English Translation of Excerpts from Quarterly Securities Report Filed in Japan

This document is an English translation of selected information included in the Quarterly Securities Report for the quarter ended September 30, 2015 filed by Mitsubishi UFJ Financial Group, Inc. (MUFG or we) with the Kanto Local Financial Bureau, the Ministry of Finance of Japan, on November 27, 2015 (the Quarterly Securities Report).

The Quarterly Securities Report has been prepared and filed in Japan in accordance with applicable Japanese disclosure requirements as well as generally accepted accounting principles in Japan (J-GAAP). There are significant differences between J-GAAP and U.S. GAAP. In addition, the Quarterly Securities Report is intended to update prior disclosures filed by MUFG in Japan and discusses selected recent developments in the context of those prior disclosures. Accordingly, the Quarterly Securities Report may not contain all of the information that is important to you. For a more complete discussion of the background to information provided in the Quarterly Securities Report disclosure, please see our annual report on Form 20-F for the fiscal year ended March 31, 2015 and the other reports filed with or submitted to the U.S. Securities and Exchange Commission by MUFG.

Risks Relating to Our Business

We describe below the major developments and changes since the filing on June 25, 2015, in Japan of our annual securities report for the fiscal year ended March 31, 2015, that we believe may have a material impact on your investment decision with respect to the risks to our business and other risks. The discussion below contains forward-looking statements, which, unless specifically described otherwise, reflect our understanding as of the date of filing of the Quarterly Securities Report.

The numbering of the subheading of the risk disclosure below corresponds to the numbering of the subheading of the same risk disclosure in Risks Relating to Our Business in our most recent annual securities report filed in Japan.

18. Risks relating to competitive pressures

Competition in the Japanese financial services industry may intensify as regional financial institutions further integrate and reorganize their operations and Japan Post Holdings Co., Ltd. and its two financial subsidiaries listed their respective shares on the Tokyo Stock Exchange in November 2015. Competition in financial markets outside of Japan are also expected to increase as U.S. and European financial institutions regain their competitive strength, while local financial institutions in Asia grow their business. In addition, recent advances in information and communication technology have allowed non-financial institutions to enter the financial services industry, and such new entrants could become substantial competition to us. The ongoing global financial regulatory reforms may also lead to changes in the competitive environment for financial institutions. If we are unable to compete effectively in the increasingly competitive business environment, our business, financial condition and results of operations may be adversely affected.

Business Segment Information

1. Summary of Reporting Segment

MUFG's reporting segments are business units of MUFG for which separate financial information is available and which its executive committee regularly reviews to make decisions regarding allocation of management resources and evaluate performance.

MUFG engages in a wide range of sophisticated financial businesses through its group companies that include commercial banks, trust banks, securities companies, credit card companies and consumer finance companies. MUFG operates under an integrated business group system comprising five core business areas Retail, Corporate, Global Business, Trust Assets and Global Markets designed to enhance its operations as an integrated group. Managing its group companies under this system, MUFG provides value-added financial products and services to customers in a timely manner.

MUFG's group companies are managed using a matrix framework consisting of several business segments identified based on the integrated business group system as well as through individual group companies. To assist appropriate assessment of MUFG's future cash flow forecasts, MUFG has identified as its reporting segments the following core entities (on a consolidated basis), each operating in a different industry and regulatory environment:

The Bank of Tokyo-Mitsubishi UFJ, Ltd. (BTMU) Banking

Mitsubishi UFJ Trust and Banking Corporation (MUTB) Banking and trust banking

Mitsubishi UFJ Securities Holdings Co., Ltd. (MUSHD) Securities

Consumer Finance Subsidiaries (CFS) Credit card and consumer finance (*)

(*) Consumer finance subsidiaries include Mitsubishi UFJ NICOS Co., Ltd. and ACOM CO., LTD.

Starting this six-month period ended September 30, 2015, a subsidiary engaged in the securities business, which was previously included in the BTMU segment, is included in the MUSHD segment. This subsidiary of BTMU became a subsidiary of MUSHD on April 1, 2015, and is currently managed as part of MUSHD.

In addition, starting this six-month period ended September 30, 2015, a subsidiary engaged in the asset management business, which was previously included in the MUSHD segment, is included in the MUTB segment. This subsidiary of MUSHD merged with a subsidiary of MUTB on July 1, 2015, and is currently managed as part of MUTB.

The segment information for the six months ended September 30, 2014 has been restated to reflect the foregoing changes in reporting segments.
