NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. The Company and Basis of Presentation

Nature of Operations

Sohu.com Inc. (NASDAQ: SOHU), a Delaware corporation organized in 1996, is a leading Chinese online media, search and game service group providing comprehensive online products and services on PCs and mobile devices in the People's Republic of China (the PRC or China). Sohu.com Inc.'s businesses are conducted by Sohu.com Inc. and its subsidiaries and VIEs (collectively referred to as the Sohu Group or the Group). The Sohu Group consists of Sohu, which when referred to in this report, unless the context requires otherwise, excludes the businesses and the corresponding subsidiaries and VIEs of Sogou Inc. (Sogou) and Changyou.com Limited (Changyou), Sogou and Changyou. Sogou and Changyou are indirect controlled subsidiaries of Sohu.com Inc. Sohu is a leading Chinese language online media content and services provider. Sogou is a leading online search, client software and mobile Internet product provider in China. Changyou is a leading online game developer and operator in China as measured by the popularity of its PC game TLBB and its mobile game TLBB 3D, and engages primarily in the development, operation and licensing of online games for PCs and mobile devices. Most of the Group's operations are conducted through the Group's indirect wholly-owned and majority-owned China-based subsidiaries and VIEs.

Through the operation of Sohu, Sogou and Changyou, the Sohu Group generates online advertising revenues (including brand advertising revenues and search and Web directory revenues), online games revenues and others revenues. Online advertising and online games are the Group's core businesses. For the three months ended June 30, 2015, total revenues generated by Sohu, Sogou and Changyou were approximately \$493.6 million.

Sohu's Business

Brand Advertising Business

Sohu's main business is the brand advertising business, which offers to users, over Sohu's matrices of Chinese language online media, various content, products and services across multiple Internet-enabled devices such as PCs, mobile phones and tablets. The majority of Sohu's products and services are provided through Sohu Media Portal, Sohu Video and Focus.

Sohu Media Portal. Sohu Media Portal provides users comprehensive online content, including news, entertainment, sports, automobile, business and finance, through www.sohu.com for PCs, the mobile portal m.sohu.com and the mobile phone application Sohu News APP.

Sohu Video. Sohu Video is a leading online video service provider in China through tv.sohu.com for PCs and the mobile phone application Sohu Video APP; and

Focus. Focus (www.focus.cn) is a leading online real estate information provider in China. Revenues generated by the brand advertising business are classified as brand advertising revenues in the Sohu Group's consolidated statements of comprehensive income.

Others Business

Sohu also engages in the others business, which includes mobile-related services and mobile products offered in cooperation with China mobile network operators to mobile phone users and to China mobile network operators, and sub-licensing of purchased video content to third parties. Revenues generated by Sohu from the others business are classified as others revenues in the Sohu Group's consolidated statements of comprehensive income.

Sogou's Business

Search and Web Directory Business

The search and Web directory business primarily offers advertisers pay-for-click services, as well as online marketing services on Web directories operated by Sogou. Pay-for-click services enable advertisers' promotional links to be displayed on the Sogou search result pages and Sogou Website Alliance members' Websites where the links are relevant to the subject and content of such Web pages. Both pay-for-click services and online marketing services on Web directories operated by Sogou expand distribution of our advertisers' Website links and advertisements by leveraging traffic on Sogou Website Alliance members' Websites. The search and Web directory business benefits significantly from Sogou's collaboration with Tencent Holdings Limited (together with its subsidiaries, Tencent), which provides Sogou access to traffic generated from users of products and services provided by Tencent.

Table of Contents

Revenues generated by the search and Web directory business are classified as search and Web directory revenues in the Sohu Group's consolidated statements of comprehensive income.

Others Business

Sogou also engages in the others business by primarily offering Internet value-added services (IVAS) with respect to the operation of Web games and mobile games developed by third parties as well as other services and products provided to users. Revenues generated by Sogou from the others business are classified as others revenues in the Sohu Group's consolidated statements of comprehensive income.

Changyou's Business

Changyou has three businesses, consisting of the online game business, the platform channel business and the others business.

Online Game Business

Changyou's online game business offers to game players PC games which are online games designed primarily for playing on PCs; mobile games, which are played on mobile devices with an Internet connection; and Web games, which are online games played over the Internet using a Web browser. Changyou's PC games and mobile games are mainly MMOGs, which are interactive online games that may be played simultaneously by hundreds of thousands of game players. All of Changyou's games are operated under the item-based revenue model, where game players play the games for free but can purchase virtual items to enhance the game-playing experience. Revenues derived from the operation of online games are classified as online game revenues in the Sohu Group's consolidated statements of comprehensive income.

Changyou's flagship PC game is its MMOG Tian Long Ba Bu (TLBB). For the three and six months ended June 30, 2015, revenues from TLBB were \$80.6 million and \$167.1 million, respectively, accounting for approximately 47% of Changyou's online game revenues for both periods, approximately 40% and 41%, respectively, of Changyou's total revenues and approximately 16% and 18%, respectively, of the Sohu Group's total revenues.

Platform Channel Business

Changyou also owns and operates a number of Web properties and software applications for PCs and mobile devices (collectively referred to as platform channels), including the 17173.com Website, one of the leading information portals for game players in China; RaidCall, which provides online music and entertainment services, primarily in Taiwan; and the Dolphin Browser, a gateway to a host of user activities on mobile devices, with the majority of its users based in Europe, Russia and Japan. Changyou's platform channels serve various needs of its users and help Changyou reach more user communities and conduct cross-promotions of its games and services. Revenues generated by 17173.com are classified as brand advertising revenues, and revenues generated by RaidCall and the Dolphin Browser are classified as others revenues, in the Group's consolidated statements of comprehensive income.

Others Business

Changyou also operates a cinema advertising business, which consists of Changyou offering slots for advertisements to be shown in cinemas before the screening of movies. Revenues generated by Changyou's cinema advertising business are classified as others revenues in the Sohu Group's consolidated statements of comprehensive income.

Basis of Consolidation and Recognition of Noncontrolling Interest

The consolidated financial statements include the accounts of Sohu.com Inc. and its wholly-owned and majority-owned subsidiaries and consolidated VIEs. All intercompany transactions are eliminated.

VIE Consolidation

The Sohu Group's VIEs are wholly or partially owned by certain employees of the Group as nominee shareholders. For consolidated VIEs, management made evaluations of the relationships between the Sohu Group and the VIEs and the economic benefit flow of contractual arrangements with the VIEs. In connection with such evaluation, management also took into account the fact that, as a result of such contractual arrangements, the Group controls the shareholders voting interests in these VIEs. As a result of such evaluation, management concluded that the Sohu Group is the primary beneficiary of its consolidated VIEs. The Sohu Group has three VIEs that are not consolidated, since the Group is not the primary beneficiary.

Table of Contents*Noncontrolling Interest Recognition*

Noncontrolling interests are recognized to reflect the portion of the equity of majority-owned subsidiaries and VIEs which is not attributable, directly or indirectly, to the controlling shareholders. The primary majority-owned subsidiaries and VIEs of the Sohu Group which are consolidated in the Group's consolidated financial statements with noncontrolling interest recognized are Sogou and Changyou.

Basis of Presentation

These financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. These financial statements should be read in conjunction with the consolidated financial statements and related footnotes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014.

The accompanying unaudited condensed consolidated interim financial statements reflect all normal recurring adjustments which, in the opinion of management, are necessary for a fair statement of the results for the interim periods presented. Results for the six months ended June 30, 2015 are not necessarily indicative of the results expected for the full fiscal year or for any future period.

2. Segment Information

The Sohu Group's segments are business units that offer different services and are reviewed separately by the chief operating decision maker (the CODM), or the decision making group, in deciding how to allocate resources and in assessing performance. The Group's CODM is Sohu.com Inc.'s Chief Executive Officer. Some items, such as share-based compensation expense, operating expenses, other income and expense, and income tax benefit and expense, are not reviewed by the CODM. These items are disclosed in the segment information for reconciliation purposes only.

Commencing in the second quarter of 2015, the CODM did not consider the others segment to be significant enough to be separately reviewed. Therefore, in order to better reflect management's perspective, the Group combined the brand advertising segment and the others segment, and now identifies them together as the Sohu segment. There are now three segments in the Group, consisting of the Sohu segment, the Sogou segment, and the Changyou segment. The Group has restated the presentation of its reportable segments for prior periods to conform to the current presentation.

The following tables present summary information by segment (in thousands):

3. Share-Based Compensation Expense

Sohu (excluding Fox Video Limited), Sogou, Changyou, and Fox Video Limited (Sohu Video) have incentive plans, and prior to June 28, 2013 7Road.com Limited (7Road) had an incentive plan, for the granting of share-based awards, including common stock or ordinary shares, share options, restricted shares and restricted share units, to members of the boards of directors, management and other key employees.

Sohu (excluding Sohu Video), Sogou, and Changyou Share-based Awards

For Sohu (excluding Sohu Video) share options that Sohu granted before 2006 and Sohu restricted share units, Sogou share-based awards, and Changyou share-based awards under the Changyou 2008 Share Incentive Plan, share-based compensation expense is recognized as costs and expenses in the consolidated statements of comprehensive income based on the fair value of the related share-based awards on their grant dates.

For Tencent restricted share units that Tencent had granted to employees who transferred to Sogou with the Soso search-related businesses, share-based compensation expense is recognized in the consolidated statements of comprehensive income based on the then-current fair value at each reporting date.

For 1,068,000 Sohu stock options contractually granted on February 7, 2015, 2,400,000 Changyou share options converted from restricted share units on February 16, 2015, and 1,998,000 Changyou share options contractually granted on June 1, 2015, awards are expected to vest and become exercisable in four equal installments over a period of four years, with each installment vesting upon satisfaction of a service period requirement and certain subjective performance targets. For purposes of ASC 718-10-25, as of June 30, 2015 no grant date had occurred, because no grant date can be established until a mutual understanding is reached between the companies and the recipients clarifying the subjective performance requirements. In accordance with ASC 718-10-55, as the service inception date preceded the grant date, compensation expense was accrued beginning on the service inception date and will be re-measured on each subsequent reporting date before the grant date is established, based on the then-current fair value of the awards. The estimate of the awards fair value will be fixed in the period in which the grant date occurs, and cumulative compensation expense will be adjusted based on the fair value at the grant date. In determining the fair value of stock options and share options granted by Sohu and Changyou, the public market price of the underlying shares at each reporting date was used, and a binomial valuation model was applied.

Sohu Video Share-based Awards

On January 4, 2012, Sohu Video, the holding entity of Sohu s video division, adopted a 2011 Share Incentive Plan (the Video 2011 Share Incentive Plan) which provides for the issuance of up to 25,000,000 ordinary shares of Sohu Video (representing approximately 10% of the outstanding Sohu Video shares on a fully-diluted basis) to management and

key employees of the video division and to Sohu management. As of June 30, 2015, grants of options for the purchase of 16,368,200 ordinary shares of Sohu Video had been contractually made, of which options for the purchase of 4,972,800 ordinary shares were vested.

For purposes of *ASC 718-10-25*, as of June 30, 2015, no grant date had occurred, because the broader terms and conditions of the option awards had neither been finalized nor mutually agreed upon with the recipients. In accordance with *ASC 718-10-55*, management determined that the service inception date with respect to vested option awards for the purchase of 4,972,800 shares had preceded the grant date. Therefore, the Group began to recognize compensation expense for Sohu Video share-based awards in the second quarter of 2014 and re-measured, and will re-measure, the compensation expense on each subsequent reporting date based on the then-current fair values of the awards until the grant date is established.

Table of Contents**7Road Share-based Awards**

On July 10, 2012, 7Road adopted the 7Road 2012 Share Incentive Plan. On June 28, 2013, 7Road's Board of Directors approved the cancellation of this incentive plan. 7Road concurrently offered to a total of 42 7Road employees holding an aggregate of 2,223,750 restricted share units which had been granted under this incentive plan the right to exchange their restricted share units for, at each employee's election, in each case subject to the employee's continued employment by 7Road, either (i) Scheme I: the right to a cash payment of up to an aggregate of \$2.90 per restricted share unit exchanged, vesting and payable at the rate of 40%, 30% and 30%, respectively, on the first, second and third anniversaries of July 18, 2012, which is the date when the surrendered restricted share units were granted under the 7Road 2012 Share Incentive Plan, or (ii) Scheme II: the right to receive an annual cash bonus, over a seven-year period commencing July 1, 2013, based on the adjusted annual cumulative net income of 7Road. As of June 28, 2013, all restricted share units held by these 42 7Road employees had been included in this exchange program. In the third quarter of 2013, 7Road granted to an additional 48 7Road employees the right to receive an annual cash bonus under Scheme II with the same terms as described above.

For Scheme I, as of June 30, 2015 compensation expense of \$4.2 million had been recognized with respect to the modification, and \$30,000 will be recognized in the consolidated statements of comprehensive income ratably over the remaining vesting period of the awards. For Scheme II, the compensation expense varies depending on 7Road's financial performance.

Share-based Compensation Expense Recognition

There was no capitalized share-based compensation expense for the three and six months ended June 30, 2015 and 2014.

4. Fair Value Measurements

Fair Value of Financial Instruments

The Sohu Group's financial instruments include cash equivalents, restricted time deposits, short-term investments, accounts receivable, prepaid and other current assets, available-for-sale equity securities under long-term investments, held-for-sale assets, accounts payable, accrued liabilities, receipts in advance and deferred revenue, short-term bank loans, other short-term liabilities, held-for-sale liabilities, long-term accounts payable and long-term bank loans, as well as repurchase options and a put option for Sogou Series A Preferred Shares.

Table of Contents

U.S. GAAP establishes a three-tier hierarchy to prioritize the inputs used in the valuation methodologies in measuring the fair value of financial instruments. This hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three-tier fair value hierarchy is:

Level 1 observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 include other inputs that are directly or indirectly observable in the market place.

Level 3 unobservable inputs which are supported by little or no market activity.

The following table sets forth the financial instruments, measured at fair value, by level within the fair value hierarchy as of December 31, 2014 (in thousands):

Items	As of December 31, 2014	Fair value measurements at reporting date using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash equivalents	\$ 583,160	\$ 0	\$ 583,160	\$ 0
Restricted time deposits	426,748	0	426,748	0
Short-term investments	191,577	0	191,577	0
Available-for-sale equity securities	11,273	11,273	0	0
Total	\$ 1,212,758	\$ 11,273	\$ 1,201,485	\$ 0

The following table sets forth the financial instruments, measured at fair value by level within the fair value hierarchy, as of June 30, 2015 (in thousands):

Items	As of June 30, 2015	Fair value measurements at reporting date using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash equivalents	\$ 317,395	\$ 0	\$ 317,395	\$ 0
Restricted time deposits	395,547	0	395,547	0
Short-term investments	197,086	0	197,086	0
Available-for-sale equity securities	22,078	22,078	0	0
Total	\$ 932,106	\$ 22,078	\$ 910,028	\$ 0

Cash Equivalents

The Sohu Group's cash equivalents mainly consist of time deposits and money market funds with original maturities of three months or less. The fair values of cash equivalents are determined based on the pervasive interest rates in the market. The Group classifies the valuation techniques that use the pervasive interest rates input as Level 2 of fair value measurements. Generally there are no quoted prices in active markets for identical cash equivalents at the reporting date. In order to determine the fair value, the Group must use the discounted cash flow method and observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Restricted Time Deposits

Restricted time deposits are valued based on the prevailing interest rates in the market using the discounted cash flow method. The Sohu Group classifies the valuation techniques that use these inputs as Level 2 of fair value measurements.

Collateral related to Sogou Incentive Shares Trust Arrangements

In February 2013, Sohu deposited \$9.0 million in cash into restricted time deposit accounts at a bank as collateral for credit facilities provided by the bank to certain Sogou employees. The facilities were intended to fund the employees early exercise of Sogou share options and related PRC individual income tax. Sohu is not subject to any additional potential payments other than the restricted time deposit amounts, and believes that the fair value of its guarantee liability is immaterial.

Table of Contents***Changyou Loans from Offshore Banks, Secured by Time Deposits***

Commencing in 2012, Changyou drew down loans from offshore branches of certain banks for the purposes of expediting the payment of a special one-time cash dividend to its shareholders, providing working capital to support its overseas operations, and funding its acquisitions and its share repurchase program. These bank loans are secured by an equivalent or greater amount of RMB deposits by Changyou in the onshore branches of such banks. The loans from the offshore branches of the lending banks are classified as short-term and long-term bank loans based on the loans payment terms.

As of June 30, 2015, the total amount of the bank loans was \$370.0 million, all of which carried a floating rate of interest based on the London Inter-Bank Offered Rate (LIBOR). These loans were secured by RMB deposits in onshore branches of those banks in the total amount of \$386.2 million. The deposited amounts are recognized as restricted time deposits. For the three and six months ended June 30, 2015, interest income from the restricted time deposits securing the loans was \$3.6 million and \$7.3 million, respectively, and interest expense on the bank loans was \$1.8 million and \$3.6 million, respectively. For the three and six months ended June 30, 2014, interest income from the restricted time deposits securing the loans was \$3.7 million and \$7.9 million, respectively, and interest expense on the bank loans was \$1.2 million and \$2.9 million, respectively.

Short-term Investments

In accordance with ASC 825, for investments in financial instruments with a variable interest rate indexed to performance of underlying assets, the Sohu Group elected the fair value method at the date of initial recognition and carried these investments at fair value. Changes in the fair value are reflected in the consolidated statements of comprehensive income as other income /(expense). To estimate fair value, the Group refers to the quoted rate of return provided by banks at the end of each period using the discounted cash flow method. The Group classifies the valuation techniques that use these inputs as Level 2 of fair value measurements.

As of June 30, 2015, the Sohu Group's investment in financial instruments was \$197.1 million. The investment instruments were issued by commercial banks in China, and have a variable interest rate indexed to performance of underlying assets. Since these investments' maturity dates are within one year, they are classified as short-term investments. For the three and six months ended June 30, 2015, the Sohu Group recorded in the consolidated statements of comprehensive income changes in the fair value of short-term investments in the amounts of \$0.8 million and \$1.2 million, respectively. For the three and six months ended June 30, 2014, the Sohu Group recorded in the consolidated statements of comprehensive income change in the fair value of short-term investments in the amount of nil and \$16,000, respectively.

Available-for-Sale Equity Securities

Available-for-sale equity securities are valued using the market approach based on the quoted prices in active markets at the reporting date. The Group classifies the valuation techniques that use these inputs as Level 1 of fair value measurements. On August 12, 2014, Sohu acquired approximately 6% of the total outstanding common shares of Keyeast Co., Ltd., a Korean-listed company (Keyeast), for a purchase price of \$15.1 million. The Sohu Group classified this investment as available-for-sale equity securities under long-term investments, and reported it at fair value. As of June 30, 2015, the fair value of the Keyeast available-for-sale equity securities held by Sohu was \$22.1 million. The unrealized gain representing the change in fair value of \$7.0 million was recorded as an addition to accumulated other comprehensive income in the Sohu Group's consolidated balance sheets.

Held-for-Sale Assets and Liabilities

In April 2015, Changyou entered into a series of definitive agreements to divest a number of its business assets, including:

- i) On April 15, 2015, Changyou's VIE Beijing Gamease Age Digital Technology Co., Ltd. (Gamease) entered into an agreement to sell all of the equity interests in Shenzhen 7Road Technology Co., Ltd. (Shenzhen 7Road), which is a wholly-owned subsidiary primarily undertaking the Web game business, to a PRC company.
- ii) On April 27, 2015, a subsidiary of Changyou, Changyou.com (HK) Limited, entered into an agreement to sell all of the equity capital of Changyou My Sdn. Bhd and Changyou.com (UK) Company Limited, which are wholly-owned subsidiaries of Changyou undertaking the online game business in Malaysia and the United Kingdom, respectively, to a British Virgin Islands company.

Table of Contents

The aggregate consideration contemplated by the agreements described above is approximately \$205 million.

The closings of the above transactions are subject to customary conditions.

As a consequence, the assets and liabilities attributable to the entities to be disposed of as described above are classified as assets and liabilities held for sale and measured at the lower of their carrying amounts and their fair values, less selling costs, in the consolidated balance sheet as of June 30, 2015. Details of the aggregate assets and liabilities at June 30, 2015 are as follows (in thousands):

	As of June 30, 2015
Cash and cash equivalents	\$ 14,871
Prepaid and other current assets	13,677

Repurchase Options and Put Option for Sogou Series A Preferred Shares

In September 2013, Sogou entered into Repurchase Option Agreements with Sohu.com (Search) Limited (Sohu Search) and Photon Group Limited, the investment vehicle of the Sohu Group's Chairman and Chief Executive Officer Dr. Charles Zhang (Photon), and a Repurchase/Put Option Agreement with China Web Search (HK) Limited (China Web), with respect to Series A Preferred Shares of Sogou held by them. See Note 12 Sogou Transactions.

Sogou's repurchase options with Photon and China Web were initially recognized in additional paid-in capital in the Sohu Group's consolidated balance sheets at fair value when the agreements were signed. Any subsequent changes in the fair values of the repurchase options were not and will not be recognized. On March 24, 2014, Sogou purchased from China Web, pursuant to the Repurchase/Put Option Agreement between Sogou and China Web, 14.4 million Series A Preferred Shares of Sogou for an aggregate purchase price of \$47.3 million. As of June 30, 2015, the remaining balance for the repurchase option with Photon in additional paid-in capital was \$1.2 million, based on the fair value of the repurchase option on September 16, 2013.

China Web's put option with Sogou was initially recognized in other short-term liabilities in the Sohu Group's consolidated balance sheets at fair value when the agreement was signed. Subsequent changes in the fair value of the put option were recognized quarterly in other income/(expense) in the Sohu Group's consolidated statements of comprehensive income. After Sogou's repurchase of the Series A Preferred Shares from China Web on March 24, 2014, the other short-term liabilities recognized with respect to China Web were reversed to zero.

Management determined the fair values of the repurchase options with Photon and China Web when the agreements were signed, and of the put option with China Web before Sogou exercised the repurchase option, using the binominal model, with a discount for lack of marketability, given that the repurchase options and the put option were not publicly traded at the time of grant. Management made the determination with the assistance of a qualified professional appraiser using management's estimates and assumptions. The Sohu Group classifies the valuation techniques that use these inputs as Level 3 of fair value measurements.

Long-term Investment in SoEasy

In August 2014, Sohu invested \$4.8 million in SoEasy Internet Finance Group Limited (SoEasy) and in April 2015 Sohu invested an additional \$16.3 million in SoEasy. As of June 30, 2015, Sohu's accumulated investment in SoEasy was \$21.1 million and Sohu held approximately 34.9% of SoEasy's equity capital. Sohu continued to account for this investment under the equity method, since Sohu can exercise significant influence but does not own a majority of SoEasy's equity capital or control SoEasy.

