PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights certain information about our business and about this offering of common stock contained elsewhere or incorporated by reference into this prospectus supplement. Because it is a summary, it does not contain all of the information that you should consider before investing in our common stock. Our Company

We are a leading supplier and manufacturer of building materials, manufactured components and construction services to professional contractors, sub-contractors, and consumers. Following our acquisition of ProBuild in July 2015, the Company operates approximately 396 locations in 40 states across the United States. We offer an integrated solution to our customers providing manufacturing, supply and installation of a full range of structural and related building products. Our manufactured products include our factory-built roof and floor trusses, wall panels and stairs, vinyl windows, custom millwork and trim, as well as engineered wood that we design, cut, and assemble for each home. We also assemble interior and exterior doors into pre-hung units. Additionally, we supply our customers with a broad offering of professional grade building products not manufactured by us, such as dimensional lumber and lumber sheet goods and various window, door and millwork lines. Our full range of construction-related services includes professional installation, turn-key framing and shell construction, and spans all our product categories.

We group our building products into six product categories:

Lumber & Lumber Sheet Goods. Lumber & lumber sheet goods include dimensional lumber, plywood and oriented strand board products used in on-site house framing.

Windows, Door & Millwork. Windows & doors are comprised of the manufacturing, assembly, and distribution of windows and the assembly and distribution of interior and exterior door units. Millwork includes interior trim, exterior trim, columns and posts that we distribute, as well as custom exterior features that we manufacture under the Synboard® brand name.

Manufactured Products. Manufactured products consist of wood floor and roof trusses, steel roof trusses, wall panels, stairs, and engineered wood.

Gypsum, Roofing & Insulation. Gypsum, roofing, and insulation include wallboard, metal studs and trims, ceilings, joint treatment and finishes, stucco and exteriors.

Siding, metal, and concrete. Siding, metal, and concrete include vinyl, composite, and wood siding, other exteriors, and cement.

Other Building Products & Services. Other building products & services are comprised of products such as cabinets and hardware as well as services such as turn-key framing, shell construction, design assistance, and professional installation spanning the majority of our product categories.

On July 31, 2015, we acquired all of the operating affiliates of ProBuild through the purchase of all issued and outstanding equity interests of ProBuild for \$1.63 billion in cash, subject to certain adjustments. Previously headquartered in Denver, Colorado, ProBuild is one of the nation's largest professional building materials suppliers. We believe that the ProBuild acquisition will lead to greater diversification and scale, an improved geographic footprint, and significant potential cost savings.

RISK FACTORS

*Investing in our securities involves a high degree of risk. You should carefully consider the specific risks described below, as well as other information contained in this prospectus supplement, the accompanying prospectus and the documents incorporated herein by reference, including the risks described in our Annual Report on Form 10-K for the year ended December 31, 2015 and any risks described in our other filings with the SEC incorporated into the accompanying prospectus by reference, before making an investment decision. See the section of this prospectus supplement entitled *Where You Can Find Additional Information*. Any of the risks we describe below or in the information incorporated herein by reference could cause our business, financial condition, or operating results to suffer. The market price of our common stock could decline if one or more of these risks and uncertainties develop into actual events. You could lose all or part of your investment. Some of the statements in this section of the prospectus supplement are forward-looking statements. For more information about forward-looking statements, please see the section of this prospectus supplement entitled *Disclosure Regarding Forward-Looking Statements*.*

Risks Related to our Common Stock

The trading price of our common stock has been and may continue to be subject to wide fluctuations.

Between May 1, 2015 and May 17, 2016, the closing sale price of our common stock on the NASDAQ ranged from \$6.59 to \$16.44 per share. Our stock price may fluctuate in response to a number of events and factors, such as those described in this **Risk Factors** section and those events described or incorporated by reference into this prospectus supplement and the accompanying prospectus. Additionally, the amount of our leverage may hinder the demand for our common stock, which could have a material adverse effect on the market price of our common stock.

The price of our common stock is volatile and may decline.

The market price of our common stock historically has experienced and may continue to experience significant price fluctuations similar to those experienced by the broader stock market in recent years. In addition, the price of our common stock may fluctuate significantly in response to various factors, including:

actual or anticipated fluctuations in our results of operations;

announcements by us or our competitors of significant business developments, changes in customer relationships, acquisitions, or expansion plans;

changes in the prices of products we sell;

involvement in litigation;

our sale of common stock or other securities in the future;

market conditions in our industry;

changes in key personnel;

changes in market valuation or earnings of our competitors;

the trading volume of our common stock;

changes in the estimation of the future size and growth rate of our markets; and

general economic and market conditions.

