Table of Contents**SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus supplement and the accompanying prospectus may contain or incorporate by reference information that includes or is based upon forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give expectations or forecasts of future events. These statements can be identified by the fact that they do not relate strictly to historical or current facts. They use words such as anticipate, estimate, expect, project, intend, plan, believe and other words and terms of similar meaning, or are tied to future periods, in connection with a discussion of future operating or financial performance. In particular, these include statements relating to future actions, prospective services or products, future performance or results of current and anticipated services or products, sales efforts, expenses, the outcome of contingencies such as legal proceedings, trends in operations and financial results.

Any or all forward-looking statements may turn out to be wrong. They can be affected by inaccurate assumptions or by known or unknown risks and uncertainties. Many such factors will be important in determining the actual future results of MetLife. These statements are based on current expectations and the current economic environment. They involve a number of risks and uncertainties that are difficult to predict. These statements are not guarantees of future performance. Actual results could differ materially from those expressed or implied in the forward-looking statements. Risks, uncertainties, and other factors that might cause such differences include the risks, uncertainties and other factors identified in MetLife, Inc.'s filings with the SEC. These factors include: (1) difficult conditions in the global capital markets; (2) increased volatility and disruption of the capital and credit markets, which may affect our ability to meet liquidity needs and access capital, including through our credit facilities, generate fee income and market-related revenue and finance statutory reserve requirements and may require us to pledge collateral or make payments related to declines in value of specified assets, including assets supporting risks ceded to certain of our captive reinsurers or hedging arrangements associated with those risks; (3) exposure to financial and capital market risks, including as a result of the disruption in Europe and possible withdrawal of one or more countries from the Euro zone; (4) impact of comprehensive financial services regulation reform on us, as a non-bank systemically important financial institution, or otherwise; (5) numerous rulemaking initiatives required or permitted by the Dodd-Frank Wall Street Reform and Consumer Protection Act which may impact how we conduct our business, including those compelling the liquidation of certain financial institutions; (6) regulatory, legislative or tax changes relating to our insurance, international, or other operations that may affect the cost of, or demand for, our products or services, or increase the cost or administrative burdens of providing benefits to employees; (7) adverse results or other consequences from litigation, arbitration or regulatory investigations; (8) potential liquidity and other risks resulting from our participation in a securities lending program and other transactions; (9) investment losses and defaults, and changes to investment valuations; (10) changes in assumptions related to investment valuations, deferred policy acquisition costs, deferred sales inducements, value of business acquired or goodwill; (11) impairments of goodwill and realized losses or market value impairments to illiquid assets; (12) defaults on our mortgage loans; (13) the defaults or deteriorating credit of other financial institutions that could adversely affect us; (14) economic, political, legal, currency and other risks relating to our international operations, including with respect to fluctuations of exchange rates; (15) downgrades in our claims paying ability, financial strength or credit ratings; (16) a deterioration in the experience of the closed block established in connection with the reorganization of Metropolitan Life Insurance Company; (17) availability and effectiveness of reinsurance or indemnification arrangements, as well as any default or failure of counterparties to perform; (18) differences between actual claims experience and underwriting and reserving assumptions; (19) ineffectiveness of risk management policies and procedures; (20) catastrophe losses; (21) increasing cost and limited market capacity for statutory life insurance reserve financings; (22) heightened competition, including with respect to pricing, entry of new competitors, consolidation of distributors, the development of new products by new and existing competitors, and for personnel; (23) exposure to losses related to variable annuity guarantee benefits, including from significant and sustained downturns or extreme volatility in equity markets, reduced interest rates, unanticipated policyholder behavior, mortality or longevity, and the adjustment for nonperformance risk; (24) our