Table of Contents**Short-term Receivables and Payables**

Accounts receivable and prepaid and other current assets are financial assets with carrying values that approximate fair value due to their short-term nature. Short-term accounts payable, accrued liabilities, receipts in advance and deferred revenue, short-term bank loans and other short-term liabilities are financial liabilities with carrying values that approximate fair value due to their short term nature.

For short-term bank loans, the rates of interest under the agreements with the lending banks were determined based on the prevailing interest rates in the market. The Sohu Group classifies the valuation techniques that use these inputs as Level 2 of fair value measurements. For other short-term receivables and payables, the Group estimated fair values using the discounted cash flow method, which is unobservable in the market. The Group classifies the valuation technique as Level 3 of fair value measurements.

Long-term Payables

Long-term accounts payable and long-term bank loans are financial liabilities with carrying values that approximate fair value due to any changes in fair value, after considering the discount rate, being immaterial. For long-term accounts payable and long-term bank loans, the Group estimated fair values using the discounted cash flow method, which is unobservable in the market. The Sohu Group classifies the valuation technique as Level 3 of fair value measurements.

5. Goodwill

Commencing in the second quarter of 2015, the Company's management did not consider the others segment to be significant enough to be separately reviewed. Therefore, in order to better reflect management's perspective, the Company combined the brand advertising segment and the others segment, and now identifies them together as the Sohu segment.

The changes in the carrying value of goodwill by segment are as follows (in thousands):

	Sohu	Sogou	Changyou	Total
Balance as of December 31, 2014

Table of Contents**6. Taxation**

Sohu.com Inc. is subject to United States (U.S.) income tax, and Changyou's income that is from a U.S. source is generally subject to U.S. income tax. The majority of the subsidiaries and VIEs of the Sohu Group are based in mainland China and are subject to income taxes in the PRC. These China-based subsidiaries and VIEs conduct substantially all of the Sohu Group's operations, and generate most of the Sohu Group's income or losses.

The Group did not have any penalties or significant interest associated with tax positions for the three and six months ended June 30, 2015, nor did the Group have any significant unrecognized uncertain tax positions for the three and six months ended June 30, 2015.

PRC Corporate Income Tax

The PRC Corporate Income Tax Law (the CIT Law) applies an income tax rate of 25% to all enterprises but grants preferential tax treatment to High and New Technology Enterprises (HNTEs). Under this preferential tax treatment, HNTEs can enjoy an income tax rate of 15% for three years, but need to re-apply after the end of the three-year period. In addition, the CIT Law and its implementing regulations provide that a Software Enterprise can enjoy an income tax exemption for two years beginning with its first profitable year and a 50% reduction to a rate of 12.5% for the subsequent three years. An entity that qualifies as a Key National Software Enterprise can enjoy a further reduced preferential income tax rate of 10% for two years, but needs to re-apply after the end of the two-year period.

Entities Qualified as HNTEs

As of June 30, 2015, the following principal entities of the Sohu Group were qualified as HNTEs and were entitled to an income tax rate of 15%.

For Sohu's Business

Beijing Sohu Internet Information Service Co., Ltd. (Sohu Internet). Sohu Internet re-applied for HNTE qualification in the second quarter of 2015. Pending approval of its re-application, Sohu Internet is entitled to continue to enjoy the beneficial tax rate as if it had already qualified as an HNTE for 2015.

Beijing Sohu New Era Information Technology Co., Ltd. (Sohu Era), Beijing Sohu New Media Information Technology Co., Ltd. (Sohu Media) and Guangzhou Qianjun Network Technology Co., Ltd (Guangzhou Qianjun). Sohu Era, Sohu Media and Guangzhou Qianjun are each qualified as HNTEs for 2015 and 2016, and will need to re-apply for HNTE qualification in 2017.

For Sogou's Business

Beijing Sogou Information Service Co., Ltd. (Sogou Information). Sogou Information re-applied for HNTE qualification in July 2015. Pending approval of its re-application, Sogou Information is entitled to continue to enjoy the beneficial tax rate as if it had already qualified as an HNTE for 2015.

Edgar Filing: SOHU COM INC - Form 10-Q

Beijing Sogou Technology Development Co., Ltd. (Sogou Technology). Sogou Technology is qualified as an HNTE for 2015 and 2016, and will need to re-apply for HNTE qualification in 2017.

For Changyou s Business

AmazGame, Gamease and Shenzhen 7Road. AmazGame, Gamease and Shenzhen 7Road are each qualified as HNTEs for 2015 and 2016, and will need to re-apply for HNTE qualification in 2017.

Entities Qualified as Software Enterprises

For Sohu s Business

Beijing Sohu New Momentum Information Technology Co., Ltd. (Sohu New Momentum). In 2015, Sohu New Momentum is in its second income tax exemption year as a Software Enterprise.

For Changyou s Business

AmazGame. AmazGame will need to re-apply before the end 2015 for designation as a Key National Software Enterprise in order to be entitled for 2015 and 2016 to the preferential income tax rate of 10% to which it was entitled for the initial two-year period of 2013 and 2014.

Table of Contents

Beijing Changyou Gamespace Software Technology Co., Ltd. (Gamespace). In 2015, Gamespace is in the second of the three years in which it is entitled to a 50% reduction to a rate of 12.5% as a Software Enterprise.

ICE Information Technology (Shanghai) Co., Ltd (ICE Information). ICE Information was not subject to income tax, as it incurred losses.

Shenzhen 7Road Network Technologies Co., Ltd. (7Road Technology). In 2015, 7Road Technology is in the first of the three years in which it is entitled to a 50% reduction to a rate of 12.5% as a Software Enterprise.

PRC Withholding Tax on Dividends

The CIT Law imposes a 10% withholding income tax for dividends distributed by foreign-invested enterprises in the PRC to their immediate holding companies outside Mainland China. A lower withholding tax rate will be applied if there is a tax treaty arrangement between Mainland China and the jurisdiction of the foreign holding company. A holding company in Hong Kong, for example, will be subject to a 5% withholding tax rate under an arrangement between the PRC and the Hong Kong Special Administrative Region on the Avoidance of Double Taxation and Prevention of Fiscal Evasion with Respect to Taxes on Income and Capital if such holding company is considered a non-PRC resident enterprise and holds at least 25% of the equity interests in the PRC foreign invested enterprise distributing the dividends, subject to approval of the PRC local tax authority. However, if the Hong Kong holding company is not considered to be the beneficial owner of such dividends under applicable PRC tax regulations, such dividend will remain subject to a withholding tax rate of 10%.

In order to fund the distribution of a dividend to shareholders of the Sohu Group's majority-owned subsidiary Changyou, Changyou's Board of Directors resolved to cause one of its PRC subsidiaries to declare and distribute a cash dividend of portions of its 2012 to 2015 stand-alone earnings to its direct overseas parent company, Changyou.com (HK) Limited (Changyou HK). With the exception of that dividend, the Sohu Group does not intend to have any of its PRC subsidiaries distribute any undistributed profits of such subsidiaries to their direct overseas parent companies, but rather intends that such profits will be permanently reinvested by such subsidiaries for their PRC operations.

As of June 30, 2015, Changyou had accrued deferred tax liabilities in the amount of \$24.2 million for PRC withholding tax.

PRC Value-Added Tax and Business Tax

Revenues from brand advertising and search and Web directory as well as revenues from Changyou's Web games that were not developed in-house are subject to value-added tax (VAT). VAT payable is the difference between the output VAT (at a rate of 6%) and available input VAT amount (at the rate applicable to the supplier). Revenues of 7Road's in-house-developed Web games that are deemed to be derived from the sale of software are subject to VAT. VAT is payable by 7Road at a rate of 17%, with a 14% immediate tax refund irrespective of the availability of any input VAT, resulting in a net rate of 3%. Other online game revenues from the operation of PC games and self-developed mobile games are subject to a 5% PRC business tax (Business Tax).

The Group adopted the net presentation method for its brand advertising and search and Web directory businesses. The Group adopted the gross presentation method for revenues of in-house-developed Web games that are deemed to be derived from the sale of software.

U.S. Corporate Income Tax

Sohu.com Inc. is a Delaware corporation that is subject to U.S. corporate income tax on its taxable income at a rate of up to 35%. To the extent that Sohu.com Inc. has U.S. taxable income, which generally arises mainly from interest income of the Sohu Group, the Group accrues U.S. corporate income tax in the Group's consolidated statements of comprehensive income and makes estimated tax payments as and when required by U.S. law.

Uncertain Tax Positions

The Group is subject to various taxes in different jurisdictions, primarily the US and the PRC. Management reviews regularly the adequacy of the provisions for taxes as they relate to the income and transactions of the Group. In order to assess uncertain tax positions, the Sohu Group applies a more likely than not threshold and a two-step approach for tax position measurement and financial statement recognition. For the two-step approach, the first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that is more than 50% likely to be realized upon settlement.

Litigation

The Sohu Group is a party to various litigation matters which it considers routine and incidental to its business. Management does not expect the results of any of these actions to have a material adverse effect on the Group's business, results of operations, financial condition and cash flows.

PRC Law and Regulations

The Chinese market in which the Sohu Group operates poses certain macro-economic and regulatory risks and uncertainties. These uncertainties extend to the ability to operate an Internet business and to conduct brand advertising, search and Web directory, online game, and others services in the PRC. Though the PRC has, since 1978, implemented a wide range of market-oriented economic reforms, continued reforms and progress towards a full market-oriented economy are uncertain. In addition, the telecommunication, information, and media industries remain highly regulated. Restrictions are currently in place and are unclear with respect to which segments of these industries foreign-owned entities, like the Sohu Group, may operate. The Chinese government may issue from time to time new laws or new interpretations of existing laws to regulate areas such as telecommunication, information and media. Certain risks related to PRC law that could affect the Sohu Group's VIE structure are discussed in Note 9 VIEs.

Regulatory risks also encompass interpretation by PRC tax authorities of current tax law, including the applicability of certain preferential tax treatments. The Sohu Group's legal structure and scope of operations in China could be subject to restrictions, which could result in limits on its ability to conduct business in the PRC.

The Sohu Group's sales, purchase and expense transactions are generally denominated in RMB and a significant portion of its assets and liabilities are denominated in RMB. The RMB is not freely convertible into foreign currencies. In China, foreign exchange transactions are required by law to be transacted only by authorized financial institutions. Remittances in currencies other than RMB by its subsidiaries in China may require certain supporting documentation in order to effect the remittance.

8. Contingent Consideration

Changyou's acquisition of Beijing Doyo Internet Technology Co., Ltd. (Doyo) included a contingent consideration arrangement that requires additional consideration to be paid by Changyou based on the achievement of specified performance milestones by Doyo for the fiscal years 2013 through 2015. The fair value of the contingent consideration was recognized on the acquisition date using the income approach /discounted cash flow method with a scenario analysis applied. There were no indemnification assets involved. In 2015, as Doyo's performance had exceeded the relevant performance milestone for 2014, Changyou re-classed such contingent consideration to other short-term liabilities.

Table of Contents**9. VIEs*****Background***

PRC laws and regulations prohibit or restrict foreign ownership of companies that operate Internet information and content, Internet access, online games, mobile, value added telecommunications and certain other businesses in which the Sohu Group is engaged or could be deemed to be engaged. Consequently, the Sohu Group conducts certain of its operations and businesses in the PRC through its VIEs. The Sohu Group consolidates in its consolidated financial statements all of the VIEs of which the Group is the primary beneficiary.

VIEs Consolidated within the Sohu Group

The Sohu Group adopted the guidance of accounting for VIEs, which requires VIEs to be consolidated by the primary beneficiary of the entity. Management made evaluations of the relationships between the Sohu Group and its VIEs and the economic benefit flow of contractual arrangements with the VIEs. In connection with such evaluation, management also took into account the fact that, as a result of contractual arrangements with its consolidated VIEs, the Sohu Group controls the shareholders' voting interests in those VIEs. As a result of such evaluation, the management concluded that the Sohu Group is the primary beneficiary of the VIEs which the Group consolidates.

All of the consolidated VIEs are incorporated and operated in the PRC, and the Group's principal VIEs are directly or indirectly owned by Dr. Charles Zhang, the Sohu Group's Chairman and Chief Executive Officer, or other executive officers and employees of the Sohu Group identified below. Capital for the consolidated VIEs was funded by the Sohu Group through loans provided to Dr. Charles Zhang and other executive officers and employees, and was initially recorded as loans to related parties. These loans are eliminated for accounting purposes against the capital of the VIEs upon consolidation.

Under contractual agreements with the Sohu Group, Dr. Charles Zhang and those other executive officers and employees of the Sohu Group who are shareholders of the consolidated VIEs are required to transfer their ownership in these entities to the Group, if permitted by PRC laws and regulations, or, if not so permitted, to designees of the Group at any time as requested by the Group to repay the loans outstanding. All voting rights of the consolidated VIEs are assigned to the Sohu Group, and the Group has the right to designate all directors and senior management personnel of the consolidated VIEs, and also has the obligation to absorb losses of the consolidated VIEs. Dr. Charles Zhang and those other executive officers and employees of the Sohu Group who are shareholders of the consolidated VIEs have pledged their shares in the consolidated VIEs as collateral for the loans. As of June 30, 2015, the aggregate amount of these loans was \$14.3 million.

Under its contractual arrangements with the consolidated VIEs, the Sohu Group has the power to direct activities of the VIEs, and can have assets transferred freely out of the VIEs without any restrictions. Therefore, the Group considers that there is no asset of a consolidated VIE that can be used only to settle obligations of the VIEs, except for registered capital and PRC statutory reserves of the VIEs. As of June 30, 2015, the registered capital and PRC statutory reserves of the consolidated VIEs totaled \$83.4 million. As all of the consolidated VIEs are incorporated as limited liability companies under the PRC Company Law, creditors of the consolidated VIEs do not have recourse to the general credit of the Sohu Group for any of the liabilities of the consolidated VIEs. Currently there is no contractual arrangement that could require the Sohu Group to provide additional financial support to the consolidated VIEs. As the Sohu Group is conducting certain business in the PRC mainly through the consolidated VIEs, the Group may provide such support on a discretionary basis in the future, which could expose the Group to a loss.

The Sohu Group classified the consolidated VIEs within the Sohu Group as principal VIEs or immaterial VIEs based on certain criteria, such as the VIEs' total assets or revenues. The following is a summary of the principal VIEs within the Sohu Group:

Certain of the contractual arrangements described above between the VIEs and the related wholly-owned subsidiaries of the Sohu Group are silent regarding renewals. However, because the VIEs are controlled by the Sohu Group through powers of attorney granted to the Sohu Group by the shareholders of the VIEs, the contractual arrangements can be, and are expected to be, renewed at the subsidiaries' election.

VIE-Related Risks

It is possible that the Sohu Group's operation of certain of its operations and businesses through VIEs could be found by PRC authorities to be in violation of PRC law and regulations prohibiting or restricting foreign ownership of companies that engage in such operations and businesses. While the Sohu Group's management considers the possibility of such a finding by PRC regulatory authorities under current law and regulations to be remote, on January 19, 2015, the Ministry of Commerce of the PRC, or (the "MOFCOM") released on its Website for public comment a proposed PRC law (the "Draft FIE Law") that appears to include VIEs within the scope of entities that could be considered to be foreign invested enterprises (or "FIEs") that would be subject to restrictions under existing PRC law on foreign investment in certain categories of industry. Specifically, the Draft FIE Law introduces the concept of "actual control" for determining whether an entity is considered to be an FIE. In addition to control through direct or indirect ownership or equity, the Draft FIE Law includes control through contractual arrangements within the definition of "actual control." If the Draft FIE Law is passed by the People's Congress of the PRC and goes into effect in its current form, these provisions regarding control through contractual arrangements could be construed to reach the Sohu Group's VIE arrangements, and as a result the Sohu Group's VIEs could become explicitly subject to the current restrictions on foreign investment in certain categories of industry. The Draft FIE Law includes provisions that would exempt from the definition of foreign invested enterprises entities where the ultimate controlling shareholders are either entities organized under PRC law or individuals who are PRC citizens. The Draft FIE Law is silent as to what type of enforcement action might be taken against existing VIEs that operate in restricted or prohibited industries and are not controlled by entities organized under PRC law or individuals who are PRC citizens. If a finding were made by PRC authorities, under existing law and regulations or under the Draft FIE Law if it becomes effective, that the Sohu Group's operation of certain of its operations and businesses through VIEs is prohibited, regulatory authorities with jurisdiction over the licensing and operation of such operations and businesses would have broad discretion in dealing with such a violation, including levying fines, confiscating the Sohu Group's income, revoking the business or operating licenses of the affected businesses, requiring the Sohu Group to restructure its ownership structure or operations, or requiring the Sohu Group to discontinue all or any portion of its operations. Any of these actions could cause significant disruption to the Sohu Group's business operations, and have a severe adverse impact on the Sohu Group's cash flows, financial position and operating performance.

In addition, it is possible that the contracts among the Sohu Group, the Sohu Group's VIEs and shareholders of its VIEs would not be enforceable in China if PRC government authorities or courts were to find that such contracts contravene PRC law and regulations or are otherwise not enforceable for public policy reasons. In the event that the Sohu Group was unable to enforce these contractual arrangements, the Sohu Group would not be able to exert effective control over the affected VIEs. Consequently, such VIE's results of operations, assets and liabilities would not be included in the Sohu Group's consolidated financial statements. If such were the case, the Sohu Group's cash flows, financial position and operating performance would be severely adversely affected. The Sohu Group's contractual arrangements with respect to its consolidated VIEs are in place. The Sohu Group's management believes that such contracts are enforceable, and considers the possibility remote that PRC regulatory authorities with jurisdiction over the Sohu Group's operations and contractual relationships would find the contracts to be unenforceable.

The Sohu Group's operations and businesses rely on the operations and businesses of its VIEs, which hold certain recognized and unrecognized revenue-producing assets. The recognized revenue-producing assets include goodwill

and intangible assets acquired through business acquisitions. Goodwill primarily represents the expected synergies from combining an acquired business with the Sohu Group. Intangible assets acquired through business acquisitions mainly consist of customer relationships, non-compete agreements, user bases, copyrights, trademarks and developed technologies. Unrecognized revenue-producing assets mainly consist of licenses and intellectual property. Licenses include operations licenses, such as Internet information service licenses and licenses for providing content. Intellectual property developed by the Sohu Group mainly consists of patents, copyrights, trademarks, and domain names. The Sohu Group's operations and businesses may be adversely impacted if the Sohu Group loses the ability to use and enjoy assets held by these VIEs.

VIEs Not Consolidated within the Sohu Group

As of June 30, 2015, the Group had three VIEs which were not consolidated within the Sohu Group. Since the Sohu Group neither has the power to direct these VIEs' activities that will significantly impact their economic performance nor has the obligation to absorb losses of, or the right to receive benefits from, these VIEs that could potentially be significant to these VIEs, the Group is not the primary beneficiary and, accordingly, the Group recognizes the investments under the equity method or the cost method according to the share percentage the Group holds. In assessing the maximum exposure to a loss on the investments compared to the cost of its investment, the Sohu Group determined that it did not have further obligations exceeding the cost of the investments and that there were no terms of the investment arrangements that could require the Sohu Group to provide further financial support to the VIEs.

Stock Incentive Plan

Sohu (excluding Sohu Video), Sogou, Changyou, and Sohu Video have incentive plans, and prior to June 28, 2013 7Road had an incentive plan, for the granting of share-based awards, including common stock or ordinary shares, share options, restricted shares and restricted share units, to their directors, management and other key employees.

1) Sohu.com Inc. Share-based Awards**Sohu's 2000 Stock Incentive Plan**

Sohu's 2000 Stock Incentive Plan (the "Sohu 2000 Stock Incentive Plan") provided for the issuance of up to 9,500,000 shares of common stock, including those issued pursuant to the exercise of share options and upon vesting and settlement of restricted share units. Most of these awards vest over a period of four years. The maximum term of any issued stock right under the Sohu 2000 Stock Incentive Plan is ten years from the grant date. The Sohu 2000 Stock Incentive Plan expired on January 24, 2010. As of the expiration date, 9,128,724 shares of common stock had been issued or were subject to issuance upon the vesting and exercise of share options or the vesting and settlement of restricted share units granted under the plan. A new plan (the "Sohu 2010 Stock Incentive Plan") was adopted by Sohu's shareholders on July 2, 2010.

For the three and six months ended June 30, 2015, there was no share-based compensation expense recognized for awards under the Sohu 2000 Stock Incentive Plan, as these awards were fully vested in 2014. For the three and six months ended June 30, 2014, total share-based compensation expense recognized for awards under the Sohu 2000 Stock Incentive Plan was nil and \$1.4 million, respectively.

i) Summary of share option activity

A summary of share option activity under the Sohu 2000 Stock Incentive Plan as of and for the six months ended June 30, 2015 is presented below:

	Number	Weighted	Weighted	Aggregate
			Average	

Options	Of Shares (in thousands)	Average Exercise Price	Remaining Contractual Life (Years)	Intrinsic Value (1) (in thousands)

Note (1): The aggregate intrinsic value in the preceding table represents the difference between Sohu's closing stock price of \$59.09 on June 30, 2015 and the exercise price of share options. The total intrinsic value of share options exercised for the six months ended June 30, 2015 was \$4.3 million.

Table of Contents

No options have been granted under Sohu's 2000 Stock Incentive Plan since 2006. No share-based compensation expense has been recognized for share options under Sohu's 2000 Stock Incentive Plan since 2010, as the requisite service periods for these share options had been completed by the end of 2009.

For the three and six months ended June 30, 2015, total cash received from the exercise of share options amounted to \$1.3 million and \$2.0 million, respectively. For the three and six months ended June 30, 2014, total cash received from the exercise of share options amounted to \$0.1 million and \$0.4 million, respectively.

ii) Summary of restricted share unit activity

In 2015, there was no share-based compensation expense recognized for the restricted shares units under the Sohu 2000 Stock Incentive Plan as these awards were fully vested in the first quarter of 2014. For the three and six months ended June 30, 2014, total share-based compensation expense recognized for restricted share units was nil and \$1.4 million, respectively. The total fair value on their respective vesting dates of restricted share units that vested during the three and six months ended June 30, 2014 was nil and \$9.3 million, respectively.

Sohu's 2010 Stock Incentive Plan

On July 2, 2010, the Company's shareholders adopted the Sohu 2010 Stock Incentive Plan, which provides for the issuance of up to 1,500,000 shares of common stock, including shares issued pursuant to the vesting and settlement of restricted share units and pursuant to the exercise of share options. The maximum term of any stock right granted under the Sohu 2010 Stock Incentive Plan is ten years from the grant date. The Sohu 2010 Stock Incentive Plan will expire on July 1, 2020. As of June 30, 2015, 292,844 shares were available for grant under the Sohu 2010 Stock Incentive Plan.

i) Summary of share option activity

On February 7, 2015, the Company's Board of Directors approved the contractual grants of options for the purchase of an aggregate of 1,068,000 shares of common stock to the Company's management and key employees with nominal exercise prices of \$0.001. These awards are expected to vest and become exercisable in four equal installments over a period of four years, with each installment vesting upon satisfaction of a service period requirement and certain subjective performance targets. Because the grant date had not been established as of June 30, 2015, compensation expense was accrued beginning on the service inception date and will be re-measured based on the then-current fair value of the awards on each subsequent reporting date until the grant date is established. To determine the fair value of these share options, the public market price of the underlying shares at each reporting date was used and a binomial valuation model was applied.

