#### **Revisions to Previously Announced Regulatory Capital Ratios**

**Tokyo, January 20, 2016** Mitsubishi UFJ Financial Group, Inc. (MUFG) today announced revisions to previously announced regulatory capital ratios to correct inaccuracies in such ratios and related amounts caused by incorrect adjustments applied in the computation of past regulatory capital ratios, as described in the Appendix attached hereto, which MUFG re-computed upon its discovery thereof.

(Appendix)

#### Revisions to Previously Announced Regulatory Capital Ratios and Related Amounts

(The revised ratios and amounts are underscored in the tables below.)

Revisions are made to previously announced consolidated and non-consolidated risk-adjusted capital ratios to reflect corrections of errors discovered in the risk weighting applied to certain assets, mostly residential mortgage loans, and certain other adjustments made under Basel I standards to obtain amounts that were used for floor adjustments in determining the amounts of risk-weighted assets of MUFG and the relevant subsidiaries under Basel III standards. Upon discovering the errors, MUFG re-computed the affected amounts. The following tables show the results of MUFG s re-computation of the affected amounts as of and after March 31, 2014.

With respect to amounts as of dates prior to March 31, 2014, which were also affected by similar errors to comparable degrees, MUFG plans to disclose the revised amounts in its future disclosure documents if and to the extent references are made to risk-weighted capital ratios as of such prior dates.

Except for the affected amounts described herein, the revisions to the risk-weighted capital ratios have no impact on the historical financial statements of MUFG or the relevant subsidiaries, including the amounts of allowance for credit losses, prepared in accordance with generally accepted accounting principles in Japan or the United States, as applicable.
