NOAH HOLDINGS LIMITED ANNOUNCES UNAUDITED FINANCIAL RESULTS FOR THE FOURTH QUARTER AND FULL YEAR 2015

SHANGHAI, March 16, 2016 Noah Holdings Limited (Noah or the Company) (NYSE: NOAH), a leading wealth management service provider with a focus on global wealth investment and asset allocation services for high net worth individuals and enterprises in China, today announced its unaudited financial results for the fourth quarter of 2015 and the full year ended December 31, 2015.

Starting from the fourth quarter of 2015, the Company changed its reporting currency from the U.S. dollar (US\$) to the Renminbi (RMB), based on the consideration that the majority of the Company's operations are conducted in RMB, and aligning the reporting currency with the underlying operations will better depict our results of operations for each period, and reduce the impact that the increased volatility of the RMB to US\$ exchange rate will have on the Company's reported operating results. This release contains translations of certain RMB amounts into US\$ for convenience¹. Prior period numbers have been recast into the new reporting currency.

FOURTH QUARTER 2015 FINANCIAL HIGHLIGHTS

Net revenues in the fourth quarter of 2015 were RMB573.7 million (US\$88.6 million), a 47.5% increase from the corresponding period in 2014.

Mr. Kenny Lam, Group President of Noah, said, "We are very pleased with our fourth quarter and full year results. During the year, we successfully adjusted our product mix, which will both protect our clients' long-term interests and generate more recurring service fees for Noah in the coming years. Overall, 2015 was also a year of transformation for Noah. Two of our newer business units—asset management and internet finance—experienced tremendous growth and we continued to build a strong foundation for the next decade.

Looking forward, we expect that the external environment will remain volatile in the short term and we will maintain a steady hand as we steer through this period. Our aspirations and objectives remain intact and we are on track to steadily grow our share of the wealth and asset management services market in China," added Mr. Lam.

FOURTH QUARTER 2015 FINANCIAL RESULTS

Net Revenues

Net revenues for the fourth quarter of 2015 were RMB573.7 million (US\$88.6 million), a 47.5% increase from the corresponding period in 2014, primarily due to increases in one-time commission revenues, recurring service fees and performance-based income.

Wealth Management Business

Net revenues from one-time commissions for the fourth quarter of 2015 were RMB186.2 million (US\$28.7 million), a 15.4% increase from the corresponding period in 2014. The increase was primarily due to an increase in the aggregate value of the wealth management products distributed by the Company, which was partially offset by the impact of lower one-time commission rates for fixed income products along with the impact of changes in the macroeconomic environment.

Net revenues from recurring service fees for the fourth quarter of 2015 were RMB177.4 million (US\$27.4 million), a 28.4% increase from the corresponding period in 2014. The increase was mainly due to the cumulative effect of finance products with recurring service fees previously distributed by the Company.

Net revenues from performance-based income for the fourth quarter of 2015 were RMB27.0 million (US\$4.2 million), a 260.5% increase from the corresponding period in 2014, primarily consisting of performance-based income received for the positive performance of the secondary equity market fund products distributed by the Company.

Net revenues from other service fees for the fourth quarter of 2015 were RMB40.7 million (US\$6.3 million), compared with RMB4.4 million (US\$0.7 million) in the corresponding period of 2014. The increase was mainly due to the rapid growth of the Company's insurance brokerage business.

Asset Management Business

Net revenues from recurring service fees for the fourth quarter of 2015 were RMB95.5 million (US\$14.7 million), a 42.3% increase from the corresponding period in 2014. The increase was primarily due to the increase in assets under management by the Company, which was partially offset by the impact of lower management fee rates due to a change in composition of asset types under management.

Net revenues from performance-based income for the fourth quarter of 2015 were RMB30.0 million (US\$4.6 million), a 981.8% increase compared with the corresponding period in 2014, primarily consisting of performance-based income received for the positive performance of secondary equity market funds of funds managed by the Company.

Internet Finance Business

Net revenues for the fourth quarter of 2015 were RMB15.2 million (US\$2.4 million), a 102.0% increase from the corresponding period in 2014, primarily because this is a new and fast growing business segment for the Company.

Operating costs and expenses

Operating costs and expenses include compensation and benefits, selling expenses, general and administrative expenses, other operating expenses and government subsidies. Operating costs and expenses for the fourth quarter of 2015 were RMB526.7 million (US\$81.3 million), an 88.5% increase from the corresponding period in 2014. The increase was mainly due to a RMB31.9 million decrease in government subsidies received in the fourth quarter of 2015 compared with the fourth quarter of 2014, and an increase in marketing expenses for the wealth management business and internet finance business segments, as well as an increase in compensation expenses. The increase in compensation expenses was partially driven by a change in product mix to more products with recurring service fees and longer durations.