For the three and six months ended June 30, 2015, total share-based compensation expense recognized for these share options was \$7.8 million and \$11.6 million, respectively.

ii) Summary of restricted share unit activity

A summary of restricted share unit activity under the Sohu 2010 Stock Incentive Plan as of and for the six months ended June 30, 2015 is presented below:

Weighted-Average

Restricted Share Units	Number of Units (in thousands)	Grant-Date Fair Value
Unvested at January 1, 2015	67	\$ 78.16
Granted	17	53.71
Vested	(6)	64.07
Forfeited	(8)	82.81
Unvested at June 30, 2015	70	72.91
Expected to vest after June 30, 2015	54	71.72

For the three and six months ended June 30, 2015, total share-based compensation expense recognized for restricted share units was \$0.6 million and \$1.2 million, respectively. For the three and six months ended June 30, 2014, total share-based compensation expense recognized for restricted share units was \$1.3 million and \$2.5 million, respectively.

Table of Contents

As of June 30, 2015, there was \$2.3 million unrecognized compensation expense related to unvested restricted share units. The expense is expected to be recognized over a weighted average period of 0.93 years. The total fair value on their respective vesting dates of restricted share units that vested during the three and six months ended June 30, 2015 was \$0.2 million and \$0.3 million, respectively. The total fair value on their respective vesting dates of restricted share units that vested during both the three months and the six months ended June 30, 2014 was nil.

*3) Sogou Inc. Share-based Awards**Sogou 2010 Share Incentive Plan*

Sogou adopted a share incentive plan on October 20, 2010. The number of Sogou ordinary shares issuable under the plan was 41,500,000 after an amendment that was effective August 22, 2014 (as amended, the Sogou 2010 Share Incentive Plan). Awards of share rights may be granted under the Sogou 2010 Share Incentive Plan to management and employees of Sogou and of any present or future parents or subsidiaries or variable interest entities of Sogou. The maximum term of any share right granted under the Sogou 2010 Share Incentive Plan is ten years from the grant date. The Sogou 2010 Share Incentive Plan will expire on October 19, 2020. As of June 30, 2015, Sogou had granted options for the purchase of 33,784,325 ordinary shares under the 2010 Sogou Share Incentive Plan.

Of the granted options for the purchase of 33,784,325 shares, options for the purchase of 25,314,325 shares will become vested and exercisable in four equal installments, with each installment vesting upon a service period requirement for management and key employees being met, as well as Sogou's achievement of performance targets for the corresponding period. The performance target for each installment will be set at the beginning of each vesting period. Accordingly, for purposes of recognition of share-based compensation expense, each installment is considered to be granted as of that date. As of June 30, 2015, performance targets had been set for options for the purchase of 21,879,950 shares, subject to vesting upon service period requirements for management and key employees being met and Sogou's achievement of performance targets and, accordingly, such options were considered granted for purposes of recognition of share-based compensation expense. As of June 30, 2015, options for the purchase of 21,428,375 shares had become vested and exercisable because both the service period and the performance requirements had been met, and of such vested options, options for the purchase of 15,319,755 shares had been exercised.

Of the granted share options, options for the purchase of 8,470,000 shares will become vested and exercisable in four or five equal installments, with (i) the first installment vesting upon Sogou's completion of an IPO of its ordinary shares (Sogou's IPO) and the expiration of all underwriters' lockup periods applicable to Sogou's IPO, and (ii) each of the three or four subsequent installments vesting on the first, second, third and, if applicable, fourth anniversary dates, respectively, of the closing of Sogou's IPO. The completion of an IPO is considered to be a performance condition of the awards. An IPO is not considered to be probable until it is completed. Under ASC 718, compensation cost should be accrued if it is probable that the performance condition will be achieved and should not be accrued if it is not probable that the performance condition will be achieved. As a result, no compensation expense will be recognized related to these options until the completion of an IPO, and hence no share-based compensation expense was recognized for the three and six months ended June 30, 2015 for the options for the purchase of 8,470,000 shares that are subject to vesting upon completion of Sogou's IPO.

On June 15, 2013, Sogou granted options for the purchase of 3,960,000 ordinary shares, which would have vested and become exercisable in four equal installments, with (i) the first installment vesting upon the first anniversary of the occurrence of either (each, an Event): (a) completion of Sogou's IPO or (b) the consolidation of Sogou with or the acquisition of Sogou by another person or entity in a sale of all or substantially all of Sogou's assets or shares, and (ii) each of the three subsequent installments vesting on the second, third and fourth anniversaries, respectively, of the occurrence of an Event. However, if there was no Event by June 15, 2015, all installments of the options would cease

to vest and be cancelled. As there had not been an Event as of June 15, 2015, all of the options ceased to vest and were cancelled.

A summary of share option activity under the Sogou 2010 Stock Incentive Plan as of and for the six months ended June 30, 2015 is presented below:

Table of Contents

For the three and six months ended June 30, 2015, total share-based compensation expense recognized for share options under the Sogou 2010 Share Incentive Plan was \$1.1 million and \$3.9 million, respectively. For the three and six months ended June 30, 2014, total share-based compensation expense recognized for share options under the Sogou 2010 Share Incentive Plan was \$539,000 and \$922,000, respectively.

As of June 30, 2015, there was \$0.1 million in unrecognized compensation expenses related to the unvested share options. The expense is expected to be recognized over a weighted average period of 0.31 years.

The fair value of the ordinary shares of Sogou was assessed using the income approach /discounted cash flow method, with a discount for lack of marketability, given that the shares underlying the award were not publicly traded at the time of grant, and was determined with the assistance of a qualified professional appraiser using management's estimates and assumptions. This assessment required complex and subjective judgments regarding Sogou's projected financial and operating results, its unique business risks, the liquidity of its ordinary shares and its operating history and prospects at the time the grants were made.

The fair value of the options granted to Sogou management and key employees was estimated on the date of grant using the Binomial option pricing model (the BP Model) with the following assumptions used:

Granted to Employees	2015
Average risk-free interest rate	2.62%~3.05%
Exercise multiple	2~3
Expected forfeiture rate (post-vesting)	0%~12%
Weighted average expected option life	7
Volatility rate	49%~54%
Dividend yield	0%
Fair value	5.85~6.35

Sogou estimated the risk-free rate based on the market yields of U.S. Treasury securities with an estimated country-risk differential as of the valuation date. An exercise multiple was estimated as the ratio of the fair value of the shares over the exercise price as of the time the option is exercised, based on consideration of research studies regarding exercise patterns based on historical statistical data. In Sogou's valuation analysis, a multiple of two was applied for employees and a multiple of three was applied for management. Sogou estimated the forfeiture rate to be 0% or 1% for Sogou management's share options granted as of June 30, 2015 and 12% for Sogou employees' share options granted as of June 30, 2015. The life of the share options is the contract life of the option. Based on the option agreement, the contract life of the option is 10 years. The expected volatility at the valuation date was estimated based on the historical volatility of comparable companies for the period before the grant date with length commensurate with the expected term of the options. Sogou has no history or expectation of paying dividends on its ordinary shares. Accordingly, the dividend yield is estimated to be 0%.

Sohu Management Sogou Share Option Arrangement

Under an arrangement providing for Sogou share-based awards to be available for grants to members of Sohu's Board of Directors, management and other key employees (Sohu Management Sogou Share Option Arrangement), which was approved by the boards of directors of Sohu and Sogou in March 2011, Sohu has the right to provide to members of Sohu's Board of Directors, management and other key employees the opportunity to purchase from Sohu up to 12,000,000 ordinary shares of Sogou at a fixed exercise price of \$0.625 or \$0.001 per share. Of these 12,000,000 ordinary shares, 8,800,000 are Sogou ordinary shares previously held by Sohu and 3,200,000 are Sogou ordinary

shares that were newly-issued on April 14, 2011 by Sogou to Sohu at a price of \$0.625 per share, or a total of \$2.0 million. As of June 30, 2015, Sohu had granted options for the purchase of 10,724,500 Sogou ordinary shares to members of Sohu Board of Directors, management and other key employees under the Sohu Management Sogou Share Option Arrangement.

Table of Contents

Of the granted options for the purchase of 10,724,500 shares, options for the purchase of 8,309,500 shares will become vested and exercisable in four equal installments, with each installment vesting upon a service period requirement for Sohu's management and key employees being met, as well as Sogou's achievement of performance targets for the corresponding period. Options for the purchase of 15,000 shares granted to members of Sohu Board of Directors will become vested and exercisable upon a service period requirement being met. The performance target for each installment will be set at the beginning of each vesting period. Accordingly, for purposes of recognition of share-based compensation expense, each installment is considered to be granted as of that date. As of June 30, 2015, performance targets had been set for options for the purchase of 8,154,500 shares vesting upon service period requirements for Sohu's management and key employees being met and Sogou's achievement of performance targets and, accordingly, such share options were considered granted. As of June 30, 2015, options for the purchase of 8,064,740 shares had become vested and exercisable because both the service period and the performance requirements had been met, and vested options for the purchase of 6,407,000 shares had been exercised.

The remaining options for the purchase of 2,400,000 shares will become vested and exercisable in five equal installments, with (i) the first installment vesting upon Sogou's IPO and the expiration of all underwriters' lockup periods applicable to the IPO, and (ii) each of the four subsequent installments vesting on the first, second, third and fourth anniversary dates, respectively, of the closing of Sogou's IPO. All installments of the options for the purchase of 2,400,000 shares that are subject to vesting upon the completion of Sogou's IPO were considered granted upon the issuance of the options. The completion of a firm commitment IPO is considered to be a performance condition of the awards. An IPO event is not considered to be probable until it is completed. Under *ASC 718*, compensation cost should be accrued if it is probable that the performance condition will be achieved and should not be accrued if it is not probable that the performance condition will be achieved. As a result, no compensation expense will be recognized related to these options until the completion of an IPO, and hence no share-based compensation expense was recognized for the three and six months ended June 30, 2015 for these options for the purchase of 2,400,000 shares.

A summary of share option activity as of and for the six months ended June 30, 2015 is presented below:

Options	Number Of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Years)
	(in thousands)	Price	
Outstanding at January 1, 2015	4,165	\$ 0.625	
Granted	15	0.001	
Exercised	(11)	0.625	
Forfeited or expired	(6)	0.625	
Outstanding at June 30, 2015	4,163	0.623	6.96
Vested at June 30, 2015 and expected to vest thereafter	1,658		
Exercisable at June 30, 2015	1,658		

For the three and six months ended June 30, 2015, total share-based compensation expense recognized for share options under the Sohu Management Sogou Share Option Arrangement was \$0.1 million and \$0.7 million, respectively. For both the three and six months ended June 30, 2014, total share-based compensation expense recognized for share options under the Sohu Management Sogou Share Option Arrangement was \$1.3 million.

As of June 30, 2015, there were \$0.1 million unrecognized compensation expenses related to the unvested share options. The expense is expected to be recognized over a weighted average period of 0.38 years.

The method used to determine the fair value of share options granted to members of Sohu's Board of Directors and to Sohu's executive officers and other employees was the same as the method used for the share options granted to Sogou's management and key employees as described above, except for the assumptions used in the BP Model as presented below:

Granted to Employees	2015
Average risk-free interest rate	2.62%~3.01%
Exercise multiple	2~3
Expected forfeiture rate (post-vesting)	0%~8%
Weighted average expected option life	7
Volatility rate	52%~54%
Dividend yield	0%
Fair value	5.23~7.03

Table of Contents**Option Modification**

In the first and second quarter of 2013, a portion of the share options granted under the Sogou 2010 Share Incentive Plan and the Sohu Management Sogou Share Option Arrangement were exercised early, and the resulting Sogou ordinary shares were transferred to trusts with the original option grantees as beneficiaries. The trusts will distribute the shares to those beneficiaries in installments based on the vesting requirements under the original option agreements. Although these trust arrangements caused a modification of the terms of these share options, the modification was not considered substantive. Accordingly, no incremental fair value related to these shares resulted from the modification, and the remaining share-based compensation expense for these shares will continue to be recognized over the original remaining vesting period.

As of June 30, 2015, options for the purchase of 15,320,000 shares granted under the Sogou 2010 Share Incentive Plan and options for the purchase of 612,500 shares granted under the Sohu Management Sogou Share Option Arrangement, or options for the purchase of a total of 15,932,500 shares, had been exercised early but had not been distributed to the beneficiaries of the trusts. All of the early-exercised shares that were distributed to those beneficiaries by the trusts in accordance with the vesting requirements under the original option agreements have been included in the disclosures under the headings *Sogou 2010 Share Incentive Plan* and *Share-based Awards to Sohu Management* above.

Tencent Share-based Awards Granted to Employees Who Transferred to Sogou with Soso Search-related Businesses

Certain persons who became Sogou employees when Tencent's Soso search-related businesses were transferred to Sogou on September 16, 2013 had been granted restricted share units under Tencent's share award arrangements prior to the transfer of the businesses to Sogou. These Tencent restricted share units will continue to vest under the original Tencent share award arrangements provided the transferred employees continue to be employed by Sogou during the requisite service period. After the transfer of the Soso search-related businesses to Sogou, Sogou applied the guidance in ASC 505-50 to measure the related compensation expense, based on the then-current fair value at each reporting date, which is deemed to have been incurred by Tencent as an investor on Sogou's behalf. To determine the then-current fair value of the Tencent restricted share units granted to these employees, the public market price of the underlying shares at each reporting date was applied. Because Sogou is not required to reimburse Tencent for such share-based compensation expense, the related amount was recorded by Sogou as a capital contribution from Tencent.

As of June 30, 2015, unvested Tencent restricted share unit awards held by these employees provided for the issuance of up to 408,800 ordinary shares of Tencent, taking into consideration a five-for-one split of Tencent's shares that became effective in May 2014. Share-based compensation expense of \$0.9 million and \$2.4 million related to these Tencent restricted share units was recognized in the Group's consolidated statements of comprehensive income for the three and six months ended June 30, 2015. As of June 30, 2015, there was \$2.1 million of unrecognized compensation expense related to these unvested restricted share units. This amount is expected to be recognized over a weighted average period of 2.38 years.

3) Changyou.com Limited Share-based Awards**Changyou's 2008 Share Incentive Plan**

Changyou's 2008 Share Incentive Plan (the *Changyou 2008 Share Incentive Plan*) originally provided for the issuance of up to 2,000,000 ordinary shares, including ordinary shares issued pursuant to the exercise of share options and upon vesting and settlement of restricted share units. The 2,000,000 reserved shares became 20,000,000 ordinary shares in March 2009 when Changyou effected a ten-for-one share split of its ordinary shares. Most of the awards granted under

the Changyou 2008 Share Incentive Plan vest over a period of four years. The maximum term of any share right granted under the Changyou 2008 Share Incentive Plan is ten years from the grant date. The Changyou 2008 Share Incentive Plan will expire in August 2018.

Through June 30, 2015, Changyou had granted under the Changyou 2008 Share Incentive Plan 15,000,000 ordinary shares to its former chief executive officer Tao Wang, through Prominence Investments Ltd., which is an entity that may be deemed under applicable rules of the Securities and Exchange Commission to be beneficially owned by Tao Wang. As of June 30, 2015, Changyou had also granted under the Changyou 2008 Share Incentive Plan restricted share units, settleable upon vesting by the issuance of an aggregate of 4,664,598 ordinary shares, to certain members of its management other than Tao Wang, and certain other Changyou employees.

For the three and six months ended June 30, 2015, total share-based compensation expense recognized for awards under the Changyou 2008 Share Incentive Plan was \$31,000 and negative \$11,000, respectively. The negative \$11,000 resulted from Changyou's reversal of share-based compensation expense for restricted share units that were cancelled during the first quarter of 2015 due to termination of employment prior to vesting. For the three and six months ended June 30, 2014, total share-based compensation expense recognized for awards under the Changyou 2008 Share Incentive Plan was \$0.5 million and \$0.7 million, respectively.

Table of Contents

i) Share-based Awards granted before Changyou's IPO

All of the restricted ordinary shares and restricted share units granted before Changyou's IPO became vested in 2012 and 2013, respectively. Hence there was no share-based compensation expense recognized with respect to such restricted ordinary shares and restricted share units since their respective vesting dates.

ii) Share-based Awards granted after Changyou's IPO

Through June 30, 2015, in addition to the share-based awards granted before Changyou's IPO, Changyou had granted restricted share units, settleable upon vesting with the issuance of an aggregate of 1,631,726 ordinary shares, to certain members of its management other than Tao Wang and to certain of its other employees. These restricted share units are subject to vesting over a four-year period commencing on their grant dates. Share-based compensation expense for such restricted share units is recognized on an accelerated basis over the requisite service period. The fair value of restricted share units was determined based on the market price of Changyou's ADSs on the grant date.

A summary of activity for these restricted share units as of and for the six months ended June 30, 2015 is presented below:

Restricted Share Units	Number of Units (in thousands)	Weighted-Average Grant-Date Fair Value
Unvested at January 1, 2015	220	\$ 14.09
Granted	0	
Vested	(47)	14.92
Forfeited	(54)	14.12
Unvested at June 30, 2015	119	13.75
Expected to vest after June 30, 2015	113	13.77

For the three and six months ended June 30, 2015, total share-based compensation expense recognized for the above restricted share units was \$31,000 and negative \$11,000, respectively. The negative \$11,000 resulted from Changyou's true-up of share-based compensation expense for forfeited restricted share units that would have become fully vested during the first quarter of 2015. For the three and six months ended June 30, 2014, total share-based compensation expense recognized for the above restricted share units was \$0.5 million and \$0.7 million, respectively.

As of June 30, 2015, there was \$0.7 million of unrecognized compensation expense related to these unvested restricted share units. The expense is expected to be recognized over a weighted average period of 1.03 years. The total fair value of these restricted share units vested during the three and six months ended June 30, 2015 was \$0.4 million and \$0.7 million, respectively. The total fair value of these restricted share units vested during the three and six months ended June 30, 2014 was \$0.01 million and \$0.44 million, respectively.

Changyou 2014 Share Incentive Plan

On June 27, 2014, Changyou reserved 2,000,000 of its Class A ordinary shares under the Changyou.com Limited 2014 Share Incentive Plan (the "Changyou 2014 Share Incentive Plan") for the purpose of making share incentive awards to certain members of its management and key employees. On November 2, 2014, the number of Class A ordinary shares reserved under the Changyou 2014 Share Incentive Plan increased from 2,000,000 to 6,000,000. As of June 30, 2015, 1,602,000 shares were available for grant under the Changyou 2014 Share Incentive Plan.

i) Summary of share option activity

On November 2, 2014, Changyou approved the contractual grant of an aggregate of 2,416,000 Class A restricted share units to certain members of its management and certain other employees. On February 16, 2015, Changyou's Board of Directors approved the conversion of 2,400,000 of these Class A restricted share units into options for the purchase of Class A ordinary shares at an exercise price of \$0.01. On June 1, 2015, Changyou's Board of Directors approved the legal grant of options for the purchase of an aggregate of 1,998,000 Class A restricted share units to certain members of its management and certain other employees at an exercise price of \$0.01.

Table of Contents

These options provide for vesting in four equal installments over a period of four years, with each installment vesting upon satisfaction of a service period requirement and the achievement of certain subjective performance targets. The grant date had not been established as of June 30, 2015, because a mutual understanding had not been reached between Changyou and the recipients clarifying the subjective performance requirements. Compensation expense for these options is accrued commencing on the service inception date and is re-measured based on the then-current fair value of the options on each subsequent reporting date until the grant date is established. To determine the fair value of these share options, the public market price of the underlying shares at each reporting date was used and a binomial valuation model was applied.

For the three and six months ended June 30, 2015, share-based compensation expense recognized for these share options under the Changyou 2014 Share Incentive Plan was \$7.1 million and \$11.0 million, respectively.

ii) Summary of restricted share unit activity

As of June 30, 2015, Changyou had contractually granted under the 2014 Share Incentive Plan an aggregate of 16,000 Class A restricted share units to an employee. These Class A restricted share units are subject to vesting over a four-year period commencing on their grant dates. The fair values as of the grant dates of the restricted share units were determined based on market price of Changyou's ADSs on the grant dates.

A summary of activity for these restricted share units as of and for the six months ended June 30, 2015 is presented below:

Restricted Share Units	Number of Units (in thousands)	Weighted-Average Grant-Date Fair Value
Unvested at January 1, 2015	16	\$ 12.64
Granted	0	
Vested	0	
Forfeited	(16)	12.64
Unvested at June 30, 2015	0	
Expected to vest after June 30, 2015	0	

For both the three and six months ended June 30, 2015, share-based compensation expense recognized for these restricted share units under the Changyou 2014 Share Incentive Plan was negative \$43,000 and negative \$17,000, respectively, due to termination of employment during the second quarter of 2015, prior to vesting. As of June 30, 2015, there was no unrecognized compensation expense for these restricted share units, as all of them had been forfeited.

4) Sohu Video Share-based Awards

On January 4, 2012, Sohu Video adopted the Video 2011 Share Incentive Plan, under which 25,000,000 ordinary shares of Sohu Video are reserved for the purpose of making share incentive awards to management and key employees of Sohu Video and to Sohu management. The maximum term of any share incentive award granted under

the Video 2011 Share Incentive Plan is ten years from the grant date. The Video 2011 Share Incentive Plan will expire on January 3, 2021. As of June 30, 2015, grants of options for the purchase of 16,368,200 ordinary shares of Sohu Video had been contractually made under the Video 2011 Share Incentive Plan, and options for the purchase of 4,972,800 ordinary shares were vested.

For the three and six months ended June 30, 2015, total share-based compensation expense recognized for vested options under the Video 2011 Share Incentive Plan was \$0.9 million and \$0.1 million, respectively. For both the three and six months ended June 30, 2014, total share-based compensation expense recognized for vested options under the Video 2011 Share Incentive Plan was \$4.2 million.

The fair value of the options contractually granted to management and key employees of Sohu Video and to Sohu management was estimated on the reporting date using the BP Model, with the following assumptions used:

Assumptions Adopted	2015
Average risk-free interest rate	2.58%
Exercise multiple	2.8
Expected forfeiture rate (post-vesting)	10%
Weighted average expected option life	6.5
Volatility rate	58.1%
Dividend yield	0%
Fair value	0.83

11. Changyou Share Repurchase

On July 27, 2013, Changyou's Board of Directors authorized a share repurchase program of up to \$100 million of the outstanding ADSs of Changyou over a two-year period from July 27, 2013 to July 26, 2015.

