**Nomura Reports Fourth Quarter and Full Year Financial Results**

Full-year net income highest in nine years, quarterly net income at two-year high

Retail client assets at record high of 109.5 trillion yen, net assets under management also climbed to record of 39.3 trillion yen

Wholesale reported stronger full-year revenues, while quarterly revenues were up across all business lines

Full-year earnings per share of 60.03 yen and return on equity of 8.6 percent

**Tokyo, April 30, 2015** Nomura Holdings, Inc. today announced its consolidated financial results for the fourth quarter and full year ended March 2015.

For the full year period, net revenue was 1,604.2 billion yen (US\$13.4 billion)<sup>1</sup>, representing an increase of 3 percent year on year. Income before income taxes decreased by 4 percent from the prior year to 346.8 billion yen (US\$2.9 billion) and net income attributable to Nomura Holdings shareholders increased by 5 percent to 224.8 billion yen (US\$1.9 billion).

Fourth quarter net revenue was 434.5 billion yen (US\$3.6 billion), increasing 2 percent quarter on quarter and 11 percent year on year.

Income before income taxes from the three business segments increased 68 percent quarter on quarter and 63 percent year on year to 101.4 billion yen (US\$845 million) on the back of a significant improvement in Wholesale profitability. Group-wide income before income taxes declined 10 percent from last quarter and increased 19 percent from the same period last year to 105 billion yen (US\$875 million). The quarterly decline was due to factors not included in the three business segments such as losses related to changes to Nomura's credit spread, a decline in earnings of affiliates, and lower unrealized gains on securities.

Net income increased to 82 billion yen (US\$684 million), the highest level in two years driven by improved profitability in the firm's international business.

Commenting on the results, Nomura's Group CEO, Koji Nagai, said: "We reported another solid set of full year results, booking the highest level of net income in nine years. Earnings per share was 60 yen, beating our 50 yen target for the second consecutive year."

Retail client assets grew to 109.5 trillion yen and we achieved our annualized recurring revenue target one year ahead of schedule, underscoring progress in transforming our Retail business model. Asset Management reported higher revenues and pretax income as assets under management climbed to a record high on continued inflows. Although

Wholesale slowed due to challenging market conditions, high-profile transactions and strong performance in Asia ex-Japan contributed to earnings.

**Fourth Quarter Divisional Performance****Retail**

	<b>FY2014/15</b>		
	<b>Q4</b>	<b>QoQ</b>	<b>YoY</b>
<b>Net revenue</b>	Y122.9bn	-5%	+26%
<b>Income before income taxes</b>	Y40.9bn	-19%	+76%

Retail reported net revenue of 122.9 billion yen, down 5 percent quarter on quarter, but up 26 percent year on year. Income before income taxes declined by 19 percent from last quarter and increased 76 percent compared to the same quarter last year to 40.9 billion yen.

The sequential declines are largely attributable to a rise in expenses due to factors such as a charge on the decommissioning of IT systems as well as softer performance in primary transactions and stock sales compared the strong third quarter. Sales of investment trust products investing in global high dividend stocks and global bonds remained robust.

Nomura continued to gain traction in transforming its business model. Retail client assets reached a record high of 109.5 trillion yen, supported by favorable market conditions. Annualized recurring revenue grew to 72 billion yen, beating the March 2016 target of 69.6 billion yen one year ahead of schedule.

**Asset Management**

	<b>FY2014/15</b>		
	<b>Q4</b>	<b>QoQ</b>	<b>YoY</b>
<b>Net revenue</b>	Y23.9bn	+2%	+17%
<b>Income before income taxes</b>	Y6.7bn	-29%	+25%

Asset Management booked net revenue of 23.9 billion yen, up 2 percent quarter on quarter and up 17 percent year on year. Income before income taxes declined 29 percent from the previous quarter and increased 25 percent compared to the same period last year to 6.7 billion yen.

The quarterly gain in revenue comes despite the absence of dividend income booked last quarter, while the decline in income before income taxes is the result of one-off expenses such as an FX loss on an international investment and a charge on the decommissioning of IT systems.

Spurred on by favorable market conditions, the investment trust business saw ongoing inflows into funds targeting income gains and funds for discretionary investments. Net assets under management grew by 28 percent over the past year to a record 39.3 trillion yen at the end of March.

The investment advisory business won a mandate from a Japanese public pension fund for actively managing Japanese stocks, while the international business continued to grow through UCITS<sup>2</sup> funds.

**Wholesale**

	FY2013/14		
	Q4	QoQ	YoY
<b>Net revenue</b>	Y231.5bn	+29%	+17%
<b>Income before income taxes</b>	Y53.8bn	119x	+61%

Wholesale reported fourth quarter net revenue of 231.5 billion yen, up 29 percent quarter on quarter and 17 percent year on year. Income before income taxes jumped up 119 times from the previous quarter, and increased by 61 percent compared to the same period last year to 53.8 billion yen.

Global Markets continued to manage risk while capitalizing on market opportunities to report a rebound in Fixed Income revenues in EMEA and the Americas. AEJ revenues remained solid, although down from the third quarter.

The rebound in Fixed Income revenues centered on the Rates and Credit businesses in EMEA and the Americas, while FX had a robust quarter globally. In Equities, a market rally led to a strong performance in the EMEA Cash business. Japan and the Americas reported an improvement in the Derivatives business.

Investment Banking reported revenue growth in the international business, driven by the Americas. Quarterly gross revenue was the strongest since December 2010. Japan revenues were roughly unchanged from last quarter as Nomura won a number of high-profile mandates. Revenues from the Solutions business grew on the back of developing new products tailored to client needs.

Internationally, Investment Banking reported higher revenues on contributions from multi-product M&A deals, the Solutions business, and the firm's financial sponsor and financial institution related businesses. EMEA and the Americas were the main drivers of revenues with the Americas reporting its best quarterly revenues since the start of the business build out in 2010.

**Financial Position**

Nomura maintains a robust financial position and a healthy balance sheet. As of the end of March, Nomura's total capital ratio was 14.8 percent and its Tier 1 ratio was 12.9 percent under Basel 3. Nomura had total assets of 41.8 trillion yen and shareholders' equity of 2.7 trillion yen. Gross leverage was 15.4 times and net leverage was 9.3 times. All figures are on a preliminary basis.

**2. Dividend policy**

Nomura believes that raising corporate value over the long term and paying dividends is essential to rewarding shareholders.

Nomura will strive to pay dividends using a consolidated pay-out ratio of 30 percent of each semi-annual consolidated earnings as a key indicator.

Dividend payments will be determined taking into account a comprehensive range of factors such as the tightening of Basel regulations and other changes to the regulatory environment as well as the company's consolidated financial performance.

Dividends will in principle be paid on a semi-annual basis with record dates of September 30 and March 31.