Wealth Management Business

Operating costs and expenses for the fourth quarter of 2015 were RMB381.0 million (US\$58.8 million), a 105.5% increase from the corresponding period in 2014.

Compensation and benefits includes compensation for relationship managers and back-office employees. Compensation and benefits for the fourth quarter of 2015 were RMB257.3 million (US\$39.7 million), a 76.3% increase from the corresponding period in 2014. In the fourth quarter of 2015, relationship manager compensation increased by 61.8% from the corresponding period in 2014, reflecting an increase in the aggregate value of financial products distributed and an increase in the commission rate paid to relationship managers driven by the change in product mix to more products with recurring service fees and longer duration. Other compensation for the fourth quarter of 2015 increased by 99.9% from the corresponding period in 2014, primarily driven by an increase in the number of back-office employees.

Selling expenses for the fourth quarter of 2015 were RMB74.9 million (US\$11.6 million), a 56.6% increase from the corresponding period in 2014, primarily due to an increase in client events and other marketing initiatives, and an increase in rental fees.

General and administrative expenses for the fourth quarter of 2015 were RMB30.8 million (US\$4.7 million), an 11.6% increase from the corresponding period in 2014, mainly due to an increase in rental and related expenses.

Other operating expenses, which include other costs incurred directly in relation to the Company's revenues, for the fourth quarter of 2015 were RMB33.1 million (US\$5.1 million), an increase of 279.2% from the corresponding period in 2014. The increase was primarily due to the growth of other businesses within the wealth management segment.

Government subsidies represent cash subsidies received from local governments for general corporate purposes. The Company received RMB15.0 million (US\$2.3 million) in government subsidies in the fourth quarter of 2015, compared to RMB44.6 million in the corresponding period of 2014.

Asset Management Business

Operating costs and expenses for the fourth quarter of 2015 were RMB74.5 million (US\$11.5 million), a 29.0% increase from the corresponding period in 2014.

Compensation and benefits include compensation of managers of institutional client relationships, fund managers and back-office employees. Compensation and benefits for the fourth quarter of 2015 were RMB43.6 million (US\$6.7 million), a 45.4% increase from the corresponding period in 2014. The increase was primarily due to an increase in the number of back-office employees and performance fee compensation to fund managers as higher performance-based income was recognized in the fourth quarter of 2015 compared to the corresponding period in 2014.

Selling expenses for the fourth quarter of 2015 were RMB3.7 million (US\$0.6 million), compared with RMB2.8 million in the corresponding period of 2014, an increase of 34.2%, primarily due to an increase in brand promotion expenses.

General and administrative expenses for the fourth quarter of 2015 were RMB21.6 million (US\$3.3 million), a 22.9% decrease from the corresponding period in 2014, primarily due to decreased consultant expenses.

Government subsidies represent cash subsidies received from local governments for general corporate purposes. The Company received RMB1.4 million (US\$0.2 million) in government subsidies in the fourth quarter of 2015, compared to RMB4.2 million in the corresponding period in 2014.

Internet Finance Business

Operating costs and expenses for the fourth quarter of 2015 were RMB71.2 million (US\$11.0 million), a 96.8% increase from the corresponding period in 2014, and represented the Company's expenses in human resources, marketing and internet infrastructure, as well as expenses incurred in promoting the Company's internet finance business. Operating costs and expenses for the fourth quarter of 2015 primarily consisted of compensation and benefits of RMB40.4 million (US\$6.2 million), selling expenses of RMB11.9 million (US\$1.8 million), general and administrative expenses of RMB12.5 million (US\$1.9 million) and other operating expenses of RMB6.8 million (US\$1.1 million).

Operating Margin

Operating margin for the fourth quarter of 2015 was 8.2% compared to 28.2% for the corresponding period in 2014. The decrease was primarily due to the growth in relationship manager compensation, resulting from changes in the product mix, exceeding the growth in net revenues, and the RMB31.9 million decrease in government subsidies received in the fourth quarter of 2015 compared with the fourth quarter of 2014. Compared to fixed income products, private equity products tend to bring Noah recurring revenues for longer periods. To encourage marketing of private equity products, the Company offers higher incentives to its relationship managers for successful sales of this type of product. Private equity products accounted for 32.0% of total finance products distributed during the fourth quarter of 2015, compared with 19.2% for the fourth quarter of 2014. The significant growth in private equity products distributed led to a significant increase in relationship manager commission expenses. As noted earlier, 99% of private equity products distributed in the fourth quarter of 2015 have recurring service fees with an average duration of 7.9 years, as compared to an average duration of 1.1 years for fixed income products.