During the six months ended June 30, 2015, Changyou repurchased under the share repurchase program 52,446 of its ADSs, representing 104,892 ordinary shares, at an aggregate cost of approximately \$1.33 million. As of June 30, 2015, Changyou had repurchased under the share repurchase program 807,246 of its ADSs, representing 1,614,492 ordinary shares, at an aggregate cost of approximately \$22.1 million.

12. Sogou Transactions

On October 22, 2010, Sogou issued and sold 24.0 million, 14.4 million and 38.4 million, respectively, of its newly-issued Series A Preferred Shares to Alibaba Investment Limited, a subsidiary of Alibaba Group Holding Limited (Alibaba); China Web; and Photon for \$15 million, \$9 million, and \$24 million, respectively. On June 29, 2012, Sohu purchased Alibaba's 24.0 million Sogou Series A Preferred Shares for a purchase price of \$25.8 million.

On September 16, 2013, Sogou entered into a series of agreements with Tencent, Sohu Search and Photon pursuant to which Sogou issued Series B Preferred Shares and Class B Ordinary Shares to Tencent for a net amount of \$448 million in cash and Tencent transferred its Soso search-related businesses and certain other assets to Sogou (collectively, the Sogou-Tencent Transactions). Also on that date, Sogou entered into Repurchase Option Agreements with Sohu Search and Photon, and a Repurchase/Put Option Agreement with China Web, with respect to all of the Series A Preferred Shares of Sogou held by Sohu Search and China Web, and a portion of the Series A Preferred Shares of Sogou held by Photon. Also on that date, Sogou, Sohu Search, Photon, Mr. Xiaochuan Wang, four other members of Sogou's management (collectively, the Sohu Parties) and Tencent entered into a Shareholders Agreement (the Shareholders Agreement) under which the parties agreed to vote their Sogou shares in all elections of directors to elect three designees of Sohu Search and two designees of Tencent.

On September 17, 2013, Sogou paid a special dividend to the three holders of Series A Preferred Shares of Sogou in the aggregate amount of \$300.9 million, of which Sohu Search received \$161.2 million, Photon received \$43.0 million, and China Web received \$96.7 million.

On December 2, 2013, Tencent invested \$1.5 million in cash in Sogou Information, which is a VIE of Sogou, as additional consideration in connection with the Sogou-Tencent Transactions, in return for a 45% equity interest in Sogou Information. Through a share pledge agreement and an exclusive equity interest purchase right agreement between Tencent and Sogou Technology, and similar agreements between the other two shareholders of Sogou Information, Sogou Technology controls all shareholder voting rights in Sogou Information, has the power to direct the activities of Sogou Information, and is the primary beneficiary of Sogou Information, and Tencent and the other two shareholders of Sogou Information act as Sohu Technology's nominees.

On March 24, 2014, Sogou purchased from China Web, pursuant to the Repurchase/Put Option Agreement between Sogou and China Web, 14.4 million Series A Preferred Shares of Sogou, for an aggregate purchase price of \$47.3 million.

In June 2014, Sogou repurchased approximately 4.2 million of its Class A Ordinary Shares from noncontrolling shareholders, a majority of whom were employees of the Group, for an aggregate purchase price of \$41.6 million.

Pursuant to the Shareholders Agreement, the Sohu Group will hold approximately 52% of the total voting power and control the election of the Board of Directors of Sogou, assuming that the remaining repurchase options are exercised, Tencent's non-voting Class B Ordinary Shares are converted to voting shares, and all share options under the Sogou 2010 Share Incentive Plan and all share options under the Sohu Management Sogou Share Option Arrangement are granted and exercised. As Sohu.com Inc. is the controlling shareholder of Sogou, Sohu.com Inc. consolidates Sogou in the Group's consolidated financial statements, and recognizes noncontrolling interest reflecting economic interests in Sogou held by shareholders other than Sohu.com Inc.

Sohu's Shareholding in Sogou

As of June 30, 2015, Sogou had outstanding a combined total of 357,471,338 ordinary shares and preferred shares held as follows:

(i) Sohu.com Inc.:

132,806,250 Class A Ordinary Shares and 24,000,000 Series A Preferred Shares. Of the Class A Ordinary Shares, 5,606,250 shares are subject to purchase from Sohu.com Inc. under options held by Sohu management and key employees. All of the 24,000,000 Series A Preferred Shares are subject to repurchase by Sogou commencing March 16, 2014;

(ii) Photon:

38,400,000 Series A Preferred Shares, of which 6,400,000 are subject to repurchase by Sogou commencing March 16, 2014;

(iii) Tencent:

6,757,875 Class A Ordinary Shares, 65,431,579 Series B Preferred Shares and 79,368,421 non-voting Class B Ordinary Shares; and

(iv) Various employees of Sogou and Sohu: 10,707,213 Class A Ordinary Shares.

Because no ordinary shares will be issued with respect to share options granted by Sogou until they are vested and exercised, share options granted by Sogou that have not vested and vested share options that have not yet been exercised are not included as outstanding shares of Sogou and have no impact on the Sohu Group's basic net income per share. Unvested share options with performance targets achieved and vested share options that have not yet been exercised do, however, have a dilutive impact on the Sohu Group's dilutive net income per share. See Note 14 Net Income/(Loss) per Share.

Terms of Sogou Preferred Shares

In connection with the Sogou-Tencent Transactions, Sogou's shareholders adopted a Fifth Amended and Restated Memorandum of Association and Second Amended and Restated Articles of Association (together, the Revised Sogou Memorandum and Articles), which became effective on September 16, 2013. The following is a summary of some of the key terms of the Sogou Series A Preferred Shares and Series B Preferred Shares (collectively, the Sogou Preferred Shares) under the Revised Sogou Memorandum and Articles.

Dividend Rights

Sogou may not declare or pay dividends on its Class A Ordinary Shares or Class B Ordinary Shares (collectively, Ordinary Shares) unless the holders of the Sogou Preferred Shares then outstanding first receive a dividend on each outstanding Preferred Share in an amount at least equal to the sum of (i) the dividends that would have been payable

to the holder of such Preferred Share if such share had been converted into Ordinary Shares, at the then-applicable conversion rate, immediately prior to the record date for such dividend, and (ii) all accrued and unpaid Accruing Dividends. Accruing Dividends are calculated from the date of issuance of the Series A Preferred Shares at the rate per annum of \$0.0375 per Series A Preferred Share and from the date of issuance of the Series B Preferred Shares at the rate per annum of \$0.411 per Series B Preferred Share.

Liquidation Rights

In the event of any Liquidation Event, such as the liquidation, dissolution or winding up of Sogou, a merger or consolidation of Sogou resulting in a change of control, the sale of substantially all of Sogou's assets or similar events, the holders of Series B Preferred Shares are entitled to receive an amount per share equal to the greater of (i) \$6.847 plus any unpaid Accruing Dividends or (ii) such amount per share as would have been payable if the Series B Preferred Shares had been converted into Ordinary Shares prior the Liquidation Event, and holders of Series A Preferred Shares are entitled to receive, after payment to the holders of the Series B Preferred Shares but before any payment to holders of Ordinary Shares, an amount equal to the greater of (i) 1.3 times their original investment in the Series A Preferred Shares plus all accrued but unpaid Accruing Dividends or (ii) such amount per share as would be payable if the Series A Preferred Shares had been converted into Ordinary Shares immediately prior to the Liquidation Event.

Redemption Rights

The Sogou Preferred Shares are not redeemable at the option of the holders.

Table of Contents**Conversion Rights**

Each Sogou Preferred Share is convertible, at the option of the holder, at any time, and without the payment of additional consideration by the holder. Each Sogou Preferred Share is convertible into such number of Class A Ordinary Shares as is determined, in the case of Series A Preferred Shares, by dividing \$0.625 by the then-effective conversion price for Series A Preferred Shares, which is initially \$0.625, and, in the case of Series B Preferred Shares, by dividing \$7.267 by the then-effective conversion price for Series B Preferred Shares, which is initially \$7.267. The conversion prices of the Sogou Preferred Shares are subject to adjustment on a weighted average basis upon the issuance of additional equity shares, or securities convertible into equity shares, at a price per share less than \$0.625, in the case of Series A Preferred Shares, or less than \$7.267, in the case of Series B Preferred Shares, subject to certain customary exceptions, such as shares issued pursuant to the Sogou 2010 Share Incentive Plan. Each Sogou Preferred Share will be automatically converted into Class A Ordinary Shares of Sogou upon the closing of a qualified IPO of Sogou based on the then-effective conversion ratio of such Sogou Preferred Share, which is currently one-for-one for both Series A Preferred Shares and Series B Preferred Shares.

Voting Rights

Each holder of Sogou Preferred Shares is entitled to cast the number of votes equal to the number of Class A Ordinary Shares into which the Sogou Preferred Shares held by such holder are then convertible.

Other Rights

The holders of Sogou Preferred Shares have various other rights typical of preferred share investments.

Terms of Sogou Class A Ordinary Shares and Class B Ordinary Shares

The Class A Ordinary Shares and Class B Ordinary Shares have identical rights, except that Class B Ordinary Shares do not have voting rights unless the holders of at least a majority of the then outstanding Class B Ordinary Shares elect, by written notice to Sogou, to convert them into shares with voting rights.

13. Noncontrolling Interest

The primary majority-owned subsidiaries and VIEs of the Sohu Group which are consolidated in its consolidated financial statements with noncontrolling interest recognized are Sogou and Changyou.

Noncontrolling Interest for Sogou

Since Sohu.com Inc. controls the election of the Board of Directors of Sogou, Sohu.com Inc. is Sogou's controlling shareholder. Therefore, Sogou's financial results have been consolidated with those of Sohu.com Inc. for all periods presented. To reflect the economic interest in Sogou held by shareholders other than Sohu.com Inc. (the Sogou noncontrolling shareholders), Sogou's net income/(loss) attributable to the Sogou noncontrolling shareholders is recorded as noncontrolling interest in the Sohu Group's consolidated statements of comprehensive income. Sogou's cumulative results of operations attributable to the Sogou noncontrolling shareholders, along with changes in shareholders' equity/(deficit) and adjustment for share-based compensation expense in relation to those share-based awards which are unvested and vested but not yet settled and the Sogou noncontrolling shareholders' investments in Sogou Preferred Shares and Ordinary Shares are accounted for as a noncontrolling interest classified as permanent equity in the Sohu Group's consolidated balance sheets, as the Sohu Group has the right to reject a redemption requested by the noncontrolling interest. These treatments are based on the terms governing investment, and on the

terms of the classes of Sogou shares held, by the noncontrolling shareholders in Sogou.

By virtue of these terms, Sogou's losses have been and will be allocated in the following order:

- (i) net losses were allocated to holders of Sogou Class A Ordinary Shares and the holder of Sogou Class B Ordinary Shares until their basis in Sogou decreased to zero;
- (ii) additional net losses were allocated to holders of Sogou Series A Preferred Shares until their basis in Sogou decreased to zero;
- (iii) additional net losses will be allocated to the holder of Sogou Series B Preferred Shares until its basis in Sogou decreases to zero; and
- (iv) further net losses will be allocated between Sohu.com Inc. and noncontrolling shareholders based on their shareholding percentage in Sogou.

Table of Contents

Net income from Sogou has been, and future net income from Sogou will be, allocated in the following order:

- (i) net income will be allocated between Sohu.com Inc. and noncontrolling shareholders based on their shareholding percentage in Sogou until their basis in Sogou increases to zero;
- (ii) additional net income will be allocated to the holder of Sogou Series B Preferred Shares to bring its basis back;
- (iii) additional net income will be allocated to holders of Sogou Series A Preferred Shares to bring their basis back;
- (iv) further net income will be allocated to holders of Sogou Class A Ordinary Shares and the holder of Sogou Class B Ordinary Shares to bring their basis back; and
- (v) further net income will be allocated between Sohu.com Inc. and noncontrolling shareholders based on their shareholding percentage in Sogou.

Noncontrolling Interest for Changyou

As Sohu.com Inc. is Changyou's controlling shareholder, Changyou's financial results have been consolidated with those of Sohu.com Inc. for all periods presented. To reflect the economic interest in Changyou held by shareholders other than Sohu.com Inc. (the Changyou noncontrolling shareholders), Changyou's net income/(loss) attributable to the Changyou noncontrolling shareholders is recorded as noncontrolling interest in the Sohu Group's consolidated statements of comprehensive income, based on their share of the economic interest in Changyou. Changyou's cumulative results of operations attributable to the Changyou noncontrolling shareholders, along with changes in shareholders' equity, adjustment for share-based compensation expense in relation to those share-based awards which are unvested and vested but not yet settled and adjustment for changes in Sohu.com Inc.'s ownership in Changyou, are recorded as noncontrolling interest in the Sohu Group's consolidated balance sheets.

Noncontrolling Interest in the Consolidated Balance Sheets

As of June 30, 2015 and December 31, 2014, noncontrolling interest in the consolidated balance sheets was \$566.5 million and \$487.2 million, respectively.

	As of	
	December 31, 2014	June 30, 2015
	(in thousands)	(in thousands)
Sogou	\$ 145,538	\$ 188,511
Changyou	341,707	378,018
Total	\$ 487,245	\$ 566,529

Noncontrolling Interest of Sogou

As of June 30, 2015 and December 31, 2014, noncontrolling interest of Sogou of \$188.5 million and \$145.5 million, respectively, was recognized in the Sohu Group's consolidated balance sheets, representing Sogou's cumulative results of operations attributable to shareholders other than Sohu.com Inc.; Sogou's share-based compensation expense; the investments of shareholders other than Sohu.com Inc. in Preferred Shares and Ordinary Shares of Sogou; the repurchase of Sogou Series A Preferred Shares from China Web on March 24, 2014; and Sogou's repurchase of Class A Ordinary Shares from noncontrolling shareholders in June 2014.

Noncontrolling Interest of Changyou

As of June 30, 2015 and December 31, 2014, noncontrolling interest of Changyou of \$378.0 million and \$341.7 million, respectively, was recognized in the Sohu Group's consolidated balance sheets, representing as of both dates a 32% economic interest in Changyou's net assets held by shareholders other than Sohu.com Inc. and reflecting the reclassification of Changyou's share-based compensation expense from shareholders' additional paid-in capital to noncontrolling interest.

Table of Contents***Noncontrolling Interest in the Consolidated Statements of Comprehensive Income***

For the three and six months ended June 30, 2015, net income attributable to the noncontrolling interest in the consolidated statements of comprehensive income was \$38.7 million and \$65.2 million, respectively, compared to a net loss attributable to the noncontrolling interest of \$9.4 million and \$14.4 million, respectively, for the three and six months ended June 30, 2014.

	Three Months Ended June 30,		Six Months Ended June 30,

Others	188	0	765	0
Total	\$ (9,443)	\$ 38,682	\$ (14,378)	\$ 65,203

Noncontrolling Interest of Sogou

For the three months ended June 30, 2015 and 2014, \$25.9 million in net income attributable to the noncontrolling interest of Sogou and a \$9.9 million net loss attributable to the noncontrolling interest of Sogou, respectively, was recognized in the Sohu Group's consolidated statements of comprehensive income/(loss), representing Sogou's net income/(loss) attributable to shareholders other than Sohu.com Inc.

Noncontrolling Interest of Changyou

For the three months ended June 30, 2015 and 2014, \$12.8 million and \$0.2 million, respectively, net income attributable to the noncontrolling interest of Changyou, representing the 32% economic interest in Changyou attributable to shareholders other than Sohu.com Inc. for both periods, was recognized in the Sohu Group's consolidated statements of comprehensive income.

14. Net Income /(Loss) per Share

Basic net income /(loss) per share is computed using the weighted average number of common shares outstanding during the period. Diluted net income /(loss) per share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. Potential common shares comprise shares issuable upon the exercise or settlement of share-based awards using the treasury stock method. The dilutive effect of share-based awards with performance requirements is not considered before the performance targets are actually met. The computation of diluted net income /(loss) per share does not assume conversion, exercise, or contingent issuance of securities that would have an anti-dilutive effect (i.e. an increase in earnings per share amounts or a decrease in loss per share amounts) on net income /(loss) per share. For the three and six months ended June 30, 2015, 72,000 and 80,000, respectively, common shares potentially issuable upon the exercise or settlement of share-based awards using the treasury stock method were anti-dilutive and excluded from the denominator for calculation of diluted net loss per share.

Additionally, for purposes of calculating the numerator of diluted net income /(loss) per share, the net income /(loss) attributable to Sohu.com Inc. is adjusted as follows. The adjustment will not be made if there is an anti-dilutive effect.

- (1) Sogou's net income /(loss) attributable to Sohu.com Inc. is determined using the percentage that the weighted average number of Sogou shares held by Sohu.com Inc. represents of the weighted average number of Sogou Preferred Shares and Ordinary Shares, shares issuable upon the conversion of convertible preferred shares under the if-converted method, and shares issuable upon the exercise or settlement of share-based awards under the treasury stock method, and is not determined by allocating Sogou's net income /(loss) to Sohu.com Inc. using the methodology for the calculation of net income /(loss) attributable to the Sogou noncontrolling shareholders discussed in Note 13 Noncontrolling Interest.

In the calculation of Sohu.com Inc.'s diluted net income /(loss) per share, assuming a dilutive effect, the percentage of Sohu.com Inc.'s shareholding in Sogou was calculated by treating convertible preferred shares issued by Sogou as having been converted at the beginning of the period and unvested share options with the performance targets achieved as well as vested but unexercised share options as having been exercised during the period. The dilutive effect of share-based awards with a performance requirement was not considered before the performance targets were actually met. The effect of this calculation is presented as incremental dilution from Sogou in the table below. Assuming an anti-dilutive effect, all of these Sogou shares and share options are excluded from the calculation of Sohu.com Inc.'s diluted income /(loss) per share. As a result, Sogou's net income /(loss) attributable to Sohu.com Inc. on a diluted basis equals the number used for the calculation of Sohu.com Inc.'s basic net income /(loss) per share.

Table of Contents

For the three and six months ended June 30, 2015, all of these Sogou shares and share options had an anti-dilutive effect, and therefore were excluded from the calculation of Sohu.com Inc.'s diluted net loss per share, and incremental dilution from Sogou in the table below was zero.

- (2) Changyou's net income /(loss) attributable to Sohu.com Inc. is determined using the percentage that the weighted average number of Changyou shares held by Sohu.com Inc. represents of the weighted average number of Changyou ordinary shares and shares issuable upon the exercise or settlement of share-based awards under the treasury stock method, and not by using the percentage held by Sohu.com Inc. of the total economic interest in Changyou, which is used for the calculation of basic net income per share.

In the calculation of Sohu.com Inc.'s diluted net income /(loss) per share, assuming a dilutive effect, all of Changyou's existing unvested restricted share units, and vested restricted share units that have not yet been settled, are treated as vested and settled by Changyou under the treasury stock method, causing the percentage of the weighted average number of shares held by Sohu.com Inc. in Changyou to decrease. As a result, Changyou's net income /(loss) attributable to Sohu.com Inc. on a diluted basis decreased accordingly. The effect of this calculation is presented as incremental dilution from Changyou in the table below. Assuming an anti-dilutive effect, all of these Changyou restricted share units are excluded from the calculation of Sohu.com Inc.'s diluted net income /(loss) per share. As a result, Changyou's net income /(loss) attributable to Sohu.com Inc. on a diluted basis equals the number used for the calculation of Sohu.com Inc.'s basic net income /(loss) per share.

For the three and six months ended June 30, 2015, all of these Changyou restricted share units had a dilutive effect, and therefore were included in the calculation of Sohu.com Inc.'s diluted net loss per share. This impact is presented as incremental dilution from Changyou in the table below.

On March 24, 2014 Sogou purchased from China Web 14.4 million Series A Preferred Shares of Sogou for an aggregate purchase price of \$47.3 million. The transaction gave rise to a deemed dividend amounting to \$27.7 million, which was deemed to have been contributed by Sohu.com Inc., as a holder of ordinary shares of Sogou, for the difference between the price Sogou paid to China Web for the Series A Preferred Shares and the carrying amount of these 14.4 million Series A Preferred Shares in the Group's consolidated financial statements. This deemed dividend has been subtracted from net loss attributable to Sohu.com Inc. for the six months ended June 30, 2014 in the table below when calculating the basic and diluted net loss per share attributable to Sohu.com Inc.

The following table presents the calculation of Sohu.com Inc.'s basic and diluted net loss per share (in thousands, except per share data).

15. Recently Issued Accounting Pronouncements

In February 2015, the FASB issued *Consolidation (Topic 810) Amendments to the Consolidation Analysis*. The amendments in Topic 810 respond to stakeholders' concerns about the current accounting for consolidation of variable interest entities, by changing aspects of the analysis that a reporting entity must perform to determine whether it should consolidate such entities. Under the amendments, all reporting entities are within the scope of Subtopic 810-10, *Consolidation Overall*, including limited partnerships and similar legal entities, unless a scope exception applies. The amendments are intended to be an improvement to current U.S. GAAP, as they simplify the codification of FASB Statement No. 167, *Amendments to FASB Interpretation No. 46(R)*, with changes including reducing the number of consolidation models through the elimination of the indefinite deferral of Statement 167 and placing more emphasis on risk of loss when determining a controlling financial interest. The amendments are effective for publicly-traded companies for fiscal years beginning after December 15, 2015, and for interim periods within those fiscal years. Earlier adoption is permitted. The Group is currently evaluating the impact on its consolidated financial statements of adopting this guidance.

16. Subsequent Events

In July, 2015, Changyou repurchased under Changyou's share repurchase program (see Note 11- Changyou Share Repurchase) 557,600 ADSs, representing 1,115,200 ordinary shares, at an aggregate cost of approximately \$12.9 million. Changyou's share repurchase program expired on July 26, 2015. As of July 26, 2015, Changyou had repurchased under the share repurchase program an aggregate of 1,364,846 Changyou ADSs, representing 2,729,692 ordinary shares, at an aggregate cost of approximately \$35 million.

OVERVIEW

Sohu.com Inc. (NASDAQ: SOHU), a Delaware corporation organized in 1996, is a leading Chinese online media, search and game service group providing comprehensive online products and services on PCs and mobile devices in the People's Republic of China (the PRC or China). Our businesses are conducted by Sohu.com Inc. and its subsidiaries and variable interest entities (VIEs) (collectively referred to as the Sohu Group or the Group). The Sohu Group consists of Sohu, which when referred to in this report, unless the context requires otherwise, excludes the businesses and the corresponding subsidiaries and VIEs of Sogou Inc. (Sogou) and Changyou.com Limited (Changyou), Sogou and Changyou. Sogou and Changyou are indirect controlled subsidiaries of Sohu.com Inc. Sohu is a leading Chinese language online media content and services provider. Sogou is a leading online search, client software and mobile Internet product provider in China. Changyou is a leading online game developer and operator in China as measured by the popularity of its PC game TLBB and its mobile game TLBB 3D, and engages primarily in the development, operation and licensing of online games for PCs and mobile devices. Most of our operations are conducted through our indirect wholly-owned and majority-owned China-based subsidiaries and VIEs.

