effective on January 1, 2014. The nature and the impact of each new standard/amendment are described below.

The Company has not early adopted any other IFRS interpretation or amendment that has been issued but is not yet effective.

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

IFRS 9, Financial Instruments

IFRS 9, as issued, reflects the first phase of the IASB's work on the replacement of IAS 39 and applies to classification and measurement of financial assets and financial liabilities as defined in IAS 39. The standard was initially effective for annual periods beginning on or after January 1, 2013, but Amendments to IFRS 9 Mandatory Effective Date of IFRS 9 and Transition Disclosures, issued in December 2011, moved the mandatory effective date to January 1, 2015. In subsequent phases, the IASB is addressing hedge accounting and impairment of financial assets. The adoption of the first phase of IFRS 9 will have an effect on the Classification and measurement of the Company's financial assets, but will not have an impact on classification and measurements of the Company's financial liabilities. The Company is in the process of analyzing the effect that the other phases of final standard will have in its financial statements.

IAS 32, Offsetting Financial Assets and Financial Liabilities – Amendments to IAS 32

These amendments clarify the meaning of "currently has a legally enforceable right to set-off" and the criteria for non-simultaneous settlement mechanisms of clearing houses to qualify for offsetting. These are effective for annual periods beginning on or after January 1, 2014. The Company has concluded that the impact of this amendment did not have an impact in its unaudited interim condensed consolidated financial statements.

IFRIC Interpretation 21, Levies (IFRIC 21)

IFRIC 21 clarifies that an entity recognizes a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be anticipated before the specified minimum threshold is reached. IFRIC 21 is effective for annual periods beginning on or after January 1, 2014. The Company has concluded that this interpretation did not have an impact in its unaudited interim condensed consolidated interim financial statements.

IAS 39 Novation of Derivatives and Continuation of Hedge Accounting – Amendments to IAS 39

These amendments provide relief from discontinuing hedge accounting when novation of a derivative designated as a hedging instrument meets certain criteria. These amendments are effective for annual periods beginning on or after January 1, 2014. The Company has not novated its derivatives during 2013 or 2014, as such, this amendment had no impact in its condensed consolidated financial statements.

Table of Contents

IFRS 15, *Revenue from Contracts with Customers*

On May, 2014, the IASB issued the IFRS 15 *Revenue from Contracts with Customers*, a new revenue recognition standard that will supersede virtually all revenue recognition guidance existing in IAS 18 *Revenue*. The new standard provides accounting guidance for all revenue arising from contracts with customers and affects all entities that enter into contracts to provide goods or services to their customers. The guidance also provides a model for the measurement and recognition of gains and losses on the sale of certain nonfinancial assets, such as property and equipment, including real estate. This standard is effective for periods beginning on January 1, 2017 with retrospective application. Two methods are available for entities to choose from (i) a full retrospective approach or (ii) a modified retrospective approach. Public companies that choose to adopt on a full retrospective basis will need to apply the standard to amounts they report for 2015 and 2016 on the face of their 2017 financial statements. Under the modified retrospective approach, in the year of adoption, entities will be required to disclose the amount that each financial statement line item was affected by as a result of applying the new standard and an explanation of significant changes. Under the modified retrospective approach, entities are not required to restate prior periods.

The Company is in the process of evaluating the impact that this new standard will have in its consolidated financial statements and its disclosures as well as the method that it will use for retrospective application.

IAS 36 Recoverable Amount Disclosures for Non-Financial Assets *Amendments to IAS 36*