Broad market and industry factors may materially harm the market price of our common stock, regardless of our operating performance. In the past, following periods of volatility in the market price of a company's securities, securities class action litigation has often been instituted against that company. If we were involved in any

S-4

Table of Contents

similar litigation we could incur substantial costs and our management's attention and resources could be diverted, which could adversely affect our financial condition, results of operations and cash flows. As a result, it may be difficult for you to resell your shares of common stock in the future.

Significant sales of our common stock, or the perception that significant sales may occur in the future, could adversely affect the market price of our common stock.

The sale of substantial amounts of our common stock could adversely affect the price of our common stock. Sales of substantial amounts of our common stock in the public market, and the availability of shares for future sale, including 7,140,983 shares of our common stock issuable as of May 17, 2016, upon exercise of outstanding vested and unvested options to acquire shares of our common stock and through the conversion of restricted stock units under our stock incentive plans, including the 2014 Incentive Plan, as it may be amended, could adversely affect the prevailing market price of our common stock and could cause the market price of our common stock to remain low for a substantial time. Additional options may also be granted under our incentive plans, including our 2014 Incentive Plan, as it may be amended. Further, affiliates of JLL Fund V and Warburg Pincus collectively own approximately 34.2% of our outstanding common stock as of May 17, 2016. After completion of this offering, JLL will own approximately 22.1% of our outstanding common stock and Warburg Pincus will no longer own any shares of our common stock. Affiliates of Warburg Pincus are selling all of their remaining shares of common stock pursuant to a shelf registration statement dated November 26, 2014 and JLL Fund V or its affiliates may offer additional shares of our common stock in the future. We cannot foresee the effect of such potential sales on the market, but it is possible that if a significant percentage of such available shares were attempted to be sold within a short period of time, the market for our shares of common stock would be adversely affected. It is also unclear whether or not the market for our common stock could absorb a large number of attempted sales in a short period of time, regardless of the price at which they might be offered. Even if a substantial number of sales do not occur within a short period of time, the mere existence of this market overhang could have a negative effect on the market for our common stock and our ability to raise additional capital.

We do not have any current plan to pay, and are restricted in our ability to pay, any dividends on our common stock, and as a result, your only opportunity to achieve a return on your investment in our common stock is if the price of our common stock increases.

We anticipate that we will retain all future earnings and other cash resources for the future operation and development of our business. Accordingly, we do not intend to declare or pay regular cash dividends on our common stock in the near future. Payment of any future dividends will be at the discretion of our board of directors after taking into account many factors, including our operating results, financial condition, current and anticipated cash needs and plans for expansion. The declaration and payment of any dividends on our common stock is also restricted by the terms of our outstanding indebtedness.

Provisions of our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws could delay or prevent a takeover of us by a third party and may prevent attempts by stockholders to replace or remove our current management.

Provisions in our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws and of Delaware law may make it difficult and expensive for a third party to pursue a tender offer, change in control or takeover attempt that is opposed by our management and board of directors. These provisions include the following:

Staggered board of directors;

Elimination of stockholder action through written consent;

Elimination of the ability to call special meetings;

Advance notice procedures for stockholder proposals;

Limitations on the removal of directors;

S-5

Table of Contents

Process for filling board of directors vacancies; and

Supermajority requirements for amendment of certificate of incorporation and bylaws.

In addition, Section 203 of the Delaware General Corporation Law may discourage, delay or prevent a change in control by prohibiting us from engaging in a business combination with an interested stockholder for a period of three years after a person becomes an interested stockholder. These provisions could limit the price that certain investors might be willing to pay in the future for shares of our common stock and limit the return, if any, you are able to achieve on your investment in us.