Factors and Trends Affecting our Business

With the accelerated shift in user activities from desktop computers (PCs) to mobile devices and an increase in the number of Internet users, the usage of various kinds of mobile Internet services continued to accelerate at a fast pace during the second quarter of 2015. As of the end of June 2015, according to CNNIC, mobile internet users had reached 594 million, an increase of 7% from the end of 2014. At Sohu, we focused our efforts on developing a portfolio of leading mobile products across our business lines that we believed our users would like. Our key products continued to gain traction in terms of traffic. For example, during the second quarter of 2015, mobile traffic for online video increased by 66% as compared to the corresponding period in 2014 and contributed more than 60% of our total traffic. Sogou posted strong growth in search traffic and as of the end of June 2015 mobile search traffic nearly equaled PC search traffic. The monetization of mobile traffic is also progressing well, as advertisers have begun to increase their budgets allocated to this area.

For Sohu Media Portal, the transition from a PC portal to a leading mobile news platform is well on track. In the second quarter, we focused our efforts on improving our popular mobile news products. For example, we refined the design of the Sohu News mobile app, allowing people to conveniently set their own preferences. In the meantime, we strove to generate unique content to drive up traffic.

Online video is one of the top Internet services in China, and Sohu Video is a leading video service provider in China. We noted an accelerating trend away from television toward streaming video, which is important specifically to Sohu's online video business, as advertising dollars shift from television to online video. In the second quarter of 2015 we saw user base expansion and increased advertising revenues generated from our video business. In the meantime, as competition intensified, the major players stepped up their content spending to attract viewers. The average licensing fee for premium content grew significantly as compared to 2014. As a result, despite solid revenue growth, our online video business continued to incur operating losses. We expect that the industry-wide unfavorable cost structure will continue to overshadow the profitability outlook for the entire industry, including us, in the near term. We remain optimistic about the long-term prospects of the online video business, which is a strategic key business line for Sohu. For 2015, our content strategy has been to rationalize our spending on licensed content while we focus more on original and professionally-generated content.

On September 16, 2013, we entered into a strategic cooperation with Tencent Holding Limited (Tencent Holding Limited together with its subsidiaries, Tencent) for our search and Web directory business, in connection with which Tencent invested in Sogou. We believe that this strategic cooperation has reinforced Sogou as a leader in the large and

fast-growing China market for search and Internet services, particularly for the mobile end. In the online search sector, Sogou is one of the top three PC search players in China, and we have demonstrated greater potential in mobile search. With deepening cooperation with Tencent's various products, Sogou has brought unique capabilities to its mobile search and further enhanced its competitiveness. Improving search quality and expanding channels helped Sogou to grow its search traffic quickly. As of the end of June 2015, aggregate search traffic had continued to increase, and mobile search traffic had jumped more than 110% year over year. In the second quarter of 2015, aggregate paid clicks and cost-per-click continued to grow, with improving mobile monetization.

Table of Contents

For Changyou's PC game business, Tian Long Ba Bu (TLBB), a PC game which we developed and currently operate in China, continues to deliver solid revenues and profitability. However, initial performance from new PC games launched recently was less promising, and Changyou plans to be conservative in rolling out new PC games going forward. For Changyou's mobile game business, revenues from TLBB 3D, which was launched in the fourth quarter of 2014, declined sequentially by roughly 20%, which is consistent with the general life cycle of a mobile game. We expect further decline in TLBB 3D's revenue in the second half of the year. Changyou launched two new mobile games in the second quarter in 2015, but the results were less than satisfactory. Nonetheless, Changyou will continue to scale up research and development efforts with improved operating efficiencies and remains committed to introducing high quality mobile games to the market. For the three months ended June 30, 2015, the PC games and mobile games that Changyou operates had approximately 10.1 million total average monthly active accounts and approximately 2.5 million total average monthly active paying accounts. Changyou's platform channel business achieved further margin improvements as a result of continued efforts in cost rationalization.

Our Business

Through the operation of Sohu, Sogou and Changyou, we generate online advertising revenues (including brand advertising revenues and search and Web directory revenues), online games revenues and others revenues. Online advertising and online games are our core businesses. For the three months ended June 30, 2015, total revenues generated by Sohu, Sogou and Changyou were approximately \$493.6 million, including:

Sohu:

\$136.1 million in brand advertising revenues, of which \$52.3 million was from Sohu Media Portal, \$56.8 million was from Sohu Video, and \$27.0 million was from Focus; and

\$8.3 million in others revenues, mainly attributable to Sohu's offering of mobile-related services and mobile products, and sub-licensing of purchased video content to third parties.

Total revenues generated by Sohu were \$144.4 million.

Sogou:

\$135.2 million in search and Web directory revenues (formerly referred to as search and others revenues); and

\$12.2 million in others revenues, primarily attributable to Sogou's offering of Internet value-added services (or IVAS) with respect to the operation of Web games and mobile games as well as other services and products provided to users.

Total revenues generated by Sogou were \$147.4 million.

Changyou:

\$172.4 million in online game revenues;

\$14.7 million in brand advertising revenues, mainly attributable to Changyou's 17173.com Website; and

\$14.7 million in others revenues attributable to Changyou's operation of the platform channel business, including RaidCall, the Dolphin Browser and other software applications; and Changyou's cinema advertising revenues. Total revenues generated by Changyou were \$201.8 million.

For the three months ended June 30, 2015 our total brand advertising revenues were \$150.8 million, total search and Web directory revenues were \$135.2 million, total online game revenues were \$172.4 million, and total others revenues were \$35.2 million.

Sohu's Business

Brand Advertising Business

Sohu's main business is the brand advertising business, which offers to users, over our matrices of Chinese language online media, various content, products and services across multiple Internet-enabled devices, such as PCs, mobile phones and tablets. The majority of our products and services are provided through Sohu Media Portal, Sohu Video and Focus.

Sohu Media Portal. Sohu Media Portal provides our users comprehensive online content, including news, entertainment, sports, automobile, business and finance, through www.sohu.com for PCs, the mobile portal m.sohu.com and the mobile phone application Sohu News APP;

Revenues generated by the brand advertising business are classified as brand advertising revenues in our consolidated statements of comprehensive income.

Others Business

Sohu also engages in the others business, which includes mobile-related services and mobile products offered in cooperation with China mobile network operators to mobile phone users and to China mobile network operators, and sub-licensing of purchased video content to third parties. Revenues generated by Sohu from the others business are classified as others revenues in our consolidated statements of comprehensive income.

Sogou's Business

Search and Web Directory Business

The search and Web directory business primarily offers advertisers pay-for-click services, as well as online marketing services on Web directories operated by Sogou. Pay-for-click services enable advertisers' promotional links to be displayed on the Sogou search result pages and Sogou Website Alliance members' Websites where the links are relevant to the subject and content of such Web pages. Both pay-for-click services and online marketing services on Web directories operated by Sogou expand distribution of our advertisers' Website links and advertisements by leveraging traffic on Sogou Website Alliance members' Websites. Our search and Web directory business benefits significantly from our collaboration with Tencent, which provides us access to traffic generated from users of products and services provided by Tencent.

Revenues generated by the search and Web directory business are classified as search and Web directory revenues in our consolidated statements of comprehensive income.

Others Business

Sogou also engages in the others business by primarily offering IVAS with respect to the operation of Web games and mobile games developed by third parties as well as other services and products provided to users. Revenues generated by Sogou from the others business are classified as others revenues in our consolidated statements of comprehensive income.

Changyou's Business

Changyou has three businesses, consisting of the online game business, the platform channel business and the others business.

Online Game Business

Changyou's online game business offers to game players PC games which are online games designed primarily for playing on PCs; mobile games, which are played on mobile devices with an Internet connection; and Web games, which are online games played over the Internet using a Web browser. Changyou's PC games and mobile games are mainly MMOGs, which are interactive online games that may be played simultaneously by hundreds of thousands of game players. All of Changyou's games are operated under the item-based revenue model, where game players play the games for free but can purchase virtual items to enhance the game-playing experience. Revenues derived from the operation of online games are classified as online game revenues in the Sohu Group's consolidated statements of comprehensive income.

Platform Channel Business

Changyou also owns and operates a number of Web properties and software applications for PCs and mobile devices (collectively referred to as platform channels), including the 17173.com Website, one of the leading information portals for game players in China; RaidCall, which provides online music and entertainment services, primarily in Taiwan; and the Dolphin Browser, a gateway to a host of user activities on mobile devices, with the majority of its users based in Europe, Russia and Japan. Changyou's platform channels serve various needs of its users and help Changyou reach more user communities and conduct cross-promotions of its games and services. Revenues generated by 17173.com Website are classified as brand advertising revenues, and revenues generated by RaidCall and the Dolphin Browser are classified as others revenues in our consolidated statements of comprehensive income.

Others Business

Changyou also operates a cinema advertising business, which consists of Changyou offering slots for advertisements to be shown in cinemas before the screening of movies. Revenues generated by Changyou's cinema advertising business are classified as others revenues in our consolidated statements of comprehensive income.

Table of Contents**CRITICAL ACCOUNTING POLICIES AND MANAGEMENT ESTIMATES**

Our discussion and analysis of our financial condition and results of operations relates to our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, costs and expenses, and related disclosures. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Identified below are the accounting policies that reflect our more significant estimates and judgments, and those that we believe are the most critical to fully understanding and evaluating our consolidated financial statements.

Basis of Consolidation

Our consolidated financial statements include the accounts of Sohu.com Inc. and its direct and indirect wholly-owned and majority-owned subsidiaries and consolidated VIEs. All intercompany transactions are eliminated.

VIE Consolidation

Our VIEs are wholly or partially owned by certain of our employees as nominee shareholders. For our consolidated VIEs, management made evaluations of the relationships between us and our VIEs and the economic benefit flow of contractual arrangements with the VIEs. In connection with such evaluation, management also took into account the fact that, as a result of such contractual arrangements, we control the shareholders' voting interests in these VIEs. As a result of such evaluation, management concluded that we are the primary beneficiary of our consolidated VIEs. Our Group has three VIEs that are not consolidated, since we are not the primary beneficiary.

Noncontrolling Interest Recognition

Noncontrolling interests are recognized to reflect the portion of the equity of majority-owned subsidiaries and VIEs which is not attributable, directly or indirectly, to the controlling shareholder. Currently, the noncontrolling interests in our consolidated financial statements primarily consist of noncontrolling interests for Sogou and Changyou.

Noncontrolling Interest for Sogou

As we control the election of the Board of Directors of Sogou, we are Sogou's controlling shareholder. Accordingly, we consolidate Sogou in our consolidated financial statements, and recognize noncontrolling interest reflecting economic interests in Sogou held by shareholders other than us. To reflect the economic interest in Sogou held by shareholders other than us (the Sogou noncontrolling shareholders), Sogou's net income /(loss) attributable to the Sogou noncontrolling shareholders is recorded as noncontrolling interest in our consolidated statements of comprehensive income. Sogou's cumulative results of operations attributable to the Sogou noncontrolling shareholders, along with changes in shareholders' equity /(deficit) and adjustment for share-based compensation expense in relation to those share-based awards which are unvested and vested but not yet settled and the Sogou noncontrolling shareholders' investments in Sogou Preferred Shares and Ordinary Shares are accounted for as a noncontrolling interest classified as permanent equity in our consolidated balance sheets, as we have the right to reject a redemption requested by the noncontrolling interest. These treatments are based on the terms governing investment, and on the terms of the classes of Sogou shares held, by the noncontrolling shareholders in Sogou.

By virtue of these terms, Sogou's losses have been and will be allocated in the following order:

- (i) net losses were allocated to holders of Sogou Class A Ordinary Shares and the holder of Sogou Class B Ordinary Shares until their basis in Sogou decreased to zero;
- (ii) additional net losses were allocated to holders of Sogou Series A Preferred Shares until their basis in Sogou decreased to zero;
- (iii) additional net losses will be allocated to the holder of Sogou Series B Preferred Shares until its basis in Sogou decreases to zero; and
- (iv) further net losses will be allocated between Sohu.com Inc. and noncontrolling shareholders based on their shareholding percentage in Sogou.

Table of Contents

Net income from Sogou has been, and future net income from Sogou will be, allocated in the following order:

- (i) net income will be allocated between Sohu.com Inc. and noncontrolling shareholders based on their shareholding percentage in Sogou until their basis in Sogou increases to zero;
- (ii) additional net income will be allocated to the holder of Sogou Series B Preferred Shares to bring its basis back;
- (iii) additional net income will be allocated to holders of Sogou Series A Preferred Shares to bring their basis back;
- (iv) further net income will be allocated to holders of Sogou Class A Ordinary Shares and the holder of Sogou Class B Ordinary Shares to bring their basis back; and
- (v) further net income will be allocated between Sohu.com Inc. and noncontrolling shareholders based on their shareholding percentage in Sogou.

Noncontrolling Interest for Changyou

As of June 30, 2015, we held approximately 68% of the combined total of Changyou's outstanding ordinary shares, and controlled approximately 95% of the total voting power in Changyou. As we are Changyou's controlling shareholder, we consolidate Changyou in our consolidated financial statements, and recognize noncontrolling interest reflecting the economic interest in Changyou held by shareholders other than us.

To reflect the economic interest in Changyou held by shareholders other than us (Changyou noncontrolling shareholders), Changyou's net income/(loss) attributable to the Changyou noncontrolling shareholders is recorded as noncontrolling interest in our consolidated statements of comprehensive income, based on their share of the economic interest in Changyou. Changyou's cumulative results of operations attributable to the Changyou noncontrolling shareholders, along with changes in shareholders' equity, adjustment for share-based compensation expense in relation to those share-based awards which are unvested and vested but not yet settled and adjustment for changes in Sohu's ownership in Changyou, are recorded as noncontrolling interest in our consolidated balance sheets.

Segment Reporting

Our Group's segments are business units that offer different services and are reviewed separately by the chief operating decision maker (the CODM), or the decision making group, in deciding how to allocate resources and in assessing performance. The CODM is Sohu.com Inc.'s Chief Executive Officer.

Revenue Recognition

We recognize revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable, and collectability is reasonably assured. The recognition of revenues involves certain management judgments. The amount and timing of our revenues could be materially different for any period if management made different judgments or utilized different estimates.

Barter trade transactions in which physical goods or services (other than advertising services) are received in exchange for advertising services are recorded based on the fair values of the goods and services received. For online advertising-for-online advertising barter transactions, no revenue or expense is recognized because the fair value of neither the advertising surrendered nor the advertising received is determinable.

Online Advertising Revenues

Online advertising revenues include revenues from brand advertising services as well as search and Web directory services. We recognize revenue for the amount of fees we receive from our advertisers, after deducting agent rebates and net of value-added tax (VAT) and related surcharges.

Brand Advertising Revenues

Business Model

Through PCs and mobile devices, we provide advertisement placements to our advertisers on different Website channels and in different formats, which include banners, links, logos, buttons, full screen, pre-roll, mid-roll, post-roll video screens, pause video screens, loading page ads, news feed ads and in-feed video infomercial ads.

Table of Contents

Currently we have four main types of pricing models, consisting of the Fixed Price model, the Cost Per Impression (CPM) model, the E-commerce model, and the Cost Per click (CPC) model

Fixed Price model

Under the Fixed Price model, a contract is signed to establish a fixed price for the advertising services to be provided.

CPM model

Under the CPM model, the unit price for each qualifying display is fixed, but there is no overall fixed price for the advertising services stated in the contract with the advertiser. A qualifying display is defined as the appearance of an advertisement, where the advertisement meets criteria specified in the contract. Advertising fees are charged to the advertisers based on the unit prices and the number of qualifying displays.

E-commerce model

Under the e-commerce model, revenues were mainly generated from sales of membership cards which allow potential home buyers to purchase specified properties from real estate developers at a discount greater than the price that Focus charges for the card. Membership fees are refundable until the potential home buyer uses the discounts to purchase properties. Focus recognizes such revenues upon obtaining confirmation that the membership card has been redeemed to purchase a property.

CPC model

Under the CPC model, there is no overall fixed price for advertising services stated in the contract with the advertiser. We charge advertisers on a per-click basis when the users click on the advertisements. The unit price for each click is fixed or auction-based.

Revenue Recognition

For brand advertising revenue recognition, prior to entering into contracts, we make a credit assessment of the advertiser. For contracts for which collectability is determined to be reasonably assured, we recognize revenue when all revenue recognition criteria are met. In other cases, we only recognize revenue when the cash is received and all other revenue recognition criteria are met.

In accordance with *ASU No. 2009-13*, we treat advertising contracts with multiple deliverable elements as separate units of accounting for revenue recognition purposes and to recognize revenue on a periodic basis during the contract when each deliverable service is provided. Since the contract price is for all deliverables, we allocate the arrangement consideration to all deliverables at the inception of the arrangement on the basis of their relative selling prices.

Search and Web Directory Revenues

Search and Web directory services primarily include pay-for-click services, as well as online marketing services on Web directories operated by Sogou.

Pay-for-click Services

Pay-for-click services are services that enable our advertisers promotional links to be displayed on Sogou search result pages and Sogou Website Alliance members Websites where the links are relevant to the subject and content of such Web pages. For pay-for-click services, we introduce Internet users to our advertisers through our auction-based pay-for-click systems and charge advertisers on a per-click basis when the users click on the displayed links. Revenue for pay-for-click services is recognized on a per-click basis when the users click on the displayed links.

Online Marketing Services on Web Directories Operated by Sogou

Online marketing services on Web directories operated by Sogou mainly consist of displaying advertisers Website links on the Web pages of Web directories. Revenue for online marketing services on Web directories operated by Sogou is normally recognized on a straight-line basis over the contract period, provided our obligations under the contract have been met and all revenue recognition criteria have been met.

Table of Contents

Both pay-for-click services and online marketing services on Web directories operated by Sogou expand distribution of advertisers' Website links or advertisements by leveraging traffic on Sogou Website Alliance members' Websites. We recognize gross revenue for the amount of fees we receive from advertisers, as we have the primary responsibility for fulfillment and acceptability. Payments made to Sogou Website Alliance members are included in cost of search and Web directory revenues as traffic acquisition costs. We pay Sogou Website Alliance members based on either revenue-sharing arrangements, under which we pay a percentage of pay-for-click revenues generated from clicks by users of their properties, or on a pre-agreed unit price.

Online Game Revenues

Changyou's online game business offers to game players PC games, mobile games and Web games. All of Changyou's games are operated under the item-based revenue model, where the basic game play functions are free of charge and players are charged for purchases of in-game virtual items, including those with a predetermined expiration time and perpetual virtual items. Revenues that Changyou generates from self-operated and licensed out online games are included in online game revenues.

Self-Operated Games

Changyou is the primary obligor of its self-operated games. Changyou hosts the games on its own servers and is responsible for the sale and marketing of the games as well as customer service. Accordingly, revenues are recorded gross of revenue sharing-payments to third-party developers and/or mobile app stores, but are net of business tax and discounts to game card distributors where applicable. Revenues obtained by Changyou from the sale of in-game virtual items are recognized over the estimated lives of the virtual items purchased by game players or as the virtual items are consumed. If different assumptions were used in deriving the estimated lives of the virtual items, the timing of the recording of the revenues would be impacted.

PC Games

Proceeds from the self-operation of PC games are collected from players and third-party game card distributors through sales of Changyou's game points on its online payment platform and prepaid game cards. Self-operated PC games are either developed in house or licensed from third-party developers. For licensed PC games, Changyou remits a pre-agreed percentage of the proceeds to the third-party developers, and keeps the balance pursuant to revenue-sharing agreements. Such revenue-sharing amounts paid to third-party developers are recorded in Changyou's cost of revenues.

Mobile Games

For self-operated mobile games, Changyou sells game points to its game players via third-party mobile app stores. The mobile app stores in turn pay Changyou proceeds after deducting their share of pre-agreed revenue-sharing amounts.

Self-operated mobile games are either developed in house or licensed from or jointly developed with third-party developers. For licensed and jointly developed mobile games, Changyou remits a pre-agreed percentage of the proceeds to the third-party developers, and keeps the balance pursuant to revenue-sharing agreements. Such revenue-sharing amounts paid to mobile app stores and third-party developers are recorded in Changyou's cost of revenues.

Web Games

Proceeds from self-operated Web games are collected from players through the sale of game points. All of Changyou's self-operated Web games were developed in house.

Licensed Out Games

Changyou also authorizes third-parties to operate its online games. Licensed out games include PC games, mobile games and Web games developed in house and mobile games developed in house and jointly developed with third-party developers. Changyou receives monthly revenue-based royalty payments from all the third-party licensee operators. Changyou receives additional up-front license fees from certain third-party licensee operators who are entitled to an exclusive right to operate Changyou's games in specified geographic areas. Since Changyou is obligated to provide post-sale services, the initial license fees are recognized as revenue ratably over the license period, and the monthly revenue-based royalty payments are recognized when relevant services are delivered, provided that collectability is reasonably assured. Changyou views the third-party licensee operators as Changyou's customers and recognizes revenues on a net basis, as Changyou does not have the primary responsibility for fulfillment and acceptability of the game services. Changyou remits to the third-party developers a pre-agreed percentage of revenues from jointly developed and licensed out mobile games, and recognizes revenues on a net basis.

Table of Contents

Others Revenues

Sohu

Sohu also engages in the others business, which includes mobile-related services and mobile products offered in cooperation with China mobile network operators to mobile phone users and to China mobile network operators, and sub-licensing of purchased video content to third parties. Revenues generated by Sohu from the others business are classified as others revenues in our consolidated statements of comprehensive income.

Sogou

Others revenues attributable to Sogou are primarily IVAS revenues derived from the operation of Web games and mobile games of third-party developers as well as other services and products that Sogou provides to users. Revenues from IVAS are recognized when Sogou's obligations under the agreements and all other revenue recognition criteria have been met.

Changyou

Others revenues attributable to Changyou are primarily generated from its platform channel business and its others business.

In its platform channel business, Changyou offers IVAS with respect to the operation of Web games of third-party developers and services provided to software application users. Revenues from IVAS are recognized when Changyou's obligations under the agreements with the third-party developers and all other revenue recognition criteria have been met.

In its others business, Changyou provides advertisement placements in advertising slots to be shown in cinemas before the screening of movies. When all the recognition criteria are met, revenues from cinema advertising are recognized based on a percentage of the advertising slots actually delivered or on a straight-line basis over the contract period.