Wealth Management Business

Operating margin for the fourth quarter of 2015 was 11.7%, compared to 40.5% for the corresponding period in 2014. The decrease was mainly due to higher growth rate of operating costs and expenses compared to the growth rate of net revenues in the fourth quarter of 2015.

Asset Management Business

Operating margin increased to 41.4% for the fourth quarter of 2015 from 17.4% for the corresponding period in 2014. The increase was primarily due to the increase of revenues in the fourth quarter of 2015, compared to the corresponding period in 2014.

Internet Finance Business

Operating loss for the fourth quarter of 2015 was RMB56.0 million (US\$8.6 million) compared with RMB28.6 million for the corresponding period of the prior year.

Income Tax Expenses

Income tax expenses for the fourth quarter of 2015 were RMB7.1 million (US\$1.1 million), a 78.5% decrease from the corresponding period in 2014. The decrease was primarily due to the combined impact of a lower effective tax rate and lower taxable income.

Net Income

Net Income

Net income attributable to Noah shareholders for the fourth quarter of 2015 was RMB83.5 million (US\$12.9 million), a 7.9% decrease from the corresponding period in 2014.

Net margin for the fourth quarter of 2015 was 13.1%, as compared to 23.6% for the corresponding period in 2014.

Net income per basic and diluted ADS for the fourth quarter of 2015 was RMB1.49 (US\$0.23) and RMB1.46 (US\$0.23), respectively, as compared to RMB1.62 and RMB1.60, respectively, for the corresponding period in 2014.

Non-GAAP Net Income Attributable to Noah Shareholders

Non-GAAP net income attributable to Noah shareholders for the fourth quarter of 2015 was RMB106.2 million (US\$16.4 million), an 11.4% increase from the corresponding period in 2014.

Non-GAAP net margin for the fourth quarter of 2015 was 17.0%, as compared to 24.8% for the corresponding period in 2014.

Non-GAAP net income per diluted ADS for the fourth quarter of 2015 was RMB1.84 (US\$0.28), as compared to RMB1.69 for the corresponding period in 2014.

FULL YEAR 2015 FINANCIAL RESULTS

Net Revenues

Net revenues for the full year 2015 were RMB2,119.9 million (US\$327.3 million), a 38.7% increase from 2014, primarily due to increases in one-time commission revenues, recurring service fees and performance-based income.

Wealth Management Business

Net revenues from one-time commissions for the full year 2015 were RMB772.3 million (US\$119.2 million), a 35.5% increase from 2014. The increase was primarily due to an increase in the aggregate value of the wealth management products distributed by the Company.

Net revenues from recurring service fees for the full year 2015 were RMB624.6 million (US\$96.4 million), a 12.9% increase from 2014. The increase was mainly due to the cumulative effect of finance products with recurring service fees previously distributed by the Company, which was partially offset by the impact of lower recurring service fee rates due to a change in product mix.

Net revenues from performance-based income for the full year 2015 were RMB134.3 million (US\$20.7 million), a 1,269.6% increase from 2014, primarily consisting of performance-based income received for the positive performance of the secondary equity market fund products distributed by the Company.

Net revenues from other service fees for the full year 2015 were RMB66.2 million (US\$10.2 million), representing a 426.6% increase from 2014.

Asset Management Business

Net revenues from recurring service fees for the full year 2015 were RMB359.0 million (US\$55.4 million), a 28.6% increase from 2014. The increase was primarily due to the increase in assets under

management by the Company, which was partially offset by the impact of lower management fee rates due to a change in composition of asset types under management.

Net revenues from performance-based income for the full year 2015 were RMB100.9 million (US\$15.6 million), a 17.3% increase from the full year 2014, primarily consisting of performance-based income received for the positive performance of secondary equity market funds managed by the Company.

Internet Finance Business

Net revenues for the full year 2015 were RMB57.4 million (US\$8.9 million), a 241.1% increase from the full year 2014, primarily because this is a new and fast growing business segment for the Company.