Factors, risks, and uncertainties that could cause actual outcomes and results to be materially different from those contemplated include, among others:

dependence on the residential building industry, the commercial building industry, as well as the economy, the credit markets and other important factors;

uncertainty surrounding the economy and credit markets;

cyclical and seasonal nature of the building products supply industry;

product shortages, fluctuations in the prices of raw materials, loss of key suppliers, and our dependence on third-party suppliers and manufacturers;

additional impairment charges or the need to idle or permanently close under-performing locations;

our ability to renew long-term leases for our facilities;

influence of significant stockholders;

loss of significant customers;

competition in the highly fragmented building products supply industry;

pricing pressure from our customers;

our future capital needs and our ability to obtain additional financing on acceptable terms;

our level of indebtedness and our ability to meet our obligations under our debt instruments;

our incurrence of additional indebtedness and our inability to take certain actions because of restrictions in our debt agreements;

our reliance on our subsidiaries;

dependence on key personnel;

exposure to product liability, product warranty, casualty, construction defect and other liability claims;

variability of our quarterly revenues and earnings;

disruptions at our facilities or in our information technology systems;

our ability to execute our strategic plans;

exposure to environmental liabilities and regulation;

economic and financial uncertainty resulting from terrorism and war; and

risks related to the acquisition of ProBuild, including:

our failure to obtain the anticipated benefits and costs savings from the acquisition; and

the impact of the additional debt we incurred to finance the acquisition.

Many of the important factors that will determine these results are beyond our ability to control or predict. You are cautioned not to put undue reliance on any forward-looking statements, which speak only as of the date of this prospectus supplement and the accompanying prospectus, as applicable, or, in the case of documents incorporated by reference, as of the date of such documents. Except as otherwise required by law, we do not assume any obligation to publicly update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this prospectus supplement and the accompanying prospectus or to reflect the occurrence of unanticipated events.

We have not paid regular dividends in the past and do not expect to pay any dividends or other distributions on our shares of common stock in the foreseeable future. Any future determination relating to our dividend policy will be made at the discretion of our board of directors and will depend on a number of factors, including restrictions in our debt instruments, as well as our future earnings, capital requirements, financial condition, prospects, and other factors that our board of directors may deem relevant. U.S. FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS OF COMMON STOCK

The following is a summary of U.S. federal income tax considerations generally applicable to non-U.S. holders (as defined below) with respect to the ownership and disposition of our common stock. This summary applies only to non-U.S. holders who purchase our common stock in this offering and hold our common stock as a capital asset (generally, property held for investment purposes). This summary does not address all aspects of U.S. federal income taxation that may be relevant to particular non-U.S. holders in light of their individual circumstances or the U.S. federal income tax consequences applicable to non-U.S. holders that are subject to special rules, such as controlled foreign corporations, passive foreign investment companies, corporations that accumulate earnings to avoid U.S. federal income tax, banks or other financial institutions, insurance companies, tax-exempt organizations (including private foundations), U.S. expatriates, broker-dealers and traders in securities or currencies, non-U.S. holders that hold common stock as part of a straddle, hedge, conversion transaction or other integrated investment.

This summary is based on provisions of the Internal Revenue Code of 1986, as amended, U.S. Treasury regulations promulgated thereunder and administrative and judicial interpretations thereof, all as in effect on the date hereof, and all of which are subject to change or differing interpretation, possibly on a retroactive basis. The summary does not describe any U.S. state, local or non-U.S. income or other tax consequences (including estate, gift and Medicare contribution tax consequences) of owning and disposing of our common stock.

For purposes of this summary, the term non-U.S. holder means a beneficial owner of our common stock that is, for U.S. federal income tax purposes, neither a partnership (or an entity or arrangement classified as a partnership for U.S. federal income tax purposes) nor any of the following:

a citizen or individual resident of the United States;

a corporation, or other entity treated as a corporation for U.S. federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or

a trust if (a) a United States court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (b) the trust has a valid election in effect under applicable U.S. Treasury Regulations to be treated as a U.S. person.

If a partnership (including any entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our common stock, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. Partnerships holding our common stock, and partners in such partnerships, should consult their tax advisers as to the U.S. federal income tax consequences applicable to them in their particular circumstances.

EACH NON-U.S. HOLDER IS URGED TO CONSULT ITS TAX ADVISER REGARDING THE U.S. FEDERAL, STATE, LOCAL, AND NON-U.S. INCOME AND OTHER TAX CONSEQUENCES OF OWNING AND DISPOSING OF OUR COMMON STOCK.