Share-based Compensation Expense

Sohu (excluding Fox Video Limited), Sogou, Changyou, and Fox Video Limited ("Sohu Video") have incentive plans, and prior to June 28, 2013 Road had an incentive plan, for the granting of share-based awards, including common stock or ordinary shares, share options, restricted shares and restricted share units, to members of the boards of directors, management and other key employees

For share-based awards for which a grant date has occurred, share-based compensation expense is recognized as costs and expenses in the consolidated statements of comprehensive income based on the fair value of the related share-based awards on their grant dates. For share-based awards for which the service inception date precedes the grant date, share-based compensation expense is recognized as costs and expenses in the consolidated statements of comprehensive income beginning on the service inception date and is re-measured on each subsequent reporting date before the grant date, based on the estimated fair value of the related share-based awards. Share-based compensation expense is charged to the shareholders' equity or noncontrolling interest section in the consolidated balance sheets. The assumptions used in share-based compensation expense recognition represent management's best estimates, but these estimates involve inherent uncertainties and the application of management judgment. If factors change or different assumptions are used, our share-based compensation expense could be materially different for any period. Moreover, the estimates of fair value are not intended to predict actual future events or the value that ultimately will be realized

by employees who receive equity awards, and subsequent events are not indicative of the reasonableness of the original estimates of fair value made by us for accounting purposes.

Sohu (excluding Sohu Video), Sogou, and Changyou Share-based Awards

Sohu (excluding Sohu Video) Share-based Awards

In determining the fair value of share options granted by Sohu (excluding Sohu Video) as share-based awards before 2006, the Black-Scholes valuation model was applied. In determining the fair value of restricted share units granted, the public market price of the underlying shares on the grant dates was applied.

Options for the purchase of 1,068,000 shares of Sohu common stock contractually granted on February 7, 2015 are subject to vesting in four equal installments over a period of four years, with each installment vesting upon satisfaction of a service period requirement and certain subjective performance targets. For purposes of ASC 718-10-25, no grant date had occurred as of June 30, 2015, because no grant date could be established until a mutual understanding was reached between Sohu and the recipients clarifying the subjective performance requirements. In accordance with ASC 718-10-55, as the service inception date preceded the grant date, compensation expense was accrued beginning on the service inception date and will be re-measured on each subsequent reporting date before the grant date is established, based on the then-current fair value of the awards. The estimate of the awards' fair values will be fixed in the period in which the grant date occurs, and cumulative compensation expense will be adjusted based on the fair value at the grant date. In determining the fair values of the share options granted, the public market price of the underlying shares at each reporting date was used, and a binomial valuation model was applied.

Table of Contents*Sogou Share-based Awards*

In determining the fair value of share options granted by Sogou as share-based awards, the income approach /discounted cash flow method with a discount for lack of marketability was applied, given that the shares underlying the awards were not publicly traded at the time of grant. Certain persons who became Sogou employees when Tencent's Soso search-related businesses were transferred to Sogou on September 16, 2013 had been granted restricted share units under Tencent's share award arrangements prior to the transfer of the businesses to Sogou. These Tencent restricted share units will continue to vest under the original Tencent share award arrangements provided the transferred employees continue to be employed by Sogou during the requisite service period. After the transfer of the Soso search-related businesses to Sogou, Sogou applied the guidance in *ASC 505-50* to measure the related compensation expense, based on the then-current fair value at each reporting date, which is deemed to have been incurred by Tencent as an investor on Sogou's behalf. To determine the then-current fair value of the Tencent restricted share units granted to these employees, the public market price of the underlying shares at each reporting date was applied. Because Sogou is not required to reimburse Tencent for such share-based compensation expense, the related amount was recorded by Sogou as a capital contribution from Tencent.

Changyou Share-based Awards

In determining the fair value of ordinary shares and restricted share units granted by Changyou as share-based awards in 2008, the income approach /discounted cash flow method with a discount for lack of marketability was applied, given that the shares underlying the awards were not publicly traded at the time of grant. In determining the fair value of restricted share units granted in 2009 before Changyou's initial public offering, the fair value of the underlying shares was determined based on Changyou's offering price for its initial public offering. In determining the fair value of restricted share units granted after Changyou's initial public offering, the public market price of the underlying shares on the grant dates was applied.

Options for the purchase of 2,400,000 Changyou ordinary shares that were converted to options from restricted share units on February 16, 2015 and options contractually granted on June 1, 2015 for the purchase of 1,998,000 Changyou ordinary shares awards are subject to vesting in four equal installments over a period of four years, with each installment vesting upon satisfaction of a service period requirement and certain subjective performance targets. For purposes of *ASC 718-10-25*, no grant date had occurred as of June 30, 2015, because no grant date could be established until a mutual understanding was reached between Changyou and the recipients clarifying the subjective performance requirements. In accordance with *ASC 718-10-55*, as the service inception date preceded the grant date, compensation expense was accrued beginning on the service inception date and will be re-measured on each subsequent reporting date before the grant date is established, based on the then-current fair value of the awards. The estimate of the awards' fair values will be fixed in the period in which the grant date occurs, and cumulative compensation expense will be adjusted based on the fair values at the grant date. In determining the fair values of share options granted, the public market price of the underlying shares at each reporting date was used, and a binomial valuation model was applied.

For share options, restricted shares and restricted share units granted with respect to Sohu (excluding Sohu Video) shares and Changyou shares, compensation expense is recognized on an accelerated basis over the requisite service period. For share options granted with respect to Sogou shares, compensation expense is recognized on a straight-line basis over the estimated period during which the service period requirement and performance target will be met. For Tencent restricted share units that Tencent had granted to employees who transferred to Sogou with the Soso search-related businesses, compensation expense is recognized by Sogou on an accelerated basis over the requisite service period, and the fair value of the share-based compensation is re-measured at each reporting date until a measurement date occurs. The number of share-based awards for which the service is not expected to be rendered over

the requisite period is estimated, and no compensation expense is recorded for the number of awards so estimated.

Sohu Video Share-based Awards

On January 4, 2012, Sohu Video, the holding entity of Sohu's video division, adopted a 2011 Share Incentive Plan (the Video 2011 Share Incentive Plan) which provides for the issuance of up to 25,000,000 ordinary shares of Sohu Video (representing approximately 10% of the outstanding Sohu Video Shares on a fully-diluted basis) to management and key employees of the video division and to Sohu management. As of June 30, 2015, grants of options for the purchase of 16,368,200 ordinary shares of Sohu Video had been contractually made, of which options for the purchase of 4,972,800 ordinary shares were vested.

Table of Contents

For purposes of ASC 718-10-25, as of June 30, 2015, no grant date had occurred, because the broader terms and conditions of the option awards had neither been finalized nor mutually agreed upon with the recipients, and such mutual understanding cannot be reached until the fair value of the awards is determinable and can be accounted for. In accordance with ASC 718-10-55, our management determined that the service inception date with respect to vested option awards for the purchase of 4,972,800 shares had preceded the grant date. Therefore, we began to recognize compensation expense for Sohu Video share-based awards in the second quarter of 2014 and re-measured, and will re-measure, the compensation expense on each subsequent reporting date based on the then-current fair values of the awards until the grant date is established.

7Road Share-based Awards

On July 10, 2012, 7Road adopted the 7Road 2012 Share Incentive Plan. On June 28, 2013, 7Road's Board of Directors approved the cancellation of this incentive plan. 7Road concurrently offered to a total of 42 7Road employees holding an aggregate of 2,223,750 restricted share units which had been granted under this incentive plan the right to exchange their restricted share units for, at each employee's election, in each case subject to the employee's continued employment by 7Road, either (i) Scheme I: the right to a cash payment of up to an aggregate of \$2.90 per restricted share unit exchanged, vesting and payable at the rate of 40%, 30% and 30%, respectively, on the first, second and third anniversaries of July 18, 2012, which is the date when the surrendered restricted share units were granted under the 7Road 2012 Share Incentive Plan, or (ii) Scheme II: the right to receive an annual cash bonus, over a seven-year period commencing July 1, 2013, based on the adjusted annual cumulative net income of 7Road. As of June 28, 2013, all restricted share units held by these 42 7Road employees had been included in this exchange program. In the third quarter of 2013, 7Road granted to an additional 48 7Road employees the right to receive an annual cash bonus under Scheme II with the same terms as described above.

For Scheme I, as of June 30, 2015 compensation expense of \$4.2 million had been recognized with respect to the modification, and \$30,000 will be recognized in the consolidated statements of comprehensive income ratably over the remaining vesting period of the awards. For Scheme II, the compensation expense varies depending on 7Road's financial performance.

Taxation***Income Taxes******Recognition***

Income taxes are accounted for using an asset and liability approach which requires the recognition of income taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in our financial statements or tax returns. Deferred income taxes are determined based on the differences between the accounting basis and the tax basis of assets and liabilities and are measured using the currently enacted tax rates and laws. Deferred tax assets are reduced by a valuation allowance, if based on available evidence, it is considered that it is more likely than not that some portion of or all of the deferred tax assets will not be realized. In making such determination, we consider factors including future reversals of existing taxable temporary differences, future profitability, and tax planning strategies. If events were to occur in the future that would allow us to realize more of our deferred tax assets than the presently recorded net amount, an adjustment would be made to the deferred tax assets that would increase income for the period when those events occurred. If events were to occur in the future that would require us to realize less of our deferred tax assets than the presently recorded net amount, an adjustment would be made to the valuation allowance against deferred tax assets that would decrease income for the period when those events occurred. Significant management judgment is required in determining

income tax expense and deferred tax assets and liabilities.

Our deferred tax assets relate to net operating losses and temporary differences between accounting basis and tax basis for our China-Based Subsidiaries and VIEs, which are subject to corporate income tax in the PRC under the PRC Corporate Income Tax Law (the CIT Law).

Applicable Income Tax Rate

The CIT Law applies an income tax rate of 25% to all enterprises but grants preferential tax treatment to High and New Technology Enterprises (HNTES). Under this preferential tax treatment, HNTES can enjoy an income tax rate of 15% for three years, but need to re-apply after the end of the three-year period. In addition, the CIT Law and its implementing regulations provide that a Software Enterprise can enjoy an income tax exemption for two years beginning with its first profitable year and a 50% reduction to a rate of 12.5% for the subsequent three years. An entity that qualifies as a Key National Software Enterprise can enjoy a further reduced preferential income tax rate of 10% for two years, but needs to re-apply after the end of the two-year period.

Table of Contents

Entities Qualified as HNTEs

As of June 30, 2015, the following principal entities were qualified as HNTEs and were entitled to an income tax rate of 15%.

For Sohu's Business

Sohu Internet. Sohu Internet re-applied for HNTE qualification in the second quarter of 2015. Pending approval of its re-application, Sohu Internet is entitled to continue to enjoy the beneficial tax rate as if it had already qualified as an HNTE for 2015.

Sohu Era, Sohu Media and Guangzhou Qianjun. Sohu Era, Sohu Media and Guangzhou Qianjun are each qualified as HNTEs for 2015 and 2016, and will need to re-apply for HNTE qualification in 2017.

For Sogou's Business

Sogou Information. Sogou Information re-applied for HNTE qualification in July 2015. Pending approval of its re-application, Sogou Information is entitled to continue to enjoy the beneficial tax rate as if it had already qualified as an HNTE for 2015.

Sogou Technology. Sogou Technology is qualified as an HNTE for 2015 and 2016, and will need to re-apply for HNTE qualification in 2017.

For Changyou's Business

AmazGame, Gamease and Shenzhen 7Road. AmazGame, Gamease and Shenzhen 7Road are each qualified as HNTEs for 2015 and 2016, and will need to re-apply for HNTE qualification in 2017.

Entities Qualified as Software Enterprises

For Sohu's Business

Sohu New Momentum. In 2015, Sohu New Momentum is in its second income tax exemption year as a Software Enterprise.

For Changyou Business

AmazGame. AmazGame will need to re-apply before the end 2015 for designation as a Key National Software Enterprise in order to be entitled for 2015 and 2016 to the preferential income tax rate of 10% to which it was entitled for the initial two-year period of 2013 and 2014.

Gamespace. In 2015, Gamespace is in the second of the three years in which it will be entitled to a 50% reduction to a rate of 12.5% as a Software Enterprise.

ICE Information. ICE Information was not subject to income tax, as it incurred losses.

7Road Technology. In 2015, 7Road Technology is in the first of the three years in which it will be entitled to a 50% reduction to a rate of 12.5% as a Software Enterprise.

PRC Withholding Tax on Dividends

The CIT Law imposes a 10% withholding income tax on dividends distributed by foreign-invested enterprises in the PRC to their immediate holding companies outside Mainland China. A lower withholding tax rate may be applied if there is a tax treaty or other arrangement between Mainland China and the jurisdiction of the foreign holding company. A holding company in Hong Kong, for example, will be subject to a 5% withholding tax rate under an arrangement between the PRC and the Hong Kong Special Administrative Region on the Avoidance of Double Taxation and Prevention of Fiscal Evasion with Respect to Taxes on Income and Capital , if such holding company is considered a non-PRC resident enterprise and holds at least 25% of the equity interests in the PRC foreign invested enterprise distributing the dividends, subject to approval of the PRC local tax authority. However, if the Hong Kong holding company is not considered to be the beneficial owner of such dividends under applicable PRC tax regulations, such dividend will remain subject to a withholding tax rate of 10%.

Table of Contents***PRC Value-Added Tax and Business Tax***

Revenues from the brand advertising and search and Web directory businesses, as well as online game revenues generated from licensed mobile games and from Changyou's Web game operations that were not developed in-house, are subject to VAT. VAT payable is the difference between the output VAT (at a rate of 6%) and available input VAT amount (at the rate applicable to the supplier). Revenues from 7Road that are deemed to be derived from the sale of software are subject to VAT. VAT is payable by 7Road at a rate of 17%, with a 14% immediate tax refund irrespective of the availability of any input VAT, resulting in a net rate of 3%. Other online game revenues from the operation of PC games and self-developed mobile games are subject to a 5% business tax.

We adopted the net presentation method for our brand advertising and search and Web directory businesses. We adopted the gross presentation method for revenues from in-house-developed Web games that are deemed to be derived from the sale of software.

U.S. Corporate Income Tax

Sohu.com Inc. is a Delaware corporation that is subject to U.S. corporate income tax on its taxable income at a rate of up to 35%. To the extent that Sohu.com Inc. has U.S. taxable income, which generally arises mainly from our interest income, we accrue U.S. corporate income tax in our consolidated statements of comprehensive income and make estimated tax payments as and when required by U.S. law.

Uncertain Tax Positions

We are subject to various taxes in different jurisdictions, primarily the US and the PRC. Management reviews regularly the adequacy of the provisions for taxes as they relate to our income and transactions. In order to assess uncertain tax positions, we apply a more likely than not threshold and a two-step approach for tax position measurement and financial statement recognition. For the two-step approach, the first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that is more than 50% likely to be realized upon settlement.

Net Income /(Loss) per Share

Basic net income /(loss) per share is computed using the weighted average number of common shares outstanding during the period. Diluted net income /(loss) per share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. Potential common shares comprise shares issuable upon the exercise or settlement of share-based awards using the treasury stock method. The dilutive effect of share-based awards with performance requirements is not considered before the performance targets are actually met. The computation of diluted net income /(loss) per share does not assume conversion, exercise, or contingent issuance of securities that would have an anti-dilutive effect (i.e. an increase in earnings per share amounts or a decrease in loss per share amounts) on net income /(loss) per share. Additionally, for purposes of calculating the numerator of diluted net income /(loss) per share, the net income /(loss) attributable to the Sohu Group is adjusted as follows. The adjustment will not be made if there is an anti-dilutive effect.

- (1) Sogou's net income /(loss) attributable to Sohu.com Inc. is determined using the percentage that the weighted average number of Sogou shares held by Sohu.com Inc. represents of the weighted average number of Sogou

Preferred Shares and Ordinary Shares, shares issuable upon the conversion of convertible preferred shares under the if-converted method, and shares issuable upon the exercise or settlement of share-based awards under the treasury stock method, and is not determined by allocating Sogou's net income/(loss) to Sohu.com Inc. using the methodology for the calculation of net income/(loss) attributable to the Sogou noncontrolling shareholders. In the calculation of Sohu.com Inc.'s diluted net income/(loss) per share, assuming a dilutive effect, the percentage of the Sohu.com Inc.'s shareholding in Sogou was calculated by treating convertible preferred shares issued by Sogou as having been converted at the beginning of the period and unvested share options with the performance targets achieved as well as vested but unexercised share options as having been exercised during the period. The dilutive effect of share-based awards with a performance requirement was not considered before the performance targets were actually met. Assuming an anti-dilutive effect, all of these Sogou shares and share options are excluded from the calculation of Sohu.com Inc.'s diluted income/(loss) per share. As a result, Sogou's net income/(loss) attributable to Sohu.com Inc. on a diluted basis equals the number used for the calculation of Sohu.com Inc.'s basic net income/(loss) per share.

- (2) Changyou's net income/(loss) attributable to Sohu.com Inc. is determined using the percentage that the weighted average number of Changyou shares held by Sohu.com Inc. represents of the weighted average number of Changyou ordinary shares and shares issuable upon the exercise or settlement of share-based awards under the treasury stock method, and not by using the percentage held by Sohu.com Inc. of the total economic interest in Changyou, which is used for the calculation of basic net income per share.

Table of Contents

In the calculation of Sohu.com Inc.'s diluted net income/(loss) per share, assuming a dilutive effect, all of Changyou's existing unvested restricted share units, and vested restricted share units that have not yet been settled, are treated as vested and settled by Changyou under the treasury stock method, causing the percentage of the weighted average number of shares held by Sohu.com Inc. in Changyou to decrease. As a result, Changyou's net income/(loss) attributable to Sohu.com Inc. on a diluted basis decreased accordingly. Assuming an anti-dilutive effect, all of these Changyou restricted share units are excluded from the calculation of Sohu.com Inc.'s diluted net income/(loss) per share. As a result, Changyou's net income/(loss) attributable to Sohu.com Inc. on a diluted basis equals the number used for the calculation of Sohu.com Inc.'s basic net income/(loss) per share.

Fair Value of Financial Instruments

U.S. GAAP establishes a three-tier hierarchy to prioritize the inputs used in the valuation methodologies in measuring the fair value of financial instruments. This hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three-tier fair value hierarchy is:

Level 1 - observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - include other inputs that are directly or indirectly observable in the market place.

Level 3 - unobservable inputs which are supported by little or no market activity.

Our financial instruments mainly include cash equivalents, restricted time deposits, short-term investments, accounts receivable, prepaid and other current assets, available-for-sale securities under long-term investments, held-for-sale assets, accounts payable, accrued liabilities, receipts in advance and deferred revenue, short-term bank loans, other short-term liabilities, held-for-sale liabilities, long-term accounts payable and long-term bank loans, as well as repurchase options and a put option for Sogou Series A Preferred Shares.

Cash Equivalents

Our cash equivalents mainly consist of time deposits and money market funds with original maturities of three months or less.

Restricted Time Deposits

Restricted time deposits are valued based on the prevailing interest rates in the market using the discounted cash flow method.

Collateral related to Sogou Incentive Shares Trust Arrangements

In February 2013, we deposited \$9.0 million in cash into restricted time deposit accounts at a bank as collateral for credit facilities provided by the bank to certain Sogou employees. The facilities were intended to fund the employees' early exercise of Sogou share options and related PRC individual income tax. We are not subject to any additional potential payments other than the restricted time deposit amounts, and believe that the fair value of our guarantee liability is immaterial.

Changyou Loans from Offshore Banks, Secured by Time Deposits

As of June 30, 2015, we had, through Changyou, loans from offshore banks secured by RMB deposits in onshore branches of those banks. The loans from the offshore branches of the lending banks are classified as short-term bank loans or long-term bank loans based on their repayment period. The rates of interest under the loan agreements with the lending banks were determined based on the prevailing interest rates in the market. The RMB onshore deposits securing the offshore loans are treated as restricted time deposits on our consolidated balance sheets.

Short-term Investments

For investments in financial instruments with a variable interest rate indexed to the performance of underlying assets, we elected the fair value method at the date of initial recognition and carried these investments subsequently at fair value. Changes in fair values are reflected in the consolidated statements of comprehensive income.

Table of Contents**Accounts Receivable, Net**

The carrying value of accounts receivable is reduced by an allowance that reflects our best estimate of the amounts that will not be collected. We make estimations of the collectability of accounts receivable. Many factors are considered in estimating the general allowance, including reviewing delinquent accounts receivable, performing an aging analysis and a customer credit analysis, and analyzing historical bad debt records and current economic trends. Additional allowance for specific doubtful accounts might be made if the financial conditions of our customers or the China mobile network operators deteriorate or the China mobile network operators are unable to collect fees from their end customers, resulting in their inability to make payments due to us.

Available-for-Sale Securities

Investments in debt securities and equity securities that have readily determinable fair values not classified as trading securities or as held-to-maturity securities are classified as available-for-sale securities. Available-for-sale securities are reported at fair value, with unrealized gains or losses recorded in other comprehensive income or losses in the consolidated balance sheets. Realized gains or losses are included in the consolidated statements of comprehensive income during the period in which the gain or loss is realized. An impairment loss on the available-for-sale securities is recognized in the consolidated statements of comprehensive income when the decline in value is determined to be other-than-temporary.

On August 12, 2014, Sohu acquired approximately 6% of the total outstanding common shares of Keyeast Co. Ltd., a Korean-listed company, for a purchase price of \$15.1 million. We classified this investment as available-for-sale equity securities and reported it at fair value.

Equity Investments

Investments in entities are recorded as equity investments. For entities over which we do not have significant influence, the cost method is applied; for entities over which we can exercise significant influence but do not own a majority equity interest or control, the equity method is applied. For cost method investments, we carry the investment at historical cost after the date of investment. For equity method investments, we adjust the carrying amount of an investment and recognize investment income or loss for our share of the earnings or loss of the investee after the date of investment.

Repurchase Options and Put Option for Sogou Series A Preferred Shares

In September 2013, Sogou entered into Repurchase Option Agreements with Sohu Search and Photon Group Limited (Photon), the investment vehicle of the Sohu Group's Chairman and Chief Executive Officer Dr. Charles Zhang, and a Repurchase/Put Option Agreement with China Web Search (HK) Limited (China Web), an investment vehicle of Yunfeng Capital, with respect to Series A Preferred Shares of Sogou held by them.

Sogou's repurchase options with Photon and China Web were initially recognized in additional paid-in capital in the Sohu Group's consolidated balance sheets at fair value when the agreements were signed. Any subsequent changes in the fair values of the repurchase options were not and will not be recognized. On March 24, 2014, Sogou purchased from China Web, pursuant to the Repurchase/Put Option Agreement between Sogou and China Web, 14.4 million Series A Preferred Shares of Sogou, for an aggregate purchase price of \$47.3 million. As of June 30, 2015, the remaining balance for the repurchase option with Photon in additional paid-in capital was \$1.2 million, based on the fair value of the repurchase option on September 16, 2013.

China Web's put option with Sogou was initially recognized in other short-term liabilities in the Sohu Group's consolidated balance sheets at fair value when the agreement was signed. Subsequent changes in the fair value of the put option were recognized quarterly in other income/(expense) in the Sohu Group's consolidated statements of comprehensive income. After Sogou's repurchase of the Series A Preferred Shares from China Web on March 24, 2014, the other short-term liabilities recognized with respect to China Web were reversed to zero.