Operating costs and expenses

Operating costs and expenses include compensation and benefits, selling expenses, general and administrative expenses, other operating expenses and government subsidies. Operating costs and expenses for the full year 2015 were RMB1,561.2 million (US\$241.0 million), a 60.1% increase from 2014. The increase in compensation expenses was partially driven by a change in product mix to more products with recurring service fees and longer durations.

Wealth Management Business

Operating costs and expenses for the full year 2015 were RMB1,131.5 million (US\$174.7 million), a 61.5% increase from 2014.

Compensation and benefits includes compensation for relationship managers and back-office employees. Compensation and benefits for the full year 2015 were RMB855.9 million (US\$132.1 million), a 60.2% increase from 2014. In 2015, relationship manager compensation increased by 58.8% from 2014, reflecting an increase in the aggregate value of financial products distributed and an increase in commission rates to relationship managers driven by the change in product mix to more products with recurring service fees and longer durations. Other compensation for the full year 2015 increased by 62.2% from 2014, primarily due to increases in both the number of back-office employees and share-based compensation.

Selling expenses for the full year 2015 were RMB219.3 million (US\$33.9 million), a 62.1% increase from 2014. The increase was primarily due to an increase in marketing initiatives and rental fees.

General and administrative expenses for the full year 2015 were RMB78.9 million (US\$12.2 million), a 5.6% increase from 2014.

Other operating expenses, which include other costs incurred directly in relation to the Company's revenues, for the full year 2015 were RMB53.4 million (US\$8.2 million), an increase of 125.8% from 2014. The increase was primarily due to the growth of other businesses within the wealth management segment.

Government subsidies represent cash subsidies received from local governments for general corporate purposes. The Company received RMB76.0 million (US\$11.7 million) in government subsidies in the full year 2015, compared to RMB67.3 million in 2014.

Asset Management Business

Operating costs and expenses for the full year 2015 were RMB217.4 million (US\$33.6 million), an 11.4% increase from 2014.

Compensation and benefits include compensation of managers of institutional client relationships, fund managers and back-office employees. Compensation and benefits for the full year 2015 were RMB183.5 million (US\$28.3 million), a 24.6% increase from the full year 2014. The increase was primarily due to an increase in the number of back-office employees.

Selling expenses for the full year 2015 were RMB17.3 million (US\$2.7 million), a 77.1% increase from 2014.

General and administrative expenses for the full year 2015 were RMB53.6 million (US\$8.3 million), a 10.9% decrease from 2014, primarily due to decreased legal fees.

Government subsidies represent cash subsidies received from local governments for general corporate purposes. The Company received RMB56.3 million (US\$8.7 million) in government subsidies in the full year 2015, a 138.6% increase from 2014.

Internet Finance Business

Operating costs and expenses for the full year 2015 were RMB212.3 million (US\$32.8 million), an increase of 166.9% from 2014, and represent the Company's expenses in human resources, marketing and internet infrastructure, as well as expenses incurred in promoting the Company's internet finance business. Operating costs and expenses primarily consisted of compensation and benefits of RMB125.1 million (US\$19.3 million), selling expenses of RMB27.3 million (US\$4.2 million), general and administrative expenses of RMB38.5 million (US\$5.9 million) and other operating expenses of RMB21.8 million (US\$3.4 million).

Operating Margin

Operating margin for the full year 2015 was 26.4%, as compared to 36.2% for the full year 2014. The decrease was mainly due to the growth in relationship manager compensation, resulting from the change in product mix year-over-year, being higher than the growth in net revenues, and the Company's continuous investments in developing its internet finance business. Compared to fixed income products, private equity products tend to bring Noah recurring revenues for longer periods. As noted earlier, 98% of private equity products distributed in 2015 have recurring service fees with an average duration of 7.4 years, as compared to an average duration of 1.2 years for fixed income products. To encourage marketing of private equity products, the Company offers higher incentives to its relationship managers for successful sales of this type of products. Private equity products accounted for 32.2% of total financial products distributed in 2015, compared with 18.9% in 2014. The significant growth in private equity products distributed led to a significant increase in relationship manager commission expenses.

Wealth Management Business

Operating margin for the full year 2015 was 29.2%, compared to 38.8% for the full year 2014. The decrease was mainly due to higher growth rate of operating costs and expenses compared to the growth rate of net revenues in 2015.

Asset Management Business

Operating margin increased to 53.2% for the full year 2015 from 46.7% for 2014. The increase was primarily due to the increase of performance-based income in the full year 2015, compared to 2014.

Internet Finance Business

Operating loss for the full year 2015 was RMB154.8 million (US\$23.9 million) compared with RMB62.7 million for 2014.