Distributions on Common Stock

Distributions on our common stock generally will be treated as dividends to the extent paid from our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. If a distribution exceeds our current and accumulated earnings and profits, the excess will be treated first as a return of capital to the extent of a non-U.S. holder's adjusted tax basis in our common stock and thereafter as capital gain from the sale or exchange of such common stock, subject to the tax treatment described below in Sale, Exchange or Other

S-12

Table of Contents

Taxable Disposition of Common Stock. Generally, the gross amount of dividends paid to a non-U.S. holder with respect to our common stock will be subject to withholding of U.S. federal income tax at a rate of 30%, or at a lower rate if an applicable income tax treaty so provides and we (or our agent) have received proper certification as to the application of that treaty.

Dividends that are effectively connected with a non-U.S. holder's conduct of a trade or business within the United States (and, if required by an applicable tax treaty, are attributable to a U.S. permanent establishment of the non-U.S. holder) are generally subject to U.S. federal income tax on a net income basis and are exempt from the 30% withholding tax described above (assuming compliance with certain certification requirements). Any such effectively connected dividends received by a non-U.S. holder that is a corporation may also, under certain circumstances, be subject to an additional branch profits tax at a rate of 30% (or lower applicable treaty rate).

To claim the benefit of an applicable tax treaty or an exemption from withholding because the income is effectively connected with the conduct of a trade or business in the United States, a non-U.S. holder generally will be required to provide a properly executed Internal Revenue Service (IRS) Form W-8BEN or W-8BEN-E (if the holder is claiming the benefits of an income tax treaty) or IRS Form W-8ECI (for income effectively connected with a trade or business in the United States) or other suitable form. If you are a non-U.S. holder, you may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. holders should consult their tax advisers regarding their entitlement to benefits under an applicable income tax treaty and the specific manner of claiming the benefits of the treaty.

Sale, Exchange or Other Taxable Disposition of Common Stock

A non-U.S. holder generally will not be subject to U.S. federal income or withholding tax with respect to gain on the sale, exchange or other taxable disposition of our common stock unless (i) the gain is effectively connected with such non-U.S. holder's conduct of a trade or business within the United States (and, if required by an applicable tax treaty, is attributable to a U.S. permanent establishment of such non-U.S. holder), (ii) in the case of a non-U.S. holder that is a non-resident alien individual, such non-U.S. holder is present in the United States for 183 or more days in the taxable year of disposition and certain other requirements are met, or (iii) we are or have been a United States real property holding corporation for U.S. federal income tax purposes at any time within the shorter of the five-year period ending on the date of such sale, exchange, or other taxable disposition or the period that such non-U.S. holder held our common stock and either (a) our common stock was not treated as regularly traded on an established securities market at any time during the calendar year in which the sale, exchange or other taxable disposition occurs, or (b) such non-U.S. holder owns or owned (actually or constructively) more than five percent of our common stock at any time during the shorter of the two periods mentioned above. We have determined that we are not currently a U.S. real property holding corporation.

If gain or loss is effectively connected with a non-U.S. holder's conduct of a trade or business within the United States (and, if required by an applicable tax treaty, is attributable to a U.S. permanent establishment of such non-U.S. Holder), the U.S. Holder will be subject to U.S. federal income tax on the disposition of our common stock on a net income basis in the same manner in which citizens or residents of the United States would be subject to U.S. federal income tax. In the case of a non-U.S. holder that is a foreign corporation, such gain may also be subject to an additional branch profits tax at a rate of 30% (or a lower applicable treaty rate). If a non-U.S. holder is an individual that is present in the United States for 183 or more days in the taxable year of disposition and certain other requirements are met, the non-U.S. holder generally will be subject to a flat income tax at a rate of 30% (or lower applicable treaty rate) on any capital gain recognized on the disposition of our common stock, which may be offset by certain U.S. source capital losses.

Information Reporting and Backup Withholding

You generally will be required to comply with certain certification procedures to establish that you are not a U.S. person in order to avoid backup withholding with respect to dividends or the proceeds of a sale, exchange or

other taxable disposition of common stock. In addition, we are required to annually report to the IRS and you the amount of any dividends paid to you, regardless of whether we actually withheld any tax. Copies of the information returns reporting such dividends and the amount withheld may also be made available to the tax authorities in the country in which you reside under the provisions of an applicable income tax treaty. Any amounts withheld under the backup withholding rules generally will be allowed as a refund or credit against your U.S. federal income tax liability, provided that certain required information is provided on a timely basis to the IRS.