businesses, or arising from dispositions of businesses or legal entity reorganizations; (25) regulatory and other restrictions affecting MetLife, Inc.'s ability to pay dividends and repurchase common stock; (26) MetLife, Inc.'s primary reliance, as a holding company, on dividends from its subsidiaries to meet debt payment obligations and the applicable regulatory restrictions on the ability of the subsidiaries to pay such dividends; (27) the possibility that MetLife, Inc.'s Board of Directors may influence the outcome of stockholder votes through the voting provisions of the MetLife Policyholder Trust; (28) changes in accounting standards, practices and/or policies; (29) increased expenses relating to pension and postretirement benefit plans, as well as health care and other employee benefits; (30) inability to protect our intellectual property rights or claims of infringement of the intellectual property rights of others; (31) inability to attract and retain sales representatives; (32) provisions of laws and our incorporation documents may delay, deter or prevent takeovers and corporate combinations involving MetLife; (33) the effects of business disruption or economic contraction due to disasters such as terrorist attacks, cyberattacks, other hostilities, or natural catastrophes, including any related impact on the value of our investment portfolio, our disaster recovery systems, cyber- or other information security systems and management continuity planning; (34) the effectiveness of our programs and practices in avoiding giving our associates incentives to take excessive risks; and (35) other risks and uncertainties described from time to time in MetLife, Inc.'s filings with the SEC.

SUMMARY

This summary contains basic information about us and the offering. Because it is a summary, it does not contain all of the information that you should consider before purchasing any Senior Notes in the offering. You should read this entire prospectus supplement and the accompanying prospectus carefully, including the sections entitled Risk Factors in this prospectus supplement and the periodic reports MetLife, Inc. files with the SEC, our financial statements and the notes thereto, and the other information incorporated by reference into this prospectus supplement and the accompanying prospectus, before making an investment decision.

MetLife

MetLife is a global provider of life insurance, annuities, employee benefits and asset management. MetLife is organized into six segments, reflecting three broad geographic regions: Retail; Group, Voluntary & Worksite Benefits; Corporate Benefit Funding; and Latin America (collectively, the *Americas*); Asia; and Europe, the Middle East and Africa (*EMEA*). In addition, the Company reports certain of its results of operations in Corporate & Other.

In the first quarter of 2015, we implemented certain segment reporting changes related to the (i) measurement of segment operating earnings, which included revising our capital allocation methodology, and (ii) the realignment of consumer direct business. These changes were applied retrospectively and did not have an impact on total consolidated operating earnings or net income.

Management continues to evaluate the Company's segment performance and allocated resources and may adjust related measurements in the future to better reflect segment profitability. See Note 2 of the Notes to the Interim Condensed Consolidated Financial Statements included in the Third Quarter Form 10-Q for further information on the Company's segments and Corporate & Other.

In November 2014, MetLife Insurance Company of Connecticut (*MICC*), a wholly-owned subsidiary of MetLife, Inc., re-domesticated from Connecticut to Delaware, changed its name to MetLife Insurance Company USA and merged with its subsidiary, MetLife Investors USA Insurance Company, and its affiliate, MetLife Investors Insurance Company, each a U.S. insurance company that issued variable annuity products in addition to other products, and Exeter Reassurance Company, Ltd., a former offshore, reinsurance subsidiary of MetLife, Inc. and affiliate of MICC that mainly reinsured guarantees associated with variable annuity products (the *Mergers*). The surviving entity of the Mergers was MetLife Insurance Company USA.

In the first quarter of 2014, the Company entered into a definitive agreement to sell its wholly-owned subsidiary, MetLife Assurance Limited (*MAL*). The sale of MAL was completed in May 2014. As a result, the operations of MAL have been classified as divested business for all periods presented. See Note 3 of the Notes to the Consolidated Financial Statements included in the 2014 Form 10-K.

In the fourth quarter of 2013, MetLife, Inc. completed its acquisition of Administradora de Fondos de Pensiones Provida S.A. (*ProVida*), the largest private pension fund administrator in Chile based on assets under management and number of pension fund contributors. The acquisition of ProVida supports the Company's growth strategy in emerging markets and further strengthens the Company's overall position in Chile. See Note 3 of the Notes to the Consolidated Financial Statements included in the 2014 Form 10-K.