Management determined the fair values of the repurchase options with Photon and China Web when the agreements were signed, and of the put option with China Web before Sogou exercised the repurchase option, using the binomial model, with a discount for lack of marketability, given that the repurchase options and the put option were not publicly traded at the time of grant. Management made the determination with the assistance of a qualified professional appraiser using management's estimates and assumptions. We classify the valuation techniques that use these inputs as Level 3 of fair value measurements.

Long-Lived Assets

Long-lived assets include fixed assets, intangible assets and prepaid non-current assets.

Table of Contents**Fixed Assets**

Fixed assets mainly comprise office buildings, leasehold improvements, building improvements, vehicles, office furniture, and computer equipment and hardware. Fixed assets are recorded at cost less accumulated depreciation with no residual value. Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

Fixed Assets	Estimated Useful Lives (years)
Office buildings	36-47
Leasehold improvements	Lesser of term of the lease or the estimated useful lives of the assets
Building improvements	10
Vehicles	4-10
Office furniture	5
Computer equipment and hardware	2-5

Expenditure for maintenance and repairs is expensed as incurred.

The gain or loss on the disposal of fixed assets is the difference between the net sales proceeds and the lower of the carrying value or fair value less cost to sell the relevant assets and is recognized in operating expenses in the consolidated statements of comprehensive income.

Intangible Assets

Intangible assets mainly comprise domain names and trademarks, developed technologies, computer software, purchased video content, cinema advertising slot rights, and operating rights for licensed games. Intangible assets are recorded at cost less accumulated amortization with no residual value. Amortization of intangible assets other than purchased video content is computed using the straight-line method over their estimated useful lives.

The estimated useful lives of our intangible assets are listed below:

Intangible Assets	Estimated Useful Lives (years)
Domain names and trademarks	4-30
Developed technologies	3-10
Computer software	1-5
Purchased video content	4 months to 2 years, or over the applicable licensing period
Cinema advertising slot rights	over the contract terms
Operating rights for licensed games	over the contract terms

Purchased Video Content and Self-produced Video Content

Purchased video content is recognized as intangible assets. Amortization of purchased video content is computed based on the trend in viewership accumulation. For self-produced video content, the production costs incurred in excess of the amount of revenue contracted are expensed as incurred, instead of being recorded as intangible assets.

Sohu Video enters into nonmonetary transactions to exchange online broadcasting rights for purchased video content with other online video broadcasting companies. Under *ASC 845*, the cost of a nonmonetary asset acquired in

exchange for another nonmonetary asset is the fair value of the asset surrendered to obtain the acquired nonmonetary asset, and a gain or loss should be recognized on the exchange. The fair value of the asset received should be used to measure the cost if the fair value of the asset received is more reliable than the fair value of the asset surrendered. We record these nonmonetary exchanges at the fair values of the online broadcasting rights for purchased video content and recognize any gain or loss from such exchange transactions.

Prepaid Non-current Assets

Prepaid non-current assets primarily include prepaid PRC income tax arising from the sale of certain assets associated with the 17173.com Website by Sohu to Changyou. The prepaid PRC income tax will be amortized over the period of the weighted average remaining life of the 17173.com Website related assets sold to Changyou.

Table of Contents***Impairment of Long-lived Assets***

In accordance with *ASC 360-10-35*, we review the carrying values of long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. Based on the existence of one or more indicators of impairment, we measure any impairment of long-lived assets using the projected discounted cash flow method at the asset group level. The estimation of future cash flows requires significant management judgment based on our historical results and anticipated results and is subject to many factors. The discount rate that is commensurate with the risk inherent in our business model is determined by our management. An impairment loss would be recorded if we determined that the carrying value of long-lived assets may not be recoverable. The impairment to be recognized is measured by the amount by which the carrying values of the assets exceed the fair value of the assets.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable assets and liabilities acquired as a result of our acquisitions of interests in our subsidiaries and consolidated VIEs. If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, we report in our financial statements provisional amounts for the items for which the accounting is incomplete. If a measurement period adjustment is identified, we recognize the adjustment as part of the acquisition accounting. We increase or decrease the provisional amounts of identifiable assets or liabilities by means of increases or decreases in goodwill for measurement period adjustments.

In accordance with *ASC 350*, we do not amortize goodwill, but test it for impairment. Goodwill is not deductible for tax purposes. We test goodwill for impairment at the reporting unit level on an annual basis as of October 1, and between annual tests when an event occurs or circumstances change that could indicate that the asset might be impaired. Commencing in September 2011, we adopted the Financial Accounting Standards Board (FASB) revised guidance on Testing of Goodwill for Impairment. Under this guidance, we have the option to choose whether we will apply the qualitative assessment first and then the quantitative assessment, if necessary, or to apply the quantitative assessment directly. For reporting units applying a qualitative assessment first, we start the goodwill impairment test by assessing qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If we determine that it is more-likely-than-not the fair value of a reporting unit is less than its carrying amount, the quantitative impairment test is mandatory. Otherwise, no further testing is required. The quantitative impairment test consists of a comparison of the fair value of goodwill with its carrying value. For reporting units directly applying the quantitative assessment, we perform the goodwill impairment test by quantitatively comparing the fair values of those reporting units to their carrying amounts.

Application of a goodwill impairment test requires significant management judgment, including the identification of reporting units, assigning assets and liabilities to reporting units, assigning goodwill to reporting units, and determining the fair value of each reporting unit. The judgment in estimating the fair value of reporting units includes estimating future cash flows, determining appropriate discount rates and making other assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value for each reporting unit.

Contingent Consideration

Changyou's acquisition of Beijing Doyo Internet Technology Co., Ltd. (Doyo) included a contingent consideration arrangement that requires additional consideration to be paid by Changyou based on the financial performance of Doyo for the fiscal years 2013 through 2015. The fair value of the contingent consideration was recognized on the acquisition date using the income approach/ discounted cash flow method with a scenario analysis applied. There were

no indemnification assets involved.

Comprehensive Income

Comprehensive income is defined as the change in equity of a company during a period from transactions and other events and circumstances excluding transactions resulting from investments from owners and distributions to owners. Accumulated other comprehensive income, as presented on our consolidated balance sheets, includes a cumulative foreign currency translation adjustment.

Functional Currency and Foreign Currency Translation

Functional Currency

An entity's functional currency is the currency of the primary economic environment in which it operates, normally that is the currency of the environment in which the entity primarily generates and expends cash. Management's judgment is essential to determine the functional currency by assessing various indicators, such as cash flows, sales price and market, expenses, financing and inter-company transactions and arrangements. The functional currency of Sohu.com Inc. is the U.S. dollar. The functional currency of our subsidiaries in the U.S., the Cayman Islands, the British Virgin Islands and Hong Kong is the U.S. dollar. The functional currencies of our subsidiaries and VIEs in other countries are the national currencies of those countries, rather than the U.S. dollar.

Table of Contents***Foreign Currency Translation***

Assets and liabilities of our subsidiaries and VIEs whose functional currencies are not the U.S. dollar are translated into U.S. dollars, our reporting currency, at the exchange rate in effect at the balance sheet date, and revenues and expenses are translated at the average exchange rates in effect during the reporting period. Foreign currency translation adjustments are not included in determining net income for the period but are accumulated in a separate component of equity in our consolidated balance sheets.

Foreign currency transactions denominated in currencies other than the functional currency are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are re-measured at the applicable rates of exchange in effect at that date. Gains and losses resulting from foreign currency re-measurement are included in the consolidated statements of comprehensive income.

RESULTS OF OPERATIONS**Revenues**

The following table presents our revenues by revenue source and by proportion for the periods indicated (in thousands, except percentages):

	Three Months Ended June 30,			Six Months Ended June 30,

Total revenues were \$493.6 million and \$948.9 million, respectively, for the three and six months ended June 30, 2015, compared to \$400.2 million and \$765.5 million, respectively, for the corresponding periods in 2014. The increase in total revenues from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$93.4 million, representing a year-on-year growth rate of 23%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$183.4 million, representing a year-on-year growth rate of 24%. The increases were mainly attributable to increases in search and Web directory revenues.

Online Advertising Revenues

Online advertising revenues were \$286.1 million and \$525.0 million, respectively, for the three and six months ended June 30, 2015, compared to \$218.5 million and \$393.9 million, respectively, for the corresponding periods in 2014. The increase in online advertising revenues from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$67.6 million, representing a year-on-year growth rate of 31%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$131.1 million, representing a year-on-year growth rate of 33%.

Table of Contents*Brand Advertising Revenues, Generated by Sohu and Changyou*

Brand advertising revenues were \$150.8 million and \$284.7 million, respectively, for the three and six months ended June 30, 2015, compared to \$133.4 million and \$244.5 million, respectively, for the corresponding periods in 2014. The increase in brand advertising revenues from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$17.4 million, representing a year-on-year growth rate of 13%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$40.2 million, representing a year-on-year growth rate of 16%. The year-on-year increases in brand advertising revenues were mainly from Sohu Video.

Sohu*Sohu Media Portal*

Revenues from Sohu Media Portal were \$52.3 million and \$97.4 million, respectively, for the three and six months ended June 30, 2015, compared to \$50.2 million and \$94.5 million, respectively, for the corresponding periods in 2014. The increase in revenues from Sohu Media Portal from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$2.1 million, representing a year-on-year growth rate of 4%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$2.9 million, representing a year-on-year growth rate of 3%. The transition of the Sohu Media Portal business from PC to mobile accelerated during the second quarter of 2015, as mobile advertising contributed more than half of Sohu Media Portal's total revenues for the first time. The number of advertisers for Sohu Media Portal was 1,664 and 2,516, respectively, for the three and six months ended June 30, 2015, compared to 1,714 and 2,162, respectively, for the corresponding periods in 2014.

Sohu Video

Revenues from Sohu Video were \$56.8 million and \$106.4 million, respectively, for the three and six months ended June 30, 2015, compared to \$42.4 million and \$74.0 million, respectively, for the corresponding periods in 2014. The increase in revenues from Sohu Video from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$14.4 million, representing a year-on-year growth rate of 34%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$32.4 million, representing a year-on-year growth rate of 44%. For Sohu Video, in order to improve monetization, we adopted a strategy of providing high-quality and differentiated content, which in turn attracted a larger number of advertisers, which drove an increase in our revenues. For the month of June 2015 compared to the month of June 2014, the average daily unique visitors and average daily video views for Sohu Video increased 14% and 8%, respectively. The pricing for online video has generally been stable. The number of advertisers for Sohu Video was 275 and 380, respectively, for the three and six months ended June 30, 2015, compared to 291 and 368, respectively, for the corresponding periods in 2014.

Focus

Revenues from Focus were \$27.0 million and \$56.5 million, respectively, for the three and six months ended June 30, 2015, compared to \$26.0 million and \$52.1 million, respectively, for the corresponding periods in 2014. The increase in revenues from Focus from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$1 million, representing a year-on-year growth rate of 4%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$4.4 million, representing a year-on-year growth rate of 8%.

Revenues from Focus were generated through the Fixed Price model and the E-commerce model.

For the Fixed Price model, revenues were \$13.1 million and \$28.9 million, respectively, for the three and six months ended June 30, 2015, compared to \$15.8 million and \$31.1 million, respectively, for the corresponding periods in 2014, representing decreases of 2.7 million and \$2.2 million, respectively, from the three months ended June 30, 2014 to the three months ended June 30, 2015 and from the six months ended June 30, 2014 to the six months ended June 30, 2015.

For the E-commerce model, revenues were \$13.9 million and \$27.6 million, respectively, for the three and six months ended June 30, 2015, compared to \$10.2 million and \$21.0 million, respectively, for the corresponding periods in 2014. The increase was mainly driven by our subscription membership services offered to prospective purchasers of real estate as a result of the expansion of the Focus business through our establishment of more partnerships with property developers. The number of developers with which we had cooperation arrangements was 454 and 634, respectively, for the three and six months ended June 30, 2015, compared to 305 and 407, respectively, for the corresponding periods in 2014. The number of paying subscribers for the membership services was 23,562 and 44,060, respectively, for the three and six months ended June 30, 2015, compared to 16,080 and 31,062, respectively, for the corresponding periods in 2014.

Table of Contents**Changyou*****17173.com Website***

Revenues from the 17173.com Website were \$14.7 million and \$24.4 million, respectively, for the three and six months ended June 30, 2015, compared to \$14.7 million and \$24.0 million, respectively, for the corresponding periods in 2014. Revenues from the 17173.com Website were stable for the three and six months ended June 30, 2015, compared to the corresponding periods in 2014. The number of advertisers on the 17173.com Website was 100 and 128, respectively, for the three and six months ended June 30, 2015, compared to 77 and 96, respectively, for the corresponding periods in 2014.

Search and Web Directory Revenues, Generated by Sogou

Revenues from search and Web directory services were \$135.2 million and \$240.3 million, respectively, for the three and six months ended June 30, 2015, compared to \$85.1 million and \$149.4 million, respectively, for the corresponding periods in 2014. The increase in revenues from search and Web directory services from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$50.1 million, representing a year-on-year growth rate of 59%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$91.0 million, representing a year-on-year growth rate of 61%.

Pay-for-click Services

Revenues from pay-for-click services accounted for approximately 83% and 82%, respectively, of the total search and Web directory revenues for the three and six months ended June 30, 2015, compared to 79% and 77%, respectively, for the corresponding periods in 2014. The growth in revenues from pay-for-click services was principally attributable to an increase in the number of paid clicks and a higher average cost-per-click. Paid clicks increased by approximately 38% and 43%, respectively, for the three and six months ended June 30, 2015, compared to the corresponding periods in 2014. Average cost-per-click increased by approximately 17% and 16%, respectively, for the three and six months ended June 30, 2015, compared to the corresponding periods in 2014.

Online Marketing Services on Web Directories Operated by Sogou

Revenues from online marketing services on Web directories operated by Sogou accounted for approximately 14% of the total search and Web directory revenues for both the three and six months ended June 30, 2015, compared to 16% and 18%, respectively, for the corresponding periods in 2014. The growth in revenues from online marketing services on Web directories operated by Sogou was primarily driven by an increase in the number of average daily unique visitors on Web directories operated by Sogou, as the number of average daily unique visitors increased by approximately 16% and 23%, respectively, for the three and six months ended June 30, 2015 compared to the corresponding periods in 2014.

Online Game Revenues Generated by Changyou

Revenues from the online game business were \$172.4 million and \$357.3 million, respectively, for the three and six months ended June 30, 2015, compared to \$153.9 million and \$317.3 million, respectively, for the corresponding periods in 2014.

PC games and Mobile Games

Revenues from PC games were \$96.4 million and \$198.1 million, respectively, for the three and six months ended June 30, 2015, compared to \$127.3 million and \$257.2 million, respectively, for the corresponding periods in 2014. The decrease in revenues from PC games from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$30.9 million, representing a year-on-year decrease rate of 24%, and the decrease from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$59.1 million, representing a year-on-year decrease rate of 23%. The year-on-year decrease in revenues from PC games was mainly due to decreased revenues from TLBB, resulting from the strategic decision to reduce the level of promotional activities within TLBB to achieve an in-game balance and a sustainable environment for game players and the game's maturity. For the three and six months ended June 30, 2015, revenues from TLBB were \$80.6 million and \$167.1 million, respectively, accounting for approximately both of 47% of Changyou's online game revenues, approximately 40% and 41%, respectively, of Changyou's total revenues and approximately 16% and 18%, respectively, of the Sohu Group's total revenues.

Revenues from mobile games were \$58.8 million and \$124.5 million, respectively, for the three and six months ended June 30, 2015, compared to \$1.6 million and \$3.5 million, respectively, for the corresponding periods in 2014. The increase in revenues from mobile games from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$57.2 million, representing a year-on-year growth rate of 3575%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$121 million, representing a year-on-year growth rate of 3457%. The increase was mainly due to revenues from Changyou's mobile game TLBB 3D, which was launched in the fourth quarter of 2014.

Table of Contents

The following table sets forth certain operating data for Changyou's PC games and mobile games for the periods indicated:

Average Monthly Active	Three Months Ended		Three Months Ended	
Accounts (1)	March 31		June 30	
(in millions)	PC games	PC games and mobile games	PC games	PC games and mobile games
2014	6.5	9.1	6.9	8.2

2014	1.5	1.5	1.4	1.5
2015	1.1	2.0	1.1	2.5

- (1) Average Monthly Active Accounts for a given period refers to the number of registered accounts that were logged in to these games at least once during the period.
- (2) Quarterly Aggregate Active Paying Accounts for a given quarter refers to the number of accounts from which game points were used at least once during the quarter.

Web Games

Revenues from Web games were \$17.2 million and \$34.7 million, respectively, for the three and six months ended June 30, 2015, compared to \$25.0 million and \$56.6 million, respectively, for the corresponding periods in 2014. The year-on-year decrease in revenues from Web games was mainly due to decreased revenues from Wartune and DDTank, which have reached a mature phase in their operation.

Others Revenues

Revenues from others services were \$35.2 million and \$66.6 million, respectively, for the three and six months ended June 30, 2015, compared to \$27.8 million and \$54.3 million, respectively, for the corresponding periods in 2014. The increase was mainly due to increased revenues from IVAS and the cinema advertisement business.

Total cost of revenues was \$221.2 million and \$443.4 million, respectively, for the three and six months ended June 30, 2015, compared to \$169.9 million and \$308.4 million, respectively, for the corresponding periods in 2014. The increase in cost of revenues from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$51.3 million, representing a year-on-year growth rate of 30%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$135.0 million, representing a year-on-year growth rate of 44%.

Cost of Online Advertising Revenues

Cost of online advertising revenues was \$158.4 million and \$312.9 million, respectively, for the three and six months ended June 30, 2015, compared to \$123.3 million and \$219.2 million, respectively, for the corresponding periods in 2014. The increase in cost of online advertising revenues from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$35.1 million, representing a year-on-year growth rate of 28%, and the increase from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$93.7 million, representing a year-on-year growth rate of 43%.

Cost of Brand Advertising Revenues

Cost of brand advertising revenues mainly consists of content and license costs, bandwidth leasing costs, salary and benefits expenses, and depreciation expenses.

Cost of brand advertising revenues was \$99.8 million and \$204.4 million, respectively, for the three and six months ended June 30, 2015, compared to \$82.9 million and \$147.0 million, respectively, for the corresponding periods in 2014.

The increase in cost of brand advertising revenues from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$16.9 million, representing a year-on-year growth rate of 20 %. The increase mainly consisted of a \$10.8 million increase in content and license costs and a \$3.7 million increase in salary and benefits expense.

The increase in cost of brand advertising revenues from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$57.4 million, representing a year-on-year growth rate of 39%. The increase mainly consisted of a \$42.7 million increase in content and license costs, a \$5.9 million increase in bandwidth leasing costs, and a \$5.8 million increase in salary and benefits expense.

Our brand advertising gross margin was 34% and 28%, respectively, for the three and six months ended June 30, 2015, as compared to 38% and 40%, respectively, for the corresponding periods in 2014. The decrease in our brand advertising gross margin was primarily due to an increase in content costs, which outpaced revenue growth.

Cost of Search and Web Directory Revenues

Cost of search and Web directory revenues mainly consists of traffic acquisition costs, bandwidth leasing costs, depreciation expenses, as well as salary and benefits expenses.

Cost of search and Web directory revenues was \$58.6 million and \$108.5 million, respectively, for the three and six months ended June 30, 2015, compared to \$40.4 million and \$72.2 million, respectively, for the corresponding periods in 2014.

Table of Contents

The increase in cost of search and Web directory revenues from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$18.1 million. The increase mainly consisted of a \$13.5 million increase in traffic acquisition costs, a \$3.6 million increase in bandwidth leasing costs and a \$1.1 million increase in depreciation expenses.

The increase in cost of search and Web directory revenues from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$36.3 million. The increase mainly consisted of a \$27.2 million increase in traffic acquisition costs, a \$7.4 million increase in bandwidth leasing costs and a \$1.7 million increase in depreciation expenses.

Our search and Web directory margin was 57% and 55%, respectively, for the three and six months ended June 30, 2015, as compared to 52% for both the three months and six months ended June 30, 2014. The increase in our search and Web directory gross margin was mainly due to increased revenues, combined with lower costs as a percentage of search and Web directory revenues.

Cost of Online Game Revenues

Cost of online game revenues mainly consists of revenue-sharing payments, salary and benefits expenses, bandwidth leasing costs, and depreciation and amortization expenses.

Cost of online game revenues was \$43.9 million and \$93.4 million, respectively, for the three and six months ended June 30, 2015, compared to \$30.3 million and \$56.8 million, respectively, for the corresponding periods in 2014.

The increase in cost of online game revenues from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$13.6 million. The increase included a \$23.6 million increase in revenue-sharing payments to mobile app stores, which was offset by a \$4.9 million decrease in salary and benefits expenses, a \$1.9 million decrease in depreciation and amortization expenses and a \$1.4 million decrease in bandwidth leasing costs.

The increase in cost of online game revenues from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$36.6 million. The increase included a \$50.9 million increase in revenue-sharing payments to mobile app stores, which was offset by a \$7.7 million decrease in salary and benefits expenses, a \$2.7 million decrease in bandwidth leasing costs and a \$2.3 million decrease in depreciation and amortization expenses.

Our online game gross margin was 75% and 74%, respectively, for the three and six months ended June 30, 2015, as compared to 80% and 82%, respectively, for the three and six months ended June 30, 2014. The decreases in our online game gross margin were mainly due to a change in the revenue mix, as Changyou launched new mobile games that typically require additional revenue-sharing payments.

Cost of Others Revenues

Cost of others revenues mainly consists of revenue-sharing payments related to the IVAS business, revenue-sharing payments paid to China mobile network operators, and payments to theatres and film production companies for pre-film screening advertisement slots.

Cost of others revenues was \$18.9 million and \$37.1 million, respectively, for the three and six months ended June 30, 2015, compared to \$16.3 million and \$32.3 million, respectively, for the corresponding periods in 2014. The increase in cost of others revenues from the three and six months ended June 30, 2014 to the three and six months ended June 30, 2015 was \$2.6 million and \$4.7 million, respectively. The increases were mainly due to revenue-sharing

payments related to the IVAS business and costs related to the cinema advertisement business.

Operating Expenses

The following table presents our operating expenses by nature and by proportion for the periods indicated (in thousands, except percentages):

Table of Contents

	Three Months Ended June 30,			2015 vs			Six Months Ended June 30,			2015 vs

General and administrative	53,246	18%	49,720	19%	(3,526)	88,600	16%	94,884	19%	6,284
Total operating expenses	\$ 292,070	100%	\$ 254,468	100%	\$ (37,602)	\$ 587,500	100%	\$ 484,951	100%	\$ (102,549)

Total operating expenses were \$254.5 million and \$485.0 million, respectively, for the three and six months ended June 30, 2015, compared to \$292.1 million and \$587.5 million, respectively, for the corresponding periods in 2014. The decrease in operating expenses from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$37.6 million, and the decrease from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$102.5 million. The decrease was mainly due to cuts in marketing and promotional spending for Changyou's mobile internet products.