Foreign Account Tax Compliance Act

Withholding at a rate of 30% generally will be required in certain circumstances on dividends in respect of, and, after December 31, 2018, gross proceeds from the sale or other disposition of, shares of our common stock held by or through certain foreign financial institutions (including investment funds), unless such institution (i) enters into, and complies with, an agreement with the IRS to report, on an annual basis, information with respect to interests in, or accounts maintained by, the institution that are owned by certain U.S. persons or by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments, or (ii) if required under an intergovernmental agreement between the United States and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. Accordingly, the entity through which our common stock is held will affect the determination of whether such withholding is required. Similarly, dividends in respect of, and after December 31, 2018, gross proceeds from the sale or other disposition of, our common stock held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exceptions generally will be subject to withholding at a rate of 30%, unless such entity either (i) certifies to us or our paying agent that such entity does not have any substantial United States owners or (ii) provides certain information regarding the entity's substantial United States owners, which we will in turn provide to the U.S. Department of the Treasury. Prospective investors should consult their tax advisers regarding the possible implications of these rules on their investment in our common stock.

UNDERWRITING

We, the selling stockholder and Credit Suisse Securities (USA) LLC and Deutsche Bank Securities Inc., as the underwriters, have entered into an underwriting agreement with respect to the 13,263,266 shares of common stock being offered hereby. Subject to certain conditions, the underwriters have agreed to purchase the shares at a price of \$ _____ per share (resulting in net proceeds to the selling stockholder (before expenses) of approximately \$ _____ million).

The underwriting agreement provides that the underwriters are obligated to purchase all the shares of common stock in the offering if any are purchased.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel including the validity of the shares, and subject to other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions.

The underwriters propose to offer the shares for sale from time to time in one or more transactions (which may include block transactions), in negotiated transactions or otherwise, or a combination of those methods of sale, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by the underwriters and subject to the underwriters' right to reject any order in whole or in part. The underwriters may do so by selling the shares to or through broker/dealers, who may receive compensation in the form of underwriting discounts, concessions or commissions from the underwriters and/or the purchasers of the shares for whom they may act as agents or to whom they may sell as principal.

We estimate that the expenses for this offering will be approximately \$ _____.

We have agreed that for a period of 60 days after the date of this prospectus supplement, subject to certain exceptions, directly or indirectly, we will not take any of the following actions with respect to shares of our common stock or any securities convertible into or exchangeable or exercisable for our common stock (the "Lock-Up Securities"): (i) offer, sell, issue, contract to sell, pledge or otherwise dispose of Lock-Up Securities, (ii) offer, sell, issue, contract to sell, contract to purchase or grant any option, right or warrant to purchase Lock-Up Securities, (iii) enter into any swap, hedge or any other agreement that transfers, in whole or in part, the economic consequences of ownership of Lock-Up Securities, (iv) establish or increase a put equivalent position or liquidate or decrease a call equivalent position in Lock-Up Securities within the meaning of Section 16 of the Exchange Act or (v) file with the SEC a registration statement under the Securities Act of 1933, as amended (the "Securities Act") relating to Lock-Up Securities, or publicly disclose the intention to take any such action, without the prior written consent of each underwriter.

We and the selling stockholder have agreed to indemnify the underwriters against liabilities under the Securities Act or contribute to payments that the underwriters may be required to make in that respect.

Our common stock is listed on NASDAQ under the symbol "BLDR". On May 17, 2016, the closing price of our common stock as reported on NASDAQ was \$11.17 per share.

In connection with the offering, the underwriters may engage in short sales, syndicate covering transactions and penalty bids in accordance with Regulation M under the Exchange Act.

Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. The underwriters must close out any naked short position by purchasing shares in the open market.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a syndicate covering transaction to cover syndicate short positions.

These syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NASDAQ or otherwise and, if commenced, may be discontinued at any time.

A prospectus in electronic format may be made available on the web sites maintained by the underwriters participating in this offering, and the underwriters participating in this offering may distribute prospectuses electronically.

Each underwriter is a full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. Each underwriter and its affiliates have in the past performed commercial banking, investment banking and advisory services for us from time to time for which they have received customary fees and reimbursement of expenses and may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses. In the ordinary course of their various business activities, each underwriter and its affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters or their affiliates that have a lending relationship with us routinely hedge or may hedge, their credit exposure to us consistent with their customary risk management policies. A typical hedging strategy would include such entity hedging such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