Investing in the Senior Notes involves a high degree of risk. In addition to the other information contained in this prospectus supplement, the accompanying prospectus and the information incorporated by reference herein and therein, you should consider carefully the following factors relating to us and the Senior Notes before making an investment in the Senior Notes offered hereby. In addition to the risk factors set forth below, please read the information included or incorporated by reference under Risk Factors in the accompanying prospectus and the 2014 Form 10-K, as updated by the First Quarter Form 10-Q. If any of the following risks or those incorporated by reference actually occur, our business, results of operations, financial condition, cash flows or prospects could be materially adversely affected, which in turn could adversely affect the market for or trading price of the Senior Notes. As a result, you may lose all or part of your original investment. The risks discussed below also include forward-looking statements, and our actual results may differ substantially from those discussed in these forward-looking statements.

The Indenture Does Not Limit the Amount of Indebtedness that MetLife, Inc. or Its Subsidiaries May Incur

Neither MetLife, Inc. nor any of its subsidiaries are restricted from incurring additional debt or other liabilities, including additional senior debt securities, under the Indenture (as defined under Description of the Senior Notes). At September 30, 2015, MetLife, Inc. had \$15.8 billion of unaffiliated senior debt outstanding. If we incur additional debt or liabilities, MetLife, Inc.'s ability to pay its obligations on the Senior Notes could be adversely affected. We expect that we will from time to time incur additional debt and other liabilities. In addition, MetLife, Inc. is not restricted from paying dividends on or issuing or repurchasing its securities under the Indenture.

There Are No Financial Covenants in the Indenture

There are no financial covenants in the Indenture. You are not protected under the Indenture in the event of a highly leveraged transaction, reorganization, change of control, restructuring, merger or similar transaction that may adversely affect you, except to the limited extent described in the accompanying prospectus under Description of the Debt Securities Consolidation, Merger, Sale of Assets and Other Transactions.

The Senior Notes Are Not Guaranteed by Any of MetLife's Subsidiaries and Are Structurally Subordinated to the Debt and Other Liabilities of Our Subsidiaries, Which Means that Creditors of Our Subsidiaries Will be Paid from Their Assets Before Holders of the Senior Notes Would Have Any Claims to Those Assets

MetLife, Inc. is a holding company and conducts substantially all of its operations through subsidiaries, which means that its ability to meet its obligations on the Senior Notes depends on its ability to receive distributions from these subsidiaries. However, the Senior Notes are obligations exclusively of MetLife, Inc. and are not guaranteed by any of its subsidiaries. As a result, the Senior Notes are structurally subordinated to all debt and other liabilities of MetLife, Inc.'s subsidiaries (including liabilities to policyholders and contractholders), which means that creditors of these subsidiaries will be paid from their assets before holders of the Senior Notes would have any claims to those assets. At September 30, 2015, MetLife, Inc.'s subsidiaries had \$3.9 billion of total debt outstanding, which includes \$162 million relating to variable interest entities and excludes intercompany liabilities.

An Active After-Market for the Senior Notes May Not Develop

The Senior Notes do not have an established trading market. We cannot assure you that an active after-market for the Senior Notes will develop or be sustained or that holders of the Senior Notes will be able to sell their Senior Notes at favorable prices or at all. Although the underwriters have indicated to us that they intend to make a market in the

Senior Notes, as permitted by applicable laws and regulations, they are not obligated to do so and may discontinue any such market-making at any time without notice. Accordingly, no assurance can be

given as to the liquidity of, or trading markets for, the Senior Notes. The Senior Notes are not listed and we do not plan to apply to list the Senior Notes on any securities exchange or to include them in any automated quotation system.

If a Trading Market Does Develop, Changes in Our Credit Ratings or the Debt Markets Could Adversely Affect the Market Price of the Senior Notes

The market price for the Senior Notes depends on many factors, including:

our credit ratings with major credit rating agencies;

the prevailing interest rates being paid by other companies similar to us;

our financial condition, financial performance and future prospects; and

the overall condition of the financial markets.

The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Such fluctuations could have an adverse effect on the price of the Senior Notes.

In addition, credit rating agencies continually review their ratings for the companies that they follow, including us. The credit rating agencies also evaluate the insurance industry as a whole and may change their credit rating for us based on their overall view of our industry. A negative change in our rating could have an adverse effect on the price of the Senior Notes.