Product Development Expenses

Product development expenses mainly consist of personnel-related expenses incurred for enhancement and maintenance of our Websites, costs associated with new product development and maintenance, and costs of enhancement of existing products and services, and include the development costs of online games prior to the establishment of technological feasibility and maintenance costs after the online games are available for marketing.

Product development expenses were \$100.8 million and \$203.0 million, respectively, for the three and six months ended June 30, 2015, compared to \$102.2 million and \$219.9 million, respectively, for the corresponding periods in 2014.

The decrease in product development expenses from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$1.4 million. The decrease mainly consisted of a \$1.3 million decrease in content and license costs, a \$1.1 million decrease in salary and benefits expense, and a \$1.1 million decrease in share-based compensation expense, offset by a \$2.0 million increase in depreciation and amortization expense.

The decrease in product development expenses from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$17.0 million. The decrease mainly consisted of a \$22.8 million decrease in salary and benefits expense, offset by a \$4.1 million increase in depreciation and amortization expense, and a \$1.1 million increase in share-based compensation expense. The decrease in salary and benefits expenses resulted primarily from an accrual for estimated compensation expense associated with three employee incentive plans that had been recognized by Changyou in the first quarter of 2014. Such accrual was reversed in the fourth quarter of 2014 due to lowered estimates based on management's latest reassessment of the estimated compensation liabilities for the three employee incentive plans. The three employee incentive plans were cancelled during the first quarter of 2015, and therefore no such accrual was made in the first quarter of 2015.

Sales and Marketing Expenses

Sales and marketing expenses mainly consist of advertising and promotional expenditures, salary and benefits expenses, travel expenses, and facility expenses.

Sales and marketing expenses were \$104.0 million and \$187.1 million, respectively, for the three and six months ended June 30, 2015, compared to \$136.6 million and \$279.0 million, respectively, for the corresponding periods in 2014.

The decrease in sales and marketing expenses from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$32.6 million. The decrease mainly consisted of a \$29.4 million decrease in advertising and promotional expenditures, which was mainly due to Changyou's significant reduction in marketing and promotional spending for mobile Internet products, a \$1.3 million decrease in facility expenses and a \$1.2 million decrease in salary and benefits expenses.

The decrease in sales and marketing expenses from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$91.9 million. The decrease mainly consisted of a \$87.3 million decrease in advertising and promotional expenditures, which was mainly due to Changyou's significant reduction in marketing and promotional spending for mobile Internet products, and a \$1.9 million decrease in facility expenses.

Table of Contents*General and Administrative Expenses*

General and administrative expenses mainly consist of salary and benefits expenses, share-based compensation expense, professional service fees, facility expenses, depreciation and amortization expenses and travel expenses.

General and administrative expenses were \$49.7 million and \$94.9 million, respectively, for the three and six months ended June 30, 2015, compared to \$53.2 million and \$88.6 million, respectively, for the corresponding periods in 2014.

The decrease in general and administrative expenses from the three months ended June 30, 2014 to the three months ended June 30, 2015 was \$3.5 million. The decrease mainly consisted of a \$5.1 million decrease in share-based compensation expense, and a \$3.5 million decrease in salary and benefits expenses, offset by a \$3.6 million increase in professional service fees, a \$1.6 million increase in facility expenses and a \$1.6 million increase in depreciation and amortization expenses.

The increase in general and administrative expenses from the six months ended June 30, 2014 to the six months ended June 30, 2015 was \$6.3 million. The increase mainly consisted of a \$6.7 million increase in professional service fees, a \$2.9 million increase in facility expenses, and a \$1.8 million increase in depreciation and amortization expenses, offset by a \$4.8 million decrease in salary and benefits expenses.

Table of Contents***Operating Profit /(Loss)***

For the three and six months ended June 30, 2015, we had an operating profit of \$17.9 million and \$20.6 million, respectively, compared to an operating loss of \$61.8 million and \$130.4 million, respectively, for the corresponding periods in 2014. This change was mainly due to Changyou. Changyou generated an operating profit of \$45.1 million and \$97.6 million, respectively, for the three and six months ended June 30, 2015, compared to an operating loss of \$7.0 million and \$37.0 million, respectively, for the three and six months ended June 30, 2014.

Other Income /(Loss)

We had other loss of \$0.4 million and other income of \$2.7 million, respectively, for the three and six months ended June 30, 2015, compared to other income of \$0.7 million and \$4.4 million, respectively, for the corresponding periods in 2014.

Net Interest Income

Net interest income was \$6.2 million and \$12.3 million, respectively, for the three and six months ended June 30, 2015, compared to \$8.8 million and \$17.2 million, respectively, for the corresponding periods in 2014.

Income Tax Benefit /(Expense)

Income tax expense was \$11.5 million and \$27.8 million, respectively, for the three and six months ended June 30, 2015, compared to an income tax benefit of \$1.7 million and \$1.5 million, respectively, for the corresponding periods in 2014.

The change from an income tax benefit to income tax expense was mainly due to Changyou. Changyou incurred income tax expense of \$7.5 million and \$20.0 million, respectively, for the three and six months ended June 30, 2015, compared to an income tax benefit of \$2.2 million and \$4.9 million, respectively, for the three and six months ended June 30, 2014.

Net Income /(Loss)

For the three and six months ended June 30, 2015, we had net income of \$11.5 million and \$6.9 million, respectively, compared to a net loss of \$50.5 million and \$106.6 million, respectively, for the corresponding periods in 2014.

Net Income /(Loss) Attributable to Noncontrolling Interest

Net income attributable to noncontrolling interest was \$38.7 million and \$65.2 million, respectively, for the three and six months ended June 30, 2015, compared to a net loss attributable to noncontrolling interest of \$9.4 million and \$14.4 million, respectively, for the corresponding periods in 2014.

Deemed Dividend to Noncontrolling Sogou Series A Preferred Shareholders

There was no deemed dividend to noncontrolling Sogou Series A Preferred shareholders for the three and six months ended June 30, 2015, compared to nil and \$27.7 million, respectively, for the corresponding periods in 2014.

The deemed dividend for 2014 resulted from Sogou's repurchase of 14.4 million Sogou Series A Preferred Shares from China Web, and was deemed to have been contributed by us, as a holder of ordinary shares of Sogou, in an amount

equal to the proportionate difference between the price Sogou paid to China Web for the Series A Preferred Shares and the carrying amount of these 14.4 million Series A Preferred Shares in our consolidated financial statements.

Net Loss Attributable to Sohu.com Inc.

As a result of the foregoing, we had a net loss attributable to Sohu.com Inc. of \$27.2 million and \$58.3 million, respectively, for the three and six months ended June 30, 2015, compared to a net loss attributable to Sohu.com Inc. of \$41.1 million and \$119.9 million, respectively, for the corresponding periods in 2014.

Table of Contents**LIQUIDITY AND CAPITAL RESOURCES****Resources Analysis*****Liquidity Sources and Balances***

Our principal sources of liquidity are cash and cash equivalents, short-term investments, and cash flows generated from our operations. Cash equivalents primarily comprise time deposits and money market funds. Short-term investments comprise investment instruments issued by commercial banks in China, with a variable interest rate indexed to performance of underlying assets and maturity dates within one year.

As of June 30, 2015, we had cash and cash equivalents of approximately \$1.0 billion, and short-term investments of \$197.1 million. Of our cash and cash equivalents, \$521.3 million was held in financial institutions inside Mainland China and \$480.7 million was held in financial institutions outside of Mainland China. Our VIEs held \$108.6 million of our cash and cash equivalents and \$893.7 million was held outside of our VIEs. In addition, as of June 30, 2015, we had, through Changyou, loans from offshore banks in the principal amount of \$370.0 million. These loans were secured by RMB deposits in onshore branches of those banks in the total amount of \$386.2 million, which are recognized as restricted time deposits.

We believe our current liquidity and capital resources are sufficient to meet anticipated working capital needs (net cash used in operating activities), commitments, capital expenditures, and investment activities over the next twelve months. We may, however, require additional cash resources due to changes in business conditions and other future developments, or changes in general economic conditions.

Table of Contents

For the six months ended June 30, 2014, \$227.0 million net cash used in financing activities was primarily attributable to Changyou's repayment of \$153.2 million loans to offshore banks, \$47.3 million used in Sogou's repurchase of Series A Preferred Shares of Sogou from China Web, \$24.5 million used in Sogou's repurchase of Sogou Class A Ordinary Shares from its noncontrolling shareholders, and \$2.8 million used in payment of contingent consideration by Changyou, offset by \$0.8 million received from the exercise of share-based awards.

Restrictions and Limitations on Cash Available to Sohu.com Inc.

To fund any cash requirements it may have, Sohu.com Inc. may need to rely on dividends and other distributions on equity paid by our wholly-owned subsidiary Sohu.com Limited or our majority-owned subsidiary Changyou.com Limited. Since substantially all of our operations are conducted through our indirect wholly-owned and majority-owned China-based subsidiaries and VIEs, Sohu.com Limited and Changyou.com Limited may need to rely on dividends, loans or advances made by our PRC subsidiaries in order to make dividends and other distributions to us.

The ability of Sohu.com Limited and Changyou.com Limited to receive dividends and distributions from our China-based subsidiaries and VIEs, and the amount of cash available for distribution to, and use by, Sohu.com Inc., are subject to certain restrictions and limitations related to PRC law, our VIE structure and U.S. corporate income tax. We do not expect any of such restrictions or taxes to have a material impact on our ability to meet our cash obligations.

PRC Profit Appropriation, Withholding Tax on Dividends and Regulation of Foreign Currency Exchange

Regulations in the PRC currently permit payment of dividends of a PRC company only out of accumulated profits as determined in accordance with accounting standards and regulations in China. Our China-based subsidiaries, which are wholly foreign-owned enterprises (WFOE s) under PRC law, are also required to set aside each year to their general reserves at least 10% of their after-tax profit based on PRC accounting standards, until the cumulative amount reaches 50% of their paid-in capital. These reserves may not be distributed as cash dividends, or as loans or advances. Our WFOEs may also allocate a portion of their after-tax profits, at the discretion of their Boards of Directors, to their staff welfare and bonus funds. Any amounts so allocated may not be distributed to Sohu.com Limited or Changyou.com Limited and, accordingly, would not be available for distribution to Sohu.com Inc.

The CIT Law imposes a 10% withholding income tax for dividends distributed by foreign-invested enterprises in the PRC to their immediate holding companies outside Mainland China. A lower withholding tax rate will be applied if there is a tax treaty arrangement between Mainland China and the jurisdiction of the foreign holding company. A holding company in Hong Kong, for example, will be subject to a 5% withholding tax rate under an arrangement between the PRC and the Hong Kong Special Administrative Region on the Avoidance of Double Taxation and Prevention of Fiscal Evasion with Respect to Taxes on Income and Capital if such holding company is considered a non-PRC resident enterprise and holds at least 25% of the equity interests in the PRC foreign invested enterprise distributing the dividends, subject to approval of the PRC local tax authority. However, if the Hong Kong holding company is not considered to be the beneficial owner of such dividends under applicable PRC tax regulations, such dividend will remain subject to a withholding tax rate of 10%.

Under regulations of the PRC State Administration of Foreign Exchange (SAFE), the RMB is not convertible into foreign currencies for capital account items, such as loans, repatriation of investments and investments outside of Mainland China, unless prior approval of the SAFE is obtained and prior registration with the SAFE is made.

PRC Restrictions Related to Our VIE Structure

While generally Sohu.com Inc.'s VIEs generate revenues and cash, most of those VIEs, other than those which are VIEs of Changyou.com Limited, incurred deficits as a result of significant costs involved in their operations for the three and six months ended June 30, 2015.

Substantially all of Changyou.com Limited's operations are conducted through its VIEs, which generate most of Changyou's online game revenues. Although Changyou's subsidiaries received or absorbed a majority of the VIEs profits or losses pursuant to contractual agreements between the VIEs and Changyou's PRC subsidiaries providing for payments to the subsidiaries in return for services provided to the VIEs by the PRC subsidiaries, significant cash balances remained in Changyou's VIEs as of June 30, 2015. As Changyou's VIEs are not owned by Changyou's PRC subsidiaries, the VIEs are not able to make dividend payments to the subsidiaries. Therefore, in order for Sohu.com Inc. or our subsidiaries outside of Mainland China to receive any dividends, loans or advances from Changyou's PRC subsidiaries, we will need to rely on these contractual payments made by Changyou's VIEs to Changyou's PRC subsidiaries. Depending on the nature of services provided by Changyou's PRC subsidiaries to their corresponding VIEs, certain of these payments will be subject to PRC taxes, including Business Tax and VAT, which will effectively reduce the amount that the PRC subsidiary receives from its corresponding VIE. In addition, the PRC government could impose restrictions on such payments or change the tax rates applicable to such payments.

Table of Contents***U.S. Corporate Income Tax***

Sohu.com Inc. is a Delaware corporation and is subject to corporate income tax in the United States. Although in the past Sohu.com Inc. has been able to use NOLs to offset a portion of its U.S. taxable income, at the end of its 2012 taxable year it had no further NOLs available for offsetting any U.S. taxable income. The majority of our subsidiaries and VIEs are based in China and are subject to income taxes in the PRC. These China-based subsidiaries and VIEs conduct substantially all of our operations and, as a result, we generate most of our consolidated income or losses in China. The amount of cash derived from our operations that can be used to buy back our shares of common stock in the market, paid as dividends to Sohu.com Inc.'s shareholders or used for other corporate purposes of Sohu.com Inc. may be limited by the imposition of U.S. corporate income tax on Sohu.com Inc.'s income.

In accordance with U.S. GAAP, we do not provide for U.S. federal income taxes or tax benefits on the undistributed earnings or losses of our non-U.S. subsidiaries or consolidated VIEs because, for the foreseeable future, we do not have the intention to repatriate those undistributed earnings or losses to the U.S. However, certain activities conducted in the PRC may give rise to U.S. corporate income tax, even if there are no distributions to Sohu.com Inc. U.S. corporate income taxes would be imposed on Sohu.com Inc. when its subsidiaries that are controlled foreign corporations (CFCs) generate income that is subject to Subpart F of the U.S. Internal Revenue Code (Subpart F). Passive income, such as rents, royalties, interest and dividends, is among the types of income subject to taxation under Subpart F. Any income taxable under Subpart F is taxable in the U.S. at federal corporate income tax rates of up to 35%. Subpart F income also includes certain income from intercompany transactions between Sohu.com Inc.'s non-U.S. subsidiaries and VIEs and Changyou's non-U.S. subsidiaries and VIEs, or where Sohu.com Inc.'s non-U.S. subsidiaries or VIEs make an investment in U.S. property, such as holding the stock in, or making a loan to, a U.S. corporation. Under a temporary provision of the U.S. tax code commonly referred to as the CFC look-through rule, Sohu.com Inc. has not had to treat dividends received by its CFC subsidiaries as Subpart F income includible in Sohu.com Inc.'s taxable income in the U.S. The CFC look-through rule, which is currently scheduled to expire for taxable years beginning after December 31, 2014, has been extended several times by the U.S. Congress. Unless further extended, the CFC look-through rule will be available for Sohu.com Inc.'s CFC subsidiaries and their VIEs only through their taxable years ending November 30, 2015.

Dividend Policy

The Sohu Group intends to retain all available funds and any future earnings for use in the operation and expansion of its own business, and does not anticipate paying any cash dividends on Sohu.com Inc.'s common stock or causing Changyou to pay any dividends on Changyou.com Limited's ordinary shares, including ordinary shares represented by Changyou.com Limited's ADSs, or causing Sogou to pay any dividends on Sogou.com Inc.'s ordinary shares and preferred shares, for the foreseeable future. Future cash dividends distributed by Sohu.com Inc., Changyou.com Limited, or Sogou.com Inc., if any, will be declared at the discretion of their respective Boards of Directors and will depend upon their future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and such other factors as their respective Boards of Directors may deem relevant.

OFF-BALANCE SHEET COMMITMENTS AND ARRANGEMENTS

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of third parties, except for a \$9.0 million restricted time deposit acting as collateral for credit facilities provided by a bank to certain Sogou employees. We are not subject to any additional potential payments other than the restricted time deposit amount, and believe that the fair value of our guarantee liability is immaterial. We have not entered into any derivative contracts that are indexed to our shares and classified as shareholder's equity, or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred

to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or that engages in leasing, hedging or product development services with us.

IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In February 2015, the FASB issued *Consolidation (Topic 810) Amendments to the Consolidation Analysis*. The amendments in Topic 810 respond to stakeholders' concerns about the current accounting for consolidation of variable interest entities, by changing aspects of the analysis that a reporting entity must perform to determine whether it should consolidate such entities. Under the amendments, all reporting entities are within the scope of Subtopic *810-10, Consolidation Overall*, including limited partnerships and similar legal entities, unless a scope exception applies. The amendments are intended to be an improvement to current U.S. GAAP, as they simplify the codification of FASB Statement No. 167, *Amendments to FASB Interpretation No. 46(R)*, with changes including reducing the number of consolidation models through the elimination of the indefinite deferral of Statement 167 and placing more emphasis on risk of loss when determining a controlling financial interest. The amendments are effective for publicly-traded companies for fiscal years beginning after December 15, 2015, and for interim periods within those fiscal years. Earlier adoption is permitted. We are currently evaluating the impact on our consolidated financial statements of adopting this guidance.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK****FOREIGN CURRENCY EXCHANGE RATE RISK**

While our reporting currency is the U.S. dollar, to date the majority of our revenues and costs are denominated in RMB and a significant portion of our assets and liabilities are denominated in RMB. As a result, we are exposed to foreign exchange risk as our revenues and results of operations may be affected by fluctuations in the exchange rate between the U.S. dollar and the RMB. If the RMB depreciates against the U.S. dollar, the value of our RMB revenues and assets as expressed in our U.S. dollar financial statements will decline. We do not hold any derivative or other financial instruments that expose us to substantial market risk.

The RMB is currently freely convertible under the current account, which includes dividends, trade and service-related foreign exchange transactions, but not under the capital account, which includes foreign direct investment. In addition, commencing on July 21, 2005, China reformed its exchange rate regime by changing to a managed floating exchange rate regime based on market supply and demand with reference to a basket of currencies. Under the managed floating exchange rate regime, the RMB is no longer pegged to the U.S. dollar. The exchange rate of the RMB against the U.S. dollar was adjusted to RMB8.11 per U.S. dollar as of July 21, 2005, representing an appreciation of about 2%. The People's Bank of China will announce the closing prices of foreign currencies such as the U.S. dollar traded against the RMB in the inter-bank foreign exchange market after the closing of the market on each business day, and will make such prices the central parity for trading against the RMB on the following business day. On May 19, 2007, the People's Bank of China announced a policy to expand the maximum daily floating range of RMB trading prices against the U.S. dollar in the inter-bank spot foreign exchange market from 0.3% to 0.5%. While the international reactions to the RMB revaluation and widening of the RMB's daily trading band have generally been positive, with the increased floating range of the RMB's value against foreign currencies, the RMB may appreciate or depreciate significantly in value against the U.S. dollar or other foreign currencies in the long term, depending on the fluctuation of the basket of currencies against which it is currently valued. On June 19, 2010, the People's Bank of China announced that it has decided to proceed further with the reform of the RMB exchange rate regime to enhance the flexibility of the RMB exchange rate and that emphasis would be placed on reflecting market supply and demand with reference to a basket of currencies. While so indicating its intention to make the RMB's exchange rate more flexible, the People's Bank of China ruled out any sharp fluctuations in the currency or a one-off adjustment. On April 16, 2012, the People's Bank of China announced a policy to expand the maximum daily floating range of RMB trading prices against the U.S. dollar in the inter-bank spot foreign exchange market from 0.5% to 1%. On March 17, 2014, the People's Bank of China announced a policy to further expand the maximum daily floating range of RMB trading prices against the U.S. dollar in the inter-bank spot foreign exchange market to 2%. In the long term, the RMB may appreciate or depreciate more significantly in value against the U.S. dollar or other foreign currencies, depending on the market supply and demand with reference to a basket of currencies.

To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the effectiveness of these hedges may be limited and we may not be able to successfully hedge our exposure. Accordingly, we may incur economic losses in the future due to foreign exchange rate fluctuations, which could have a negative impact on our financial condition and results of operations.

The following table sets forth a summary of our foreign currency sensitive financial instruments as of June 30, 2015. These financial instruments are recorded at their fair value.

INTEREST RATE RISK

The basic objectives of our investment program are to protect the invested funds from excessive risk and to provide for liquidity that is sufficient to meet operating and investment cash requirements. Under the investment policy, our excess cash is invested in high-quality securities which are limited as to length of time to maturity and the amount of credit exposure.

Our exposure to interest rate risk primarily relates to the interest income generated from excess cash invested in demand deposits, and interest expense generated from loans to Changyou from offshore banks. We have not used derivative financial instruments in our investment portfolio in order to reduce this risk. We have not been exposed nor do we anticipate being exposed to material risks due to changes in interest rates.

INFLATION RATE RISK

According to the National Bureau of Statistics of China, the consumer price index grew 1.3% in the first half of 2015, compared to an increase of 2.3% in the first half of 2014. While the increase in the first half of 2015 represented a decline in the rate of inflation compared to the corresponding period in 2014, there may be increases in the rate of inflation in the future, which could have a material adverse effect on our business.

ITEM 4. CONTROLS AND PROCEDURES

Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in the Securities Exchange Act of 1934 Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this quarterly report (the Evaluation Date), have concluded that as of the Evaluation Date our disclosure controls and procedures were effective and designed to ensure that all material information relating to Sohu.com Inc. required to be included in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and to ensure that information required to be disclosed is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosure.

During the period covered by this quarterly report, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

There have been no material developments in the legal proceedings reported in our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the SEC on March 2, 2015.

ITEM 1A. RISK FACTORS

There are no material changes or updates to the risk factors previously disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014 filed with the SEC on March 2, 2015.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

USE OF PROCEEDS

On July 17, 2000, Sohu.com Inc. completed an underwritten initial public offering of its common stock pursuant to a Registration Statement on Form S-1 (SEC file No. 333-96137), which became effective on July 10, 2000. Public trading of the common stock offered in the initial public offering commenced on July 12, 2000. Sohu.com Inc. sold an aggregate of 4,600,000 shares of common stock in the offering at a price to the public of \$13 per share, resulting in gross proceeds of \$59.8 million. Sohu.com Inc.'s net proceeds, after deduction of the underwriting discount of \$4.2 million and other offering expenses of \$3.2 million, were approximately \$52.4 million. All shares sold in the offering were sold by Sohu.com Inc.

During the six months ended June 30, 2015, Sohu.com Inc. did not use any proceeds from the offering. The remaining net proceeds from the offering have been invested in cash and cash equivalents. The use of the proceeds from the offering does not represent a material change in the use of proceeds described in the prospectus contained in the Registration Statement on Form S-1 described above.
