### **Commercial Initiatives**

During the fourth quarter, Personal continued developing its commercial strategy for the 4G smartphone segment, with the focus on the high value platform, with an aggressive commercial campaign for Mother's Day and Holidays where the change of devices was promoted, thereby increasing the access of VAS of the customers.

In line with this strategy and with the aim to expand the portfolio of 4G devices, Personal presented an evolution of its mobile internet offer with the Huawei 4G WI FI modem, that allows Personal's clients to connect anywhere and to share mobile internet access via Wi Fi with up to 10 devices simultaneously, with a data plan of up to 10 GB.

**Table of Contents**

**Fixed Services (Voice, Data & Internet)**

During FY15, revenues generated by fixed services amounted to P\$10,736 million, +25.4% vs. FY14; with Data revenues (+21.1% vs. FY14) and Internet (+40.0% vs. FY14) growing the most in the segment.

**Voice**

Total service revenues reached P\$4,339 million in FY15 (+14.7% vs. FY14). A portion of this line of business (mainly monthly charge and measured services), continued to be affected by frozen tariffs of regulated services enforced by the Argentine Government in 2002.

Revenues generated by measured services totaled P\$1,800 million, an increase of P\$259 million or +16.8% vs. FY14 mainly due to a higher penetration of flat rate packs of local and national long distance calls.

Monthly charges and supplementary services reached P\$1,406 million, an increase of P\$203 million or +16.9% vs. FY14 due to higher revenues in non-regulated supplementary services. The customer base remained stable at 4 million lines in service.

## Data and Internet

Data revenues (services mainly offered to Corporate segment and Government) amounted to P\$1,780 million (+P\$310 million or +21.1% vs. FY14), strengthening the position of Telecom as an integrated ICT provider. This increase was mainly due to FX rate variations that affected those contracts that are adjusted by the \$/U\$S exchange rate and by the increase of the client base with the *Innovative* services.

Revenues related to Internet totaled P\$4,556 million (+P\$1.302 million or +40.0% vs. FY14), mainly due to a commercial offer with higher speeds, (ultra broadband or UBB), where 10Mb was the most demanded service and currently represents 27% of the total customer base. **Consolidated Operating Costs**

Consolidated Operating Costs totaled P\$34,311 million in FY15, an increase of P\$6,366 million, or +22.8% vs. FY14 (including Results on disposal of PP&E and write-down of PP&E that resulted in a loss of P\$199 million in FY15 and a loss of P\$16 million in FY14). This increase is mainly a consequence of higher labor costs and higher costs of more sophisticated handsets.

The cost breakdown is as follows:

- Employee benefit expenses and severance payments totaled P\$7,253 million (+29.7% vs. FY14), mainly affected by increases in salaries to unionized employees due to the new collective bargaining agreement signed at the beginning of 3Q15 as well as increases in salaries to the non-unionized workforce, together with the social security contributions associated to such concepts. Total employees at the end of the period amounted to 16,224.

- Interconnection costs and other telecommunication charges (including TLRD, Roaming, Interconnection, international settlement charges and lease of circuits) amounted to P\$2,170 million, +4.6% vs. FY14. This increase resulted from higher costs related to the lease of circuits and interconnection costs of fixed telephony associated to FX fluctuation, partially compensated by lower charges for roaming.

- Fees for services, maintenance and materials and supplies amounted to P\$3,919 million (+17.6% vs. FY14), mainly due to costs increases in technical maintenance and systems licenses partially associated to the effect of the devaluation of the Peso/ U\$S FX rate, as well as higher fees for services as higher costs were recognized to suppliers in both the fixed and mobile businesses.

- Taxes and fees with regulatory authorities reached P\$3,943 million (+19.6% vs. FY14), impacted mainly by higher revenues, higher bank debit and credit taxes related to collection flows and vendor payments, and to the disbursement related to the issuance of Notes in December 2015, as well as higher municipal taxes.

- Commissions (Commissions paid to agents, prepaid card commissions and others) totaled P\$3,193 million (+28.0% vs. FY14), mainly due to the increase in commissions paid to commercial channels as well as collection fees, both associated to the increase in more sophisticated equipment sales. Agent commissions capitalized as SAC amounted to P\$1.172 million (+28.4% vs. FY14).

- Cost of handsets sold totaled P\$4,595 million (+10.9% vs. FY14), due to handsets sales with higher costs unit prices, impacted by a higher FX rate. This was partially compensated by a lower number of handsets sold. Deferred costs from SAC amounted to P\$93 million (-9.7% vs. FY14). The lower deferred costs were derived from the reduction in handset subsidies granted to clients.

- Advertising amounted to P\$814 million (+2.8% vs. FY14), mainly due to slightly higher commercial expenses when compare to FY14, related to marketing campaigns.

## **Table of Contents**

- Depreciation and Amortization reached P\$4,438 million (+36.8% vs. FY14). PP&E depreciation amounted to P\$3,046 million (+27.5% vs. FY14) resulting from the incorporation of assets related to the investment plan that the group has been executing; Amortization of SAC and service connection costs totaled P\$1,045 million (+28.9% vs. FY14); and other intangible assets reached P\$347 million (+707.0% vs. FY14) due to the acquisition of 3G and 4G licenses.

- Other Costs totaled P\$3,787 million (+27.9% vs. FY14). This increase was mainly due to VAS costs that totaled P\$1,256 million (+34.2% vs. FY14), related to the increase of sales of those services, especially in the mobile business. Bad debt expenses reached P\$564 million (+33.0% vs. FY14) representing 1.6% of consolidated costs and 1.4% of consolidated revenues.

## **Consolidated Financial Results**

Net Financial results amounted to a loss of P\$1,102 million, a decrease of P\$1,355 million or -535.6% vs. FY14. This was mainly due to losses in net financial interest of P\$526 million in FY15 (-P\$791 million vs. FY14) and losses of FX results net of NDF instruments for P\$1,140 million in FY15 (vs. a loss of P\$275 million in FY14) mainly due to the devaluation of the peso occurred during December 2015. Meanwhile, gains on mutual funds and other investments amounted to P\$601 million (+P\$312 million vs. FY14).

## **Consolidated Net Financial Position**

As of December 31, 2015, Net Financial Position (Cash, Cash Equivalents and financial Investments minus Loans) totaled P\$2,277 million in debt, a decrease of P\$3,022 million when compared to the Net Financial Position as of December 31, 2014, after the remaining payment of the 4G frequencies for an amount of P\$2,256 million and the cash dividend payment of \$804 million.

## Capital Expenditures

During FY15, the Company invested P\$10,100 million (+12.8% vs. FY14). Of this amount, P\$3,079 million were allocated to Fixed Services and P\$7,021 million to Mobile services, where P\$2,256 million corresponded to the acquisition of the 4G frequencies. In relative terms, Capex reached 24.9% of consolidated revenues vs. 26.9% in FY14.

The main capital expenditures in the fixed business were associated to the expansion of broadband services, in order to offer higher download speeds, and thus to improve the navigation experience in Internet.

In the mobile business, the acquired 3G and 4G frequencies together with the executed investments allowed to improve coverage and capacity of the access network, in order to sustain the increase in demand for Data and Internet, along with new VAS thus offering a better quality of service.

Transmission and transport networks were also expanded to meet the growing demand for services of fixed and mobile customers.