Income Tax Expenses

Income tax expenses for the full year 2015 were RMB129.9 million (US\$20.1 million), a 14.1% decrease from 2014. The decrease was primarily due to a lower effective tax rate of the Company for the full year 2015 as compared to 2014.

Net Income

Net Income

Net income attributable to Noah shareholders for the full year 2015 was RMB535.8 million (US\$82.7 million), a 20.0% increase from 2014.

Net margin for the full year 2015 was 24.8%, as compared to 30.3% for 2014.

Net income per basic and diluted ADS for the full year 2015 was RMB9.54 (US\$1.47) and RMB9.15 (US\$1.41), respectively, as compared to RMB8.01 and RMB7.91, respectively, for 2014.

Non-GAAP Net Income Attributable to Noah Shareholders

Non-GAAP net income attributable to Noah shareholders for the full year 2015 was RMB603.5 million (US\$93.2 million), a 25.9% increase from 2014.

Non-GAAP net margin attributable to Noah shareholders for the full year 2015 was 28.5%, as compared to 31.4% for 2014.

Non-GAAP net income per diluted ADS for the full year 2015 was RMB10.28 (US\$1.59), as compared to RMB8.49 for 2014.

Balance Sheet and Cash Flow

As of December 31, 2015, the Company had RMB2,132.9 million (US\$329.3 million) in cash and cash equivalents, compared to RMB1,750.2 million as of December 31, 2014 and RMB1,788.5 million as of September 30, 2015.

Cash inflow from the Company's operating activities during the fourth quarter of 2015 was RMB247.2 million (US\$38.2 million). Cash inflow from the Company's operating activities for the full year of 2015 was RMB675.1 million (US\$104.2 million), an increase from RMB589.6 million for the full year of 2014, mainly due to the improvement in account receivable turnover and the temporary impact of deferring payments for certain compensation

and benefits, and other expenses, resulting in an increase in accruals and payables.

Cash inflow from the Company's investing activities during the fourth quarter of 2015 was RMB87.5 million (US\$13.5 million). Cash outflow from the Company's investing activities for the full year of 2015 was RMB759.5 million (US\$117.2 million), an increase from RMB93.5 million for the full year of 2014, primarily due to an increase in investments in short-term and long-term investments, and increased capital expenditures.

Cash outflow from the Company's financing activities for the fourth quarter of 2015 was RMB1.7 million (US\$0.3 million). Cash inflow from the Company's financing activities was RMB462.8 million (US\$71.4 million) for the full year of 2015.

On July 8, 2015, the Company's board of directors authorized a share repurchase program of up to US\$50 million worth of its issued and outstanding ADSs over the course of one year. As of December 31, 2015, the Company had repurchased 356,515 ADSs for approximately US\$7.0 million under this program, inclusive of transaction charges.

2016 FORECAST

The Company estimates that non-GAAP net income attributable to Noah shareholders for the full year 2016 will be in the range of RMB690 million to RMB720 million, an increase of 14.4% to 19.4% compared to the full year 2015. This estimate reflects management's current business outlook and is subject to change.

DISCUSSION OF NON-GAAP FINANCIAL MEASURES:

In addition to disclosing financial results prepared in accordance with U.S. GAAP, the Company's earnings release contains non-GAAP financial measures that exclude the effects of all forms of share-based compensation. The reconciliation of these non-GAAP financial measures to the nearest GAAP measures is set forth in the table captioned "Reconciliation of GAAP to Non-GAAP Results" below.

The non-GAAP financial measures disclosed by the Company should not be considered a substitute for financial measures prepared in accordance with U.S. GAAP. The financial results reported in accordance with U.S. GAAP and reconciliation of GAAP to non-GAAP results should be carefully evaluated. The non-GAAP financial measure used by the Company may be prepared differently from, and therefore may not be comparable to, similarly titled measures used by other companies.

When evaluating the Company's operating performance in the periods presented, management reviewed non-GAAP net income results reflecting adjustments to exclude the impact of share-based compensation to supplement U.S. GAAP financial data. As such, the Company believes that the presentation of the non-GAAP net income, non-GAAP income per diluted ADS and non-GAAP net margin provides important supplemental information to investors regarding financial and business trends relating to the Company's financial condition and results of operations in a manner consistent with that used by management. Pursuant to U.S. GAAP, the Company recognized significant amounts of expenses for the restricted shares and share options in the periods presented. The Company utilized the non-GAAP financial results to make financial results comparable period to period and to better understand its historical business operations.
